BARCLAYS OFFICIAL CALIFORNIA CODE OF REGULATIONS

REVISED EDITION

This edition of *Barclays Official California Code of Regulations*, revised on April 1, 1990, has been published under the direction of the California Office of Administrative Law which is solely responsible for its contents. Comments or questions regarding regulations published in this edition should be addressed to the State of California, Office of Administrative Law, 300 Capitol Mall, Suite 1250, Sacramento, CA 95814, (916) 323–6225. Errors reported will be promptly corrected in subsequent supplements.

OFFICIAL PUBLICATION

Courts are required to take judicial notice of contents of regulations published in the *Official California Code of Regulations* (Gov. Code, § 11344.6). *Barclays Official California Code of Regulations*, as revised April 1, 1990, has been certified by the Office of Administrative Law as the official publication of the State of California for this purpose pursuant to title 1, *California Code of Regulations*, section 190.

CODE SUPPLEMENTS

Amendments to the official Code are certified weekly by the Office of Administrative Law for publication by Barclays. These amendments, when certified and published, become part of the *Official California Code of Regulations*, beginning with Register 90, No. 14, dated April 7, 1990, and include all regulations filed with the Secretary of State on or after April 1, 1990. Amendment subscriptions to the entire revised Code, or to parts of it, are available from the publisher. For a descriptive brochure and order form, write Barclays Official California Code of Regulations, P.O. Box 2008, San Francisco, CA 94126 or telephone 800–888–3600.

CODE CITATION

Cite all materials in the *Official California Code of Regulations* by title number and section number. Example: Title 3, *California Code of Regulations*, section 432 (Short form: Cal. Code Regs., tit. 3, § 432).

Subdivision 1. Fish, Amphibians and Reptiles 1

Chapter 1. General Provisions and Definitions 1

§ 1.04. Anadromous Waters.
§ 1.05. Angling.
§ 1.08. Artificial Fly.
§ 1.11. Artificial Lure.
§ 1.14. Authorization for Taking Fish.
§ 1.17. Bag and Possession Limit.
§ 1.18. Bay–Delta Sport Fishing Enhancement Stamp.
§ 1.19. Barbless Hook.
§ 1.20. Black Bass.
§ 1.23. Bow and Arrow Fishing Tackle.
§ 1.24. Bullfrog.
§ 1.26. Bullhead.
§ 1.29. Catfish.
§ 1.32. Chumming.
§ 1.35. Closed or Closure.
§ 1.38. Closed Season.
§ 1.39. Coastal Pelagic Species.
§ 1.41. Dates.
§ 1.42. Dip Net.
§ 1.44. Dividing Line Between Lake and Stream.
§ 1.46. Finfish Defined.
§ 1.47. Fishing Closures (Special), Seasons and Bag and Size Limits.
§ 1.48. Gill Net.
§ 1.49. Highly Migratory Species.
§ 1.51. Hoopa Indian Salmon Possession Limit.
§ 1.52. Marking Requirements for Salmon Taken by Other Than Commercial Means.
§ 1.53. Inland Waters.
§ 1.56. Lake.
§ 1.59. Limit.
§ 1.60. Lure.
§ 1.61. Non–Buoyant Lure.
§ 1.62. Minimum and Maximum Size.
§ 1.63. Movement of Live Fish.
§ 1.65. Multiple Hook.
§ 1.67. Native Reptiles and Amphibians.
§ 1.68. Open Season.
§ 1.70. Opening Date and Bag Limit for Boundary Waters.
§ 1.71. Sacramento–San Joaquin River Delta.
§ 1.72. Stream (Includes Creeks and Rivers).
§ 1.73. Salmon.
§ 1.74. Sport Fishing Report Card and Tagging Requirements.
§ 1.75. Salmon Spawning Areas.
§ 1.76. Spearfishing.
§ 1.77. Sunfish.
§ 1.80. Take.
§ 1.84. Titles and Section Numbers.
§ 1.85. Trammel Net.
§ 1.86. Trout.
§ 1.87. Waste of Fish.
§ 1.88. Public Pier.
§ 1.90. Nearshore Fish Stocks, Nearshore Fisheries, Nearshore Waters, and Shallow Nearshore Rockfish Defined.
§ 1.91. Federal Groundfish and Rockfish, Cabezon and Greenling (RCG) Complex.
§ 1.92. Transgenic.
§ 1.93. Weight.

Chapter 2. Statewide Regulations for Fishing and Frogging in Inland Waters 6

Article 1. Fishing Methods and Gear Restrictions 6

§ 2.00. Fishing Methods—General.
§ 2.01. Limits on Weights and Hook Spacing.
§ 2.02. Fishing Methods—North Coast District.
§ 2.03. Special Upper Sacramento River Gear Restrictions.
§ 2.04. Fishing Methods—Special Provisions.
§ 2.05. Fishing Methods—General.
§ 2.06. Use of Gaffs.
§ 2.07. Underwater Viewing Devices.
§ 2.08. Special Fishing Methods and Bag Limits—Barrett and Upper Otay Lakes, San Diego County.
§ 2.09. Possession of Illegal Gear.
§ 2.10. Hook and Weight Restrictions.
§ 2.11. Special Fishing Methods—Lake County.
§ 2.12. Special Fishing Methods—Shasta County.
§ 2.13. Special Net Restriction—Santa Clara and Santa Cruz Counties.
§ 2.14. Special Fishing Methods—San Joaquin River.
§ 2.15. Use of Lights.
§ 2.20. Fishing Beneath Ice.
§ 2.25. Bow and Arrow Fishing.
§ 2.30. Spearfishing.
§ 2.35. Taking Fish near Dams, Fishways, Screens and Egg–Taking Stations.
§ 2.40. Chumming.
§ 2.45. Computer Assisted Remote Fishing.

Article 2. Fishing Hours 9

§ 3.00. Fishing Hours.

Article 3. Bait Regulations for Inland Waters 9

§ 4.00. Bait—General.
§ 4.05. Bait Fish Capture Methods.
§ 4.10. Bait Fish Use in the Southern District.
§ 4.15. Bait Fish Use in the Colorado River District.
§ 4.20. Bait Fish Use in the Valley and South Central Districts.
§ 4.25. Bait Fish Use in the North Central District.

Page

§ 4.30. Bait Fish Use in the Sierra and North Coast Districts.

Article 4. Species Regulations 11
§ 5.00. Black Bass.
§ 5.05. Amphibians.
§ 5.10. Candlefish or Eulachon.
§ 5.15. Catfish and Bullheads.
§ 5.20. Clams, Freshwater.
§ 5.25. Corvina in the Salton Sea.
§ 5.26. Gulf Croaker and Sargo in the Salton Sea.
§ 5.30. Crappie.
§ 5.35. Crayfish.
§ 5.37. Grass Carp.
§ 5.40. Lamprey.
§ 5.45. Marine Fin Fish, Mollusks and Crustaceans.
§ 5.50. Mountain Whitefish.
§ 5.51. Northern Pike.
§ 5.55. Mullet.
§ 5.60. Reptiles.
§ 5.65. Shad, American.
§ 5.70. Spiny Softshell Turtle in the Colorado River District.
§ 5.75. Striped Bass.
§ 5.79. White Sturgeon Report Card and Tagging Requirements for Inland Waters (FG 683, See Section 701).
§ 5.80. White Sturgeon.
§ 5.81. Green Sturgeon.
§ 5.82. Sunfish and Tilapia.
§ 5.85. Trout and Salmon.
§ 5.86. Hoopa and Yurok Indian Salmon Possession Limit.
§ 5.87. Klamath–Trinity Salmon Report Card Requirement (FG 684, See Section 701).
§ 5.88. Steelhead Report and Restoration Card Requirements for Inland Waters (FG 682, See Section 701).
§ 5.90. White Bass.
§ 5.93. Fully Protected Fishes.
§ 5.95. Other Species.

Chapter 3. Trout, Salmon and Special Regulations 18

Article 1. District Definitions 18
§ 6.00. Definition.
§ 6.05. Trout and Salmon.
§ 6.07. Bear Creek Trout Restrictions (San Bernadino Co.), from Big Bear Dam to Confluence of Santa Ana River.
§ 6.08. Big Bear Lake Tributaries Closure (San Bernadino Co.).
§ 6.10. Deep Creek Trout Restrictions (San Bernardino Co.), Only from Headwaters at Little Green Valley to Confluence of Willow Creek.
§ 6.13. Malibu Creek Trout Restrictions (Los Angeles Co.) Only from Mouth to Rindge Dam.
§ 6.15. Murray Lake Closure (San Diego Co.).
§ 6.20. San Gabriel River, West Fork, and Tributaries Trout Restrictions (Los Angeles Co.).
§ 6.25. Upper Otay Lake Closure (San Diego Co.).
§ 6.30. Ventura River and Tributaries Trout Restrictions (Ventura Co.).
§ 6.31. North Coast District Definition.
§ 6.32. North Central District Definition.
§ 6.33. South Central District Definition.
§ 6.34. Southern District Definition.
§ 6.35. Sierra District Definition.

Page

§ 6.36. Valley District Definition.
§ 6.37. Colorado River District Definition.

Article 2. District General Regulations 19
§ 7.00. District General Regulations.
§ 7.05. Trout.
§ 7.10. Imperial County Special Closure.
§ 7.15. Sunbeam Lagoon Closure (Imperial Co.).

Article 3. Alphabetical List of Waters with Special Fishing Regulations 20
§ 7.50. Alphabetical List of Waters with Special Fishing Regulations.

Article 4. Supplemental Regulations 26.14
§ 8.00. Low–Flow Restrictions.
§ 8.01. Special Gear Provisions.
§ 8.05. Trout and Salmon.
§ 8.07. Carmel River Winter Trout and Salmon Season, Limit and Special Provision (Monterey Co.), Only from Mouth to the Bridge at Robles Del Rio/Esquiline Roads.
§ 8.08. El Estero Lake Restrictions (Monterey Co.).
§ 8.10. Youth Fishing Derby, Susan River (Lassen County).
§ 8.15. Llagas Creek (Santa Clara Co.).
§ 8.16. Los Padres Reservoir Closure (Monterey Co.).
§ 8.20. Special Provisions Affecting California Indians.
§ 8.21. Mississippi Lake Trout Restrictions (Santa Clara Co.).
§ 8.25. Nacimiento River Season (Monterey and San Luis Obispo Cos.), Only from Nacimiento Reservoir to Hunter–Liggett Military Reservation.
§ 8.27. Pajaro River (Monterey, Santa Clara, Santa Cruz and San Benito Cos.).
§ 8.28. Pescadero Creek and Tributaries Closures (Santa Clara Co.).
§ 8.29. Redwood Creek and Tributaries Closures (Alameda Co.).
§ 8.30. San Clemente Creek and Tributaries Trout Restrictions, Except for Trout Lake (Monterey Co.).
§ 8.31. San Clemente Reservoir Closure (Monterey Co.).
§ 8.32. San Francisquito Creek and Tributaries Closures (Santa Clara and San Mateo Cos.).
§ 8.35. Uvas or Carnadero Creek (Santa Clara Co.).
§ 8.40. Whale Rock Reservoir Trout Restrictions (San Luis Obispo Co.).
§ 8.42. Wildcat Creek and Tributaries Closures (Contra Costa Co.).
§ 9.00. Definition.
§ 9.10. Trout and Salmon.
§ 9.11. Stream Closures: Special Low Flow Conditions.
§ 9.12. Central Coast Streams: Stream Closures: Special Low Flow Conditions.
§ 9.15. Berryessa Lake Trout and Salmon Limit (Napa Co.).
§ 9.20. Eel River Main Stem (Mendocino and Lake Cos.), Only from Mendocino–Trinity County Line to Scott Dam. (See North Coast District Regulations for Eel River in Humboldt and Trinity Cos.).

Page

§ 9.21. Eel River, Middle Fork (Mendocino Co.), Only Main Stem from Mouth to Bar Creek.
§ 9.23. Eel River, Middle Fork Tributaries (Mendocino Co.), Only Those Portions of Middle Fork Eel River Tributaries Above the Indian Dick/Eel River Ranger Station Road.
§ 9.24. Eel River, North Fork (Mendocino Co.), Only Main Stem and Tributaries from Mouth to Trinity–Mendocino County Line.
§ 9.25. Eel River, South Fork (Mendocino Co.), Only Main Stem from Humboldt–Mendocino County Line to Rattlesnake Creek.
§ 9.26. Main Stem Eel River Restrictions (Mendocino and Lake Cos.), from Mendocino–Trinity County Line to Scott Dam.
§ 9.30. Main Stem Eel River Restrictions (Mendocino and Lake Cos.), Only Between Scott Dam and Cape Horn Dam.
§ 9.35. Eel River, North Fork and Tributaries Trout and Salmon Restrictions (Mendocino Co.).
§ 9.37. Gualala River Restrictions (Mendocino and Sonoma Cos.), Only from the Confluence of Wheatfield and South Forks to the Highway 1 Bridge.
§ 9.38. Lagunitas Creek Closure (Marin Co.).
§ 9.39. Lagunitas Lake Trout Restrictions (Marin Co.).
§ 9.40. Noyo River Closure (Mendocino Co.).
§ 9.45. Redwood Creek Closure (Marin Co.).
§ 9.50. Russian River Closure (Sonoma Co.).
§ 9.51. Russian River Tributaries (Sonoma Co.).
§ 9.52. Sonoma Creek (Sonoma Co.).
§ 9.53. Sonoma Lake Closure (Sonoma Co.).
§ 9.54. Stafford Lake Closure (Marin Co.).
§ 9.55. Ten Mile River (Mendocino Co.).

Article 5. Sierra District 26.18

§ 10.00. Definition.
§ 10.03. Trout and Salmon.
§ 10.06. Almanor Lake Tributaries Closure (Lassen, Plumas and Shasta Cos.).
§ 10.07. American River, North, Middle and South Forks Trout Season and Limit (El Dorado and Placer Cos.).
§ 10.09. Battle Creek (Shasta and Tehama Cos.).
§ 10.10. Bear Creek and Tributaries Closures (Shasta and Siskiyou Cos.).
§ 10.12. Big Trees Creek Closure (Tuolumne Co.).
§ 10.13. Boca Lake Special Trout Size and Bag Limit (Nevada Co.).
§ 10.15. Bucks Lake Tributaries Closure (Plumas Co.).
§ 10.18. Butt Creek and Butt Creek Estuary Closures (Plumas Co.).
§ 10.19. Butt Valley Reservoir Trout Limit (Plumas Co.).
§ 10.20. By–Day Creek and Tributaries Closures (Mono Co.).

Page

§ 10.21. Calaveras River, North Fork Trout Season and Limit (Calaveras Co.), Only from Highway 49 Upstream to Ponderosa Way.
§ 10.24. Carson River, East Fork and Tributaries Closures (Alpine Co.).
§ 10.25. Carson River, East Fork Trout Restrictions (Alpine Co.), Only from Hangmans Bridge Downstream to Nevada State Line.
§ 10.27. Convict Creek Closure (Mono Co.).
§ 10.30. Corral Valley Creek and Tributaries Closures (Alpine Co.).
§ 10.33. Cottonwood Creek Drainage Trout Restrictions (Inyo Co.).
§ 10.34. Cottonwood Creek, North Fork and Tributaries Closures (White Mountains, Mono Co.).
§ 10.35. Cottonwood Lakes and Tributaries Closures (Inyo Co.).
§ 10.38. Coyote Valley Creek and Tributaries Closures (Alpine Co.).
§ 10.40. Crooked Creek Closures (Mono Co.).
§ 10.41. Crooked Creek Closures (Mono Co.).
§ 10.42. Crowley Lake Tributaries Trout Restrictions (Mono Co.).
§ 10.44. Crowley Lake Seasons, and Special Restrictions and Tributaries Closures (Mono Co.).
§ 10.45. Crowley Lake Trout Limit (Mono Co.).
§ 10.48. Davis Lake Tributaries Closure (Plumas Co.).
§ 10.52. Diaz Lake Trout Season and Limit (Inyo Co.).
§ 10.58. Eagle Lake and Tributaries Closures (Lassen Co.).
§ 10.59. Eagle Lake Trout Limit (Lassen Co.).
§ 10.60. Eagle Lake Tributaries Trout Restrictions (Lassen Co.).
§ 10.62. Fall River Restrictions (Shasta Co.).
§ 10.65. Feather River, North Fork Trout Limits (Plumas Co.).
§ 10.66. Golden Trout Wilderness Area Restrictions (Tulare Co.), All Waters Within the Golden Trout Wilderness.
§ 10.68. Hat Creek No. 1 and Cassel Forebays Closures (Shasta Co.).
§ 10.69. Hat Creek Restrictions (Shasta Co.), Only from Lake Britton Upstream to Baum Lake, Exclusive of the Concrete Hatend2 Intake Canal Between Baum Lake and the Hatend2 Powerhouse.
§ 10.72. Heenan Lake Tributaries Closures (Alpine Co.).
§ 10.73. Heenan Lake Restrictions (Alpine Co.).
§ 10.75. Hot Creek Trout Restrictions (Mono Co.), Only from the Upstream Property Line of the Hot Creek Ranch Downstream to Confluence with Owens River.
§ 10.78. Independence Lake and Tributaries Trout Restrictions (Nevada and Sierra Cos.).
§ 10.79. Independence Lake Lahontan Cutthroat Trout Limit (Nevada and Sierra Cos.).
§ 10.82. Indian Tom Lake Trout Limit (Siskiyou Co.).

Page

§ 10.83. Inyo County, Southwestern Portion, Trout Season and Limit.
§ 10.85. Junction Lake and Tributaries Closures (Mono Co.).
§ 10.88. Kern Plateau (Sometimes Known as Tulare Plateau) Trout Restrictions (Tulare Co.).
§ 10.91. Kern Lake Closure (Tulare Co.).
§ 10.94. Kings River Gear Restrictions (Fresno Co.), Only from Garnet Dike Campground Upstream to Confluence of South and Middle Forks, South Fork Upstream to the Highway Crossing at Boyden Cave, and Middle Fork Upstream to the Western Boundary of Kings Canyon National Park.
§ 10.96. Kings River Trout Limit (Fresno Co.), Only from Pine Flat Lake Upstream to Confluence of South and Middle Forks, South Fork Upstream to Bubbs Creek, and Middle Fork Upstream to West Boundary of Kings Canyon National Park.
§ 10.98. Kirman (Carmen) Lake Trout Limit and Kirman Lake Tributaries Closure (Mono Co.).
§ 11.00. Lassen Creek and Tributaries Closures (Modoc Co.).
§ 11.03. Macklin Creek Closure (Nevada Co.).
§ 11.06. Mammoth Pool and Tributaries Closures (Fresno and Madera Cos.).
§ 11.09. Martis Lake Restrictions (Nevada and Placer Cos.).
§ 11.10. Martis Lake Tributaries Closure (Nevada and Placer Cos.).
§ 11.13. McCloud River Trout Restrictions (Shasta Co.).
§ 11.14. McCloud River Basin Dolly Varden (Bull Trout) Limit (Shasta and Siskiyou Cos.).
§ 11.16. McCloud Lake Trout Restrictions (Mono Co.).
§ 11.17. Merced River Trout Restrictions (Mariposa Co.) Only from the Yosemite National Park Boundary Downstream to the Foresta Bridge.
§ 11.18. Milton Lake and Middle Fork Yuba River Between Milton Lake and Jackson Meadows Dam Trout Restrictions (Nevada Co.).
§ 11.19. Moccasin Creek Closure (Tuolumne Co.).
§ 11.20. Mono Creek Closures (Fresno Co.).
§ 11.21. Murray Canyon Creek and Tributaries Closures (Alpine Co.).
§ 11.23. Owens River Trout Restrictions (Inyo and Mono Cos.), Only Downstream from Crowley Lake Dam, Including Pleasant Valley and Tinemaha Lakes.
§ 11.25. Pit River Trout Seasons and Limits (Shasta Co.).
§ 11.26. Pine Creek Closure (Lassen Co.).
§ 11.29. Pleasant Valley Creek Trout Restrictions (Alpine Co.).
§ 11.32. Pole Creek and Tributaries Closures (Placer Co.).
§ 11.33. Portuguese Creek, West Fork Trout Restrictions (Madera Co.), Only from Headwaters Downstream to Confluence with the East Fork Portuguese Creek.
§ 11.35. Rock Creek Diversion Channel Closure (Mono Co.).
§ 11.36. Rock Creek Closure (Shasta Co.).
§ 11.38. Rush Creek Closure (Mono Co.).
§ 11.41. Sacramento River Tributaries Salmon Spawning Areas (Shasta Co.).
§ 11.42. Sacramento River Trout Limit (Shasta Co.), Only from Shasta Lake Upstream to Shotgun Creek.
§ 11.44. Sagehen Creek Closure (Nevada Co.).
§ 11.47. Silver King Creek and Tributaries Closures (Alpine Co.).
§ 11.48. Slinkard Creek Closure (Mono Co.).
§ 11.50. Stanislaus River and Tributaries Closures (Alpine, Calaveras and Tuolumne Cos.).
§ 11.51. Stanislaus River, Middle Fork Trout Restrictions (Tuolumne Co.).
§ 11.53. Tahoe Lake and Tributaries Closures (Placer and El Dorado Cos.).
§ 11.54. Tahoe Lake Trout Limit (Placer and El Dorado Cos.).
§ 11.57. Topaz Lake Trout Season and Limit (Mono Co.).
§ 11.63. Truckee River Closure (Placer Co.).
§ 11.64. Truckee River Trout Restrictions (Nevada Co.).
§ 11.66. Tule River, North Fork Trout Restrictions (Tulare Co.), Only in the North Fork Tule River and All Its Forks and Tributaries Above the Confluence with Pine Creek (Approximately 50 Yards Upstream from the Blue Ridge Road Bridge, About 12 1/4 Miles North of Springville).
§ 11.69. Tuolumne River and Tributaries Closures (Tuolumne Co.).
§ 11.71. Walker River, East Fork Trout Restrictions (Mono Co.).
§ 11.75. Willow Creek and Tributaries Closure (Tributary to Goose Lake, Modoc Co.).
§ 11.80. Yellow Creek Trout Restrictions (Plumas Co.), Only from Big Springs Downstream to the Marker at the Lower End of Humbug Meadow.
§ 11.90. Yuba River, North Fork Trout Restrictions (Sierra Co.) from the Western Boundary of Sierra City to the Confluence with Ladies Canyon Creek.

Article 6. Valley District 30
§ 12.00. Definition.
§ 12.03. Trout and Salmon.
§ 12.06. American River Closure (Sacramento Co.).
§ 12.07. American River Salmon Spawning Area (Sacramento Co.).
§ 12.08. American River Trout and Salmon Season and Limit (Sacramento Co.), Only from Mouth to Nimbus Dam.
§ 12.11. Antelope Creek Trout Season and Limit (Tehama Co.), Only from Mouth to U.S. Geological Survey Gauging Station Cable Crossing at Mouth of Antelope Creek Canyon.
§ 12.14. Battle Creek Trout Closures, Seasons and Limit (Shasta and Tehama Cos.).
§ 12.15. Battle Creek Salmon Fish Closure (Shasta and Tehama Cos.).
§ 12.17. Bear Creek Closure (Merced Co.).
§ 12.18. Big Chico Creek Salmon and Trout Restriction (Butte Co.).

Page

§ 12.19. Black Butte River and Tributaries Closures (Glenn Co.).
§ 12.21. Butte Creek Salmon Closure (Butte Co.).
§ 12.22. Butte Creek Trout and Salmon Season and Limit (Butte Co.), Only from the Highway 99 Bridge South of Chico to the Centerville Head Dam.
§ 12.25. Calaveras River Closure and Restriction (Calaveras Co.).
§ 12.26. Calaveras River Trout Season and Limit (Calaveras Co.).
§ 12.27. Chowchilla River Closure (Madera and Mariposa Cos.).
§ 12.29. Cosumnes River Salmon Spawning Area (Sacramento Co.).
§ 12.33. Deer Creek Trout Season and Limit (Tehama Co.), Only from Mouth to U.S. Geological Survey Gauging Station Cable Crossing to Mouth of Deer Creek Canyon.
§ 12.36. Don Pedro Lake Closure (Tuolumne Co.).
§ 12.37. Eastman Lake Closure (Madera and Mariposa Cos.).
§ 12.39. Feather River Closure (Butte Co.).
§ 12.40. Feather River Salmon Spawning Area (Butte Co.).
§ 12.41. Feather River Trout and Salmon Season and Limit (Butte, Sutter and Yuba Cos.), Only from Mouth to Thermalito Bicycle Bridge in Oroville.
§ 12.42. Feather River, North Fork Trout Season and Limit (Butte Co.), Only Upstream from Poe Dam.
§ 12.43. Kern River Trout Limit (Kern Co.), Only from Lake Isabella Upstream to the Tulare–Kern County Line.
§ 12.43.5. Kings River, South Fork at Empire Weirend1 and Adjacent Pumping Station Bypass Closure (Kings County).
§ 12.44. Kings River, South Fork at Empire Weirend1 and Adjacent Pumping Station Bypass Closure (Kings Co.).
§ 12.45. Merced River Closure (Merced Co.).
§ 12.47. Mill Creek Trout Season and Limit (Tehama Co.), Only from Mouth to Howell Cable Crossing in Mouth of Mill Creek Canyon.
§ 12.50. Mokelumne River Closure (San Joaquin Co.).
§ 12.51. Mokelumne River Salmon Spawning Area (San Joaquin Co.).
§ 12.52. Mokelumne River Trout and Salmon Season and Limit (San Joaquin Co.), Only from Highway 99 Bridge to Camanche Dam.
§ 12.55. Putah Creek Special Flyfishing Restrictions (Solano and Yolo Cos.), Only from Solano Lake Diversion Dam to Monticello Dam.
§ 12.58. Sacramento River Closures (Shasta and Tehama Cos.).
§ 12.59. Sacramento River and Sacramento Tributaries Salmon Spawning Area Closures (Butte, Colusa, Glenn, Shasta, Sutter and Tehama Cos.).
§ 12.60. Sacramento River Trout and Salmon Season and Limit.
§ 12.61. Sacramento River Special Maximum Size Limit.
§ 12.63. Secret Ravine Creek and Tributaries Salmon Spawning Area (Placer Co.).
§ 12.65. Stanislaus River Special Trout Limit.
§ 12.66. Stanislaus River Salmon Spawning Area (Calaveras, San Joaquin, Stanislaus and Tuolumne Cos.).
§ 12.69. Stony Creek Salmon Spawning Area (Glenn Co.).
§ 12.72. Tulare, Kings and Kern Counties Special Limit.
§ 12.76. Tuolumne River Salmon Spawning Area (Stanislaus Co.).
§ 12.79. Willow Slough Closure (Sutter Co.).
§ 12.82. Yuba River and Tributaries Salmon Spawning Area (Nevada and Yuba Cos.).
§ 12.83. Yuba River Trout and Salmon Season and Limit (Nevada and Yuba Cos.), Only from Mouth to Englebright Dam and Tributaries As Listed in Section 12.82.

Article 7. North Coast District 33
§ 13.00. Definition.
§ 13.05. Trout and Salmon.
§ 13.10. Stream Closures: Special Low Flow Conditions.
§ 13.15. Balm of Gilead Creek Closure (Trinity Co.).
§ 13.20. Bogus Creek and Tributaries Closures (Siskiyou Co.).
§ 13.25. Eel River System Closures (Humboldt and Trinity Cos.).
§ 13.30. Eel River, Middle Fork Trout Restrictions (Trinity Co.).
§ 13.35. Klamath River Closures (Siskiyou and Humboldt Cos.).
§ 13.36. Klamath River Salmon Restrictions (Siskiyou and Humboldt Cos.).
§ 13.37. Klamath River Trout Restrictions (Siskiyou Co.), Only from the Klamath River Copco Lake Bridge Upstream to the Oregon Border.
§ 13.38. Klamath River Tributary Trout Restrictions (Humboldt, Siskiyou and Trinity Cos.).
§ 13.39. Klopp Lake Trout Restrictions (Humboldt Co.).
§ 13.40. Mad River Closure (Humboldt Co.).
§ 13.45. Mattole River Closure (Humboldt Co.).
§ 13.50. Prairie Creek and Tributaries Closures (Humboldt Co.).
§ 13.55. Redwood Creek Closure (Humboldt Co.).
§ 13.60. Salmon River System Winter Trout Season and Limit (Siskiyou Co.), Only from Mouth to and Including the North and South Forks.
§ 13.65. Scott River Winter Trout Season and Limit (Siskiyou Co.), Only from Mouth to the Fort Jones–Greenview Bridge.
§ 13.70. Shasta River Closure (Siskiyou Co.).
§ 13.71. Shasta River Winter Trout Season and Limit (Siskiyou Co.), Only from Mouth Upstream to Interstate 5 Bridge.
§ 13.75. Shovel Creek and Tributaries Closures (Siskiyou Co.).
§ 13.80. Smith River, South Fork Closure (Del Norte Co.).

Page

§ 13.85. Trinity River Closures (Trinity Co.).
§ 13.86. Trinity River and South Fork Trinity River Salmon Restrictions (Trinity Co.).
§ 13.90. Trinity River Special Flyfishing Restrictions (Trinity Co.), Only from the Old Lewiston Bridge to a Point 250 Feet Below the Lewiston Dam.
§ 13.95. Van Duzen River Trout Restrictions (Humboldt Co.), Only Between the Highway 36 Bridge at Bridgeville and the Confluence with the South Fork.

Chapter 4. Ocean Fishing 34

Article 1. Ocean and San Francisco Bay District 34

§ 27.00. Definition.
§ 27.05. Chumming.
§ 27.10. Live Bait Restrictions.
§ 27.15. Multi-Day Fishing Trips.
§ 27.20. Groundfish Management Areas, Seasons, Depths, Exceptions, and Fishery Closure/Rule Change Process Described.
§ 27.25. Northern Groundfish Management Area.
§ 27.30. North-Central Groundfish Management Area.
§ 27.35. Monterey South-Central Groundfish Management Area.
§ 27.40. Morro Bay South-Central Groundfish Management Area.
§ 27.45. Southern Groundfish Management Area.
§ 27.50. Cowcod Conservation Areas.
§ 27.51. California Rockfish Conservation Area.
§ 27.56. Take General.
§ 27.60. Limit.
§ 27.65. Filleting of Fish on Vessels.
§ 27.67. Transport of Recreational Fishing Vessel Through Areas Closed to Fishing.
§ 27.70. Trout in the Ocean.
§ 27.75. Salmon Closures.
§ 27.80. Salmon.
§ 27.82. Groundfish Management Areas, Seasons, Depths, Exceptions, and Fishery Closure/Rule Change Process Described.
§ 27.83. California Rockfish Conservation Area.
§ 27.85. Striped Bass.
§ 27.90. White Sturgeon.
§ 27.91. Green Sturgeon.
§ 27.92. White Sturgeon Report Card and Tagging Requirements for Ocean Waters (FG 683, See Section 701).
§ 27.95. Sturgeon Closure.
§ 28.00. Grunion, California.
§ 28.05. Garibaldi.
§ 28.06. White Shark.
§ 28.10. Giant (Black) Sea Bass.
§ 28.12. Gulf Grouper and Broomtail Grouper.
§ 28.15. Halibut, California.
§ 28.20. Halibut, Pacific.
§ 28.25. Barracuda, California.
§ 28.26. California Sheephead.
§ 28.27. Lingcod.
§ 28.28. Cabezon.
§ 28.29. Kelp Greenling. Rock Greenling.
§ 28.30. Kelp Bass, Barred Sand Bass and Spotted Sand Bass.

Page

§ 28.32. Pacific Bonito.
§ 28.35. White Seabass.
§ 28.37. Yellowtail.
§ 28.38. Tunas.
§ 28.40. Broadbill Swordfish.
§ 28.41. Sixgill Shark, Sevengill Shark.
§ 28.42. Shortfin Mako Shark, Thresher Shark, and Blue Shark.
§ 28.45. Surf Smelt (Night Smelt, Day Fish, Whitebait Smelt).
§ 28.48. Pacific Sanddab, Rock Sole, Sand Sole, Butter Sole, Curlfin Sole, Rex Sole, and Flathead Sole.
§ 28.49. Dover Sole, English Sole, Petrale Sole, Arrowtooth Flounder, and Starry Flounder.
§ 28.50. Marlin.
§ 28.51. Spiny Dogfish, Soupfin Shark.
§ 28.52. Big Skates, California Skates, and Longnose Skates.
§ 28.53. Ratfish, Rattails and Codlings.
§ 28.54. California Scorpionfish (Sculpin).
§ 28.55. Rockfish (Sebastes).
§ 28.56. Leopard Shark.
§ 28.57. Pacific Cod, Pacific Whiting, Sablefish, and Thornyheads.
§ 28.58. Ocean Whitefish.
§ 28.59. Surfperch.
§ 28.60. Herring Eggs.
§ 28.62. Herring.
§ 28.65. General.
§ 28.70. Weight, Power Driven Gurdies or Power Driven Winches.
§ 28.75. Baited Traps for Shiner Surfperch, Pacific Staghorn Sculpin and Longjaw Mudsuckers.
§ 28.80. Dip Nets and Hawaiian Type Throw Nets.
§ 28.85. Beach Nets.
§ 28.90. Diving, Spearfishing.
§ 28.91. Slurp Guns.
§ 28.95. Spears, Harpoons and Bow and Arrow Fishing Tackle.
§ 29.00. Gear Used in Taking Grunion.
§ 29.05. General.
§ 29.10. General.
§ 29.15. Abalone.
§ 29.16. Abalone Report Card and Tagging Requirements (FG 2915, See Section 701).
§ 29.20. Clams General.
§ 29.25. Gaper Clams and Washington Clams.
§ 29.30. Geoduck Clams.
§ 29.35. Littleneck Clams, Soft-Shell Clams, Chiones, Northern Quahogs, and Cockles.
§ 29.40. Pismo Clams.
§ 29.45. Razor Clams.
§ 29.55. Mussels.
§ 29.60. Rock Scallops.
§ 29.65. Speckled (Bay) Scallops.
§ 29.70. Market Squid, Jumbo Squid.
§ 29.71. Moon Snails.
§ 29.80. Gear Restrictions.
§ 29.85. Crabs.
§ 29.86. Bay Shrimp (Grass Shrimp).
§ 29.87. Ghost Shrimp and Blue Mud Shrimp.
§ 29.88.
§ 29.90. Spiny Lobsters.
§ 29.91. Spiny Lobster Report Card Requirements for Ocean Waters (FG 685, See Section 701).
§ 30.00. Kelp General.
§ 30.10. Prohibited Species.

Chapter 5. Native Reptiles and Amphibians 46.9
§ 40. General Provisions Relating to Native Reptiles and Amphibians.
§ 40.00. Protected Amphibians.
§ 40.05. Amphibians Except Protected Amphibians.
§ 40.10. Protected Reptiles.
§ 40.15. Reptiles Except Protected Reptiles.
§ 41. Protected Amphibians.
§ 41.5. Amphibians Except Protected Amphibians.
§ 41.7. Commercial Take and Use of Frogs for Human Consumption.
§ 42. Protected Reptiles.
§ 42.5. Reptiles Except Protected Reptiles.
§ 43. Captive Propagation and Commercialization of Native Reptiles.

Chapter 5.5. Fishery Management Plans 46.12
Article 1. Fishery Management Plans Generally 46.12
§ 50.00. Application and Location of Fishery Management Plan Regulations, and Designation of Weight in Pounds.
§ 50.01. Definitions.
§ 50.02. Plan Amendment.
§ 50.03. Framework Review Processes.
Article 2. White Seabass Fishery Management Plan 46.13
§ 51.00. Purpose and Scope.
§ 51.01. Definitions.
§ 51.02. Process and Timing.
§ 51.04. Allocation.
§ 51.05. Harvest Control Rules.
Article 3. Nearshore Fishery Management Plan 47
§ 52.00. Purpose and Scope.
§ 52.01. Definitions.
§ 52.02. Process and Timing.
§ 52.03. Nearshore Fishery Management Plan (Nearshore FMP) Project.
§ 52.04. Regional Management.
§ 52.05. Allocation.
§ 52.09. Take of Nearshore Rockfish, Fishery Closure.
§ 52.10. Take of Sheephead, Cabezon and Greenling.
Article 4. Market Squid Fishery Management Plan 49
§ 53.00. Purpose and Scope.
§ 53.01. Definitions.
§ 53.02. Process and Timing.
§ 53.03. Market Squid Fishery Management Plan (Market Squid FMP) Project.

Chapter 6. Fish, Commercial 50.1
§ 100. Abalone.
§ 101. Possession of Sliced Abalone During Closed Season.
§ 102. Abalone Processors Permit.
§ 103. Common Names for Market Fish.
§ 104. White Croaker Closure.
§ 104.1. Central California Gillnet Fishery Closure.
§ 105. Importation and Sale of Kelp Bass, Sand Bass, and Spotted Bass.
§ 105.1. Permits to Land California Caught Fish at Points Outside of California.
§ 105.5. Cooperation with State and Federal Fishery Observers.

Page

§ 106. Permits to Commercially Take Shark and Swordfish Using Drift Gill Nets.
§ 107. Broadbill Swordfish.
§ 107.1. Possession of Gill Nets by Swordfish Permittees.
§ 107.5. Incidental Take of Swordfish by Gill Nets.
§ 108. Yellowfin Tuna.
§ 109. Importation of Yellowtail and Barracuda from Mexico.
§ 110. Pismo Clams Imported into California.
§ 112. Surfperch.
§ 115. Mussels.
§ 116. Crayfish.
§ 119. Trawl Nets Inside of the Golden Gate Bridge.
§ 120. Prawn or Shrimp Trawling.
§ 120.01. Pink Shrimp Trawling.
§ 120.3. Golden Prawn (Penaeus Californiensis), Spot Prawn (Pandalus Platyceros) and Ridgeback Prawn (Eusicyonia Ingentis) Trawling.
§ 120.4. Restricted Access Fishery.
§ 120.5. Brine Shrimp Trawling—Mono Lake, Mono County.
§ 120.6. Use of Powered Equipment of the Type, Size and Specifications Hereinafter Noted to Take Crustaceans.
§ 120.7. Taking of Sea Urchins for Commercial Purposes.
§ 121. Lobsters, Spiny. Possession During Closed Season.
§ 121.5. Lobsters, Spiny. Verification of Size.
§ 122. Lobsters, Permits to Take.
§ 123. Tidal Invertebrates.
§ 124.1. California Halibut Bottom Trawl Vessel Permits.
§ 125. Commercial Rock Crab Permits.
§ 125.1. Commercial Take of Rock Crab; Size Limit; Use of Rock Crab as Bait; Incidental Take Provisions.
§ 126. Commercial Take of Tanner Crab.
§ 130. Importation and Inspection of Live Shellfish.
§ 131. Mariculture and Shellfish Allotments.
§ 132. Importation of Crab.
§ 132.5. Crab (Cancer Magister) Commercial Season Extension.
§ 133. Crabmeat, Cooked Crabs or Parts Thereof.
§ 134. Sturgeon, Importation of.
§ 135. Transportation, Possession and Sale of Imported Sturgeon, Striped Bass, Steelhead Trout and Shad.
§ 136. Commercial Packaging or Tagging of Striped Bass.
§ 137. Importation and Sale of Green Sea Turtle Products.
§ 141. Sardine Canners, Reduction Plants and Packers of Other Sardine Products.
§ 142. Fishermen and Fish Plants.
§ 143. Sardine Pack, Acceptable Equivalents for, Other Than One-Pound Oval Cans.
§ 145. Anchovy Pack.
§ 146. Sampling Methods.
§ 147. Granting and Issuance of Permits to Take and Use Anchovies by a Reduction Process.

Page

§ 148. Permits to Commercially Take Pacific Mackerel.
§ 149. Commercial Taking of Market Squid.
§ 149.1. Market Squid Fishery Restricted Access Program.
§ 149.3. Experimental Market Squid Vessel Permits.
§ 150. Nearshore Fishery Restricted Access Program.
§ 150.01. Nearshore Fishery Permit Required.
§ 150.02. Control Dates for Other Nearshore Species; Permits to Commercially Take Deeper Nearshore Fish Species.
§ 150.03. Nearshore Fishery Gear Endorsement Program.
§ 150.04. Control Date for Gear Endorsement Program for Other Nearshore Species.
§ 150.05. Nearshore Fishery Bycatch Permit Program.
§ 150.06. Management Areas Defined; Closure Periods Defined.
§ 150.16. Commercial Take of Nearshore Fishes.
§ 150.17. Limitations on Number of Hooks and Area.
§ 155. White Seabass, Commercial Take.
§ 155.01. White Seabass Commercial Size Limit:
§ 155.05. Use of Purse Seine and Roundhaul Nets and Delivery to California Ports.
§ 155.10. Gill Net Mesh Size, Closed Season, Possession of Thresher and Shortfin Mako.
§ 156. Sardines, Limit of Catch for Reduction Purposes.
§ 157. Importation of Sardines for Bait.
§ 158. Sardines.
§ 159. Commercial Fishing for Coastal Pelagic Species.
§ 163. Harvest of Herring.
§ 163.1. Herring Permit Transfers.
§ 163.5. Penalties in Lieu of Suspension or Revocation—Herring Permittees.
§ 163.6. Commercial Harvesting of Herring.
§ 164. Harvesting of Herring Eggs.
§ 165. Harvesting of Kelp and Other Aquatic Plants.
§ 165.5. Lease of Kelp Beds for Exclusive Harvest of Macrocystis and Nereocystis.
§ 165.7. Granting and Issuance of Permits to Control Sea Urchins in Kelp Beds.
§ 166. Salmon: Importation and Sale.
§ 167. Penalties in Lieu of Suspension or Revocation—Salmon Permittees.
§ 167.2. Domestically Reared Striped Bass.
§ 167.3. Sale of Marine Life Produced Under Mariculture License.
§ 168. Fish, Packaged or Tagged.
§ 169. Permit to Operate Domesticated Anadromous Fishery on Davenport Landing Creek (Santa Cruz County).
§ 169.1. Permits to Operate Domesticated Anadromous Fishery in Elk Creek (Mendocino County).
§ 170. Commercial Packaging of Dead, Domestically-Reared Fish.
§ 170.5. Domesticated Fish Breeders' Signs.
§ 171. Importation of Live Catfish.
§ 171.1. Importation of Live Striped Bass.

Page

§ 171.5. Importation of Eggs of Fishes of the Family Salmonidae (Trout, Char, and Salmon).
§ 172. Possession of Trawl or Drag Nets in Districts 4, 19, 19A, 19B, and 21.
§ 173. Midwater Trawls.
§ 174. Permit to Use Gill Nets or Trammel Nets for Commercial Purposes.
§ 174.5. Gill Nets and Trammel Nets—Areas with Restricted Fishing.
§ 174.7. Gill Nets and Trammel Nets—District 18.
§ 175. Trawl Nets.
§ 176. Trawl Fishing Activity Records.
§ 180. Traps.
§ 180.1. Spot Prawn (Pandalus platyceros) Fishing.
§ 180.2. Trap Destruction Devices.
§ 180.3. Restricted Access Spot Prawn Trap Fishery.
§ 180.4. Finfish Trap Construction.
§ 180.5. Trap Buoy Identification.
§ 180.15. Coonstripe Shrimp (Pandalus danae) Fishing.
§ 181. Commercial Salmon Fishing.
§ 182. Commercial Salmon Fishing.
§ 182.1. Commercial Salmon Fishing.
§ 183. Commercial Salmon Vessel Permit.
§ 185. Commercial Take, Possession, Purchase, Sale, Transport, Export or Import of Native Reptiles and Amphibians.
§ 185.5. Captive Propagation of Native Reptiles and Amphibians for Commercial Purposes.
§ 186. Commercial Take and Use of Frogs for Human Consumption.
§ 187. Weight in the Round Conversion Factors for Swordfish, Salmon, Angel Shark, Bonito Shark, Thresher Shark, and Tanner Crab.
§ 188. Marine Aquaria Receiver's License.
§ 189. Commercial Groundfish Fishing.

Chapter 6.5. Fishing Activity Records 82
§ 190. Fishing Activity Records.
§ 191. Far Offshore Longline Logbook.
§ 195. Report of Fish Taken To Be Made by Owner of Barge or Vessel for Hire, and Boat Limits.

Chapter 7. Capture, Transportation, Possession, and Sale of Freshwater Fish for Bait for Profit 83
§ 200. Application Procedure for Live Freshwater Bait Fish License.
§ 200.10. Sale and Transfer of Live Freshwater Bait Fish License.
§ 200.11. Requirements for Obtaining Live Freshwater Bait Fish License.
§ 200.12. Live Freshwater Bait Fish License for Retail Live Bait Outlets.
§ 200.13. Species Which Live Freshwater Bait Fish Licensees May Possess or Sell.
§ 200.14. Importation of Freshwater Bait Fish into the Colorado River District.
§ 200.29. Sources of Live Freshwater Bait Fish for Commercial Purposes.
§ 200.31. Species Prohibited for the Purpose of Commercial Bait Sales.

Chapter 8. Miscellaneous 84
§ 225. Use of Explosives in State Waters.

Page

§ 225.1. Use of Explosives for Blasting or Special Purposes.
§ 225.5. Streams, Artificial Barriers.
§ 225.7. Report of Fish Taken, to Be Made by Owner of Barge or Vessel for Hire.
§ 225.8. Report of Marlin Taken by Sport Fishermen.
§ 226. Issuance of Permits for Importing Live Aquatic Plants or Animals to Persons Other Than Registered Aquaculturists.
§ 226.5. Issuance of Permits to Destroy Harmful Species of Fish in Private Waters for Management Purposes.
§ 226.7. Issuance of Permits and Conditions for Taking Inland or Freshwater Fishes.
§ 227. Sale of Live Aquaculture Products by Aquarium or Pet Stores.
§ 228. Suction Dredging.
§ 228.5. Suction Dredge Use Classifications and Special Regulations.
§ 230. Issuance of Permits for Contests Offering Prizes for the Taking of Game Fish.
§ 231. Exchanging of Sport–Caught Fish.

Chapter 9. Aquaculture 90.4
§ 235. Aquaculture Registration.
§ 235.1. Screening Requirements for Aquaculture Facilities.
§ 235.2. Permit to Operate an Aquaculture Facility for Anadromous Fish on Davenport Landing Creek (Santa Cruz County).
§ 236. Importation of Live Aquatic Plants and Animals.
§ 236.1. Importation and Planting of Live Bivalve Mollusks.
§ 237. Leasing of State Water Bottoms for Aquaculture.
§ 238. Sale and Transportation of Aquatic Plants and Animals.
§ 238.5. Stocking of Aquaculture Products.
§ 238.6. Triploid Grass Carp Stocking.
§ 240. Transportation, Possession and Sale of Sturgeon, Striped Bass, Hybrid Striped Bass (Striped Bass Crossed with White Bass), Abalone and Steelhead Trout Produced or Imported by Registered Aquaculturists for Aquaculture Purposes.
§ 241. Importation of Salmonid Produced in Idaho.
§ 243. Take of Aquatic Plants, Invertebrates, Fishes and Bullfrogs from the Wild for Use as Broodstock for Aquaculture Purposes.
§ 245. Aquaculture Disease Control Regulations.
Appendix A Fishing Activity Records 93

Subdivision 2. Game and Furbearers 108.5

Chapter 1. General Provisions and Definitions 108.5
§ 250. General Prohibition Against Taking Resident Game Birds, Game Mammals and Furbearing Mammals.
§ 250.5. Shooting Time.
§ 250.6. Definition of Take.

Page

§ 251. Prohibition on Pursuing or Shooting Birds and Mammals from Motor–Driven Air or Land Vehicles, Motorboats, Airboats, Sailboats or Snowmobiles.
§ 251.1. Harassment of Animals.
§ 251.2. Permits to Pursue, Drive, Herd, or Take Birds and Mammals.
§ 251.3. Prohibition Against Feeding Big Game Mammals.
§ 251.4. Mountain Lion Tagging.
§ 251.5. Game Birds, Game Mammals, Furbearers and Nongame Animals, Possession Of.
§ 251.6. Tagging of Live Domesticated Big Game Mammals.
§ 251.7. Possession, Transportation and Importation of Game Birds.
§ 251.8. Transportation of Game Birds and Game Mammals off Indian Reservations.
§ 251.9. Computer Assisted Remote Hunting.
§ 252. Bag and Possession Limit Defined.
§ 253. Big Game Defined. [Repealed]
§ 255. Code Definitions Reaffirmed.
§ 256. Forked Horn and Three Point Bucks Defined.
§ 257. Resident Small Game Defined.
§ 257.5. Prohibition Against Taking Resident Game Birds and Mammals by the Aid of Bait.
§ 258. Season Defined.
§ 260. Prohibition Against Taking Other Than Migratory Game Birds and Quail in Picacho State Recreation Area.
§ 260.1. Prohibition Against Hunting Other Than During September–January on Providence Mountains State Recreation Area.
§ 260.2. Hunting Restrictions on Lake Oroville State Recreation Area.
§ 260.3. Prohibition Against Taking Other Than Migratory Game Birds on San Luis Reservoir State Recreation Area.
§ 260.4. Prohibition Against Taking Other Than Waterfowl and Resident Small Game on Perris Reservoir State Recreation Area.
§ 260.5. Prohibition Against Taking Other Than Waterfowl, American Coots, Common Moorhens and Common Snipe Within Harry A. Merlo State Recreation Area.
§ 262. Prohibition Against Hunting on Portions of Frank's Tract State Recreation Area.
§ 263. Prohibition Against Night Hunting.
§ 264. Use of Lights While Hunting—Specific Areas.
§ 264.5. Use of Lights While Hunting—Remainder of State.
§ 265. Use of Dogs for Pursuit/Take of Mammals or for Dog Training.
§ 300. Upland Game Birds.
§ 300.5. Archery Pheasant.
§ 300.8. Falconry Pheasant.
§ 301. Quail.
§ 301.5. Archery and Falconry Quail.
§ 302. Red–Legged Partridge (Chukar).
§ 302.5. Archery and Falconry Red–Legged Partridge (Chukar).
§ 303. Sage Grouse.
§ 303.1. Sage Grouse: Closure to Taking.
§ 304. Blue and Ruffed Grouse.

Page

§ 304.5. White–Tailed Ptarmigan.
§ 305. Chinese Spotted Doves and Ringed Turtledoves.
§ 306. Wild Turkeys.
§ 306.5. Spring Wild Turkey.
§ 307. Tree Squirrels.
§ 307.5. Archery and Falconry Tree Squirrels.
§ 308. Brush, Cottontail and Pigmy Rabbits, and Varying Hare (Snowshoe).
§ 308.1. Falconry Rabbits.
§ 308.5. Crop Damage by Rabbits.
§ 309. Jack Rabbits, Black–Tailed and White–Tailed.
§ 309.5. Falconry Rabbits and Hares.
§ 310. Shooting Hours on Resident Small Game Mammals.
§ 310.5. Shooting Hours for Upland Game Birds.
§ 311. Methods Authorized for Taking Resident Small Game.
§ 311.5. Prohibitions on Use of Firearms in Taking Resident and Migratory Game Birds.
§ 311.6. Prohibition of Rifles and Pistols in Picacho and Providence Mountains State Recreation Areas.
§ 311.7. Use of Rifles and Pistols in Los Angeles County.
§ 311.8. Prohibition Against Shooting Resident Small Game from Boats.
§ 312. Sporting Hunting License: Non–Transferable Tags As Permits.
§ 313. Upland Game Stamp.

Chapter 3. Big Game 119
§ 350. Big Game Defined.
§ 350.5. Specially Protected Mammal Defined.
§ 351. Forked–Horn Buck, Antlerless and Either–Sex Deer Defined.
§ 352. Shooting Hours on Big Game.
§ 353. Methods Authorized for Taking Big Game.
§ 354. Archery Equipment and Crossbow Regulations.
§ 355. Ammunition Authorized for Taking Big Game and Nongame Birds and Nongame Mammals in Condor Range.
§ 355.5. Firearms and Archery Equipment Authorized for Taking Nongame Animals During the Open Deer Season.
§ 356. Shooting Hours on Big Game.
§ 357. Use of Dogs in Hunting Deer, Bear, Wild Pigs.
§ 357.1. Use of Dogs in Pursuit of and/or Hunting Wildlife.
§ 358. Archery Deer Hunting.
§ 358.5. Archery Bear Hunting.
§ 359. Archery Equipment Regulations.
§ 359.5. Use of Crossbows.
§ 360. Deer.
§ 361. Archery Deer Hunting.
§ 362. Nelson Bighorn Sheep.
§ 363. Pronghorn Antelope.
§ 364. Elk.
§ 364.5. Tule Elk.
§ 365. Bear.
§ 365.5. Special Bear Hunt.
§ 366. Archery Bear Hunting.
§ 367. Bear License Tags.
§ 367.5. Presentation of Bear Skull.
§ 368. Wild Pig.
§ 369. Mountain Lion.
§ 370. Deer Tags.
§ 371. Deer Tag Application and Distribution Procedures.
§ 372. Deer and Elk Tags, Persons Authorized to Validate.
§ 373. Return of Deer Tags.
§ 374. Standard Procedures for Distribution of Permits for Deer Hunts with a Limited Number of Permits.
§ 375. Deer, Elk, Antelope and Bear Meat, Possession of After the Close of the Season.

Chapter 4. Depredation 144.4
§ 400. Deer Depredation Hunts.
§ 400.5. Bass Hill Special Depredation Hunt.
§ 401. Issuance of Permit to Take Animals Causing Damage.
§ 402. Issuance of Permits to Kill Mountain Lion Causing Damage.

Chapter 5. Furbearing Mammals 144.5
§ 460. Fisher, Marten, River Otter, Desert Kit Fox and Red Fox.
§ 461. Badger and Gray Fox.
§ 462. Muskrat and Mink.
§ 463. Beaver.
§ 463.5. Hides of Beaver.
§ 464. Raccoon.
§ 465. Methods for Taking Furbearers.
§ 465.1. Use of Dogs in Taking Furbearers.
§ 465.5. Use of Traps.
§ 466. Hours for Taking Furbearers.
§ 467. Trapping Reports.

Chapter 6. Nongame Animals 144.9
§ 470. Nongame Animals Defined.
§ 472. General Provisions.
§ 473. Possession of Nongame Animals.
§ 474. Hours for Taking.
§ 475. Methods of Take for Nongame Birds and Nongame Mammals.
§ 478. Bobcat.
§ 478.1. Bobcat Hunting Tags.
§ 479. Bobcat Pelts.
§ 479.1. Bobcat Pelts.
§ 480. Bobcat Depredation.
§ 485. American Crow.

Chapter 7. Migratory Game Birds 144.12
§ 500. Pigeons, Band–Tailed.
§ 501. Doves.
§ 502. Waterfowl, Migratory; American Coot and Common Moorhen (Common Gallinule).
§ 502.1. North Coast Canada Goose Hunt.
§ 503. Crop Damage.
§ 504. Possession, Transportation and Importation of Migratory Game Birds.
§ 505. Decoys.
§ 506. Shooting Hours.
§ 507. Provisions Related to the Taking of Migratory Game Birds.
§ 507.1. Nontoxic Shot Requirement for Waterfowl, American Coot and Common Moorhen Hunting.
§ 507.5. Scull Boats.
§ 508. Feeding of Migratory Waterfowl.
§ 509. Concurrence with Federal Regulations.
§ 510. State Duck Stamp.

Chapter 8. Wildlife and Public Shooting Areas 148

§ 707. Licenses, Certificates, Permits and License Tags, Dating of.
§ 708. Big Game License Tag, Application, Distribution and Reporting Procedures.
§ 710. Hunter Education Training Equivalency.
§ 711. Cold Storage/Frozen Food Locker Plant Records.
§ 712. Restriction of Importation of Hunter-Harvested Deer and Elk Carcasses.
§ 720. Designation of Waters of Department Interest.
§ 721. Temporary Reduction of Flows from Grizzly Valley Dam During Rotenone Treatment of Lake Davis and Its Tributaries (Plumas County) for the Eradication of Northern Pike.
§ 730. Camping Near or Occupying Wildlife Watering Places.
§ 740. Oil Sumps Hazardous to Wildlife.
§ 744. Limitations on Public Benefits for Aliens.
§ 745. Guide Licenses.
§ 745.5. Revocation or Suspension of Hunting or Sport Fishing Privileges.
§ 746. Procedures for License or Permit Revocations, Suspensions, Reinstatements, Transfers or Waivers of Renewal Requirements Including Hunting and Sport Fishing License or Permit Privileges.
§ 747. Guidelines for Imposing Civil Penalties.
§ 748. Procedures for Civil Penalties and License or Permit Revocations and Suspensions.
§ 749. Special Order Relating to Incidental Take of Sacramento River Spring-Run Chinook Salmon During Candidacy Period.
§ 749.1. Special Order Relating to Incidental Take of Coho Salmon (Oncorhynchus kisutch) During Candidacy Period.
§ 749.2. Incidental Take of Xantus's Murrelet (Synthliboramphus hypoleucus) During Candidacy Period.
§ 749.3. Special Order Relating to the Incidental Take of Longfin Smelt (Spirinchus thaleichthys) During Candidacy Period.

Chapter 4. Procedural Regulations for Implementation of the California Environmental Quality Act of 1970 ..... 192.2(p)

Article 1. General ..... 192.2(p)
§ 750. Authority.
§ 751. Short Title.
§ 752. Purpose.
§ 753. Policy.
§ 753.5. Collection of Filing Fees.

Article 2. Fish and Game As Lead Agency 192.5
§ 754. Environmental Review Procedures.
§ 755. Determination of Lead Unit.
§ 756. Applicability of CEQA.
§ 757. Exempt Projects.
§ 758. Initial Study.
§ 759. Preparation and Filing of Negative Declaration.
§ 760. Staff Review of Negative Declarations.
§ 761. Notice of Preparation.
§ 762. Notice of Determination.
§ 763. State, Federal and Public Review.
§ 764. Decision to Prepare an EIR.
§ 765. Contents of EIRs.
§ 766. Procedure.
§ 767. Staff Review.
§ 768. Fees for the Preparation and Processing of EIRs.
§ 769. Advance Notice to Secretary for Resources.
§ 770. State, Federal and Public Review.
§ 771. Final EIR Preparation.
§ 772. Final EIR Review.
§ 773. Processing of Final EIR.
§ 774. Findings.
§ 775. Statement of Overriding Considerations.
§ 776. Notice of Determination.
§ 777. Final EIR to Local Planning Agencies.

Article 2.5. Certified Regulatory Program for Adoption of Regulations 198.1
§ 777.5. Purpose.
§ 777.6. Contents of Initial Statement of Reasons.
§ 777.7. Circulation of Notice and Initial Statement of Reasons; Solicitation of Comments and Consultation with Agencies Which Have Jurisdiction by Law; Subsequent Notices.
§ 777.8. Evaluation and Adoption of Proposed Regulations.
§ 777.9. Notice of Decision.

Article 3. Fish and Game Review Procedures for EIRs and Negative Declarations 198.2
§ 778. General.
§ 779.5. Review of Projects Affecting Natural Resources Held in Public Trust—Early Consultation.
§ 780. Review of Draft EIRs and Negative Declarations.
§ 780.5. Review of Final EIRs and Negative Declarations.
§ 781. Designation of Contact Person.
§ 781.5. Regulation Procedure.

Chapter 5. Fish and Game Commission, Wildlife Conservation Board, and Department of Fish and Game—Conflict of Interest Code 198.3

Chapter 6. Regulations for Implementation of the California Endangered Species Act 198.3

Article 1. Take Prohibition; Permits for Incidental Take of Endangered Species, Threatened Species and Candidate Species 198.3
§ 783.0. Purpose and Scope of Regulations.
§ 783.1. Prohibitions.
§ 783.2. Incidental Take Permit Applications.

Page

§ 783.3. Compliance with the California Environmental Quality Act.
§ 783.4. Incidental Take Permit Review Standards.
§ 783.5. Incidental Take Permit Process.
§ 783.6. General Permit Conditions.
§ 783.7. Permit Suspension and Revocation.
§ 783.8. Reconsideration and Appeal Procedures.

Article 2. Take Incidental to Routine and Ongoing Agricultural Activities 198.8
§ 786.0. Purposes.
§ 786.1. Definitions.
§ 786.2. Preparation of a Voluntary Local Program.
§ 786.3. Voluntary Local Program Review and Authorization.
§ 786.4. Amendments to the Voluntary Local Program.
§ 786.5. Department Termination of a Voluntary Local Program.
§ 786.6. Take Authorization.
§ 786.7. Reports to the Legislature.
§ 786.8. Construction with Other Statutes.

Article 3. Incidental Take Permit Guidelines for Timber Operations 198.12
§ 787.0. Purpose and Scope of Regulations.
§ 787.1. Definitions.
§ 787.2. Take Determination for Timber Operations.
§ 787.3. Take of Coho Salmon from Timber Operations Prohibited.
§ 787.4. Incidental Take Permit for Timber Operations Required.
§ 787.5. Incidental Take Permit for Timber Operations Not Required.
§ 787.6. Jeopardy from Timber Operations Prohibited.
§ 787.7. Incidental Take Permit by Certification for Timber Operations.
§ 787.8. Security for Performance for Incidental Take Permits.
§ 787.9. Coho Salmon Impact Evaluation.

Chapter 7. Regulations for Implementation of Section 4526 of the Government Code 199

Article 1. General Provisions 199
§ 789.0. Definitions.

Article 2. Specific Provisions 199
§ 789.1. Establishment of Criteria.
§ 789.2. Request for Qualifications.
§ 789.3. Selection of Services.
§ 789.4. Conflict of Interest/Unlawful Activity.
§ 789.5. Amendments.
§ 789.6. Contracting in Phases.

Subdivision 4. Office of Spill Prevention and Response 200.1

Chapter 1. General Definitions and Abbreviations 200.1
§ 790. Definitions and Abbreviations.
§ 790.5. Schedule of Compliance.

Chapter 2. Financial Responsibility 200.6

Page

Subchapter 1. Certificates of Financial Responsibility 200.6
§ 791. Definitions.
§ 791.5. Schedule of Compliance.
§ 791.7. Procedures for Application for California Certificate of Financial Responsibility.
§ 792. Certification Requirements: Tankers, Nontank Vessels, Large Barges, and Owners of Oil.
§ 793. Certification Requirements: Small Barges, Marine Facilities, Small Marine Fueling Facilities, Mobile Transfer Units, and Vessels Carrying Oil As Secondary Cargo.
§ 794. Multiple Vessels/Facilities Certifications.
§ 795. Evidence of Financial Responsibility.
§ 796. Certificate Revocation.
§ 797. Reporting and Suspension.

Chapter 3. Oil Spill Prevention and Response Planning ..... 200.10(e)

Subchapter 1. Harbor Safety Committees and Harbor Safety Plans ..... 200.10(e)
§ 800. Definitions.
§ 800.5. Harbor Safety Committees.
§ 800.6. Harbor Safety Committee Membership.
§ 801. General Provisions.
§ 802. Harbor Safety Plan Content.

Subchapter 3. Oil Spill Contingency Plans 200.12
§ 815.01. General Outline.
§ 815.03. Purpose and Scope.
§ 815.05. Definitions.
§ 815.07. General Requirements.
§ 816. Plan Submittal, Review and Approval.
§ 816.01. Plan Submittal.
§ 816.02. Plan Format.
§ 816.03. Plan Review and Approval.
§ 816.04. Plan Implementation and Use.
§ 816.05. Plan Updates.
§ 816.06. Compliance Requirements/Penalties.
§ 817. Marine Facility Contingency Plans.
§ 817.01. Applicability.
§ 817.02. Marine Facility Plan Content (Except for Those Small Marine Fueling Facilities Addressed in Section 817.03 of This Subchapter).
§ 817.03. Small Marine Fueling Facility Plan Content.
§ 818. Tank Vessel Contingency Plans.
§ 818.01. Applicability.
§ 818.02. Tank Vessel Plan Content (Except for Those Vessels Carrying Oil As Secondary Cargo Addressed in Section 818.03 of This Subchapter).
§ 818.03. Vessels Carrying Oil As Secondary Cargo (VCOASC) Plan Content.
§ 819. Oil Spill Response Organization (OSRO) Rating.
§ 819.01. Purpose and Scope.
§ 819.02. OSRO Application Content.
§ 819.03. Application Review, Verification and Drills.
§ 819.04. OSRO Rating, Update, and Renewal Procedure.
§ 819.05. Notice of Reduction in Response Resources.
§ 819.06. Rating Modification, Suspension, Revocation, or Denial.

§ 886.6. OSCA Endorsement.

TITLE 14. NATURAL RESOURCES

Division 1. Fish and Game Commission—Department of Fish and Game

(Originally Printed 3-31-45)

Foreword
Statement of Purpose, Effect, and Application of Rules *

* Foreword supplied by Fish and Game Commission on October 10, 1957.

These rules and regulations may be used as guides in the exercise of discretion, where a discretion is vested. However, under no circumstances, and in no particular case shall they, or any of them, be construed as a limitation or restriction upon the exercise of any discretion, where such exists; nor shall they in any event be construed to deprive the commission of any exercise of powers, duties and jurisdiction conferred by law.

Except for rules or regulations adopted pursuant to provisions of Sections 200 to 221, inclusive, of the Fish and Game Code, the commission may suspend or modify these rules, in whole or in part, upon good cause shown or when in the discretion of the commission the particular facts or circumstances render such action appropriate in a given instance.

** Section 12000 of the Fish and Game Code provides that a violation of any provision of that code other than Sections 3009 and 12001 or any rule, regulation or order made or adopted under that code is a misdemeanor.

Section 12000 of Division 9, Chapter 1 of the Fish and Game Code provides that a violation of any provision of the rules and regulations found herein in this Title 14 is a misdemeanor. (Stats. of 1961, Ch. 1815.)

**Amendment to foreword supplied by Fish and Game Commission on May 15, 1980.

Subdivision 1. Fish, Amphibians and Reptiles

Foreword
1-19-74

In Register 74, No. 3, major substantive changes have been made to former Sections 1.05 through 98.8 of Part 1, Division 1, Title 14, dealing with sport fishing regulations of the commission. Previous Chapters 1, 2, and 3 of Part 1, which constituted the aforementioned sections, have been repealed and replaced with Chapters 1 through 5. The former Chapter 4, concerning commercial fish, can now be found as Chapter 6. Former Chapter 5, concerning capture, transportation, possession and sale of live freshwater fish for bait for profit, can now be found as Chapter 7, and former Chapter 6, containing miscellaneous regulations, can now be found as Chapter 8.

The new sport fishing regulations cannot directly be compared with the previous regulations on a section-by-section basis. In the new format the regulations are broken into Chapter 1, General Provisions and Definitions; Chapter 2, Statewide Regulations for Fishing and Frogging in Inland Waters; Chapter 3, Inland Water Fishing; Chapter 4, Ocean Fishing; and Chapter 5, Reptiles and Amphibians.

The basic objective in the new sport fishing regulations format is to divide the state into eight sport fishing districts, each containing certain common characteristics for all waters within it. Consequently, one should now first determine the sport fishing district containing the water of interest, and look within that district's regulations for general seasons, bag limits and methods of take applicable to that district. Review should then be made of the special regulations contained in that district for any exceptions which may apply. Chapters 1 and 2 contain certain provisions, definitions and regulations for fishing and frogging in the inland waters which are applicable to all districts other than the Ocean and San Francisco Bay District.

Chapter 1. General Provisions and Definitions

§ 1.04. Anadromous Waters.

Anadromous waters are inland waters that are accessible to fish migrating from the ocean.

NOTE: Authority cited: Sections 200, 202, 205 and 215, Fish and Game Code. Reference: Sections 200, 206 and 215, Fish and Game Code.

HISTORY

1. New section filed 2-5-98; operative 3-1-98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 6).

§ 1.05. Angling.

To take fish by hook and line with the line held in the hand, or with the line attached to a pole or rod held in the hand or closely attended in such manner that the fish voluntarily takes the bait or lure in its mouth.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 2, 15, 200-202, 203.1, 205-210 and 215-222, Fish and Game Code.

HISTORY

1. Repealer of Chapter 1 (§§1.05 through 1.95, not consecutive) and new Chapter 1 (§§ 1.05 through 1.86, not consecutive) filed 1-16-74; designated effective 3-1-74 (Register 74, No. 3). For history of former sections, see Register 59, No. 5; 61, Nos. 2, 26; 64, Nos. 8, 25; 66, No. 45; 67, No. 7; 69, No. 51; 70, No. 52; 72, No. 52.
2. Amendment of NOTE filed 12-31-80; effective thirtieth day thereafter (Register 81, No. 1).
3. Repealer of Chapter 1 (Sections 1.05-1.99, not consecutive) and new Chapter 1 (Sections 1.05-1.86, not consecutive) filed 2-17-82; designated effective 3-1-82 (Register 82, No. 8). For prior history, see Registers 80, No. 2 and 74, No. 51.
4. Amendment filed 1-22-86; designated effective 3-1-86 (Register 86, No. 6.)

§ 1.08. Artificial Fly.

Any fly constructed by the method known as fly tying.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200-202, 203.1, 205-210, 215-222, and 5516, Fish and Game Code.

HISTORY

1. Amendment filed 1-22-86; designated effective 3-1-86 (Register 86, No. 6).

§ 1.11. Artificial Lure.

An artificial lure is a man-made lure or fly designed to attract fish. This definition does not include scented or flavored artificial baits.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200-202, 203.1, 205-210, 215-222 and 5516, Fish and Game Code.

HISTORY

1. Amendment filed 1-22-86; designated effective 3-1-86 (Register 86, No. 6).
2. Amendment filed 2-9-96; operative 2-9-96 pursuant to Fish and Game Code sections 202 and 205 (Register 96, No. 6).

§ 1.14. Authorization for Taking Fish.

Fish, amphibians, reptiles, mollusks and crustaceans may be taken only in the amounts, only during the open season and only with the gear authorized and shall not be taken otherwise.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 18, 45, 62, 86, 200–202, 203.1, 205–210, 215–222 and 5516, Fish and Game Code.

§ 1.17. Bag and Possession Limit.

No more than one daily bag limit of each kind of fish, amphibian, reptile, mollusk or crustacean named in these regulations may be taken or possessed by any one person unless otherwise authorized; regardless of whether they are fresh, frozen, or otherwise preserved.

EXCEPTIONS: See Sections 7.00, 7.50(a), 27.60(c), and 195, Title 14, CCR.

NOTE: Authority cited: Sections 200, 202 and 205, Fish and Game Code. Reference: Sections 18, 45, 62, 86, 200, 202, 205 and 7120, Fish and Game Code.

HISTORY

1. Amendment filed 1–22–86; designated effective 3–1–86 (Register 86, No. 6).
2. Amendment filed 5–21–86; effective upon filing pursuant to Government Code Section 11346.2(d) (Register 86, No. 21).
3. Amendment filed 2–11–87; designated effective 3–1–87 (Register 87, No. 9).
4. Amendment filed 3–1–90; operative 3–1–90 (Register 90, No. 10).
5. Amendment of section and NOTE filed 2–24–2004; operative 3–1–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 9).
6. Amendment filed 10–16–2007; operative 11–15–2007 (Register 2007, No. 42).

§ 1.18. Bay–Delta Sport Fishing Enhancement Stamp.

A person shall not sport fish in the tidal waters of San Francisco and San Pablo bays east of the Golden Gate Bridge and west of the Carquinez Bridge, (i.e., all tidal waters, sloughs, canals and forebays within the area east of Highway 101, west of Highway 29, west of Interstates 80 and 880, and north of Highway 237, including the Napa River below the Trancas bridge in Napa, Sonoma Creek below the Highway 121 bridge and the Petaluma River east of Highway 101), the Carquinez Strait, the Sacramento–San Joaquin Delta (i.e., all rivers, sloughs, canals, cuts, forebays, and flooded islands within the area south of Interstate 80, west of Highway 99, north of Interstates 580 and 205, and Highway 120, and east of Interstate 680), the Sacramento River below Keswick Dam, the Feather River below Oroville Dam, the Yuba River below Englebright Dam, the American River below Nimbus Dam, the Cosumnes River west of Highway 99, the Mokelumne River below Camanche Dam, the Calaveras River below New Hogan Dam, the San Joaquin River below Mendota Dam, the Stanislaus River below Goodwin Dam, the Tuolumne River below La Grange Dam, and the Merced River below Crocker–Huffman Dam, unless he or she first obtains, in addition to a valid California sport fishing license and any applicable stamp issued pursuant to Section 7149 or 7149.05, a Bay–Delta Sport Fishing Enhancement Stamp and affixes that stamp to his or her valid sport fishing license.

NOTE: Authority cited: Sections 200, 202, 240, 1050 and 7360, Fish and Game Code. Reference: Sections 200, 202, 205, 206, 240, 713, 1050, 1055 and 7360, Fish and Game Code

HISTORY

1. New section filed 12–30–2003 as an emergency; operative 1–1–2004 (Register 2004, No. 1). A Certificate of Compliance must be transmitted to OAL by 4–30–2004 or emergency language will be repealed by operation of law on the following day.
2. Certificate of Compliance as to 12–30–2003 order, including further amendment of section, transmitted to OAL 4–23–2004 and filed 6–1–2004 (Register 2004, No. 23).

§ 1.19. Barbless Hook.

A fish hook from which the barb or barbs have been removed or completely bent closed, or which is manufactured without barbs.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 48, 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

§ 1.20. Black Bass.

Includes largemouth, smallmouth, redeye and spotted bass.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210, 215–222 and 1740–1743, Fish and Game Code.

§ 1.23. Bow and Arrow Fishing Tackle.

Such tackle must have the arrow shaft or the point, or both, attached by a line to the bow or to a fishing reel (includes crossbow).

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

§ 1.24. Bullfrog.

Includes only *Rana catesbeiana*. See Chapter 5 for amphibian regulations.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

HISTORY

1. Amendment filed 1–10–2002; operative 1–1–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 2).

§ 1.26. Bullhead.

Includes brown, black and yellow bullhead.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

§ 1.29. Catfish.

Includes channel, white, blue and flathead catfish.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210, 215–222 and 1725–1728, Fish and Game Code.

§ 1.32. Chumming.

Placing any material in the water, other than on a hook while angling, for the purpose of attracting fish to a particular area in order that they may be taken.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210, 215–222 and 1725–1728, Fish and Game Code.

§ 1.35. Closed or Closure.

Refers to waters or areas closed to all fishing unless otherwise authorized.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 29, 62, 200–202, 203.1, 205–210, 215–222 and 1725–1728, Fish and Game Code.

§ 1.38. Closed Season.

That period during which the taking of fish, amphibians, reptiles, mollusks or crustaceans is prohibited.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 11, 29, 35, 86, 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

§ 1.39. Coastal Pelagic Species.

Coastal pelagic species means any of the following: northern anchovy (*Engraulis mordax*), Pacific sardine (*Sardinops sagax*), Pacific mackerel (*Scomber japonicus*), jack mackerel (*Trachurus symmetricus*), and market squid (*Loligo opalescens*).

NOTE: Authority: Section 205, Fish and Game Code. Reference: Sections 200, 202 and 215, Fish and Game Code.

HISTORY

1. New section filed 4–15–2003; operative 4–15–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 16).

§ 1.41. Dates.

Dates of seasons and closures are inclusive.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 11, 29, 35, 62, 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

§ 1.42. Dip Net.

Webbing supported by a frame, and hand held, not more than six feet in greatest dimension, excluding handle.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 56, 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

§ 1.44. Dividing Line Between Lake and Stream.

The mouth of the stream at the existing level of the lake surface. Stream regulations apply to parts of streams in the exposed beds of partially empty lakes.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

§ 1.46. Finfish Defined.

Finfish are defined as any species of bony fish or cartilaginous fish (sharks, skates and rays). Finfish do not include amphibians, invertebrates, plants or algae.

NOTE: Authority cited: Sections 200 and 202, Fish and Game Code. Reference: Sections 200 and 202, Fish and Game Code.

HISTORY

1. New section filed 10–16–2007; operative 11–15–2007 (Register 2007, No. 42).

§ 1.47. Fishing Closures (Special), Seasons and Bag and Size Limits.

The District Special Regulations are exceptions to the open seasons and bag limits specified in the Species Regulations. Where more than one area is fished, the number of fish in possession shall not exceed the limit specified in the Species Regulations. Open seasons and closures on streams listed in the District Special Regulations do not include tributaries of such streams unless so specified.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 18, 86, 200–202, 203.1, 205–210, 215–222 and 310, Fish and Game Code.

§ 1.48. Gill Net.

A single wall of webbing, bound at the top by a float line and at the bottom by a weighted line and used for entangling fish.

NOTE: Authority cited: Section 8682, Fish and Game Code. Reference: Sections 8680–8682 and 8700, Fish and Game Code.

HISTORY

1. New section filed 7–1–83; effective thirtieth day thereafter (Register 83, No. 27).

§ 1.49. Highly Migratory Species.

Highly migratory species means any of the following: albacore, bluefin, bigeye, and yellowfin tuna (*Thunnus spp.*); skipjack tuna (*Katsuwonus pelamis*); dorado (dolphinfish) (*Coryphaena hippurus*); striped marlin (*Tetrapturus audax*); thresher sharks (common, pelagic, and bigeye) (*Alopias spp*); shortfin mako shark (*Isurus oxyrinchus*); blue shark (*Prionace glauca*); and Pacific swordfish (*Xiphias gladius*).

NOTE: Authority: Section 205, Fish and Game Code. Reference: Sections 200, 202 and 215, Fish and Game Code.

HISTORY

1. New section filed 4–15–2003; operative 4–15–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 16).

§ 1.51. Hoopa Indian Salmon Possession Limit.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219, 220 and 7708, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210, 215–222, 7155, 7700, 7702, 7703, 7706, 7708 and 12300, Fish and Game Code.

HISTORY

1. Amendment filed 8–24–82 as an emergency; effective upon filing (Register 82, No. 35). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 12–22–82.
2. Certificate of Compliance transmitted to OAL 12–13–82 and filed 1–20–83 (Register 83, No. 4).
3. Renumbering of Section 1.51 to Section 5.86 filed 1–22–86; designated effective 3–1–86 (Register 86, No. 6).

§ 1.52. Marking Requirements for Salmon Taken by Other Than Commercial Means.

NOTE: Authority cited: Section 7708, Fish and Game Code. Reference: Sections 7700, 7702, 7703, 7706 and 7708, Fish and Game Code.

HISTORY

1. Amendment filed 8–24–82 as an emergency; effective upon filing (Register 82, No. 35). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 12–22–82.
2. Certificate of Compliance transmitted to OAL 12–13–82 and filed 1–20–83 (Register 83, No. 4).
3. Renumbering of Section 1.52 to Section 5.87 filed 1–22–86; designated effective 3–1–86 (Register 86, No. 6).

§ 1.53. Inland Waters.

Inland waters are all the fresh, brackish and inland saline waters of the state, including lagoons and tidewaters upstream from the mouths of coastal rivers and streams. Inland waters exclude the waters of San Francisco and San Pablo bays downstream from Carquinez Bridge, the tidal portions of rivers and streams flowing into San Francisco and San Pablo Bays, and the waters of Elkhorn Slough, west of Elkhorn Road between Castroville and Watsonville. Also see Section 27.00.

NOTE: Authority cited: Sections 200, 202, 205, 215 and 220, Fish and Game Code. Reference: Sections 200, 202, 205, 206, 215 and 220, Fish and Game Code.

HISTORY

1. Amendment of section and NOTE filed 2–5–98; operative 3–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 6).

§ 1.56. Lake.

Includes natural lakes or man–made reservoirs.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

§ 1.59. Limit.

Refers to daily bag limit and possession limit per person, or boat limit authorized in Sections 27.60(c) and 195, Title 14, CCR.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 18, 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

HISTORY

1. Amendment filed 2–24–2004; operative 3–1–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 9).
2. Amendment filed 10–16–2007; operative 11–15–2007 (Register 2007, No. 42).

§ 1.60. Lure.

A manufactured article or object equipped with one or more hooks designed to attract or catch fish.

NOTE: Authority cited: Sections 200, 202, 205, 210 and 220, Fish and Game Code. Reference: Sections 200, 202, 205, 206, 209, 210, 215 and 220, Fish and Game Code.

HISTORY

1. New section filed 3–2–2006; operative 4–1–2006 (Register 2006, No. 9).

§ 1.61. Non–Buoyant Lure.

Any lure that sinks in freshwater.

NOTE: Authority cited: Sections 200, 202, 205, 210 and 220, Fish and Game Code. Reference: Sections 200, 202, 205, 206, 209, 210, 215 and 220, Fish and Game Code.

HISTORY

1. New section filed 3–2–2006; operative 4–1–2006 (Register 2006, No. 9).

§ 1.62. Minimum and Maximum Size.

No fish, mollusks or crustaceans less than the legal minimum size or greater than the maximum legal size (total, fork or alternate) may be possessed, except as otherwise provided. Total length is the longest straight–line measurement from the tip of the head to the end of the longest lobe of the tail. Fork length is the straight–line distance from the tip of the head to the center of the tail fin. Tip of the head shall be the most anterior point on the fish with the mouth closed and the fish lying flat on its side. Alternate length is the straight–line distance from the base of the foremost spine of the first dorsal fin to the end of the longest lobe of the tail. Unless otherwise provided, all fish, mollusks or crustaceans less than the legal minimum size or greater than the maximum legal size must be returned immediately to the water from which they were taken.

NOTE: Authority cited: Sections 200, 202, 205, 219 and 220, Fish and Game Code. Reference: Sections 18, 200, 202, 205 and 220, Fish and Game Code.

HISTORY

1. Amendment filed 3–1–90; operative 3–1–90 (Register 90, No. 10).
2. Amendment of section heading and section filed 2–28–2007; operative 2–28–2007 pursuant to Government Code section 11343.4 (Register 2007, No. 9).

§ 1.63. Movement of Live Fish.

Except as provided in sections 4.00 through 4.30 and 230, live fin fish may not be transported alive from the water where taken.

NOTE: Authority cited: Sections 200, 202, 205, and 210, Fish and Game Code. Reference: Sections 200, 202, 205–210, Fish and Game Code.

HISTORY

1. New section filed 1–26–88; operative 3–1–88 (Register 88, No. 6).
2. Amendment filed 3–7–94; operative 3–7–94 pursuant to Fish and Game Code sections 202 and 215 (Register 94, No. 10).
3. Amendment filed 2–9–96; operative 2–9–96 pursuant to Fish and Game Code sections 202 and 205 (Register 96, No. 6).
4. Amendment filed 2–28–2007; operative 2–28–2007 pursuant to Government Code section 11343.4 (Register 2007, No. 9).

§ 1.65. Multiple Hook.

A hook with two or more points.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 48, 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

§ 1.67. Native Reptiles and Amphibians.

Native reptiles and amphibians are those subspecies, and species, including all color phases, of the classes Reptilia and Amphibia indigenous to California. This definition includes all specimens regardless of their origin even if they were produced in captivity.

NOTE: Authority cited: Sections 200, 202, 205, 220, 5061 and 6896, Fish and Game Code. Reference: Sections 200, 202, 205, 220, 5060, 5061, 6895 and 6896, Fish and Game Code.

HISTORY

1. New section filed 9–10–96; operative 9–10–96 pursuant to Fish and Game Code sections 202 and 215 (Register 96, No. 37).
2. Amendment filed 2–28–2007; operative 2–28–2007 pursuant to Government Code section 11343.4 (Register 2007, No. 9).

§ 1.68. Open Season.

That period of time during which the taking of fish, amphibians, reptiles, mollusks and crustaceans is authorized.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 11, 35, 48, 62, 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

§ 1.70. Opening Date and Bag Limit for Boundary Waters.

Waters, exclusive of their tributaries, on the boundary between areas or districts with different opening dates or limits shall open on the earlier date and have the larger limit unless otherwise specified.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 11, 35, 48, 62, 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

HISTORY

1. Renumbering of former section 1.71 to new section 1.70 filed 4–7–2005; operative 5–7–2005 (Register 2005, No. 14).

§ 1.71. Sacramento–San Joaquin River Delta.

The Sacramento–San Joaquin River Delta includes all rivers, sloughs, canals, cuts, forebays, and flooded islands within the area south of Interstate 80 to its junction with Highway 50, and south of Highway 50 via the Pioneer Bridge to its junction with Highway 99, west of Highway 99, north of Interstate 580, 205, and Highway 120, and east of Interstate 680.

NOTE: Authority cited: Sections 200, 202, 205, 215 and 220, Fish and Game Code. Reference: Sections 200, 202, 205, 206, 215 and 220, Fish and Game Code.

HISTORY

1. Renumbering of former section 1.71 to section 1.70 and new section 1.71 filed 4–7–2005; operative 5–7–2005 (Register 2005, No. 14).
2. Amendment filed 3–2–2006; operative 4–1–2006 (Register 2006, No. 9).

§ 1.72. Stream (Includes Creeks and Rivers).

A stream is a body of water that flows at least periodically or intermittently through a bed or channel having banks and supports fish or other aquatic life. This includes watercourses having a surface or subsurface flow that supports or has supported riparian vegetation.

NOTE: Authority cited: Sections 200, 202, 205 and 210, Fish and Game Code. Reference: Sections 200–202 and 205–210, Fish and Game Code.

HISTORY

1. New Section filed 2–11–87; designated effective 3–1–87 (Register 87, No. 9). For history of former Section 1.72, see Register 86, No. 6).

§ 1.73. Salmon.

Includes chinook, coho, pink, chum and sockeye salmon.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

HISTORY

1. Renumbering of former Section 1.74 to Section 1.73 filed 5–21–86; effective upon filing pursuant to Government Code Section 11346.2(d) (Register 86, No. 21).

§ 1.74. Sport Fishing Report Card and Tagging Requirements.

(a) Purpose. These regulations address potential concern for overfishing and a lack of recreational fishing effort and catch information in some or all areas where the fishery operates. Many of these species are of high commercial value, and therefore, additional enforcement mechanisms are needed to improve compliance with existing bag limits and other regulations, and to reduce the potential for poaching.

(b) Species and Location Requirements. Individuals fishing for or taking the following species are subject to report card requirements in the following locations described below:

(1) Salmon, in the Klamath–Trinity River System only. The Klamath–Trinity River System is defined as the anadromous waters of the Klamath River and Trinity River basins. Anadromous waters are defined in Section 1.04.

(2) Steelhead trout, in all anadromous waters where take is authorized.

(3) White sturgeon, in all areas where take is authorized. Tagging of retained individual sturgeon is also required.

(4) Red abalone, in all areas where take is authorized. Tagging of retained individual abalone is also required

(5) California spiny lobster, in all areas where take is authorized.

(c) General Report Card Requirements.

(1) Any person fishing for or taking any of the species identified in this Section shall have in their possession a non–transferable report card issued by the department for the particular species. See special exemption regarding possession of report cards for lobster divers in Section 29.91.

(2) Notwithstanding other statutes and regulations that may exempt sport fishing license requirements, non–transferable report cards are required for any person fishing for or taking the species identified above. All cardholders shall adhere to all reporting and tagging requirements defined in this Section and Sections 5.79, 5.87, 5.88, 27.92, 29.16, and 29.91 regardless of whether a sport fishing license requirement applies. This provision applies to all of the following persons:

(A) Any person who is under 16 years of age

(B) Any person who is fishing from a public pier

(C) Any person who is fishing on free fishing days

(D) Any person who holds a lifetime fishing license

(3) Persons described in subsections 1.74(c)(2) may purchase report cards without purchasing a license.

(4) All entries made on any report card or tag must be legible and in indelible ink.

(5) Entries Required at the Time of Report Card Issuance. At the time of issuance of the report card, the cardholder is responsible for entry of the following information, unless both the report card and the sport fishing license are issued through the Automated License Data System:

(A) The date the report card is issued, the individual's name, street address, city, state, zip code, home phone, and date of birth shall be entered in the appropriate spaces on the report card. If the cardholder has a driver's license, or DMV identification number, this information shall also be entered in the appropriate spaces. If the cardholder has an e–mail address, it may be entered in the space provided.

(B) Acquisition of Sturgeon Fishing Report Cards and Abalone Report Cards — If the cardholder is required to have a sport fishing license, the report card number shall be entered in the designated space provided on the back of the individual's sport fishing license, and the sport fishing license number shall be entered on the report card in the appropriate space.

(C) Acquisition of Klamath–Trinity Salmon Report Cards, Steelhead Report and Restoration Cards and Spiny Lobster Report Cards — If the cardholder is required to have a sport fishing license, both the name of the report card and the number shall be entered in the blank area on the back of the individual's sport fishing license, and the sport fishing license number shall be entered on the report card in the appropriate space.

(D) If the cardholder wishes to purchase another fishing license after their one, two, or ten–day sport fishing license has expired the cardholder need not purchase a second report card for any species, so long as the cardholder still possesses the report card valid for the calendar year. At the time of purchase of the subsequent license, the additional sport fishing license number shall be entered in the appropriate space on the report card. If there is a space provided for the particular card on the sport fishing license, the number shall be entered in the appropriate space at the

time of purchase. If there is no space provided for the card, both the name of the report card and the number shall be entered on the back of the individual's sport fishing license.

(6) A report card shall be valid only during the open fishing season for the calendar year shown on the report card.

(7) Cardholders shall return their card by January 31 of the following year to the department at the address specified on the card.

(8) Any person who fails to return his or her report card to the Department by the deadline may be restricted from obtaining the same card in a subsequent license year or may be subject to an additional fee for the issuance of the same card in a subsequent license year.

(9) For abalone and sturgeon report cards, only one report card may be issued per person per license year.

(10) Report cards may not be transferred to another person and no person may possess any report card other than their own.

(d) Replacement Procedures for Lost Abalone or Sturgeon Report Cards. For species for which an individual may purchase only one report card per year (i.e., abalone and sturgeon), if the cardholder loses the card, a replacement card shall be acquired only by following the procedures below:

(1) The individual shall provide all of the following to a Department license office location:

(A) A photocopy of the original report card issued in the cardholder's name, unless the report card was issued through the Automated License Data System.

(B) An affidavit, signed under penalty of perjury, containing the following information:

1. A statement confirming that the originally issued report card cannot be recovered.

2. A statement of the cardholder's best recollection of the prior catch records that were entered on the report card that was lost, including the number of tags utilized.

3. A statement describing the factual circumstances surrounding the loss of the card.

(C) Proof of purchase of the original report card, in the form of an itemized receipt, credit card billing statement, invoice, or other written business record expressly documenting that a report card for the particular species was purchased and the corresponding fee was paid. The cardholder is exempt from this requirement if the report card was issued through the Automated License Data System.

(D) Payment of the Replacement Card Fee specified in Section 701(f), 701(g) or 701(h) Title 14, CCR, established pursuant to subdivision 1053(b) of the Fish and Game Code, and as adjusted pursuant to Sections 713 and 1055 of the Fish and Game Code.

(E) Payment of the Replacement Processing Fee specified in Section 701(i) or 701(j), Title 14, CCR, established pursuant to subdivision 1050(e) of the Fish and Game Code.

(2) Based on the information provided in the written affidavit, the department shall issue only the number of tags that were reported unused on the previously issued report card.

(3) At the time the replacement card is acquired, if the cardholder is required to have a sport fishing license, the number of the replacement card shall be entered in the appropriate space on the sport fishing license and the fishing license number shall be entered in the space provided on the report card.

(4) All regulations applicable to the initial card also apply to additional cards issued pursuant to this subsection.

(e) Replacement Procedures for Salmon, Steelhead, or Lobster Report Cards.

(1) Any cardholder who fills in all available lines on his or her steelhead, salmon or lobster report card shall return the card to the department at the address specified on the card prior to purchasing a second card.

(2) Any cardholder who loses his or her steelhead, salmon or lobster report card may purchase a second card, but at or before the time of purchase shall provide a written affidavit to the department at the address on the report card documenting the lost catch and effort data required by the card to the best of the cardholder's recollection.

(3) At the time the additional card is acquired, if the cardholder is required to have a sport fishing license, both the name of the report card and the number shall be entered on the back of the individual's sport fishing license, and the fishing license number shall be entered in the space provided on the report card.

(4) All regulations applicable to the initial card also apply to additional cards issued pursuant to this subsection.

(f) Specific Report Card and Tagging Requirements. Data recording and tagging procedures vary between report cards and species. See specific regulations in Sections 5.79, 5.87, 5.88, 27.92, 29.16, and 29.91 that apply in addition to the regulations of this Section.

NOTE: Authority cited: Sections 200, 202, 205, 240, 1050, 1053, 1055, 1055.1 and 7380, Fish and Game Code. Reference: Sections 200, 202, 205, 206, 240, 713, 1050, 1053, 1055, 1055.1, 7149.8, 7380, 7381 and 7382, Fish and Game Code.

HISTORY

1. Renumbering of former section 1.74 to section 1.73 and new section 1.74 filed 5–21–86; effective upon filing pursuant to Government Code section 11346.2(d) (Register 86, No. 21).
2. Amendment filed 6–1–87; operative 6–1–87 (Register 87, No. 24).
3. Amendment of section heading, newly designated subsection (a) and NOTE and new subsection (b) filed 12–22–92; operative 12–22–92 pursuant to sections 202 and 215, Fish and Game Code (Register 92, No. 52).
4. Amendment of subsection (a) filed 12–27–96; operative 12–27–96 pursuant to Fish and Game Code sections 202 and 215 (Register 96, No. 52).
5. Amendment of subsection (b) and NOTE filed 2–5–98; operative 3–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 6).
6. Amendment of subsection (a) filed 8–5–99; operative 8–5–99 pursuant to Fish and Game Code sections 202 and 215 (Register 99, No. 32).
7. Amendment of subsection (b) and amendment of NOTE filed 6–26–2003; operative 7–26–2003 (Register 2003, No. 26).
8. Change without regulatory effect amending section heading and subsection (b) filed 9–22–2004 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 39).
9. Amendment filed 8–4–2006; operative 8–4–2006 pursuant to Government Code section 11343.4 (Register 2006, No. 31).
10. Amendment of subsection (a) and amendment of NOTE filed 12–14–2007; operative 1–13–2008 (Register 2007, No. 50).
11. Amendment of section heading, repealer and new section and amendment of NOTE filed 3–14–2008; operative 4–1–2008 pursuant to Government Code section 11343.4 (Register 2008, No. 11).

§ 1.75. Salmon Spawning Areas.

No salmon may be taken or possessed on any salmon spawning area when it is closed to salmon fishing.

[The next page is 5.]

NOTE: Authority cited: Sections 200, 202, 205, 210, 219, 220 and 310, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210, 215–222 and 310, Fish and Game Code.

§ 1.76. Spearfishing.

The taking of fish by spear or hand by persons who are in the water and may be using underwater goggles, face plates, breathing tubes, SCUBA or other artificial underwater breathing device.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

§ 1.77. Sunfish.

Includes bluegill, green sunfish, redear sunfish, pumpkinseed, warmouth, yellow perch and Sacramento perch.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

§ 1.80. Take.

Hunt, pursue, catch, capture or kill fish, amphibians, reptiles, mollusks, crustaceans or invertebrates or attempting to do so.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 86, 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

HISTORY

1. Amendment filed 1–22–86; designated effective 3–1–86 (Register 86, No. 6).

§ 1.84. Titles and Section Numbers.

All titles and headings used in these regulations are a part thereof. All section numbers cited refer to these regulations unless otherwise specified.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 2, 5, 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

HISTORY

1. Renumbering of former Section 1.85 to Section 1.84 filed 7–1–83; effective thirtieth day thereafter (Register 83, No. 27).

§ 1.85. Trammel Net.

Two or more walls of webbing, bound at the top by a float line and at the bottom by a weighted line and used for entangling fish.

NOTE: Authority cited: Sections 8682, Fish and Game Code. Reference: Sections 8680–8682, 8700 and 8720, Fish and Game Code.

HISTORY

1. Renumbering of former Section 1.85 to Section 1.84, and new Section 1.85 filed 7–1–83; effective thirtieth day thereafter (Register 83, No. 27).

§ 1.86. Trout.

Includes all trouts, chars, steelhead, kokanee salmon and grayling.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210, 215–222 and 1725–1728, Fish and Game Code.

§ 1.87. Waste of Fish.

It is unlawful to cause or permit any deterioration or waste of any fish taken in the waters of this state.

NOTE: Authority cited: Section 5510, Fish and Game Code. Reference: Sections 5510, 7700, 7701, 7704 and 7705, Fish and Game Code.

HISTORY

1. New section filed 1–22–86; designated effective 3–1–86 (Register 86, No. 6).

§ 1.88. Public Pier.

A public pier is a publicly owned manmade structure that has the following characteristics: is connected, above the mean high tide, to the main coastline or to the landmass of a named and charted natural island; has unrestricted free access for the general public; and has been built or currently functions for the primary purpose of allowing angling access to ocean waters.

Additionally, publicly owned jetties or breakwaters that are connected to land, as described above, that have free unrestricted access for the general public and whose purpose it is to form the most seaward protective boundary of an ocean harbor are public piers. Jetties, breakwaters, promenades, sea walls, moles, docks, linings, barriers and other structures that are not the most seaward protective boundary of an ocean harbor, are not public piers.

NOTE: Authority cited: Section 200, Fish and Game Code. Reference: Section 7153, Fish and Game Code.

HISTORY

1. New section filed 2–18–2000; operative 3–1–2000 pursuant to Fish and Game Code sections 202 and 215 (Register 2000, No. 7).

§ 1.90. Nearshore Fish Stocks, Nearshore Fisheries, Nearshore Waters, and Shallow Nearshore Rockfish Defined.

(a) Under the authority of Section 8587.1 of the Fish and Game Code, Section 8586 of the Fish and Game Code is made inoperative.

(b) "Nearshore fish stocks" means any of the following:

(1) black rockfish (Sebastes melanops),
(2) black–and–yellow rockfish (Sebastes chrysomelas),
(3) blue rockfish (Sebastes mystinus),
(4) brown rockfish (Sebastes auriculatus),
(5) cabezon (Scorpaenichthys marmoratus),
(6) calico rockfish (Sebastes dallii),
(7) California scorpionfish (sculpin) (Scorpaena guttata),
(8) California sheephead (Semicossyphus pulcher),
(9) China rockfish (Sebastes nebulosus),
(10) copper rockfish (Sebastes caurinus),
(11) gopher rockfish (Sebastes carnatus),
(12) grass rockfish (Sebastes rastrelliger),
(13) greenlings of the genus Hexagrammos,
(14) kelp rockfish (Sebastes atrovirens),
(15) monkeyface eel (Cebidichthys violaceus),
(16) olive rockfish (Sebastes serranoides),
(17) quillback rockfish (Sebastes maliger), and
(18) treefish (Sebastes serriceps),

(c) "Nearshore fisheries" means the commercial or recreational taking, possession, or landing of any species of nearshore fish stocks.

(d) "Nearshore waters" means ocean waters including around offshore rocks and islands extending from the shore to a depth of 20 fathoms.

(e) "Shallow nearshore rockfish" means a subgroup of rockfishes (genus Sebastes) including only black–and–yellow rockfish, China rockfish, gopher rockfish, grass rockfish, and kelp rockfish.

NOTE: Authority cited: Sections 7071 and 8587.1, Fish and Game Code. Reference: Sections 8585.5 and 8586, Fish and Game Code.

HISTORY

1. New section filed 3–5–2001; operative 3–5–2001 pursuant to Fish and Game Code sections 202 and 215 (Register 2001, No. 10).
2. Amendment of section heading and new subsection (e) filed 1–3–2003; operative 1–3–2003 pursuant to Fish and Game Code sections 202 and 215 (Register 2003, No. 1).

§ 1.91. Federal Groundfish and Rockfish, Cabezon and Greenling (RCG) Complex.

(a) The species or species groups listed in subsections 1.91(a)(1) through 1.91(a)(12) constitute "federal groundfish" and are managed under the Federal Pacific Coast Groundfish Fishery Management Plan:

(1) "Nearshore Rockfish," which means the following species of rockfish: black rockfish (*Sebastes melanops*), black and yellow rockfish (*S. chrysomelas*), blue rockfish (*S. mystinus*), brown rockfish (*S. auriculatus*), calico rockfish (*S. dalli*), China rockfish (*S. nebulosus*), copper rockfish (*S. caurinus*), gopher rockfish (*S. carnatus*), grass rockfish (*S. rastrelliger*), kelp rockfish (*S. atrovirens*), olive rockfish (*S. serranoides*), quillback rockfish (*S. maliger*), treefish (*S. serriceps*)

(2) "California Scorpionfish" (*Scorpaena guttata*)

(3) "Shelf Rockfish" which means the following species of rockfish: bocaccio (*Sebastes paucispinis*), bronzespotted rockfish (*S. gilli*), canary rockfish (*S. pinniger*), chilipepper (*S. goodei*), cowcod (*S. levis*), dusky rockfish (*S. ciliatus*), flag rockfish (*S. rubrivinctus*), greenblotched rockfish (*S. rosenblatti*), greenspotted rockfish (*S. chlorostictus*), greenstriped rockfish (*S. elongates*), harlequin rockfish (*S. variegates*), honeycomb rockfish (*S. umbrosus*), Mexican rockfish (*S. macdonaldi*), pink rockfish (*S. eos*), redstripe rockfish (*S. proriger*), rosethorn rockfish (*S.*

helvomaculatus), rosy rockfish (*S. rosaceus*), shortbelly rockfish (*S. jordani*), silvergray rockfish (*S. brevispinis*), speckled rockfish (*S. ovalis*), squarespot rockfish (*S. hopkinsi*), starry rockfish (*S. constellatus*), stripetail rockfish (*S. saxicola*), tiger rockfish (*S. nigrocinctus*), vermilion rockfish (*S. miniatus*), widow rockfish (*S. entomelas*), yelloweye rockfish (*S. ruberrimus*), yellowtail rockfish (*S. flavidus*)

(4) "Slope Rockfish" which means the following species of rockfish: aurora rockfish (*Sebastes aurora*), bank rockfish (*S. rufus*), blackgill rockfish (*S. melanostomus*), darkblotched rockfish (*S. crameri*), Pacific ocean perch (*S. alutus*), redbanded rockfish (*S. babcocki*), rougheye rockfish (*S. aleutianus*), sharpchin rockfish (*S. zacentrus*), shortraker rockfish (*S. borealis*), splitnose rockfish (*S. diploproa*), yellowmouth rockfish (*S. reedi*)

(5) "Sharks", including only leopard shark (*Triakis semifasciata*), soupfin shark (*Galeorhinus zyopterus*), and spiny dogfish (*Squalus acanthias*)

(6) "Skates", including only big skate (*Raja binoculata*), California skate (*R. inornata*), and longnose skate (*R. rhina*)

(7) "Roundfish", including only cabezon (*Scorpaenichthys marmoratus*), kelp greenling (*Hexagrammos decagrammus*), lingcod (*Ophiodon elongates*), Pacific cod (*Gadus macrocephalus*), Pacific whiting (*Merluccius productus*), and sablefish (*Anoplopoma fimbria*)

(8) "Thornyheads", which means longspine thornyhead (*Sebastolobus altivelis*), and shortspine thornyhead (*Sebastolobus alascanus*)

(9) "Federally Managed Flatfish", including only arrowtooth flounder (arrowtooth turbot) (*Atheresthes stomias*), Dover sole (*Microstomus pacificus*), English sole (*Parophrys vetulus*), petrale sole (*Eopsetta jordani*), and starry flounder (*Platichthys stellatus*).

(10) "Other Flatfish", including only butter sole (*Isopsetta isolepis*), curlfin sole (*Pleuronichthys decurrens*), flathead sole (*Hippoglossoides elassodon*), Pacific sanddab (*Citharichthys sordidus*), rex sole (*Glyptocephalus zachirus*), rock sole (*Lepidopsetta bilineata*), and sand sole (*Psettichthys melanostictus*).

(11) "Other fish", including only ratfish (*Hydrolagus colliei*), finescale codling (*Antimora microlepis*), and Pacific rattail (*Coryphaenoides acrolepis*)

(12) All genera and species of the family Scorpaenidae that occur off California and not specifically listed in (a)(1) through (a)(4) or (a)(8) above are included in the list of species.

(b) "RCG Complex" means all species of rockfish (*Sebastes*), cabezon (*Scorpaenichthys marmoratus*), and kelp and rock greenlings (genus *Hexagrammos*).

NOTE: Authority cited: Sections 200, 202, 7071 and 8587.1, Fish and Game Code. Reference: Sections 205, 7071 and 8586, Fish and Game Code.

HISTORY

1. New section filed 1–3–2003; operative 1–3–2003 pursuant to Fish and Game Code sections 202 and 215 (Register 2003, No. 1).
2. Amendment of section heading, section and NOTE filed 12–27–2004; operative 1–1–2005 pursuant to Government Code section 11343.4 (Register 2004, No. 53).
3. Amendment of subsections (a)(9) and (a)(10) filed 1–18–2007; operative 1–18–2007 pursuant to Government Code section 11343.4(c) (Register 2007, No. 3).

§ 1.92. Transgenic.

Genetically altered by introducing DNA (1) from another species or (2) through engineered endogenous constructs by means such as but not limited to recombinant DNA and RNA techniques to produce, gene addition, deletion, and doubling, or changing the position of the gene. This definition excludes DNA vaccines, individuals produced by the techniques of whole genome ploidy manipulation, and hybridization between closely related species, as in traditional hybridization.

NOTE: Authority cited: Sections 200, 202, 205, 210 and 220. Reference: Sections 200–202, 205, 206, 210 and 220.

HISTORY

1. New section filed 4–14–2003; operative 5–14–2003 (Register 2003, No. 16).

§ 1.93. Weight.

Any object directly or indirectly attached to a fishing line with the purpose of casting or sinking a lure or bait.

NOTE: Authority cited: Sections 200, 202, 205, 210 and 220, Fish and Game Code. Reference: Sections 200, 202, 205, 206, 209, 210, 215 and 220, Fish and Game Code.

HISTORY

1. New section filed 3–2–2006; operative 4–1–2006 (Register 2006, No. 9).

Chapter 2. Statewide Regulations for Fishing and Frogging in Inland Waters

Article 1. Fishing Methods and Gear Restrictions

§ 2.00. Fishing Methods—General.

(a) All fish may be taken only by angling with one closely attended rod and line or one hand line with not more than three hooks nor more than three artificial lures (each lure may have three hooks attached) attached thereto. Anglers in possession of a valid two–rod stamp and anglers under 16 years of age may use up to two rods in inland waters which regulations provide for the taking of fish by angling, except those waters in which only artificial lures or barbless hooks may be used. See District Trout, Salmon and Special regulations for exceptions.

(b) Snagging is prohibited. Snagging is defined as impaling or attempting to impale a fish in any part of its body other than the mouth by use of a hook, hooks, gaff, or other mechanical implement. This definition does not include activities otherwise authorized under these regulations for the lawful use of a gaff, bow and arrow, or spear.

(c) It is unlawful to kill, or retain in possession any fish which has not voluntarily taken the bait or artificial lure in its mouth. Any fish not taken pursuant to these regulations, shall be released immediately back into the water.

NOTE: Authority cited: Sections 200, 202, 205, 219, 220 and 7149.4, Fish and Game Code. Reference: Sections 200, 202, 206, 220 and 7149.4, Fish and Game Code.

HISTORY

1. Repealer of chapter 2 (§§ 2 through 34.95, not consecutive) and new chapter 2 (§§ 2.00 through 2.85, not consecutive) filed 1–16–74; designated effective 3–1–74 (Register 74, No. 3). For history of former sections, see Register 60, Nos. 1, 3; 61, Nos. 2, 26; 62, No. 5; 63, No. 1; 64, No. 25; 66, Nos. 1, 45; 67, Nos. 36, 51; 68, Nos. 25, 38, 48; 69, Nos. 8, 31, 51; 70, Nos. 25, 52; 71, No. 15; 72, Nos. 1, 5, 51, 52.
2. Repealer of chapter 2 (sections 2.00–2.90, not consecutive), renumbering of section 3.90 to section 781.5 and new chapter 2 (articles 1–4, sections 2.05–5.95, (not consecutive) filed 2–17–82; designated effective 3–1–82 (Register 82, No. 8). For prior history, see Registers 75, No. 52 and 74, No. 51.
3. Renumbering and amendment of former section 2.05 to section 2.00 filed 3–12–92; operative 3–12–92 (Register 92, No. 20).
4. Amendment filed 2–9–96; operative 2–9–96 pursuant to Fish and Game Code sections 202 and 205 (Register 96, No. 6).
5. Amendment filed 12–27–96; operative 12–27–96 pursuant to Fish and Game Code sections 202 and 215 (Register 96, No. 52).
6. Change without regulatory effect amending section filed 12–20–2001 pursuant to section 100, title 1, California Code of Regulations (Register 2001, No. 51).
7. Amendment designating existing section as subsection (a) and adopting new subsections (b) and (c) filed 2–28–2007; operative 2–28–2007 pursuant to Government Code section 11343.4 (Register 2007, No. 9).
8. Change without regulatory effect amending subsection (a) and NOTE filed 12–26–2007 pursuant to section 100, title 1, California Code of Regulations (Register 2007, No. 52).

§ 2.01. Limits on Weights and Hook Spacing.

NOTE: Authority cited: Sections 200, 202, 205 and 215, Fish and Game Code. Reference: Sections 200 and 206, Fish and Game Code.

HISTORY

1. New section filed 2–5–98; operative 3–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 6).
2. Repealer filed 1–10–2002; operative 1–1–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 2).

§ 2.02. Fishing Methods—North Coast District.

NOTE: Authority cited: Sections 200, 202, 205 and 220, Fish and Game Code. Reference: Sections 200, 202, 205, 206 and 220, Fish and Game Code.

HISTORY
1. New section filed 3–12–92; operative 3–12–92 (Register 92, No. 20).
2. Amendment of subsection (a) filed 3–7–94; operative 3–7–94 pursuant to Fish and Game Code sections 202 and 215 (Register 94, No. 10).
3. Amendment of subsection (a) filed 8–11–98; operative 8–11–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 33).
4. Amendment of subsection (a) filed 4–30–2001; operative 5–1–2001 pursuant to Fish and Game Code sections 202 and 215 (Register 2001, No. 18).
5. Repealer filed 1–10–2002; operative 1–1–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 2).

§ 2.03. Special Upper Sacramento River Gear Restrictions.

NOTE: Authority cited: Sections 200, 202, 205 and 220, Fish and Game Code. Reference: Sections 200, 205 and 206, Fish and Game Code.

HISTORY
1. New section filed 6–25–92 as an emergency; operative 6–25–92 (Register 92, No. 26). A Certificate of Compliance must be transmitted to OAL 10–23–92 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 10–22–92 as an emergency; operative 10–22–92 (Register 92, No. 43). A Certificate of Compliance must be transmitted to OAL 2–19–93 or emergency language will be repealed by operation of law on the following day.
3. Repealed by operation of Government Code section 11346.1 (Register 93, No. 20).
4. New section filed 5–12–93; operative 5–12–93 pursuant to Fish and Game Code section 202 (Register 93, No. 20).
5. Repealer filed 1–10–2002; operative 1–1–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 2).

§ 2.04. Fishing Methods—Special Provisions.

NOTE: Authority cited: Sections 200, 202, 205 and 220, Fish and Game Code. Reference: Sections 200, 202, 205, 206 and 220, Fish and Game Code.

HISTORY
1. New section filed 3–12–92; operative 3–12–92 (Register 92, No. 20).
2. Amendment of first paragraph and subsection (e) filed 7–13–93; operative 8–12–93 (Register 93, No. 29).
3. Amendment of subsections (b), (c), and (e)–(g) filed 3–7–94; operative 3–7–94 pursuant to Fish and Game Code sections 202 and 215 (Register 94, No. 10).
4. Repealer filed 1–10–2002; operative 1–1–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 2).

§ 2.05. Fishing Methods—General.

NOTE: Authority cited: Sections 200, 202, 205, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

HISTORY
1. Repealer of chapter 2 (§§ 2 through 34.95, not consecutive) and new chapter 2 (§§ 2.00 through 2.85, not consecutive) filed 1–16–74; designated effective 3–1–74 (Register 74, No. 3). For history of former sections, see Register 60, Nos. 1, 3; 61, Nos. 2, 26; 62, No. 5; 63, No. 1; 64, No. 25; 66, Nos. 1, 45; 67, Nos. 36, 51; 68, Nos. 25, 38, 48; 69, Nos. 8, 31, 51; 70, Nos. 25, 52; 71, No. 15; 72, Nos. 1, 5, 51, 52.
2. Repealer of chapter 2 (sections 2.00–2.90, not consecutive), renumbering of section 3.90 to section 781.5 and new chapter 2 (articles 1–4, sections 2.05–5.95, (not consecutive) filed 2–17–82; designated effective 3–1–82 (Register 82, No. 8). For prior history, see Registers 75, No. 52 and 74, No. 51.
3. Renumbering and amendment of former section 2.05 to section 2.00 filed 3–12–92; operative 3–12–92 (Register 92, No. 20).
4. Amendment of NOTE filed 2–9–96; operative 2–9–96 pursuant to Fish and Game Code sections 202 and 205 (Register 96, No. 6).

§ 2.06. Use of Gaffs.

No person shall possess or use a gaff in inland waters, except that a gaff three feet or less in length may be used to land legal–sized fish only by anglers fishing from a boat in the Sacramento River main stem below Deschutes Road Bridge.

NOTE: Authority cited: Sections 200, 202, 205 and 220, Fish and Game Code. Reference: Sections 200, 202, 205, 206 and 5507, Fish and Game Code.

HISTORY
1. New section filed 3–12–92; operative 3–12–92 (Register 92, No. 20).
2. Repealer and new section filed 1–10–2002; operative 1–1–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 2).

§ 2.07. Underwater Viewing Devices.

NOTE: Authority cited: Sections 200, 202, 205 and 220, Fish and Game Code. Reference: Sections 200, 202, 205, 206 and 220, Fish and Game Code.

HISTORY
1. New section filed 3–12–92; operative 3–12–92 (Register 92, No. 20).
2. Repealer filed 1–10–2002; operative 1–1–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 2).

§ 2.08. Special Fishing Methods and Bag Limits—Barrett and Upper Otay Lakes, San Diego County.

The following fishing methods restrictions and bag limits apply to Barrett Lake and Upper Otay Lake:

(a) Only artificial lures with barbless hooks may be used.

(b) The bag limit for all species is zero.

NOTE: Authority cited: Sections 200, 202, 205, 215 and 220, Fish and Game Code. Reference: Sections 200, 202, 205, 206 and 220, Fish and Game Code.

HISTORY
1. New section filed 3–12–92; operative 3–12–92 (Register 92, No. 20).
2. Repealer and new section filed 12–12–94; operative 12–12–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 50).
3. Amendment of section heading, new first paragraph, and amendment of subsections (c) and (c)(3) filed 2–9–96; operative 2–9–96 pursuant to Fish and Game Code sections 202 and 205 (Register 96, No. 6).
4. Amendment of section heading, repealer of subsections (a) and (c)–(c)(3), new subsection (b), subsection relettering, amendment of newly designated subsection (a) and amendment of NOTE filed 2–5–98; operative 3–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 6).

§ 2.09. Possession of Illegal Gear.

Except as otherwise provided, no person shall use or possess, except in his or her home, any landing gear, any nets, except standard landing–type dip nets not exceeding 36 inches in greatest dimension, excluding handle, gaffs or spears within 100 yards of any river, stream, lake or reservoir. Non–electronic underwater viewing devices may not be used for taking fish except under the provisions of Section 2.30.

NOTE: Authority cited: Sections 200, 202, 205 and 220, Fish and Game Code. Reference: Sections 200, 202, 205, 206 and 220, Fish and Game Code.

HISTORY
1. New section filed 3–12–92; operative 3–12–92 (Register 92, No. 20).
2. Amendment filed 2–24–2004; operative 3–1–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 9).
3. Renumbering of former section 1.71 to section 1.70 and new section 1.71 filed 4–7–2005; operative 5–7–2005 (Register 2005, No. 14).

§ 2.10. Hook and Weight Restrictions.

(a) Definition of Gap: For the purposes of this section, "gap" means the distance measured from the point of a hook to the shank.

(b) Maximum Gaps and Gear Rigging for Rivers and Streams unless otherwise provided (does not apply to lakes and reservoirs, the Sacramento–San Joaquin Delta (see Section 1.71 for definition of the Delta), and the Colorado River.

1. No person shall use any single hook with a gap greater than 1 inch or any multiple hook with a gap greater than 3/4 inch.

2. It is unlawful to use any hook which is directly or indirectly attached closer than 18 inches to any weight exceeding 1/2 ounce.

3. It is unlawful to use any multiple hook or more than one single hook on non–buoyant lures exceeding one ounce.

4. It is unlawful to use any weight directly attached below a hook.

(c) Maximum Gaps for the Sacramento–San Joaquin Delta (see Section 1.71 for definition of the Delta).

1. No person shall use any single hook with a gap greater than 1 inch or any multiple hook with a gap greater than 3/4 inch.

NOTE: Authority cited: Sections 200, 202, 205 and 220, Fish and Game Code. Reference: Sections 200, 202, 205 and 220, Fish and Game Code.

HISTORY
1. Editorial correction of subsection (a)(4) filed 9–2–82 (Register 82, No. 36).
2. Amendment of subsection (a)(4)(B) filed 1–20–83; designated effective tenth day thereafter (Register 83, No. 4).
3. Amendment of subsection (a)(4)(A) filed 2–21–84; designated effective 3–1–84 (Register 84, No. 8).
4. Amendment filed 1–22–86; designated effective 3–1–86 (Register 86, No. 6).
5. Amendment of subsection (d) filed 2–11–87; designated effective 3–1–87 (Register 87, No. 9).
6. New subsection (g) filed 9–11–89 as an emergency; operative 9–11–89 (Register 89, No. 37). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 1–9–90.
7. Subsection (g) repealed by operation of law on 1–9–90. New subsections (g)–(i) filed 3–1–90; operative 3–1–90 (Register 90, No. 10).

8. Amendment of subsection (e) filed 1–17–91; operative 1–17–91 pursuant to Government Code section 11346.2(d) (Register 91, No. 8).
9. Editorial correction of printing error in subsection (a) (Register 91, No. 31).
10. Repealer and new section filed 3–12–92; operative 3–12–92 (Register 92, No. 20).
11. Amendment of subsection (a) filed 12–22–92; operative 12–22–92 pursuant to sections 202 and 215, Fish and Game Code (Register 92, No. 52).
12. Repealer and new section filed 1–10–2002; operative 1–1–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 2).
13. Amendment of section heading and section filed 2–24–2004; operative 3–1–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 9).
14. Amendment filed 4–7–2005; operative 5–7–2005 (Register 2005, No. 14).

§ 2.11. Special Fishing Methods—Lake County.

(a) In Clear Lake and its tributaries, hitch may be taken by hand or hand–held dip net.

(b) No barriers or weirs may be constructed to herd fish.

(c) All hitch are to be utilized and not left as waste.

(d) All fish taken by hand or net other than hitch must be immediately returned live to the water. No other fish may be possessed along with hitch as part of a mixed bag.

NOTE: Authority cited: Sections 200, 202 and 210, Fish and Game Code. Reference: Sections 200, 202, 205 and 210, Fish and Game Code.

HISTORY

1. New section filed 2–21–84; designated effective 3–1–84 (Register 84, No. 8).

§ 2.12. Special Fishing Methods—Shasta County.

(a) In all waters of the Fall River Valley downstreams from Thousand Springs Road, in the Pit River from the confluence with the Fall River downstream to Lake Britton, and in Hat Creek from Hat No. 2 Powerhouse downstream to Lake Britton, western suckers may be taken by hand or hand–thrown spears only by enrolled members of the Pit River Tribe.

(b) Open Season: January 1 through April 15.

(c) No fish other than western suckers may be speared, and all fish other than western suckers captured by hand must be immediately returned live to the water.

(d) No other fish may be possessed along with western suckers as part of a mixed bag.

NOTE: Authority cited: Sections 200, 202, 205 and 210, Fish and Game Code. Reference: Sections 200, 202 and 205–210, Fish and Game Code.

HISTORY

1. New section filed 2–11–87; designated effective 3–1–87 (Register 87, No. 9).

§ 2.13. Special Net Restriction—Santa Clara and Santa Cruz Counties.

NOTE: Authority cited: Sections 200, 202, 205 and 210, Fish and Game Code. Reference: Sections 200, 202 and 205, 206, 209 and 210, Fish and Game Code.

HISTORY

1. New section filed 3–7–94; operative 3–7–94 pursuant to Fish and Game Code sections 202 and 215 (Register 94, No. 10).
2. Repealer filed 1–10–2002; operative 1–1–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 2).

§ 2.14. Special Fishing Methods—San Joaquin River.

NOTE: Authority cited: Sections 200, 202, 205 and 215, Fish and Game Code. Reference: Sections 200, 205, 206 and 215, Fish and Game Code.

HISTORY

1. New section filed 2–9–96; operative 2–9–96 pursuant to Fish and Game Code sections 202 and 205 (Register 96, No. 6).
2. Repealer filed 1–10–2002; operative 1–1–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 2).

§ 2.15. Use of Lights.

Lights may be used when fishing at night when and where such fishing is permitted. Lights may be used on or as part of any fishing tackle (this supersedes Section 2005 of the Fish and Game Code).

NOTE: Authority cited: Sections 200, 202, 205, 210, 219, 220 and 2005, Fish and Game Code. Reference: Sections 200–202, 203.1, 205, 210, 215–222 and 2005, Fish and Game Code.

§ 2.20. Fishing Beneath Ice.

Fish may be taken beneath the ice during the open season for that water.

NOTE: Authority cited: Sections 200, 202, 205 and 220, Fish and Game Code. Reference: Sections 200 and 206, Fish and Game Code.

HISTORY

1. Amendment filed 1–17–91; operative 1–17–91 pursuant to Government Code section 11346.2(d) (Register 91, No. 8).

§ 2.25. Bow and Arrow Fishing.

Bow and arrow fishing is permitted only for the taking of carp, goldfish, western sucker, Sacramento blackfish, hardhead, Sacramento pikeminnow and lamprey, all year, except in:

(a) Designated salmon spawning areas.

(b) The Colorado River District where only carp, tilapia, goldfish and mullet may be taken.

(c) See bullfrogs (Section 5.05).

(d) The East Fork Walker River between Bridgeport Dam and the Nevada State line where carp only may be taken during trout season.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200, 202, 203.1, 206, 207, 210, 217.5, 217.6, 219 and 220, Fish and Game Code.

HISTORY

1. Amendment of subsection (d) and new subsection (e) filed 3–7–94; operative 3–7–94 pursuant to Fish and Game Code sections 202 and 215 (Register 94, No. 10).
2. Amendment of subsection (b) filed 2–9–96; operative 2–9–96 pursuant to Fish and Game Code sections 202 and 205 (Register 96, No. 6).
3. Amendment of first paragraph, repealer of subsection (d), subsection relettering and amendment of NOTE filed 12–27–2007; operative 1–26–2008 (Register 2007, No. 52).

§ 2.30. Spearfishing.

Spearfishing is permitted only in:

(a) The Colorado River District for carp, goldfish and mullet, all year.

(b) The Valley District for carp, tilapia, goldfish, western sucker, Sacramento blackfish, hardhead, Sacramento pikeminnow and lamprey, from May 1 through September 15, except that no spearfishing is permitted in:

(1) Shasta and Tehama counties (see Section 2.12).

(2) Butte Creek (Butte Co.).

(3) Feather River below Oroville Dam (Butte Co.).

(4) Designated salmon spawning areas.

(c) The Kern River from the Kern–Tulare county line upstream to the Johnsondale Bridge for carp, goldfish, western sucker, hardhead and Sacramento pikeminnow, from May 1 through September 15.

(d) See bullfrogs (Section 5.05).

NOTE: Authority cited: Sections 200, 202, 205 and 210, Fish and Game Code. Reference: Sections 200, 202, 205 and 210, Fish and Game Code.

HISTORY

1. Amendment of subsection (b)(1) filed 2–11–87; designated effective 3–1–87 (Register 87, No. 9).
2. New subsection (c) and amendment of newly designated subsection (d) filed 3–7–94; operative 3–7–94 pursuant to Fish and Game Code sections 202 and 215 (Register 94, No. 10).
3. Amendment of subsections (a) and (b)(1) filed 2–9–96; operative 2–9–96 pursuant to Fish and Game Code sections 202 and 205 (Register 96, No. 6).
4. Amendment of subsections (b) and (c) filed 12–27–2007; operative 1–26–2008 (Register 2007, No. 52).

§ 2.35. Taking Fish near Dams, Fishways, Screens and Egg–Taking Stations.

No fish may be taken within 250 feet of:

(a) Any fishway or any egg–taking station.

(b) Any dam or any weir or rack which has a fishway or an egg–taking station.

(c) The upstream side of any fish screen.

Fish may be taken upstream or downstream from any dam that does not have a fishway or egg–taking station (this supersedes Section 5502 of the Fish and Game Code).

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205, 210 and 215–222, and 5502, Fish and Game Code.

§ 2.40. Chumming.

Chumming is permitted only in:

(a) The Colorado River District, but only the approved bait fishes for this District may be used as chum (see Section 4.15) except in the Salton Sea where corn may also be used.

(b) Carquinez Strait and Suisun Bay and their tributaries and saltwater tributaries.

(c) Sacramento River and tidewater of tributaries downstream from Interstate 80 bridge.

(d) San Joaquin River and tidewater of tributaries downstream from Interstate 5 bridge.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205, 210 and 215–222, Fish and Game Code.

HISTORY

1. Amendment filed 2–21–84; designated effective 3–1–84 (Register 84, No. 8).

§ 2.45. Computer Assisted Remote Fishing.

(a) It is unlawful to take or assist in the taking of any fish in or from this state, by computer–assisted remote fishing.

(b) It is unlawful to establish or operate a computer–assisted remote fishing site for the purpose of taking any fish from or within this state.

(c) For the purposes of this section, "computer–assisted remote fishing" means the use of a computer or any other remotely controlled device, equipment, software, or technology, to remotely control the aiming or discharge of any weapon, including, but not limited to, any firearm, bow and arrow, spear, harpoon or any other weapon capable of killing or injuring any fish, for the purposes of taking any fish.

(d) For the purposes of this section, "computer–assisted remote fishing site" means any computer, internet site or web–based device or system, or other electronically operated site or system used to assist in the remote taking fish.

NOTE: Authority cited: Sections 200, 202 and 205, Fish and Game Code. Reference: Sections 200, 202 and 205, Fish and Game Code.

HISTORY

1. New section filed 11–1–2005; operative 12–1–2005 (Register 2005, No. 44).

Article 2. Fishing Hours

§ 3.00. Fishing Hours.

(a) Day Defined: One hour before sunrise to one hour after sunset. Remaining hours are night.

(b) All fish may be taken day or night, except as follows:

(1) WATERS WITH RESTRICTED FISHING HOURS FOR ALL SPECIES:

(A) American River between Business 80 and Nimbus Dam (Sacramento Co.): Night fishing prohibited.

(B) Heenan Lake, (Alpine Co.): See section 7.50(b)(76)(A).

(C) Mono County: Night fishing is prohibited in all Mono County waters except Topaz Lake, where fishing is prohibited from two hours after sunset to one hour before sunrise.

(D) Tahoe Lake (Placer and El Dorado Cos.): Fishing is prohibited from two hours after sunset to one hour before sunrise.

(2) WATERS WHERE NIGHT AND DAY FISHING IS ALLOWED, BUT NO TROUT OR SALMON MAY BE TAKEN AT NIGHT:	NO FISHING HOURS RESTRICTIONS AT LAKES LISTED BELOW:
(A) North Coast District	
(B) North Central District, all waters except those (waters) listed to the right.	Berryessa Lake (Napa Co.) and Mendocino Lake (Mendocino Co.)
(C) South Central District, all waters except those (waters) listed to the right.	Coyote Lake (Santa Clara Co.)
(D) Valley District, north of Interstate 80, all waters except those listed to the right.	Camp Far West Lake (Nevada, Placer, and Yuba cos.), Collins Lake (Yuba Co.), Oroville Lake (Butte Co.) and Wildwood Lake (Nevada Co.)
(E) Shasta, Siskiyou, Lassen, and Tehama counties.	

Also, see Section 27.56.

NOTE: Authority cited: Sections 200, 202, 205, 215, 220 and 240, Fish and Game Code. Reference: Sections 200, 205 and 206, Fish and Game Code.

HISTORY

1. Amendment filed 1–20–83; designated effective tenth day thereafter (Register 83, No. 4).
2. Amendment filed 2–21–84; designated effective 3–1–84 (Register 84, No. 8).
3. Amendment of subsection (b) filed 2–28–85 as an emergency; designated effective 3–1–85. Certificate of Compliance included (Register 85, No. 11).
4. Amendment of subsection (b) filed 9–6–85; effective thirtieth day thereafter (Register 85, No. 36).
5. Amendment filed 1–22–86; designated effective 3–1–86 (Register 86, No. 6).
6. Amendment of subsection (b)(3) filed 3–1–90; operative 3–1–90 (Register 90, No. 10).
7. Amendment of subsection (b)(5)(B) filed 1–17–91; operative 1–17–91 pursuant to Government Code section 11346.2(d) (Register 91, No. 8).
8. New subsection (b)(6) filed 4–26–91 as an emergency; operative 4–26–91 (Register 91, No. 25). A Certificate of Compliance must be transmitted to OAL by 8–26–91 or emergency language will be repealed by operation of law on the following day.
9. Reinstatement of section as it existed prior to emergency amendment filed 4–26–91 by operation of Government Code section 11346.1(f) (Register 91, No. 48).
10. New subsection (b)(7) filed 7–14–92; operative 7–14–92 pursuant to Fish and Game Code sections 202 and 215 (Register 92, No. 29).
11. New subsection (b)(6) filed 11–18–92; operative 12–18–92 (Register 92, No. 47).
12. Repealer and new section and amendment of NOTE filed 2–5–98; operative 3–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 6).
13. New subsection (b)(1)(E), subsection relettering, and amendment of NOTE filed 7–3–98 as an emergency; operative 7–3–98 (Register 98, No. 27). A Certificate of Compliance must be transmitted to OAL by 11–2–98 or emergency language will be repealed by operation of law on the following day.
14. Certificate of Compliance as to 7–3–98 order, including amendment of section, transmitted to OAL 10–29–98 and filed 12–11–98 (Register 98, No. 50).
15. Amendment of subsection (b)(1)(B) filed 6–10–99; operative 6–10–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 24).
16. Repealer of subsection (b)(1)(E) and subsection relettering filed 2–18–2000; operative 3–1–2000 pursuant to Fish and Game Code sections 202 and 215 (Register 2000, No. 7).
17. Repealer of subsection (b)(1)(B) and subsection relettering filed 6–22–2000; operative 7–22–2000 (Register 2000, No. 25).

Article 3. Bait Regulations for Inland Waters

§ 4.00. Bait—General.

Legally acquired and possessed invertebrates, mollusks, crustaceans, amphibians (except salamanders), fish eggs and treated and processed foods may be used for bait, except:

(a) No species specified as endangered, threatened, candidate, fully–protected, or otherwise protected under state and federal law may be used as bait.

(b) No salamander may be used as bait. See section 5.05 for other amphibians that may be used as bait.

(c) See Section 5.35 for restrictions on crayfish;

(d) See Section 7.50(b)(74) for restriction on bait collecting on Hat Creek;

(e) No trout may be maintained or possessed in a live condition in any container on or attached to any boat;

(f) Except for restrictions listed under special regulations, dead ocean fish may be used as bait statewide. This section supersedes the provisions of sections 4.10, 4.15, 4.20, 4.25 and 4.30.

NOTE: Authority cited: Sections 200, 202 and 205, Fish and Game Code. Reference: Sections 200–202, 205, 5504 and 5505, Fish and Game Code.

HISTORY

1. Amendment filed 2–28–85 as an emergency; designated effective 3–1–85. Certificate of Compliance included (Register 85, No. 11).
2. Amendment filed 1–22–86; designated effective 3–1–86 (Register 86, No. 6).
3. Amendment filed 2–11–87; designated effective 3–1–87 (Register 87, No. 9).
4. Amendment of subsection (b) filed 3–1–90; operative 3–1–90 (Register 90, No. 10).
5. Amendment of first paragraph filed 12–22–98; operative 12–22–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 52).
6. Amendment of subsection (e) filed 2–27–2001; operative 2–27–2001 pursuant to Government Code section 11343.4 (Register 2001, No. 9).

7. Amendment filed 1–10–2002; operative 1–1–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 2).

§ 4.05. Bait Fish Capture Methods.

(a) Approved bait fish may be taken only by hand, with a dip net, or with traps not over three feet in greatest dimension. Such bait fish may not be purchased, bartered, sold, transferred or traded; or transported alive from the location where taken. Any other species taken shall be returned to the water immediately. Traps need not be closely attended. Dip net use: A dip net must be hand held, and the motion of a dip net shall be caused only by the physical effort of the operator. A dip net may not be moved through the water by any mechanical force or motorized device.

(b) Within the area bounded by Highway 111 on the north and east and Highway 86 on the west and south, approved bait fish may be taken only with dip nets with diagonal mesh size one inch and greater, or by traps in water greater than four feet in depth. Traps may not exceed three feet in greatest dimension. Approved bait fish may not be taken by hand within this area.

NOTE: Authority cited: Sections 200, 202, 205 and 210, Fish and Game Code. Reference: Sections 200, 202, 206 and 5505, Fish and Game Code.

HISTORY

1. Amendment filed 1–26–88; operative 3–1–88 (Register 88, No. 6).
2. New subsection (a) designator and subsection (b) and amendment of NOTE filed 3–12–92; operative 3–12–92 (Register 92, No. 20).
3. Amendment of subsection (b) filed 3–7–94; operative 3–7–94 pursuant to Fish and Game Code sections 202 and 215 (Register 94, No. 10).

§ 4.10. Bait Fish Use in the Southern District.

Except as provided below, live or dead fin fish shall not be used or possessed for use as bait in the Southern District:

(a) Dead threadfin shad and live or dead longjaw mudsucker may be used in all Southern District waters.

(b) Live threadfin shad may be used only at the location where taken.

(c) Golden shiner and red shiner may be used in San Diego County.

NOTE: Authority cited: Sections 200, 202, 205 and 215, Fish and Game Code. Reference: Sections 200, 202, 205 and 206, Fish and Game Code.

HISTORY

1. Amendment filed 1–22–86; designated effective 3–1–86 (Register 86, No. 6).
2. Amendment filed 2–11–87; designated effective 3–1–87 (Register 87, No. 9).
3. Amendment of subsections (a) and (a)(1) filed 2–9–96; operative 2–9–96 pursuant to Fish and Game Code sections 202 and 205 (Register 96, No. 6).
4. Amendment of subsection (a) and NOTE filed 2–5–98; operative 3–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 6).
5. Amendment of subsection (a)(1) filed 12–22–98; operative 12–22–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 52).
6. Amendment filed 2–27–2001; operative 2–27–2001 pursuant to Government Code section 11343.4 (Register 2001, No. 9).

§ 4.15. Bait Fish Use in the Colorado River District.

Except as provided below, live or dead fin fish shall not be used or possessed for use as bait in the Colorado River District:

(a) Live or dead golden shiner, fathead minnow, red shiner, mosquitofish, longjaw mudsucker, threadfin shad, goldfish, sunfish, molly, and dead carp may be used in all Colorado River District waters.

(b) Live carp may be used only at the location where taken.

(c) Tilapia may be used in the Salton Sea, and may be taken for bait only within the area bounded by Highway 111 on the north and east and Highway 86 on the west and south (except as in subsection (d) below).

(d) Tilapia may be taken and used for bait in the Colorado River and its associated backwaters only within the area bounded by Palo Verde Diversion Dam south to the Morelos Dam.

NOTE: Authority cited: Sections 200, 202, 205 and 215, Fish and Game Code. Reference: Sections 200, 202 and 206, Fish and Game Code.

HISTORY

1. Amendment of subsection (a) filed 1–22–86; designated effective 3–1–86 (Register 86, No. 6).
2. Amendment filed 2–11–86; designated effective 3–11–87 (Register 87, No. 9).
3. Amendment of subsection (a) filed 1–26–88; operative 3–1–88 (Register 88, No. 6).
4. Adoption of NOTE following subsection (b) filed 3–12–92; operative 3–12–92 (Register 92, No. 20).
5. Amendment of subsections (a), (a)(1) and (a)(3) filed 2–9–96; operative 2–9–96 pursuant to Fish and Game Code sections 202 and 205 (Register 96, No. 6).
6. Amendment of subsection (a) and NOTE filed 2–5–98; operative 3–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 6).
7. Amendment of subsection (a)(1) filed 12–22–98; operative 12–22–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 52).
8. Amendment filed 2–27–2001; operative 2–27–2001 pursuant to Government Code section 11343.4 (Register 2001, No. 9).
9. Amendment of subsection (d) filed 1–10–2002; operative 1–1–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 2).
10. Amendment of subsections (a) and (c) and amendment of NOTE filed 11–8–2004; operative 12–8–2004 (Register 2004, No. 46).

§ 4.20. Bait Fish Use in the Valley and South Central Districts.

Except as provided below, live or dead fin fish shall not be used or possessed for use as bait in the Valley or South Central District:

(a) Live or dead golden shiner, fathead minnow, mosquitofish, longjaw mudsucker, and staghorn sculpin, and dead threadfin shad, Mississippi silverside and lamprey may be used in all Valley and South Central District waters except those listed in subsection (f) below.

(b) Red shiner may be used only in the Valley District north of Interstate 580 and Highway 132.

(c) Yellowfin gobies may be used in the Valley District only in those areas described in subsections (d)(1)–(3) below.

(d) In addition, except for trout and salmon, fin fish lawfully taken in the following waters by angling or with bait fish methods approved in Section 4.05 may be used only in the waters where taken:

(1) Carquinez Strait and Suisun Bay and their tributaries and saltwater tributaries.

(2) Sacramento River and tidewater of tributaries downstream from the Highway 32 bridge near Hamilton City, Feather River downstream from the Oroville Hatchery Fish Barrier Dam, Yuba River downstream from Daguerre Point Dam, and American River downstream from Nimbus Dam.

(3) San Joaquin River and tidewater of tributaries downstream from Interstate 5 bridge.

(e) Live threadfin shad, Mississippi silverside and lamprey may be used only at the location where taken.

(f) Fin fish may not be used in Keller Lake (Glenn Co.), Letts Lake (Colusa Co.), Merced Lake (San Francisco Co.), Upper and Lower Plaskett Meadow Ponds (Glenn Co.), Whale Rock Reservoir (San Luis Obispo Co.).

NOTE: Authority cited: Sections 200, 202, 205 and 215, Fish and Game Code. Reference: Sections 200, 202, 205 and 206, Fish and Game Code.

HISTORY

1. Amendment of subsection (a) filed 11–1–82 as an emergency; effective upon filing (Register 82, No. 45). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 3–1–83.
2. Certificate of Compliance including editorial correction of NOTE filed 2–14–83 (Register 83, No. 7).
3. Amendment of subsection (a) filed 1–22–86; designated effective 3–1–86 (Register 86, No. 6).
4. Amendment filed 2–11–87; designated effective 3–1–87 (Register 87, No. 9).
5. Amendment of subsection (a)(4) filed 1–26–88; operative 3–1–88 (Register 88, No. 6).
6. Amendment of subsections (a), (a)(1) and (a)(2)(B) filed 2–9–96; operative 2–9–96 pursuant to Fish and Game Code sections 202 and 205 (Register 96, No. 6).
7. Amendment of subsection (a) and NOTE filed 2–5–98; operative 3–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 6).
8. Amendment filed 12–22–98; operative 12–22–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 52).
9. Amendment filed 2–27–2001; operative 2–27–2001 pursuant to Government Code section 11343.4 (Register 2001, No. 9).

§ 4.25. Bait Fish Use in the North Central District.

Except as provided below, live or dead fin fish shall not be used or possessed for use as bait in the North Central District:

(a) Golden shiner, fathead minnow, red shiner, mosquitofish, longjaw mudsucker and staghorn sculpin may be used in Napa and Sonoma counties, in Marin County except for Stafford Lake, in Lake County except for the Eel River and its tributaries, and in Lake Mendocino (Mendocino Co.).

(b) Live threadfin shad, Mississippi silverside and lamprey may be used only at the location where taken.

NOTE: Authority cited: Sections 200, 202, 205 and 215, Fish and Game Code. Reference: Sections 200, 202, 205 and 206, Fish and Game Code.

HISTORY

1. Amendment filed 1–22–86; designated effective 3–1–86 (Register 86, No. 6).
2. Amendment of subsection (a) filed 5–21–86; effective upon filing (Register 86, No. 21).
3. Amendment filed 2–11–87; designated effective 3–1–87 (Register 87, No. 9).
4. Amendment of subsection (a) filed 2–9–96; operative 2–9–96 pursuant to Fish and Game Code sections 202 and 205 (Register 96, No. 6).
5. Amendment of subsection (a) and NOTE filed 2–5–98; operative 3–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 6).
6. Amendment filed 2–27–2001; operative 2–27–2001 pursuant to Government Code section 11343.4 (Register 2001, No. 9).

§ 4.30. Bait Fish Use in the Sierra and North Coast Districts.

Except as provided below, live or dead fin fish shall not be used or possessed for use as bait in the Sierra and North Coast Districts.

(a) In Donner, Fallen Leaf and Tahoe lakes Lahontan redside, tui chub, Tahoe sucker, Lahontan speckled dace, mountain sucker and Paiute sculpin may be used only in the same lake where taken.

(b) In Shasta Lake only golden shiner, red shiner, fathead minnows, mosquitofish and threadfin shad may be used or possessed for use as bait.

(c) Crayfish shall not be used for bait in the Pit River and all tributaries between Pit 3 Dam (Lake Britton) and the Fall River–Cassel Road Bridge at Fall River Mills, California (includes Hat Creek and Fall River and their tributaries).

NOTE: Authority cited: Sections 200, 202, 205, 215 and 220, Fish and Game Code. Reference: Sections 200, 202, 205 and 206, Fish and Game Code.

HISTORY

1. Amendment filed 1–22–86; designated effective 3–1–86 (Register 86, No. 6).
2. Amendment filed 2–11–87; designated effective 3–1–87 (Register 87, No. 9).
3. New subsection (a)(2) filed 3–1–90; operative 3–1–90 (Register 90, No. 10).
4. New first paragraph, repealer of subsection (a), redesignation of subsections (a)(1)–(2) as subsections (a)–(b) amd subsection relettering, and amendment of newly designated subsection (c) filed 2–9–96; operative 2–9–96 pursuant to Fish and Game Code sections 202 and 205 (Register 96, No. 6).
5. Amendment of first paragraph, new subsection (d) and amendment of NOTE filed 2–5–98; operative 3–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 6).
6. Repealer of subsection (c) and subsection relettering filed 2–27–2001; operative 2–27–2001 pursuant to Government Code section 11343.4 (Register 2001, No. 9).

Article 4. Species Regulations

§ 5.00. Black Bass.

It is unlawful to take or possess black bass except as provided below:

(Note: Some waters are closed to all fishing under Section 7.50.)

(a) General Statewide Restrictions:

(1) Lakes/Reservoirs and the Sacramento–San Joaquin Delta: The following waters, except for those listed in subsection (b) Special Regulations (below), are open to fishing all year, with a 12–inch minimum size limit and a five–fish daily bag limit: All lakes and reservoirs in the State, and the Sacramento–San Joaquin River Delta, (see Section 1.71 for definition of the Delta).

(2) Rivers/Streams and Private Ponds: Rivers, streams, canals, and lakes or ponds entirely on private lands, which are not listed in subsection (b) Special Regulations (below), are open all year with no size limit and a five–fish daily bag limit.

(b) Special Regulations: Counties and individual waters listed below are those having regulations different from the General Statewide Restrictions in subsection (a) above).

Area or Body of Water	*Open Season*	*Size (total length)*	*Bag Limit*
DISTRICTS AND COUNTIES WITH SPECIAL REGULATIONS			
(1) Colorado River District: All waters (Bag and size limits conform with Arizona regulations.)	All year.	13–inch minimum.	6
(2) Inyo County: all streams east of Highway 395 from the southern Inyo County line north to the junction of Highway 6 and east of Highway 6 to the Mono County line.	All year.	12–inch minimum.	5
The remaining streams of Inyo County, except those waters listed in sections 7.50(b)(82) and 7.50(b)(134).	Last Saturday in Apr through Nov. 15.	12–inch minimum.	5
All Lakes, Big Pine Canal, Fish Spring Canal, and Millpond.	All year.	12–inch minimum.	5
(3) Lassen County: all waters.	All year.	No size limit.	5
(4) Modoc County: all waters except Dorris and Big Sage Reservoirs (see (a)(1) General Statewide Restrictions (above) for these two lakes).	All year.	No size limit.	10
(5) Mono County: all waters except for Fish Slough listed in these regulations and those waters listed as closed to all fishing in Section 7.50.	Last Saturday in April through Nov. 15.	No size limit.	5
(6) Plumas County: all waters.	All year.	No size limit.	5
(7) Shasta County: all lakes except Britton, Shasta and Whiskeytown lakes (see subsection (a)(1) above for these three lakes).	All year.	No size limit.	5
INDIVIDUAL BODIES OF WATER WITH SPECIAL REGULATIONS			
(8) Barrett Lake (San Diego County). (Also see Section 2.08)	All year.	No black bass shall be possessed.	0
(9) Big Lake (Shasta County) (see also Section 7.00(b)(4))	Last Saturday in Apr through Nov. 15.	12–inch minimum	5
	Nov. 16 through last Friday in April.	No black bass shall be possessed.	0
(10) Casitas Lake (Ventura County).	All year.	12–inch minimum. No more than one over 22 inches.	5
(11) Castaic Lake (Los Angeles County).	All year.	18–inch minimum.	2
(12) Cuyamaca Lake (San Diego County).	All year.	No size limit. No smallmouth bass shall be possessed.	5
(13) Diamond Valley Lake, (Riverside County)	All year.	Largemouth bass 15–inch minimum	5
		No smallmouth bass shall be possessed	0
(14) Eastman Lake (Madera and Mariposa Cos.) (Note: See Section 7.50(b)(62) for special area closures).	All year.	22–inch minimum.	1
(15) El Capitan Reservoir (San Diego County).	All year.	15–inch minimum.	5
(16) Fish Slough (Mono County), except the fenced portions of Fish Slough within Owens Valley Native Fishes Sanctuaries and BLM Spring, which are closed to all fishing all year.	All year.	No size limit.	5
(17) Hensley Lake (Madera County).	All year.	15–inch minimum.	2

Area or Body of Water	*Open Season*	*Size (total length)*	*Bag Limit*
(18) Hodges Lake (San Diego County).	All year.	15–inch minimum.	5
(19) Isabella Lake (Kern County).	All year.	15–inch minimum.	2
(20) Kaweah Reservoir (Tulare County).	All year.	15–inch minimum.	2
(21) Lett's Lake (Colusa County).	All year.	No size limit.	5
(22) McClure Reservoir (Mariposa County).	All year.	None between 12 and 15 inches.	5
(23) Millerton Reservoir (Fresno and Madera counties).	All year.	None between 12 and 15 inches.	5
(24) Oroville Lake (Butte County).	All year.	None between 12 and 15 inches.	5
(25) Orr Lake (Siskiyou County).	All year.	None between 12 and 15 inches	5
(26) Plaskett Meadows lakes, upper and lower (Glenn County).	All year.	No size limit.	5
(27) Shaver Lake (Fresno County).	All year.	No size limit.	5
(28) Silverwood Lake (San Bernardino County).	All year.	15–inch minimum.	2
(29) Siskiyou Lake (Siskiyou County).	All year.	None between 12 and 15 inches.	5
(30) Skinner Lake (Riverside County).	All year.	15–inch minimum.	2
(31) Success Reservoir (Tulare County).	All year.	15–inch minimum.	2
(32) Trinity Lake (Trinity County).	1: March 1 through May 31	12–inch minimum.	2
	2: June 1 through Feb. 29	12–inch minimum.	5
(33) Trout Lake (Siskiyou (County).	Only weekends and Wednesdays from the last Saturday in April through Sept. 30.	22–inch minimum. Only artificial lures may be used.	1
(34) Upper Otay Lake (San Diego County). (Also see Section 2.08).	All year.	No black bass shall be possessed.	0

NOTE: Authority cited: Sections 200, 202, 205, 215 and 220, Fish and Game Code. Reference: Sections 200, 205 and 206, Fish and Game Code.

HISTORY

1. Amendment filed 2–21–84; designated effective 3–1–84 (Register 84, No. 8).
2. Amendment of subsection (c) filed 2–28–85 as an emergency; designated effective 3–1–85. Certificate of Compliance included (Register 85, No. 11).
3. Amendment filed 1–22–86; designated effective 3–1–86 (Register 86, No. 6).
4. New subsections (b)(4) and (c)(3) filed 4–16–86 as an emergency; effective upon filing (Register 86, No. 16). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 8–14–86.
5. Certificate of Compliance transmitted to OAL 8–13–86 and filed 8–14–86 (Register 86, No. 33).
6. Amendment of subsection (c) filed 2–11–87; designated effective 3–1–87 (Register 87, No. 9).
7. Amendment filed 1–26–88; operative 3–1–88 (Register 88, No. 6).
8. New subsection (b)(5) filed 9–11–89 as an emergency; operative 9–11–89 (Register 89, No. 37). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 1–9–90.
9. Subsection (b)(5) repealed by operation of law on 1–1–90. Amendment filed 3–1–90; operative 3–1–90 (Register 90, No. 10).
10. Amendment of subsections (a), (o), (q) and (r) filed 1–17–91; operative 1–17–91 pursuant to Government Code section 11346.2(d) (Register 91, No. 8).
11. Amendment filed 3–12–92; operative 3–12–92 (Register 92, No. 20).
12. Amendment filed 3–7–94; operative 3–7–94 pursuant to Fish and Game Code sections 202 and 215 (Register 94, No. 10).
13. Editorial correction of subsections (c)(9)–(10) (Register 95, No. 13).
14. Amendment of subsection (c)(3), new subsection (c)(4), subsection renumbering, and amendment of subsection (c)(7) filed 3–28–95; operative 3–28–95 pursuant to Government Code section 11343.4(d) (Register 95, No. 13).
15. Amendment of subsections (a), (b)(2) and (c)(1), new subsection (c)(3) and subsection renumbering, new subsections (c)(9) and (c)10) and subsection renumbering, and new subsection (c)(17) filed 2–9–96; operative 2–9–96 pursuant to Fish and Game Code sections 202 and 205 (Register 96, No. 6).
16. Amendment of section and NOTE filed 2–5–98; operative 3–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 6).
17. Amendment of subsection (d)(20) filed 12–22–98; operative 12–22–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 52).
18. Amendment filed 2–18–2000; operative 3–1–2000 pursuant to Fish and Game Code sections 202 and 215 (Register 2000, No. 7).
19. Amendment of subsection (b)(1), repealer of subsections (b)(9) and (b)(28), subsection renumbering and amendment of newly designated subsection (b)(33) filed 1–10–2002; operative 1–1–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 2).
20. Amendment of subsection (a)(1), new subsection (b)(12), subsection renumbering, repealer of former subsection (b)(25) and amendment of subsection (b)(33) filed 2–24–2004; operative 3–1–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 9).
21. Amendment of subsection (a)(1) filed 4–7–2005; operative 5–7–2005 (Register 2005, No. 14).
22. Amendment of subsections (b)(2)–(5) and (b)(7), new subsection (b)(9), repealer of subsection (b)(16) and subsection renumbering filed 2–28–2007; operative 2–28–2007 pursuant to Government Code section 11343.4 (Register 2007, No. 9).

§ 5.05. Amphibians.

(a) Only the following amphibians may be taken under the authority of a sportfishing license, subject to the restrictions in this section. No amphibians may be taken from ecological reserves designated by the commission in Section 630 or from state parks, or national parks or monuments.

(1) Pacific giant salamander (*Dicamptodon tenebrosus*)

(2) California giant salamander (*Dicamptodon ensatus*)

(3) Southern Seep (Torrent) Salamander (*Rhyacotriton variegatus*)

(4) Rough–skinned newt (*Taricha granulosa*)

(5) California newt (*Taricha torosa*)

(6) Red–bellied newt (*Taricha rivularis*)

(7) Northwestern salamander (*Ambystoma gracile*)

(8) Long–toed salamander (*Ambystoma macrodactylum*), **except** Santa Cruz long–toed salamander (*Ambystoma macrodactylum croceum*)

(9) Black salamander (*Aneides flavipunctatus*)

(10) Clouded salamander (*Aneides ferreus*)

(11) Arboreal salamander (*Aneides lugubris*)

(12) California slender salamander (*Batrachoseps attenuatus*): See Special Closure (f)(1)

(13) Pacific slender salamander (*Batrachoseps pacificus*): See Special Closure (f)(1)

(14) Relictual slender salamander (*Batrachoseps relictus*): See Special Closure (f)(1)

(15) Dunn's salamander (*Plethodon dunni*)

(16) Ensatina salamander (*Ensatina eschscholtzii*)

(17) Western toad (*Bufo boreas*)

(18) Woodhouse's toad (*Bufo woodhouseii*)

(19) Red–spotted toad (*Bufo punctatus*)

(20) Great Plains toad (*Bufo cognatus*)

(21) Great Basin spadefoot toad (*Scaphiopus (Spea) intermontana*)

(22) Couch's spadefoot toad (*Scaphiopus (Spea) couchii*)

(23) California chorus frog (*Pseudacris (Hyla) cadaverina*)

(24) Pacific chorus frog (*Pseudacris (Hyla) regilla*)

(25) Northern leopard frog (*Rana pipiens*)

(26) Southern leopard frog (*Rana yutricularia*)

(27) Rio Grande leopard frog (*Rana berlandieri*)

(28) Bullfrog (*Rana catesbeiana*)

(b) Open season: All year. The season closures in Chapter 3 (District Trout and Salmon District General Regulations and Special Regulations) do not apply to fishing for amphibians with methods other than hook and line (see sections 7.00 and 7.50(a)(2)).

(c) Limit: The daily bag and possession limit for each of the amphibian species listed in subsection (a), above, is four except for bullfrogs, which have no daily bag or possession limit.

(d) Hours: Amphibians may be taken at any time of day or night.

(e) Methods of take:

(1) Amphibians may be taken only by hand, hand-held dip net, or hook and line, except bullfrogs may also be taken by lights, spears, gigs, grabs, paddles, bow and arrow, or fishing tackle.

(2) It is unlawful to use any method or means of collecting that involves breaking apart of rocks, granite flakes, logs, or other shelters in or under which amphibians may be found.

(f) Special closures:

(1) No slender salamanders (*Batrachoseps* spp.) may be taken from Inyo and Mono counties and from the Santa Rosa Mountains, Riverside County.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

HISTORY

1. Amendment of subsection (a), repealer of subsections (a)(1)–(2) and amendment of subsection (b) filed 2–9–96; operative 2–9–96 pursuant to Fish and Game Code sections 202 and 205 (Register 96, No. 6).
2. Repealer and new section filed 1–10–2002; operative 1–1–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 2).

§ 5.10. Candlefish or Eulachon.

(a) Open season: All year, except for closures listed under special regulations.

(b) Limit: Twenty-five pounds.

(c) Methods of take: Candlefish may be taken with dip nets.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

HISTORY

1. Amendment of subsection (c) filed 1–22–86; designated effective 3–1–86 (Register 86, No. 6).

§ 5.15. Catfish and Bullheads.

(a) Open season: All year, except for closures listed under special regulations.

(b) Limit: Bullheads, no limit; all other catfish, no limit, except as follows:

BODY OR BODIES OF WATER	BAG LIMIT
(1) All waters of the Colorado River District:	
Also see subsection (c) below.	10
(2) All waters of the Southern District not listed below:	10
(3) Alameda County:	
Alameda Creek Quarry Ponds.	5
Chabot Lake.	5
Cull Canyon Lake.	5
Del Valle Reservoir.	5
Don Castro Lake.	5
Jordan Lake.	5
Shadow Cliffs Lake.	5
Temescal Lake.	5
(4) Contra Costa County:	
Contra Loma Lake.	5
Lafayette Lake.	10
San Pablo Lake.	5
(5) Inyo County:	
All waters	10
(6) Los Angeles County:	
Alondra County Park Lake.	5
Belvedere Park Lake.	5
Cerritos Regional Park Lake.	5
Earvin "Magic" Johnson County Park Lake.	5
John Anson Ford Park Lake.	5
Kenneth Hahn Regional Park Lake.	5
La Mirada Regional Park Lake.	5
(7) Mono County:	
All waters	10
(8) San Bernardino County:	
Cucamonga-Gusti Regional Park Lakes.	5
Glen Helen Regional Park Lakes.	5
Gregory Lake.	5
Mojave Narrows Regional Park.	5
Prado Regional Park Lakes.	5
Yucaipa Regional Park Lakes.	5
(9) San Diego County: All Waters except Barrett and Upper Otay lakes	5
Barrett Lake.	0
Upper Otay Lake.	0
(10) San Joaquin County:	
Oak Grove Regional Park Lake in Stockton	10
(11) Santa Clara County:	
All waters	5

(c) Carcasses: In the Colorado River and its backwaters, the carcasses of all catfish and bullheads imported, possessed or transported must have either the head, tail or skin attached so that the species can be identified and numbers can be determined until such fish are being prepared for immediate consumption.

NOTE: Authority cited: Sections 200, 202, 205, 215, 220 and 240, Fish and Game Code. Reference: Sections 200, 202, 205 and 206, Fish and Game Code.

HISTORY

1. Amendment of subsection (b) filed 1–26–88; operative 3–1–88 (Register 88, No. 6).
2. New subsection (b)(3) filed 9–11–89 as an emergency; operative 9–11–89 (Register 89, No. 37). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 1–9–90.
3. Subsection (b)(3) repealed by operation of law on 1–9–90. Amendment of subsections (b)(1) and (b)(2), and new subsection (b)(3) filed 3–1–90; operative 3–1–90 (Register 90, No. 10).
4. Repealer and new section filed 12–12–94; operative 12–12–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 50).
5. Amendment of subsection (b)(9) filed 2–9–96; operative 2–9–96 pursuant to Fish and Game Code sections 202 and 205 (Register 96, No. 6).
6. Amendment of section and NOTE filed 2–5–98; operative 3–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 6).
7. Amendment of subsection (b)(4) filed 1–10–2002; operative 1–1–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 2).

§ 5.20. Clams, Freshwater.

(a) Open season: All year, except for closures listed under special regulations.

(b) Limit: Fifty pounds (in the shell).

(c) Methods of take: Freshwater clams may be taken only by hand, or by spade, shovel, hoe, rake or other appliance operated by hand.

(d) The season closures in Chapter 3 (District Trout and Salmon Special Regulations) do not apply to freshwater Clam fishing (see sections 7.00 and 7.50(a)(2)).

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

HISTORY

1. New subsection (d) filed 1–10–2002; operative 1–1–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 2).

§ 5.25. Corvina in the Salton Sea.

(a) Open season: All year.

(b) Bag limit: Two.

(c) Possession Limit: Four.

(d) Minimum size limit: 18 inches total length.

NOTE: Authority cited: Sections 200, 202, 205, 215 and 220, Fish and Game Code. Reference: Sections 200, 202, 205, 210, 215, 2930, 2931 and 2932, Fish and Game Code.

HISTORY

1. Amendment of subsection (b) filed 3–1–90, operative 3–1–90 (Register 90, No. 10).
2. Amendment of subsection (b) and new subsection (c) filed 2–18–2000; operative 3–1–2000 pursuant to Fish and Game Code sections 202 and 215 (Register 2000, No. 7).
3. Amendment of subsection (b), new subsection (c), subsection relettering and amendment of NOTE filed 11–8–2004; operative 12–8–2004 (Register 2004, No. 46).

§ 5.26. Gulf Croaker and Sargo in the Salton Sea.

(a) Open season: All year.

(b) Daily bag limit: Six each species.

(c) Possession limit: 12 each species.

(d) Size limit: None.

NOTE: Authority cited: Sections 200, 202, 205, 215 and 220, Fish and Game Code. Reference: Sections 200, 202, 205, 210, 215, 2930, 2931 and 2932, Fish and Game Code.

HISTORY

1. New section filed 11–8–2004; operative 12–8–2004 (Register 2004, No. 46).

§ 5.30. Crappie.

(a) Open season: All year, except for closures listed under special regulations.

(b) Bag Limit: Twenty-five, except in:

(1) Barrett and Upper Otay Lakes (San Diego Co.) where the bag limit is zero for all species (See Section 2.08), and

(2) Eastman Lake (Madera Co.) where only 25 crappie and sunfish, all species combined, may be taken per day. (See Section 5.82.)

(c) Size Limit: No size limit, except at Hodges and El Capitan Lakes (San Diego County), where the minimum size limit is 10 inches, total length.

NOTE: Authority cited: Sections 200, 202, 205, 219, 220 and 240, Fish and Game Code. Reference: Sections 200, 202, 205, 206, 215 and 220, Fish and Game Code.

HISTORY

1. Renumbering of former section 5.30 to section 5.82 and new section filed 3–7–94; operative 3–7–94 pursuant to Fish and Game Code sections 202 and 215 (Register 94, No. 10). For prior history, see Register 90, No. 10.
2. Amendment of subsection (b) and NOTE filed 2–9–96; operative 2–9–96 pursuant to Fish and Game Code sections 202 and 205 (Register 96, No. 6).
3. Editorial correction renumbering erroneously designated HISTORY 2 to HISTORY 3 (Register 98, No. 6).
4. Amendment of section and NOTE filed 2–5–98; operative 3–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 6).

§ 5.35. Crayfish.

(a) Open season: All year, except for closures listed in subsection (d) of this Section.

(b) Limit: No limit.

(c) Methods of take: Crayfish may be taken only by hand, hook and line, dip net or with traps not over three feet in greatest dimension. Any other species taken shall be returned to the water immediately. Traps need not be closely attended.

(d) Closures for Protection of Shasta Crayfish: Fall River upstream of Spring Creek Bridge, Lava Creek, Tule River and all connected waters upstream of Little Tule River, Sucker Springs Creek, Crystal Lake, Rising River and Rising River Lake are closed to take and possession of crayfish. (See Section 4.30 for prohibition against crayfish use for bait in sections of the Pit River).

(e) The season closures in Chapter 3 (District Trout and Salmon Special Regulations) do not apply to crayfish fishing with methods other than hook and line (see sections 7.00 and 7.50(a)(2)).

NOTE: Authority cited: Sections 200, 202, 205, 215 and 8491, Fish and Game Code. Reference: Sections 200, 202, 205, 206, 8490 and 8491, Fish and Game Code.

HISTORY

1. Amendment of subsection (c) filed 1–26–88; operative 3–1–88 (Register 88, No. 6).
2. Amendment filed 3–7–94; operative 3–7–94 pursuant to Fish and Game Code sections 202 and 215 (Register 94, No. 10).
3. New subsection (a)(3) filed 2–9–96; operative 2–9–96 pursuant to Fish and Game Code sections 202 and 205 (Register 96, No. 6).
4. Amendment of subsection (a), repealer of subsections (a)(1)–(3), new subsections (d) and (e) and amendment of NOTE filed 2–5–98; operative 3–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 6).
5. Amendment of subsection (e) filed 1–10–2002; operative 1–1–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 2).

§ 5.37. Grass Carp.

No grass carp may be taken or possessed at any time, except that any grass carp inadvertently taken must be immediately returned unharmed to the water.

NOTE: Authority cited: Sections 200, 202, 205 and 220, Fish and Game Code. Reference: Sections 200 and 205, Fish and Game Code.

HISTORY

1. New section filed 3–1–90; operative 3–1–90 (Register 90, No. 10).
2. Amendment filed 5–5–97; operative 6–4–97 (Register 97, No. 19).

§ 5.40. Lamprey.

(a) Open season: All year, except for closures listed under special regulations.

(b) Limit: No limit.

(c) Methods of take: Lamprey may be taken only by hand, hook, spear, bow and arrow fishing tackle, dip net or traps not over three feet in greatest dimension. Any other species taken shall be returned to the water immediately. Traps need not be closely attended.

(d) The season closures in Chapter 3 (District Trout and Salmon Special Regulations) do not apply to lamprey fishing with methods other than hook and line (see sections 7.00 and 7.50(a)(2)).

NOTE: Authority cited: Sections 200, 202, 205 and 210 Fish and Game Code. Reference: Sections 200, 202, and 205–210, Fish and Game Code.

HISTORY

1. Amendment of subsection (c) filed 1–26–88; operative 3–1–88 (Register 88, No. 6).
2. New subsection (d) filed 1–10–2002; operative 1–1–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 2).

§ 5.45. Marine Fin Fish, Mollusks and Crustaceans.

Marine fin fish, mollusks and crustaceans taken in lagoons and tidal waters are subject to the bag and possession limits established for the Ocean and San Francisco Bay District (beginning with Section 27.00).

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

§ 5.50. Mountain Whitefish.

(a) Open season: No mountain whitefish may be taken in any water except when trout may be taken in such water.

(b) Limit: Five.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

HISTORY

1. Amendment of subsection (b) filed 2–24–2004; operative 3–1–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 9).

§ 5.51. Northern Pike.

(a) Lake Davis and its tributaries: No live northern pike may be possessed or transported. Any northern pike taken must immediately be killed and returned to the water. Note: After September 15, 2007, this subsection (a) expires and northern pike regulations at Lake Davis return to statewide regulations in subsection (b) below.

(b) All other State waters: No northern pike, dead or alive, may be released into any water at any time. All northern pike taken shall be killed immediately by removing the head and shall be retained by the angler. The angler shall notify the Department that he/she has taken and possesses a northern pike by calling the Department's CalTip telephone number (1–888–DFG–CALTIP) as soon as possible, but not more than 24 hours after taking the northern pike. The angler shall maintain the head and body of the fish in a refrigerated or frozen condition, whenever possible, until the Department collects the northern pike.

NOTE: Authority cited: Sections 200, 202, 205, 220 and 240, Fish and Game Code. Reference: Sections 200, 202, 205, 220 and 240, Fish and Game Code.

HISTORY

1. New section filed 8–14–95 as an emergency; operative 8–14–95 (Register 95, No. 33). A Certificate of Compliance must be transmitted to OAL by 12–12–95 or emergency language will be repealed by operation of law on the following day.
2. Repealed by operation of Government Code section 11346.1(f) (Register 96, No. 6).
3. New section filed 2–9–96; operative 2–9–96 pursuant to Fish and Game Code sections 202 and 205 (Register 96, No. 6).
4. Repealer and new section filed 5–8–98; operative 5–8–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 19).
5. Amendment filed 5–10–2007; operative 5–10–2007 pursuant to Government Code section 11343.4 (Register 2007, No. 19).

§ 5.55. Mullet.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

HISTORY

1. Repealer filed 1–22–86; designated effective 3–1–86 (Register 86, No. 6).

§ 5.60. Reptiles.

(a) General Provisions: Only the following reptiles may be taken under the authority of a sportfishing license, subject to the restrictions in this section. The limit for each of the species listed below is two, unless otherwise provided. Limit, as used in this section, means daily bag and possession limit. No reptiles shall be taken from ecological reserves designated by the commission in Section 630 or from state parks, or national parks or monuments.

(b) No sportfishing license is required for the sport take of any rattlesnake.

(1) Painted turtle (*Chrysemys picta*): Limit: No limit.
(2) Slider Turtle (*Pseudemys (Trachemys) scripta*): Limit: No limit.
(3) Spiny softshell turtle (*Trionyx spiniferus*): Limit: No limit.
(4) Western banded gecko (*Coleonyx variegatus*)
(5) Desert iguana (*Dipsosaurus dorsalis*)
(6) Chuckwalla (*Sauromalus obesus*)
(7) Zebra-tailed lizard (*Callisaurus draconoides*)
(8) Colorado Desert fringe-toed lizard (*Uma notata*)
(9) Mojave fringe-toed lizard (*Uma scoparia*)
(10) Desert spiny lizard (*Sceloporus magister*)
(11) Granite spiny lizard (*Sceloporus orcutti*)
(12) Western fence lizard (*Sceloporus occidentalis*): Limit: Species No. 12–16 have a limit of twenty-five (25) in the aggregate
(13) Sagebrush lizard (*Sceloporus graciosus*): Limit: Species No. 12–16 have a limit of twenty-five (25) in the aggregate
(14) Side-blotched lizard (*Uta stansburiana*): Limit: Species No. 12–16 have a limit of twenty-five (25) in the aggregate
(15) Western skink (*Eumeces skiltonianus*): Limit: Species No. 12–16 have a limit of twenty-five (25) in the aggregate
(16) Desert night lizard (*Xantusia vigilis*): Limit: Species No. 12–16 have a limit of twenty-five (25) in the aggregate
(17) Long-tailed brush lizard (*Urosaurus graciosus*)
(18) Tree lizard (*Urosaurus ornatus*)
(19) Small-scaled lizard (*Urosaurus microscutatus*)
(20) Desert horned lizard (*Phrynosoma platyrhinos*)
(21) Short-horned lizard (*Phrynosoma douglassii*)
(22) Great basin collared lizard (*Crotaphytus bicintores*)
(23) Banded rock lizard (*Petrosaurus mearnsi*)
(24) Baja California collared lizard (*Crotaphytus vestigum*)
(25) Long-nosed leopard lizard (*Gambelia wislizenii*)
(26) Gilbert's skink (*Eumeces gilberti*)
(27) Western whiptail (*Cnemidophorus tigris*)
(28) Southern alligator lizard (*Elgaria multicarinata*)
(29) Northern alligator lizard (*Elgaria coerulea*)
(30) California legless lizard (*Anniella pulchra*), **except** black legless lizard (*Anniella pulchra nigra*): Limit: One (1)
(31) Rubber boa (*Charina bottae*), **except** southern rubber boa (*Charina bottae umbratica*)
(32) Rosy boa (*Lichanura trivirgata*)
(33) Ringneck snake (*Diadophis punctatus*)
(34) Sharp-tailed snake (*Contia tenuis*)
(35) Spotted leaf-nosed snake (*Phyllorhynchus decurtatus*)
(36) Racer (*Coluber constrictor*)
(37) Coachwhip (*Masticophis flagellum*), **except** San Joaquin Coachwhip (*Masticophis flagellum ruddocki*)
(38) Striped whipsnake (*Masticophis taeniatus*)
(39) California whipsnake (striped racer) (*Masticophis lateralis*), *except* Alameda whipsnake (*Masticophis lateralis euryxanthus*)
(40) Western patch-nosed snake (*Salvadora hexalepis*).
(41) Glossy snake (*Arizona elegans*)
(42) Gopher snake (*Pituophis melanoleucus*): Limit: Four (4)
(43) Common kingsnake (*Lampropeltis getula*): Limit: Four (4)
(44) California mountain kingsnake (*Lampropeltis zonata*), **except** San Diego mountain kingsnake (*Lampropeltis zonata pulchra*): Limit: One (1). Special Closure: No California mountain kingsnakes shall be taken in Orange and San Diego counties, and in Los Angeles County west of Interstate 5.
(45) Long-nosed snake (*Rhinocheilus lecontei*)
(46) Common garter snake (*Thamnophis sirtalis*), **except** San Francisco garter snake (*Thamnophis sirtalis tetrataenia*): Special Closure: No common garter snakes shall be taken in Los Angeles, Orange, Riverside, San Diego, and Ventura counties.
(47) Terrestrial garter snake (*Thamnophis elegans*)
(48) Western aquatic (Sierra) garter snake (*Thamnophis couchii*)
(49) Pacific coast aquatic garter snake (*Thamnophis atratus*)
(50) Northwestern garter snake (*Thamnophis ordinoides*)
(51) Checkered garter snake (*Thamnophis marcianus*)
(52) Ground snake (*Sonora semiannulata*)
(53) Western shovel-nosed snake (*Chionactis occipitalis*)
(54) California black-headed snake (*Tantilla planiceps*)
(55) Southwestern black-headed snake (*Tantilla hobartsmithi*)
(56) Lyre snake (*Trimorphodon biscutatus*)
(57) Night snake (*Hypsiglena torquata*)
(58) Western blind snake (*Leptotyphlops humilis*)
(c) Open season: All year.
(d) Hours: Reptiles may be taken at any time of day or night.
(e) Methods of take:
(1) Reptiles may be taken only by hand, except as provided in subsections (d)(2) and (3) below, or by the following hand-operated devices:
(A) Lizard nooses.
(B) Snake tongs.
(C) Snake hooks.
(2) Rattlesnakes may be taken by any method.
(3) Turtles may be taken by hook and line. Fishing methods described in Section 2.00 apply to the take of spiny softshell turtles, slider turtles and painted turtles.
(4) It is unlawful to use any method or means of collecting that involves breaking apart of rocks, granite flakes, logs or other shelters in or under which reptiles may be found.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

HISTORY

1. New section filed 1–10–2002; operative 1–1–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 2). For prior history, see Register 86, No. 6.

§ 5.65. Shad, American.

(a) Open season: All year, except for closures listed under special regulations.
(b) Limit: Twenty-five.
(c) Methods of take: Shad may be taken only by angling, except that a dip net may be used in the Valley District.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

§ 5.70. Spiny Softshell Turtle in the Colorado River District.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

HISTORY

1. Repealer filed 1–10–2002; operative 1–1–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 2).

§ 5.75. Striped Bass.

(a) Open season: All year except for closures listed in special regulations.
(b) Limit: Two, except in waters listed in (d) below.
(c) Minimum size: 18 inches total length except in waters listed in (d) below.
(d) Exceptions:
(1) In the Colorado River District, the Southern District (except Lake Elsinore), and New Hogan, San Antonio and Santa Margarita lakes.
(A) Limit: Ten.
(B) Minimum size: No size limit.
(2) Lake Elsinore has the limit and minimum size shown in (b) and (c) above.
(e) For the purpose of these regulations, any striped bass hybrid with white bass is considered to be striped bass.

NOTE: Authority cited: Sections 200, 202, 205 and 215, Fish and Game Code. Reference: Sections 200, 202, 205 and 206, Fish and Game Code.

HISTORY

1. Amendment filed 1–30–84; designated effective 2–9–84 (Register 84, No. 5).
2. Repealer and new section filed 2–28–85 as an emergency; designated effective 3–1–85. Certificate of Compliance included (Register 85, No. 11).

3. Amendment of subsection (d) filed 1–22–86; designated effective 3–1–86 (Register 86, No. 6).
4. Amendment of subsection (d)(2) filed 3–1–90; operative 3–1–90 (Register 90, No. 10).
5. Amendment of subsections (d)(1) and (2) filed 3–7–94; operative 3–7–94 pursuant to Fish and Game Code sections 202 and 215 (Register 94, No. 10).
6. Repealer of subsection (d)(1) designator and amendment of resulting addition to subsection (d), redesignation of former subsections (d)(1)(A)–(B) as subsections (d)(1)–(2) and repealer of subsections (d)(2)–(d)(2)(B) filed 2–9–96; operative 2–9–96 pursuant to Fish and Game Code sections 202 and 205 (Register 96, No. 6).
7. Amendment of section and NOTE filed 2–5–98; operative 3–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 6).
8. Repealer of subsections (d)(2)–(d)(2)(B) filed 1–10–2002; operative 1–1–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 2).
9. Amendment of subsection (d)(1) filed 2–24–2004; operative 3–1–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 9).
10. Amendment filed 12–27–2007; operative 1–26–2008 (Register 2007, No. 52).

§ 5.79. White Sturgeon Report Card and Tagging Requirements for Inland Waters (FG 683, See Section 701).

(a) Sturgeon Fishing Report Card Required. All anglers must have a Sturgeon Fishing Report Card in their possession while fishing for or taking sturgeon. Anglers must complete and return the card pursuant to regulations in this Section and in Section 1.74.

(b) Tagging and Recording Requirements for Retained Fish. A Sturgeon Fishing Report Card includes detachable tags that shall be used to tag any white sturgeon that is taken and retained in the sport fishery. Any white sturgeon possessed by any person shall be tagged.

(1) Upon taking and retaining a white sturgeon, the cardholder shall immediately record the following information:

(A) The month, day, fishing location and length of the fish shall be recorded in the appropriate spaces on the tag. Tags shall be used in sequential order.

(B) The month, day, fishing location and length of the fish shall be recorded in the appropriate spaces on the Sturgeon Fishing Report Card which corresponds to the number on the tag.

(2) Immediately after recording the information above, the cardholder shall remove and completely detach the tag from the card and affix it to the white sturgeon. Cardholders shall not wait until completion of fishing activity to tag any white sturgeon in possession.

(3) The tag shall be securely fastened to the fish. To affix the tag, a "zip tie", string, line or other suitable material shall be passed through the tag at the location specified on the sturgeon tag and attached to the fish.

(4) Tags shall not be removed from the report card until immediately prior to affixing to a white sturgeon. Any tags detached from the report card and not affixed to a white sturgeon shall be considered used and therefore invalid. No person shall possess any used or otherwise invalid sturgeon tags.

(5) Records of Prior Activity. All tags must be accounted for at all times by entry of a record on the Sturgeon Fishing Report Card corresponding to all tags that are not in possession. Any tag that was lost or destroyed shall be recorded as such on the corresponding line on the Sturgeon Fishing Report Card.

(c) Reporting Requirements for Released Fish.

(1) Whenever the cardholder catches and releases a sturgeon, the cardholder shall immediately record the month, day, location code, and species of sturgeon.

(2) If all lines in the "sturgeon released" field of the report card are filled, any additional sturgeon caught and released need not be recorded on the card.

(d) Sturgeon tags must be left affixed to the fish in place, including while stored at a residence or non–transient location, until the fish is processed for immediate consumption.

(e) The annual fee for the Sturgeon Fishing Report Card is specified in Section 701, Title 14, CCR.

NOTE: Authority cited: Sections 200, 202 and 205, Fish and Game Code. Reference: Sections 200, 202 and 205, Fish and Game Code.

HISTORY

1. New section filed 3–14–2008; operative 4–1–2008 pursuant to Government Code section 11343.4 (Register 2008, No. 11).

§ 5.80. White Sturgeon.

(a) Open season: All year, except for closures listed under special regulations.

(b) Daily and annual bag limit: One fish per day. Three fish per year statewide.

(c) Size limit: No fish less than 46 inches total length or greater than 66 inches total length may be taken or possessed.

(d) Methods of take: The sturgeon must voluntarily take the bait or lure in its mouth. No sturgeon may be taken by trolling, snagging or by the use of firearms. Sturgeon may not be gaffed, nor shall any person use any type of firearm to assist in landing or killing any sturgeon.

(e) Report card required: Any person fishing for or taking sturgeon shall have in their possession a nontransferable Sturgeon Fishing Report Card issued by the department and shall adhere to all reporting and tagging requirements for sturgeon defined in Sections 1.74 and 5.79, Title 14, CCR.

(f) Special North Coast District Sturgeon Closure (Humboldt, Del Norte, Trinity and Siskiyou cos.). It is unlawful to take any sturgeon in the North Coast District at any time.

(g) For regulations on take and possession of sturgeon in ocean waters as defined in Section 27.00, see Sections 27.90, 27.91, and 27.95.

NOTE: Authority cited: Sections 200, 202, 205 and 220, Fish and Game Code. Reference: Sections 200, 205 and 206, Fish and Game Code.

HISTORY

1. Amendment of subsections (b)–(d) filed 3–1–90; operative 3–1–90 (Register 90, No. 10).
2. Amendment of subsection (c) and NOTE filed 3–12–92; operative 3–12–92 (Register 92, No. 20).
3. Amendment of subsection (c) filed 12–22–92; operative 12–22–92 pursuant to sections 202 and 215, Fish and Game Code (Register 92, No. 52).
4. Amendment of subsection (b) filed 3–7–94; operative 3–7–94 pursuant to Fish and Game Code sections 202 and 215 (Register 94, No. 10).
5. Amendment of section heading and subsection (c), new subsection (f) and amendment of NOTE filed 3–20–2006 as an emergency; operative 3–20–2006 (Register 2006, No. 12). A Certificate of Compliance must be transmitted to OAL by 7–18–2006 or emergency language will be repealed by operation of law on the following day.
6. Reinstatement of section as it existed prior to 3–20–2006 amendment by operation of Government Code section 11346.1(f) (Register 2006, No. 33).
7. Amendment of section heading and subsections (b) and (c) and new subsections (e)–(h) filed 2–28–2007; operative 2–28–2007 pursuant to Government Code section 11343.4 (Register 2007, No. 9).
8. Amendment of subsection (e), repealer of subsections (e)(1)–(f)(2) and subsection relettering filed 3–14–2008; operative 4–1–2008 pursuant to Government Code section 11343.4 (Register 2008, No. 11).

§ 5.81. Green Sturgeon.

(a) Green sturgeon may not be taken or possessed.

(b) Green sturgeon taken and released incidentally to white sturgeon fishing shall be reported on a Sturgeon Fishing Report Card issued by the department, in accordance with procedures defined in Sections 1.74 and 5.79, Title 14, CCR.

NOTE: Authority cited: Sections 200, 202, 205 and 220, Fish and Game Code. Reference: Sections 200, 205 and 206, Fish and Game Code.

HISTORY

1. New section filed 3–20–2006 as an emergency; operative 3–20–2006 (Register 2006, No. 12). A Certificate of Compliance must be transmitted to OAL by 7–18–2006 or emergency language will be repealed by operation of law on the following day.
2. Repealed by operation of Government Code section 11346.1(g) (Register 2006, No. 33).
3. New section filed 2–28–2007; operative 2–28–2007 pursuant to Government Code section 11343.4 (Register 2007, No. 9).
4. Amendment of subsection (b) filed 3–14–2008; operative 4–1–2008 pursuant to Government Code section 11343.4 (Register 2008, No. 11).

§ 5.82. Sunfish and Tilapia.

(a) Open season: All year, except for closures listed under district or special regulations.

(b) Limit: No limit except as follows:

(1) Barrett and Upper Otay Lakes (San Diego County): zero bag limit for all species.

(2) Eastman Lake (Madera Co.); No more than 25 crappie and sunfish of all species combined. (Note: See Section 5.00 for black bass regulations and Section 2.08 regarding special restrictions for Barrett and Upper Otay lakes).

NOTE: Authority cited: Sections 200, 202, 205, 215 and 220, Fish and Game Code. Reference: Sections 200, 202, 205, 206 and 220, Fish and Game Code.

HISTORY

1. Renumbering of former section 5.30 to section 5.82 and amendment of section heading and NOTE filed 3–7–94; operative 3–7–94 pursuant to Fish and Game Code section 202 and 215 (Register 94, No. 10).
2. Amendment of subsection (b) filed 12–12–94; operative 12–12–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 50).
3. Amendment of subsection (b) and NOTE filed 2–9–96; operative 2–9–96 pursuant to Fish and Game Code sections 202 and 205 (Register 96, No. 6).
4. Amendment of section and NOTE filed 2–5–98; operative 3–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 6).

§ 5.85. Trout and Salmon.

See Chapter 3, District Trout, Salmon and Special Regulations.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

§ 5.86. Hoopa and Yurok Indian Salmon Possession Limit.

It is unlawful for any person to possess more than one daily bag or possession limit of fish except as follows: Eligible Hoopa Valley and Yurok Reservation Indians, as defined in Chapter 1, Part 250, Title 25, CFR—Indian Fishing, Hoopa Valley Reservation and Yurok Reservation–Department of the Interior; may possess more than two salmon outside boundaries of the Hoopa Valley Reservation, provided:

(a) Such eligible Indians possess and display upon demand by any officer authorized to enforce this section their Indian Fishers identification card.

(b) All fish are possessed for subsistence or ceremonial purposes and are clearly marked by removing the dorsal fin prior to transporting them from the reservation.

It shall be unlawful to sell or possess for sale any salmon marked pursuant to this section.

NOTE: Authority cited: Sections 200, 202, 205, 219, 220 and 7708, Fish and Game Code. Reference: Sections 200, 202, 205, 210, 220, 7155, 7700, 7702, 7703, 7706, 7708 and 12300, Fish and Game Code.

HISTORY

1. Renumbering of former Section 1.51 to Section 5.86 filed 1–22–86; designated effective 3–1–86 (Register 86, No. 6). For history of former Section 5.86, see Register 82, No. 29.
2. Amendment filed 3–1–90; operative 3–1–90 (Register 90, No. 10).
3. Amendment of section heading filed 12–27–2007; operative 1–26–2008 (Register 2007, No. 52).

§ 5.87. Klamath–Trinity Salmon Report Card Requirement (FG 684, See Section 701).

(a) Report Card Required in Waters of the Klamath–Trinity River System. All anglers must have a Klamath–Trinity Salmon Report Card in their possession while fishing for or taking salmon in waters of the Klamath–Trinity River System, and must complete and return the card pursuant to regulations in this Section and in Section 1.74.

(b) Prior to beginning fishing activity, the cardholder shall record the month, day, and fishing location on the first available line on the report card.

(c) Whenever the cardholder lands (either retains or releases) a Chinook salmon, the angler shall immediately record whether the fish was an adult or a jack, and whether the fish has an adipose fin present. Whenever the cardholder releases a Coho salmon, the angler shall immediately record whether the maxillary is present or absent.

(d) Whenever the cardholder moves to another fishing location, the angler shall record the month, day, and location on the next line on the report card.

(e) In the Klamath–Trinity River System, a jack Chinook salmon is defined as any Chinook salmon that is less than 22 inches total length.

(f) In the event an angler fills in all lines and returns a Klamath–Trinity Salmon Report Card, an additional card may be purchased. See Section 1.74.

(g) The annual fee for the Klamath–Trinity Salmon Report Card is specified in Section 701, Title 14, CCR.

NOTE: Authority cited: Sections 200, 202 and 205, Fish and Game Code. Reference: Sections 200, 202 and 205, Fish and Game Code.

HISTORY

1. New section filed 3–14–2008; operative 4–1–2008 pursuant to Government Code section 11343.4 (Register 2008, No. 11). For prior history, see Register 96, No. 6.

§ 5.88. Steelhead Report and Restoration Card Requirements for Inland Waters (FG 682, See Section 701).

(a) Steelhead Fishing Report and Restoration Card Required. All anglers must have a Steelhead Fishing Report and Restoration Card in their possession while fishing for or taking steelhead in anadromous waters, as defined in Section 1.04. Anglers must complete and return the card pursuant to regulations in this Section and in Section 1.74. For purposes of these regulations, a steelhead trout is defined as any rainbow trout greater than 16 inches in length found in anadromous waters.

(b) Prior to beginning fishing activity, the cardholder must record the month, day, and location code on the first available line on the report card.

(c) When a steelhead is retained, the cardholder must immediately fill in a circle indicating whether the fish is a wild fish or a hatchery fish.

(d) When the cardholder moves to another location code, or finishes fishing for the day, the angler must immediately record on the card the number of wild and hatchery fish that were released from that location.

(e) In the event an angler fills in all lines and returns a Steelhead Fishing Report and Restoration Card, an additional card may be purchased. See Section 1.74.

(f) The annual fee for the Steelhead Fishing Report and Restoration Card is specified in Section 7380 of the Fish and Game Code.

NOTE: Authority cited: Section 7380, Fish and Game Code. Reference: Sections 7380 and 7381, Fish and Game Code.

HISTORY

1. New section filed 3–14–2008; operative 4–1–2008 pursuant to Government Code section 11343.4 (Register 2008, No. 11).

§ 5.90. White Bass.

(a) Open season: All year.

(b) Limit: No limit. No live white bass may be possessed or transported. Any white bass taken must immediately be killed by removing the head or cutting through the gills, except at Lake Nacimiento (San Luis Obispo County) where any white bass taken must immediately be released into the water or killed by removing the head or cutting through the gills.

NOTE: Authority cited: Sections 200, 202, 205, 215 and 220, Fish and Game Code. Reference: Sections 200, 202, 205, 206, 215 and 220, Fish and Game Code.

HISTORY

1. Amendment filed 1–30–84; designated effective 2–9–84 (Register 84, No. 5).
2. Amendment of subsection (b) filed 2–28–85 as an emergency; designated effective 3–1–85. Certificate of Compliance included (Register 85, No. 11).
3. Amendment of subsection (b) and NOTE filed 2–5–98; operative 3–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 6).

§ 5.93. Fully Protected Fishes.

None of the following fishes may be taken or possessed at any time: Colorado pikeminnow, Mohave chub, Lost River sucker, Modoc sucker, shortnose sucker, humpback sucker, Owens pupfish, unarmored three–spine stickleback, rough sculpin, bonytail, Owens tui chub, Cottonball Marsh pupfish and desert pupfish.

NOTE: Authority cited: Sections 200, 202, 205, 215, 219 and 220, Fish and Game Code. Reference: Sections 200, 202, 205, 206, 215 and 220, Fish and Game Code.

HISTORY

1. Amendment of section heading, section and NOTE filed 2–5–98; operative 3–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 6).

2. Amendment filed 12-27-2007; operative 1-26-2008 (Register 2007, No. 52).

§ 5.95. Other Species.

Other species of fish may be taken in any number and at any time of the year by angling, except for closures and restrictions listed under district special regulations.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200, 202, 203.1, 206, 207, 210, 217.5, 217.6, 219 and 220, Fish and Game Code.

HISTORY

1. Amendment of section and NOTE filed 12-27-2007; operative 1-26-2008 (Register 2007, No. 52).

HISTORY
1. New section filed 3–1–90; operative 3–1–90 (Register 90, No. 10).
2. Amendment filed 12–27–96; operative 12–27–96 pursuant to Fish and Game Code sections 202 and 215 (Register 96, No. 52).

§ 6.34. Southern District Definition.

The Southern District consists of the inland waters of all of Los Angeles, Orange, San Diego, Santa Barbara and Ventura counties and those portions of Riverside and San Bernardino counties outside of the Colorado River District (see Section 6.37).

NOTE: Authority cited: Sections 200, 202, 205 and 220, Fish and Game Code. Reference: Sections 200, 205 and 206, Fish and Game Code.

HISTORY
1. New section filed 3–1–90; operative 3–1–90 (Register 90, No. 10).

§ 6.35. Sierra District Definition.

The Sierra District consists of all of Modoc, Lassen, Shasta, Sierra, Plumas, Alpine, Inyo and Mono counties; Tulare County east of the west boundaries of Sequoia National Forest and Sequoia National Park; Fresno County east of the west boundaries of Sierra and Sequoia National Forests (excluding Pine Flat Lake); Madera County east of the west boundary of Sierra National Forest; Mariposa, Tuolumne, Calaveras, Amador, El Dorado, Placer and Nevada counties east of Highway 49 (excluding Don Pedro, McClure and New Melones lakes); the portion of Siskiyou County southeast of a line drawn between Mt. Eddy and the Black Butte summit railroad crossing of Interstate 5 and east of Interstate 5 between the railroad crossing and Weed and east of Highway 97 between Weed and the Oregon border; and Tehama County excluding Black Butte Lake. Those waters excluded above are part of the Valley District (see Section 6.36).

NOTE: Authority cited: Sections 200, 202, 205 and 220, Fish and Game Code. Reference: Sections 200, 205 and 206, Fish and Game Code.

HISTORY
1. New section filed 3–1–90; operative 3–1–90 (Register 90, No. 10).

§ 6.36. Valley District Definition.

The Valley District consists of all of Butte, Colusa, Glenn, Kern, Kings, Merced, Sacramento, San Joaquin, Solano, Stanislaus, Sutter, Yolo and Yuba counties; Tulare County west of the west boundaries of Sequoia National Forest and Sequoia National Park; Fresno County west of the west boundaries of Sierra and Sequoia National Forests (including all of Pine Flat Lake); Madera County west of the west boundary of the Sierra National Forest; Amador, Calaveras, El Dorado, Mariposa, Nevada, Placer and Tuolomne counties west of Highway 49 (including all of Don Pedro, McClure and New Melones lakes); that portion of Alameda County which is both east of Interstate 680 and north of Interstate 580; and all of Contra Costa County east of Interstate 680 and that portion of Contra Costa County which is both north of Highway 4 and east of Interstate 80; and all of Black Butte Lake.

NOTE: Authority cited: Sections 200, 202, 205 and 220, Fish and Game Code. Reference: Sections 200, 205 and 206, Fish and Game Code.

HISTORY
1. New section filed 3–1–90; operative 3–1–90 (Register 90, No. 10).
2. Amendment filed 12–27–96; operative 12–27–96 pursuant to Fish and Game Code sections 202 and 215 (Register 96, No. 52).

§ 6.37. Colorado River District Definition.

The Colorado River District consists of Imperial County and those portions of Riverside and San Bernardino counties lying south and east of the following line: Starting at the intersection of Highway 86 with the north boundary of Imperial County; north along Highway 86 to its intersection with Interstate 10; east along Interstate 10 to its intersection with

[The next page is 19.]

Cottonwood Springs Road; north along Cottonwood Springs Road and the Mecca Dale Road to Amboy; east along old Highway 66 to its intersection with Interstate 40; east along Interstate 40 to its intersection with Highway 95; and north along Highway 95 to the California–Nevada boundary. All of the Coachella Canal and Lake Cahuilla are included in this District.

NOTE: Authority cited: Sections 200, 202, 205 and 220, Fish and Game Code. Reference: Sections 200, 205 and 206, Fish and Game Code.

HISTORY

1. New section filed 3–1–90; operative 3–1–90 (Register 90, No. 10).
2. Amendment filed 12–27–2007; operative 1–26–2008 (Register 2007, No. 52).

Article 2. District General Regulations

§ 7.00. District General Regulations.

Unless otherwise provided, waters shown as open to trout and salmon fishing in subsections (a) through (g) below, are open to fishing for other species. Every body of water listed in subsections (a) through (g) of Section 7.00 (below) is closed to all fishing, except during the open season as shown. Unless otherwise provided, waters closed to trout and salmon fishing are closed to fishing for all other species, except that these closures do not apply to fishing for amphibians (see Section 5.05), freshwater clams (see Section 5.20), crayfish (see Section 5.35), and lamprey (see Section 5.40), using fishing methods other than hook–and–line fishing. Daily bag and possession limits, unless otherwise provided, mean the total number of trout and salmon in combination. Unless otherwise provided, no more than one daily bag limit may be possessed. Silver (coho) salmon may not be taken in any of the waters of the State, except in Lake Oroville. Incidentally hooked Silver (coho) salmon, except those in Lake Oroville, must be immediately released unharmed to the waters where they are hooked. In waters where the bag limit for trout or salmon is zero, fish for which the bag limit is zero must be released unharmed, and should not be removed from the water.

District/Water	*Open Season*	*Daily Bag and Possession Limit*
(a) North Coast District		
(1) No trout or salmon may be taken in the North Coast District except as provided in subsection (2), (3) and (4) below and the Alphabetical List of Waters with Special Regulations.		
(2) All lakes and reservoirs except those listed by name in the Special Regulations.	All year.	5 per day 10 in possession
(3) Anadromous waters of the Klamath and Trinity River Systems, and those entering the ocean south of Humboldt Bay, which are not listed in the Special Regulations.	Closed to all fishing all year.	
(4) All anadromous waters tributary to Humboldt Bay, and north of Humboldt Bay, except those of the Klamath and Trinity river systems and those listed by name in the Special Regulations.	Fourth Saturday in May through Oct. 31. Only artificial lures with barbless hooks may be used.	0
(5) All streams except anadromous waters and those listed by name in the Special Regulations.	Last Saturday in Apr. through Nov. 15.	5 trout per day, 10 in possession
(NOTE: A list of the non–anadromous waters opened to trout fishing (STREAMS AND PORTIONS OF STREAMS NOT LISTED IN THE SPECIAL REGULATIONS THAT ARE OPEN TO TROUT FISHING FROM THE LAST SATURDAY IN APRIL THROUGH NOVEMBER 15 (New 6–12–98), which is incorporated by reference herein) is available from the Department's Region 1 Office, 601 Locust Street, Redding, CA 96001 (Telephone: (530) 225–2300).		
(6) SPECIAL BROOK TROUT BONUS BAG AND POSSESSION LIMIT: UP TO 10 BROOK TROUT PER DAY LESS THAN 8 INCHES TOTAL LENGTH MAY BE TAKEN AND POSSESSED IN ADDITION TO THE OTHER DAILY BAG AND POSSESSION LIMITS SPECIFIED FOR THE NORTH COAST DISTRICT.		
(b) Sierra District		
(1) Anadromous waters of Tehama and Shasta counties not listed in the Special Regulations. (Section 7.50). (See subsection (b)(156) of Section 7.50, regarding the Sacramento River.)	Last Saturday in Apr. through Nov. 15. Only artifical lures and barbless hooks may be used.	0
(2) All lakes and reservoirs except those in the Fall River Valley, those in Inyo and Mono counties and those listed by name in the Special Regulations.	All year.	5 per day 10 in possession
(3) All streams, lakes and reservoirs in Inyo and Mono counties, except those listed by name in the Special Regulations.	Last Saturday in Apr. through Nov. 15.	5 per day 10 in possession
(4) All streams, lakes and reservoirs in the Fall River Valley above the Pit No. 1 Powerhouse on Fall River in Shasta County, except those listed by name in the Special Regulations.	Last Saturday in Apr. through Nov. 15.	2
(5) All streams in Lassen and Modoc counties east of Highway 395 and north of Clarks Valley Road. Clarks Valley Road is defined as those portions of county routes 510, 512 and 506 running easterly from the town of Madeline to the Nevada border.	Saturday preceding Memorial Day through Nov. 15.	5 per day 10 in possession
(6) American River, North Fork, Middle Fork, South Fork and their tributaries within the Sierra District (Placer, Eldorado, Amador, and Alpine cos.)	Last Saturday in Apr. through Nov. 15	5 per day 10 in possession
	Nov. 16 through the Friday preceding the last Saturday in Apr. Only artificial lures with barbless hooks may be used.	0
(7) All other streams except those listed by name in the Special Regulations.	Last Saturday in Apr. Nov. 15.	5 per day 10 in possession
(8) Mono County waters, when closed to trout fishing, are closed to all fishing, except for the unrestricted portions of Fish Slough which are open to fishing all year. Also, see Mono County waters listed in sections 5.00 and 7.50.		
(9) SPECIAL BROOK TROUT BONUS BAG AND POSSESSION LIMIT: (A) IN SIERRA DISTRICT WATERS OF SISKIYOU, SHASTA AND TEHAMA COUNTIES, UP TO 10 BROOK TROUT PER DAY LESS THAN 8 INCHES TOTAL LENGTH MAY BE TAKEN AND POSSESSED IN ADDITION TO THE OTHER DAILY BAG AND POSSESSION LIMITS SPECIFIED FOR THE SIERRA DISTRICT. (B) IN THE SIERRA DISTRICT SOUTH OF INTERSTATE 80, UP TO 10 BROOK TROUT PER DAY LESS THAN 10 INCHES TOTAL LENGTH MAY BE TAKEN AND POSSESSED IN ADDITION TO THE OTHER DAILY BAG AND POSSESSION LIMITS SPECIFIED FOR THE SIERRA DISTRICT. THIS ALLOWANCE DOES NOT INCLUDE RED LAKE IN ALPINE COUNTY OR KIRMAN, LANE OR ROOSEVELT LAKES IN MONO COUNTY.		5
(c) North Central District		
(1) All lakes and reservoirs except those listed by name in the Special Regulations.	All year.	
(2) All streams except those listed by name in the Special Regulations.	Closed to all fishing all year.	
(3) The tidewaters of all streams except those listed by name in the Special Regulations. Note: Some waters within this district are tide waters regulated by regulations for the ocean and San Francisco Bay District (see sections 1.53 and 27.00)	All year Closed to all fishing all year.	
(d) Valley District		
(1) All lakes and reservoirs except those listed by name in the Special Regulations.	All year.	5
(2) All anadromous waters except those listed by name in the Special Regulations (See definition of anadromous waters, Section 1.04).	All year	0

District/Water	*Open Season*	*Daily Bag and Possession Limit*
(3) All streams except anadromous waters and those listed by name in the Special Regulations.	All year	5
(e) South Central District		
(1) All lakes and reservoirs except those listed by name in the Special Regulations.	All year	5
(2) That portion of any stream west of any Highway 1 bridge except those listed by name in the special regulations.	Dec. 1 through Mar. 7, but only on Sat., Sun., Wed., legal holidays and opening and closing days. Only barbless hooks may be used.	0
(3) All streams in Alameda, Contra Costa, and Santa Clara Counties except those listed by name in the Special Regulations.	Last Saturday in Apr. through Nov. 15	5
(4) All other streams and portions of streams except those listed in subsection (e)(2) above or by name in the Special Regulations.	Closed to all fishing all year	
(f) Southern District		
(1) All lakes and reservoirs except those listed by name in the Special Regulations.	All year.	5
(2) All streams except anadromous waters in San Diego County, and except those listed by name in the Special Regulations.	All year. Only artificial lures with barbless hooks may be used.	2
(3) All streams except anadromous waters in Los Angeles, Ventura, Santa Barbara, Orange, San Bernardino and Riverside Counties, and except those listed by name in the Special Regulations.	All year.	5
(4) All anadromous waters except those listed by name in the Special Regulations (See definition of anadromous waters, Section 1.04)	Closed to all fishing all year.	
(5) All streams and tributaries (except those listed by name in the Special Reguilations) above Twitchell Dam on the Cuyama River, above Bradbury Dam and below Gibraltar Dam on the San Ynez River; above Matilja Dam on Matilija Creek and above Wheeler Gorge Campground on NF Matilija Creek; and above Rindge Dam on Malibu Creek.	All year	5
(g) Colorado River District		
(1) The Colorado River and its back waters	All year	10
(2) All other waters	All year	5

HISTORY

1. Repealer and new section filed 3–1–90; operative 3–1–90 (Register 90, No. 10). For prior history, see Register 89, No. 46.
2. New subsections (a)(4) and (b)(7) filed 3–12–92; operative 3–12–92 (Register 92, No. 20).
3. New subsections (a)(5) and (c)(4) and amendment of subsections (a)(1)–(3), (b)(2)–(4) and (c)(1)–(3) filed 3–7–94; operative 3–7–94 pursuant to Fish and Game Code section 202 and 215 (Register 94, No. 10).
4. Amendment of first paragraph, subsections (b)(7) and (f) and new subsections (f)(1)–(5) filed 2–9–96; operative 2–9–96 pursuant to Fish and Game Code sections 202 and 205 (Register 96, No. 6).
5. Editorial correction of subsection (b)(3) (Register 97, No. 26).
6. Amendment of subsections (a)(5), (b)(7), (c)(4) and (e)(2), new subsection (f)(2), subsection renumbering, amendment of newly designated subsection (f)(3), and amendment of NOTE filed 2–5–98; operative 3–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 6).
7. Amendment of subsections (a)(1) and (a)(3), repealer of subsection (a)(5), amendment of subsections (c)(2)–(3), repealer of subsection (c)(4) and amendment of NOTE filed 2–11–98 as an emergency; operative 2–11–98 (Register 98, No. 7). A Certificate of Compliance must be transmitted to OAL by 6–11–98 or emergency language will be repealed by operation of law on the following day.
8. Editorial correction restoring inadvertently deleted subsections (b)–(b)(7)(B) and correcting subsection (c)(3) and HISTORY 7 (Register 98, No. 11).
9. Amendment of subsections (a)(1) and (a)(3), repealer of subsection (a)(5), amendment of subsections (c)(2)–(3), repealer of subsection (c)(4) and amendment of NOTE refiled 3–13–98 as an emergency; operative 3–13–98 (Register 98, No. 11). A Certificate of Compliance must be transmitted to OAL by 7–13–98 or emergency language will be repealed by operation of law on the following day.
10. New subsection (a)(3), subsection renumbering, and amendment of newly designated subsection (a)(4) filed 5–15–98 as an emergency; operative 5–15–98 (Register 98, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–14–98 or emergency language will be repealed by operation of law on the following day.
11. Certificate of Compliance as to 3–13–98 and 5–15–98 orders, including additional amendment of first paragraph and subsections (a)(3), (a)(4), (d)(2), (d)(3), (e)(2) and (f)(6), transmitted to OAL 7–7–98 and filed 8–11–98 (Register 98, No. 33).
12. Repealer and new subsection (a)(3), new subsections (a)(4) and (b)(5), subsection renumbering, amendment of newly designated subsection (b)(7), and amendment of subsections (e)(2) and (e)(4) filed 2–18–2000; operative 3–1–2000 pursuant to Fish and Game Code sections 202 and 215 (Register 2000, No. 7).
13. Amendment of first paragraph and subsections (b)(1) and (b)(3), new subsection (b)(4) and subsection renumbering filed 1–10–2002; operative 1–1–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 2).
14. Amendment of first paragraph filed 6–19–2003; operative 7–19–2003 (Register 2003, No. 25).
15. Amendment of subsection (b)(1), repealer of former subsection (b)(3), subsection renumbering, amendment of newly designated subsection (b)(3) and subsections (e)(2) and (f)(2)–(5) and repealer of subsection (f)(6) filed 2–24–2004; operative 3–1–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 9).
16. Amendment of subsection (b)(5), new subsection (b)(6), subsection renumbering, amendment of newly designated subsection (b)(8) and subsections (c)(3) and (f)(5) filed 2–28–2007; operative 2–28–2007 pursuant to Government Code section 11343.4 (Register 2007, No. 9).

§ 7.10. Imperial County Special Closure.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219, and 220, Fish and Game Code. Reference: Sections 200 and 205, Fish and Game Code.

HISTORY

1. Repealer filed 2–11–87; designated effective 3–1–87 (Register 87, No. 9).

§ 7.15. Sunbeam Lagoon Closure (Imperial Co.).

NOTE: Authority cited: Sections 200, 202, 205, 220 and 240, Fish and Game Code. Reference: Sections 200 and 205, Fish and Game Code.

HISTORY

1. New section filed 11–14–89 as an emergency; operative 11–14–89 (Register 89, No. 46). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed by operation of law on 3–14–90.
2. Repealer filed 3–1–90; operative 3–1–90 (Register 90, No. 10).

Article 3. Alphabetical List of Waters with Special Fishing Regulations

§ 7.50. Alphabetical List of Waters with Special Fishing Regulations.

(a) General Provisions:

(1) Unless otherwise provided, waters shown as open to trout and salmon fishing below, are open to fishing for other species. Every body of water listed below is closed to all fishing except during the open season as shown.

(2) Unless otherwise provided, waters closed to trout and salmon fishing are closed to fishing for all other species, except that these closures do not apply to fishing for amphibians (see Section 5.05), freshwater clams (see Section 5.20), crayfish (see Section 5.35), and lamprey (see Section 5.40), using fishing methods other than hook–and–line fishing.

(3) Daily bag and possession limits, unless otherwise noted, mean the total number of salmon or trout in combination.

(4) Unless otherwise provided, it is unlawful to possess more than one daily bag limit.

(5) The following special regulations deal primarily with seasons, size limits, and bag and possession limits. Please be aware that these waters

may also be subject to restrictions on fishing methods and gear (sections 2.05 through 2.40), fishing hours (section 3.00), and the use of bait (sections 4.00 through 4.30).

(b)

Body of Water	*Open Season and Special Regulations*	*Daily Bag and Possession Limit*
(1) Alambique Creek (San Mateo Co.).	Last Saturday in Apr. through Nov. 15	5 trout
(1.5) Alameda Creek and tributaries (Alameda and Santa Clara cos.)	Last Saturday in Apr. through Nov. 15. Only artificial lures with barbless hooks may be used.	0
(2) Albion River (Mendocino Co.). Also see Section 8.00(b).		
Main stem below the confluence of South Fork Albion.	Fourth Saturday in May through Oct. 31. Only artificial lures with barbless hooks may be used.	0
	Nov. 1 through Mar. 31. Only barbless hooks may be used.	1 hatchery trout or 1 hatchery steelhead**
(3) Alder Creek (Mendocino Co.). Also see Section 8.00(b).		
Main stem below Tramway Gulch.	Fourth Saturday in May through Oct. 31. Only artificial lures with barbless hooks may be used.	0
	Nov. 1 through Mar. 31. Only barbless hooks may be used.	1 hatchery trout or 1 hatchery steelhead**
(4) Almanor Lake tributaries (Lassen, Plumas and Shasta Cos.) upstream to the first lake.	Saturday preceding Memorial Day through Nov. 15	5 per day 10 in possession
(5) American River (Sacramento Co.)		
(A) From Nimbus Dam to the Hazel Avenue bridge piers.	All year	1 hatchery trout or 1 hatchery steelhead** 0 salmon
(B) From Hazel Avenue bridge piers to the U.S. Geological Survey gauging station cable crossing about 300 yards downstream from the Nimbus Hatchery fish rack site.	Jan. 1 through Sept. 14. Only barbless hooks may be used.	1 hatchery trout or 1 hatchery steelhead** 0 salmon
(C) From the U.S. Geological Survey gauging station cable crossing about 300 yards downstream from the Nimbus Hatchery fish rack site to the SMUD power line crossing at the southwest boundary of Ancil Hoffman Park.	Jan. 1 through Oct. 31. Only barbless hooks may be used.	1 hatchery trout or 1 hatchery steelhead** 0 salmon
(D) From the SMUD power line crossing at the southwest boundary of Ancil Hoffman Park downstream to the Jibboom Street Bridge.	All year	1 hatchery trout or 1 hatchery steelhead** 0 salmon
(E) From the Jibboom Street Bridge to the mouth.	July 16 through Dec. 31.	1 hatchery trout or 1 hatchery steelhead** 0 salmon
	Jan. 1 through July 15.	1 hatchery trout or 1 hatchery steelhead** 0 salmon
(6) Antelope Creek (Tehama Co.).		
(A) From confluence with North Fork downstream to U.S. Geological Survey gauging station cable crossing at mouth of Antelope Creek Canyon	Last Saturday in April through Nov. 15. Only artificial lures with barbless hooks may be used.	0
(B) From U.S. Geological Survey gauging station cable crossing at mouth of Antelope Creek Canyon downstream to mouth of Antelope Creek.	June 16 through September 30.	0
(6.5) Antelope Lake tributaries (Plumas Co.).	Saturday preceding Memorial Day through Nov. 15	5 per day 10 in possession
(7) Applegate River and tributaries (Siskiyou Co.).	Last Saturday in Apr. through Nov. 15	5 per day 10 in possession
(8) Aptos Creek (Santa Cruz Co.) from mouth to bridge on Aptos Creek Road. Also see Section 8.00(c).	Dec. 1 through Mar. 7, but only on Sat., Sun.,Wed., legal holidays and opening and closing days. Only barbless hooks may be used.	0
(9) Arroyo de los Frijoles above Lake Lucerne (San Mateo Co.).	Last Saturday in Apr. through Nov. 15.	5 trout
(10) Arroyo Grande Creek (San Luis Obispo Co.).		
(A) Above Lopez Reservoir.	Last Saturday in Apr. through Nov. 15. Closed to all fishing all year.	5, but only 2 salmon
(B) From mouth to Lopez Canyon Dam.	Closed to all fishing all year.	
(11) Arroyo Leon (San Mateo Co.).		
(12) Arroyo Seco River (Monterey Co.). Also see Section 8.00(c).		
(A) The main stem Arroyo Seco and tributaries above the waterfall and footbridge located approximately 3.5 miles upstream from the U.S. Forest Service Ranger Station.	Last Saturday in Apr. through Nov. 15.	5
(B) The main stem Arroyo Seco and tributaries below the waterfall located approximately 3.5 miles upstream from the U.S. Forest Service Ranger Station.	Dec. 1 through Mar. 7, but only on Sat., Sun.,Wed., legal holidays and opening and closing days. Only barbless hooks may be used.	0
(12.5) Auburn Ravine Creek and tributaries (Placer Co.) east of Nelson Lane.	Fourth Saturday in May through Oct. 14.	0 trout 0 salmon
(13) Balm of Gilead Creek (Trinity Co.).	See Eel River 7.50(b)(63).	
(13.5) Bass Lake (Siskiyou Co.).	Feb. 1 through Sept. 30.	5
(14) Battle Creek (Shasta and Tehama Cos.).		
(A) From mouth to Coleman Fish Hatchery weir.	Closed to all fishing all year.	
(B) From 250 feet upstream from the Coleman National Fish Hatchery upstream to Angel Falls (near Mineral) on the South Fork and to Ponderosa Way Bridge on the North Fork.	Last Saturday in Apr. through Nov. 15. Only artificial lures with barbless hooks may be used.	0
(15) Bear Creek and tributaries (Shasta and Siskiyou Cos.) between Pondosa Way bridge and confluence with Fall River.	Saturday preceding Memorial Day through Nov. 15	5 per day 10 in possession
(17) Bear Creek (San Bernardino Co.) from Big Bear Dam to confluence of Santa Ana River.	All year. Only artificial lures with barbless hooks may be used	2
(18) Bear River (Humboldt Co.) downstream from County Road Bridge at Capetown, excluding tributaries.	Fourth Saturday in May through Mar. 31. Only artificial lures with barbless hooks may be used.	1 hatchery trout or 1 hatchery steelhead**
(18.5) Bear river and tributaries (Placer Co.)		
(A) Bear River from Highway 20 south (downstream) 2.5 miles to the abandoned concrete dam (the Boardman Diversion Dam).	Last Saturday in Apr. through Nov. 15. Maximum size limit: 14 inches total length.	5 per day 10 in possession
(B) Bear River and tributaries from Highway 65 to the South Sutter Irrigation District Diversion Dam.	Fourth Saturday in May through Oct. 14.	0 trout 0 salmon

Body of Water	*Open Season and Special Regulations*	*Daily Bag and Possession Limit*
(19) Berryessa Lake tributaries (Lake and Napa Cos.).	Last Saturday in Apr. through Nov. 15	5
(19.5) Big Bear Lake tributaries (San Bernardino Co.)	Saturday preceding Memorial Day through Feb. 28	5 per day 10 in possession
(20) Big Chico Creek (Butte Co.).		
(A) From mouth to Bear Hole, located approximately one mile downstream from the upper end of Bidwell Park	June 16 through Oct. 15. Oct. 16 through Feb. 15. Only artificial lures with barbless hooks may be used.	0 0
(B) From Bear Hole to the upper boundary of the Big Chico Creek Ecological Reserve	Nov. 1 through April 30. Only artificial lures with barbless hooks may be used.	0
(C) From the upper boundary of the Big Chico Creek Ecological Reserve to Higgins Hole Falls, located about one–half mile upstream from Ponderosa Way.	Closed to all fishing all year.	0
(21) Big Lagoon (Humboldt Co.). For purposes of this regulation, the boundary between Big Lagoon and Maple Creek is the first private road bridge, located approximately 1/2 mile southeast of the Highway 101 bridge crossing.	All year. Only barbless hooks may be used. Cutthroat trout minimum size limit: 10 inches.	2 cutthroat trout. No other salmonids shall be taken.
(22) Big River (Mendocino Co.). Also see Section 8.00(b).		
Main stem below the confluence of Two Log Creek.	Fourth Saturday in May through Oct. 31. Only artificial lures with barbless hooks may be used.	0
	Nov. 1 through Mar. 31. Only barbless hooks may be used.	1 hatchery trout or 1 hatchery steelhead**
(23) Big Sur River (Monterey Co.). Also see Section 8.00(c).		
(A) Big Sur river and tributaries above the upstream end of the gorge pool at the boundary of Pfeiffer Big Sur State Park with the Ventana Wilderness Area.	Fourth Saturday in May through Oct. 31. Only artificial lures with barbless hooks may be used.	0
(B) Big Sur river within Pfeiffer Big Sur State Park, east of the Highway 1 bridge, to its boundary with the Ventana Wilderness Area.	Closed to fishing all year.	
(23.5) Big Tree Creek (Calaveras Co.) Within Calaveras Big Trees State Park (upstream of the Highway 4 culvert crossing).	Closed to all fishing all year.	
(24) Big Trees Creek (Tuolumne Co.) upstream from the confluence of Beaver Creek.	Closed to all fishing all year	
(25) Black Butte River and tributaries (Glenn Co.) except Cold Creek.	Closed to all fishing all year	
(25.5) Boggy Creek (Fresno Co.) and tributaries (tributary to Thomas Edison Lake).	June 1 through October 15.	5 per day 10 in possession
(26) Bogus Creek (Siskiyou Co.).	See Klamath River 7.50(b)(91.1).	
(26.5) Bridgeport Reservoir Tributaries (Mono Co.). All Bridgeport Reservoir tributaries except Swauger Creek, from Bridgeport Reservoir upstream to Highway 395, and Swauger Creek, from Bridgeport Reservoir upstream to the private property fence line above the Forest Service campground.	Last Saturday in April through the Friday preceding Memorial Day and Oct. 1 through Nov. 15. Minimum size limit: 18 inches total length. Only artifical lures with barbless hooks may be used.	1
	Saturday preceding Memorial Day through Sep. 30.	5 per day 10 in possession
(27) Brush Creek (Mendocino Co.). Also see Section 8.00(c).		
Main stem below the Lawson bridge.	Fourth Saturday in May through Oct. 31. Only artificial lures with barbless hooks may be used.	0
	Nov. 1 through Mar. 31. Only barbless hooks may be used.	1 hatchery trout or 1 hatchery steelhead**
(28) Bucks Lake tributaries (Plumas Co.).	Saturday preceding Memorial Day through Sept. 30.	5 per day 10 in possession
(28.5) Burney Creek (Shasta Co.). Burney Creek from Burney Creek Falls downstream to Lake Britton.	Last Saturday in April through Nov. 15. Maximum size limit: 14 inches. Only artificial lures with barbless hooks may be used.	2 trout
(29) Butano Creek (San Mateo Co.).		
(A) Above Butano Falls.	Last Saturday in Apr. through Nov. 15.	5 trout
(B) From mouth to country bridge on Pescadero-Bean Hollow Road.	Dec. 1 through Mar. 7, but only on Sat., Sun.,Wed., legal holidays and opening and closing days. Only barbless hooks may be used.	0
(30) Butt Creek and Butt Valley Reservoir Powerhouse Outfall (Plumas Co.).		
(A) Butt Creek.	Saturday preceding Memorial Day through Nov. 15.	5 per day 10 in possession
(B) Butt Valley Reservoir powerhouse outfall, from the powerhouse, downstream to a marker adjacent to Ponderosa Flat Campground.	Saturday preceding Memorial Day through Feb. 28.	2
(31) Butt Valley Reservoir (Plumas Co.).	All year	2
(32) Butte Creek (Butte and Sutter Cos.).		
(A) Butte Creek (Butte Co.) from Oro–Chico Road bridge crossing south of Chico to the Centerville Head Dam, located 300 yards downstream from the DeSabla Powerhouse below DeSabla Reservoir.	November 15 through February 15. Only artificial lures with barbless hooks may be used.	0 trout 0 salmon

Fourth Saturday in May through Mar. 31. Only artificial lures with barbless hooks may be used.	1 hatchery trout or 1 hatchery steelhead**
(35.5) Calleguas Creek and tributaries (Ventura Co.).	All year.	5
(35.7) Caribou Reservoir (Plumas County)	Last Saturday in Apr. through Nov. 15	2
(36) Carmel River and tributaries above Los Padres Dam (Monterey Co.).	Last Saturday in Apr. through Nov. 15. No rainbow trout less than 10 inches or greater than 16 inches total length may be kept. Only artificial lures with barbless hooks may be used.	5, trout, no more than 2 of which may be rainbow trout.
(37) Carmel River below Los Padres Dam. (Monterey Co.)		
(A) Carmel River tributaries below Los Padres Dam and main stem from Los Padres Dam to the bridge at Robles Del Rio/Esquiline roads (Rosie's Bridge).	Closed to all fishing all year.	

Body of Water	Open Season and Special Regulations	Daily Bag and Possession Limit
(B) Carmel River main stem below the bridge at Robles Del Rio/Esquiline roads (Rosie's Bridge). Also, see Section 8.00(c).	Dec. 1 through Mar. 7, but only on Sat., Sun., Wed., legal holidays and opening and closing days. Only artificial lures with barbless hooks may be used.	0
(38) Carson River, East Fork and tributaries (Alpine Co.).		
(A) Carson River, East Fork and tributaries above Carson Falls.	Closed to all fishing all year	
(B) Carson River, East Fork from Hangman's Bridge downstream to Nevada State Line.	All year. Only artificial lures with barbless hooks may be used.	0
(39) Cassel Forebay (Hat Creek) (Shasta Co.)	See Hat Creek #1 7.50(b)(75).	
(39.3) Castle Creek (Shasta Co.)	Last Saturday in Apr. through Nov. 15. Only artificial lures with barbless hooks may be used.	0
(39.5) Ceder Creek and tributaries upstream from Moon Lake access road (Lassen Co.).	Closed to all fishing all year	
(40) Chorro Creek (San Luis Obispo Co.) from the point that Chorro Creek enters Midway Marina in Morro Bay upstream to the twin bridges on South Bay Boulevard.	Dec. 1 through Mar. 7, but only on Sat., Sun.,Wed., legal holidays and opening and closing days. Only barbless hooks may be used.	0
(41) Chowchilla River (Madera and Mariposa Cos.) from Eastman Lake upstream to West and East Forks and the West Fork Chowchilla River from its mouth upstream to the Highway 49 bridge.	Closed to all fishing all year	
(42) Clear Lake tributaries (Lake Co.).	Last Saturday in Apr. through Nov. 15	5
(42.3) Codornices Creek (Alameda Co.).	Closed to all fishing all year	
(42.5) Cold Creek (Fresno Co.) and tributaries (tributary to Thomas Edison Lake).	June 1 through October 15.	5 per day 10 in possession
(43) Convict Creek (Mono Co.).		
(A) Convict Creek, including side channels and meanders, in the U.C. study area as posted. This area begins about 1/2 mile above the Highway 395 bridge and extends upstream about 1/2 mile.	Closed to all fishing all year.	
(B) Convict Creek downstream of the U.C. study area.	Last Saturday in April through the Friday preceding Memorial Day and Oct. 1 through Nov. 15. Minimum size limit: 18 inches total length. Only artificial lures with barbless hooks may be used.	2
	Saturday preceding Memorial Day through Sept. 30.	5 per day 10 in possession.
(C) Convict Creek upstream of the U.C. study area.	Last Saturday in April through Nov. 15.	5 per day 10 in possession.
(43.5) Coon Creek and tributaries (Placer Co.) east of Highway 65.	Fourth Saturday in May through Oct. 14.	0 trout 0 salmon
(43.6) Coon Creek (San Luis Obispo Co.)	Closed to fishing all year.	
(44) Corral Valley Creek and tributaries (Alpine Co.).	Closed to all fishing all year	
(45) Corralitos Creek (Santa Cruz Co.) from mouth to Browns Valley Road. Also see Section 8.00(a).	Dec. 1 through Mar. 7, but only on Sat., Sun., Wed., legal holidays and opening and closing days. Only barbless hooks may be used.	0
(46) Cosumnes River (Sacramento Co.) from Highway 99 bridge upstream to the Latrobe vehicle bridge.	Jan. 1 through Oct. 15. Only barbless hooks may be used.	0
(47) Cottoneva Creek (Mendocino Co.). Also see Section 8.00(b).		
Main stem below the confluence of South Fork Cottoneva Creek.	Fourth Saturday in May through Oct. 31. Only artificial lures with barbless hooks may be used.	0
	Nov. 1 through Mar. 31. Only barbless hooks may be used.	1 hatchery trout or 1 hatchery steelhead**
(48) Cottonwood Creek (Inyo Co.).		
(A) Cottonwood Creek main stem between mouth of Little Cottonwood Creek and South Fork of Cottonwood Creek.	July 1 through Nov. 15. Only artificial lures with barbless hooks may be used	0
(B) Cottonwood Creek (1) and tributaries upstream from the confluence of South Fork, (2) Little Cottonwood Creek and tributaries, (3) the South Fork of Cottonwood Creek and tributaries, and (4) the unnamed tributary flowing through Horseshoe Meadow.	July 1 through Nov. 15. Only artificial lures with barbless hooks may be used	5
(49) Cottonwood Creek drainage lakes (Inyo Co.).		
(A) Cottonwood Lakes 1, 2, 3 and 4 and their tributaries (Inyo Co.).	July 1 through Nov. 15. Only artificial lures with barbless hooks may be used.	0
(B) All remaining Cottonwood Creek drainage lakes.	July 1 through Nov. 15. Only artificial lures with barbless hooks may be used	5
(49.5) Cottonwood Creek and tributaries (Modoc Co.).	Saturday preceding Memorial Day through Nov. 15. Only artificial lures with barbless hooks may be used.	0
(50) Cottonwood Creek, North Fork and tributaries (White Mountains, Mono Co.).	Closed to all fishing all year	
(50.5) Cow Creek and tributaries upstream from Forest Service road 9S10 (Fresno Co.).	Closed to all fishing all year	
(50.8) Coyote Creek (Santa Clara Co.) Also see Section 8.00(c).	Last Saturday in April through November 15. Only artificial lures and barbless hooks may be used.	0
(51) Coyote Valley Creek and tributaries (Alpine Co.).	Closed to all fishing all year	
(52) Crooked Creek (Mono Co.).		
(A) Crooked Creek below the City of Los Angeles gauging station.	Closed to all fishing all year.	
(B) Crooked Creek and tributaries above the Los Angeles gauging station.	Last Saturday in April through Nov. 15. Only artificial lures with barbless hooks may be used.	0
(53) Crowley Lake (Mono Co.). (See individual listings for regulations on tributary waters which include: Convict, Crooked, Hilton, Hot, McGee, and Whiskey creeks and the upper Owens River).		
(A) Crowley Lake within 1,800 feet of the outlet dam (this area is marked with a series of buoys).	Closed to all fishing all year for safety purposes.	
(B) Crowley Lake, except for the closed area near the outlet dam (see above).	Last Saturday in Apr. through July 31.	5 per day 10 in possession
	Aug. 1 through Nov. 15. Minimum size limit:18 inches total length. Only artificial lures with barbless hooks may be used.	2

Body of Water	*Open Season and Special Regulations*	*Daily Bag and Possession Limit*
(53.5) Davis Creek and tributaries (Modoc Co.).	Saturday preceding Memorial Day through November 15. Only artificial lures with barbless hooks may be used.	5 brown trout per day. 10 in possession No other species may be taken or possessed.
(53.8) Davis Lake (Plumas Co.)	All Year	5 per day, 10 in possession
	EXCEPTION: Effective May 10 through Sept. 15, 2007.	10 per day, 10 in possession
(54) Davis Lake tributaries (Plumas Co.).	Saturday preceding Memorial Day through Nov. 15.	5 per day 10 in possession
(54.5) Deadman Creek (Mono Co.).		
(A) Deadman Creek downstream from Hwy. 395. See Owens River 7.50(b)(134).	Last Saturday in April through Nov. 15. Maximum size limit: 16 inches total length. Only artificial lures with barbless hooks may be used.	2
	Nov. 16 through the Friday preceding the last Saturday in Apr. Only artificial lures with barbless hooks may be used.	0
(B) Deadman Creek upstream from Hwy. 395.	Last Saturday in April through Nov. 15.	5 per day 10 in possession.
(55) Deep Creek (San Bernardino Co.) from headwaters at Little Green Valley to confluence of Willow Creek	All year. Only artificial lures with barbless hooks may be used	2
(56) Deer Creek (Tehama Co.).		
(A) From 250 feet below Upper Deer Creek Falls and fishway (located 1.5 miles upstream from Potato Patch Campground) downstream 31 miles to U.S. Geological Survey gauging station cable crossing at mouth of Deer Creek Canyon (see Section 2.35 for closure at Upper Deer Creek Falls).	Last Saturday in April through Nov. 15. Only artificial lures with barbless hooks may be used.	0
(B) From U.S. Geological Survey gauging station cable crossing at mouth of Deer Creek Canyon downstream to mouth of Deer Creek.	June 16 through Sept. 30.	0
(57) Deer Creek (Yuba and Nevada Cos.) from mouth to Smartville-Englebright Dam road crossing.	Fourth Saturday in May through Oct. 15. Only artificial lures with barbless hooks may be used.	0
(58) Diaz Lake (Inyo Co.).	First Saturday in Mar. through Nov. 15.	5 per day 10 in possession
	Nov. 16 through the Friday preceding the first Saturday in Mar.	5
(59) [Reserved]		
(59.5) Dry Creek and tributaries (Placer Co.) east of the Atkinson Street Bridge in Roseville.	Fourth Saturday in May through Oct. 14.	0 trout 0 salmon
(60) Dry Creek (Yuba and Nevada Co.) from mouth to Sid Smith Dam about one mile above junction of Scott Forbes and Peoria roads.	Fourth Saturday in May through Oct. 15.	0
(61) Eagle Lake and tributaries (Lassen Co.).		
(A) Eagle Lake.	Saturday preceding Memorial Day through Dec. 31.	2 per day 4 in possession.
(B) Eagle Lake inside the breakwater at the Gallatin Marina and Pine Creek Slough and Pine Creek below State Highway 44.	Closed to all fishing all year	
(C) Eagle Lake tributaries, including Pine Creek above State Hwy. 44.	Saturday preceding Memorial Day through Nov. 15.	5 per day 10 in possession
(61.5) Earl Lake/Talawa (Del Norte Co.).	All year. Only barbless hooks may be used. Cutthroat trout minimum size limit: 10 inches.	2 cutthroat trout. No other salmonids shall be taken.
(62) Eastman Lake (Madera and Mariposa Cos.).	Also see Section 5.00 (Black Bass).	
(A) From the United States Corps of Engineers' buoy line near the Codorniz boat ramp downstream to the dam.	All year.	5
(B) From the United States Corps of Engineers' buoy line upstream.	Closed to all fishing all year	
(63) Eel River (Humboldt, Lake, Mendocino and Trinity cos.). Also see Section 8.00(a).		
ALL WATERS OF THE EEL RIVER DRAINAGE EXCEPT THOSE LISTED BELOW ARE CLOSED TO ALL FISHING.		
(A) Main stem.		
1. From mouth to Fulmor Road, at its paved junction with the south bank of the Eel River.	Fourth Saturday in May through Mar. 31. Only barbless hooks may be used. April 1 through the Friday preceding the last Saturday in May. Only artificial lures with barbless hooks may be used.	0
2. From Fulmor Road, near east end of Cock Robin Island to South Fork Eel River.	Apr. 1 through Sept. 30. Only artificial lures with barbless hooks may be used.	0
	Oct. 1 through Mar. 31. Only barbless hooks may be used.	0
3. From South Fork Eel River to Cape Horn Dam.	Jan. 1 through Mar. 31 and Fourth Saturday in May through Sept. 30. At all times, only artificial lures with barbless hooks may be used. Closed to all fishing Apr. 1 through the Friday preceding the fourth Saturday in May and Oct. 1 through Dec. 31.	0
(B) Van Duzen River.		
1. Main stem and tributaries above Eaton Falls, located about 1/2 mile upstream of the mouth of the South Fork (Little Van Duzen) and 2 1/2 miles west of Dinsmore.	Last Saturday in Apr. through Nov. 15.	5
2. Main stem from its junction with the Eel River to the Highway 36 bridge near Bridgeville.	Fourth Saturday in May through Sept. 30. Only artificial lures with barbless hooks may be used.	0
	Oct. 1 through Mar. 31. Only barbless hooks may be used.	0
(C) South Fork Eel River from mouth to Rattlesnake Creek.	Fourth Saturday in May through Sept. 30. Only artificial lures with barbless hooks may be used.	0
	Oct. 1 through Mar. 31. Only barbless hooks may be used.	0
(D) Middle Fork Eel River.		
1. Middle Fork main stem from mouth to Bar Creek.	Jan. 1 through May 31 and July 16 through Sept. 30. At all times, only artificial lures with barbless hooks may be used. Closed to all fishing Jun. 1 through July 15 and Oct. 1 through Dec. 31.	0
2. Middle Fork tributaries above Indian Dick/Eel River Ranger Station Road	Last Saturday in Apr. through Nov.15. Maximum size limit:14 inches total length.	5

Body of Water	Open Season and Special Regulations	Daily Bag and Possession Limit
3. Middle Fork and tributaries above mouth of Uhl Creek.	Last Saturday in Apr. through Nov. 15. Maximum size limit:14 inches total length. Only artificial lures with barbless hooks may be used.	2
4. Balm of Gilead Creek and tributaries above falls 1 1/4 miles from mouth.	Last Saturday in Apr. through Nov. 15. Maximum size limit: 14 inches total length. Only artificial lures with barbless hooks may be used.	2
5. North Fork of Middle Fork and tributaries above mouth of Willow Creek.	Last Saturday in Apr. through Nov. 15. Maximum size limit: 14 inches total length. Only artificial lures with barbless hooks may be used.	2
(64) El Estero Lake (Monterey Co.) portions of the lake south of the Pearl Street bridge known as Camino Aquajito Arm and Camino El Estero finger.	Closed to all fishing all year	
(65) Elk Creek (Mendocino Co.). Also see Section 8.00(c).	All year	2
Main stem below the confluence of South Fork Elk Creek.	Fourth Saturday in May through Oct 31. Only artificial lures with barbless hooks may be used.	0
	Nov. 1 through Mar. 31. Only barbless hooks may be used.	1 hatchery trout or 1 hatchery steelhead**
(66) Elk River (Humboldt Co.) downstream from Highway 101 bridge, excluding tributaries.	Fourth Saturday in May through Oct. 31. Only artificial lures with barbless hooks may be used.	0
	Nov. 1 through Mar. 31. Only barbless hooks may be used.	1 hatchery trout or 1 hatchery steelhead**
(67) Fall River (Shasta Co.).		
(A) Fall River from its origin at Thousand Springs downstream to the mouth of the Tule River and including Spring Creek and excluding all other tributaries.	Last Saturday in Apr. through Nov. 15. Maximum size limit:14 inches total length. Only artificial lures with barbless hooks may be used.	2
(68) Feather River below Oroville Dam (Butte, Sutter and Yuba Cos.).		
(A) Fish Barrier Dam to Table Mountain bicycle bridge in Oroville.	Closed to all fishing all year	
(B) Table Mountain bicycle bridge to Highway 70 bridge.	Jan. 1 through July 15. Only barbless hooks may be used.	1 hatchery trout or 1 hatchery steelhead** 0 salmon
(C) Highway 70 bridge to Sunset Pumps (approx. 5 miles downstream of the town of Live Oak).	Jan. 1 through the last day in Feb.	1 hatchery trout or 1 hatchery steelhead** 0 salmon
	Mar. 1 through July 15	1 hatchery trout or 1 hatchery steelhead** 0 salmon 1 salmon
	July 16 through Sep. 30.	1 hatchery trout or 1 hatchery steelhead** 0 salmon
	Oct. 1 through Dec. 31.	1 hatchery trout or 1 hatchery steelhead** 0 salmon
(D) Sunset Pumps (approx. 5 miles downstream of the town of Live Oak) to Highway 20 bridge.	Mar. 1 through July 15.	1 hatchery trout or 1 hatchery steelhead** 0 salmon
	July 16 through the last day in Feb.	1 hatchery trout or 1 hatchery steelhead** 0 salmon
(E) Highway 20 bridge to Feather River mouth.	Mar. 1 through July 15.	1 hatchery trout or 1 hatchery steelhead** 0 salmon
	July 16 through the last day in Feb.	1 hatchery trout or 1 hatchery steelhead** 0 salmon
(68.1) Feather River, Middle Fork (Plumas Co.), from the Union Pacific Railroad Bridge (1/4 mile upstream of County A–23 bridge) to the Mohawk Bridge.	First Saturday in April through Nov. 15.	5 per day 10 in possession
(68.2) Feather River North Fork from Belden Bridge downstream to Cresta Powerhouse (excluding reservoirs) (Plumas Co.).	Last Saturday in Apr. through Nov. 15. Only artificial lures with barbless hooks may be used.	0
(68.3) Fish Slough (Mono Co.).		
(A) The portions of Fish Slough which lie within the Owens Valley Native Fishes Sanctuary and BLM Spring.	Closed to all fishing all year.	
(B) All other portions of Fish Slough. Also, see Section 5.00(b)(16) for black bass regulations.	Last Saturday in Apr. through Nov. 15.	5
	Nov. 16 through the Friday preceding the last Saturday in Apr.	0
(69) Freshwater Creek (Humboldt Co.) downstream from bridge at "3 Corners" on the Old Arcata Road, excluding tributaries.	Fourth Saturday in May through Oct. 31. Only artificial lures with barbless hooks may be used.	0
	Nov. 1 through Mar. 31. Only barbless hooks may be used.	1 hatchery trout or 1 hatchery steelhead**
(69.5) Freshwater Lagoon (Humboldt Co.).	All year.	5 per day 10 in possession.
(70) Garcia River (Mendocino Co.). Also see Section 8.00(b).		
Main stem below the Eureka Hill Road bridge.	Fourth Saturday in May through Oct. 31. Only artificial lures with barbless hooks may be used.	0
	Nov. 1 through Mar. 31. Only barbless hooks may be used.	1 hatchery trout or 1 hatchery steelhead**
(71) Golden Trout Wilderness Area (Tulare Co.), excluding the main stem Kern River (see subsection 7.50(b)(86), and the Tule River drainage (See subsection 7.50(b)(197)).	Last Saturday in Apr. through Nov. 15. Only artificial lures with barbless hooks may be used.	5
(71.5) Grass Valley Creek Reservoir (Trinity Co.)	All year. Only artificial lures with barbless hooks may be used.	2 trout.
(72) Greenwood Creek (Mendocino Co.). Also see Section 8.00(b).		
Main stem below the log bridge about 1 1/2 miles east of Highway 1.	Fourth Saturday in May through Oct. 31. Only artificial lures with barbless hooks may be used.	0
	Nov. 1 through Mar. 31. Only barbless hooks may be used.	1 hatchery trout or 1 hatchery steelhead**

Body of Water	*Open Season and Special Regulations*	*Daily Bag and Possession Limit*
(72.5) Guadalupe River below Guadalupe Reservoir (Santa Clara Co.) including Los Gatos Ck. Below Vasona Lake, and Alamitos Ck. and Arroyo Calero below Calero Reservoir.	Last Saturday in April through November 15. Only artificial lures and barbless hooks may be used.	0 trout 0 steelhead 0 salmon (See Article 4. Species Regulations for bag limits for other fish).
(73) Gualala River (Mendocino and Sonoma Cos.). Also see Section 8.00(b).		
Main stem below the confluence of Wheatfield and South Forks.	Fourth Saturday in May through Oct. 31. Only artificial lures with barbless hooks may be used.	0
	Nov. 1 through Mar. 31. Only barbless hooks may be used. Fishing from a flotation device is prohibited from Nov. 15 through Feb. 28 from the confluence of the North Fork to the Highway 1 bridge.	1 hatchery trout or 1 hatchery steelhead**
(74) Hat Creek (Shasta Co.) from Lake Britton upstream to Baum Lake, exclusive of the concrete Hat No. 2 intake canal between Baum Lake and the Hat No. 2 Powerhouse.	Last Saturday in Apr. through Nov.15. Minimum size limit:18 inches total length. Only artificial lures with barbless hooks may be used. Aquatic invertebrates of the orders Plecoptera (stoneflies), Ephemeroptera (mayflies) and Trichoptera (caddisflies) may not be taken or possessed	2
(75) Hat Creek No.1 and Cassel Forebays (Shasta Co.). Those portions of Hat Creek known as No. 1 Forebay and Cassel Forebay.	Last Saturday in Apr. through Nov. 15	5 per day 10 in possession
(76) Heenan Lake and tributaries (Alpine Co.).		
(A) Heenan Lake.	Only on Fridays, Saturdays, and Sundays from the Friday before Labor Day through the last Sunday in October. Fishing hours: Only from sunrise to sunset. Only artificial lures with barbless hooks may be used.	0
(B) Heenan Lake tributaries.	Closed to all fishing all year.	
(77) Hennessey Lake tributaries (Napa Co.).	Last Saturday in Apr. through Nov. 15	5
(77.3) Hilton Creek (Mono Co.).		
(A) Hilton Creek downstream from Crowley Lake Drive.	Last Saturday in April through the Friday preceding Memorial Day and Oct. 1 through Nov. 15. Minimum size limit: 18 inches total length. Only artificial lures with barbless hooks may be used.	2
	Saturday preceding Memorial. Day through Sept. 30.	5 per day 10 in possession.
(B) Hilton Creek upstream from Crowley Lake Drive.	Last Saturday in April through Nov. 15.	5 per day 10 in possession.
(77.5) Hobart Creek (Tuolumne Co.), tributary to Spicer Meadows Reservoir.	July 1 through Nov. 15.	5 per day, 10 in possession
(78) Hot Creek (Mono Co.). Hot Creek from the State hatchery property line to the confluence with the Owens River.	All year. Only artificial flies with barbless hooks may be used.	0

(A) Independence Lake tributaries and Independence Lake within 300 feet of the mouths of all tributaries.	Closed to all fishing all year	
(B) Independence Lake except Independence Lake within 300 feet of the mouths of all tributaries.	All year Only artificial lures with barbless hooks may be used	5 per day 10 in possession
(81) Indian Tom Lake (Siskiyou Co.).	All year	2
(82) Inyo County, Southwestern Portion, in all waters bounded by the Inyo County line on the south and west, Independence Creek on the north, and Highway 395 on the east (also see Cottonwood Creek Restrictions.)	First Sat. in March through Nov. 15.	5 per day 10 in possession
(83) Islay Creek (San Luis Obispo Co.).	Closed to all fishing all year	
(84) Junction Lake and tributaries (Mon Co.) including the lake's outlet stream to Highway 108.	Closed to all fishing all year	
(84.5) Kaweah River and tributaries (Tulare Co.).	All year.	5 per day 10 in possession
(85) Kent Lake tributaries (Marin Co.).	Last Saturday in Apr. through Nov. 15	5
(86) Kern River (Kern and Tulare Cos.).		
(A) From Lake Isabella to the Johnsondale bridge.	All year.	5 per day 10 in possession
(B) From Johnsondale bridge upstream to the point where U.S. Forest Service Trail 33E30 heads east to joint the Rincon Trail.	Last Saturday in Apr. through Nov. 15. Minimum size limit:14 inches total length. Only artificial lures with barbless hooks may be used.	2
	Nov. 16 through the Friday preceding the last Saturday in Apr. Only artificial lures with barbless hooks may be used.	0
(C) From the point where U.S. Forest Service Trail 33E30 heads east to join the Rincon Trail upstream to the mouth of Tyndall Creek.	Last Saturday in Apr. through Nov. 15. Maximum size limit: 10 inches total length for rainbow trout only. Only artificial lures with barbless hooks may be used.	2
(87) Kings River (Fresno Co.).		
(A) Kings River, South Fork from its confluence with Copper Creek downstream to the Highway 180 crossing at Boyden Cave.	All year.	2
(B) Kings River South Fork, from the Highway 180 crossing at Boyden Cave downstream to the main stem; Middle Fork, from the western boundary of Kings Canyon National Park downstream to the main stem; and main stem, from the confluence of the South and Middle forks downstream to Garnet Dike Campground.	All year. Only artificial lures with barbless hooks may be used.	0
(C) Kings River, from Garnet Dike Campbround downstream to Pine Flat Lake.	All year.	2
(D) Kings River from Pine Flat Dam downstream to U. S. Army Corps of Engineers Bridge on Pine Flat Road.	Last Saturday in Apr. through Nov. 15.	5
(E) Kings River Thorburn Spawning Channel, the 2,200 foot long channel located 5 miles downstream from Pine Flat Dam, and the reach of river within a 200–foot radius of the channel exit.	Closed to all fishing all year.	

Body of Water	Open Season and Special Regulations	Daily Bag and Possession Limit
(F) Kings River, from Cobbles (Alta) Weir downstream to the Highway 180 crossing.	All year. Only artificial lures with barbless hooks may be used.	0
(88) Reserved		
(B) Kings River from Garnet Dike Campground upstream to confluence of South and Middle Forks, South Fork upstream to the highway crossing at Boyden Cave and Middle Fork upstream to the western boundary of Kings Canyon National Park.	All year Only artificial lures with barbless hooks may be used	0
(89) Kirman (Carmen) Lake (Mono Co.).	Last Saturday in Apr. through Nov. 15. Minimum size limit: 16 inches total length. Only artificial lures with barbless hooks may be use	2
(90) Kirman (Carmen) Lake tributaries (Mono Co.).	Closed to all fishing all year	
(91) Klamath River Regulations (See Section 1.74 for salmon punch card requirements.		
(A) Klamath River main stem and all tributaries above Iron Gate Dam, except Shovel Creek and tributaries. The Klamath River main stem within 250 feet of the mouth of Shovel Creek is closed to all fishing November 16 through June 15.	Last Saturday in Apr. through Nov. 15	5 per day 10 in possession
(B) Shovel Creek and tributaries above mouth of Panther Creek.	Last Saturday in Apr. through Nov. 15.	5
(C) Shovel Creek and tributaries up to and including Panther Creek.	Closed to all fishing all year	

(91.1) Anadromous Waters of the Klamath River Below Iron Gate Dam (Lower Klamath River Basin). The regulations in this subsection apply only to waters of the Klamath River system which are accessible to anadromous salmonids. They do not apply to waters of the Klamath River which are inaccessible to anadromous salmon and trout, for example, portions of the Klamath River system upstream from Iron Gate Dam, portions of the Trinity River system above Lewiston Dam, and the Shasta River and tributaries above Dwinnel Dam. Fishing in these waters is governed by the General Regulations for non-anadromous waters of the North Coast District (see Section 7.00(a)(5)).

(A) Hook and Weight Restrictions.

1. Only barbless hooks may be used.

2. Definitions of Gap: For the purposes of this section, "gap" means the distance measured from the point of a hook to the shank.

3. Maximum Gaps and Gear Rigging.

a. No person shall use any single hook with a gap greater than 1 inch or any multiple hook with a gap greater than 3/4 inch.

b. It is unlawful to use any hook which is directly or indirectly attached closer than 18 inches to any weight exceeding 1/2 ounce.

c. It is unlawful to use any multiple hook or more than one single hook on non-buoyant lures exceeding one ounce.

d. It is unlawful to use any weight attached directly below a hook.

4. During closures to the take of adult salmon, anglers shall not remove any adult Chinook salmon from the water by any means, such as by dragging the fish on shore or using a net.

(B) General Area Closures.

1. No fishing is allowed within 750 feet of any Department of Fish and Game fish-counting weir.

2. No fishing is allowed from the Ishi Pishi Falls road bridge upstream to and including Ishi Pishi Falls from August 15 through December 31. EXCEPTION: members of the Karuk Indian Tribe listed on the current Karuk Tribal Roll may fish at Ishi Pishi Falls using hand-held dip nets.

3. No fishing is allowed from September 15 through December 31 in the Klamath River within 500 feet of the mouths of the Salmon, the Shasta and the Scott rivers.

(C) Klamath River Basin Possession Limits.

1. Trout Possession Limits.

a. The brown trout possession limit is 10 brown trout.

b. The hatchery trout or hatchery steelhead possession limits are as follows:

(i) Klamath River — 1 hatchery trout or hatchery steelhead.

(ii) Trinity River — 4 hatchery trout or hatchery steelhead.

2. Chinook Salmon Possession Limits.

a. Klamath River from January 1 to August 14 and the Trinity River from January 1 to August 31.

(i) 2 Chinook salmon.

b. Klamath River from August 15 to December 31 and Trinity River from September 1 to December 31.

(i) 9 Chinook salmon. No more than 6 Chinook salmon over 22 inches total length may be retained when the take of salmon over 22 inches total length is allowed.

(D) Klamath River Basin Chinook Salmon Quotas.

The Klamath River fall Chinook salmon take is regulated using quotas. Accounting of the tribal and non-tribal harvest is closely coordinated from August 15 through December 31 each year. These quota areas are noted in subsection (b)(91.1)(E) with "Fall Run Quota" in the *Open Season and Special Regulations* column.

1. Quota for Entire Basin.

The 2008 Klamath River Basin quota is 22,500 Klamath River fall Chinook salmon over 22 inches total length. The department shall inform the commission, and the public via the news media, prior to any implementation of restrictions triggered by the quotas. (NOTE: A Department status report on progress toward the quotas for the various river sections is updated weekly, and available at 1-800-564-6479.)

2. Sub Quota Percentages.

a. The sub quota for the Klamath River upstream of the Highway 96 Bridge at Weitchpec and the Trinity River is 50% of the total Klamath River Basin quota.

(i) The sub quota for the Klamath River from 3,500 feet downstream of the Iron Gate Dam to the Highway 96 Bridge at Weitchpec is 17% of the total Klamath River Basin quota.

(ii) The sub quota for the Trinity River main stem from the Old Lewiston Bridge to Cedar Flat is 16.5% of the total Klamath River Basin quota

(iii) The sub quota for the Trinity River main stem from Hawkins Bar to the confluence with the Klamath River is 16.5% of the total Klamath River Basin quota

b. The sub quota for the Klamath River downstream of the Highway 96 bridge at Weitchpec is 50% of the total Klamath River Basin quota.

(i) The sub quota for the Spit Area (within 100 yards of the channel through the sand spit formed at the Klamath River mouth) is 15% of the total Klamath River Basin quota taken downstream of the Highway 101 bridge. (Note: This provision only applies if the department projects that the total Klamath River Basin quota will be met.)

(E) Klamath River Basin Open Seasons and Bag Limits.

All anadromous waters of the Klamath River Basin are closed to all fishing for all year except those areas listed in the following table. Bag limits are for trout and Chinook salmon in combination unless otherwise specified.

Body of Water	Open Season and Special Regulations	Daily Bag Limit
1. Bogus Creek and tributaries.	Fourth Saturday in May through August 31. Only artificial lures with barbless hooks may be used.	0
2. Klamath River main stem from 3,500 feet downstream of Iron Gate Dam to mouth.		
a. Klamath River from 3,500 feet downstream of the Iron Gate Dam to the Highway 96 bridge at Weitchpec.	January 1 to August 14.	0 Chinook salmon 1 hatchery trout or hatchery steelhead**
	Fall Run Quota August 15 to December 31, 2008.	3 Chinook salmon — only 2 fish over 22 inches total length until sub quota is met, then 0 fish over 22 inches total length.
	Fall Run Quota Exception: Chinook salmon over 22 inches total length may be retained from 3,500 feet downstream of Iron Gate Dam to the Interstate 5 bridge when the department determines that the adult fall-run Chinook salmon spawning escapement at Iron Gate Hatchery exceeds 8,000 fish.	
b. Klamath River downstream of the Highway 96 bridge at Weitchpec.	January 1 to August 14.	2 Chinook salmon 1 hatchery trout or hatchery steelhead**

Body of Water	*Open Season and Special Regulations*	*Daily Bag Limit*
	Fall Run Quota August 15 to December 31, 2008.	3 Chinook salmon — only 2 fish over 22 inches total length until sub quota is met, then 0 fish over 22 inches total length. 1 hatchery trout or hatchery steelhead**
	Fall Run Quota Exception: Spit Area (within 100 yards of the channel through the sand spit formed at the Klamath River mouth). This area will be closed to all fishing after the sub quota has been met.	
3. Salmon River main stem, main stem of North Fork downstream of Sawyer's Bar Bridge, and main stem of South Fork downstream of the confluence of the East Fork of the South Fork.	November 1 through February 28.	0
4. Scott River main stem downstream from Fort Jones–Greenview Bridge to the confluence with the Klamath River.	Fourth Saturday in May through February 28.	0
5. Shasta River main stem downstream from the Interstate 5 bridge north of Yreka to the confluence with the Klamath River.	Fourth Saturday in May through August 31 and November 16 through February 28.	0
6. Trinity River and tributaries.		
a. Trinity River main stem downstream from 250 feet below Lewiston Dam to Old Lewiston bridge.	April 1 through August 31. Only artificial flies with barbless hooks may be used.	0
b. Trinity River main stem downstream from Old Lewiston Bridge to the Highway 299 West Bridge at Cedar Flat.	January 1 to August 31.	2 Chinook salmon 5 brown trout 2 hatchery trout or hatchery steelhead**
	Fall Run Quota September 1 through December 31, 2008.	3 Chinook salmon — only 2 fish over 22 inches total length until sub quota is met, then 0 fish over 22 inches total length. 5 brown trout 2 hatchery trout or hatchery steelhead**
	Fall Run Quota Exception: Chinook salmon over 22 inches total length may be retained downstream of the Old Lewiston Bridge to the mouth of Indian Creek when the department determines that the adult fall–run Chinook salmon spawning escapement at Trinity River Hatchery exceeds 4,800 fish.	
c. Canyon Creek above the falls located about four miles above the wilderness area boundary.	Last Saturday in April through November 15.	2
d. Trinity River main stem downstream from the Highway 299 West bridge at Cedar Flat to the Hawkins Bar Bridge (Road to Denny).	January 1 through August 31.	2 Chinook salmon 5 brown trout 2 hatchery trout or hatchery steelhead**
	September 1 through December 31.	Closed to all fishing.
e. New River main stem downstream from the confluence of the East Fork to the confluence with the Trinity River.	September 15 through November 15. Only artificial lures with barbless hooks may be used.	0
f. Trinity River main stem downstream from the Hawkins Bar Bridge (Road to Denny) to the mouth of the South Fork Trinity River.	January 1 to August 31.	2 Chinook salmon 5 brown trout 2 hatchery trout or hatchery steelhead**
	Fall Run Quota September 1 through December 31, 2008.	3 Chinook salmon — only 2 fish over 22 inches total length until sub quota is met, then 0 fish over 22 inches total length. 5 brown trout 2 hatchery trout or hatchery steelhead**
g. Trinity River main stem downstream from the mouth of the South Fork Trinity River to the confluence with the Klamath River.	January 1 to August 31.	0 Chinook salmon 5 brown trout 2 hatchery trout or hatchery steelhead**
	Fall Run Quota September 1 through December 31, 2008.	3 Chinook salmon — only 2 fish over 22 inches total length until sub quota is met, then 0 fish over 22 inches total length. 5 brown trout 2 hatchery trout or hatchery steelhead**
h. Hayfork Creek main stem downstream from Highway 3 bridge in Hayfork to the confluence with the South Fork Trinity River.	November 1 through March 31. Only artificial lures with barbless hooks may be used.	0
i. South Fork Trinity River downstream from South Fork Trinity River Bridge at Hyampom to the confluence with the Trinity River	November 1 through March 31.	0 Chinook salmon 2 hatchery trout or hatchery steelhead**
j. South Fork Trinity River downstream from the mouth of Grouse Creek.	Fourth Saturday in May through Mar. 31.	0 Chinook salmon See subsection (b)(91.1)(C) 2. for trout bag limits.
(92) Klopp Lake (Humboldt Co.).	All year. Only artificial lures with barbless hooks may be used	2
(93) Laguna de Santa Rosa (Sonoma Co. tributary to Russian River) upstream from Guerneville Road bridge.	Last Saturday in Apr. through Nov. 15. Open to fishing for non-salmonids only, no salmon or trout may be taken	0

Body of Water	*Open Season and Special Regulations*	*Daily Bag and Possession Limit*
(95) Lagunitas Creek and tributaries (Marin Co).	Closed to all fishing all year	
(96) Lagunitas Lake (Marin Co.).	All year. Maximum size limit: 14 inches total length. Only artificial lures with barbless hooks may be used	2
(96.5) Lane Lake (Mono Co.).	Last Saturday in Apr. through Nov. 15.	2
(97) Las Gazas Creek and tributaries above Robinson Canyon Road (Monterey Co.).	Fourth Saturday in May through Oct. 31. Only artificial lures with barbless hooks may be used.	0
(98) Lassen Creek and tributaries (Modoc Co.)	Saturday preceding Memorial Day through Nov. 15. Only artificial lures with barbless hooks may be used.	0
(98.5) Laurel Lakes and tributaries (Mono Co.)	Last Saturday in Apr. through Nov. 15. Minimum size limit: 14 inches total length. Only artificial lures with barbless hooks may be used	2
(98.6) Lee Vining Creek from the Lee Vining conduit downstream to Mono Lake (Mono Co.)	Last Saturday in Apr. through Nov. 15.	2
(99) Limekiln Creek and tributaries above Highway 1 (Monterey Co.).	Dec. 1 through Mar. 7, but only on Sat., Sun., Wed., legal holidays and opening and closing days. Only barbless hooks may be used.	0
(100) Little Butano Creek above the diversion dam at Butano State Park (San Mateo Co.).	Last Saturday in Apr. through Nov. 15	5 trout
(101) Little Cottonwood Creek and tributaries (Inyo Co.).	See Cottonwood Creek 7.50(b)(48).	
(102) Little River (Humboldt Co.) downstream from the Country Road bridge at Crannell, excluding tributaries.	Fourth Saturday in May through Oct. 31. Only artificial lures with barbless hooks may be used. Cutthroat trout minimum size limit: 10 inches.	2 cutthroat trout. No other salmonids shall be taken.
	Nov. 1 through Mar. 31. Only barbless hooks may be used. Cutthroat trout minimum size limit: 10 inches.	1 hatchery trout or 1 hatchery steelhead** 2 cutthroat trout
(103) Little Sur River and tributaries above Coast Road (Monterey Co.).	Fourth Saturday in May through Oct. 31. Only artificial lures with barbless hooks may be used.	0
(103.5) Little Truckee River (Sierra and Nevada cos.) from Stampede Reservoir Dam Downstream to Boca Reservoir.	Last Saturday in Apr. through Nov. 15. Maximum size limit: 14 inches total length. Only artificial lures with barbless hooks may be used.	2
	Nov. 16 through the Friday preceding the last Saturday in Apr. Only artificial lures with barbless hooks may be used.	0
(104) Llagas Creek (Santa Clara Co.). Also see Section 8.00(c).		
(A) From mouth to Monterey Highway Bridge.	Dec. 1 through Mar. 7, but only on Sat., Sun., Wed., legal holidays and opening and closing days. Only barbless hooks may be used.	0
(B) From Monterey Highway Bridge to Chesbro Dam.	Closed to all fishing all year	
(104.3) Los Angeles Aqueduct from Owens River to Alabama Gates (Inyo County).	First Saturday in Mar. through Nov. 15.	5 per day 10 in possession
	Nov. 16 through the Friday preceding the first Saturday in Mar.	5
(104.5) Los Osos Creek (San Luis Obispo Co.).	Closed to all fishing all year.	
(105) Los Padres Reservoir (Monterey Co.).	Last Saturday in Apr. through Nov. 15. No rainbow trout less than 10 inches or greater than 16 inches total length may be kept. Only artificial lures with barbless hooks may be used.	5 trout, no more than 2 of which may be rainbow trout.
(106) Macklin Creek (Nevada Co.), arising near Milton-Bowman Tunnel alignment, flowing northwesterly and having its junction with the Middle Fork Yuba River about $2^1/_4$ miles downstream from Milton Reservoir.	Closed to all fishing all year	
(107) Mad River and tributaries (Humboldt Co.).		
(A) Mad River within a radius of 200 yards of its mouth.	Jan. 1 through Mar. 31. Only artificial lures with barbless hooks may be used.	2 hatchery trout or 2 hatchery steelhead.**
(B) Mad River main stem, from 200 yards above its mouth upstream to the confluence with Cowan Creek, excluding tributaries. Also see Section 8.00(a).	Fourth Saturday in May through Mar. 31. Only artificial lures with barbless hooks may be used from the fourth Saturday in May through Oct. 31. Only barbless hooks may be used from Nov. 1 through March 31.	2 hatchery trout or 2 hatchery steelhead.**
(C) Mad River main stem, from the confluence with Cowan Creek to the confluence with Deer Creek, excluding tributaries.	Closed to all fishing all year.	
(D) Mad River main stem from the confluence with Deer Creek to Ruth Dam.	Fourth Saturday in May through Oct. 31. Only artificial lures with barbless hooks may be used.	0
(E) Mad River and tributaries above Ruth Dam.	Last Saturday in May through Nov. 15.	5 per day 10 in possession
(109) Mammoth Pool (Fresno and Madera cos.).	June 16 through Apr. 30.	5 per day 10 in possession
(110) Mammoth Pool tributaries (Fresno and Madera Cos.) from their mouths to a point 300 feet upstream.	June 16 through Nov. 15	5 per day 10 in possession
(111) Martis Creek from the Martis Lake dam downstream to the confluence with the Truckee River (Nevada Co.)	Last Saturday in Apr. through Nov. 15. Minimum size limit: 14 inches total length. Only artificial lures with barbless hooks may be used.	2
(112) Martis Lake and tributaries (Nevada and Placer Cos.)		
(A) Martis Lake.	Last Saturday in Apr. through Nov. 15. Only artificial lures with barbless hooks may be used	0
(B) Martis Lake tributaries.	Closed to all fishing all year	
(113) Mattole River (Humboldt Co.). Also see Section 8.00(a).		
(A) Mattole River main stem from the mouth to 200 yards upstream.	Closed to all fishing all year.	
(B)Mattole River main stem from 200 yards upstream of mouth to confluence with Stansberry Creek.	Jan. 1 through Mar. 31. Only artificial lures with barbless hooks may be used.	0

Body of Water	*Open Season and Special Regulations*	*Daily Bag and Possession Limit*
(C) Mattole River main stem from confluence with Stansberry Creek to confluence with Honeydew Creek.	Jan. 1 through Mar. 31. and Fourth Saturday in May through Aug. 31. Only artificial lures with barbless hooks may be used.	0
(115) McCloud River and tributaries (Shasta and Siskiyou Cos.).		
(A) Moosehead Creek and all tributaries.	Closed to all fishing all year.	
(B) Sheepheaven Creek and all tributaries.	Closed to all fishing all year.	
(C) McCloud River from McCloud Dam downstream to confluence of Ladybug Creek.	Last Saturday in Apr. through Nov. 15. Only artificial lures with barbless hooks may be used.	2
(D) McCloud River from confluence of Ladybug Creek downstream to lower boundary of the U.S. Forest Service loop (southern boundary of section 36, T38N, R3W).	Last Saturday in Apr. through Nov. 15. Only artificial lures with barbless hooks may be used.	0
(E) McCloud River from the lower boundary of the U.S. Forest Service loop (southern boundary of section 36, T38N, R3W) downstream to the upper boundary of the McCloud River Club (southern boundary of section 14, T37N, R3W).	Closed to all fishing all year.	
(115.2) McDonald Creek (Humboldt Co.).	Closed to fishing all year.	
(115.3) McGee Creek (Mono Co.).		
(A) McGee Creek downstream from Highway 395.	Last Saturday in April through Friday preceding Memorial Day and Oct. 1 through Nov. 15. Minimum size limit: 18 inches total length. Only artificial lures with barbless hooks may be used.	2
	Saturday preceding Memorial Day through Sept. 30.	5 per day 10 in possession.
(B) McGee Creek upstream from Highway 395.	Last Saturday in April through Nov. 15.	5 per day 10 in possession
(115.4) McLeod Lake (Mono Co.).	Last Saturday in Apr. through Nov. 15. Only artificial lures with barbless hooks may be used.	0
(115.5) Meiss Lake (Alpine Co.).	Closed to all fishing all year	
(116) Mendocino Lake tributaries (Mendocino Co.).	Last Saturday in Apr. through Nov. 15	5
(117) Merced River (Mariposa Co.).		
(A) From the Happy Isles footbridge downstream to the western boundary of Yosemite National Park at El Portal.	Last Saturday in Apr. through Nov. 15. Only artificial lures with barbless hooks may be used.	0 rainbow trout 5 brown per day 10 brown trout in possession
(B) From the western boundary of Yosemite National Park at El Portal boundary downstream to the Foresta bridge.	All year. Only artificial lures with barbless hooks may be used.	0 rainbow trout 5 brown trout per day 10 brown trout in possession
(C) From Foresta bridge downstream to Lake McClure.	Last Saturday in April through November 15. November 16 through the Friday preceding the last Saturday in April.	5 per day 10 in possession
(118) Merced River (Merced Co.).		
(A) From Crocker–Huffman Dam downstream to the Schaffer bridge on Oakdale Road.	Jan. 1 through Oct. 31. Only artificial lures with barbless hooks may be used.	0 trout 0 salmon
(B) From the Schaffer bridge on Oakdale Road downstream to the mouth.	Jan. 1 through Oct. 31. Bait may be used from Jan. 1 through Oct. 31. However, from April 1 through the Friday preceding the fourth Saturday in May, bait may be used only with single hooks having a gap between 1/2 and 1 inch, or with multiple hooks having a gap between 1/4 and 1/2 inch. Closed to fising all year.	0 trout 0 salmon
(118.2) Milk Ranch Creek and tributaries (Alpine Co.) above the confluence with the North Fork Mokelumne River.		
(118.5) Mill Creek (Mono Co. tributary to West Walker River) and tributaries upstream from confluence with Lost Cannon Creek.	Closed to all fishing all year	
(119) Mill Creek (Tehama Co.).		
(A) From the Lassen National Park boundary downstream to the U.S. Geological Survey gauging station cable crossing at the mouth of Mill Creek Canyon.	Last Saturday in April through Nov. 15. Only artificial lures with barbless hooks may be used.	0
(B) From U.S. Geological Survey gauging station cable crossing at mouth of Mill Creek Canyon downstream to the mouth of Mill Creek.	June 16 through Sept. 30.	0
(120) Milton Lake and middle Fork Yuba River between Milton Lake and Jackson Meadows Dam (Nevada and Sierra cos.).	Last Saturday in Apr. through Nov. 15. Maximum size limit: 12 inches total length. Only artificial lures with barbless hooks may be used	2
(122) Mitchell Creek and tributaries (Contra Costa Co.).	Closed to all fishing all year	
(124) Mokelumne River (San Joaquin Co.).		
(A) From mouth to Peltier Road.	All year.	1 hatchery trout or 1 hatchery steelhead** 0 salmon
(B) From Peltier Road to Camanche Dam including Lodi Lake.	Jan. 1 through Mar. 31.	1 hatchery trout or 1 hatchery steelhead** 0 salmon
	Fourth Saturday in May through Oct. 15.	1 hatchery trout or 1 hatchery steelhead** 0 salmon
(C) Between the Woodbridge vehicle bridge and the Woodbridge Irrigation District Dam.	Closed to all fishing all year	
(125) Mono Creek (Fresno Co.) and tributaries from Edison Lake upstream to the confluence with the North Fork Mono Creek.	June 1 through October 15.	5 per day 10 in possession
(125.5) Moosehead Creek and tributaries (Shasta and Siskiyou cos.).	See McCloud River 7.50(b)(115).	
(126) Murray Canyon Creek and tributaries (Alpine Co.) upstream from the falls located about 1/4 mile above the confluence with the East Fork Carson River.	Closed to all fishing all year	
(128) Nacimiento River (Monterey and San Luis Obispo Cos.) from Nacimiento Reservoir.		

Body of Water	*Open Season and Special Regulations*	*Daily Bag and Possession Limit*
(A) From the headwaters in the Los Padres National Forest, downstream to the southern border of Fort Hunter–Liggett Military Reservation and the main stem below Nacimiento Dam, downstream to its confluence with the Salinas River.	Last Saturday in Apr. through Nov. 15.	5
(B) Nacimiento Lake, and the main stem Nacimiento River upstream to the southern boundary of Fort Hunter–Liggett.	All year.	5
(129) Napa River and tributaries (Napa Co.). Also see Section 8.00(c).		
(A) Main stem above the Oakville Cross Road Bridge near Yountville and all Napa River tributaries.	Closed to all fishing all year.	
(B) Main stem from the Oakville Cross Road Bridge near Yountville to the Trancas Bridge. Note: The Napa River below the Trancas Bridge is tidewater, and is regulated by regulations for the Ocean and San Francisco Bay District (see Sections 1.53 and 27.00).	Fourth Saturday in May through Mar. 31. Only artificial lures with barbless hooks may be used from the fourth Saturday in May through Oct. 31. Only barbless hooks may be used from Nov. 1 through Mar. 31.	1 hatchery trout or 1 hatchery steelhead** 0 salmon
(130) Navarro River and tributaries (Mendocino Co.). Also see Section 8.00(c).		
Main stem below the Greenwood Road bridge.	Fourth Saturday in May through Oct. 31. Only artificial lures with barbless hooks may be used.	0
	Nov. 1 through Mar. 31. Only barbless hooks may be used.	1 hatchery trout or 1 hatchery steelhead**
(130.5) Nelson Corral Reservoir and tributary (Lassen Co.).		
(A) Nelson Corral Reservoir.	All year.	2 trout
(B) Nelson Corral Reservoir tributary (the unnamed tributary entering the reservoir at the north end).	Closed to all fishing all year	
(131) Newlands Lake tributaries (Lassen Co.).	Closed to all fishing all year	
(132) Nicasio Lake tributaries (Marin Co.).	Last Saturday in Apr. through Nov. 15	5
(133) Noyo River and tributaries (Mendocino Co.). Also see Section 8.00(b).		
(A) Noyo River main stem from the mouth to the Georgia-Pacific logging road bridge one mile east of Highway 1.	Fourth Saturday in May through Oct. 31. Only artificial lures with barbless hooks may be used.	0
	Nov. 1 through Mar. 31. Only barbless hooks may be used.	1 hatchery trout or 1 hatchery steelhead**
(B) Noyo River from the Georgia–Pacific logging road bridge one mile east of Highway 1 to the confluence with the South Fork Noyo River.	Fourth Saturday in May through Oct. 1. Only artificial lures with barbless hooks may be used.	0
(C) Noyo River main stem from the confluence with the South Fork Noyo River to the Sonoma/Mendicino Boy Scout Council Camp.	Fourth Saturday in May through Oct. 31. Only artificial lures with barbless hooks may be used.	0
	Nov. 1 through Mar. 31. Only barbless hooks may be used.	1 hatchery trout or 1 hatchery steelhead**
(134) Owens River (Inyo and Mono Cos.), including Pleasant Valley and Tinemaha lakes, except (A), (B), (C), (D) and (E) below.	First Saturday in Mar. through Oct. 31.	5 per day 10 in possession
	Nov. 1 through the Friday preceding the first Saturday in Mar.	5
(A) Upper Owens River from Benton Bridge road crossing upstream to Big Springs. Above Big Springs, see Deadman Creek 7.50(b)(54.5).	Last Saturday in April through Nov. 15. Maximum size limit: 16 inches total length. Only artificial lures with barbless hooks may be used.	2
	Nov. 16 through the Friday preceding the last Saturday in Apr. Only artificial lures with barbless hooks may be used.	0
(B) Upper Owens River from Benton Bridge road crossing downstream to upper Owens River fishing monument.	Saturday preceding Memorial Day through Sep. 30.	5 per day 10 in possession.
(C) Upper Owens River from fishing monument (located about 1/4 mile upstream from maximum lake level) to Crowley Lake.	Last Saturday in April through July 31.	5 per day 10 in possession.
	Aug. 1 through Nov. 15. Minimum size limit: 18 inches total length. Only artificial lures with barbless hooks may be used.	2
(D) From Pleasant Valley Dam downstream to footbridge at lower end of Pleasant Valley Campground.	Jan. 1 through Sept. 30.	2
	Oct. 1 through Dec. 31. Only artificial lures with barbless hooks may be used.	0
(E) From footbridge at lower end of Pleasant Valley Campground east (downstream) 3.3 miles along Chalk Bluffs Road to the redwood sport fishing regulations sign.	All year. Only artificial lures with barbless hooks may be used.	0
(135) Pajaro River (Monterey, Santa Clara, Santa Cruz and San Benito Cos.) from mouth to Uvas Creek. Also see Section 8.00(c).	Dec. 1 through Mar. 7, but only on Sat., Sun., Wed., legal holidays and opening and closing days. Only barbless hooks may be used.	0
(135.5) Parker Creek (Mono Co.). from the Lee Vining Conduit to Rush Creek.	Last Saturday in Apr. though Nov. 15. Only artificial lures with barbless hooks may be used	0
	Closed to all fishing all year	
(135.8) Upper Penitencia Creek (Santa Clara Co.) a tributary to Coyote Ck. Also see Section 8.00(c).		
(136) Pescadero Creek (San Mateo Co.) from mouth to the Stage Road bridge at Pescadero. Also see Section 8.00(c).	Dec. 1 through Mar. 7, but only on Sat., Sun.,Wed., legal holidays and opening and closing days. Only barbless hooks may be used.	0
(137) Pescadero Creek tributaries and main stem above the Stage Road bridge at Pescadero (Santa Clara and San Mateo Cos.).	Closed to all fishing all year.	
(138) Pillsbury Lake tributaries (Lake Co.).	Last Saturday in Apr. 5 through Nov. 15.	5
(139) Pine Creek and Pine Creek Slough (Lassen Co.) See Eagle Lake 7.50(b)(61).		
(A) Pine Creek Slough and Pine Creek below State Highway 44.	Closed to fishing all year.	
(B) Pine Creek above State Highway 44.	Saturday preceding Memorial Day through Nov. 15.	5 per day 10 in possession
(139.5) Pine Creek (Goose Lake Tributary) and tributaries (Modoc Co.).	Saturday preceding Memorial Day through November 15. Only artificial lures with barbless hooks may be used.	5 brown trout per day. 10 in possession. No other species may be taken or possessed.
(139.7) Pinole Creek (Contra Costa Co.) and tributaries.	Closed to all fishing all year	
(140) Piru Creek (Los Angeles and Ventura cos.).		

Body of Water	*Open Season and Special Regulations*	*Daily Bag and Possession Limit*
(A) Piru Creek and tributaries upstream of Pyramid Lake.	All year. Only artificial lures with barbless hooks may be used.	2
(B) From Pyramid Dam downstream to the bridge approximately 300 yards below Pyramid Lake.	Closed to all fishing all year.	
(C) From the bridge approximately 300 yards below Pyramid Lake downstream to the falls about 1/2 mile above the old Highway 99 bridge.	All year. Only artificial lures with barbless hooks may be used.	0
(141) Pit River (Shasta Co.).		
(A) From Pit No. 3 (Britton Dam) downstream to the outlet of the Pit No. 3 Powerhouse.	Last Saturday in Apr. through Nov. 15. Minimum size limit: 18 inches total length. Only artificial lures with barbless hooks may be used.	2
	Nov. 16 through the Friday preceding the last Saturday in Apr. Only artificial lures with barbless hooks may be used.	0
(B) Pit River, from Pit No. 3 Powerhouse downstream to Pit No. 7 dam.	Last Saturday in Apr. through Nov. 15.	5
	Nov. 16 through the Friday preceding the last Saturday in Apr. Only artifical lures with barbless hooks may be used.	0
(C) From Pit No. 7 dam downstream to Shasta Lake.	All year	5
(143) Pole Creek and tributaries (Placer Co.)	Closed to all fishing all year	
(144) Portuguese Creek, West Fork (Madera Co.) from headwaters downstream to confluence with the East Fork Portuguese Creek.	Last Saturday in Apr. through Nov. 15. Only artificial lures with barbless hooks may be used	0
(145) Prosser Creek from the Prosser Reservoir dam downstream to the confluence with the Truckee River (Nevada Co.)	Last Saturday in Apr. through Nov. 15. Minimum size limit: 14 inches total length. Only artificial lures with barbless hooks may be used.	2
(146) Purisima Creek (San Mateo Co.).	Last Saturday in Apr. through Nov. 15	5 trout
(147) Putah Creek (Solano and Yolo Cos.) from Solano Lake to Monticello Dam.	Last Saturday in April through Nov. 16.	5
	Nov. 16 through the Friday preceding the last Saturday in April. Only artificial lures and barbless hooks may be used.	0
(148) Redwood Creek and tributaries (Alameda Co.).	Closed to all fishing all year	
(149) Redwood Creek and tidewaters (Marin Co.)	Closed to all fishing all year	
(150) Redwood Creek (Humboldt Co.). Also see Section 8.00(a).		
(A) Redwood Creek main stem, within a radius of 200 yards of its mouth.	Jan. 1 through Mar. 31. Only artificial lures with barbless hooks may be used.	1 hatchery trout or 1 hatchery steelhead**
(B) Redwood Creek main stem, from 200 yards above the mouth to the mouth of Prairie Creek.	Fourth Saturday in May through Mar. 31. Only barbless hooks may be used.	1 hatchery trout or 1 hatchery steelhead**
(C) Redwood Creek main stem, from the mouth of Prairie Creek to the mouth of Bond Creek.	Fourth Saturday in May through Mar. 31. Only artificial lures with barbless hooks may be used.	1 hatchery trout or 1 hatchery steelhead**
(D) Redwood Creek and tributaries, above the mouth of Bond Creek.	Closed to all fishing all year.

HISTORY

1. New section filed 3–1–90; operative 3–1–90 (Register 90, No. 10).
2. Amendment of subsection (b)(91)(K)7 filed as an emergency; operative 9–19–90 (Register 90, No. 1). A Certificate of Compliance must be transmitted to OAL by 1–17–91 or emergency language will be repealed by operation of law on the following day.
3. New subsection (b)(68.5) filed 11–20–90 as an emergency; operative 11–20–90 (Register 91, No. 1). A Certificate of Compliance must be transmitted to OAL by 3–20–91 or emergency language will be repealed by operation of law on the following day.
4. Amendment of subsections (b)(56)(B), (b)(91)(K)7, (b)(119)(B), (b)(133), (b)(156)(F), (b)(190), (b)(203) and (b)(206) filed 1–17–91; operative 1–17–91 pursuant to Government Code section 11346.2(d) (Register 91, No. 8).
5. Editorial correction reinserting text inadvertently omitted (Register 91, No. 8).
6. Certificate of Compliance including amendment as to 11–20–90 order transmitted to OAL 3–19–91 and filed 4–18–91 (Register 91, No. 20).
7. New subsections (b)(115.5) and (b)(199.5) filed 6–12–91; operative 7–12–91 (Register 91, No. 34).
8. Amendment to subsection (b)(156)(A) and (B) filed 7–24–91 as an emergency; operative 7–24–91 (Register 91, No. 48). A Certificate of Compliance must be transmitted to OAL by 11–21–91 or emergency language will be repealed by operation of law on the following day.
9. Amendment of subsection (b)(91) filed 7–31–91; operative 8–1–91 pursuant to Government Code section 11346.2(d) (Register 91, No. 48).
10. New subsection (b)(118.5) filed 8–27–91 as an emergency; operative 8–27–91 (Register 92, No. 4). A Certificate of Compliance must be transmitted to OAL 12–25–91 or emergency language will be repealed by operation of law on the following day.
11. Amendment of subsection (b)(113) filed 9–17–91 as an emergency; operative 9–17–91 (Register 92, No. 13). A Certificate of Compliance must be transmitted to OAL 1–15–92 or emergency language will be repealed by operation of law on the following day.
12. Amendment of subsection (b)(173) filed 12–18–91 as an emergency; operative 12–18–91 (Register 92, No. 20). A Certificate of Compliance must be transmitted to OAL 4–16–92 or emergency language will be repealed by operation of law on the following day.
13. Amendment of subsection (b)(5) filed 12–19–91 as an emergency; operative 12–19–91 (Register 92, No. 20). A Certificate of Compliance must be transmitted to OAL 4–17–92 or emergency language will be repealed by operation of law on the following day.
14. New subsection (b)(203.5) filed 12–18–91 as an emergency; operative 12–18–91 (Register 92, No. 20). A Certificate of Compliance must be transmitted to OAL 4–16–92 or emergency language will be repealed by operation of law on the following day.
15. Amendment filed 3–12–92; operative 3–12–92 pursuant to Fish and Game Code section 215 (Register 92, No. 20).
16. Amendment of subsection (b)(62) filed 7–14–92; operative 7–14–92 pursuant to Fish and Game Code sections 202 and 215 (Register 92, No. 29).
17. Amendment of subsections (b)(91), (b)(118), (b)(186), and (b)(198) and new subsection (b)(168.5) filed 9–2–92; operative 9–2–92 pursuant to Fish and Game Code sections 202 and 215 (Register 92, No. 36).
18. Repealer of emergency amendments filed 12–18–91 and reinstatement of subsections (b)(173) and (b)(203.5) filed 9–22–92 by operation of Government Code section 11346.1(f) (Register 92, No. 40).
19. Editorial correction of printing error in HISTORY 15 (Register 92, No. 40).
20. Amendment of subsections (b)(98) and (b)(208) filed 10–2–92 as an emergency; operative 10–2–92 (Register 92, No. 40). A Certificate of Compliance must be transmitted to OAL 2–1–93 or emergency language will be repealed by operation of law on the following day.
21. Amendment of subsection (b)(173) and new subsection (b)(203.5) filed 11–23–92; operative 11–23–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 48).
22. Repealer of subsection (b)(94) and amendment of subsections (b)(37) and (b)(95) filed 12–22–92; operative 12–22–92 pursuant to sections 202 and 215, Fish and Game Code (Register 92, No. 52).
23. Repealer of emergency amendment filed 10–2–92 and reinstatement of prior text filed 3–16–93 by operation of Government Code section 11346.1(f) (Register 93, No. 12).
24. Amendment of subsections (b)(98) and (b)(208), and new subsections (b)(49.5), (b)(53.5) and (b)(139.5) filed 5–14–93; operative 5–14–93 (Register 93, No. 20).
25. Amendment of subsection (b)(91.1) filed 9–27–93; operative 9–27–93 pursuant to Fish and Game Code sections 202 and 215 (Register 93, No. 40).
26. Editorial correction of printing error restoring previous changes to subsection (b)(91) (Register 93, No. 43).
27. Editorial correction of printing errors reinstituting amendments referenced in HISTORY 15 (Register 94, No. 10).
28. Amendment filed 3–7–94; operative 3–7–94 pursuant to Fish and Game Code sections 202 and 215 (Register 94, No. 10).
29. New subsection (b)(118.2) and amendment of NOTE filed 4–26–94; operative 4–26–94 (Register 94, No. 17).
30. Amendment of subsections (b)(91.1)(C)–(C)3A, new subsections (b)(91.1)(C)3Ai–iii, amendment of subsections (b)(91.1)(B)–(C), (b)(91.1)(C)3B–C, (F), (I)5 and 8, new subsection (b)(91.1)(I)9, subsection renumbering, amendment of (b)(91.1)(I)14, (b)(161), (174), (176), (177) and (195) and NOTE filed 8–31–94; operative 8–31–94 pursuant to sections 202 and 215, Fish and Game Code (Register 94, No. 35).
31. Editorial correction amending subsections (b)(91.1)(C)3.B. and (b)(91.1)(I)8 and 14. and HISTORY 30 (Register 94, No. 39).
32. Amendment of subsection (b)(76) and repealer of subsections (b)(76)(A)–(B) filed 10–27–94 as an emergency; operative 10–27–94 (Register 94, No. 43). A Certificate of Compliance must be transmitted to OAL by 2–24–95 or emergency language will be repealed by operation of law on the following day.
33. Amendment of subsection (b)(63) filed 12–12–94; operative 12–12–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 50).
34. Editorial correction inserting inadvertently omitted subsection (b)(115)(E) (Register 94, No. 51).
35. New subsections (b)(115)(A)–(B), subsection relettering, and new subsections (b)(125.5) and (b)(176.5) filed 12–23–94; operative 12–23–94 pursuant to Fish and Game Code sections 202 and 215 (Register 94, No. 51).
36. Amendment of subsections (b)(62)–(b)(62)(B) and repealer of subsections (b)(127)–(b)(127)(B) filed 3–28–95; operative 3–28–95 pursuant to Government Code section 11343.4(d) (Register 95, No. 13).
37. Certificate of Compliance as to 10–27–94 order transmitted to OAL 2–17–95 and filed 3–28–95 (Register 95, No. 13).
38. Amendment of subsections (b)(91.1)(C)3., (b)(91.1)(I)5., and (b)(91.1)(I)14., and new subsections (b)(91.1)(I)4.i). (I)6.i), (I)7.i), and (I)8.i) filed 7–28–95; operative 7–28–95 pursuant to Government Code section 11343.4(d) (Register 95, No. 30).
39. New subsections (b)(76)(A)–(B) filed 8–25–95; operative 8–25–95 pursuant to Fish and Game Code sections 202 and 215 (Register 95, No. 34).
40. Editorial correction of subsections (b)(188) and (b)(43.5) (Register 95, No. 48).
41. Amendment of subsection (b)(35) filed 11–28–95 as an emergency; operative 11–28–95 (Register 95, No. 48). A Certificate of Compliance must be transmitted to OAL by 3–27–96 or emergency language will be repealed by operation of law on the following day.
42. Editorial correction of subsection (b)(150)(B) (Register 96, No. 6).

43. Amendment of subsection (a)(1) and extensive amendment of multiple parts of subsection (b) filed 2–9–96; operative 2–9–96 pursuant to Fish and Game Code Sections 202 and 205 (Register 96, No. 6).
44. Reinstatement of subsection (b)(35) as it existed prior to emergency amendment filed 11–28–96 by operation of Government Code section 11346.1(f) (Register 96, No. 30).
45. Change without regulatory effect adding subsection (b)(63)(A)2. and amending subsection (b)(63)(B)3. filed 5–20–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 21).
46. Amendment of subsection (b)(30) and repealer of subsections (b)(30)(A)–(B) filed 5–23–96 as an emergency; operative 5–23–96 (Register 96, No. 21). A Certificate of Compliance must be transmitted to OAL by 9–20–96 or emergency language will be repealed by operation of law on the following day.
47. Editorial correction of printing errors in subsections (b)(91.1)(I)8.i and (b)(91.1)(I)11B. (Register 96, No. 29).
48. Amendment of subsection (b)(91.1) filed 7–18–96; operative 7–18–96 pursuant to sections 202 and 215, Fish and Game Code (Register 96, No. 29).
49. Editorial correction adding new HISTORY 44, and history renumbering (Register 96, No. 30).
50. Amendment of subsections (b)(35), (b)(63), (b)(63)(B)1. and (b)(63)(B)2., repealer of subsection (b)(63)(B)4., and amendment of subsections (b)(180) and (b)(180)(C) filed 7–25–96; operative 7–25–96 pursuant to Sections 202 and 215, Fish and Game Code (Register 96, No. 30).
51. Certificate of Compliance as to 5–23–96 order transmitted to OAL 9–18–96 and filed 9–25–96 (Register 96, No. 39).
52. Editorial correction of subsection (b)(156)(C) (Register 96, No. 52).
53. Amendment of subsections (b)(156)(G) and (I), (b)(158)(A) and (B) and (b)(163) filed 12–27–96; operative 12–27–96 pursuant to Fish and Game Code sections 202 and 215 (Register 96, No. 52).
54. Editorial correction of subsections (b)(2)(B), (b)(9), (b)(85), (b)(92) and (b)(138) (Register 97, No. 26).
55. Amendment of subsections (b)(91.1)(C)3. and (b)(91.1)(I)4. filed 7–7–97 as an emergency; operative 7–7–97 (Register 97, No. 28). A Certificate of Compliance must be transmitted to OAL by 11–4–97 or emergency language will be repealed by operation of law on the following day.
56. Amendment of subsections (b)(63)(A)–(D)5. filed 7–24–97; operative 7–25–97 pursuant to Fish and Game Code sections 202 and 215 (Register 97, No. 30).
57. New subsection (b)(53.9) filed 8–7–97 as an emergency; operative 8–7–97 (Register 97, No. 32). A Certificate of Compliance must be transmitted to OAL by 12–5–97 or emergency language will be repealed by operation of law on the following day.
58. Amendment of subsection (b)(63)(A)1. filed 10–27–97; operative 10–27–97 pursuant to Fish and Game Code sections 202 and 215 (Register 97, No. 44).
59. Repealer of subsection (b)(30) and new subsections (b)(30)–(b)(30)(B) filed 12–17–97 as an emergency; operative 12–17–97 (Register 97, No. 51). A Certificate of Compliance must be transmitted to OAL by 4–16–98 or emergency language will be repealed by operation of law on the following day.
60. Editorial correction restoring correct placement of subsection (b)(4) and providing correct capitalization in subsection (b)(134)(C) designator (Register 98, No. 4).
61. Amendment of subsections (b)(5)(A), (b)(5)(C)–(D) and (b)(37) (including new (b)(37)(A) designator and amendment of test therein) and new subsections (b)(5)(E) and (b)(37)(B) filed 2–5–98; operative 2–5–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 6).
62. Amendment of multiple parts of subsection (b) filed 2–5–98; operative 3–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 6).
63. Amendment of multiple parts of subsection (b) filed 2–11–98 as an emergency; operative 2–11–98 (Register 98, No. 7). A Certificate of Compliance must be transmitted to OAL by 6–11–98 or emergency language will be repealed by operation of law on the following day.
64. Editorial correction of subsections (b)(6)(B) and (b)(206.5)(A)–(B) (Register 98, No. 9).
65. Order of 2–11–98 amending multiple parts of subsection (b), including further amendments, refiled 3–13–98 as an emergency; operative 3–13–98 (Register 98, No. 11). A Certificate of Compliance must be transmitted to OAL by 7–13–98 or emergency language will be repealed by operation of law on the following day.
66. New subsection (b)(68.1) filed 4–2–98 as an emergency; operative 4–2–98 (Register 98, No. 14). A Certificate of Compliance must be transmitted to OAL by 7–31–98 or emergency language will be repealed by operation of law on the following day.
67. Reinstatement of section as it existed prior to 8–7–97 amendment filed 4–27–98 by operation of Government Code section 11346.1(f) (Register 98, No. 18).
68. Editorial correction of HISTORY 59 (Register 98, No. 19).
69. Certificate of Compliance as to 12–17–97 order transmitted to OAL 4–15–98 and filed 5–7–98 (Register 98, No. 19).
70. Certificate of Compliance as to 3–13–98 order, including additional amendment of multiple parts of subsection (b), transmitted to OAL 7–7–98 and filed 8–11–98 (Register 98, No. 33).
71. New subsection (b)(124)(A) and subsection relettering filed 10–16–98 as an emergency; operative 10–16–98 (Register 98, No. 42). A Certificate of Compliance must be transmitted to OAL by 2–16–99 or emergency language will be repealed by operation of law on the following day.
72. New subsection (b)(23.5), amendment of subsections (b)(32)(A), (b)(56)(A) and (b)(61)(C), new subsection (b)(168.5)(A) and subsection relettering filed 12–22–98; operative 12–22–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 52).
73. Change without regulatory effect amending subsections (b)(156)(E)–(F) filed 1–12–99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 3).
74. Certificate of Compliance as to 10–16–98 order transmitted to OAL 2–10–99 and filed 3–23–99 (Register 99, No. 13).
75. Amendment of subsection (b)(62)(A) filed 6–10–99; operative 6–10–99 pursuant to Government Code section 11343.4(d) (Register 99, No. 24).
76. Amendment of subsection (b)(91.1) filed 8–5–99; operative 8–5–99 pursuant to Fish and Game Code sections 202 and 215 (Register 99, No. 32).
77. Editorial correction of subsections (b)(119)(A)–(B) and (b)(205)(A) (Register 2000, No. 7).
78. Amendment filed 2–18–2000; operative 3–1–2000 pursuant to Fish and Game Code sections 202 and 215 (Register 2000, No. 7).
79. Amendment of subsection (b)(62)(A) filed 6–22–2000; operative 7–22–2000 (Register 2000, No. 25).
80. Amendment of subsections (b)(91.1)–(b)(91.1)(G)8B. filed 6–28–2000; operative 6–28–2000 pursuant to Fish and Game Code section 215 (Register 2000, No. 26).
81. Change without regulatory effect amending subsection (b)(189.5) filed 8–17–2000 pursuant to section 100, title 1, California Code of Regulations (Register 2000, No. 33).
82. Amendment of subsections (b)(19) and (b)(174.5) and repealer of subsections (b)(174.5)(A)–(B) filed 2–27–2001; operative 2–27–2001 pursuant to Government Code section 11343.4 (Register 2001, No. 9).
83. Repealer of subsections (b)(91.1)–(b)(91.1)(G)11., new subsections (b)(91.1)–(b)(91.1)(F)7.i. and amendment of subsections (b)(161), (b)(174), (b)(176), (b)(177) and (b)(195) filed 4–30–2001; operative 5–1–2001 pursuant to Fish and Game Code sections 202 and 215 (Register 2001, No. 18).
84. Amendment filed 1–10–2002; operative 1–1–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 2).
85. Amendment of subsections (b)(91.1), (b)(176) and (b)(195) and amendment of NOTE filed 6–25–2002; operative 6–25–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 26).
86. Amendment of subsection (b)(212)(A), new subsection (b)(212)(B) and subsection relettering filed 8–21–2002; operative 8–21–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 34).
87. Amendment of subsections (b)(5)(E) and (b)(156)(H) filed 11–7–2002 as an emergency; operative 11–7–2002 (Register 2002, No. 45). A Certificate of Compliance must be transmitted to OAL by 3–7–2003 or emergency language will be repealed by operation of law on the following day.
88. Amendment of subsections (b)(91.1)(A)2.–(b)(91.1)(F)5. filed 6–17–2003; operative 6–17–2003 pursuant to Fish and Game Code sections 202 and 215 (Register 2003, No. 25).
89. Reinstatement of subsections (b)(5)(E) and (b)(156)(H) as they existed prior to 11–7–2002 emergency amendment by operation of Government Code section 113436.1(f) (Register 2003, No. 32).
90. Amendment of subsections (b)(5)(E) and (b)(156)(F)–(H) filed 8–7–2003; operative 8–7–2003 pursuant to Fish and Game Code sections 202 and 215 (Register 2003, No. 32).
91. Amendment of subsection (b)(147) filed 12–26–2003 as an emergency; operative 12–26–2003 (Register 2003, No. 52). A Certificate of Compliance must be transmitted to OAL by 4–26–2004 or emergency language will be repealed by operation of law on the following day.
92. Amendment filed 2–24–2004; operative 3–1–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 9).
93. Amendment of subsection (b)(91.1) filed 7–22–2004; operative 8–21–2004 (Register 2004, No. 30).
94. Reinstatement of subsection (b)(147) as it existed prior to 12–26–2003 emergency pursuant to Government Code section 11346.1(f) (Register 2004, No. 32).
95. Amendment of subsections (b)(180)(A)–(B)1., (b)(180)(C)1. and (b)(180)(D)1. filed 8–12–2004; operative 9–11–2004 (Register 2004, No. 33).
96. Amendment of subsection (b)(156)(A), new subsections (b)(156)(C) and (b)(156)(E) and subsection relettering filed 8–23–2004; operative 9–22–2004 (Register 2004, No. 35).
97. Amendment of subsections (b)(180)(A), (b)(180)(B)1. and (b)(180)(C)1., new subsection (b)(180)(C)2., subsection renumbering and amendment of subsection (b)(180)(D)1. filed 12–21–2004; operative 1–20–2005 (Register 2004, No. 52).
98. Amendment of subsection (b)(178) filed 8–23–2005 as an emergency; operative 8–23–2005 (Register 2005, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–21–2005 or emergency language will be repealed by operation of law on the following day.

99. Amendment of subsections within subsection (b)(91.1) filed 8–26–2005; operative 8–26–2005 pursuant to Government Code section 11343.4 (Register 2005, No. 34).
100. Reinstatement of section as it existed prior to 8–23–2005 emergency amendment by operation of Government Code section 11346.1(f) (Register 2006, No. 7).
101. Editorial correction restoring inadvertently omitted subsection (b)(77.5) (Register 2006, No. 26).
102. Amendment of subsection (b)(178) filed 7–28–2006; operative 7–28–2006 pursuant to Government Code section 11343.4 (Register 2006, No. 30).
103. Amendment of subsection (b)(91.1), and subsections therein, filed 8–11–2006; operative 8–15–2006 pursuant to Government Code section 11343.4 (Register 2006, No. 32).
104. Amendment filed 2–28–2007; operative 2–28–2007 pursuant to Government Code section 11343.4 (Register 2007, No. 9).
105. Editorial correction of subsection (b)(129)(B) (Register 2007, No. 10).
106. Amendment of subsections (b)(91.1)(D)1.a.(i) and (b)(91.1)(D)1.f.(i) filed 3–21–2007 as an emergency; operative 3–21–2007 (Register 2007, No. 12). A Certificate of Compliance must be transmitted to OAL by 9–17–2007 or emergency language will be repealed by operation of law on the following day.
107. New subsection (b)(53.8) and amendment of NOTE filed 5–10–2007; operative 5–10–2007 pursuant to Government Code section 11343.4 (Register 2007, No. 19).
108. Certificate of Compliance as to 3–21–2007 order, including further amendment of subsection (b)(91.1) and subsections therein, transmitted to OAL 5–18–2007 and filed 6–21–2007 (Register 2007, No. 25).
109. Amendment filed 12–27–2007; operative 1–26–2008 (Register 2007, No. 52).
110. Amendment of subsection (b)(172.7) filed 2–19–2008; operative 3–20–2008 (Register 2008, No. 8).
111. Amendment of subsections (b)(5)(A)–(E), (b)(12.5), (b)(18.5)(B), (b)(43.5), (b)(59.5), (b)(68)(C)–(E), (b)(118)(B), (b)(124)(A)–(B), (b)(129)(B), (b)(156)(B), (b)(156)(H), (b)(156)(J), new subsection (b)(156)(K) and amendment of subsections (b)(168.5)–(b)(168.5)(C), (b)(186)(B), (b)(198)(E) and (b)(212)(A) filed 7–2–2008; operative 7–2–2008 pursuant to Government Code section 11343.4 (Register 2008, No. 27).
112. Amendment of subsections with subsection (b)(91.1) filed 7–23–2008; operative 8–15–2008 pursuant to Government Code section 11343.4 (Register 2008, No. 30).

Article 4. Supplemental Regulations

§ 8.00. Low–Flow Restrictions.

(a) Eel River, Mad River, Mattole River, Redwood Creek, Smith River and Van Duzen River. Stream closures: Special Low Flow Conditions. From October 1 through January 31, any of the stream reaches listed in subsection (1) through (7) below shall be closed to all angling on Tuesday and Wednesday when the department determines that the flow on the previous Monday at any of the designated gauging stations is less than the minimum flows set forth in subsections (1) through (7); any of the stream reaches listed in subsections (1) through (7) below shall be closed to all angling on Thursday and Friday when the department determines that the flow on the previous Wednesday at any of the designated gauging stations is less than the minimum flows set forth in subsections (1) though (7); any of the stream reaches listed in subsections (1) through (7) below shall be closed to all angling from Saturday through Monday when the department determines that the flow on the previous Friday at any of the designated gauging stations is less than the minimum flows set forth in subsections (1) through (7). Notwithstanding this provision, the department may close or keep a stream reach closed to fishing when the minimum flow is exceeded on the scheduled flow determination day if the department is reasonably assured that the stream flow is likely to decrease below the minimum flow as specified in subsections (a)(1)–(7) of Section 8.00 before the next flow–determination date. In addition, the department may reopen a stream at any time during a closed period if the minimum flow as specified in subsections (a)(1)–(7) of Section 8.00 is exceeded and the department is reasonably assured that it will remain above the minimum flow until the next scheduled Monday, Wednesday, or Friday flow determination. The department shall make information available to the public by a telephone recorded message updated, as necessary, no later than 1:00 p.m. each Monday, Wednesday, and Friday as to whether any stream will be open or closed to fishing. It shall be the responsibility of the angler to use the telephone number designated in the sport fishing regulations booklet to obtain information on the status of any stream.

(1) The main stem Eel River from the paved junction of Fulmor Road with the Eel River to the South Fork Eel River.

Minimum Flow: 350 cfs at the gauging station near Scotia.

(2) The South Fork of the Eel River downstream from Rattlesnake Creek and the Middle Fork Eel River downstream from the Black Butte River.

Minimum Flow: 340 cfs at the gauging station at Miranda.

(3) Van Duzen River: The main stem Van Duzen River from its junction with the Eel River to the Highway 36 bridge near Bridgeville.

Minimum Flow: 150 cfs at the gauging station near Grizzly Creek Redwoods State Park.

(4) Mad River: The main stem Mad River from the Hammond Trail Railroad Trestle to Cowan Creek.

Minimum Flow: 200 cfs at the gauging station at the Highway 299 bridge.

(5) Mattole River: The main stem of the Mattole River from the mouth to Honeydew Creek.

Minimum Flow: 320 cfs at the gauging station at Petrolia.

(6) Redwood Creek: The main stem of Redwood Creek from the mouth to its confluence with Bond Creek.

Minimum Flow: 300 cfs at the gauging station near the Highway 101 bridge.

(7) Smith River: The main stem Smith River from the mouth of Rowdy Creek, to its confluence with Patrick Creek; the South Fork Smith River from the mouth to its confluence with Jones Creek; and the North Fork Smith River from the mouth to its confluence with Stony Creek.

Minimum Flow: 400 cfs at the Jedediah Smith Redwoods State Park gauging station.

The number to call for information is (707) 442–4502.

(b) Central Coast Streams: Stream Closures: Special Low Flow Conditions.

From October 1 through April 1, any of the stream reaches listed in subsections (1) and (2) below shall be closed to all angling for a period of one week, commencing on any Thursday, when the Department determines that the flow on the previous Wednesday morning at the designated gauging station is less than the minimum flows set forth in subsections (1) and (2). Notwithstanding this provision, the Department may immediately reopen the streams to fishing if it determines that such flows exceed the minimum flows set forth in subsections (1) and (2) and no negative impact to the resource would result. The Department shall make information available to the public by telephone recorded message, updated no later than 1:00 p.m. each Wednesday, as to whether any stream will be open or closed to fishing. It shall be the responsibility of the angler to use the telephone number designated in the sport fishing regulations booklet to obtain information on the status of any stream.

THE NUMBER TO CALL FOR INFORMATION IS (707) 944–5533.

(1) The Sonoma Creek (Sonoma County), and all streams tributary to the Pacific Ocean (and its bays) in Mendocino, Sonoma, and Marin counties, except for the Russian River.

Minimum Flow: 500 cfs at the gauging station on the main stem Russian River near Guerneville (Sonoma County).

(2) The Napa River (Napa County) between Trancas Avenue in Napa and Oakville Cross Bridge near Yountville.

Minimum Flow: 15 cfs at the gauging station at the Oak Knoll Bridge on the main stem Napa River.

(c) South Central Coast Streams — Special Low Flow Closures: During December 1 through March 7 the following streams (subsections (1) through (7)) will be closed to fishing when the Department determines that stream flows are inadequate to provide fish passage for migrating steelhead trout and salmon. Closed streams will be reopened when the Department determines flows are adequate for fish passage. By December 2005, the Department will develop stream–flow values in cubic–

feet–per–second at the below U.S.G.S. gauging stations that indicate when fish passage is impeded and streams are to be closed to fishing.

(1) Upper Penitencia Ck. (Santa Clara Co.) and Lower Coyote Ck. below its confluence with Upper Penitencia Ck (U. S. G. S. gauging station on lower Coyote Ck. above St. Highway 237 in Milpitas).

(2) Pescadero Creek and all anadromous reaches of San Mateo Co. coastal streams normally open for fishing, from Elliot Ck. through Milagro Ck., shall be closed to all fishing when the department determines that the Pescadero Ck. flows are impeding fish passge. (U. S. G. S. gauging station is on Pescadero Ck.)

(3) The San Lorenzo River and all its tributarties, as well as all anadromous reaches of coastal streams normally open for fishing in Santa Cruz Co. from the San Lorenzo R. on North through Wadell Ck., shall be closed to all fishing when the department determines that the San Lorenzo flows are impeding fish passage. (U. S. G. S. gauging station in Henry Cowell Redwood State Park).

(4) Aptos and Soquel Creeks (Santa Cruz Co.) shall be closed to all fishing when the department determines that the Soquel Ck. flows are impeding fish passage. (U. S. G. S. gauging station on Soquel Ck.).

(5) The Pajaro River and Uvas, Llagas, and Corralitos Creeks, (Santa Cruz, Monterey, & Santa Clara Co.) shall be closed to all fishing when the department determines that the Pajaro R. flows are impeding fish passage. (U. S. G. S. gauging station on the lower Pajaro River).

(6) The main stem of the Salinas River (Monterey Co.), below its confluence with the Arroyo Seco River shall be closed to all fishing when the department determines that the flows are impeding fish passage (U. S. G. S. Spreckels gauging station on the Salinas R.).

(7) The Arroyo Seco River (MontereyCo.) shall be closed to all fishing when the department determines that the flows are impeding fish passage. (Flows to be evaluated at U. S. G. S. Spreckels gauging station on the Salinas R. and the U. S. G. S. gauging station near Geenfield on the Arroyo Seco R.).

(8) The Carmel River main stem , and the adjacent waters of San Jose, Gibson, Malpaso, Soberanes Creeks that are West of Highway 1 (Monterey Co.), shall be closed to all fishing when the department determines that the flow at the U. S. G. S. gauging station near Carmel is less than 80 cfs.

(9) The Big Sur River main stem west of the Highway 1 bridge, all of Limekiln Ck and its tributaries, and the anadromous portions of all other Big Sur Coast streams West of Highway 1 in Monterey Co., from Granite Ck. south to Salmon Ck., shall be closed to all fishing when the department determines that the flow at the U. S. G. S. gauging station on the Big Sur River is less than 40 cfs.

The stream flow gauges referred to above in subsections (8) and (9) will be checked on Tuesday and Friday of each week. The decision as to whether these rivers will be open or closed to fishing will take place only on Tuesday and Friday of each week. In the event that river flow differs later in the week, the fishing status for each specific river will not change until the day following the next scheduled reading. It shall be the responsibility of the angler to use the telephone number designated in the sport fishing regulations booklet to obtain information on the status of any of the rivers or creeks listed above in subsections (1) through (9). THE NUMBER TO CALL FOR INFORMATION IS (831) 649–2886. NOTE:

NOTE: Authority cited: Sections 200, 202, 205, 215 and 220, Fish and Game Code. Reference: Sections 200, 202, 205, 206 and 220, Fish and Game Code.

HISTORY

1. Repealer and new section filed 3–1–90; operative 3–1–90 (Register 90, No. 10). For prior history, see Register 89, No. 46.
2. Amendment of subsection (c)(4) filed 9–17–91 as an emergency; operative 9–17–91 (Register 92, No. 13). A Certificate of Compliance must be transmitted to OAL 1–15–92 or emergency language will be repealed by operation of law on the following day.
3. Repealer of subsection (b) and subsection relettering filed 12–22–92; operative 12–22–92 pursuant to sections 202 and 215, Fish and Game Code (Register 92, No. 52).
4. Editorial correction restoring inadvertently omitted subsection (now designated (c)) and correcting HISTORY notes (Register 92, No. 52).
5. Amendment of subsection (b)(2), (b)(4)–(5) and (b)(9) filed 3–7–94; operative 3–7–94 pursuant to Fish and Game Code sections 202 and 215 (Register 94, No. 10).
6. Amendment of subsection (b), repealer of subsections (b)(2), (b)(4) and (b)(5), subsection renumbering, and amendment of NOTE filed 2–9–96; operative 2–9–96 pursuant to Fish and Game Code sections 202 and 205 (Register 96, No. 6).
7. Amendment of subsections (b)(2) and (b)(5) filed 7–24–97; operative 7–25–97 pursuant to Fish and Game Code sections 202 and 215 (Register 97, No. 30).
8. Amendment of subsections (b) and (b)(7), new subsection (d) and amendment of NOTE filed 2–5–98; operative 3–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 6).
9. Amendment of subsections (b), (b)(1) and (d) filed 2–18–2000; operative 3–1–2000 pursuant to Fish and Game Code sections 202 and 215 (Register 2000, No. 7).
10. Amendment of section heading, repealer of first paragraph and subsections (a)–(a)(3), subsection relettering and amendment of newly designated subsection (a)(2) filed 1–10–2002; operative 1–1–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 2).
11. Amendment of subsections (a) and (a)(4) and new subsections (d)–(d)(9) filed 2–24–2004; operative 3–1–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 9).
12. Amendment of subsection (b) and new subsections (b)(1)–(2) filed 2–28–2007; operative 2–28–2007 pursuant to Government Code section 11343.4 (Register 2007, No. 9).
13. Repealer of subsection (c) and subsection relettering filed 12–27–2007; operative 1–26–2008 (Register 2007, No. 52).

§ 8.01. Special Gear Provisions.

NOTE: Authority cited: Sections 200, 202 and 210, Fish and Game Code. Reference: Sections 200, 202, 205 and 210, Fish and Game Code.

HISTORY

1. New section filed 2–21–84; designated effective 3–1–84 (Register 84, No. 8).
2. Repealer filed 3–1–90; operative 3–1–90 (Register 90, No. 10).

§ 8.05. Trout and Salmon.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

HISTORY

1. Amendment of subsection (b)(2) filed 1–20–83; designated effective tenth day thereafter (Register 83, No. 4).
2. Amendment filed 2–21–84; designated effective 3–1–84 (Register 84, No. 8).
3. Amendment filed 2–2–85 as an emergency; designated effective 3–1–85. Certificate of Compliance included (Register 85, No. 11).
4. Repealer filed 3–1–90; operative 3–1–90 (Register 90, No. 10).

§ 8.07. Carmel River Winter Trout and Salmon Season, Limit and Special Provision (Monterey Co.), Only from Mouth to the Bridge at Robles Del Rio/Esquiline Roads.

NOTE: Authority cited: Sections 200, 202, 205 and 210, Fish and Game Code. Reference: Sections 200, 202, and 205–210, Fish and Game Code.

HISTORY

1. New section filed 12–31–84 as an emergency; effective upon filing (Register 85, No. 2). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 4–30–85.
2. Repealer filed 2–28–85 as an emergency; designated effective 3–1–85. Certificate of Compliance included (Register 85, No. 11).
3. New section filed 2–28–85 as an emergency; designated effective 3–1–85. Certificate of Compliance included (Register 85, No. 11).
4. Amendment of subsection(c) filed 12–17–86; effective upon filing (Register 86, No. 51).
5. Repealer filed 3–1–90; operative 3–1–90 (Register 90, No. 10).

§ 8.08. El Estero Lake Restrictions (Monterey Co.).

NOTE: Authority Cited: Sections 200, 202, 205 and 210, Fish and Game Code. Reference: Sections 200, 202 and 205–210, Fish and Game Code.

HISTORY

1. New section filed 1–26–88; operative 3–1–88 (Register 88, No. 6).
2. Repealer filed 3–1–90; operative 3–1–90 (Register 90, No. 10).

§ 8.10. Youth Fishing Derby, Susan River (Lassen County).

The Susan River, from the second railroad tunnel (the westernmost) on the Biz Johnson Trail downstream to the Riverside Bridge in the City of Susanville, is open to fishing on the Saturday preceding the last Saturday in April, only to persons under 16 years of age who are registered for the fishing derby sponsored by the Lassen County Sportsmen's Club.

NOTE: Authority cited: Sections 200, 202, 205, 215, 220, 240 and 315, Fish and Game Code. Reference: Sections 200, 205, 206 and 215, Fish and Game Code.

HISTORY

1. New section filed 12–22–98; operative 12–22–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 52). For prior history, see Register 90, No. 10.

§ 8.15. Llagas Creek (Santa Clara Co.).

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

HISTORY

1. Renumbering and amendment of former Section 8.15 to Section 8.16 and new Section 8.15 filed 1–20–83; designated effective tenth day thereafter (Register 83, No. 4).
2. Repealer filed 2–21–84; designated effective 3–1–84 (Register 84, No. 8).

§ 8.16. Los Padres Reservoir Closure (Monterey Co.).

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

HISTORY

1. Renumbering and amendment of former Section 8.15 to Section 8.16 filed 1–20–83; designated effective tenth day thereafter (Register 83, No. 4).
2. Amendment filed 2–21–84; designated effective 3–1–84 (Register 84, No. 8).
3. Repealer filed 3–1–90; operative 3–1–90 (Register 90, No. 10).

§ 8.20. Special Provisions Affecting California Indians.

The department may issue permits (Permit to Take Fall–run Chinook Salmon in the Feather River Using Traditional Fishing Equipment and Methods of the Maidu Indian Tribe, Form FG 710 (4/01) which is incorporated by reference herein) to members of a Maidu Indian Tribe, allowing the take of fish in the Feather River for religious or cultural purposes, using traditional tribal fishing equipment and methods. The permits shall include any restrictions necessary to prevent damage to aquatic resources and to protect endangered or threatened species. All other fishing restrictions found in Chapters 1–3 of Subdivision 1 of Division 1, Title 14, CCR (Inland Sport Fishing Regulations) shall apply.

NOTE: Authority cited: Sections 200, 202, 205 and 220, Fish and Game Code. Reference: Sections 200, 202, 205, 220 and 12300, Fish and Game Code.

HISTORY

1. New section filed 6–18–2001; operative 7–18–2001 (Register 2001, No. 25). For prior history, see Register 85, No. 11.

§ 8.21. Mississippi Lake Trout Restrictions (Santa Clara Co.).

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1,205–210 and 215–222, Fish and Game Code.

1. Amendment filed 1–20–83; designated effective tenth day thereafter (Register 83, No. 4).
2. Amendment filed 1–26–88; operative 3–1–88 (Register 88, No. 6).
3. Repealer filed 3–1–90; operative 3–1–90 (Register 90, No. 10).

§ 13.80. Smith River, South Fork Closure (Del Norte Co.).

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

HISTORY
1. Repealer filed 3–1–90; operative 3–1–90 (Register 90, No. 10).

§ 13.85. Trinity River Closures (Trinity Co.).

NOTE: Authority: Sections 200, 202, 205 and 210, Fish and Game Code. Reference: Sections 200, 202, 205–210, Fish and Game Code.

HISTORY
1. New subsection (f) filed 9–11–85 as an emergency; effective upon filing (Register 85, No. 37). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 1–9–86. For prior history, see Register 84, No. 41.
2. Repealer of subsection (e) filed 1–22–86; designated effective 3–1–86 (Register 86, No. 6).
3. Subsection (f) expired by own terms (Register 86, No. 21).
4. Repealer of former subsection (c) and relettering of former subsection (d) to subsection (c) filed 5–21–86; effective upon filing pursuant to Government Code Section 11346.2(d) (Register 86, No. 21).
5. Amendment of subsection (a) filed 2–11–87; designated effective 3–1–87 (Register 87, No. 9).
6. Repealer filed 3–1–90; operative 3–1–90 (Register 90, No. 10).

§ 13.86. Trinity River and South Fork Trinity River Salmon Restrictions (Trinity Co.).

NOTE: Authority cited: Sections 200, 202, 205, 210, and 240, Fish and Game Code. Reference: Sections 200, 202, 205–210, 240, and 315, Fish and Game Code.

HISTORY
1. New section filed 5–21–86; effective upon filing pursuant to Government Code Section 11346.2(d) (Register 86, No. 21).
2. Amendment filed 6–1–87; operative 6–1–87 (Register 87, No. 24).
3. Repealer filed 3–1–90; operative 3–1–90 (Register 90, No. 10).

§ 13.90. Trinity River Special Flyfishing Restrictions (Trinity Co.), Only from the Old Lewiston Bridge to a Point 250 Feet Below the Lewiston Dam.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

HISTORY
1. Amendment of subsection (a) filed 1–20–83; designated effective tenth day thereafter (Register 83, No. 4).
2. Repealer filed 3–1–90; operative 3–1–90 (Register 90, No. 10).

§ 13.95. Van Duzen River Trout Restrictions (Humboldt Co.), Only Between the Highway 36 Bridge at Bridgeville and the Confluence with the South Fork.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

HISTORY
1. Amendment of subsection (a) filed 1–20–83; designated effective tenth day thereafter (Register 83, No. 4).
2. Repealer filed 3–1–90; operative 3–1–90 (Register 90, No. 10).

Chapter 4. Ocean Fishing

Article 1. Ocean and San Francisco Bay District

§ 27.00. Definition.

The Ocean and San Francisco Bay District consists of the open seas adjacent to the coast and islands or in the waters of those open or enclosed bays contiguous to the ocean, and including San Francisco and San Pablo bays plus all their tidal bays, tidal portions of their rivers and streams, sloughs and estuaries between Golden Gate Bridge and Carquinez Bridge, and the waters of Elkhorn Slough, west of Elkhorn Road between Castroville and Watsonville. Also see Section 1.53.

NOTE: Authority cited: Sections 200, 202, 205, 215 and 220, Fish and Game Code. Reference: Sections 200, 202, 205, 206, 215 and 220, Fish and Game Code.

HISTORY
1. Renumbering of Chapter 4 to Chapter 6 and new Chapter 4 (§§ 27.00 through 31.35, not consecutive) filed 1–16–74; designated effective 3–1–74 (Register 74, No. 3).

2. Repealer of Chapter 4 (§§ 27.00–31.35, not consecutive) and new Chapter 4 (§§ 27.00–29.90, not consecutive) filed 12–20–74; designated effective 3–1–75 (Register 74, No. 51).
3. Amendment filed 12–31–80; effective thirtieth day thereafter (Register 81, No. 1).
4. Repealer of Chapter 4 (Article 1, Sections 27.00–29.90, not consecutive) and new Chapter 4 (Article 1, Sections 27.00–29.90, not consecutive) filed 2–17–82; designated effective 3–1–82 (Register 82, No. 8). For prior history, see Registers 80, No. 2; 79, No. 1; 78, No. 4; 78, No. 2; 77, No. 51; 76, No. 52; 75, No. 52; and 75, No. 8.
5. Amendment of section and NOTE filed 2–5–98; operative 3–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 6).

§ 27.05. Chumming.

Chumming, including chumming with live bait, is permitted.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

§ 27.10. Live Bait Restrictions.

Tilapia may not be used or possessed for use as bait in ocean waters.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

HISTORY

1. New section filed 2–28–85 as an emergency; designated effective 3–1–85. Certificate of Compliance included (Register 85, No. 11).

§ 27.15. Multi–Day Fishing Trips.

The following provisions apply to anglers and to boat owners and operators when a Declaration for a Multi–Day Fishing Trip has been filed with the department.

(a) Provisions related to the angler: Up to three daily bag and possession limits of saltwater fin fish, lobster and rock scallops and up to two daily bag and possession limits of abalone are allowed for a person fishing during a multi–day trip in ocean waters from a boat whose owner or operator has filed a Declaration for Multi–Day Fishing Trip, pursuant to the provisions of subsection (b) below.

(1) The provisions of this section do not authorize any person to take more than one daily bag limit of fish during one calendar day.

(2) The provisions of this section do not apply to the taking and possession of salmon, steelhead, striped bass and sturgeon.

(b) Provisions related to the boat owner or operator who has filed for a Declaration for a Multi–Day Fishing Trip:

(1) The owner or operator of a boat shall submit to the nearest department office a Declaration for Multi–Day Fishing Trip and payment as specified in Section 701. The Declaration for Multi–Day Fishing Trip shall include the following information:

(A) Place, date and time of departure of the boat.

(B) Place, date and estimated time of return of the boat.

(C) Name of the boat.

(D) Date and hour Declaration mailed or delivered to the department.

(F) Additional requirements for Commercial Passenger Fishing Vessels:

1. The Commercial Boat Registration Number issued pursuant to Fish and Game Code Section 7880.

2. Copy of passenger manifest if fishing within 10 miles of the mainland shore of California.

(2) The Declaration for Multi–Day Fishing Trip must be submitted to the nearest department office in order for any person aboard such boat to possess more than one bag limit of saltwater fin fish, abalone, lobster and rock scallops. If mailed, the Declaration for Multi–Day Fishing Trip must be received at least 48 hours prior to the date of the boat's departure. If the 48–hours advance notice is not met, the original copy of the form signed by an authorized department representative must be aboard the vessel during the trip. Forms will be accepted for authorization only during business hours of 8:00 a.m. to 5:00 p.m.

(3) A Declaration for Multi–Day Fishing Trip may not be filed for a trip unless the trip is continuous and extends for a period of 12 hours or more on the first and last days of the trip and no berthing or docking is permitted within five miles of the mainland shore.

(4) The owner or operator of a boat filing a Declaration for Multi–Day Fishing Trip shall prepare such form in duplicate, and shall require the duplicate to be posted in full view of the passengers aboard the boat.

(5) All passengers must disembark at place of return as stated on the Declaration for Multi–Day Fishing Trip.

NOTE: Authority cited: Sections 200, 202, 205, 219 and 220, Fish and Game Code. Reference: Sections 200, 202, 205, 220 and 7880, Fish and Game Code.

HISTORY

1. Amendment filed 3–1–90; operative 3–1–90 (Register 90, No. 10).
2. Amendment of subsection (b) filed 4–18–91; operative 5–18–91 (Register 91, No. 21).
3. Amendment of subsections (a), (b)(2), and (b)(3) filed 3–12–92; operative 3–12–92 (Register 92, No. 20).
4. Amendment of section and NOTE filed 8–4–2006; operative 8–4–2006 pursuant to Government Code section 11343.4 (Register 2006, No. 31).

OCEAN WATERS WITH RESTRICTED FISHING

§ 27.20. Groundfish Management Areas, Seasons, Depths, Exceptions, and Fishery Closure/Rule Change Process Described.

Regulations that follow in sections 27.25 through 27.50 define fishing seasons and depth constraints that are effective within each Groundfish Management Area. These sections apply to take and possession of all 90 species of federally–managed groundfish as defined in Section 1.91. (These species include but are not limited to rockfish, cabezon, lingcod, California scorpionfish, kelp greenling, and some species of sharks, skates and flatfish). Special closures and exceptions to these regulations are also specified. All regulations of sections 27.25 through 27.50 also apply for California sheephead, ocean whitefish, and all greenlings of the genus *Hexagrammos*, which are state–managed species known to associate with federal groundfish.

(a) Depth Constraints: A depth constraint means that during the open season, the aforementioned species may only be taken or possessed in water depths shallower than the specified general depth contour lines, or alternatively, in waters shoreward of lines approximating a particular depth contour, defined by connecting the appropriate set of waypoints adopted in Federal regulations (50 CFR Part 660, Subpart G).

(b) Open Season — Take, Possession and Transit: During any open season in any Groundfish Management Area, in waters deeper than where fishing is authorized, it is unlawful to take or possess the aforementioned species unless a special exception is provided. However, this regulation does not apply in cases where these species are possessed aboard vessels in transit with no fishing gear in the water.

(c) Closed Season: During any closed season in any Groundfish Management Area, it is unlawful to take or possess the aforementioned species regardless of depth, unless a special exception is provided.

(d) California Rockfish Conservation Area: Within any Groundfish Management Area, waters that are closed for these species during specified times and/or closed in specified depths shall be known as the California Rockfish Conservation Area. See Section 27.51.

(e) Fishery closure and/or rule change: When the department determines, based on the best available scientific information, that an annual harvest limit [optimum yield (OY), recreational harvest guideline, or recreational harvest target] established in regulation by the NOAA Fisheries (National Marine Fisheries Service) for any species of federally–managed groundfish or aggregate group of federal groundfish species has been exceeded or is projected to be exceeded prior to the end of the year or that catches are less than predicted, the following rule changes may occur:

(1) The department may modify the seasons and/or depth constraints for any species of federally–managed groundfish or aggregate group of federal groundfish species, California sheephead, ocean whitefish, and all greenlings of the genus *Hexagrammos*. Season and/or depth modifications may differ by Groundfish Management Area, mode of fishing, or gear utilized.

(2) The department may adjust existing bag or sub–bag limits or establish additional bag or sub–bag limits as needed for any species of federally–managed groundfish or aggregate group of federal groundfish spe-

cies, California sheephead, ocean whitefish, and all greenlings of the genus *Hexagrammos*. Bag limits may differ by Groundfish Management Area, time of year, mode of fishing, or gear utilized.

(3) The department may adjust existing size limits or establish additional size limits as needed for any species of federally–managed groundfish or aggregate group of federal groundfish species, California sheephead, ocean whitefish, and all greenlings of the genus *Hexagrammos*. Size limits may differ by Groundfish Management Area, time of year, mode of fishing, or gear utilized.

(f) Notice of closure and/or rule change: The department shall give the public and the National Marine Fisheries Service no less than 10 calendar days' notice of any fishery closure or rule change implemented pursuant to this Section via a department news release. Anglers and divers are advised to check the current rules before fishing. The latest fishing rules may be found on the department's website at: www.dfg.ca.gov/ marine/, or by calling (831) 649–2801 for recorded information, or by contacting a department office.

NOTE: Authority cited: Sections 200, 202, 702, 7071 and 8587.1, Fish and Game Code. Reference: Sections 205, 1802, 7071 and 8586, Fish and Game Code; 50 CFR 660, Subpart G; 50 CFR 660.384; and 14 CCR 27.20.

HISTORY

1. New section filed 1–18–2007; operative 1–18–2007 pursuant to Government Code section 11343.4(c) (Register 2007, No. 3). For prior history of sections 27.20–27.53, see Register 83, No. 4; Register 87, No. 9 and Register 2005, No. 10.
2. Amendment of section and NOTE filed 5–9–2008 as an emergency; operative 5–9–2008 (Register 2008, No. 19). A Certificate of Compliance must be transmitted to OAL by 11–5–2008 or emergency language will be repealed by operation of law on the following day.

§ 27.25. Northern Groundfish Management Area.

This Section applies to take and possession of all 90 species of federally–managed groundfish, California sheephead, ocean whitefish, and all greenlings of the genus *Hexagrammos* in the Northern Groundfish Management Area. Federal groundfish include, but are not limited to, rockfish, cabezon, lingcod, California scorpionfish, kelp greenling, and some species of sharks, skates and flatfish. For specific definitions, applicability, and procedures, see sections 1.91 and 27.20. For size limits, possession limits, and other regulations that apply to individual species, see specific sections beginning with Section 27.60.

(a) The Northern Groundfish Management Area means ocean waters between 42°00′ N. lat. (the Oregon/California border) and 40°10′ N. lat. (near Cape Mendocino, Humboldt County).

(b) Seasons and depth constraints (except as provided in (c) below):

(1) January through April: Closed.

(2) May through November: Open for all species only in waters shallower than 20 fathoms in depth as described by general depth contour lines.

(3) December: Open for all species, except for lingcod, only in waters shallower than 20 fathoms in depth as described by general depth contour lines. Lingcod may not be taken or possessed.

(c) Special exceptions to subsection (b) above:

(1) "Other Flatfish" as defined in subsection 1.91(a)(10), which include Pacific sanddabs, may be taken or possessed in all depths all year, except that when fishing in times or areas closed under subsection (b) above, anglers are limited to not more than 12 No. 2 or smaller hooks and up to 2 pounds of weight. A No. 2 hook means a fishing hook with a gap not greater than 7/16 inch between the hook point and the shank.

(2) Leopard shark may be taken or possessed in Humboldt Bay all year.

(3) When angling from shore (includes beaches, banks, piers, jetties, breakwaters, docks, and other man–made structures connected to the shore), all species may be taken or possessed all year, except lingcod may not be taken or possessed under this provision during the months of January, February, March and December. No vessel or watercraft (motorized or non–motorized) may be used to assist in taking or possessing these species while angling from shore under this provision.

(4) When diving or spearfishing, as authorized in Section 28.90, all species may be taken or possessed all year, except lingcod may not be taken or possessed under this provision during the months of January, February, March, and December. Except for spearfishing gear, all other types of fishing gear are prohibited to be aboard the vessel or watercraft (motorized or non–motorized) while spearfishing for the purpose of taking or possessing these species under this provision.

NOTE: Authority cited: Sections 200, 202, 205 and 702, Fish and Game Code. Reference: Sections 200, 202, 205 and 1802, Fish and Game Code; 50 CFR Part 660, Subpart G; 50 CFR 660.384; and 14 CCR 27.20.

HISTORY

1. New section filed 1–18–2007; operative 1–18–2007 pursuant to Government Code section 11343.4(c) (Register 2007, No. 3). For prior history, see Register 2005, No. 10.
2. Amendment of subsections (b)(2) and (b)(3) and amendment of NOTE filed 5–9–2008 as an emergency; operative 5–9–2008 (Register 2008, No. 19). A Certificate of Compliance must be transmitted to OAL by 11–5–2008 or emergency language will be repealed by operation of law on the following day.

§ 27.30. North–Central Groundfish Management Area.

This Section applies to take and possession of all 90 species of federally–managed groundfish, California sheephead, ocean whitefish, and all greenlings of the genus *Hexagrammos* in the North–Central Groundfish Management Area. Federal groundfish include, but are not limited to, rockfish, cabezon, lingcod, California scorpionfish, kelp greenling, and some species of sharks, skates and flatfish. For specific definitions, applicability, and procedures, see sections 1.91 and 27.20. For size limits, possession limits, and other regulations that apply to individual species, see specific sections beginning with Section 27.60.

(a) The North–Central Groundfish Management Area means ocean waters between 40°10′ N. lat. (near Cape Mendocino, Humboldt County) and 37°11′ N. lat. (at Pigeon Point, San Mateo County).

(b) Seasons, depth constraints, and special closure areas (except as provided in (c) below):

(1) January through May: Closed.

(2) June through November: Open for all species only in waters shallower than 20 fathoms in depth as described by general depth contour lines.

(3) December: Closed.

(4) Farallons Closure Area: Waters shallower than 10 fathoms in depth as described by general depth contour lines around the Farallon Islands (off San Francisco and San Mateo counties), including Southeast Farallon Island, Middle Farallon Island, North Farallon Island and Noon Day Rock are closed to fishing for these species at all times. Special exceptions provided for "other flatfish" in subsection (c)(1), shore–based angling in subsection (c)(3) and spearfishing/diving in subsection (c)(4) below do not apply in this closure area.

(5) Cordell Bank Closure Area: Waters of the Cordell Bank (off Marin County) shallower than 100 fathoms in depth as approximated by the 100–fathom depth contour that is defined by connecting the set of 100–fathom waypoints adopted in Federal regulations (50 CFR Part 660, Subpart G), are closed to fishing for these species at all times. Special exceptions provided for "other flatfish" in sub–section (c)(1) below apply to this closure area. Special exceptions provided for shore–based angling in subsection (c)(3) and spearfishing/diving in subsection (c)(4) below do not apply in this closure area.

(c) Special exceptions to subsection (b) above:

(1) "Other Flatfish" as defined in subsection 1.91(a)(10), which include Pacific sanddabs, may be taken or possessed in all depths all year, except that when fishing in times or areas closed under subsection (b) above, anglers are limited to not more than 12 No. 2 or smaller hooks and up to 2 pounds of weight. A No. 2 hook means a fishing hook with a gap not greater than 7/16 inch between the hook point and the shank.

(2) Leopard shark may be taken or possessed in Drake's Estero Bay, Bolinas Bay, Tomales Bay, Bodega Harbor, and San Francisco Bay all year.

(3) When angling from shore (includes beaches, banks, piers, jetties, breakwaters, docks, and other man–made structures connected to the shore), all species may be taken or possessed all year, except lingcod may

not be taken or possessed under this provision during the months of January, February, March and December. No vessel or watercraft (motorized or non–motorized) may be used to assist in taking or possessing these species while angling from shore under this provision.

(4) When diving or spearfishing, as authorized in Section 28.90, all species may be taken or possessed all year, except lingcod may not be taken or possessed under this provision during the months of January, February, March, and December. Except for spearfishing gear, all other types of fishing gear are prohibited to be aboard the vessel or watercraft (motorized or non–motorized) while spearfishing for the purpose of taking or possessing these species under this provision.

NOTE: Authority cited: Sections 200, 202, 205 and 702, Fish and Game Code. Reference: Sections 200, 202, 205 and 1802, Fish and Game Code; 50 CFR Part 660, Subpart G; 50 CFR 660.384; and 14 CCR 27.20.

HISTORY

1. New section filed 1–18–2007; operative 1–18–2007 pursuant to Government Code section 11343.4(c) (Register 2007, No. 3). For prior history, see Register 2005, No. 10.
2. Amendment of subsections (b)(2), (b)(4) and (b)(5) and amendment of NOTE filed 5–9–2008 as an emergency; operative 5–9–2008 (Register 2008, No. 19). A Certificate of Compliance must be transmitted to OAL by 11–5–2008 or emergency language will be repealed by operation of law on the following day.

§ 27.35. Monterey South–Central Groundfish Management Area.

This Section applies to take and possession of all 90 species of federally–managed groundfish, California sheephead, ocean whitefish, and all greenlings of the genus *Hexagrammos* in the Monterey South–Central Groundfish Management Area. Federal groundfish include, but are not limited to, rockfish, cabezon, lingcod, California scorpionfish, kelp greenling, and some species of sharks, skates and flatfish. For specific definitions, applicability, and procedures, see sections 1.91 and 27.20. For size limits, possession limits, and other regulations that apply to individual species, see specific sections beginning with Section 27.60.

(a) The Monterey South–Central Groundfish Management Area means ocean waters between 37°11′ N. lat. (at Pigeon Point, San Mateo County) and 36°00′ N. lat. (near Lopez Point, Monterey County).

(b) Seasons and depth constraints (except as provided in (c) below):

(1) January through April: Closed.

(2) May through November: Open for all species only in waters shoreward of lines approximating the 40–fathom depth contour, defined by connecting the set of 40–fathom waypoints adopted in Federal regulations (50 CFR Part 660, Subpart G).

(3) December: Closed.

(c) Special exceptions to subsection (b) above:

(1) "Other Flatfish" as defined in subsection 1.91(a)(10), which include Pacific sanddabs, may be taken or possessed in all depths all year, except that when fishing in times or areas closed under subsection (b) above, anglers are limited to not more than 12 No. 2 or smaller hooks and up to 2 pounds of weight. A No. 2 hook means a fishing hook with a gap not greater than 7/16 inch between the hook point and the shank.

(2) Leopard shark may be taken or possessed in Elkhorn Slough all year.

(3) When angling from shore (includes beaches, banks, piers, jetties, breakwaters, docks, and other man–made structures connected to the shore), all species may be taken or possessed all year, except lingcod may not be taken or possessed under this provision during the months of January, February, March and December. No vessel or watercraft (motorized or non–motorized) may be used to assist in taking or possessing these species while angling from shore under this provision.

(4) When diving or spearfishing, as authorized in Section 28.90, all species may be taken or possessed all year, except lingcod may not be taken or possessed under this provision during the months of January, February, March, and December. Except for spearfishing gear, all other types of fishing gear are prohibited to be aboard the vessel or watercraft (motorized or non–motorized) while spearfishing for the purpose of taking or possessing these species under this provision.

NOTE: Authority cited: Sections 200, 202 and 205, Fish and Game Code. Reference: Sections 200, 202 and 205, Fish and Game Code; and 50 CFR Part 660, Subpart G.

HISTORY

1. New section filed 1–18–2007; operative 1–18–2007 pursuant to Government Code section 11343.4(c) (Register 2007, No. 3). For prior history, see Register 2005, No. 10.

§ 27.40. Morro Bay South–Central Groundfish Management Area.

This Section applies to take and possession of all 90 species of federally–managed groundfish, California sheephead, ocean whitefish, and all greenlings of the genus *Hexagrammos* in the Morro Bay South–Central Groundfish Management Area. Federal groundfish include, but are not limited to, rockfish, cabezon, lingcod, California scorpionfish, kelp greenling, and some species of sharks, skates and flatfish. For specific definitions, applicability, and procedures, see sections 1.91 and 27.20. For size limits, possession limits, and other regulations that apply to individual species, see specific sections beginning with Section 27.60.

(a) The Morro Bay South–Central Groundfish Management Area means ocean waters between 36°00′ N. lat. (near Lopez Point, Monterey County) and 34°27′ N. lat. (at Point Conception, Santa Barbara County).

(b) Seasons and depth constraints (except as provided in (c) below):

(1) January through April: Closed.

(2) May through November: Open for all species only in waters shoreward of lines approximating the 40–fathom depth contour, defined by connecting the set of 40–fathom waypoints adopted in Federal regulations (50 CFR Part 660, Subpart G).

(3) December: Closed.

(c) Special exceptions to subsection (b) above:

(1) "Other Flatfish" as defined in subsection 1.91(a)(10), which include Pacific sanddabs, may be taken or possessed in all depths all year, except that when fishing in times or areas closed under subsection (b) above, anglers are limited to not more than 12 No. 2 or smaller hooks and up to 2 pounds of weight. A No. 2 hook means a fishing hook with a gap not greater than 7/16 inch between the hook point and the shank.

(2) When angling from shore (includes beaches, banks, piers, jetties, breakwaters, docks, and other man–made structures connected to the shore), all species may be taken or possessed all year, except lingcod may not be taken or possessed under this provision during the months of January, February, March and December. No vessel or watercraft (motorized or non–motorized) may be used to assist in taking or possessing these species while angling from shore under this provision.

(3) When diving or spearfishing, as authorized in Section 28.90, all species may be taken or possessed all year, except lingcod may not be taken or possessed under this provision during the months of January, February, March, and December. Except for spearfishing gear, all other types of fishing gear are prohibited to be aboard the vessel or watercraft (motorized or non–motorized) while spearfishing for the purpose of taking or possessing these species under this provision.

NOTE: Authority cited: Sections 200, 202 and 205, Fish and Game Code. Reference: Sections 200, 202 and 205, Fish and Game Code; and 50 CFR Part 660, Subpart G.

HISTORY

1. New section filed 1–18–2007; operative 1–18–2007 pursuant to Government Code section 11343.4(c) (Register 2007, No. 3). For prior history, see Register 2005, No. 10.

§ 27.45. Southern Groundfish Management Area.

This Section applies to take and possession of all 90 species of federally–managed groundfish, California sheephead, ocean whitefish, and all greenlings of the genus *Hexagrammos* in the Southern Groundfish Management Area. Federal groundfish include, but are not limited to, rockfish, cabezon, lingcod, California scorpionfish, kelp greenling, and some species of sharks, skates and flatfish. For specific definitions, applicability, and procedures, see sections 1.91 and 27.20. For size limits, possession limits, and other regulations that apply to individual species, see specific sections beginning with Section 27.60.

(a) The Southern Groundfish Management Area means ocean waters between 34°27′ N. lat. (at Point Conception, Santa Barbara County) and

the U.S./Mexico border, except for waters of the Cowcod Conservation Areas, which are specified in Section 27.50. The Cowcod Conservation Areas are not part of the Southern Groundfish Management Area.

(b) Seasons and depth constraints (except as provided in (c) below):

(1) January and February: Closed, except California scorpionfish may be taken or possessed only in waters shoreward of lines approximating the 40–fathom depth contour, defined by connecting the set of 40–fathom waypoints adopted in Federal regulations (50 CFR Part 660, Subpart G).

(2) March: Open for all species, except for lingcod, only in waters shoreward of lines approximating the 60–fathom depth contour, defined by connecting the set of 60–fathom waypoints adopted in Federal regulations (50 CFR Part 660, Subpart G). Lingcod may not be taken or possessed.

(3) April through November: Open for all species only in waters shoreward of lines approximating the 60–fathom depth contour, defined by connecting the set of 60–fathom waypoints adopted in Federal regulations (50 CFR Part 660, Subpart G).

(4) December: Open for all species, except for lingcod, only in waters shoreward of lines approximating the 60–fathom depth contour, defined by connecting the set of 60–fathom waypoints adopted in Federal regulations (50 CFR Part 660, Subpart G). Lingcod may not be taken or possessed.

(c) Special exceptions to subsection (b) above:

(1) "Other Flatfish" as defined in subsection 1.91(a)(10), which include Pacific sanddabs, may be taken or possessed in all depths all year, except that when fishing in times or areas closed under subsection (b) above, anglers are limited to not more than 12 No. 2 or smaller hooks and up to 2 pounds of weight. A No. 2 hook means a fishing hook with a gap not greater than 7/16 inch between the hook point and the shank.

(2) Leopard shark may be taken or possessed in Newport Bay, Alamitos Bay, Mission Bay, and San Diego Bay all year.

(3) When angling from shore (includes beaches, banks, piers, jetties, breakwaters, docks, and other man–made structures connected to the shore), all species may be taken or possessed all year, except lingcod may not be taken or possessed under this provision during the months of January, February, March and December. No vessel or watercraft (motorized or non–motorized) may be used to assist in taking or possessing these species while angling from shore under this provision.

(4) When diving or spearfishing, as authorized in Section 28.90, all species may be taken or possessed all year, except lingcod may not be taken or possessed under this provision during the months of January, February, March, and December. Except for spearfishing gear, all other types of fishing gear are prohibited to be aboard the vessel or watercraft (motorized or non–motorized) while spearfishing for the purpose of taking or possessing these species under this provision.

NOTE: Authority cited: Sections 200, 202 and 205, Fish and Game Code. Reference: Sections 200, 202 and 205, Fish and Game Code; and 50 CFR Part 660, Subpart G.

HISTORY

1. New section filed 1–18–2007; operative 1–18–2007 pursuant to Government Code section 11343.4(c) (Register 2007, No. 3). For prior history, see Register 2005, No. 10.

§ 27.50. Cowcod Conservation Areas.

This Section applies to take and possession of all 90 species of federally–managed groundfish, California sheephead, ocean whitefish, and all greenlings of the genus *Hexagrammos* in the Cowcod Conservation Areas. The Cowcod Conservation Areas are special Groundfish Management Areas where sport fishing regulations for these species are designed to minimize interaction with cowcod. Federal groundfish include, but are not limited to, rockfish, cabezon, lingcod, California scorpionfish, kelp greenling, and some species of sharks, skates and flatfish. For specific definitions, applicability, and procedures, see sections 1.91 and 27.20. For size limits, possession limits, and other regulations that apply to individual species, see specific sections beginning with Section 27.60.

(a) The Cowcod Conservation Areas are defined as ocean waters off southern California within each of the following two areas. Area 1 is an area south of Point Conception that is bound by straight lines connecting the following points in the order listed:

33°50′ N. lat., 119°30′ W. long.;
33°50′ N. lat., 118°50′ W. long.;
32°20′ N. lat., 118°50′ W. long.;
32°20′ N. lat., 119°37′ W. long.;
33°00′ N. lat., 119°37′ W. long.;
33°00′ N. lat., 119°53′ W. long.;
33°33′ N. lat., 119°53′ W. long.;
33°33′ N. lat., 119°30′ W. long.;
33°50′ N. lat., 119°30′ W. long.; and Area 2 is a smaller area west of San Diego that is bound by straight lines connecting the following points in the order listed:

32°42′ N. lat., 118°02′ W. long.;
32°42′ N. lat., 117°50′ W. long.;
32°36′ 42″ N. lat., 117°50′ W. long.;
32°30′ N. lat., 117°53′ 30″ W. long.;
32°30′ N. lat., 118°02′ W. long.;
32°42′ N. lat., 118°02′ W. long.;

(b) Seasons and depth constraints (except as provided in (c) below):

(1) January and February: Closed, except California scorpionfish may be taken or possessed only in waters shallower than 20 fathoms in depth, as described by general depth contour lines.

(2) March: Open for only the species or species groups listed in (A) through (F) below, and only in waters shallower than 20 fathoms in depth as described by general depth contour lines.

(A) Nearshore rockfish, as defined in subsection 1.91(a)(1)
(B) Cabezon
(C) California scorpionfish
(D) Greenlings of the genus *Hexagrammos*
(E) California sheephead
(F) Ocean whitefish

(3) April through November: Open for only the species or species groups listed in (A) through (G) below, and only in waters shallower than 20 fathoms in depth as described by general depth contour lines.

(A) Nearshore rockfish, as defined in subsection 1.91(a)(1)
(B) Cabezon
(C) California scorpionfish
(D) Greenlings of the genus *Hexagrammos*
(E) California sheephead
(F) Ocean whitefish
(G) Lingcod

(4) December: Open for only the species or species groups listed in (A) through (F) below, and only in waters shallower than 20 fathoms in depth as described by general depth contour lines.

(A) Nearshore rockfish, as defined in subsection 1.91(a)(1)
(B) Cabezon
(C) California scorpionfish
(D) Greenlings of the genus *Hexagrammos*
(E) California sheephead
(F) Ocean whitefish

(c) Special exceptions to subsection (b) above:

(1) "Other Flatfish" as defined in subsection 1.91(a)(10), which include Pacific sanddabs, may be taken or possessed in all depths all year, except that when fishing in times or areas closed under subsection (b) above, anglers are limited to not more than 12 No. 2 or smaller hooks and up to 2 pounds of weight. A No. 2 hook means a fishing hook with a gap not greater than 7/16 inch between the hook point and the shank.

(2) When angling from shore (includes beaches, banks, piers, jetties, breakwaters, docks, and other man–made structures connected to the shore), only the species identified in (b)(3) above may be taken or possessed all year, except lingcod may not be taken or possessed under this provision during the months of January, February, March and December. No vessel or watercraft (motorized or non–motorized) may be used to as-

sist in taking or possessing these species while angling from shore under this provision.

(3) When diving or spearfishing, as authorized in Section 28.90, only the species identified in (b)(3) above may be taken or possessed all year, except lingcod may not be taken or possessed under this provision during the months of January, February, March, and December. Except for spearfishing gear, all other types of fishing gear are prohibited to be aboard the vessel or watercraft (motorized or non–motorized) while spearfishing for the purpose of taking or possessing these species under this provision.

NOTE: Authority cited: Sections 200, 202 and 205, Fish and Game Code. Reference: Sections 200, 202 and 205, Fish and Game Code; and 50 CFR Part 660, Subpart G.

HISTORY

1. New section filed 1–18–2007; operative 1–18–2007 pursuant to Government Code section 11343.4(c) (Register 2007, No. 3). For prior history, see Register 2005, No. 10.

§ 27.51. California Rockfish Conservation Area.

California Rockfish Conservation Area (CRCA) means the ocean waters that are closed to recreational groundfish fishing at specified times, or closed in specified depths or areas. CRCAs serve to minimize interaction with particular species of overfished groundfish that cannot be selectively avoided and thus must be protected from overharvest by closing times, depths or areas to recreational fishing for all federally–managed groundfish and associated species (limited to California sheephead, greenlings of the genus *Hexagrammos*, and ocean whitefish) managed by California. See Section 27.20.

(a) In the CRCA, take and possession is prohibited for all 90 species of federally–managed groundfish as defined in Section 1.91. These species include but are not limited to rockfish, cabezon, lingcod, California scorpionfish, kelp greenling, and some species of sharks, skates and flatfish. Take and possession of California sheephead, ocean whitefish, and all greenlings of the genus *Hexagrammos*, which are state–managed species known to associate with federal groundfish, is also prohibited.

(b) This regulation does not apply in cases where these species are possessed aboard vessels in transit with no fishing gear in the water.

NOTE: Authority: Section 205, Fish and Game Code. Reference: Sections 200, 202 and 215, Fish and Game Code; and 50 CFR Part 660, Subpart G.

HISTORY

1. Renumbering of former section 27.83 to section 27.51, including amendment of section and NOTE, filed 1–18–2007; operative 1–18–2007 pursuant to Government Code section 11343.4(c) (Register 2007, No. 3). For prior history of section 27.51, see Register 2005, No. 10.

FIN FISH—GENERAL

§ 27.56. Take General.

Except as otherwise provided, there are no closed season, closed hours or minimum size limits on fin fish in the Pacific Ocean including all saltwater bays except that in San Francisco Bay between the Golden Gate Bridge and the Carquinez Bridge and in saltwater tributaries to the bay within the area bounded by Interstate 80 and Highways 17, 101 and 37 fin fish may not be taken between one hour after sunset to one hour before sunrise except from shore or piers.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

HISTORY

1. Amendment filed 2–21–84; designated effective 3–1–84 (Register 84, No. 8).

FIN FISH—MINIMUM SIZE LIMITS, BAG AND POSSESSION LIMITS AND SEASONS

§ 27.60. Limit.

(a) General. No more than 20 finfish in combination of all species with not more than 10 of any one species, may be taken or possessed by any one person except as otherwise provided or as defined in subsection (c) below or in Section 195. See sections 27.70 through 28.62 for special bag limits, minimum size limits and poundage restrictions for certain species that apply in addition to the general bag limit.

(b) There is no limit on the following species: anchovy, grunion, jacksmelt, topsmelt, Pacific butterfish (pompano), queenfish, sanddabs, skipjack, jack mackerel, Pacific mackerel, Pacific staghorn sculpin, round herring, Pacific herring, Pacific sardine, petrale sole and starry flounder.

(c) Boat limit. When two or more persons that are licensed or otherwise authorized to sport fish in ocean waters off California or in the San Francisco Bay District, defined in Section 27.00, are angling for finfish aboard a vessel in these waters, fishing by all authorized persons aboard may continue until boat limits of finfish are taken and possessed aboard the vessel as authorized under this section or Section 195, Title 14, CCR.

(1) The authorization for boat limits aboard a vessel does not apply to fishing trips originating in California where fish are taken in other jurisdictions.

(2) A boat limit for a species or species group is the number of persons aboard a vessel that are licensed or otherwise authorized to sport fish in ocean waters off California, or in waters of the San Francisco Bay District, (see special conditions of Section 195, Title 14, CCR, applicable to operator and crew members of vessels licensed pursuant to Fish and Game Code 7920) multiplied by the individual daily bag limit authorized for a species or species group in those waters. With the exception of species listed in subsection (b) above, the total fish aboard a boat may not exceed the aggregate per–person daily bag limit of 20–finfish in combination of all species times the number of anglers licensed or otherwise authorized to sport fish aboard the vessel. It is unlawful to exceed the boat limit at any time.

(3) All persons aboard a vessel may be cited where violations involving boat limits are found, including, but not limited to the following violations:

(A) Over limits

(B) Possession of prohibited species

(C) Violation of size limits

(D) Fish taken out of season or in closed areas.

(4) Upon completion of a fishing trip aboard a vessel, each licensed angler or person otherwise authorized to sport fish may not possess more than the individual daily bag and possession limits. For purposes of this section, a trip is completed at the time a person disembarks from a vessel and individual possession limits apply. Special boat limit provisions apply to persons fishing aboard commercial passenger fishing vessels reporting pursuant to Section 195, Title 14, CCR.

(5) Species for which no daily bag limit exists are not counted as part of a boat limit.

(6) Boat limits are not authorized for sturgeon fishing and shall not apply to the take, possession or retention of sturgeon.

NOTE: Authority cited: Sections 200, 202, 7071 and 8587.1, Fish and Game Code. Reference: Sections 205, 210, 7071 and 7120, Fish and Game Code.

HISTORY

1. Amendment filed 2–21–84; designated effective 3–1–84 (Register 84, No. 8).
2. Amendment of subsection (c) filed 1–26–88; operative 3–1–88 (Register 88, No. 6).
3. Amendment of subsections (b) and (c) and NOTE filed 3–12–92; operative 3–12–92 (Register 92, No. 20).
4. Amendment of subsection (b) and NOTE filed 3–7–94; operative 3–7–94 pursuant to Fish and Game Code sections 202 and 215 (Register 94, No. 10).
5. Amendment of subsections (b) and (c) and NOTE filed 2–5–98; operative 3–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 6).
6. Editorial correction of subsection (b) (Register 98, No. 52).
7. Amendment of subsection (b) filed 12–22–98; operative 12–22–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 52).
8. Change without regulatory effect amending subsection (b) filed 7–13–99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 29).
9. Amendment of subsection (b) filed 12–30–99; operative 12–30–99 pursuant to Fish and Game Code sections 202 and 215 (Register 99, No. 53).
10. Amendment of section and NOTE filed 3–5–2001; operative 3–5–2001 pursuant to Fish and Game Code sections 202 and 215 (Register 2001, No. 10).
11. Amendment filed 1–10–2002; operative 1–1–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 2).

12. Amendment of subsection (b) and new subsections (b)(1)–(b)(3) filed 1–3–2003; operative 1–3–2003 pursuant to Fish and Game Code sections 202 and 215 (Register 2003, No. 1).
13. Amendment of subsections (b)(1)–(3) filed 1–23–2004; operative 1–23–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 4).
14. Amendment of subsection (a), new subsections (e)–(e)(5) and amendment of NOTE filed 2–24–2004; operative 3–1–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 9).
15. Amendment of subsections (b)(1)–(2) and NOTE filed 3–30–2004 as an emergency; operative 4–1–2004 (Register 2004, No. 14). A Certificate of Compliance must be transmitted to OAL by 7–30–2004 or emergency language will be repealed by operation of law on the following day.
16. Amendment of subsection (b)(1) filed 4–29–2004 as an emergency; operative 5–1–2004 (Register 2004, No. 18). A Certificate of Compliance must be transmitted to OAL by 8–30–2004 or emergency language will be repealed by operation of law on the following day.
17. Repealer of subsections (b)–(b)(3), new subsections (b)–(b)(2) and amendment of table filed 4–28–2004; operative 5–1–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 19).
18. Certificate of Compliance as to 3–30–2004 order transmitted to OAL 7–28–2004 and filed 9–9–2004 (Register 2004, No. 37).
19. Amendment of section and NOTE filed 12–27–2004; operative 1–1–2005 pursuant to Government Code section 11343.4 (Register 2004, No. 53).
20. Amendment of subsection (b)(2) and NOTE filed 3–20–2006 as an emergency; operative 3–20–2006 (Register 2006, No. 12). A Certificate of Compliance must be transmitted to OAL by 7–18–2006 or emergency language will be repealed by operation of law on the following day.
21. Amendment of subsection (b)(2), repealer and new subsection (c) and new subsection (c)(1) filed 4–21–2006; operative 5–21–2006 (Register 2006, No. 16).
22. Reinstatement of section as it existed prior to 3–20–2006 amendment by operation of Government Code section 11346.1(f) (Register 2006, No. 33).
23. Amendment of subsections (a) and (b)(1)(A)–(b)(2) filed 1–18–2007; operative 1–18–2007 pursuant to Government Code section 11343.4(c) (Register 2007, No. 3).
24. Amendment of subsection (b)(2) and new subsection (e)(6) filed 2–28–2007; operative 2–28–2007 pursuant to Government Code section 11343.4 (Register 2007, No. 9).
25. Amendment filed 10–16–2007; operative 11–15–2007 (Register 2007, No. 42).

§ 27.65. Filleting of Fish on Vessels.

(a) Definition of Fillet: For the purpose of this section a fillet is the flesh from one side of a fish extending from the head to the tail which has been removed from the body (head, tail and backbone) in a single continuous piece.

(b) Fish That May be Filleted: No person shall fillet on any boat or bring ashore as fillets any fish, except in accordance with the following requirements:

(1) Kelp bass, sand bass, spotted bass, and ocean whitefish: All fillets shall be a minimum of six and one–half inches in length. Each fillet shall bear intact a one–inch square patch of skin.

(2) Barracuda: Fillets must be a minimum of 17 inches in length. Each fillet shall bear intact a one–inch square patch of silver skin.

(3) Lingcod. Lingcod fillets must be a minimum of 16 inches in length. Each fillet shall bear intact a one–inch square patch of skin. The minimum size and minimum fillet size for lingcod may be changed during the year or in–season by the department under the authority of subsection 27.20(e). The department will provide a news release notifying the public 10 days in advance of a change to the minimum size and minimum fillet size for lingcod made under the authority of subsection 27.20(e). Anglers and divers are advised to check the current rules before fishing. The latest fishing rules may be found on the department's website at: www.dfg.ca.gov/mrd/, or by calling (831) 649–2801 for recorded information, or by contacting a department office.

(4) White sea bass: Fillets must be a minimum of 19 inches in length. Each fillet shall bear intact a one–inch square patch of silver skin.

(5) Pacific bonito: No more than 10 fillets of any length may be possessed. All bonito fillets possessed shall be considered a part of the allowable undersized tolerance of five bonito per day less than 24 inches fork length or weighing less than five pounds as provided in Section 28.32 of these regulations. All fillets shall bear intact a one–inch square patch of skin.

(6) California halibut taken from or possessed aboard a vessel south of Point Arena (Mendocino County): Fillets must be a minimum of 16 and three–quarter inches in length and shall bear the entire skin intact. A fillet from a California halibut (flesh from one entire side of the fish with the entire skin intact) may not be cut in half fillets. However, a fillet may be cut lengthwise in a straight line along the midline of the fillet where the fillet was attached to the vertebra (backbone) of the fish only if the two pieces of a fillet remain joined along their midline for a length of at least two inches at one end of the fillet.

(7) Yellowtail: Fillets must be a minimum of 17 inches in length, except not more than 10 fillets may be less than 17 inches. Each fillet shall bear intact a one–inch square patch of skin.

(8) Rockfish: Fillets must have the entire skin attached. Bocaccio fillets must be a minimum of five inches in length. The minimum size and minimum fillet size for rockfish may be changed during the year or in–season by the department under the authority of subsection 27.20(e). The department will provide a news release notifying the public 10 calendar days in advance of a change to the minimum size and minimum fillet size for rockfish made under the authority of subsection 27.20(e). Anglers and divers are advised to check the current rules before fishing. The latest fishing rules may be found on the department's website at: www.dfg.ca.gov/mrd/, or by calling (831) 649–2801 for recorded information, or by contacting a department office.

(9) California scorpionfish (commonly termed "sculpin"): Fillets must be a minimum of 5 inches. Each fillet shall bear intact a one–inch square patch of skin. The minimum size and minimum fillet size for California scorpionfish may be changed during the year or in–season by the department under the authority of subsection 27.20(e). The department will provide a news release notifying the public 10 days in advance of a change to the minimum size and minimum fillet size for California scorpionfish made under the authority of subsection 27.20(e). Anglers and divers are advised to check the current rules before fishing. The latest fishing rules may be found on the department's website at: www.dfg.ca.gov/mrd/, or by calling (831) 649–2801 for recorded information, or by contacting a department office.

(10) All other species except those listed in subsection (c) of this section: Each fillet shall bear intact a one–inch square patch of skin. The fillets may be of any size.

(c) Fish That May Not be Filleted: No person shall fillet on any boat or bring ashore as fillets the following fish: cabezon, greenlings of the genus Hexagrammos, salmon, striped bass, sturgeon, and any species of flatfish, except California halibut may be filleted or brought ashore as fillets south of Point Arena (Mendocino County).

NOTE: Authority cited: Sections 200 and 202, Fish and Game Code. Reference: Sections 200, 202, 205, 206, 220, 240, 5508 and 5509, Fish and Game Code.

HISTORY

1. Amendment filed 1–20–83; designated effective tenth day thereafter (Register 83, No. 4).
2. Amendment of subsections (a) and (b) filed 1–22–86; designated effective 3–1–86 (Register 86, No. 6).
3. Amendment filed 10–16–91; operative 10–16–91 pursuant to Government Code section 11346.2(d) (Register 92, No. 5).
4. Amendment of subsection (b)(3) and NOTE filed 2–5–98; operative 3–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 6).
5. Editorial correction of subsection (b)(7) (Register 98, No. 47).
6. New subsection (b)(7) and subsection renumbering filed 11–20–98; operative 12–20–98 (Register 98, No. 47).
7. Change without regulatory effect amending subsection (c) filed 7–13–99 pursuant to section 100, title 1, California Code of Regulations (Register 99, No. 29).
8. Amendment of subsections (b)(1) and (b)(3), new subsections (b)(8) and (b)(9), subsection renumbering, and amendment of subsection (c) filed 12–30–99; operative 12–30–99 pursuant to Fish and Game Code sections 202 and 215 (Register 99, No. 53).
9. Amendment of subsection (b)(3) filed 1–10–2002; operative 1–1–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 2).
10. Amendment of subsection (b)(3) and NOTE filed 3–30–2004 as an emergency; operative 4–1–2004 (Register 2004, No. 14). A Certificate of Compliance must be transmitted to OAL by 7–30–2004 or emergency language will be repealed by operation of law on the following day.
11. Certificate of Compliance as to 3–30–2004 order transmitted to OAL 7–28–2004 and filed 9–9–2004 (Register 2004, No. 37).

12. Amendment of subsections (b)(3), (b)(8) and (b)(9) and amendment of NOTE filed 12–27–2004; operative 1–1–2005 pursuant to Government Code section 11343.4 (Register 2004, No. 53).
13. Amendment of subsections (b)(3), (b)(8) and (b)(9) filed 1–18–2007; operative 1–18–2007 pursuant to Government Code section 11343.4(c) (Register 2007, No. 3).
14. Amendment of subsections (b)(8) and (c) filed 2–28–2007; operative 2–28–2007 pursuant to Government Code section 11343.4 (Register 2007, No. 9).

§ 27.67. Transport of Recreational Fishing Vessel Through Areas Closed to Fishing.

NOTE: Authority cited: Sections 200, 202, 205, 7071, 7923 and 8587.1, Fish and Game Code. Reference: Sections 200, 202, 205, 7071, 7923, 8585.5 and 8587.1, Fish and Game Code.

HISTORY

1. New section filed 3–5–2001; operative 3–5–2001 pursuant to Fish and Game Code sections 202 and 215 (Register 2001, No. 10).
2. Amendment of section and NOTE filed 4–10–2002; operative 4–10–2002 pursuant to Fish and Game Code sections 205 and 215 (Register 2002, No. 15).
3. Amendment filed 4–28–2004; operative 5–1–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 19).
4. Amendment of section heading and section filed 8–4–2006; operative 8–4–2006 pursuant to Government Code section 11343.4 (Register 2006, No. 31).
5. Repealer filed 1–18–2007; operative 1–18–2007 pursuant to Government Code section 11343.4(c) (Register 2007, No. 3).

§ 27.70. Trout in the Ocean.

(a) Methods of take: The trout must voluntarily take the bait or lure in its mouth.

(b) Limit: Three, except the take of steelhead rainbow trout in the ocean is prohibited.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

HISTORY

1. Amendment of subsection (b) filed 8–11–98; operative 8–11–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 33).
2. Editorial correction restoring inadvertently deleted section (Register 2007, No. 16).

§ 27.75. Salmon Closures.

(a) No salmon may be taken in ocean waters at the mouth of the Smith and Klamath rivers within three nautical miles north and south of a line drawn due west for three nautical miles from the center of the mouth of each of said rivers.

(b) No salmon may be taken during the months of August and September in ocean waters at the mouth of the Eel River within two nautical miles north and south of a line drawn due west for two nautical miles from the center of the mouth of said river.

(c) No salmon may be taken during the month of August in ocean waters at the mouth of the Klamath River within six nautical miles north and south of a line drawn due west for three nautical miles from the center of the mouth of said river.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

HISTORY

1. New subsection (c) filed 5–30–84 as an emergency; effective upon filing (Register 84, No. 24). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 9–27–84.
2. Certificate of Compliance as to 5–30–84 order transmitted to OAL 9–13–84 and filed 10–12–84 (Register 84, No. 41).

§ 27.80. Salmon.

(a) Methods of take:

(1) General Provisions. Only by angling as defined in Section 1.05. No sinkers or weights exceeding four pounds may be used, except that a fishing line may be attached to a sinker or weight of any size if such sinker or weight is suspended by a separate line and the fishing line is released automatically by a mechanical device from the sinker or weight when any fish is hooked. See sections 28.65 and 28.70.

(2) Barbless Hooks. No more than two (2) single point, single shank barbless hooks shall be used in the ocean north of Point Conception (34°27′ 00″ N. lat.) when salmon fishing or fishing from any boat or floating device with salmon on board.

(3) Other Hook Restrictions. When fishing with bait in the ocean between Horse Mountain (40°05′ 00″ N. lat.) and Point Conception, if angling by any means other than trolling, then no more than two (2) single point, single shank, barbless circle hooks shall be used. The distance between the two hooks must not exceed five inches when measured from the top of the eye of the top hook to the inner base of the curve of the lower hook, and both hooks must be permanently tied in place (hard tied). A circle hook is defined as a hook with a generally circular shape, and a point which turns inwards, pointing directly to the shank at a 90 degree angle. Trolling is defined as angling from a boat or floating device that is making way by means of a source of power, other than drifting by means of the prevailing water current or weather conditions. See Section 28.65(g).

(4) One Rod Restriction north of Point Conception. Salmon may be taken by angling with no more than one rod in ocean waters north of Point Conception. See Section 28.65(e).

(b) Season:

(1) North of Horse Mountain (40°05′ 00″ N. lat.) and Humboldt Bay. All waters of the ocean north of Horse Mountain and in Humboldt Bay are closed to salmon fishing for 2008. (Note: In 2009, the season will be decided in April by the Pacific Fishery Management Council and California Fish and Game Commission and the section will be amended pursuant to the regulatory process.)

(2) Between Horse Mountain and Point Arena (38°57′ 30″ N. lat.). All waters of the ocean between Horse Mountain and Point Arena are open to salmon fishing from February 16 through April 4, 2008. (Note: In 2009, the season will be decided in April by the Pacific Fishery Management Council and California Fish and Game Commission and the section will be amended pursuant to the regulatory process.)

(3) South of Point Arena. All waters of the ocean south of Point Arena are closed to salmon fishing for 2008. (Note: In 2009, the season will be decided in April by the Pacific Fishery Management Council and California Fish and Game Commission and the section will be amended pursuant to the regulatory process.)

(c) Limit:

(1) Two salmon per day. See subsection (c)(2) below and Section 1.17.

(2) Statewide Silver (coho) Salmon Restrictions: No silver (coho) salmon may be retained.

(d) Minimum size:

(1) North of Horse Mountain: Twenty–four inches total length.

(2) South of Horse Mountain: Twenty inches total length.

NOTE: Authority cited: Sections 200, 202, 205, 220, 240, 316.5 and 2084, Fish and Game Code. Reference: Sections 200, 202, 205, 316.5 and 2084, Fish and Game Code.

HISTORY

1. Amendment of subsection (c)(1), new subsection (e) and relettering of former subsection (e) to subsection (f) filed 3–1–90; operative 3–1–90 (Register 90, No. 10). For prior history, see Register 89, No. 19.
2. Amendment of subsections (b) and (c) filed 5–31–90; operative 5–31–90 pursuant to Government Code section 11346.2(d) (Register 90, No. 29).
3. Change without regulatory effect amending subsections (a), (b) and (e) filed 2–22–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 13).
4. Amendment of subsections (b), (c) and (e) filed 5–1–91 as an emergency; operative 5–1–91 (Register 91, No. 25). A Certificate of Compliance must be transmitted to OAL by 8–29–91 or emergency language will be repealed by operation of law on the following day.
5. Amendment of subsections (b) and (e) filed 7–24–91 as an emergency; operative 7–24–91 (Register 91, No. 47). A Certificate of Compliance must be transmitted to OAL by 11–12–91 or emergency language will be repealed by operation of law on the following day.
6. Amendment of subsections (b) and (c) filed 8–2–91 as an emergency; operative 8–2–91 (Register 92, No. 4). A Certificate of Compliance must be transmitted to OAL 12–2–91 or emergency language will be repealed by operation of law on the following day.
7. Amendment filed 5–4–92 as an emergency; operative 5–4–92 (Register 92, No. 19). A Certificate of Compliance must be transmitted to OAL 9–1–92 or emergency language will be repealed by operation of law on the following day.
8. Amendment filed 11–24–92; operative 11–24–92 pursuant to Government Code section 11346.2(d) (Register 92, No. 48).

9. Amendment of section and NOTE filed 5–4–93; operative 5–4–93 (Register 93, No. 19).
10. Amendment of subsection (b)(3) and (d) EXCEPTION filed 7–6–93 as an emergency; operative 7–6–93 (Register 93, No. 28). A Certificate of Compliance must be transmitted to OAL by 11–3–93 or emergency language will be repealed by operation of law on the following day.
11. Amendment filed 4–29–94; operative 4–29–94 (Register 94, No. 17).
12. Order filed 7–6–93 repealed by operation of Government Code section 11349.6(d) (Register 94, No. 21).
13. Amendment filed 4–24–95; operative 4–24–95 pursuant to Government Code section 11343.4(d) (Register 95, No. 17).
14. Amendment of subsection (d) filed 4–9–96 as an emergency; operative 4–9–96 (Register 96, No. 15). A Certificate of Compliance must be transmitted to OAL by 8–8–96 or emergency language will be repealed by operation of law on the following day.
15. Amendment of section and Certificate of Compliance as to 4–9–96 order including amendment transmitted to OAL 4–26–96 and filed 4–30–96; operative 4–30–96 pursuant to Fish and Game Code section 202 (Register 96, No. 18).
16. Amendment of subsections (a)(2), (a)(3), (b)(1) and (d)(3) filed 6–28–96; operative 6–28–96 pursuant to Fish and Game Code sections 202 and 215. (Register 96, No. 26).
17. Amendment filed 5–13–97; operative 5–13–97 pursuant to Fish and Game Code sections 202 and 215 (Register 97, No. 20).
18. Amendment of subsections (a)(3), (b)(1)–(4), (c)(2) and (d)(2) filed 4–27–98; operative 4–27–98 pursuant to Government Code section 11343.4(d) and Fish and Game Code sections 202 and 215 (Register 98, No. 18).
19. Amendment of subsections (a)(3), (a)(4) and (c)(2) filed 5–14–98 as an emergency; operative 5–14–98 (Register 98, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–11–98 or emergency language will be repealed by operation of law on the following day.
20. Certificate of Compliance as to 5–14–98 order transmitted to OAL 9–9–98 and filed 10–20–98 (Register 98, No. 43).
21. Amendment of subsections (b)(1)–(4), (c)(2) and (d)(2) filed 4–28–99; operative 4–28–99 pursuant to Fish and Game Code sections 202 and 215 (Register 99, No. 18).
22. Amendment of subsections (b)(1)–(b)(4), (c)(2) and (d)(2) filed 2–29–2000; operative 2–29–2000 pursuant to Fish and Game Code sections 202 and 215 (Register 2000, No. 9).
23. Amendment filed 4–27–2000; operative 4–27–2000 pursuant to Fish and Game Code sections 202 and 215 (Register 2000, No. 17).
24. Amendment of subsections (b)(1)–(4), (c)(1) and (d)(2) and new subsection (d)(3) filed 4–23–2001; operative 5–1–2001 pursuant to Fish and Game Code sections 202 and 215 (Register 2001, No. 17).
25. Amendment filed 4–29–2002; operative 5–1–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 18).
26. Amendment of subsections (b)(1)–(4), (c)(1) and (d)(2) filed 5–1–2003; operative 5–1–2003 pursuant to Fish and Game Code section 202 and 215 (Register 2003, No. 18).
27. Amendment of subsections (b)(1)–(4) and (c)(1), repealer of subsection (c)(2), subsection renumbering and amendment of subsection (d)(2) filed 5–13–2004; operative 5–15–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 20).
28. Amendment of subsections (b)(1)–(4) and (d)(1)–(2) filed 6–8–2005; operative 6–8–2005 pursuant to Government Code section 11343.4 (Register 2005, No. 23). Because the season in the region described in subsection (b)(4) had not previously been set in regulation in 2005 and began prior to the effective date of this regulation, the minimum size of salmon that may be taken under this section in the region North of Horse Mountain is 20 inches from May 21, 2005 to June 9, 2005.
29. Repealer of subsections (b)(1)–(4), new subsections (b)(1)–(5) and amendment of subsection (d)(2) and NOTE filed 5–11–2006 as an emergency; operative 5–11–2006 (Register 2006, No. 19). A Certificate of Compliance must be transmitted to OAL by 9–8–2006 or emergency language will be repealed by operation of law on the following day.
30. Certificate of Compliance as to 5–11–2006 order, including new EXCEPTION to subsection (b)(3), transmitted to OAL 7–28–2006 and filed 8–31–2006 (Register 2006, No. 35).
31. Amendment of subsections (b)(1)–(3), repealer of subsection (b)(4), subsection renumbering and amendment of newly designated subsection (b)(4) filed 5–10–2007; operative 5–10–2007 pursuant to Government Code section 11343.4 (Register 2007, No. 19).
32. Amendment of subsections (b)(2)–(4) filed 4–4–2008 as an emergency pursuant to Fish and Game Code section 240; operative 4–4–2008 (Register 2008, No. 14). A Certificate of Compliance must be transmitted to OAL by 10–1–2008 or emergency language will be repealed by operation of law on the following day.
33. Amendment superseding 4–4–2008 emergency action filed 7–1–2008 pursuant to Fish and Game Code section 220, subdivision (a); operative 7–31–2008 (Register 2008, No. 27).

§ 27.82. Groundfish Management Areas, Seasons, Depths, Exceptions, and Fishery Closure/Rule Change Process Described.

NOTE: Authority cited: Sections 200, 202, 7071 and 8587.1, Fish and Game Code. Reference: Sections 205, 7071 and 8586, Fish and Game Code; and 50 C.F.R. 660.

HISTORY

1. New section filed 3–5–2001; operative 3–5–2001 pursuant to Fish and Game Code sections 202 and 215 (Register 2001, No. 10).
2. Amendment of subsection (b) filed 10–17–2001 as an emergency; operative 10–29–2001 pursuant to Fish and Game Code section 215 (Register 2001, No. 42). A Certificate of Compliance must be transmitted to OAL by 2–26–2002 or emergency language will be repealed by operation of law on the following day.
3. Repealer of subsection (b) and new subsections (b)–(i) filed 1–10–2002; operative 1–1–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 2).
4. Amendment of subsections (c) and (d), new subsections (d)(1)–(d)(2), amendment of subsections (e) and (g), repealer of subsection (i) and amendment of NOTE filed 1–3–2003; operative 1–3–2003 pursuant to Fish and Game Code sections 202 and 215 (Register 2003, No. 1).
5. Amendment of subsection (a) filed 4–15–2003; operative 4–15–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 16).
6. Amendment of subsections (a), (b) and (d)(1)–(2), new subsections (d)(3)–(4) and amendment of subsection (f) filed 8–13–2003 as an emergency; operative 9–1–2003 (Register 2003, No. 33). A Certificate of Compliance must be transmitted to OAL by 12–30–2003 or emergency language will be repealed by operation of law on the following day.
7. Reinstatement of section as it existed prior to 8–13–2003 emergency amendment by operation of Government Code section 11346.1(f) (Register 2004, No. 4).
8. Amendment of section heading and section filed 1–23–2004; operative 1–23–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 4).
9. Amendment of subsection (b)(1), new subsections (b)(1)(A)–(B) and (E), subsection relettering, new subsection (b)(3)(D) and amendment of NOTE filed 3–30–2004 as an emergency; operative 4–1–2004 (Register 2004, No. 14). A Certificate of Compliance must be transmitted to OAL by 7–30–2004 or emergency language will be repealed by operation of law on the following day.
10. Amendment of subsection (e) filed 4–28–2004; operative 5–1–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 19).
11. Certificate of Compliance as to 3–30–2004 order transmitted to OAL 7–28–2004 and filed 9–9–2004 (Register 2004, No. 37).
12. Amendment of section heading, section and NOTE filed 12–27–2004; operative 1–1–2005 pursuant to Government Code section 11343.4 (Register 2004, No. 53).
13. Amendment of subsections (b)(2)(D) and (b)(5)(B)–(E) filed 3–20–2006; operative 3–20–2006 pursuant to Government Code section 11343.4 (Register 2006, No. 12).
14. Repealer filed 1–18–2007; operative 1–18–2007 pursuant to Government Code section 11343.4(c) (Register 2007, No. 3).

§ 27.83. California Rockfish Conservation Area.

NOTE: Authority: Section 205, Fish and Game Code. Reference: Sections 200, 202 and 215, Fish and Game Code.

HISTORY

1. New section filed 4–15–2003; operative 4–15–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 16).
2. Amendment of first paragraph and subsection (a)(1), repealer of subsection (a)(2), renumbering and amendment of former subsection (a)(3) to (a)(2) and amendment of subsections (d)–(e) and (e)(4) filed 8–13–2003 as an emergency; operative 9–1–2003 (Register 2003, No. 33). A Certificate of Compliance must be transmitted to OAL by 12–30–2003 or emergency language will be repealed by operation of law on the following day.
3. Reinstatement of section as it existed prior to 8–13–2003 emergency amendment by operation of Government Code section 11346.1(f) (Register 2004, No. 4).

4. Amendment filed 1–23–2004; operative 1–23–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 4).
5. Amendment filed 12–27–2004; operative 1–1–2005 pursuant to Government Code section 11343.4 (Register 2004, No. 53).
6. Renumbering of former section 27.83 to section 27.51 filed 1–18–2007; operative 1–18–2007 pursuant to Government Code section 11343.4(c) (Register 2007, No. 3).

§ 27.85. Striped Bass.

(a) Open season: All year.

(b) Limit: Two.

(c) Minimum size:

(1) North of Pt. Conception, 18 inches total length.

(2) South of Pt. Conception, no minimum size limit.

(d) Methods of take: No striped bass may be taken while using a sinker weighing over four pounds, or while using any power driven gurdy or winch. Striped bass may only be taken by angling as defined in Section 1.05, Title 14, CCR; snagging is an illegal method of take.

NOTE: Authority cited: Sections 200, 202 and 205, Fish and Game Code. Reference: Sections 200–202, 203.1, 205 and 220, Fish and Game Code.

HISTORY

1. Amendment of subsection (d) and amendment of NOTE filed 8–1–2001; operative 8–1–2001 pursuant to Fish and Game Code sections 202 and 205 (Register 2001, No. 31).

§ 27.90. White Sturgeon.

(a) Open season: All year.

(b) Daily and annual bag limit: One fish per day. Three fish per year statewide.

(c) Size limit: No fish less than 46 inches total length or greater than 66 inches total length may be taken or possessed.

(d) Methods of take: The sturgeon must voluntarily take the bait or lure in its mouth. No sturgeon may be taken by trolling, snagging or by the use of firearms. Sturgeon may not be gaffed, nor shall any person use any type of firearm to assist in landing or killing any sturgeon.

(e) Report card required: Any person fishing for or taking sturgeon shall have in their possession a nontransferable Sturgeon Fishing Report Card issued by the department and shall adhere to all reporting and tagging requirements for sturgeon defined in Sections 1.74 and 27.92, Title 14, CCR.

(f) For regulations on take and possession of sturgeon in inland waters as defined in Section 1.53, see Section 5.80 and Section 5.81.

(g) Boat limits, as defined in Subsection 27.60(c) and Section 195, are not authorized for sturgeon fishing and shall not apply to the take, possession or retention of white sturgeon.

NOTE: Authority cited: Sections 200, 202, 205 and 220, Fish and Game Code. Reference: Sections 200, 205 and 206, Fish and Game Code.

HISTORY

1. Amendment of subsections (b)–(d) filed 3–1–90; operative 3–1–90 (Register 90, No. 10).
2. Amendment of subsection (c) and NOTE filed 3–12–92; operative 3–12–92 (Register 92, No. 20).
3. Amendment of subsection (c) filed 12–22–92; operative 12–22–92 pursuant to sections 202 and 215, Fish and Game Code (Register 92, No. 52).
4. Amendment of section heading and subsection (c), new subsection (e) and amendment of NOTE filed 3–20–2006 as an emergency; operative 3–20–2006 (Register 2006, No. 12). A Certificate of Compliance must be transmitted to OAL by 7–18–2006 or emergency language will be repealed by operation of law on the following day.
5. Reinstatement of section as it existed prior to 3–20–2006 amendment by operation of Government Code section 11346.1(f) (Register 2006, No. 33).
6. Amendment of subsections (b) and (c) and new subsections (e)–(h) filed 2–28–2007; operative 2–28–2007 pursuant to Government Code section 11343.4 (Register 2007, No. 9).
7. Amendment of subsection (h) filed 10–16–2007; operative 11–15–2007 (Register 2007, No. 42).
8. Amendment of subsection (e), repealer of subsections (e)(1)–(f)(2) and subsection relettering filed 3–14–2008; operative 4–1–2008 pursuant to Government Code section 11343.4 (Register 2008, No. 11).

§ 27.91. Green Sturgeon.

(a) Green sturgeon may not be taken or possessed.

(b) Green sturgeon taken and released incidentally to white sturgeon fishing shall be reported on a Sturgeon Fishing Report Card issued by the department, in accordance with procedures defined in Sections 1.74 and 27.92, Title 14, CCR.

NOTE: Authority cited: Sections 200, 202, 205 and 220, Fish and Game Code. Reference: Sections 200, 205 and 206, Fish and Game Code.

HISTORY

1. New section filed 2–28–2007; operative 2–28–2007 pursuant to Government Code section 11343.4 (Register 2007, No. 9).
2. Amendment of subsection (b) filed 3–14–2008; operative 4–1–2008 pursuant to Government Code section 11343.4 (Register 2008, No. 11).

§ 27.92. White Sturgeon Report Card and Tagging Requirements for Ocean Waters (FG 683, See Section 701).

(a) Sturgeon Fishing Report Card Required. All anglers must have a Sturgeon Fishing Report Card in their possession while fishing for or taking sturgeon. Anglers must complete and return the card pursuant to regulations in this Section and in Section 1.74.

(b) Tagging and Recording Requirements for Retained Fish. A Sturgeon Fishing Report Card includes detachable tags that shall be used to tag any white sturgeon that is taken and retained in the sport fishery. Any white sturgeon possessed by any person shall be tagged.

(1) Upon taking and retaining a white sturgeon, the cardholder shall immediately record the following information:

(A) The month, day, fishing location and length of the fish shall be recorded in the appropriate spaces on the tag. Tags shall be used in sequential order.

(B) The month, day, fishing location and length of the fish shall be recorded in the appropriate spaces on the Sturgeon Fishing Report Card which corresponds to the number on the tag.

(2) Immediately after recording the information above, the cardholder shall remove and completely detach the tag from the card and affix it to the white sturgeon. Cardholders shall not wait until completion of fishing activity to tag any white sturgeon in possession.

(3) The tag shall be securely fastened to the fish. To affix the tag, a "zip tie", string, line or other suitable material shall be passed through the tag at the location specified on the sturgeon tag and attached to the fish.

(4) Tags shall not be removed from the report card until immediately prior to affixing to a white sturgeon. Any tags detached from the report card and not affixed to a white sturgeon shall be considered used and therefore invalid. No person shall possess any used or otherwise invalid sturgeon tags.

(5) Records of Prior Activity. All tags must be accounted for at all times by entry of a record on the Sturgeon Fishing Report Card corresponding to all tags that are not in possession. Any tag that was lost or destroyed shall be recorded as such on the corresponding line on the Sturgeon Fishing Report Card.

(c) Reporting Requirements for Released Fish.

(1) Whenever the cardholder catches and releases a sturgeon, the cardholder shall immediately record the month, day, location code, and species of sturgeon.

(2) If all lines in the "sturgeon released" field of the report card are filled, any additional sturgeon caught and released need not be recorded on the card.

(d) Sturgeon tags must be left affixed to the fish in place, including while stored at a residence or non–transient location, until the fish is processed for immediate consumption.

(e) The annual fee for the Sturgeon Fishing Report Card is specified in Section 701, Title 14, CCR.

NOTE: Authority cited: Sections 200, 202 and 205, Fish and Game Code. Reference: Sections 200, 202 and 205, Fish and Game Code.

HISTORY

1. New section filed 3–14–2008; operative 4–1–2008 pursuant to Government Code section 11343.4 (Register 2008, No. 11). For prior history, see Register 2006, No. 33.

§ 27.95. Sturgeon Closure.

Green sturgeon and white sturgeon may not be taken in the following described area between January 1 and March 15: That portion of San Francisco Bay included within the following boundaries: A direct line between Pt. Chauncy (National Marine Fisheries Laboratory) and Pt.

Richmond, the San Francisco–Oakland Bay Bridge and a direct line between Pt. Lobos and Pt. Bonita.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

HISTORY

1. Amendment of section and NOTE filed 3–20–2006 as an emergency; operative 3–20–2006 (Register 2006, No. 12). A Certificate of Compliance must be transmitted to OAL by 7–18–2006 or emergency language will be repealed by operation of law on the following day.
2. Reinstatement of section as it existed prior to 3–20–2006 amendment by operation of Government Code section 11346.1(f) (Register 2006, No. 33).
3. Amendment filed 2–28–2007; operative 2–28–2007 pursuant to Government Code section 11343.4 (Register 2007, No. 9).

§ 28.00. Grunion, California.

May be taken June 1 through March 31.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

§ 28.05. Garibaldi.

May not be taken or possessed.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

§ 28.06. White Shark.

White shark may not be taken, except under permit issued by the Department pursuant to Section 1002 of the Fish and Game Code for scientific or educational purposes.

NOTE: Authority cited: Sections 200, 202, 205 and 210, Fish and Game Code. Reference: Sections 200, 202, 205, 206, 210, 1002 and 5517, Fish and Game Code.

HISTORY

1. New section filed 3–7–94; operative 3–7–94 pursuant to Fish and Game Code sections 202 and 215 (Register 94, No. 10).

§ 28.10. Giant (Black) Sea Bass.

(a) May not be taken off California. All fish taken incidental to other fishing activity shall be immediately returned to the water where taken.

(b) Limit: Two per angler per trip when fishing south of United States–Mexico border. A valid fishing permit or license from the Mexican government constitutes proof that fish were taken legally.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219, 220, 7891 and 7923, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210, 215–222, 7891 and 7923, Fish and Game Code.

§ 28.12. Gulf Grouper and Broomtail Grouper.

May not be taken or possessed.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

§ 28.15. Halibut, California.

(a) Limit: Five in waters south of a line extending due west magnetic from Point Sur, Monterey County, and three in waters north of a line extending due west magnetic from Point Sur, Monterey County.

(b) Minimum size: Twenty–two inches total length.

NOTE: Authority cited: Sections 200, 202, 205, 206 and 220, Fish and Game Code. Reference: Sections 200, 202, 205, 206, 209, 215 and 220, Fish and Game Code.

HISTORY

1. Amendment of subsection (a) and NOTE filed 2–9–96; operative 2–9–96 pursuant to Fish and Game Code sections 202 and 205 (Register 96, No. 6).

§ 28.20. Halibut, Pacific.

(a) Season: Pacific halibut may be taken only from May 1 through October 31.

(b) Limit: One.

(c) Minimum size: None.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210, 215 and 217.5–222, Fish and Game Code.

HISTORY

1. Amendment of subsections (a)–(c) filed 5–18–89; operative 5–18–89 pursuant to Government Code section 11346.2(d) (Register 89, No. 20).
2. Amendment of subsection (a) and NOTE filed 3–12–92; operative 3–12–92 (Register 92, No. 20).
3. Amendment of subsection (a) filed 12–12–94; operative 12–12–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 50).
4. Amendment of subsections (a) and (c) filed 2–28–2007; operative 2–28–2007 pursuant to Government Code section 11343.4 (Register 2007, No. 9).

§ 28.25. Barracuda, California.

Minimum size: Twenty–eight inches total length or seventeen inches alternate length.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

§ 28.26. California Sheephead.

(a) Open areas, seasons, and depth constraints: See Section 27.20 through Section 27.50 for definitions, special closure areas, and exceptions. Take and possession is authorized as follows:

(1) Northern Groundfish Management Area: Open May through December, in waters shallower than 20 fathoms.

(2) North–Central Groundfish Management Area: Open June through November, in waters shallower than 20 fathoms.

(3) Monterey South–Central Groundfish Management Area: Open May through November, in waters shallower than 40 fathoms.

(4) Morro Bay South–Central Groundfish Management Area: Open May through November, in waters shallower than 40 fathoms.

(5) Southern Groundfish Management Area: Open March through December, in waters shallower than 60 fathoms.

(6) Cowcod Conservation Areas: Open March through December, in waters shallower than 20 fathoms.

(b) Limit: Five.

(c) Minimum size: 12 inches total length.

(d) Fishing rules for California sheephead may be changed during the year or in–season by the department under the authority of subsection 27.20(e). The department will provide a news release notifying the public 10 calendar days in advance of a change for this species made under the authority of subsection 27.20(e) or Section 52.10. Anglers and divers are advised to check the current rules before fishing. The latest fishing rules may be found on the department's website at: www.dfg.ca.gov/ marine/, or by calling (831) 649–2801 for recorded information, or by contacting a department office.

NOTE: Authority cited: Sections 200, 202, 702, 7071 and 8587.1, Fish and Game Code. Reference: Sections 205, 1802, 7071 and 8586, Fish and Game Code; 50 CFR 660.384; and 14 CCR 27.20.

HISTORY

1. New section filed 3–5–2001; operative 3–5–2001 pursuant to Fish and Game Code sections 202 and 215 (Register 2001, No. 10).
2. Repealer and new subsection (a) filed 1–23–2004; operative 1–23–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 4).
3. Amendment of subsection (a), new subsection (d) and amendment of NOTE filed 12–27–2004; operative 1–1–2005 pursuant to Government Code section 11343.4 (Register 2004, No. 53).
4. Amendment of subsection (a), new subsections (a)(1)–(6) and amendment of subsection (d) filed 1–18–2007; operative 1–18–2007 pursuant to Government Code section 11343.4(c) (Register 2007, No. 3).
5. Amendment of subsections (a)(1), (a)(2) and (d) and amendment of NOTE filed 5–9–2008 as an emergency; operative 5–9–2008 (Register 2008, No. 19). A Certificate of Compliance must be transmitted to OAL by 11–5–2008 or emergency language will be repealed by operation of law on the following day.

§ 28.27. Lingcod.

(a) Open areas, seasons, and depth constraints: See Section 27.20 through Section 27.50 for definitions, special closure areas, and exceptions. Take and possession is authorized as follows:

(1) Northern Groundfish Management Area: Open May through November, in waters shallower than 20 fathoms.

(2) North–Central Groundfish Management Area: Open June through November, in waters shallower than 20 fathoms.

(3) Monterey South–Central Groundfish Management Area: Open May through November, in waters shallower than 40 fathoms.

(4) Morro Bay South–Central Groundfish Management Area: Open May through November, in waters shallower than 40 fathoms.

(5) Southern Groundfish Management Area: Open April through November, in waters shallower than 60 fathoms.

(6) Cowcod Conservation Areas: Open April through November, in waters shallower than 20 fathoms.

(b) Limit: Two.

(c) Minimum size: 24 inches total length.

(d) Method of take: Not more than two hooks and one line. For purposes of this section, a hook is a single hook, or double or treble hook with multiple points connected to a common shank.

(e) Fishing rules for lingcod may be changed during the year or in-season by the department under the authority of subsection 27.20(e). The department will provide a news release notifying the public 10 calendar days in advance of a change for this species made under the authority of subsection 27.20(e). Anglers and divers are advised to check the current rules before fishing. The latest fishing rules may be found on the department's website at: www.dfg.ca.gov/marine/, or by calling (831) 649-2801 for recorded information, or by contacting a department office.

NOTE: Authority cited: Sections 200, 202, 220, 702 and 8587.1, Fish and Game Code. Reference: Sections 205, 1802 and 8586, Fish and Game Code; 50 CFR 660, Subpart G; 50 CFR 660.384; and 14 CCR 27.20.

HISTORY

1. Amendment of section and NOTE filed 2-5-98; operative 3-1-98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 6).
2. Amendment of subsection (a) filed 12-22-98; operative 12-22-98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 52).
3. Amendment filed 12-30-99; operative 12-30-99 pursuant to Fish and Game Code sections 202 and 215 (Register 99, No. 53).
4. Amendment of subsection (a) and amendment of NOTE filed 10-30-2000 as an emergency; operative 11-1-2000 (Register 2000, No. 44). A Certificate of Compliance must be transmitted to OAL by 3-1-2001 or emergency language will be repealed by operation of law on the following day.
5. Amendment of subsections (a) and (d) filed 3-5-2001; operative 3-5-2001 pursuant to Fish and Game Code sections 202 and 215 (Register 2001, No. 10).
6. Amendment of subsections (a) and (c) filed 1-10-2002; operative 1-1-2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 2).
7. Amendment of subsection (a) filed 1-3-2003; operative 1-3-2003 pursuant to Fish and Game Code sections 202 and 215 (Register 2003, No. 1).
8. Amendment of subsection (a) filed 1-23-2004; operative 1-23-2004 pursuant to Government Code section 11343.4 (Register 2004, No. 4).
9. Amendment of subsections (a)-(c) filed 3-30-2004 as an emergency; operative 4-1-2004 (Register 2004, No. 14). A Certificate of Compliance must be transmitted to OAL by 7-30-2004 or emergency language will be repealed by operation of law on the following day.
10. Certificate of Compliance as to 3-30-2004 order transmitted to OAL 7-28-2004 and filed 9-9-2004 (Register 2004, No. 37).
11. Amendment of section and NOTE filed 12-27-2004; operative 1-1-2005 pursuant to Government Code section 11343.4 (Register 2004, No. 53).
12. Amendment of subsection (a), new subsections (a)(1)-(6) and amendment of subsection (e) and NOTE filed 1-18-2007; operative 1-18-2007 pursuant to Government Code section 11343.4(c) (Register 2007, No. 3).
13. Amendment of subsections (a)(1), (a)(2) and (e) and amendment of NOTE filed 5-9-2008 as an emergency; operative 5-9-2008 (Register 2008, No. 19). A Certificate of Compliance must be transmitted to OAL by 11-5-2008 or emergency language will be repealed by operation of law on the following day.

§ 28.28. Cabezon.

(a) Open areas, seasons, and depth constraints: See Section 27.20 through Section 27.50 for definitions, special closure areas, and exceptions. Take and possession is authorized as follows:

(1) Northern Groundfish Management Area: Open May through December, in waters shallower than 20 fathoms.

(2) North-Central Groundfish Management Area: Open June through November, in waters shallower than 20 fathoms.

(3) Monterey South-Central Groundfish Management Area: Open May through November, in waters shallower than 40 fathoms.

(4) Morro Bay South-Central Groundfish Management Area: Open May through November, in waters shallower than 40 fathoms.

(5) Southern Groundfish Management Area: Open March through December, in waters shallower than 60 fathoms.

(6) Cowcod Conservation Areas: Open March through December, in waters shallower than 20 fathoms.

(b) Limit: One fish, within a Rockfish, Cabezon, and Greenling complex (RCG complex, as defined in Section 1.91) bag limit of 10 fish.

(c) Minimum size: 15 inches total length.

(d) Fishing rules for cabezon may be changed during the year or in-season by the department under the authority of subsection 27.20(e) or Section 52.10. The department will provide a news release notifying the public 10 calendar days in advance of a change for this species made under the authority of subsection 27.20(e). Anglers and divers are advised to check the current rules before fishing. The latest fishing rules may be found on the department's website at: www.dfg.ca.gov/marine/, or by calling (831) 649-2801 for recorded information, or by contacting a department office.

NOTE: Authority cited: Sections 200, 202, 702, 7071 and 8587.1, Fish and Game Code. Reference: Sections 205, 210, 1802, 7071 and 8586, Fish and Game Code; 50 CFR 660, Subpart G; 50 CFR 660.384; and 14 CCR 27.20.

HISTORY

1. New section filed 12-30-99; operative 12-30-99 pursuant to Fish and Game Code sections 202 and 215 (Register 99, No. 53).
2. New subsection (a), subsection relettering, amendment of newly designated subsection (c) and amendment of NOTE filed 3-5-2001; operative 3-5-2001 pursuant to Fish and Game Code sections 202 and 215 (Register 2001, No. 10).
3. Amendment of subsections (a) and (b) and new subsections (b)(1) and (b)(2) filed 1-3-2003; operative 1-3-2003 pursuant to Fish and Game Code sections 202 and 215 (Register 2003, No. 1).
4. Amendment of subsection (a) filed 1-23-2004; operative 1-23-2004 pursuant to Government Code section 11343.4 (Register 2004, No. 4).
5. Amendment of subsections (a) and (b) and repealer of subsections (b)(1)-(2) filed 4-28-2004; operative 5-1-2004 pursuant to Government Code section 11343.4 (Register 2004, No. 19).
6. Amendment of section and NOTE filed 12-27-2004; operative 1-1-2005 pursuant to Government Code section 11343.4 (Register 2004, No. 53).
7. Amendment of subsection (a), new subsections (a)(1)-(6) and amendment of subsection (d) and NOTE filed 1-18-2007; operative 1-18-2007 pursuant to Government Code section 11343.4(c) (Register 2007, No. 3).
8. Amendment of subsections (a)(1), (a)(2) and (d) and amendment of NOTE filed 5-9-2008 as an emergency; operative 5-9-2008 (Register 2008, No. 19). A Certificate of Compliance must be transmitted to OAL by 11-5-2008 or emergency language will be repealed by operation of law on the following day.

§ 28.29. Kelp Greenling. Rock Greenling.

(a) Open areas, seasons, and depth constraints for greenlings of the genus *Hexagrammos* (including kelp and rock greenlings): See Section 27.20 through Section 27.50 for definitions, special closure areas, and exceptions. Take and possession is authorized as follows:

(1) Northern Groundfish Management Area: Open May through December, in waters shallower than 20 fathoms.

(2) North-Central Groundfish Management Area: Open June through November, in waters shallower than 20 fathoms.

(3) Monterey South-Central Groundfish Management Area: Open May through November, in waters shallower than 40 fathoms.

(4) Morro Bay South-Central Groundfish Management Area: Open May through November, in waters shallower than 40 fathoms.

(5) Southern Groundfish Management Area: Open March through December, in waters shallower than 60 fathoms.

(6) Cowcod Conservation Areas: Open March through December, in waters shallower than 20 fathoms.

(b) Limit: For greenlings of the genus *Hexagrammos*, within a Rockfish, Cabezon, and Greenling complex (RCG complex, as defined in Section 1.91) bag limit of 10 fish, two fish.

(c) Minimum size: 12 inches total length.

(d) Fishing rules for greenlings of the genus *Hexagrammos* may be changed during the year or in-season by the department under the authority of subsection 27.20(e) or Section 52.10. The department will provide a news release notifying the public 10 calendar days in advance of a change for these species made under the authority of subsection 27.20(e). Anglers and divers are advised to check the current rules before fishing. The latest fishing rules may be found on the department's website at: www.dfg.ca.gov/marine/, or by calling (831) 649-2801 for recorded information, or by contacting a department office.

NOTE: Authority cited: Sections 200, 202, 702, 7071 and 8587.1, Fish and Game Code. Reference: Sections 205, 210, 1802, 7071 and 8586, Fish and Game Code; 50 CFR 660, Subpart G; 50 CFR 660.384; and 14 CCR 27.20.

HISTORY

1. New section filed 12-30-99; operative 12-30-99 pursuant to Fish and Game Code sections 202 and 215 (Register 99, No. 53).
2. New subsection (a), subsection relettering and amendment of NOTE filed 3-5-2001; operative 3-5-2001 pursuant to Fish and Game Code sections 202 and 215 (Register 2001, No. 10).

3. Amendment of subsections (a) and (b) and new subsections (b)(1) and (b)(2) filed 1–3–2003; operative 1–3–2003 pursuant to Fish and Game Code sections 202 and 215 (Register 2003, No. 1).
4. Amendment of subsection (a) filed 1–23–2004; operative 1–23–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 4).
5. Amendment of subsections (a) and (b) and repealer of subsections (b)(1)–(2) filed 4–28–2004; operative 5–1–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 19).
6. Amendment of section and NOTE filed 12–27–2004; operative 1–1–2005 pursuant to Government Code section 11343.4 (Register 2004, No. 53).
7. Amendment of subsection (a), new subsections (a)(1)–(6) and amendment of subsections (b) and (d) and NOTE filed 1–18–2007; operative 1–18–2007 pursuant to Government Code section 11343.4(c) (Register 2007, No. 3).
8. Amendment of subsections (a)(1), (a)(2) and (d) and amendment of NOTE filed 5–9–2008 as an emergency; operative 5–9–2008 (Register 2008, No. 19). A Certificate of Compliance must be transmitted to OAL by 11–5–2008 or emergency language will be repealed by operation of law on the following day.

§ 28.30. Kelp Bass, Barred Sand Bass and Spotted Sand Bass.

(a) Minimum size: Twelve inches total length or eight and one–half inches alternate length.

(b) Limit: Ten in any combination of species.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

§ 28.32. Pacific Bonito.

(a) Limit: Ten.

(b) Minimum size: Twenty–four inches fork length or five pounds except that:

Five fish less than twenty–four inches fork length or weighing less than five pounds may be taken and possessed.

(c) The provisions of this section shall only remain operative if the provisions of Section 8377 of the Fish and Game Code, pertaining to the commercial take of Pacific bonito, become operative on March 1, 1982 and remain operative.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

HISTORY

1. Amendment of subsection (b) filed 1–20–83; designated effective tenth day thereafter (Register 83, No. 4).

§ 28.35. White Seabass.

(a) Minimum size: Twenty–eight inches total length or twenty and one–half inches alternate length.

(b) Season: Open all year.

(c) Limit: Three, except that only one fish may be taken in waters south of Pt. Conception between March 15 and June 15.

NOTE: Authority cited: Sections 200, 202, and 210, Fish and Game Code. Reference: Sections 200, 202, 205 and 210, Fish and Game Code.

HISTORY

1. Amendment of subsections (b) and (c) filed 2–21–84; designated effective 3–1–84 (Register 84, No. 8).

§ 28.37. Yellowtail.

(a) Limit: Ten

(b) Minimum size: Twenty–four inches fork length except that:

Five fish less than twenty–four inches fork length may be taken or possessed.

NOTE: Authority cited: Sections 200, 202, 205 and 215, Fish and Game Code. Reference: Sections 200, 202, 205 and 206, Fish and Game Code.

HISTORY

1. New section filed 2–5–98; operative 3–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 6).

§ 28.38. Tunas.

The following daily bag limits apply:

(a) Albacore:

(1) South of a line running due west true from 34°27′ N. lat. (at Point Conception, Santa Barbara County) — The special limit for albacore is 10, which may be taken or possessed in addition to the overall general daily bag limit of 20 finfish specified in subsection 27.60(a).

(2) North of a line running due west true from 34°27′ N. lat. (at Point Conception, Santa Barbara County) — The special limit for albacore is 25, which may be taken or possessed in addition to the overall general daily bag limit of 20 finfish specified in subsection 27.60(a).

(b) Bluefin tuna — The special limit for bluefin tuna is 10, which may be taken or possessed in addition to the overall general daily bag limit of 20 finfish specified in subsection 27.60(a).

(c) There is no limit on skipjack tuna.

(d) For yellowfin tuna, bigeye tuna, and other tunas not listed above, the limit is 10. Unlike albacore and bluefin tuna, fish taken under this limit shall apply toward the overall general daily bag limit of 20 finfish specified in subsection 27.60(a).

NOTE: Authority cited: Sections 200, 202 and 205, Fish and Game Code. Reference: Sections 200, 202 and 205, Fish and Game Code.

HISTORY

1. New section filed 10–16–2007; operative 11–15–2007 (Register 2007, No. 42).

§ 28.40. Broadbill Swordfish.

Limit: Two.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

§ 28.41. Sixgill Shark, Sevengill Shark.

Limit: One of each species.

NOTE: Authority cited: Sections 200, 202 and 205, Fish and Game Code. Reference: Sections 200, 202 and 205, Fish and Game Code.

HISTORY

1. New section filed 10–16–2007; operative 11–15–2007 (Register 2007, No. 42).

§ 28.42. Shortfin Mako Shark, Thresher Shark, and Blue Shark.

Limit: Two of each species.

NOTE: Authority cited: Sections 200, 202 and 205, Fish and Game Code. Reference: Sections 200, 202 and 205, Fish and Game Code.

HISTORY

1. New section filed 10–16–2007; operative 11–15–2007 (Register 2007, No. 42).

§ 28.45. Surf Smelt (Night Smelt, Day Fish, Whitebait Smelt).

Limit: Twenty–five pounds in combination.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

§ 28.48. Pacific Sanddab, Rock Sole, Sand Sole, Butter Sole, Curlfin Sole, Rex Sole, and Flathead Sole.

Pacific sanddab, rock sole, sand sole, butter sole, curlfin sole, rex sole, and flathead sole are federal groundfish, as defined in Section 1.91, and thus are subject to special regulations as follows. These species are also known in the aggregate as "other flatfish" pursuant to subsection 1.91(a)(10). Regulations of this Section do not apply to other species of sanddabs, flounders, or sole.

(a) Open areas, seasons, and depth constraints: See Section 27.20 through Section 27.50 for definitions, special closure areas, and exceptions. Take and possession is authorized as follows:

(1) Northern Groundfish Management Area: Open year–round, except gear restrictions apply as follows:

(A) January through April — In all depths, anglers are limited to not more than 12 No. 2 or smaller hooks and up to 2 pounds of weight. A No. 2 hook means a fishing hook with a gap not greater than 7/16 inch between the hook point and the shank.

(B) May through December — In waters deeper than 20 fathoms, anglers are limited to not more than 12 No. 2 or smaller hooks and up to 2 pounds of weight. A No. 2 hook means a fishing hook with a gap not greater than 7/16 inch between the hook point and the shank.

(2) North–Central Groundfish Management Area: Open year–round, except gear restrictions apply as follows:

(A) January through May — In all depths, anglers are limited to not more than 12 No. 2 or smaller hooks and up to 2 pounds of weight. A No. 2 hook means a fishing hook with a gap not greater than 7/16 inch between the hook point and the shank.

(B) June through November — In waters deeper than 20 fathoms, anglers are limited to not more than 12 No. 2 or smaller hooks and up to 2 pounds of weight. A No. 2 hook means a fishing hook with a gap not greater than 7/16 inch between the hook point and the shank.

(C) December — In all depths, anglers are limited to not more than 12 No. 2 or smaller hooks and up to 2 pounds of weight. A No. 2 hook means a fishing hook with a gap not greater than 7/16 inch between the hook point and the shank.

(3) Monterey South–Central Groundfish Management Area: Open year–round, except gear restrictions apply as follows:

(A) January through April — In all depths, anglers are limited to not more than 12 No. 2 or smaller hooks and up to 2 pounds of weight. A No. 2 hook means a fishing hook with a gap not greater than 7/16 inch between the hook point and the shank.

(B) May through November — In waters deeper than 40 fathoms, anglers are limited to not more than 12 No. 2 or smaller hooks and up to 2 pounds of weight. A No. 2 hook means a fishing hook with a gap not greater than 7/16 inch between the hook point and the shank.

(C) December — In all depths, anglers are limited to not more than 12 No. 2 or smaller hooks and up to 2 pounds of weight. A No. 2 hook means a fishing hook with a gap not greater than 7/16 inch between the hook point and the shank.

(4) Morro Bay South–Central Groundfish Management Area: Open year–round, except gear restrictions apply as follows:

(A) January through April — In all depths, anglers are limited to not more than 12 No. 2 or smaller hooks and up to 2 pounds of weight. A No. 2 hook means a fishing hook with a gap not greater than 7/16 inch between the hook point and the shank.

(B) May through November — In waters deeper than 40 fathoms, anglers are limited to not more than 12 No. 2 or smaller hooks and up to 2 pounds of weight. A No. 2 hook means a fishing hook with a gap not greater than 7/16 inch between the hook point and the shank.

(C) December — In all depths, anglers are limited to not more than 12 No. 2 or smaller hooks and up to 2 pounds of weight. A No. 2 hook means a fishing hook with a gap not greater than 7/16 inch between the hook point and the shank.

(5) Southern Groundfish Management Area: Open year–round, except gear restrictions apply as follows:

(A) January and February — In all depths, anglers are limited to not more than 12 No. 2 or smaller hooks and up to 2 pounds of weight. A No. 2 hook means a fishing hook with a gap not greater than 7/16 inch between the hook point and the shank.

(B) March through December — In waters deeper than 60 fathoms, anglers are limited to not more than 12 No. 2 or smaller hooks and up to 2 pounds of weight. A No. 2 hook means a fishing hook with a gap not greater than 7/16 inch between the hook point and the shank.

(6) Cowcod Conservation Areas: Open year–round, except gear restrictions apply as follows:

(A) January and February — In all depths, anglers are limited to not more than 12 No. 2 or smaller hooks and up to 2 pounds of weight. A No. 2 hook means a fishing hook with a gap not greater than 7/16 inch between the hook point and the shank.

(B) March through December — In waters deeper than 20 fathoms, anglers are limited to not more than 12 No. 2 or smaller hooks and up to 2 pounds of weight. A No. 2 hook means a fishing hook with a gap not greater than 7/16 inch between the hook point and the shank.

(b) Fishing rules for Pacific sanddab, rock sole, sand sole, butter sole, curlfin sole, rex sole, and flathead sole may be changed during the year or in–season by the department under the authority of subsection 27.20(e). The department will provide a news release notifying the public 10 calendar days in advance of a change for these species made under the authority of subsection 27.20(e). Anglers and divers are advised to check the current rules before fishing. The latest fishing rules may be found on the department's website at: www.dfg.ca.gov/marine/, or by calling (831) 649–2801 for recorded information, or by contacting a department office.

(c) Limit: There is no limit on Pacific sanddab. The general bag limit of not more than 20 finfish in combination of all species with not more than 10 of any one species applies to rock sole, sand sole, butter sole, curlfin sole, rex sole, and flathead sole.

NOTE: Authority cited: Sections 200, 202, 205 and 702, Fish and Game Code. Reference: Sections 200, 202, 205 and 1802, Fish and Game Code; 50 CFR Part 660, Subpart G; 50 CFR 660.384; and 14 CCR 27.20.

HISTORY

1. New section filed 1–18–2007; operative 1–18–2007 pursuant to Government Code section 11343.4(c) (Register 2007, No. 3).
2. Amendment of subsections (a)(1)(B), (a)(2)(B) and (b) and amendment of NOTE filed 5–9–2008 as an emergency; operative 5–9–2008 (Register 2008, No. 19). A Certificate of Compliance must be transmitted to OAL by 11–5–2008 or emergency language will be repealed by operation of law on the following day.

§ 28.49. Dover Sole, English Sole, Petrale Sole, Arrowtooth Flounder, and Starry Flounder.

Dover sole, English sole, Petrale sole, arrowtooth flounder and starry flounder are federal groundfish, as defined in Section 1.91, and thus are subject to special regulations as follows. Regulations of this Section do not apply to other species of flounders or sole.

(a) Open areas, seasons, and depth constraints: See Section 27.20 through Section 27.50 for definitions, special closure areas, and exceptions. Take and possession is authorized as follows:

(1) Northern Groundfish Management Area: Open May through December, in waters shallower than 20 fathoms.

(2) North–Central Groundfish Management Area: Open June through November, in waters shallower than 20 fathoms.

(3) Monterey South–Central Groundfish Management Area: Open May through November, in waters shallower than 40 fathoms.

(4) Morro Bay South–Central Groundfish Management Area: Open May through November, in waters shallower than 40 fathoms.

(5) Southern Groundfish Management Area: Open March through December, in waters shallower than 60 fathoms.

(6) Cowcod Conservation Areas: Closed.

(b) Fishing rules for Dover sole, English sole, Petrale sole, arrowtooth flounder and starry flounder may be changed during the year or in–season by the department under the authority of subsection 27.20(e). The department will provide a news release notifying the public 10 calendar days in advance of a change for these species made under the authority of subsection 27.20(e). Anglers and divers are advised to check the current rules before fishing. The latest fishing rules may be found on the department's website at: www.dfg.ca.gov/marine/, or by calling (831) 649–2801 for recorded information, or by contacting a department office.

(c) Limit: There is no limit on Petrale sole or starry flounder. The general bag limit of not more than 20 finfish in combination of all species with not more than 10 of any one species applies to Dover sole, English sole, and arrowtooth flounder.

NOTE: Authority cited: Sections 200, 202, 205 and 702, Fish and Game Code. Reference: Sections 200, 202, 205 and 1802, Fish and Game Code; 50 CFR Part 660, Subpart G; 50 CFR 660.384; and 14 CCR 27.20.

HISTORY

1. New section filed 1–18–2007; operative 1–18–2007 pursuant to Government Code section 11343.4(c) (Register 2007, No. 3).
2. Amendment of subsections (a)(1), (a)(2) and (b) and amendment of NOTE filed 5–9–2008 as an emergency; operative 5–9–2008 (Register 2008, No. 19). A Certificate of Compliance must be transmitted to OAL by 11–5–2008 or emergency language will be repealed by operation of law on the following day.

§ 28.50. Marlin.

Limit: One.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

HISTORY

1. Editorial correction filed 1–20–83 (Register 83, No. 4).

§ 28.51. Spiny Dogfish, Soupfin Shark.

Spiny dogfish and soupfin shark are federal groundfish, as defined in Section 1.91, and thus are subject to special regulations as follows.

(a) Open areas, seasons, and depth constraints: See Section 27.20 through Section 27.50 for definitions, special closure areas, and exceptions. Take and possession is authorized as follows:

(1) Northern Groundfish Management Area: Open May through December, in waters shallower than 20 fathoms.

(2) North–Central Groundfish Management Area: Open June through November, in waters shallower than 20 fathoms.

(3) Monterey South–Central Groundfish Management Area: Open May through November, in waters shallower than 40 fathoms.

(4) Morro Bay South–Central Groundfish Management Area: Open May through November, in waters shallower than 40 fathoms.

(5) Southern Groundfish Management Area: Open March through December, in waters shallower than 60 fathoms.

(6) Cowcod Conservation Areas: Closed.

(b) Fishing rules for spiny dogfish and soupfin shark may be changed during the year or in–season by the department under the authority of subsection 27.20(e). The department will provide a news release notifying the public 10 calendar days in advance of a change for these species made under the authority of subsection 27.20(e). Anglers and divers are advised to check the current rules before fishing. The latest fishing rules may be found on the department's website at: www.dfg.ca.gov/marine/, or by calling (831) 649–2801 for recorded information, or by contacting a department office.

(c) Limit: Soupfin shark — one. The general bag limit of not more than 20 finfish in combination of all species with not more than 10 of any one species applies to spiny dogfish.

NOTE: Authority cited: Sections 200, 202, 205 and 702, Fish and Game Code. Reference: Sections 200, 202, 205 and 1802, Fish and Game Code; 50 CFR Part 660, Subpart G; 50 CFR 660.385; and 14 CCR 27.20.

HISTORY

1. New section filed 1–18–2007; operative 1–18–2007 pursuant to Government Code section 11343.4(c) (Register 2007, No. 3).
2. Amendment of subsections (a)(1), (a)(2) and (b) and amendment of NOTE filed 5–9–2008 as an emergency; operative 5–9–2008 (Register 2008, No. 19). A Certificate of Compliance must be transmitted to OAL by 11–5–2008 or emergency language will be repealed by operation of law on the following day.

§ 28.52. Big Skates, California Skates, and Longnose Skates.

Big skates, California skates, and longnose skates are federal groundfish, as defined in Section 1.91, and thus are subject to special regulations as follows. Regulations in this Section do not apply to other skate species.

(a) Open areas, seasons, and depth constraints: See Section 27.20 through Section 27.50 for definitions, special closure areas, and exceptions. Take and possession is authorized as follows:

(1) Northern Groundfish Management Area: Open May through December, in waters shallower than 20 fathoms.

(2) North–Central Groundfish Management Area: Open June through November, in waters shallower than 20 fathoms.

(3) Monterey South–Central Groundfish Management Area: Open May through November, in waters shallower than 40 fathoms.

(4) Morro Bay South–Central Groundfish Management Area: Open May through November, in waters shallower than 40 fathoms.

(5) Southern Groundfish Management Area: Open March through December, in waters shallower than 60 fathoms.

(6) Cowcod Conservation Areas: Closed.

(b) Fishing rules for big skates, California skates, and longnose skates may be changed during the year or in–season by the department under the authority of subsection 27.20(e). The department will provide a news release notifying the public 10 calendar days in advance of a change for these species made under the authority of subsection 27.20(e). Anglers and divers are advised to check the current rules before fishing. The latest fishing rules may be found on the department's website at: www.dfg.ca.gov/marine/, or by calling (831) 649–2801 for recorded information, or by contacting a department office.

(c) Limit: The general bag limit of not more than 20 finfish in combination of all species with not more than 10 of any one species applies to big skates, California skates, and longnose skates.

NOTE: Authority cited: Sections 200, 202, 205 and 702, Fish and Game Code. Reference: Sections 200, 202, 205 and 1802, Fish and Game Code; 50 CFR Part 660, Subpart G; 50 CFR 660.382; and 14 CCR 27.20.

HISTORY

1. New section filed 1–18–2007; operative 1–18–2007 pursuant to Government Code section 11343.4(c) (Register 2007, No. 3).
2. Amendment of subsections (a)(1), (a)(2) and (b) and amendment of NOTE filed 5–9–2008 as an emergency; operative 5–9–2008 (Register 2008, No. 19). A Certificate of Compliance must be transmitted to OAL by 11–5–2008 or emergency language will be repealed by operation of law on the following day.

§ 28.53. Ratfish, Rattails and Codlings.

Ratfish, Pacific rattail and finescale codling are federal groundfish, as defined in Section 1.91, and thus are subject to special regulations as follows. Regulations in this Section do not apply to other rattail or codling species.

(a) Open areas, seasons, and depth constraints: See Section 27.20 through Section 27.50 for definitions, special closure areas, and exceptions. Take and possession is authorized as follows:

(1) Northern Groundfish Management Area: Open May through December, in waters shallower than 20 fathoms.

(2) North–Central Groundfish Management Area: Open June through November, in waters shallower than 20 fathoms.

(3) Monterey South–Central Groundfish Management Area: Open May through November, in waters shallower than 40 fathoms.

(4) Morro Bay South–Central Groundfish Management Area: Open May through November, in waters shallower than 40 fathoms.

(5) Southern Groundfish Management Area: Open March through December, in waters shallower than 60 fathoms.

(6) Cowcod Conservation Areas: Closed.

(b) Fishing rules for ratfish, Pacific rattail and finescale codling may be changed during the year or in–season by the department under the authority of subsection 27.20(e). The department will provide a news release notifying the public 10 calendar days in advance of a change for these species made under the authority of subsection 27.20(e). Anglers and divers are advised to check the current rules before fishing. The latest fishing rules may be found on the department's website at: www.dfg.ca.gov/marine/, or by calling (831) 649–2801 for recorded information, or by contacting a department office.

(c) Limit: The general bag limit of not more than 20 finfish in combination of all species with not more than 10 of any one species applies to ratfish, Pacific rattail and finescale codling.

NOTE: Authority cited: Sections 200, 202, 205 and 702, Fish and Game Code. Reference: Sections 200, 202, 205 and 1802, Fish and Game Code; 50 CFR Part 660, Subpart G; 50 CFR 660.384; and 14 CCR 27.20.

HISTORY

1. New section filed 1–18–2007; operative 1–18–2007 pursuant to Government Code section 11343.4(c) (Register 2007, No. 3).
2. Amendment of subsections (a)(1), (a)(2) and (b) and amendment of NOTE filed 5–9–2008 as an emergency; operative 5–9–2008 (Register 2008, No. 19). A Certificate of Compliance must be transmitted to OAL by 11–5–2008 or emergency language will be repealed by operation of law on the following day.

§ 28.54. California Scorpionfish (Sculpin).

(a) Open areas, seasons, and depth constraints: See Section 27.20 through Section 27.50 for definitions, special closure areas, and exceptions. Take and possession is authorized as follows:

(1) Northern Groundfish Management Area: Open May through December, in waters shallower than 20 fathoms.

(2) North–Central Groundfish Management Area: Open June through November, in waters shallower than 20 fathoms.

(3) Monterey South–Central Groundfish Management Area: Open May through November, in waters shallower than 40 fathoms.

(4) Morro Bay South–Central Groundfish Management Area: Open May through November, in waters shallower than 40 fathoms.

(5) Southern Groundfish Management Area: Open January and February in waters shallower than 40 fathoms, and March through December in waters shallower than 60 fathoms.

(6) Cowcod Conservation Areas: Open January through December, in waters shallower than 20 fathoms.

(b) Limit: Five.

(c) Minimum size: 10 inches total length.

(d) Fishing rules for California scorpionfish may be changed during the year or in-season by the department under the authority of subsection 27.20(e). The department will provide a news release notifying the public 10 calendar days in advance of a change for this species made under the authority of subsection 27.20(e). Anglers and divers are advised to check the current rules before fishing. The latest fishing rules may be found on the department's website at: www.dfg.ca.gov/marine/, or by calling (831) 649-2801 for recorded information, or by contacting a department office.

NOTE: Authority cited: Sections 200, 202, 702, 7071 and 8587.1, Fish and Game Code. Reference: Sections 205, 210, 220, 1802, 7071 and 8586, Fish and Game Code; 50 CFR 660, Subpart G; 50 CFR 660.384; and 14 CCR 27.20.

HISTORY

1. New section filed 12-30-99; operative 12-30-99 pursuant to Fish and Game Code sections 202 and 215 (Register 99, No. 53).
2. New subsection (a), subsection relettering and amendment of NOTE filed 3-5-2001; operative 3-5-2001 pursuant to Fish and Game Code sections 202 and 215 (Register 2001, No. 10).
3. Amendment of subsection (a) filed 10-17-2001 as an emergency; operative 10-29-2001 pursuant to Fish and Game Code section 215 (Register 2001, No. 42). A Certificate of Compliance must be transmitted to OAL by 2-26-2002 or emergency language will be repealed by operation of law on the following day.
4. Amendment of subsection (a) filed 1-10-2002; operative 1-1-2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 2).
5. Amendment of subsections (a) and (b) filed 1-3-2003; operative 1-3-2003 pursuant to Fish and Game Code sections 202 and 215 (Register 2003, No. 1).
6. Amendment of subsection (a) filed 1-23-2004; operative 1-23-2004 pursuant to Government Code section 11343.4 (Register 2004, No. 4).
7. Amendment of section and NOTE filed 12-27-2004; operative 1-1-2005 pursuant to Government Code section 11343.4 (Register 2004, No. 53).
8. Amendment of subsection (a), new subsections (a)(1)-(6) and amendment of subsection (d) and NOTE filed 1-18-2007; operative 1-18-2007 pursuant to Government Code section 11343.4(c) (Register 2007, No. 3).
9. Amendment of subsections (a)(1), (a)(2) and (d) and amendment of NOTE filed 5-9-2008 as an emergency; operative 5-9-2008 (Register 2008, No. 19). A Certificate of Compliance must be transmitted to OAL by 11-5-2008 or emergency language will be repealed by operation of law on the following day.

§ 28.55. Rockfish (*Sebastes*).

(a) Open areas, seasons, and depth constraints: See Section 27.20 through Section 27.50 for definitions, special closure areas, and exceptions. Take and possession is authorized as follows:

(1) Northern Groundfish Management Area: Open May through December, in waters shallower than 20 fathoms.

(2) North-Central Groundfish Management Area: Open June through November, in waters shallower than 20 fathoms.

(3) Monterey South-Central Groundfish Management Area: Open May through November, in waters shallower than 40 fathoms.

(4) Morro Bay South-Central Groundfish Management Area: Open May through November, in waters shallower than 40 fathoms.

(5) Southern Groundfish Management Area: Open March through December, in waters shallower than 60 fathoms.

(6) Cowcod Conservation Areas: Open March through December, in waters shallower than 20 fathoms, except that only Nearshore Rockfish, as defined in subsection 1.91(a)(1) may be taken and possessed.

(b) Limit: Ten, within the Rockfish, Cabezon, and Greenling complex (RCG complex, as defined in Section 1.91) bag limit of 10 fish, in any combination of species, except as provided below.

(1) The limit on canary rockfish, cowcod, and yelloweye rockfish is zero. These species shall not be taken or possessed as part of the RCG limit.

(2) In the Northern Groundfish Management Area (see Section 27.25), the limit on bocaccio rockfish is two fish, within the RCG limit.

(3) In the North-Central, Monterey South-Central, Morro Bay South-Central, and Southern Groundfish Management Areas (see sections 27.30 through 27.45), the limit on bocaccio rockfish is one fish, within the RCG limit.

(4) In the Cowcod Conservation Areas (see Section 27.50), the limit on bocaccio and other shelf and slope rockfish, as defined in subsections 1.91(a)(3) and 1.91(a)(4), is zero. These species shall not be taken or possessed as part of the RCG limit in this Management Area.

(c) Size limit: None, except no bocaccio may be taken or possessed that is less than 10 inches in total length.

(d) Method of take: Not more than two hooks and one line. For purposes of this section, a hook is a single hook, or a double or treble hook with multiple points connected to a common shank.

(e) Fishing rules for rockfish may be changed during the year or in-season by the department under the authority of subsection 27.20(e). The department will provide a news release notifying the public 10 calendar days in advance of a change for these species made under the authority of subsection 27.20(e). Anglers and divers are advised to check the current rules before fishing. The latest fishing rules may be found on the department's website at: www.dfg.ca.gov/marine/, or by calling (831) 649-2801 for recorded information, or by contacting a department office.

NOTE: Authority cited: Sections 200, 202, 215, 220, 702, 7071 and 8587.1, Fish and Game Code. Reference: Sections 205, 215, 220, 1802, 7071 and 8585.5, Fish and Game Code; 50 CFR 660, Subpart G; 50 CFR 660.384; and 14 CCR 27.20.

HISTORY

1. Amendment of section and NOTE filed 2-5-98; operative 3-1-98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 6).
2. Amendment filed 12-30-99; operative 12-30-99 pursuant to Fish and Game Code sections 202 and 215 (Register 99, No. 53).
3. Amendment of subsection (b) filed 6-12-2000; operative 6-12-2000 pursuant to Fish and Game Code sections 202 and 215 (Register 2000, No. 24).
4. Amendment of section and NOTE filed 3-5-2001; operative 3-5-2001 pursuant to Fish and Game Code sections 202 and 215 (Register 2001, No. 10).
5. Amendment of subsection (a)(1) and new subsection (d)(3) filed 10-17-2001 as an emergency; operative 10-29-2001 pursuant to Fish and Game Code section 215 (Register 2001, No. 42). A Certificate of Compliance must be transmitted to OAL by 2-26-2002 or emergency language will be repealed by operation of law on the following day.
6. Amendment filed 1-10-2002; operative 1-1-2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 2).
7. Amendment of subsection (a), repealer of subsections (a)(1) and (a)(2), amendment of subsection (b) and new subsections (b)(1) and (b)(2) filed 1-3-2003; operative 1-3-2003 pursuant to Fish and Game Code sections 202 and 215 (Register 2003, No. 1).
8. Amendment of subsections (a) and (b)(1)-(2) filed 1-23-2004; operative 1-23-2004 pursuant to Government Code section 11343.4 (Register 2004, No. 4).
9. Amendment of subsection (b)(1) filed 4-29-2004 as an emergency; operative 5-1-2004 (Register 2004, No. 18). A Certificate of Compliance must be transmitted to OAL by 8-30-2004 or emergency language will be repealed by operation of law on the following day.
10. Amendment of subsections (a) and (b) and repealer of subsections (b)(1)-(2) filed 4-28-2004; operative 5-1-2004 pursuant to Government Code section 11343.4 (Register 2004, No. 19).
11. Amendment of section and NOTE filed 12-27-2004; operative 1-1-2005 pursuant to Government Code section 11343.4 (Register 2004, No. 53).
12. Amendment of subsections (a) and (b), new subsections (a)(1)-(6) and (b)(1)-(4) and amendment of subsection (e) filed 1-18-2007; operative 1-18-2007 pursuant to Government Code section 11343.4(c) (Register 2007, No. 3).
13. Amendment of subsections (a)(1), (a)(2) and (e) and amendment of NOTE filed 5-9-2008 as an emergency; operative 5-9-2008 (Register 2008, No. 19). A Certificate of Compliance must be transmitted to OAL by 11-5-2008 or emergency language will be repealed by operation of law on the following day.

§ 28.56. Leopard Shark.

(a) Open areas, seasons, and depth constraints: See Section 27.20 through Section 27.50 for definitions, special closure areas, and exceptions. Take and possession is authorized as follows:

(1) Northern Groundfish Management Area: Open May through December, in waters shallower than 20 fathoms, except that take and possession is authorized year-round in Humboldt Bay.

(2) North-Central Groundfish Management Area: Open June through November, in waters shallower than 20 fathoms, except that take and possession is authorized year-round in Drake's Estero Bay, Bolinas Bay, Tomales Bay, Bodega Harbor, and San Francisco Bay.

(3) Monterey South-Central Groundfish Management Area: Open May through November, in waters shallower than 40 fathoms, except that take and possession is authorized year-round in Elkhorn Slough.

(4) Morro Bay South–Central Groundfish Management Area: Open May through November, in waters shallower than 40 fathoms.

(5) Southern Groundfish Management Area: Open March through December, in waters shallower than 60 fathoms, except that take and possession is authorized year–round in Newport Bay, Alamitos Bay, Mission Bay, and San Diego Bay.

(6) Cowcod Conservation Areas: Open March through December, in waters shallower than 20 fathoms.

(b) Limit: three.

(c) Minimum size: 36 inches total length.

(d) Fishing rules for leopard shark may be changed during the year or in–season by the department under the authority of subsection 27.20(e). The department will provide a news release notifying the public 10 calendar days in advance of a change for this species made under the authority of subsection 27.20(e). Anglers and divers are advised to check the current rules before fishing. The latest fishing rules may be found on the department's website at: www.dfg.ca.gov/marine/, or by calling (831) 649–2801 for recorded information, or by contacting a department office.

NOTE: Authority cited: Sections 200, 202, 205, 210 and 702, Fish and Game Code. Reference: Sections 200, 202, 205, 206, 210 and 1802, Fish and Game Code; 50 CFR 660.384; and 14 CCR 27.20.

HISTORY

1. New section filed 3–12–92; operative 3–12–92 (Register 92, No. 20).
2. Amendment filed 12–27–2004; operative 1–1–2005 pursuant to Government Code section 11343.4 (Register 2004, No. 53).
3. Amendment of subsection (a), new subsections (a)(1)–(6) and amendment of subsection (d) filed 1–18–2007; operative 1–18–2007 pursuant to Government Code section 11343.4(c) (Register 2007, No. 3).
4. Amendment of subsections (a)(1), (a)(2) and (d) and amendment of NOTE filed 5–9–2008 as an emergency; operative 5–9–2008 (Register 2008, No. 19). A Certificate of Compliance must be transmitted to OAL by 11–5–2008 or emergency language will be repealed by operation of law on the following day.

§ 28.57. Pacific Cod, Pacific Whiting, Sablefish, and Thornyheads.

Pacific cod, Pacific whiting, sablefish, longspine thornyhead, and shortspine thornyhead are federal groundfish, as defined in Section 1.91, and thus are subject to special regulations as follows.

(a) Open areas, seasons, and depth constraints: See Section 27.20 through Section 27.50 for definitions, special closure areas, and exceptions. Take and possession is authorized as follows:

(1) Northern Groundfish Management Area: Open May through December, in waters shallower than 20 fathoms.

(2) North–Central Groundfish Management Area: Open June through November, in waters shallower than 20 fathoms.

(3) Monterey South–Central Groundfish Management Area: Open May through November, in waters shallower than 40 fathoms.

(4) Morro Bay South–Central Groundfish Management Area: Open May through November, in waters shallower than 40 fathoms.

(5) Southern Groundfish Management Area: Open March through December, in waters shallower than 60 fathoms.

(6) Cowcod Conservation Areas: Closed.

(b) Fishing rules for Pacific cod, Pacific whiting, sablefish, longspine thornyhead, and shortspine thornyhead may be changed during the year or in–season by the department under the authority of subsection 27.20(e). The department will provide a news release notifying the public 10 calendar days in advance of a change for these species made under the authority of subsection 27.20(e). Anglers and divers are advised to check the current rules before fishing. The latest fishing rules may be found on the department's website at: www.dfg.ca.gov/marine/, or by calling (831) 649–2801 for recorded information, or by contacting a department office.

(c) Limit: The general bag limit of not more than 20 finfish in combination of all species with not more than 10 of any one species applies to Pacific cod, Pacific whiting, sablefish, longspine thornyhead, and shortspine thornyhead.

NOTE: Authority cited: Sections 200, 202, 205 and 702, Fish and Game Code. Reference: Sections 200, 202, 205 and 1802, Fish and Game Code; 50 CFR Part 660, Subpart G; 50 CFR 660.384; and 14 CCR 27.20.

HISTORY

1. New section filed 1–18–2007; operative 1–18–2007 pursuant to Government Code section 11343.4(c) (Register 2007, No. 3).
2. Amendment of subsections (a)(1), (a)(2) and (b) and amendment of NOTE filed 5–9–2008 as an emergency; operative 5–9–2008 (Register 2008, No. 19). A Certificate of Compliance must be transmitted to OAL by 11–5–2008 or emergency language will be repealed by operation of law on the following day.

§ 28.58. Ocean Whitefish.

(a) Open areas, seasons, and depth constraints: See Section 27.20 through Section 27.50 for definitions, special closure areas, and exceptions. Take and possession is authorized as follows:

(1) Northern Groundfish Management Area: Open May through December, in waters shallower than 20 fathoms.

(2) North–Central Groundfish Management Area: Open June through November, in waters shallower than 20 fathoms.

(3) Monterey South–Central Groundfish Management Area: Open May through November, in waters shallower than 40 fathoms.

(4) Morro Bay South–Central Groundfish Management Area: Open May through November, in waters shallower than 40 fathoms.

(5) Southern Groundfish Management Area: Open March through December, in waters shallower than 60 fathoms.

(6) Cowcod Conservation Areas: Open March through December, in waters shallower than 20 fathoms.

(b) Fishing rules for ocean whitefish may be changed during the year or in–season by the department under the authority of subsection 27.20(e). The department will provide a news release notifying the public 10 calendar days in advance of a change for this species made under the authority of subsection 27.20(e). Anglers and divers are advised to check the current rules before fishing. The latest fishing rules may be found on the department's website at: www.dfg.ca.gov/marine/, or by calling (831) 649–2801 for recorded information, or by contacting a department office.

(c) Limit: The general bag limit of not more than 20 finfish in combination of all species with not more than 10 of any one species applies to ocean whitefish.

NOTE: Authority cited: Sections 200, 202, 205, 210, 215, 220 and 702, Fish and Game Code. Reference: Sections 200, 202, 205, 206, 215, 220 and 1802, Fish and Game Code; 50 CFR 660.384; and 14 CCR 27.20.

HISTORY

1. New section filed 3–5–2001; operative 3–5–2001 pursuant to Fish and Game Code sections 202 and 215 (Register 2001, No. 10).
2. Amendment filed 1–3–2003; operative 1–3–2003 pursuant to Fish and Game Code sections 202 and 215 (Register 2003, No. 1).
3. Amendment filed 1–23–2004; operative 1–23–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 4).
4. Amendment of section and NOTE filed 12–27–2004; operative 1–1–2005 pursuant to Government Code section 11343.4 (Register 2004, No. 53).
5. Amendment of subsection (a), new subsections (a)(1)–(6), amendment of subsection (b) and new subsection (c) filed 1–18–2007; operative 1–18–2007 pursuant to Government Code section 11343.4(c) (Register 2007, No. 3).
6. Amendment of subsections (a)(1), (a)(2) and (b) and amendment of NOTE filed 5–9–2008 as an emergency; operative 5–9–2008 (Register 2008, No. 19). A Certificate of Compliance must be transmitted to OAL by 11–5–2008 or emergency language will be repealed by operation of law on the following day.

§ 28.59. Surfperch.

(a) For purposes of this Section, the term "surfperch" refers to all species of the family *Embiotocidae*, in any combination.

(b) Open season: Open all year, except surfperch may not be taken or possessed by a person in San Francisco Bay and San Pablo Bay between April 1 and July 31, inclusive. Shiner surfperch (*Cymatogaster aggregata*) are exempt from this seasonal closure and may be taken and possessed up to their daily bag limit in these areas during the closure period.

(c) Daily bag limits.

(1) In San Francisco Bay and San Pablo Bay, the aggregate limit is five surfperch, not including shiner surfperch. For all other areas, the aggregate limit is 20 surfperch, not including shiner surfperch. Not more than 10 surfperch may be of any one species.

(2) The special limit for shiner surfperch is 20, which may be taken or possessed in addition to the overall daily bag limit of 20 finfish specified in subsection 27.60(a).

(d) Minimum size: redtail surfperch, ten and one–half inches total length. All other surfperch, none.

NOTE: Authority cited: Sections 200, 202, 205, 215 and 220, Fish and Game Code. Reference: Sections 200, 202, 205, 206, 215 and 220, Fish and Game Code.

HISTORY

1. New section filed 1–10–2002; operative 1–1–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 2).
2. Amendment of subsections (a) and (b) filed 3–26–2002 as an emergency; operative 3–29–2002 (Register 2002, No. 13). A Certificate of Compliance must be transmitted to OAL by 7–29–2002 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 3–26–2002 order, including amendment of subsections (a) and (b), transmitted to OAL 6–28–2002 and filed 8–6–2002 (Register 2002, No. 32).
4. Amendment filed 4–21–2006; operative 5–21–2006 (Register 2006, No. 16).
5. Amendment of subsection (c)(2) filed 10–16–2007; operative 11–15–2007 (Register 2007, No. 42).

§ 28.60. Herring Eggs.

Limit: Twenty–five pounds (including plants) wet weight.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

§ 28.62. Herring.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

HISTORY

1. Repealer filed 1–26–88; operative 3–1–88 (Register 88, No. 6).

FIN FISH—GEAR RESTRICTIONS

§ 28.65. General.

Except as provided in this article, fin fish may be taken only on hook and line or by hand. Any number of hooks and lines may be used in all ocean waters and bays except:

(a) San Francisco and San Pablo bays between the Golden Gate Bridge and the west Carquinez Bridge, where only one line with not more than three hooks may be used.

(b) On public piers, no person shall use more than two rods and lines, two hand lines, or two nets, traps or other appliances used to take crabs.

(c) When rockfish (genus *Sebastes*) or lingcod (*Ophiodon elongatus*) are aboard or in possession, where only one line with not more than two hooks may be used pursuant to sections 28.55 or 28.27, respectively.

(d) No gaff hook shall be used to take or assist in landing any fin fish shorter than the minimum size limit. For the purpose of this section a gaff hook is any hook with or without a handle used to assist in landing fish or to take fish in such a manner that the fish does not take the hook voluntarily in its mouth. No person shall take fin fish from any boat or other floating device in ocean waters without having a landing net in possession or available for immediate use to assist in landing undersize fish of species having minimum size limits; the opening of any such landing net shall be not less than eighteen inches in diameter.

(e) North of Point Conception (34°27′ 00″ N. lat.), where only one rod and line may be used by each angler fishing for salmon, or fishing from any boat or floating device with salmon on board.

(f) Mousetrap gear prohibited: It is unlawful to use, assist in using, or to possess aboard any vessel, hook–and–line gear commonly termed "mouse traps" constructed of a hook(s) or lure(s), attached to one end of a line that is attached to a float, or floats at the other end, and that when fished, is not attached directly to a person or vessel. Possession of such gear aboard a vessel shall be prima facie evidence that the gear is being used in violation of this regulation.

(g) North of Point Conception to Horse Mountain, Section 27.80(a)(3) applies to each angler fishing for salmon or fishing from any boat or floating device with salmon on board.

NOTE: Authority cited: Sections 200, 202, 205, 215, 220, 240 and 7071, Fish and Game Code. Reference: Sections 200, 202, 205, 206, 215, 220, 240 and 8585.5, Fish and Game Code.

[The next page is 46.5.]

HISTORY
1. New subsection (d) filed 6–28–96; operative 6–28–96 pursuant to Fish and Game Code sections 202 and 215 (Register 96, No. 26).
2. Editorial correction of subsection (d) (Register 97, No. 19).
3. Amendment of subsection (d) and NOTE filed 5–9–97 as an emergency; operative 5–9–97 (Register 97, No. 19). A Certificate of Compliance must be transmitted to OAL by 9–8–97 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 5–9–97 order transmitted to OAL 9–3–97 and filed 10–15–97 (Register 97, No. 42).
5. New subsection (e) and amendment of NOTE filed 2–5–98; operative 3–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 6).
6. New subsection (f) filed 5–14–98 as an emergency; operative 5–14–98 (Register 98, No. 20). A Certificate of Compliance must be transmitted to OAL by 9–11–98 or emergency language will be repealed by operation of law on the following day.
7. Certificate of Compliance as to 5–14–98 order transmitted to OAL 9–9–98 and filed 10–20–98 (Register 98, No. 43).
8. Amendment of subsection (c) and subsection relettering filed 12–30–99; operative 12–30–99 pursuant to Fish and Game Code sections 202 and 215 (Register 99, No. 53).
9. Amendment of subsection (b) filed 2–18–2000; operative 3–1–2000 pursuant to Fish and Game Code sections 202 and 215 (Register 2000, No. 7).
10. Amendment of subsection (c) and NOTE filed 3–5–2001; operative 3–5–2001 pursuant to Fish and Game Code sections 202 and 215 (Register 2001, No. 10).

§ 28.70. Weight, Power Driven Gurdies or Power Driven Winches.

(a) No sinker or weight weighing more than four pounds, nor any power driven gurdy or power driven winch, may be used in any ocean waters or saltwater bays north of Point Arguello. This regulation does not apply to

(1) power gurdies or power winches used solely for handling crab nets or traps.

(2) the use of downriggers where the downrigger line is not used as a fishingline but us attached to the fishing line by a breakaway line; or

(3) the use of electric fishing reels manufactured for sport fishing use.

NOTE: Authority: Sections 200, 202, 205 and 210, Fish and Game Code. Reference: Sections 200, 202, 205–210, Fish and Game Code.

HISTORY
1. Amendment of section heading filed 2–28–85 as an emergency; designated effective 3–1–85. Certificate of Compliance included (Register 85, No. 11).
2. Amendment filed 2–11–87; designated effective 3–1–87 (Register 87, No. 9).

§ 28.75. Baited Traps for Shiner Surfperch, Pacific Staghorn Sculpin and Longjaw Mudsuckers.

In San Francisco and San Pablo bays and their saltwater tributaries, and in the open ocean and the contiguous bays of Mendocino, Sonoma and Marin counties, traps not over three feet in greatest dimension may be used to take shiner surfperch, Pacific staghorn sculpin and longjaw mudsuckers. Any other species taken shall be returned to the water immediately.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

§ 28.80. Dip Nets and Hawaiian Type Throw Nets.

Dip nets of any size and baited hoop nets not greater than 36 inches in diameter may be used to take herring, Pacific staghorn sculpin, shiner surfperch, surf smelt, topsmelt, anchovies, shrimp and squid. Hawaiian type throw nets may be used north of Point Conception to take such species.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200, 202, 205, 206 and 220, Fish and Game Code.

HISTORY
1. Amendment filed 3–12–92; operative 3–12–92 (Register 92, No. 20).
2. Amendment filed 3–7–94; operative 3–7–94 pursuant to Fish and Game Code sections 202 and 215 (Register 94, No. 10).

§ 28.85. Beach Nets.

Beach nets not over 20 feet in length with meshes at least 7/8 of an inch *in length may be used to take* surf smelt north of Point Conception.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

§ 28.90. Diving, Spearfishing.

Persons who are floating or swimming in the water may use spearfishing gear and skin or SCUBA diving equipment to take fin fish other than giant (black) sea bass, garibaldi, gulf grouper, broomtail grouper, trout, salmon, striped bass or broadbill, except that:

(a) No person may possess or use a spear within 100 yards of the mouth of any stream in any ocean waters north of Ventura County.

(b) When spearfishing for or in possession of federal groundfish or associated species as authorized pursuant to subsections 27.25(c)(4), 27.30(c)(4), 27.35(c)(4), 27.40(c)(3), 27.45(c)(4) or 27.50(c)(3), *in an* area or during a season closed to the take of these species, no fishing gear except spearfishing gear may be aboard the vessel or watercraft.

NOTE: Authority cited: Sections 200, 202, 7071 and 8587.1, Fish and Game Code. Reference: Sections 205, 7071 and 8586, Fish and Game Code; and 50 CFR 660, Subpart G.

HISTORY
1. Amendment of section and NOTE filed 12–27–2004; operative 1–1–2005 pursuant to Government Code section 11343.4 (Register 2004, No. 53).
2. Amendment of subsection (b) and NOTE filed 1–18–2007; operative 1–18–2007 pursuant to Government Code section 11343.4(c) (Register 2007, No. 3).

§ 28.91. Slurp Guns.

Slurp guns may be used to take fin fish except that bag and possession limits shall not be exceeded wherever they apply and no species of fin fish may be taken for which a minimum size limit has been established (see Sections 27.60 and 28.00–28.55).

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

§ 28.95. Spears, Harpoons and Bow and Arrow Fishing Tackle.

Spears, harpoons and bow and arrow fishing tackle may be used for taking all varieties of skates, rays, and sharks, except white sharks. Such gear may not be possessed or used within 100 yards of the mouth of any stream in any ocean waters north of Ventura County, nor aboard any vessel on any day or on any trip when broadbill swordfish or marlin have been taken. Bow and arrow fishing tackle may be used to take fin fish other than giant (black) sea bass, garibaldi, gulf grouper, broomtail grouper, trout, salmon, striped bass, broadbill and white shark.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219, 220 and 5517, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210, 215–222 and 5517, Fish and Game Code.

HISTORY
1. Amendment of section and NOTE filed 3–7–94; operative 3–7–94 pursuant to Fish and Game Code sections 202 and 215 (Register 94, No. 10).

§ 29.00. Gear Used in Taking Grunion.

No appliances of any kind may be used to take grunion, and no holes may be dug in the beach to entrap them.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

INVERTEBRATES

§ 29.05. General.

(a) Except as provided in this article there are no closed seasons, closed hours or minimum size limits for any invertebrate. The bag limit on all invertebrates for which the take is authorized and for which there is not a bag limit otherwise established in this article is 35. In San Francisco and San Pablo bays and saltwater tributaries east of the Golden Gate Bridge invertebrates may not be taken at night except from the shore.

(b) Take of all invertebrates is prohibited within state marine reserves. Take of certain invertebrates may be prohibited within state marine parks and state marine conservation areas as per subsection 632(b). In addition, tidal invertebrates may not be taken in any tidepool or other areas between the high tide mark (defined as Mean Higher High Tide) and 1,000 feet seaward and lateral to the low tide mark (defined as Mean Lower Low Water) except as follows:

(1) Except where prohibited within state marine reserves, state marine parks, state marine conservation areas, or other special closures only the following may be taken: red abalone, limpets, moon snails, turban snails, chiones, clams, cockles, mussels, rock scallops, native oysters, octo-

puses, squid, crabs, lobsters, shrimp, sand dollars, sea urchins and worms except that no worms may be taken in any mussel bed, unless taken incidental to the harvesting of mussels.

(c) Measuring Devices. Every person while taking invertebrates which have a size limit shall carry a device which is capable of accurately measuring the minimum legal size of the species taken.

(d) In all ocean waters skin and Self Contained Underwater Breathing Apparatus (SCUBA) divers may take invertebrates as provided in this article except that in all ocean waters north of Yankee Point (Monterey Co.), SCUBA may be used only to take sea urchins, rock scallops and crabs of the genus *Cancer*. For the purpose of this section, breathing tubes (snorkels) are not SCUBA.

NOTE: Authority cited: Sections 200, 202 and 210, Fish and Game Code. Reference: Sections 200, 202, 205 and 210, Fish and Game Code.

HISTORY

1. Amendment of subsection (b)(2) filed 1–20–83; designated effective tenth day thereafter (Register 83, No. 4).
2. Amendment to subsection (b)(3) filed 2–21–84; designated effective 3–1–84 (Register 84, No. 8).
3. Amendment of subsection (b) filed 2–28–85 as an emergency; designated effective 3–1–85. Certificate of Compliance included (Register 85, No. 11).
4. Amendment of subsection (b)(1) filed 1–22–86; designated effective 3–1–86 (Register 86, No. 6).
5. Amendment filed 3–8–2005; operative 4–7–2005 (Register 2005, No. 10).

§ 29.10. General.

(a) Except as otherwise provided in this article, saltwater mollusks, including octopus, may be taken only on hook and line or with the hands.

(b) The size of a mollusk is measured in greatest shell diameter.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

§ 29.15. Abalone.

(a) Geographic Area: Abalone may only be taken north of a line drawn due west magnetic from the center of the mouth of San Francisco Bay. No abalone may be taken, landed, or possessed if landed south of this line.

(b) Open Season and Hours: Abalone may be taken only during the months of April, May, June, August, September, October and November from one–half hour before sunrise to one–half hour after sunset.

(c) Bag Limit and Yearly Trip Limit: Three red abalone, *Haliotis rufescens*, may be taken per day. No more than three abalone may be possessed at any time. No other species of abalone may be taken or possessed. Each person taking abalone shall stop detaching abalone when the limit of three is reached. No person shall take more than 24 abalone during a calendar year.

(d) Minimum Abalone Size: All red abalone must be seven inches or greater measured along the longest shell diameter. All legal size abalone detached must be retained. No undersized abalone may be brought ashore or aboard any boat, placed in any type of receiver, kept on the person, or retained in any person's possession or under his control. Undersize abalone must be replaced immediately to the same surface of the rock from which detached. Abalones brought ashore shall be in such a condition that the size can be determined.

(e) Special Gear Provisions: The use of SCUBA gear or surface supplied air to take abalone is prohibited. Abalone may not be taken or possessed aboard any boat, vessel, or floating device in the water containing SCUBA or surface supplied air. Abalone may be taken only by hand or by devices commonly known as abalone irons. Abalone irons must be less than 36 inches long, straight or with a curve having a radius of not less than 18 inches, and must not be less than 3/4 inch wide nor less than 1/16 inch thick. All edges must be rounded and free of sharp edges. Knives, screwdrivers and sharp instruments are prohibited.

(f) Measuring Device. Every person while taking abalone shall carry a fixed caliper measuring gauge capable of accurately measuring seven inches. The measuring device shall have fixed opposing arms of sufficient length to measure the abalone by placing the gauge over the shell.

(g) Abalone Possession and Transportation: Abalones shall not be removed from their shell, except when being prepared for immediate consumption.

(h) Report Card Required: Any person fishing for or taking abalone shall have in their possession a nontransferable Abalone Report Card issued by the department and shall adhere to all reporting and tagging requirements for abalone defined in Sections 1.74 and 29.16, Title 14, CCR.

NOTE: Authority cited: Sections 200, 202, 205, 210, 220, 240, 5521 and 7149.8, Fish and Game Code. Reference: Sections 200, 202, 205, 220, 5521, 7145 and 7149.8, Fish and Game Code.

HISTORY

1. New subsection (f) filed 1–20–83; designated effective tenth day thereafter (Register 83, No. 4).
2. Amendment of subsection (d) filed 2–21–84; designated effective 3–1–84 (Register 84, No. 8).
3. Amendment of subsections (a) and (b) filed 3–1–90; operative 3–1–90 (Register 90, No. 10).
4. Amendment of subsection (a) and new subsection (a)(1) and NOTE filed 8–2–93; operative 9–1–93 (Register 93, No. 32).
5. Amendment of subsection (a), repealer of subsection (a)(1), and amendment of NOTE filed 6–5–95; operative 6–5–95 pursuant to Government Code section 11343.4(d) (Register 95, No. 23).
6. Amendment of subsection (a) and NOTE filed 2–1–96; operative 3–1–96 (Register 96, No. 5).
7. Amendment of subsection (a), new subsection (b), subsection relettering, and amendment of NOTE filed 5–22–97 as an emergency; operative 5–22–97 (Register 97, No. 21). A Certificate of Compliance must be transmitted to OAL by 9–19–97 or emergency language will be repealed by operation of law on the following day.
8. Amendment of subsection (a), new subsection (b), subsection relettering, and amendment of NOTE refiled 9–8–97 as an emergency; operative 9–8–97 (Register 97, No. 37). A Certificate of Compliance must be transmitted to OAL by 1–6–98 or emergency language will be repealed by operation of law on the following day.
9. Reinstatement of section and NOTE as they existed prior to 5–22–97 emergency amendment by operation of Government Code section 11346.1(f) (Register 98, No. 17).
10. Amendment of subsections (a) and (b), repealer of subsection (b)(1) and amendment of NOTE filed 4–22–98; operative 4–22–98 pursuant to Government Code section 11343.4(d) (Register 98, No. 17).
11. Amendment of section and NOTE filed 2–18–2000; operative 3–1–2000 pursuant to Fish and Game Code sections 202 and 215 (Register 2000, No. 7).
12. Amendment of subsections (f) and (h) and amendment of NOTE filed 2–27–2001; operative 2–27–2001 pursuant to Government Code section 11343.4 (Register 2001, No. 9).
13. Amendment filed 1–10–2002; operative 1–1–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 2).
14. Amendment of subsections (c) and (h) and new subsection (i) filed 2–24–2004; operative 3–1–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 9).
15. Amendment of subsections (h)–(i) filed 12–14–2007; operative 1–13–2008 (Register 2007, No. 50).
16. Amendment of subsection (g), repealer of subsections (h)–(i) and new subsection (h) filed 3–14–2008; operative 4–1–2008 pursuant to Government Code section 11343.4 (Register 2008, No. 11).

§ 29.16. Abalone Report Card and Tagging Requirements (FG 2915, See Section 701).

(a) Abalone Report Card Required. All individuals including divers must have an Abalone Report Card in their immediate possession while fishing for or taking red abalone. Individuals must complete and return the card pursuant to regulations in this Section and in Section 1.74.

(b) Tagging Requirements. An Abalone Report Card includes detachable tags that shall be used to tag any abalone that is taken and retained in the sport fishery. Any red abalone possessed by any person shall be tagged.

(1) Cardholders shall tag any red abalone either immediately upon exiting the water or immediately upon boarding a vessel, whichever occurs first. For the purposes of this section a vessel is defined as any watercraft used or capable of being used as a means of transportation on water (reference Section 9840(a) CVC). Cardholders shall not wait to return to their vehicle, beach site or other location to tag any abalone in possession.

EXCEPTION: Cardholders who dive from a non–motorized vessel such as a kayak that is in the water may wait until immediately after disembarking from the non–motorized vessel to tag and record any abalone in possession, but shall not transfer any abalone from his or her immediate possession unless they are first tagged and recorded on the report card.

(2) The cardholder shall fill in the month, day, time of catch, and fishing location on the abalone tag, remove and completely detach the tag from the card, and affix it to the shell of the abalone.

(3) The tag shall be securely fastened to the shell of the abalone. To affix the tag, a "zip tie", string, line or other suitable material shall be passed through a siphon hole on the abalone shell and through the tag at the location specified on the abalone tag.

(4) Tags shall be used in sequential order, and shall not be removed from the report card until immediately prior to affixing to an abalone. Any tags detached from the report card and not affixed to an abalone shall be considered used and therefore invalid.

(5) No person shall possess any used or otherwise invalid abalone tags not attached to an abalone shell.

(c) Reporting Requirements. Immediately upon tagging all abalone in possession, the cardholder shall record the month, day, time of catch, and fishing location in the appropriate spaces on the numbered line on the Abalone Report Card which corresponds to the number on the tag attached to the abalone.

(d) Records of Prior Activity. All tags must be accounted for at all times by entry of a record on the Abalone Report Card corresponding to all tags that are not in possession. Any tag that was lost or destroyed shall be recorded as such on the corresponding line on the Abalone Report Card. Any tag that was inadvertently removed and is still in possession shall be recorded as void on both the tag and the corresponding line on the Abalone Report Card.

(e) Abalone tags must be left affixed to the shell, including while stored at a residence or non–transient location, until the abalone is processed for immediate consumption.

(f) The annual fee for the Abalone Report Card is specified in Section 7149.8 of the Fish and Game Code.

NOTE: Authority cited: Sections 200, 202 and 205, Fish and Game Code. Reference: Sections 200, 202 and 205, Fish and Game Code.

HISTORY

1. New section filed 3–14–2008; operative 4–1–2008 pursuant to Government Code section 11343.4 (Register 2008, No. 11).

§ 29.20. Clams General.

(a) Except as provided in this article, there are no closed seasons, bag limits or size limits on saltwater clams.

(b) Fishing hours: one–half hour before sunrise to one–half hour after sunset.

(c) Special gear provisions: Spades, shovels, hoes, rakes or other appliances operated by hand, except spears or gaff hooks, may be used to take clams. No instrument capable of being used to dig clams may be possessed between one–half hour after sunset and one–half hour before sunrise, on any beach of this state, except tools and implements used in the work of cleaning, repairing or maintaining such beach when possessed by a person authorized by appropriate authority to perform such work.

(d) Clams ashore: Clams which have a size limit when being taken must be brought ashore above the high water mark in such a condition that the size can be determined. Such clams not in the shell may not be transported or possessed, except when being prepared for immediate consumption. Clams which have a size limit and are not retained shall be immediately reburied in the area from which dug.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

HISTORY

1. Editorial correction of printing error in subsection (c) (Register 91, No. 31).

§ 29.25. Gaper Clams and Washington Clams.

Limit: Ten of each species, except in Humboldt Bay the limit is fifty in combination; however, no more than 25 gaper clams may be taken or possessed. In Elkhorn Slough the limit is twelve in combination. All gaper clams and Washington clams dug, regardless of size or broken condition, must be retained until the bag limit is reached. For purposes of this section, clams commonly termed horse clams or horseneck clams are gaper clams, not geoduck clams regulated pursuant to Section 29.30, Title 14, CCR.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

HISTORY

1. Amendment filed 2–18–2000; operative 3–1–2000 pursuant to Fish and Game Code sections 202 and 215 (Register 2000, No. 7).

§ 29.30. Geoduck Clams.

Limit: Three. The first three geoduck clams dug must be retained as the bag limit regardless of size or broken condition. For purposes of this section, clams commonly termed horse clams or horseneck clams are not geoduck clams.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

HISTORY

1. Amendment filed 2–18–2000; operative 3–1–2000 pursuant to Fish and Game Code sections 202 and 215 (Register 2000, No. 7).

§ 29.35. Littleneck Clams, Soft–Shell Clams, Chiones, Northern Quahogs, and Cockles.

(a) Limit: Fifty in combination.

(b) Minimum size: One and one–half inches in greatest diameter, except there is no size limit for soft–shell clams. All soft–shell clams dug, regardless of size or broken condition, must be retained until the bag limit is reached.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

§ 29.40. Pismo Clams.

(a) Open season: May be taken in Santa Cruz and Monterey counties September 1 through April 30. In all other counties, except in state marine reserves or other marine protected areas which prohibit the take of clams (see Section 632), Pismo clams may be taken at any time of the year.

(b) Limit: Ten.

(c) Minimum size: Five inches in greatest shell diameter north of the boundary between San Luis Obispo and Monterey counties; four and one–half inches in greatest shell diameter south of the boundary, between San Luis Obispo and Monterey counties.

(d) Clam preserves: No clams shall be taken within state marine reserves or other marine protected areas which prohibit the take of clams (see Section 632).

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

HISTORY

1. Amendment of subsections (a) and (d) and repealer of subsections (d)(1)–(3) filed 3–8–2005; operative 4–7–2005 (Register 2005, No. 10).

§ 29.45. Razor Clams.

(a) Open season:

(1) Little River Beach in Humboldt County: Between Mad River and Strawberry Creek open only during even–numbered years; between Strawberry Creek and Moonstone Beach open only during odd–numbered years.

(2) In Del Norte County: North of Battery Point open only during odd–numbered years; south of Battery Point open only during even–numbered years.

(3) All other areas: Open all year.

(b) Limit: Twenty. The first twenty clams dug must be retained as the bag limit regardless of size or broken condition.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

§ 29.55. Mussels.

Limit: Ten pounds (in the shell) of California sea mussels and bay mussels in combination.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

HISTORY

1. Amendment filed 2–28–85 as an emergency; designated effective 3–1–85. Certificate of Compliance included (Register 85, No. 11).

§ 29.60. Rock Scallops.

(a) Limit: Ten.

(b) Methods of take: Rock scallops may be taken only by hand, by the use of dive knives, or by devices commonly known as abalone irons in compliance with provisions of Section 29.15(e) of these regulations.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

§ 29.65. Speckled (Bay) Scallops.

May not be taken or possessed.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

§ 29.70. Market Squid, Jumbo Squid.

Squid may be taken with hand–held dip nets. There is no limit.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

HISTORY

1. Amendment of section heading filed 2–28–2007; operative 2–28–2007 pursuant to Government Code section 11343.4 (Register 2007, No. 9).

§ 29.71. Moon Snails.

(a) Limit: Five.

(b) Open season: All year except that moon snails may not be taken north of the Golden Gate Bridge.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

CRUSTACEANS

§ 29.80. Gear Restrictions.

(a) General Provisions.

(1) Saltwater crustaceans may be taken by hand.

(2) Nets, traps or other appliances may be not used except as provided in this Section.

(3) It is unlawful to disturb, move, or damage any trap; or remove any saltwater crustacean from a trap, that belongs to another person without written permission in possession from the owner of the trap.

(b) Baited hoop nets may be used to take spiny lobsters and all species of crabs. Between Point Arguello, Santa Barbara County, and the United States–Mexico border, not more than five baited hoop nets may be fished by a person to take spiny lobster and crab, not to exceed a total of 10 baited hoop nets fished from any vessel.

(c) Crab traps shall have at least two rigid circular openings of not less than four and one–quarter inches inside diameter so constructed that the lowest portion of each opening is no lower than five inches from the top of the trap.

(d) Crab loop traps may have up to six loops.

(e) Crab trap areas: Crab traps, including crab loop traps, may be used north of Point Arguello to take all species of crabs (see regulations for take of Dungeness crabs in traps from commercial passenger fishing vessels in Section 29.85, Title 14, CCR).

(f) Shrimp and prawn traps may be used to take shrimp and prawns only. Trap openings may not exceed 1/2 inch in any dimension on traps used south of Point Conception nor five inches in any dimension on traps used north of Point Conception.

(g) Diving for crustaceans: In all ocean waters, except as provided in Section 29.05, skin and SCUBA divers may take crustaceans by the use of the hands only. Divers may not possess any hooked device while diving or attempting to dive.

(h) Hand operated appliances: Spades, shovels, hoes, rakes or other appliances operated by hand may be used to take sand crabs and shrimp.

(i) Dip nets and Hawaiian type throw nets: Shrimp may be taken with dip nets and Hawaiian type throw nets north of Point Conception.

(j) Shrimp trawls: Shrimp beam trawls may be used to take shrimp only in San Francisco Bay waters east of the Golden Gate Bridge, and in San Pablo Bay. The beam trawl frame from which the net is hung may not exceed 24 inches by 18 inches. The trawl may be towed by motorized vessels but may not be retrieved by mechanical devices. Any fish, other than shrimp, caught in the trawl must be returned immediately to the water.

NOTE: Authority cited: Sections 200, 202, 205, 215 and 220, Fish and Game Code. Reference: Sections 200, 202, 205, 206, 215 and 220, Fish and Game Code.

HISTORY

1. New subsection (d), subsection redesignation and amendment of subsection (e) and NOTE filed 3–7–94; operative 3–7–94 pursuant to Fish and Game Code sections 202 and 215 (Register 94, No. 10).
2. Amendment of subsection (c) filed 10–20–94; operative 10–20–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 42).
3. Amendment of subsection (b) and NOTE filed 2–5–98; operative 3–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 6).
4. Amendment of subsections (b) and (e) filed 2–18–2000; operative 3–1–2000 pursuant to Fish and Game Code sections 202 and 215 (Register 2000, No. 7).
5. Repealer and new subsection (a), new subsections (a)(1)–(3) and amendment of subsection (g) filed 2–28–2007; operative 2–28–2007 pursuant to Government Code section 11343.4 (Register 2007, No. 9).

§ 29.85. Crabs.

(a) Dungeness crabs (*Cancer magister*):

(1) Closure: Dungeness crab may not be taken from or possessed if taken from San Francisco Bay and San Pablo Bay, plus all their tidal bays, sloughs and estuaries between the Golden Gate Bridge and Carquinez Bridge.

(2) Open season:

(A) Del Norte, Humboldt and Mendocino counties: From the last Saturday in November through July 30.

(B) All other counties: From the first Saturday in November through June 30.

(3) Limit: Ten, except in Sonoma, Marin, San Francisco, San Mateo, Santa Cruz, and Monterey counties, when fishing aboard a commercial passenger fishing vessel required to be licensed pursuant to Section 7881 and/or Section 7920, Fish and Game Code, the limit is six.

(4) Not more than 60 crab traps are authorized to be used to take Dungeness crab from a vessel operating under authority of a Commercial Passenger Fishing Vessel License issued pursuant to Fish and Game Code Section 7920.

(5) Traps and trap buoys by a commercial passenger fishing vessel to take Dungeness crab under authority of this Section and Section 29.80 shall have the commercial boat registration number of that vessel affixed to each trap and buoy.

(6) No vessel that takes Dungeness crabs under authority of this section, or Section 29.80, shall be used to take Dungeness crabs for commercial purposes.

(7) Minimum size: Five and three–quarter inches measured by the shortest distance through the body from edge of shell to edge of shell directly in front of and excluding the points (lateral spines); except in Sonoma, Marin, San Francisco, San Mateo, Santa Cruz, and Monterey counties, when fishing aboard a commercial passenger fishing vessel required to be licensed pursuant to Section 7881 and/or Section 7920, Fish and Game Code, the minimum size is six inches measured by the shortest distance through the body from edge of shell to edge of shell directly in front of and excluding the points (lateral spines).

(b) All crabs of the *Cancer* genus except Dungeness crabs, but including: yellow crabs, rock crabs, red crabs and slender crabs:

(1) Open season: All year.

(2) Limit: Thirty–five.

(3) Minimum size: Four inches measured by the shortest distance through the body, from edge of shell to edge of shell at the widest part, except there is no minimum size in Fish and Game districts 8 and 9.

(c) All crabs of the genus *Cancer*, including Dungeness crabs, yellow crabs, rock crabs, red crabs and slender crabs, may be brought to the surface of the water for measuring, but no undersize crabs may be placed in any type of receiver, kept on the person or retained in any person's possession or under his direct control; all crabs shall be measured immediately and any undersize crabs shall be released immediately into the water.

(d) Sand crabs (*Emerita analoga*): Limit: Fifty.

NOTE: Authority cited: Sections 200, 202, 205 and 220, Fish and Game Code. Reference: Sections 200, 202, 205, 206 and 220, Fish and Game Code.

HISTORY

1. Amendment of subsection (a)(4) filed 3–1–90; operative 3–1–90 (Register 90, No. 10).
2. Amendment of subsections (a)(2)(A)–(B) and (b)(3) and filed 3–12–92; operative 3–12–92 (Register 92, No. 20).
3. New subsection (d) and amendment of subsection (a) filed 3–7–94; operative 3–7–94 pursuant to Fish and Game Code sections 202 and 215 (Register 94, No. 10).
4. Amendment of subsections (a)(3)–(4) filed 10–20–94; operative 10–20–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 42).
5. New subsections (a)(4)–(a)(6) and subsection renumbering filed 2–18–2000; operative 3–1–2000 pursuant to Fish and Game Code sections 202 and 215 (Register 2000, No. 7).
6. Amendment of subsections (a)(2)(A)–(B) and amendment of NOTE filed 2–28–2007; operative 2–28–2007 pursuant to Government Code section 11343.4 (Register 2007, No. 9).
7. Amendment of subsection (a)(1) and amendment of NOTE filed 10–9–2007; operative 11–8–2007 (Register 2007, No. 41).

§ 29.86. Bay Shrimp (Grass Shrimp).

Limit: Five pounds.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

§ 29.87. Ghost Shrimp and Blue Mud Shrimp.

Limit: Fifty in combination.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200–202, 203.1, 205–210 and 215–222, Fish and Game Code.

§ 29.88.

Coonstripe shrimp (*Pandalus danae*): Twenty pounds (in the shell, heads on) per day. The first 20 pounds taken, regardless of size or condition, shall constitute a daily bag and possession limit.

NOTE: Authority cited: Sections 200, 202, 205 and 215, Fish and Game Code. Reference: Sections 200, 202, 205 and 206, Fish and Game Code.

HISTORY

1. New section filed 2–5–98; operative 3–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 6).

§ 29.90. Spiny Lobsters.

(a) Open season: From the Saturday preceding the first Wednesday in October through the first Wednesday after the 15th of March.

(b) Limit: Seven.

(c) Minimum size: Three and one–fourth inches measured in a straight line on the mid–line of the back from the rear edge of the eye socket to the rear edge of the body shell. Any lobster may be brought to the surface of the water for the purpose of measuring, but no undersize lobster may be brought aboard any boat, placed in any type of receiver, kept on the person or retained in any person's possession or under his direct control; all lobsters shall be measured immediately upon being brought to the surface of the water, and any undersize lobster shall be released immediately into the water.

(d) Report Card Required: Any person fishing for or taking spiny lobster shall have in their possession a nontransferable Spiny Lobster Report Card issued by the department and shall adhere to all reporting requirements for lobster defined in Sections 1.74 and 29.91, Title 14, CCR.

NOTE: Authority cited: Sections 200, 202, 205, 219 and 220, Fish and Game Code. Reference: Sections 200, 202, 205, 210 and 220, Fish and Game Code.

HISTORY

1. Amendment of subsection (a) and NOTE filed 3–12–92; operative 3–12–92 (Register 92, No. 20).
2. New subsection (d) filed 3–14–2008; operative 4–1–2008 pursuant to Government Code section 11343.4 (Register 2008, No. 11).

§ 29.91. Spiny Lobster Report Card Requirements for Ocean Waters (FG 685, See Section 701).

(a) Spiny Lobster Report Card Required. All individuals must have a Spiny Lobster Report Card in their possession while fishing for or taking lobster. In the case of a person diving from a boat, the report card may be kept in the boat, or in the case of a person diving from the shore, the report card may be kept within 500 yards from the point of entry. Individuals must complete and return the card pursuant to regulations in this Section and in Section 1.74.

(b) Prior to beginning fishing activity, the cardholder must record the month, day, location, and gear code on the first available line on the report card.

(c) When the cardholder moves to another location code, or finishes fishing for the day, he or she must immediately record on the card the number of lobster kept from that location.

(d) In the event an individual fills in all lines and returns a Spiny Lobster Report Card, an additional card may be purchased. See Section 1.74.

(e) The annual fee for the Spiny Lobster Report Card is specified in Section 701, Title 14, CCR.

NOTE: Authority cited: Sections 200, 202 and 205, Fish and Game Code. Reference: Sections 200, 202 and 205, Fish and Game Code.

HISTORY

1. New section filed 3–14–2008; operative 4–1–2008 pursuant to Government Code section 11343.4 (Register 2008, No. 11).

NON–COMMERCIAL USE OF MARINE PLANTS

§ 30.00. Kelp General.

(a) Except as provided in this section and in Section 30.10 there is no closed season, closed hours or minimum size limit for any species of marine aquatic plant. The daily bag limit on all marine aquatic plants for which the take is authorized, except as provided in Section 28.60, is 10 pounds wet weight in the aggregate.

(b) Marine aquatic plants may not be cut or harvested in state marine reserves. Regulations within state marine conservation areas and state marine parks may prohibit cutting or harvesting of marine aquatic plants per subsection 632(b).

NOTE: Authority cited: Section 6750, Fish and Game Code. Reference: Section 6750, Fish and Game Code.

HISTORY

1. New section filed 5–9–84; effective thirtieth day thereafter (Register 84, No. 19).
2. Amendment of subsection (b) filed 3–8–2005; operative 4–7–2005 (Register 2005, No. 10).

§ 30.10. Prohibited Species.

No eel grass (*Zostera*), surf grass (*Phyllospadix*) or sea palm (*Postelsia*) may be cut or disturbed.

NOTE: Authority cited: Section 6750, Fish and Game Code. Reference: Section 6750, Fish and Game Code.

HISTORY

1. New section filed 5–9–84; effective thirtieth day thereafter (Register 84, No. 19).

Chapter 5. Native Reptiles and Amphibians

(See Species Regulations Regarding Bullfrogs)

§ 40. General Provisions Relating to Native Reptiles and Amphibians.

(a) General Prohibition It is unlawful to capture, collect, intentionally kill or injure, possess, purchase, propagate, sell, transport, import or export any native reptile or amphibian, or part thereof, except as provided in this chapter, Chapter 2 of this subdivision relating to sportfishing and frogging, sections 650, 670.7, or 783 of these regulations, or as otherwise provided in the Fish and Game Code or these regulations.

(b) For the purposes of this section, "intentionally kill or injure" does not include death or injury that occurs incidental to an otherwise lawful activity. This section does not prohibit the capture, temporary collection or temporary possession of native reptiles and amphibians done to avoid mortality or injury in connection with such activities. The live capture and release of native reptiles and amphibians done to avoid such death or injury may occur only with the department's written approval.

(c) Except for dried or processed reptile skins, it is unlawful to display, in any place of business where pets or other animals are sold, native reptiles or amphibians which cannot lawfully be sold.

(d) Progeny resulting from pregnant native reptiles or amphibians collected from the wild must be transferred to another person or to a scientific or educational institution within 45 days of birth or hatching. Persons

receiving such progeny shall comply with the bag and possession limits specified in sections 5.05 and 5.60.

(e) Reptiles or amphibians which have been in captivity, including wild-caught and captively-bred individuals or offspring, shall not be released into the wild without the written approval of the department.

(f) Biological Supply Houses and Exempt Organizations.

(1) Biological Supply Houses. The department may issue permits to owners of biological supply houses to sell native reptiles and amphibians to scientific or educational institutions, pursuant to Section 651.

(2) Organizations and Schools Exempt from Permit. Institutions or organizations engaged in bona fide scientific study of native wildlife, whose specimens are readily available for use or viewing by the public at large on a regular basis, and government accredited schools that are open to the public may possess, accept donations of, or exchange, purchase or sell between organizations, native reptiles and amphibians without a permit.

HISTORY

1. New section filed 9-10-96; operative 9-10-96 pursuant to Fish and Game Code sections 202 and 215 (Register 96, No. 37).
2. Amendment filed 1-10-2002; operative 1-1-2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 2).

§ 40.00. Protected Amphibians.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200-202, 205-210 and 220, Fish and Game Code.

HISTORY

1. Renumbering of chapter 5 to chapter 7 and new chapter 5 (sections 40.00 through 40.15, not consecutive) filed 1-16-74; designated effective 3-1-74 (Register 74, No. 3).
2. Amendment of NOTE filed 12-31-80; effective thirtieth day thereafter (Register 81, No. 1).
3. Repealer of chapter 5 (sections 40.00-40.15, not consecutive) and new chapter 5 (sections 40.00-40.15, not consecutive) filed 2-17-82; designated effective 3-1-82 (Register 82, No. 8). For prior history, see Register 79, No. 1.
4. Amendment of chapter 5 heading and repealer and new section 40.00 filed 1-20-83; designated effective tenth day thereafter (Register 83, No. 4).
5. Amendment of undesignated introductory paragraph and NOTE filed 4-18-91; operative 5-18-91 (Register 91, No. 21).
6. Editorial correction of printing error in first paragraph (Register 91, No. 31).
7. Amendment of section and NOTE filed 3-7-94; operative 3-7-94 pursuant to Fish and Game Code sections 202 and 215 (Register 94, No. 10).
8. Repealer filed 9-10-96; operative 9-10-96 pursuant to Fish and Game Code sections 202 and 215 (Register 96, No. 37).

§ 40.05. Amphibians Except Protected Amphibians.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200-202, 205-210, 215 and 218-221 and 2050-2055, Fish and Game Code.

HISTORY

1. Amendment of subsections (a), (c) and (e) filed 1-20-83; designated effective tenth day thereafter (Register 83, No. 4).
2. New subsection (f) filed 2-21-84; designated effective 3-1-84 (Register 84, No. 8).
3. New subsection (e)(3) and amendment of subsection (e)(1) and NOTE filed 3-7-94; operative 3-7-94 pursuant to Fish and Game Code sections 202 and 215 (Register 94, No. 10).
4. Repealer filed 9-10-96; operative 9-10-96 pursuant to Fish and Game Code sections 202 and 215 (Register 96, No. 37).

§ 40.10. Protected Reptiles.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200-202, 205-210, 215 and 218-221, Fish and Game Code.

HISTORY

1. Repealer and new section filed 1-20-83; designated effective tenth day thereafter (Register 83, No. 4).
2. Editorial correction of subsection (r) filed 3-15-83 (Register 83, No. 12).
3. Amendment of subsection (b) filed 3-12-92; operative 3-12-92 (Register 92, No. 20).
4. Amendment of section and NOTE filed 3-7-94; operative 3-7-94 pursuant to Fish and Game Code sections 202 and 215 (Register 94, No. 10).
5. Repealer filed 9-10-96; operative 9-10-96 pursuant to Fish and Game Code sections 202 and 215 (Register 96, No. 37).

§ 40.15. Reptiles Except Protected Reptiles.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200-202, 205-210, 215 and 218-221, Fish and Game Code.

HISTORY

1. Repealer and new section filed 1-20-83; designated effective tenth day thereafter (Register 83, No. 4).
2. Editorial correction of subsection (e)(2) filed 3-15-83 (Register 83, No. 12).
3. Amendment of subsection (e)(2) filed 7-1-83; effective thirtieth day thereafter (Register 83, No. 27).
4. Amendment of subsections (a)(1) and (e)(2) filed 2-28-85 as an emergency; designated effective 3-1-85. Certificate of Compliance included (Register 85, No. 11).
5. Amendment of subsection (e)(2) filed 1-22-86; designated effective 3-1-86 (Register 86, No. 6).
6. Amendment of subsection (c)(9) filed 3-12-92; operative 3-12-92 (Register 92, No. 20).
7. Amendment of section and NOTE filed 3-7-94; operative 3-7-94 pursuant to Fish and Game Code sections 202 and 215 (Register 94, No. 10).
8. Repealer filed 9-10-96; operative 9-10-96 pursuant to Fish and Game Code sections 202 and 215 (Register 96, No. 37).

§ 41. Protected Amphibians.

NOTE: Authority cited: Sections 200, 202, 205, 210, 219 and 220, Fish and Game Code. Reference: Sections 200-202, 205, 206, 209, 210 and 220, Fish and Game Code.

HISTORY

1. New section filed 7-1-83; effective thirtieth day thereafter (Register 83, No. 27).
2. Amendment of subsection (b) and NOTE filed 4-18-91; operative 5-18-91 (Register 91, No. 21).
3. Repealer and new section filed 9-10-96; operative 9-10-96 pursuant to Fish and Game Code sections 202 and 215 (Register 96, No. 37).
4. Repealer filed 1-10-2002; operative 1-1-2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 2).

§ 41.5. Amphibians Except Protected Amphibians.

NOTE: Authority cited: Sections 200, 202, 205 and 220, Fish and Game Code. Reference: Sections 200, 202, 205 and 220, Fish and Game Code.

HISTORY

1. New section filed 9-10-96; operative 9-10-96 pursuant to Fish and Game Code sections 202 and 215 (Register 96, No. 37).
2. Repealer filed 1-10-2002; operative 1-1-2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 2).

§ 41.7. Commercial Take and Use of Frogs for Human Consumption.

No person shall for commercial purposes take, possess, sell, transport or export frogs for human consumption. This section shall not apply to frogs raised by registered aquaculturists or frogs imported into this state. Any person possessing frogs for human consumption, whether imported or purchased from a registered aquaculturist, shall maintain and keep receipts, waybills, or bills of lading dealing with the importation, purchase, or sale of frogs for a period of one year from the date of receipt of the frogs, and shall exhibit these on demand to any official of the department.

2. Repealer filed 1–10–2002; operative 1–1–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 2).

§ 43. Captive Propagation and Commercialization of Native Reptiles.

(a) Native Reptile Propagation Permit.

(1) Permit Required. Except for pet shops as provided in subsection 43(f), every person, who, for commercial purposes, sells, possesses, transports, imports, exports or propagates native reptiles pursuant to subsection 43(c), or who propagates native reptiles for noncommercial purposes pursuant to subsection 43(b), shall have a native reptile propagation permit that has not been revoked or suspended issued to that person. The permit or a legible copy of the permit shall be in the immediate possession of the permittee while native reptiles are being displayed to the public, taken, transported, or sold. The permit or a legible copy of the permit shall be kept where native reptiles are maintained. No permit is required for the purchase of subspecies of native reptiles authorized pursuant to subsection 43(c).

(2) Application. Application for a permit shall be made on Native Reptile Propagation Permit Application, FG 391B (8/02), which is incorporated by reference herein. Application forms are available from the Department of Fish and Game, License and Revenue Branch, 3211 S Street, Sacramento, California 95816; Telephone (916) 227–2244. The application form shall be completed in its entirety, including information on the species and/or subspecies proposed for propagation, the location of the rearing facility and other related information.

(3) Term of Permit. Permits issued under the provisions of this section shall be valid from January 1 through December 31 or, if issued after the beginning of such term for the remainder thereof.

(4) Denial. The department may deny a permit to any person who fails to comply with the provisions of a permit or any regulations pertaining to native reptiles. Any person denied a permit may request a hearing before the commission to show cause why his/her permit should be issued.

(5) Revocation. The commission, after proper notice and providing for an opportunity to be heard, may revoke or suspend a permit for a violation of the Fish and Game Code, or Title 14, CCR, or any federal law or regulation pertaining to reptiles.

(6) Permit Fee. The permit fee shall be the basic fee set forth in subsection 699(b), Title 14, California Code of Regulations. This fee shall be annually adjusted pursuant to Sections 713 of the Fish and Game Code.

(7) Albino Native Reptiles. Albino reptiles are defined as individual native reptiles lacking normal body pigment and having red or pink eyes. No permit is required for the possession, propagation, importation, exportation, transportation, purchase or sale of captively–bred native albino reptiles or amphibians. The provisions of section 5.60 apply to the taking and possession of albino native reptiles from the wild.

(b) Non–commercial Propagation. The department may authorize the possession and propagation of no more than three species and no more than 30 individuals in the aggregate including progeny under a native reptile propagation permit. Within the overall limit of 30 individuals, the department may authorize no more than four of any one species to be taken from the wild. Individuals may be taken only by the methods authorized by section 5.60. Native reptiles possessed pursuant to this subsection may not be purchased or sold.

(c) Propagation and Possession for Commercial Purposes. Native reptiles may not be sold, possessed, transported, imported, exported or propagated for commercial purposes, except as provided in Section 40(f) and except as follows:

(1) Subspecies Authorized. Pursuant to the provisions of this section, only the following subspecies may be sold, possessed, transported, imported, exported or propagated for commercial purposes:

(A) California common kingsnake (*Lampropeltis getulus californiae*);

(B) California subspecies of the gopher snake (*Pituophis melanoleucus*): Great Basin gopher snake (*Pituophis melanoleucus deserticola*), Pacific gopher snake (*Pituophis melanoleucus catenifer*), San Diego gopher snake (*Pituophis melanoleucus annectens*), and Sonora gopher snake (*Pituophis melanoleucus affinis*);

(C) California subspecies of the rosy boa (*Lichanura trivirgata*); Coastal rosy boa (*Lichanura trivirgata roseofusca*) and Desert rosy boa (*Lichanura trivirgata gracia*).

(2) Bill of Sale. All animals sold pursuant to this section must be accompanied by a numbered bill of sale which shall contain the name and permit number of the permittee, the complete scientific name of each native reptile sold and the name and address of the buyer. A copy of the bill of sale shall be retained by the buyer.

(d) Addition or Removal of reptiles authorized for commercial propagation. The following information shall accompany a request to add or remove a reptile to the list that may be commercially propagated:

A review of scientific literature documenting the population status of the species in California

(1) Caging and care guidelines for the animal in captivity.

(2) Analysis of the effects of broodstock collection methods on wild populations.

(3) Analysis of the effects on wild reptile populations of released or escaped reptiles bred under this program.

(4) Evaluation of the commercial market for the proposed species.

(e) Limits. except as otherwise authorized, no person shall take or possess native reptiles taken from the wild in excess of the bag and possession limits specified in section 5.60. There are no possession limits for captively–bred native reptiles authorized by subsection 43(c) for persons possessing a native reptile propagation permit or for which the person has a bill of sale as required in subsection 43(c)(2).

(f) Pet Shops.

(1) Defined. A "pet shop" means a permanent place of business, licensed by a city or county, that is open to the public and maintains normal business hours, where pet animals are kept for retail sale. An "owner or operator" means the person who owns or is in charge of the pet shop.

(2) Exemption. Pet shop owners or operators or their employees or agents, are not required to obtain a native reptile propagation permit to purchase, transport directly from the point of purchase to the pet shop, possess or resell native reptiles purchased from a permittee pursuant to subsection 43(c). This exemption applies only to native reptiles sold by the pet shop from the premises of the pet shop.

(3) Records of Purchases. The owner or operator of a pet shop shall retain a legible copy of the bill of sale at the pet shop for each native reptile acquired while the animal is at the pet shop and for two years thereafter. The bill of sale shall contain the name and permit number of the native reptile and amphibian permittee from which the animals were purchased or acquired, the date acquired and the scientific name and number of each subspecies of animals acquired.

(4) Records of Sales. Each native reptile sold by pet shops shall be accompanied by a numbered bill of sale which shall contain the name and address of the pet shop, the date sold and the scientific name and number of each subspecies sold. A copy of the bill of sale shall be retained at the pet shop for two years from the date of sale.

(5) Effect of Violation. No native reptiles shall be sold from any pet shop whose owner or operator, or any employee or agent selling native reptiles from the pet shop, has been convicted of a violation pertaining to native reptiles within the previous three years.

(g) Humane Care and Treatment. Permittees shall comply with the following provisions:

(1) Enclosures. The perimeter of the enclosure for snakes 33 inches or less shall be 1.5 times the length of the snake. The perimeter of the enclosure for snakes more than 33 inches in length shall be 1.25 times the length of the snake. The perimeter shall be measured on the inside of the top edge of the enclosure. Snakes may be kept in smaller cages or containers for 31 days from the date of birth or hatching and while being transported or displayed at trade shows. All enclosures shall be adequate-

ly ventilated. The substrate shall facilitate the ability to maintain a clean and healthy environment for each animal.

(2) Food. Food shall be wholesome, palatable and free from contamination and shall be supplied in sufficient quantity and nutritive value to maintain the animal in good health.

(3) Water. Potable water must be accessible to the animals at all times or provided as often as necessary for the health and comfort of the animal. All water receptacles shall be clean and sanitary.

(4) Cleaning of enclosures. Excrement shall be removed from enclosures as often as necessary to maintain animals in a healthy condition.

(5) Disinfection of enclosures. After an animal with an infectious or transmissible disease is removed from an enclosure, that enclosure shall be disinfected.

(6) Pest control. Programs of disease prevention and parasite control, euthanasia and adequate veterinary care shall be established and maintained by the permittee.

(7) Observation. Animals shall be observed at least twice a week by the permittee or once a week if the animals are in hibernation. Sick, diseased, stressed, or injured animals shall be provided with care consistent with standards and procedures used by veterinarians or humanely destroyed.

(8) Handling. Animals shall be handled carefully so as not to cause unnecessary discomfort, behavioral stress, or physical harm to the animal.

(h) Records. Every permittee shall keep accurate accounting records for three years in which all of the following shall be recorded:

(1) The complete scientific name and number of all native reptiles purchased, received, sold, delivered, taken and possessed.

(2) The person from whom the native reptiles were purchased or received.

(3) The person to whom the native reptiles were sold or delivered.

(4) The date the native reptiles were purchased, received, sold, delivered or taken.

(5) The price paid or received.

(6) The dates and numbers of eggs laid.

(7) The dates and numbers of births or hatchings.

(i) Annual Report Requirement. A copy of the records required in subsection 43(h) shall be submitted to the department by December 31 of each year. No permit shall be renewed unless the records or a signed statement that no species and/or subspecies of native reptiles were purchased, received, sold, delivered, taken or possessed during the year is submitted.

(j) Confidentiality of Records. The information required in subsections 43(h)(2), (3), and (5) contained in the records and reports filed with the department pursuant to subsection 43(i) shall be confidential and shall not be disclosed to the public.

(k) Inspection. The department may enter the premises of any permittee where reptiles are maintained, or reasonably may be maintained, at any reasonable hour to inspect reptiles, and enclosures and to inspect, audit or copy records and receipts required by this section. Refusal to allow an inspection may be grounds for revocation of the permit by the Commission.

NOTE: Authority cited: Sections 200, 202, 205, 220, 5061 and 6896, Fish and Game Code. Reference: Sections 200, 202, 205, 220, 5061 and 6896, Fish and Game Code.

HISTORY

1. New section filed 9–10–96; operative 9–10–96 pursuant to Fish and Game Code sections 202 and 215 (Register 96, No. 37).
2. Amendment of subsection (j) and NOTE filed 12–2–97; operative 1–1–98 (Register 97, No. 49).
3. Amendment of section heading and section filed 2–24–2004; operative 3–1–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 9).

Chapter 5.5. Fishery Management Plans

Article 1. Fishery Management Plans Generally

§ 50.00. Application and Location of Fishery Management Plan Regulations, and Designation of Weight in Pounds.

(a) Unless specified otherwise in a fishery management plan, or regulations adopted to implement a fishery management plan, the provisions of Article 1, Chapter 5.5, of Subdivision 1 apply to a fishery management plan (FMP) adopted by the Fish and Game Commission under authority of the Marine Life Management Act (MLMA) and other applicable state and federal laws and regulations.

(b) A regulation implementing a fishery management plan that is applicable to both sport and commercial fisheries is found in this Chapter. A fishery management plan regulation that is specific to ocean sport fishing is found with ocean sportfishing regulations in Chapter 4 of Subdivision 1, beginning with Section 27.00. A fishery management plan regulation specific to commercial fishing is found with commercial fishing regulations in Chapter 6 of Subdivision 1 beginning with Section 100.

(c) The presentation of fisheries and population data will be made using weight in pounds as the standard, unless designated otherwise in regulations adopted specific to a fishery management plan.

NOTE: Authority cited: Section 7071, Fish and Game Code. Reference: Sections 7071 and 7075, Fish and Game Code.

HISTORY

1. New article 1 (sections 50.00–50.03) and section filed 7–31–2002; operative 8–30–2002 (Register 2002, No. 31).

§ 50.01. Definitions.

Definitions contained in Chapter 1 of Subdivision 1, Division 1, Title 14, CCR, and Chapters 1 and 2 of Division 0.5 of the Fish and Game Code, apply to fishery management plans adopted under this Chapter in addition to, and where not in conflict with, the definitions of this section or definitions specific to an FMP.

(a) *Allowable Biological Catch (ABC)* means the allowable catch, or the range of allowable catch for a species or species group, which is set each year by the Commission based on recommendations by the Department or other scientific advisors.

(b) *Allocation* means apportioning a harvest guideline, quota, or optimum yield between or among segments of the fishery.

(c) *Bait net* means a lampara or roundhaul type net, the mesh of which is constructed of twine not exceeding Standard No. 9 medium cotton seine twine or synthetic twine of equivalent size or strength. Except for drum seines and other round haul nets authorized under a permit issued by the department pursuant to Fish and Game Code Section 8780, the nets may not have rings along the lead line or any method of pursing the bottom of the net.

(d) *Commission* means the California Fish and Game Commission.

(e) *Department* means the California Department of Fish and Game.

(f) *Director* means the Director of the Department of Fish and Game.

(g) *Executive Director* means the Executive Director of the Fish and Game Commission.

(h) *FMP* means Fishery Management Plan.

(i) *FMP Framework/Framework* structure means the structure and process described in the FMP that provides for the application and adjustment of management measures pursuant to section 50.03 within the scope and criteria of the FMP and implementing regulations, without the need to annually amend the FMP.

(j) *Harvest Control Rules* means options for management that describe the amount and type of harvesting that may be applied to a stock or stocks.

(k) *Harvest guideline* means a specified numerical harvest objective that, when attained or expected to be attained, does not require closure of a fishery.

(*l*) *Management action* means an action taken by the commission or department to implement management measures.

(m) *Management measure* means a specification or measure used to manage and regulate fishing for a stock under an FMP and may include, but is not limited to, resource allocation, harvest control rules, quotas, licenses and permits, season, size, gear, bag, and landing limitations, fishery monitoring and reporting requirements, regulation of bycatch, and enforcement measures.

(n) *Maximum sustainable yield or MSY* means maximum sustainable yield as defined in Fish and Game Code Section 96.5 or a substitute for MSY (MSY proxy).

(o) *Optimum yield or OY* means optimum yield as defined in Fish and Game Code Section 97 or a substitute for OY.(OY proxy).

(p) *Permit year* means the period from April 1 through March 31.

(q) *Quota* means a specified numerical harvest objective for the attainment (or expected attainment) of which may cause closure of the fishery.

(r) *Round weight* means the weight of fish in a whole condition at the time it is caught prior to being cleaned or dressed.

(s) *Round–weight equivalent* means the weight of fish in a cleaned or dressed condition adjusted by a factor to approximate round weight.

(t) *Routine management measure* means a management measure that is likely to be adjusted on a biennial, annual or more frequent basis and is categorized as routine in the plan following an analysis of the need for the measure, its impacts, and the rationale for its use.

(u) *Socioeconomic process* means a process authorizing the commission to apply or adjust management measures pursuant to section 50.03 for a species annually or in season based on social or economic factors following preparation of a report including proposed management measures, a description of alternatives considered, and an analysis that addresses five criteria including how the action will accomplish at least one of 15 listed benefits to the fishery.

(v) *Specification* means a numerical or descriptive designation of a management objective, including but not limited to: Allowable Biological Catch (ABC); harvest guideline; quota; allocation; or an allocation for a segment of the fishery or area, gear, season, fishery, or other subdivision.

(w) *Stock* means any species, species complex, population, or subpopulation that is actively managed within a geographic area.

(x) *Weight* means the weight is in pounds and round weight or round–weight equivalent, unless designated otherwise in regulations adopted specific to a fishery management plan. Where round weight is converted to number of fish, a conversion factor shall be based on the most current information readily available to the department.

NOTE: Authority cited: Section 7071, Fish and Game Code. Reference: Section 7071, 7075 and 7083, Fish and Game Code.

HISTORY

1. New section filed 7–31–2002; operative 8–30–2002 (Register 2002, No. 31).

§ 50.02. Plan Amendment.

(a) The following actions shall first require amendment of a Fishery Management Plan (FMP):

(1) change to a management objective;

(2) change of species in the management plan;

(3) change in the definition of an overfished stock as defined in the FMP;

(4) amendment to any procedure required by the FMP; and

(5) revision to any management measure which is fixed in the FMP.

NOTE: Authority cited: Sections 7071 and 7075, Fish and Game Code. Reference: Sections 7071, 7075, 7078, 7086 and 7087, Fish and Game Code.

HISTORY

1. New section filed 7–31–2002; operative 8–30–2002 (Register 2002, No. 31).

§ 50.03. Framework Review Processes.

(a) Two processes for taking management action are available to implement routine annual changes in management of fish stocks and fisheries within the Framework Review Process.

(1) *Rulemaking Action:* The commission may conduct a rulemaking action pursuant to the Administrative Procedure Act including holding at least two or more commission meetings to hear, consider and approve measures affecting any aspect of management and fisheries, including direct allocation of a catch quota or an optimum yield, with adoption of regulations reflecting the commission's action.

(2) *Prescribed action:* A prescribed action is ministerial and may include a fishing season or gear closure when a harvest quota has been achieved or include other actions to meet sustainable management goals when the prescribed action is nondiscretionary and specifically provided for in existing regulation such that no further rulemaking under Subsection (a)(1) is required.

(b) Nothing in this section precludes the Director from exercising authority to take emergency action pursuant to Fish and Game Code Section 7710, or of the commission to take emergency regulatory action under Section 11346.1 of the Government Code, or under Section 240 of the Fish and Game Code.

NOTE: Authority cited: Section 7071, Fish and Game Code. Reference: Sections 7071, 7075, 7082 and 7083, Fish and Game Code.

HISTORY

1. New section filed 7–31–2002; operative 8–30–2002 (Register 2002, No. 31).

Article 2. White Seabass Fishery Management Plan

§ 51.00. Purpose and Scope.

(a) This Article implements the White Seabass Fishery Management Plan (WSFMP or plan), as adopted and amended by the California Fish and Game Commission consistent with the goals, objectives and procedures of the WSFMP and the Marine Life Management Act of 1998. These regulations, in combination with other applicable provisions of the Fish and Game Code and Title 14, CCR, govern management and regulation of white seabass stocks and fisheries.

(b) A regulation implementing this fishery management plan that is applicable to both sport and commercial fisheries is found in this Chapter. A fishery management plan regulation that is specific to ocean sport fishing is found with ocean sportfishing regulations in Chapter 4 of Subdivision 1, beginning with Section 27.00. A fishery management plan regulation specific to commercial fishing is found with commercial fishing regulations in Chapter 6 of Subdivision 1 beginning with Section 155.

NOTE: Authority cited: Section 7071, Fish and Game Code. Reference: Sections 7070, 7071 and 7075, Fish and Game Code.

HISTORY

1. New article 2 (sections 51.00–51.05) and section filed 7–31–2002; operative 8–30–2002 (Register 2002, No. 31).

§ 51.01. Definitions.

These definitions are in addition to those definitions specified in Section 50.01.

(a) *Fishing year* under the White Seabass Management Plan means the period from September 1 through August 31.

(b) *Overfished stock* means that the total annual commercial catch of white seabass in pounds reported landed on fish receipts provided to the department for the past two consecutive years declined each year by 20 percent or greater from the prior five–year average of landings, a 20 percent decline occurs in the number of fish and average size of fish (round weight) for the same two consecutive years for white seabass caught in the sport fishery as determined based on best available data, and recruitment indices for juvenile white seabass decline each year by 30 percent or greater from the prior 5–year average of recruitment. This definition will remain in use until the White Seabass Scientific and Constituent Advisory Panel (WSSCAP) develops, and the commission adopts by regulation, a different definition [required by Fish and Game Code Subsection 7086(a)].

(c) *Point of concern* means one or more of the following conditions affecting white seabass that, if found or expected to exist, may trigger the application or adjustment of one or more management measures by the commission.

(1) catch is expected to exceed the current harvest guideline or quota;

(2) any adverse or significant change in the biological characteristics of white seabass (age composition, size composition, age at maturity, or recruitment) is discovered;

(3) an overfishing condition exists or is imminent;

(4) any adverse or significant change in the availability of a managed species' forage for dependent species or in the status of a dependent species is discovered;

(5) new information on the status of white seabass;

(6) an error in data or a stock assessment is detected that significantly changes estimates of impacts due to current management.

(d) *Points of concern process* means a process authorizing the commission to apply or adjust fishery management measures at any time during the year based on confirmation of the existence of one or more resource-based points of concern identified in a fishery management plan pursuant to Subsections 50.03(a)(1) and (2).

(e) *Socio-economic benefits* means one or more social or economic issues as specified in the FMP affecting white seabass that, if found or expected to exist, may trigger the application or adjustment of one or more management measures by the commission pursuant to Section 50.03.

(f) *White seabass* means *Atractoscion nobilis*.

(g) *White seabass fishery* means fishing for or harvesting of white seabass inside and outside of California by vessels subject to California law.

(h) *White Seabass Fishery Management Plan* means the White Seabass Fishery Management Plan approved by the Fish and Game Commission on April 4, 2002, which is hereby incorporated by reference except for 5.3.2B and 5.3.3.

NOTE: Authority cited: Sections 7071 and 7086, Fish and Game Code. Reference: Sections 7071, 7075, 7082 and 7086, Fish and Game Code.

HISTORY

1. New section filed 7-31-2002; operative 8-30-2002 (Register 2002, No. 31).

[The next page is 47.]

§ 51.02. Process and Timing.

(a) White seabass management will conform with the goals, objectives, criteria, and procedures of the White Seabass Fishery Management Plan and other applicable laws and regulations, including the points of concern, socioeconomic, and framework review processes.

(b) The director may appoint a White Seabass Scientific and Constituent Advisory Panel (WSSCAP) to assist the department and commission with review of white seabass fishery assessments, management proposals, and plan amendments. Membership on the WSSCAP should be reserved for those knowledgeable in the principals of fisheries science, including stock assessment, and/or those interested in, and involved with, white seabass resource and fisheries. The director may by regulation determine the terms and conditions of membership on the WSSCAP.

(c) Monitoring and assessment of white seabass fisheries shall be conducted annually utilizing best available data, but at a minimum, the collection and review of reported catches. The department will provide management recommendations to the commission annually, and in-season if needed, based on criteria to be developed by the department's White Seabass Management Team in cooperation with the White Seabass Scientific and Constituent Advisory Panel, for approval by the commission by regulation.

(d) When acting to adjust management of a species within a fishery management unit based on non-biological and socioeconomic issues, the commission will follow the process specified in the fishery management plan and Section 50.03.

(e) Annual specifications and management measures are generally developed in the fall and considered and adopted at two commission meetings held during the period from November through April depending on the timing and complexity of the issues. However, management measures and actions may be developed, considered, adopted, and implemented at any time of year according to the criteria and procedures of the points of concern process.

NOTE: Authority cited: Section 7071, Fish and Game Code. Reference: Sections 7071, 7075, 7082 and 7083, Fish and Game Code.

HISTORY

1. New section filed 7-31-2002; operative 8-30-2002 (Register 2002, No. 31).

§ 51.04. Allocation.

(a) Allocation of an annual white seabass harvest between recreational and commercial fisheries will be determined consistent with options specified in the White Seabass Fishery Management Plan.

(b) The commission shall consider at least the following factors in the allocation of white seabass:

(1) present participation in and dependence on the fisheries, including alternative fisheries;

(2) historical fishing practices in, and historical dependence on, the fisheries;

(3) the economics of the fisheries;

(4) any agreement between the affected participants in the fisheries;

(5) potential biological impacts on white seabass, associated species or their habitats affected by the allocation; and

(6) consistency with the goals and objectives of this WSFMP and the MLMA.

NOTE: Authority cited: Section 7071, Fish and Game Code. Reference: Sections 7071, 7075, 7082 and 7083, Fish and Game Code.

HISTORY

1. New section filed 7-31-2002; operative 8-30-2002 (Register 2002, No. 31).

§ 51.05. Harvest Control Rules.

(a) Harvest control rules adopted pursuant to Section 50.03 that specify either status quo management or the pounds of white seabass that may be taken annually shall be selected by the commission from options provided in the White Seabass Fishery Management Plan (WSFMP) as follows:

Option B2: The MSY proxy is computed as approximately 40 percent of the estimated pristine stock size (40 million pounds) modified by natural mortality (0.1). The MSY proxy is then adjusted downward by multiplying by 0.75 to obtain the OY of 1.2 million pounds.

(b) The commission may use any combination of management measures to meet an annual OY for white seabass.

NOTE: Authority cited: Section 7071, Fish and Game Code. Reference: Sections 7071, 7075, 7082 and 7083, Fish and Game Code; Section 5.6, White Seabass Fishery Management Plan.

HISTORY

1. New section filed 7-31-2002; operative 8-30-2002 (Register 2002, No. 31).

Article 3. Nearshore Fishery Management Plan

§ 52.00. Purpose and Scope.

(a) This Article implements the Nearshore Fishery Management Plan (Nearshore FMP or plan), as adopted by the California Fish and Game Commission (Commission) consistent with the goals, objectives and procedures of the Nearshore FMP and the Marine Life Management Act of 1998, and applicable federal groundfish regulations. These regulations, in combination with other applicable provisions of the Fish and Game Code, Title 14, California Code of Regulations (CCR), and federal groundfish regulations, govern management and regulation of nearshore fish stocks and fisheries.

(b) Regulations adopted by the commission specific to sport fishing for nearshore fish stocks are included with ocean sport fishing regulations in Chapter 4, beginning with Section 27.00, Title 14, CCR. A regulation specific to commercial fishing for nearshore fish stocks is included with commercial fishing regulations in Chapter 6, beginning with Section 150, Title 14, CCR.

NOTE: Authority cited: Sections 7071 and 8587.1, Fish and Game Code. Reference: Sections 7070, 7071, 7075, 7078, 7083 and 8587.1, Fish and Game Code.

HISTORY

1. Amendment of article heading and new section filed 1-9-2003; operative 2-8-2003 (Register 2003, No. 2).

§ 52.01. Definitions.

(a) Definitions for *nearshore fish stocks, nearshore fisheries*, and *nearshore waters* are included in Section 1.90, Title 14, CCR.

(b) *Allocation* means assignment of an amount of catch to different sectors of a fishery.

(c) *Cape Mendocino* for purposes of describing the boundary of fishery management areas means a point on the mainland shore at 40 degrees 10 minutes north latitude.

(d) *Council* means Pacific Fishery Management Council [see subdivision (k) below].

(e) *Fishery Control Rule* means specified approaches to determining the amount and type of catch allowed in a fishery.

(f) *National Marine Fisheries Service or NMFS* means the National Marine Fisheries Service in the United States Department of Commerce.

(g) *Nearshore Fishery Management Plan (Nearshore FMP)* means sections 1 and 2 of the Nearshore Fishery Management Plan approved by the Commission on August 29, 2002, hereby incorporated by reference except for the "notice actions" process described in section 1, page 1-14.

(h) *Nearshore Rockfish* means black rockfish (*Sebastes melanops*), black-and-yellow rockfish (*Sebastes chrysomelas*), blue rockfish (*Sebastes mystinus*), brown rockfish (*Sebastes auriculatus*), calico rockfish (*Sebastes dallii*), California scorpionfish (*Scorpaena guttata*), China rockfish (*Sebastes nebulosus*), copper rockfish (*Sebastes caurinus*), gopher rockfish (*Sebastes carnatus*), grass rockfish (*Sebastes rastrelliger*), kelp rockfish (*Sebastes atrovirens*), olive rockfish (*Sebastes serranoides*), quillback rockfish (*Sebastes maliger*), treefish (*Sebastes serriceps*).

(i) *Overfished* is defined at Section 97.5 of the Fish and Game Code, and in the Nearshore FMP also means a population that falls below the threshold of 30% of the estimated unfished biomass.

(j) *Overfishing* is defined at Section 98 of the Fish and Game Code, and in the Nearshore FMP also means that the total catch of a nearshore fish population exceeds the Total Allowable Catch in any year or season.

(k) *PFMC or Council* means the Pacific Fishery Management Council established pursuant to the Magnuson–Stevens Fishery Conservation and Management Act.

(*l*) *Quota* means a specified numerical amount of landings (excluding discard mortality), the attainment (or expected attainment) of which may cause closure of the fishery.

(m) *Total Allowable Catch or TAC* means a specified numerical amount of catch (including discard mortality), the attainment (or expected attainment) of which may cause closure of the fishery. In Stage I of the Nearshore FMP Fishery Control Rule, TAC is equivalent to a proxy for Optimum Yield as adopted in state or federal regulations; In Stages II and III, TAC is equivalent to Optimum Yield as adopted in state or federal regulations.

(n) *Unfished Biomass or Bunfished* means an estimate of the biomass or population size that would exist if there had been no fishing in recent history (within several generations) of a fish population.

(o) *Definitions* contained in Chapter 1, and Article 1 of Chapter 5.5, of Subdivision 1, Division 1, Title 14, CCR, and Chapters 1 and 2 of Division 0.5 of the Fish and Game Code, apply to the nearshore fishery in addition to definitions of this section.

NOTE: Authority cited: Section 7071, Fish and Game Code. Reference: Sections 7071, 7075, 7078, 7083 and 7086, Fish and Game Code.

HISTORY

1. New section filed 1–9–2003; operative 2–8–2003 (Register 2003, No. 2).

§ 52.02. Process and Timing.

(a) Management of nearshore fish stocks will conform with the goals, objectives, criteria, procedures, and Fishery Control Rule guidelines of the Nearshore Fishery Management Plan, and other applicable state and federal laws and regulations.

(b) Monitoring and assessment of nearshore fisheries will be conducted annually, and, at a minimum, will include the collection and review of reported catches. The department will provide management recommendations to the commission annually, and in–season if a need is identified.

(c) The director may establish and appoint members to advisory committees, including regional advisory committees (RACs), to assist the department with development and review of fishery assessments, management options and proposals, and plan amendments.

(d) Management measures and actions may be developed, considered, adopted in compliance with the Administrative Procedure Act, and implemented at any time of year to achieve management plan goals and objectives, and may apply to any or all management areas, or portions of management areas at the discretion of the commission.

NOTE: Authority cited: Section 7071 and 7652, Fish and Game Code. Reference: Sections 7071, 7075, 7083 and 7652, Fish and Game Code.

HISTORY

1. New section filed 1–9–2003; operative 2–8–2003 (Register 2003, No. 2).

§ 52.03. Nearshore Fishery Management Plan (Nearshore FMP) Project.

(a) The Department's Recommended Proposed Project in the Nearshore FMP (Plan) involving a combination of Fishery Control Rules, Allocation, Regional Management, Marine Protected Areas (MPAs), Restricted Access, and other management measures described in the Nearshore FMP will be utilized in managing nearshore fisheries toward meeting goals and objectives of the Plan.

(b) A fishery management measure may be selected and inserted instead of, or in addition to, measures included in the adopted Nearshore FMP Project where specified in statute or regulation.

NOTE: Authority cited: Section 7071, Fish and Game Code. Reference: Sections 7071, 7075, 7082 and 7083, Fish and Game Code.

HISTORY

1. New section filed 1–9–2003; operative 2–8–2003 (Register 2003, No. 2).

§ 52.04. Regional Management.

Four regional management areas (consistent with the Nearshore FMP's Alternative 5 for Recommended Regional Management) exist off California as follows:

(1) North Coast Region: Nearshore waters between the California–Oregon border and a line extending due west true from a point on the mainland shore at 40 degrees 10 minutes north latitude near Cape Mendocino, Humboldt County,

(2) North–Central Coast Region: Nearshore waters between a line extending due west true from a point on the mainland shore at 40 degrees 10 minutes north latitude near Cape Mendocino, Humboldt County, and a line extending due west true from Point Ano Nuevo, San Mateo County,

(3) South–Central Coast Region: Nearshore waters between a line extending due west true from Ano Nuevo, San Mateo County, and a line extending due west true from Point Conception, Santa Barbara County,

(4) South Coast Region: Nearshore waters between a line extending due west true from Point Conception, Santa Barbara County, and the U.S.–Mexico border.

NOTE: Authority cited: Section 7071, Fish and Game Code. Reference: Sections 7071, 7075, 7082 and 7083, Fish and Game Code.

HISTORY

1. New section filed 1–9–2003; operative 2–8–2003 (Register 2003, No. 2).

§ 52.05. Allocation.

(a) Allocation of a Total Allowable Catch (TAC) of nearshore fish populations between recreational and commercial sectors will be consistent with the recommended Nearshore FMP allocation approach approved by the commission, and, with regulations of the Department of Commerce for nearshore groundfish (50 CFR, Part 660) until transfer of fishery management authority, or other Federal authorization for allocation by the state, is attained for these species.

(b) The commission will consider the following factors during a change in allocation:

(1) present versus historical participation in the fishery

(2) the economics of the fisheries

(3) local community impacts

(4) product quality and flow to the consumer

(5) gear conflicts

(6) non–consumptive uses

(7) fishing efficiency, and

(8) recreational versus commercial fishery factors.

(c) Allocation by the state of a commission authorized TAC for nearshore fish stock will be based on the use of historical fishery information applied regionally, with constituent involvement, and based on a careful review of recreational and commercial landings information, and adopted in compliance with the Administrative Procedure Act.

(d) Until regional management is phased–in, and regional fishery information required to implement the allocation methodology under subdivision (c) is available, allocation of state managed nearshore fish stocks will be based on the currently used ratio of recreational to commercial take for a species during the periods 1983 through 1989, and 1993 through 1999.

NOTE: Authority cited: Section 7071, Fish and Game Code. Reference: Sections 7071, 7075, 7082 and 7083, Fish and Game Code.

HISTORY

1. New section filed 1–9–2003; operative 2–8–2003 (Register 2003, No. 2).

§ 52.09. Take of Nearshore Rockfish, Fishery Closure.

(a) Total Allowable Catch (TAC). Until the state has management authority for a species or species group included in the Nearshore FMP, the TAC of a species or species group will not exceed the amount specified in the Federal Register for that species or species group.

(b) Mechanism for Fishery Closures. When the TAC for a species or species group included in the Nearshore FMP is exceeded or expected to be exceeded, the department may close the fishery at the time the TAC is reached or expected to be reached.

(c) The department shall give the public and the commission no less than 10 days notice of any recreational fishery closure pursuant to this Section via a department news release.

(d) The department shall give Nearshore Fishery Permit holders no less than 10 days notice of any commercial fishery closure pursuant to this Section via a notification letter sent to each permittee's address on file with the department. The department shall give the public and the commission no less than 10 days notice of any commercial fishery closure pursuant to this Section via a department news release.

NOTE: Authority cited: Section 200, 202, 205, 7071 and 8587.1, Fish and Game Code. Reference: Sections 97, 7056, 7071, 7075, 7082 and 7083, Fish and Game Code.

HISTORY

1. New section filed 1–9–2003; operative 2–8–2003 (Register 2003, No. 2).

§ 52.10. Take of Sheephead, Cabezon and Greenling.

(a) Total Allowable Catches (TACs) and Allocations. Based on total allowable catches specified for each calendar year, catch may not exceed the following amounts:

(1) California sheephead. The statewide allowable catch of sheephead is 205,500 pounds, allocated as follows:

(A) The commercial fishery is allocated 75,200 pounds.

(B) The recreational fishery is allocated 130,300 pounds.

(2) Cabezon. The total statewide allowable catch of cabezon is 152,100 pounds, allocated as follows:

(A) The commercial fishery is allocated 59,300 pounds.

(B) The recreational fishery is allocated 92,800 pounds.

(3) Greenlings of the genus Hexagrammos. The total statewide allowable catch of greenlings is 37,600 pounds, allocated as follows:

(A) The commercial fishery is allocated 3,400 pounds.

(B) The recreational fishery is allocated 34,200 pounds.

(b) Mechanism for Fishery Closures. The department will estimate from the current trends in catch and using the best available scientific information the time at which any commercial or recreational fishery allocation or total allowable catch for sheephead, cabezon, or greenlings specified in subsection (a) will be reached. The department will close the fishery at the time the allocation or total allowable catch is reached or is projected to be reached prior to the end of the calendar year.

(c) The department shall give the public and the commission no less than 10 days notice of any recreational fishery closure pursuant to this Section via a department news release.

(d) The department shall give holders of nearshore fishery permits no less than 10 days notice of any commercial fishery closure pursuant to this Section via a notification letter sent to the permittee's address on file with the department. The department shall give the public and the commission no less than 10 days notice of any commercial fishery closure pursuant to this Section via a department news release.

NOTE: Authority cited: Sections 200, 202, 205, 7071 and 8587.1, Fish and Game Code. Reference: Sections 97, 7056, 7071, 8585.5, 8587 and 8587.1, Fish and Game Code.

HISTORY

1. New chapter 5.5, article 3 (section 52.10) and section filed 5–23–2002; operative 5–23–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 21).
2. Editorial correction restoring inadvertently deleted section (Register 2003, No. 17).
3. Amendment filed 11–7–2003; operative 12–7–2003 (Register 2003, No. 45).
4. Amendment of subsections (a)(2)–(a)(2)(B) filed 3–1–2005; operative 3–31–2005 (Register 2005, No. 9).

Article 4. Market Squid Fishery Management Plan

§ 53.00. Purpose and Scope.

(a) This article implements the Market Squid Fishery Management Plan (Market Squid FMP) as adopted and amended by the California Fish and Game Commission (commission), consistent with the requirements of Part 1.7, commencing with Section 7050, and Article 9.7 of Chapter 2 of Part 3 of Division 6 of the Fish and Game Code (commencing with Section 8420). Regulations contained in Section 53.00 et seq. are consistent with the goals, objectives and procedures of the Market Squid FMP and applicable federal regulations for coastal pelagic species and the federal Coastal Pelagic Species Fishery Management Plan. These regulations, in combination with other applicable provisions of the Fish and Game Code, Title 14 of the California Code of Regulations, and federal regulations for coastal pelagic species, govern management and regulation of market squid stocks and fisheries.

(b) A regulation implementing this fishery management plan that is applicable to both sport and commercial fisheries is found in this Article. Regulations adopted by the commission specific to recreational take and use of market squid are included with ocean sport fishing regulations in Chapter 4, beginning with Section 27.00, Title 14, CCR. Regulations specific to commercial fishing for market squid are included in Chapter 6, beginning with Section 149, Title 14, CCR.

(c) Pursuant to Fish and Game Code Section 8429.7, Fish and Game Code sections 8420.5 to 8423.5, inclusive, and sections 8426 and 8427 are made inoperative.

(d) Pursuant to Fish and Game Code Section 7071, Fish and Game Code Section 7852.2 is made inoperative as it applies to squid fishery permits.

NOTE: Authority cited: Sections 7071, 7078, 8425 and 8429.7, Fish and Game Code. Reference: Sections 7070, 7071, 7075, 7078, 7083, 8420, 8425 and 8429.7, Fish and Game Code.

HISTORY

1. New article 4 (sections 53.00–53.03) and section filed 3–28–2005; operative 3–28–2005 pursuant to Government Code section 11343.4 (Register 2005, No. 13).

§ 53.01. Definitions.

(a) *Brail gear, dip nets or scoop* nets means any net attached to a rigid frame operated by hand or mechanical device deployed from the vessel to scoop fish or invertebrates.

(b) *Daily trip limit* means a routine management measure which may be used to limit take of squid on a per–vessel basis within a calendar day.

(c) *Drum seine* means a purse seine net which is stored, deployed and retrieved with the aid of a mechanized drum (reel) mounted on the stern of the vessel.

(d) *Egg escapement* means the number or proportion of a female squid's lifetime supply of eggs that she is able to deposit, on average, before being taken in the fishery.

(e) *Egg escapement method* means a management tool which may be used to determine whether the fleet is fishing above or below a predetermined sustainable level of exploitation. The method requires establishing a threshold value to ensure that an adequate number of eggs are deposited prior to harvest.

(f) *Fishing year or fishing season* under the Market Squid FMP means the period April 1 though March 31.

(g) *Fishery Control Rules* means specific management strategies such as seasonal catch limits, daily trip limits, area closures, time closures, and sustainable levels of egg escapement which provide for a sustainable market squid fishery.

(h) *Fleet capacity goal* means an optimal number of vessels where the number of vessels matches the available squid resource.

(i) *Forage* means the role of market squid in the food chain as a critical source of food for higher predators, including birds, fish and marine mammals.

(j) *Lampara* means a rectangular net constructed with graduated mesh sizes, a definite bunt (bag), and fitted with floats. It is laid out by the fishing vessel in a circle and closed at least partially on the bottom by pulling the leadline in advance of the float line.

(k) *Light boat* means a vessel engaged in the commercial taking or attempting to take market squid which uses bright lights to aggregate squid for commercial purposes including live bait.

(l) *Market squid* means Loligo opalescens.

(m) *Market Squid Fishery Management Plan (Market Squid FMP)* means Chapters 1 through 5 of the Market Squid Fishery Management

Plan approved by the Commission on August 27, 2004, hereby incorporated by reference.

(n) *National Marine Fisheries Service, NMFS or NOAA Fisheries* means the federal fisheries management agency which is contained in the United States Department of Commerce.

(o) *Overfished* is defined at Fish and Game Code Section 97.5, and in the Market Squid FMP also means a condition that may exist when either the egg escapement threshold is not met, or catches of squid exceed any specified allowable level.

(p) *Overfishing* is defined at Fish and Game Code Section 98, and in the Market Squid FMP also may mean that harvests of squid are occurring at times when either the egg escapement threshold is not being met, or catches are exceeding specified allowable levels. These catches may not be sustainable.

(q) *PFMC or Council* means the Pacific Fishery Management Council established pursuant to the Magnuson–Stevens Fishery Conservation and Management Act.

(r) *Point of concern* means one or more of the following conditions affecting market squid that, if found or are expected to exist, may trigger the application or adjustment of one or more management measures by the commission:

(1) Catch is projected to significantly exceed the current seasonal catch limitation.

(2) Any adverse or significant change in the biological characteristics of the market squid (age composition, size composition, age at maturity, or recruitment) is discovered.

(3) An overfished condition exists or is imminent (defined as when the egg–escapement method threshold is not realized in two consecutive years).

(4) Any adverse or significant change in the availability of market squid as forage or in the status of a dependent species is discovered.

(5) An error in data or a change to an indicator of stock status is detected that requires adjustment to fishery control rules to ensure sustainable resource management.

(s) *Points of concern process* means a process authorizing the commission to apply or adjust fishery management measures at any time during the year based on the confirmation of the existence of one or more resource–based points of concern identified in a fishery management plan pursuant subsection 50.03(a), Title 14, CCR.

(t) *Purse seine* means a rectangular net constructed with uniform mesh sizes, without a prominent bunt (bag), and fitted with floats. It is laid out with the end attached to a skiff while the deploying vessel encircles the squid. The end of the net is then brought up to the deploying vessel and is closed on the bottom by pulling a purse line (draw string) threaded through rings along the leadline, preventing the catch from escaping.

(u) *Round haul vessels* mean those that employ the use of lampara, purse seine, and drum seine net gear to commercially harvest squid.

(v) *Seasonal catch limitation* means an amount of allowable catch which may be taken within a designated geographic area in a fishing season, specified in short tons and excluding discard mortality. The attainment (or expected attainment) of this limit will cause closure of the directed commercial fishery as specified in regulation.

(w) *Tons* means short tons, and is the standard unit of weight for purposes of describing catches and limits for the market squid fishery, notwithstanding subsection 50.00(c), Title 14, CCR.

(x) *Vessel capacity* means the gross registered tonnage, as listed on a federal Coastal Pelagic Species permit or calculated from length, breadth and depth measurements provided on United States Coast Guard documentation papers.

(y) *Weekend closures* mean a routine management measure which may be used to prohibit take of market squid during certain days of a week.

(z) Definitions contained in Chapter 1, and Article 1 of Chapter 5.5, of Subdivision 1, Division 1, Title 14, CCR, and Chapters 1 and 2 of Division 0.5 of the Fish and Game Code apply to the market squid fishery in addition to definitions of this Section.

NOTE: Authority cited: Section 7071, 7078 and 8425, Fish and Game Code. Reference: Sections 7071, 7075, 7078, 7083, 7086, 8420 and 8425, Fish and Game Code.

HISTORY

1. New section filed 3–28–2005; operative 3–28–2005 pursuant to Government Code section 11343.4 (Register 2005, No. 13).

§ 53.02. Process and Timing.

(a) Management of market squid stocks will conform to the goals, objectives, criteria, procedures, and Fishery Control Rule guidelines of the Market Squid FMP, and other applicable state and federal laws and regulations.

(b) Periodic monitoring and assessment of squid fisheries will be conducted, and, at a minimum, will include the collection and review of reported catches. The department will provide management recommendations to the commission as needed, and in–season if a need is identified.

(c) The director may establish and appoint members to an advisory committee to assist the department with development and review of fishery assessments, management options and proposals, and plan amendments.

(d) Management measures and actions may be developed, considered, and adopted in compliance with the Administrative Procedure Act and implemented at any time of year to achieve management plan goals and objectives, and may apply to any or all management areas, or portions of management areas at the discretion of the commission.

NOTE: Authority cited: Section 7071, 7078 and 8425, Fish and Game Code. Reference: Sections 7071, 7075, 7083, 7652, 8420 and 8425, Fish and Game Code.

HISTORY

1. New section filed 3–28–2005; operative 3–28–2005 pursuant to Government Code section 11343.4 (Register 2005, No. 13).

§ 53.03. Market Squid Fishery Management Plan (Market Squid FMP) Project.

(a) The Department's Recommended Proposed Project in the Market Squid FMP involves a combination of limitations on total harvest, regulation on the use of squid fishing gear (including lights), use of time closures to allow for periods of uninterrupted spawning, restricted access and other limits on the commercial fleet capacity, mechanisms to allow for adequate squid escapement, and area closures designed to minimize impact to sensitive non–target species and habitat. These management measures described in the Market Squid FMP will be utilized in managing the squid fishery toward meeting goals and objectives of the Market Squid FMP.

(b) Other management measures as described in the Market Squid FMP, including but not limited to vessel trip limits, squid replenishment areas, seasonal closures, and marine protected areas may be used as needed to achieve the goals and objectives of the Market Squid FMP.

(c) A fishery management measure may be adopted by the commission instead of, or in addition to, measures included in the adopted Market Squid FMP Project where specified in statute or state or federal regulation.

(d) Consistent with the goals of the Restricted Access program, the Commission established a sixth permit class for Non–Transferable Market Squid Light Boat Permits in addition to the original five permit classes and an experimental permit class identified in the discussion of the program in the Market Squid Fishery Plan.

NOTE: Authority cited: Section 7071, 7078 and 8425, Fish and Game Code. Reference: Sections 7071, 7075, 7082, 7083, 8420 and 8425, Fish and Game Code.

HISTORY

1. New section filed 3–28–2005; operative 3–28–2005 pursuant to Government Code section 11343.4 (Register 2005, No. 13).
2. New subsection (d) filed 2–13–2007; operative 2–13–2007 pursuant to Government Code section 11343.4 (Register 2007, No. 7).

Chapter 6. Fish, Commercial

§ 100. Abalone.

Abalone may not be taken for commercial purposes.

NOTE: Authority cited: Sections 5521 and 5521.5, Fish and Game Code. Reference: Sections 5520, 5521, 5521.5 and 5522, Fish and Game Code.

HISTORY

1. Amendment of subsection (b)(1) filed 6–27–85; effective thirtieth day thereafter (Register 85, No. 26). For prior history, see Register 83, No. 40.
2. Amendment filed 12–21–90; operative 1–20–91 (Register 91, No. 4).
3. New subsection (g) and amendment of NOTE filed 8–2–93; operative 9–1–93 (Register 93, No. 32).
4. Subsection (g) expired by its own terms 3–1–95 (Register 95, No. 11).
5. New subsection (g) and amendment of NOTE filed 2–1–96; operative 3–1–96 (Register 96, No. 5).

[The next page is 51.]

6. Amendment of subsection (g) and NOTE filed 5–22–97 as an emergency; operative 5–22–97 (Register 97, No. 21). A Certificate of Compliance must be transmitted to OAL by 9–19–97 or emergency language will be repealed by operation of law on the following day.
7. Amendment of subsection (g) and NOTE refiled 9–8–97 as an emergency; operative 9–8–97 (Register 97, No. 37). A Certificate of Compliance must be transmitted to OAL by 1–6–98 or emergency language will be repealed by operation of law on the following day.
8. Reinstatement of subsection (g) and NOTE as they existed prior to 5–22–97 emergency amendment by operation of Government Code section 11346.1(f) (Register 98, No. 17).
9. Amendment of first paragraph, repealer of subsections (a)–(g) and amendment of NOTE filed 4–22–98; operative 4–22–98 pursuant to Government Code section 11343.4(d) (Register 98, No. 17).

§ 101. Possession of Sliced Abalone During Closed Season.

HISTORY

1. Repealer filed 10–17–67 as an emergency; designated effective 11–8–67 (Register 67, No. 42). For prior history, see Register 27, No. 4.
2. Certificate of Compliance—Section 11422.1, Gov. Code, filed 12–12–67 (Register 67, No. 50).

§ 102. Abalone Processors Permit.

NOTE: Authority cited: Sections 7701, 7708, 8040, 8305.9, 8306.3, and 8306.8, Fish and Game Code. Reference: Sections 7700–7710.5 and 8300–8309, Fish and Game Code.

HISTORY

1. Amendment filed 6–8–78 as an emergency; effective upon filing (Register 78, No. 23). For prior history, see Register 75, No. 27.
2. Certificate of Compliance filed 8–1–78 (Register 78, No. 31).
3. Repealer filed 10–19–81; effective thirtieth day thereafter (Register 81, No. 43).

§ 103. Common Names for Market Fish.

(a) The following common names may be used as alternates for designated names:

(1) Pacific red snapper:
Sebastes entomelas (widow rockfish)
Sebastes flavidus (yellowtail rockfish)
Sebastes goodei (chilipepper)
Sebastes jordani (shorbelly rockfish)
Sebastes levis (cowcod)
Sebastes melanops (black rockfish)
Sebastes miniatus (vermillion rockfish)
Sebastes ovalis (speckled rockfish)
Sebastes paucispinnis (bocaccio)
Sebastes pinniger (canary rockfish)
Sebastes ruberrimus (yelloweye rockfish)
Sebastes rufus (bank rockfish)
Sebastes serranoides (olive rockfish)

(2) Butterfish:
Anoplopoma fimbria (sablefish)

(b) The following common names may be used in lieu of the scientific name:

(1) Pacific ocean shrimp:
Pandalus jordani (shrimp)

(2) Dungeness crab:
Cancer Magister (crab)

(3) Pacific whiting:
Merluccius productus (Pacific hake)

NOTE: Authority cite: Section 8023, Fish and Game Code. Reference: Section 8023, Fish and Game Code.

HISTORY

1. New section filed 3–12–74 as an emergency; effective upon filing (Register 74, No. 11).
2. Certificate of Compliance filed 6–5–74 (Register 74, No. 23).
3. New subsection (b)(3) filed 3–17–78; effective thirtieth day thereafter (Register 78, No. 11).
4. Amendment of NOTE filed 10–19–81; effective thirtieth day thereafter (Register 81, No. 43).
5. Amendment of subsection (a)(1) filed 8–3–82; effective thirtieth day thereafter (Register 82, No. 32).

§ 104. White Croaker Closure.

It is unlawful to take white croaker under a commercial fishing license issued pursuant to section 7850 of the Fish and Game Code, in waters from 0 to 3 nautical miles from shore extending oceanward between a line extending 312 degrees magnetic from Point Vicente in Los Angeles County, and a line extending 166 degrees magnetic from Point Fermin in Los Angeles County. Pursuant to section 7715 of the Fish and Game Code, the provisions of this section shall become inoperative when the Director of the Department of Health Services determines that a health risk no longer exists and the Director of the Department of Fish and Game has been so notified. The Department shall fully notify the public of the reopening of these waters.

NOTE: Authority cited: Section 7715, Fish and Game Code. Reference: Section 7715, Fish and Game Code.

HISTORY

1. New section added 5–29–90 as an emergency; operative 5–29–90 (Register 90, No. 28). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 09–26–90.
2. New section filed 9–24–90 as an emergency readoption; operative 9–24–90 (Register 90, No. 45). A Certificate of Compliance must be transmitted to OAL by 1–22–91 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 9–24–90 order including amendment transmitted to OAL 1–18–91 and filed 2–19–91 (Register 91, No. 12).
4. Change without regulatory effect amending section filed 5–6–98 pursuant to section 100, title 1, California Code of Regulations (Register 98, No. 19).

§ 104.1. Central California Gillnet Fishery Closure.

Except as provided in Fish and Game Code Section 8664.5(f), at no time may gill or trammel nets be used in ocean waters which are 60 fathoms or less in depth at mean lower low water, in the area between a line extending 261° true (245° magnetic) from the most westerly point of the west point of the Point Reyes headlands in Marin County to a line extending due west (270° true; 245° magnetic) from Point Arguello, Santa Barbara County.

NOTE: Authority cited: Section 702, Fish and Game Code. Reference: Sections 8664.5 and 8664.7, Fish and Game Code.

HISTORY

1. New section filed 10–17–2000 as an emergency; operative 9–13–2000 pursuant to Fish and Game Code section 8664.7 (Register 2000, No. 42). A Certificate of Compliance must be transmitted to OAL by 1–11–2001 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 1–10–2001 as an emergency; operative 1–12–2001 pursuant to Fish and Game Code section 8664.7 (Register 2001, No. 2). A Certificate of Compliance must be transmitted to OAL by 5–14–2001 or emergency language will be repealed by operation of law on the following day.
3. Repealed by operation of Government Code section 11346.1(g) (Register 2002, No. 15).
4. New section filed 4–11–2002; operative 4–26–2002 pursuant to Fish and Game Code section 8664.7 (Register 2002, No. 15). A Certificate of Compliance must be transmitted to OAL by 8–26–2002 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 4–11–2002 order transmitted to OAL 7–29–2002 and filed 9–4–2002 (Register 2002, No. 36).

§ 105. Importation and Sale of Kelp Bass, Sand Bass, and Spotted Bass.

Dead kelp bass, sand bass, and spotted bass, all of the genus Paralabrax, may be imported into this State for sale under the following regulations:

(a) If imported overland, all of the species mentioned above shall be tagged with metallic tags inscribed "California Department of Fish and Game" before entering this State.

(b) If imported by sea, all of the species mentioned above shall be tagged with metallic tags inscribed "California Department of Fish and Game" at the first point of landing in this State. Tags will not be furnished unless the request for tags is accompanied by a copy of the ship's entry papers and a certified copy of the fishing permit of the country of origin. The department reserves the right to refuse the issuance of tags if sufficient proof is not given to show that said species of fish were taken south of the international boundary between the United States and Mexico.

(c) All tags shall be furnished by the Department of Fish and Game at cost; however, a $10 administrative fee shall be charged for each order.

NOTE: Authority cited: Section 8372, Fish and Game Code. Reference: Sections 2345 and 8372, Fish and Game Code.

HISTORY

1. New section filed 9–11–53, as an emergency; effective upon filing (Register 53, No. 16).
2. Amendment filed 10–19–81; effective thirtieth day thereafter (Register 81, No. 43).
3. Amendment of subsection (c) and nonsubstantive amendment of NOTE filed 4–18–91; operative 5–18–91 (Register 91, No. 21).
4. Change without regulatory effect amending first paragraph and NOTE filed 8–28–95 pursuant to section 100, title 1, California Code of Regulations (Register 95, No. 35).

§ 105.1. Permits to Land California Caught Fish at Points Outside of California.

The department may issue revocable permits to land fish caught from the waters of the Pacific Ocean within California at a point or place other than within this state under the following conditions:

(a) Applications and a $16.00 application fee shall be submitted to the department. The applicant shall provide the following information.

(1) Name and address of operator of boat.

(2) Name and address of owner of boat.

(3) Name of boat.

(4) Fish and Game boat registration number.

(5) Custom house or CF number.

(6) Commercial fishing license number.

(7) Species of fish to be taken.

(8) Type of gear to be used.

(b) All permits shall be for the period April 1 through March 31, except that when applications are received after April 1, they will run from date of application through March 31.

(c) This permit may be suspended temporarily by the Director for a breach or violation of the terms of the permit by the holders thereof, their agents, servants, employees or any person acting under their direction and control. The commission shall be notified of any such suspension and subsequently may revoke or reinstate the permit or fix the period of its suspension after written notice to the permittee and after he has been afforded an opportunity to be heard.

Any person who has had his permit revoked or suspended by the commission may be required, upon application for a new or subsequent permit, to appear before the commission and demonstrate to its satisfaction that his use of such permit will be in the public interest.

(d) The permit shall contain a statement signed by the applicant that he has read, understands and agrees to be bound by all the terms of the permit.

NOTE: Authority cited: Sections 713 and 7891, Fish and Game Code. Reference: Sections 713 and 7891, Fish and Game Code.

HISTORY

1. Renumbering of section 657 to section 105.1 filed 7–16–81; effective thirtieth day thereafter (Register 81, No. 29). For prior history, see Register 68, No. 29.
2. Amendment of subsection (a) filed 4–18–91; operative 5–18–91 (Register 91, No. 21).
3. Change without regulatory effect amending subsection (a) and NOTE filed 12–19–2006 pursuant to section 100, title 1, California Code of Regulations (Register 2006, No. 51).

§ 105.5. Cooperation with State and Federal Fishery Observers.

(a) Owners or operators of commercial fishing vessels permitted under regulations of the Commission, and commercial passenger fishing vessels licensed pursuant to Fish and Game Code Section 7920, will, as a condition of permit or license issuance, cooperate with Department or Federal fishery observers, or observers collecting data for the Department, when asked to carry and accommodate an observer on fishing trips at no charge to the sponsoring agency.

(b) If observer coverage of a trip is denied by the owner or operator of a vessel, the Department may require an explanation in writing from the owner or operator. This explanation shall be received by the Department within 15 days of written request by the Department for an explanation.

(c) The Department may request revocation of fishing permits or licenses to the Commission for denials that it deems to be uncooperative in nature, after first allowing the owner or operator to meet with the Manager of Marine Region, or his representative, to provide an explanation for the denial.

(d) The Department or Federal agency requesting cooperation under subsection (a) shall not require the vessel operator or owner to provide an observer with meals or a subsistence allowance on observed fishing trips, but shall accommodate the observer with regard to reasonable eating and working conditions and access to pertinent fishing information and fishery data while aboard the vessel.

(e) Failure to provide reasonable eating and working conditions or access to pertinent fishing information or fishery data to observers, or actions taken by a vessel owner or operator against an observer that is prohibited pursuant to subsection (f), on observed fishing trips may lead to revocation of the vessel's fishing permits or licenses issued under regulations of the Commission following the procedure outlined in subsections (b) and (c) above.

(f) To ensure that observer objectives may be reasonably and safely achieved, consistent with federal groundfish observer rules, it is unlawful for any person to do any of the following:

(1) forcibly assault, resist, oppose, impede, intimidate, sexually harass, bribe, or interfere with an observer,

(2) interfere with or bias the sampling procedure employed by an observer, including physical, mechanical, or other sorting or discarding of any catch before sampling,

(3) tamper with, destroy or discard an observer's collected samples, equipment, or personal gear, without the express consent of the observer,

(4) prohibit or bar by command, impediment, threat, coercion, or refusal of reasonable assistance, an observer collecting samples, making observations, or otherwise performing the observers duties,

(5) harass an observer by conduct that has sexual connotations, has the purpose or effect of interfering with the observer's work performance, or otherwise creates an intimidating, hostile or offensive environment,

(6) require, pressure, coerce, or threaten an observer to perform duties normally performed by crew members.

NOTE: Authority cited: Sections 1006, 7071, 7652, 7923, 8405.3 and 8591, Fish and Game Code. Reference: Sections 7055, 7056, 7058, 7071, 7923 and 8587, Fish and Game Code.

HISTORY

1. New section filed 9–12–2002 as an emergency; operative 9–12–2002 (Register 2002, No. 37). A Certificate of Compliance must be transmitted to OAL by 1–10–2003 or emergency language will be repealed by operation of law on the following day.
2. Repealed by operation of Government Code section 11346.1(g) (Register 2003, No. 9).
3. New section filed 2–27–2003; operative 2–27–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 9).

§ 106. Permits to Commercially Take Shark and Swordfish Using Drift Gill Nets.

(a) Permit Required.

(1) The owner or operator of a vessel using drift gill nets to take shark and swordfish pursuant to sections 8561–8570 of the Fish and Game Code shall have obtained a valid drift gill net shark and swordfish permit and shall be in possession of said permit when engaged in such activities.

(2) To Whom Issued. The department shall issue permits to the owner or operator of a currently registered vessel who has qualified for said permit pursuant to sections 8561–8570 of the Fish and Game Code. The applicant, if the holder of an expired drift gill net shark and swordfish permit, shall have complied with subsection (e) dealing with records during the preceding year.

(3) Where Issued. Permits will be issued at department offices in Long Beach and San Diego.

(4) Permit Review.

(A) The department shall inform the applicant, in writing, that the application is complete and accepted for filing, or that the application is deficient and what specific information is required within 10 business days of receipt of a permit application.

(B) The department shall inform the applicant, in writing, of a permit decision within 15 business days of receipt of a completed permit application.

(b) Limitations of Permit. Permits are nontransferable. Not more than one permit shall be issued to any person. Except as provided in section 8564 of the Fish and Game Code, no permit shall be valid for more than one vessel at one time.

(c) Duration of Permit. Except as otherwise provided, permits issued pursuant to these regulations shall be in force from the date of issuance through March 31, 1984. Permits issued on an annual basis after March 31, 1984 shall be in force from April 1 to March 31 of the following year or, if issued after the beginning of that term, for the remainder thereof.

(d) Cost of Permit. See section 8567 of the Fish and Game Code.

(e) Records. Pursuant to section 190 of these regulations, each permittee shall complete and submit an accurate record of all gill net fishing activities on a form (Gill and Trammel Net Log, DFG 174 (10/89), see Appendix A) provided by the department.

(f) Notification Procedure. The department shall notify permittees if the director, pursuant to section 8577 of the Fish and Game Code, closes the drift gill net shark and swordfish fishery or any area where the fishery is conducted. The department shall notify a permittee if his permit is suspended pursuant to section 8576 of Fish and Game Code. In either case, the department shall notify permittees by certified mail and by public announcement on VHF/Channel 16 between 0800 hours and 1000 hours during normal business days. Radio transmissions shall commence 48 hours prior to the effective date of a closure or permit suspension and shall continue for 24 hours after the effective date of such action. It shall be the responsibility of the permittee to daily monitor the named radio channel during the specified hours.

(g) A permittee may have any person serve in his place on the permittee's vessel and engage in fishing under his drift gill net shark and swordfish permit for not more than 15 calendar days in any one year, except as otherwise provided in section 8563(b) of the Fish and Game Code. A permittee shall notify the department's Long Beach office of such a substitution by certified letter or telegram to be received at the Long Beach office during normal business hours at least 24 hours prior to the commencement of the trip. Any notice sent in this regard shall include, but is not limited to:

(1) Name of the vessel;

(2) Name and commercial fishing license number of the substitute;

(3) Departure date and port for the trip;

(4) Termination date and port for the trip.

Conviction of a substitute permittee for a willful violation of any provision of Article 16 (commencing with section 8560) of chapter 2 or article 1 (commencing with section 8601), or article 5 (commencing with section 8680) of chapter 3, part 3, division 6 of the Fish and Game Code or any regulation adopted pursuant thereto, while operating under the substitute permit, shall be cause to revoke or suspend the permit issued pursuant to sections 8560–8583 of the Fish and Game Code.

(h) Conditions of Permit. Permit holders, their agents, servants, employees or those acting under their direction or control, shall comply with all applicable provisions of the Fish and Game Code relating to commercial fish and any regulations adopted pursuant thereto.

(i) Revocation of Permits. Any permit may be revoked or suspended by the commission, when requested by the department, upon a conviction for a willful violation of any provision of article 16 (commencing with section 8560) of chapter 2 or article 1 (commencing with section 8601) or article 5 (commencing with section 8680) of chapter 3, part 3, division 6 of the Fish and Game Code, or violation of any condition of the permit by the permittee or the permittee's agent, servant, employee or person acting under the permittee's direction or control.

NOTE: Authority cited: Sections 1050, 8394, 8561, 8577 and 8578, Fish and Game Code. Reference: Sections 8561–8570, Fish and Game Code.

HISTORY

1. New section filed 3–25–81; effective thirtieth day thereafter (Register 81, No. 13).
2. New subsections (k) and (l) filed 10–9–81 as an emergency; effective upon filing (Register 81, No. 42).
3. Amendment of subsections (k) and (*l*) filed 10–28–81 as an emergency; effective upon filing (Register 81, No. 45). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 2–25–82.
4. Repealer of subsections (k) and (*l*) filed 1–27–82 as an emergency; effective upon filing (Register 82, No. 5). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 5–27–82.
5. New subsections (k), (*l*) and (m) filed 9–1–82 as an emergency; effective upon filing (Register 82, No. 36). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 12–30–82.
6. Editorial correction of subsection (f) filed 12–29–82 (Register 83, No. 1).
7. Repealer and new section filed 5–17–83; effective thirtieth day thereafter (Register 83, No. 21).
8. Amendment of subsection (e) filed 12–8–89; operative 1–1–90 (Register 89, No. 50).
9. Amendment of subsection (d) filed 4–18–91; operative 5–18–91 (Register 91, No. 21).

§ 107. Broadbill Swordfish.

(a) Permit Required.

(1) The owner or operator of a vessel taking broadbill swordfish for commercial purposes shall have obtained a valid swordfish permit and shall be in possession of said permit when engaged in such activities.

(2) To Whom Issued. The department shall issue a permit to the owner or operator of a currently registered vessel. The applicant, if the holder of an expired swordfish permit, shall have complied with subsection 107(e) dealing with records during the preceding year, or during the last year such applicant held a permit, in order to be eligible for a permit.

(b) Limitations of Permit. Not more than one permit shall be issued to any operator. Permits shall not be assigned or transferred from person to person unless so authorized by the department.

(c) Duration of Permit. Except as otherwise provided, permits issued pursuant to these regulations shall be in force from April 1 through March 31 of the following year, or if issued after the beginning of such term, for the remainder thereof.

(d) Vessel Identification. Permittees vessel shall display its assigned permit number in 10″ high x 2″ . wide black Roman alphabet letters and Arabic numerals. Figures shall be black on a white background on both sides of the superstructure of the vessel. Numbers shall be displayed at all times while operating under a swordfish permit.

(e) Records. Pursuant to Section 190 of these regulations, each permittee shall complete and submit an accurate record of all swordfishing activities on a form (Swordfish Harpoon Log, DFG 107 (10/89) see Appendix A) provided by the department.

(f) Conditions of Permit. Provisions of the Fish and Game Code relating to commercial fish except as modified by the provisions of these regulations, shall be a condition of all permits to be fully performed by the holders thereof, their agents, servants, employees, or those acting under their direction or control.

(g) Cost of Permit. See section 8394.5 of the Fish and Game Code.

(h) Methods of Take.

(1) Swordfish may be taken only with hand–held hook and line or handthrusted harpoon.

(2) Aircraft may be used to directly assist a permittee or any person in the taking of any species of fish while operating under a swordfish permit.

Only aircraft with current FAA registration which are registered with the department pursuant to Section 7881, Fish and Game Code, and aircraft pilots licensed pursuant to Section 7850, Fish and Game Code, may conduct flights for permittees. Such aircraft shall display the letters "SW" on the underside of each wing in block Roman alphabet at least 24 inches high x 3 inches wide, black in color and on a white background.

(i) Notification Procedure. The department shall notify permittees if the director, pursuant to section 8577 of the Fish and Game Code, closes the swordfish harpoon fishery or any area where the fishery is conducted. The department shall notify permittees by certified mail and by public announcement on VHF/Channel 16 between 0800 hours and 1000 hours during normal business days. Radio transmissions shall commence 48 hours prior to the effective date of a closure and shall continue for 24 hours after the effective date of such action. It shall be the responsibility of the permittee to daily monitor the named radio channel during the specified hours.

(j) Revocation of Permits. Any permit may be revoked and canceled by the commission upon breach or violation of any fish and game law or regulation or violation of the terms or conditions of the permit by the holders thereof, their agents, servants, employees or those acting under their direction and control.

2. Certificate of Compliance filed 7–28–77 (Register 77, No. 31).
3. Amendment filed 3–25–81; effective thirtieth day thereafter (Register 81, No. 13).
4. Amendment filed 10–19–81; effective thirtieth day thereafter (Register 81, No. 43).
5. Relettering of subsection (i) to subsection (j) and new subsection (i) filed 5–17–83; effective thirtieth day thereafter (Register 83, No. 21).
6. Amendment of subsection (h)(2) filed 10–19–84; effective upon filing pursuant to Government Code section 11346.2(d) (Register 84, No. 42).
7. Amendment of subsection (e) filed 12–8–89; operative 1–1–90 (Register 89, No. 50).
8. Amendment of subsection (g) filed 4–18–91; operative 5–18–91 (Register 91, No. 21).
9. Amendment of subsections (a)(2), (b), and (h)(2)(A), repealer of subsections (a)(3) and (h)(2)(B) and amendment of NOTE filed 5–9–95; operative 6–8–95 (Register 95, No. 19).

§ 107.1. Possession of Gill Nets by Swordfish Permittees.

(a) Except as provided in subsection (b), any person operating under the authority of a swordfish permit as specified in Section 107 of these regulations may not possess a gill net aboard a swordfish permit vessel, except that set gill nets may be possessed, provided that the intent to use such gear has been declared on the application for a swordfish permit.

(b) Drift gill nets may be possessed onboard a swordfish permit vessel and used by a swordfish permittee who also possesses a valid permit which authorizes the use of a drift gill net to take swordfish.

2. Certificate of Compliance filed 8–27–76 (Register 76, No. 35).
3. Amendment filed 8–17–77 as an emergency; effective upon filing (Register 77, No. 34).
4. Certificate of Compliance filed 10–21–77 (Register 77, No. 3).
5. Amendment filed 8–1–78 as an emergency; effective upon filing (Register 78, No. 31).
6. Certificate of Compliance filed 10–11–78 (Register 78, No. 41).
7. Repealer filed 10–19–81; effective thirtieth day thereafter (Register 81, No. 43).

§ 109. Importation of Yellowtail and Barracuda from Mexico.

No person, firm, or corporation shall deliver, accept, or unload any yellowtail or, barracuda, from any vessel carrying a purse seine or round haul net until the Department of Fish and Game Patrol office nearest the point of delivery shall have issued a written inspection clearance to the master or operator of such vessel, or his agent, permitting said delivery. Such clearances shall be on such forms as the Department of Fish and Game shall prescribe. Such clearances shall be issued upon presentation of evidence satisfactory to the Department of Fish and Game of the fact that such fish was taken south of the International Boundary Line between the United States and Mexico.

NOTE: Authority cited: Section 2362, Fish and Game Code. Reference: Section 2362, Fish and Game Code.

HISTORY

1. New section filed 10–10–51; effective thirtieth day thereafter (Register 26, No. 1).
2. Amendment of NOTE filed 10–19–81; effective thirtieth day thereafter (Register 81, No. 43).
3. Amendment of section heading and section filed 7–31–2002; operative 8–30–2002 (Register 2002, No. 31).

§ 110. Pismo Clams Imported into California.

Persons bringing pismo clams into the State at any time that such clams are legal to import under the provisions of section 2369 of the Fish and Game Code shall comply with the following regulations:

(a) Pismo clams taken outside of this State must not be brought into, nor possessed within, any district during the closed season for pismo clams in said district.

(b) The commission shall require the following information on each importation of pismo clams:

State of California
Department of Fish and Game

RECORD OF ENTRY OF PISMO CLAMS INTO THE STATE OF CALIFORNIA

(Section 2369, Fish and Game Code)

Dated _____

Name of shipping firm _____

Address _____

Name of firm shipped to _____

Address _____

Name of person in charge _____

Consumption entry No. _____

Species imported _____

In amount of _____ Pounds _____

Condition: Live _____ Sharp frozen _____ Dried _____ Sliced _____

Method of transportation _____

Remarks _____

Point of entry _____

Signature _____

Certified before me this _____ day of _____ 19 _____

Mexican control No. (S.P. 12) _____

_____

Three copies made at point of entry, before a justice of the peace, notary public, or a fish and game warden or representative or federal custom immigration agent at border. One copy to remain with the shipment while it is in transit, one copy left on file with the person before whom the record is made, and one copy sent immediately to the nearest Department of Fish and Game office along with a $10 processing fee.

(c) Pismo clams imported from south of the international boundary between the United States and Mexico to be used for any purpose after delivery to the point of destination in this State shall be distributed for consumer use in containers holding not more than five pounds of pismo clam meat.

If pismo clams for consumer use are to be delivered in the shell, such container shall hold not more than 24 clams in shell.

All containers shall be marked to indicate country of origin.

The cost of such marking and certification shall be paid by the importer.

HISTORY

1. Originally published 3-31-45 (Title 14).
2. Amendment filed 10-17-67 as an emergency; designated effective 11-8-67 (Register 67, No. 42). For prior history, see Register 66, No. 29.
3. Certificate of Compliance-section 11422.1, Gov. Code, filed 12-12-67 (Register 67, No. 50).
4. Editorial correction (Register 71, No. 5).
5. Amendment of NOTE filed 10-19-81; effective thirtieth day thereafter (Register 81, No. 43).
6. Amendment of subsection (b) filed 4-18-91; operative 5-18-91 (Register 91, No. 21).

§ 112. Surfperch.

Surfperch of the family Embiotocidae may be taken, transported, possessed and sold for commercial purposes pursuant to the following conditions:

(a) Notwithstanding the surfperch fishing season as specified in Fish and Game Code subsection 8395(b), surfperch of the family Embiotocidae may only be taken between August 1st and April 30th, except shiner surfperch (*Cymatogaster aggregata*), which may be taken, sold, or purchased at any time. Notwithstanding the authorized sale and purchase dates specified in 8395(b), surfperch may be sold or purchased only between August 1st and May 10th.

(b) Surfperch of the family *Embiotocidae* of the following species: barred surfperch; redtailed surfperch; and calico surfperch, taken during the open season north of a line drawn east and west through Point Arguello may be shipped south of said line and sold or purchased subject to the following regulations:

(1) All such fish shall be individually tagged by the permanent attachment of tags inscribed "California Department of Fish and Game-Surfperch" before shipment south of said line. Possession of such fish south of said line without attached prescribed tags is unlawful for commercial purposes.

(2) Tagging shall be conducted only by licensed wholesale fish dealers, their agents, or employees designated by the department. Said designated dealers are defined as those signing receipts for tags delivered to their place of business by department employees at cost. Designated dealers shall be required to produce official receipts for all said species of surfperch in quantities consistent with and corresponding to the number of tags requested.

(3) It shall be unlawful to transfer, transport or possess unused tags at any location other than the designated dealer's licensed place of business.

(4) The possession of unused surfperch tags, or any surfperch tags not attached to surfperch is unlawful in any place where fish are sold south of said line.

(5) A fee of $10 for each tag order shall be paid to the department to cover administrative costs.

HISTORY

1. New section filed 9-13-55 as an emergency effective upon filing. (Register 55, No. 14).
2. Amendment filed 8-2-57; effective thirtieth day thereafter (Register 57, No. 12).
3. Amendment filed 8-26-60 as an emergency; effective upon filing (Register 60, No. 19).
4. Certificate of Compliance-section 11422.1, Government Code, filed 12-15-60 (Register 60, No. 25).
5. Repealer and new section filed 10-19-81; effective thirtieth day thereafter (Register 81, No. 43).
6. New subsection (e) filed 4-18-91; operative 5-18-91 (Register 91, No. 21).
7. Amendment of section heading, redesignation of first paragraph as subsection (b), new first paragraph and subsection (a) and subsection relettering and renumbering filed 2-2-2004; operative 3-3-2004 (Register 2004, No. 6).

§ 115. Mussels.

California sea mussels (*Mytilus californianus*) may only be taken in adherence with the provisions of Section 123 and under the following conditions:

(a) The harvester must be a licensed commercial fisherman.

(b) Limits:

(1) In Districts 19, 19A, 19B, and 21, the daily bag limit is 250 pounds in the shell where:

1 pound shucked meat is equivalent to 3.8 pounds in shell; and

1 gallon shucked meat is equivalent to 30 pounds in the shell.

(2) In the remainder of the state there is no bag limit.

NOTE: Authority cited: Section 8344, Fish and Game Code. Reference: Section 8344, Fish and Game Code.

HISTORY

1. New section filed 12-11-70; effective thirtieth day thereafter (Register 70, No. 50).
2. Amendment filed 10-19-81; effective thirtieth day thereafter (Register 81, No. 43).

§ 116. Crayfish.

Freshwater crayfish may not be taken for commercial purposes except in accordance with the following regulations:

(a) Licenses and Permits Required.

(1) Crayfish may not be taken for commercial purposes except under a revocable, nontransferable, numbered permit issued by the department. See subsection 699(b) of these regulations for the fee for this permit. (NOTE: This fee shall be charged effective April 1, 1992.) Persons taking crayfish for a fee under the authority of a scientific collector's permit do not need to have this permit.

(2) Except for those taking crayfish for a fee under the authority of a scientific collector's permit, every person who takes, assists in taking, possesses or transports crayfish while on any boat or vessel, or who uses or operates or assists in using or operating any boat, trap, or other appliance to take crayfish, must have a valid crayfish permit issued to him and must be in possession of said permit while engaged in any of such activities.

(3) Crayfish may not be taken for commercial purposes for human consumption except under the authority of a commercial fishing license. Commercial fishermen taking crayfish shall also comply with requirements of the Fish and Game Code relating to commercial fishing vessel registration and other applicable commercial laws.

(4) Crayfish may not be taken as live bait for commercial purposes except under the authority of a live freshwater bait fish license.

(5) A crayfish permit may be revoked or suspended, for a period not to exceed one year, by the commission for violation of any of the terms of the permit or provisions of law relating to the taking of crayfish by the permittee or his agent, servant, employee, or person acting under his direction and control. However, any person who has had such a permit revoked may be required by the commission to appear before it and no new permit may be issued to such person unless the commission finds that such issuance will be in the best interests of the crayfish resource.

(6) The permit number of the person owning or in command of any boat used to take crayfish shall be visibly displayed on both sides of the boat in 10-inch black numbers, one-inch wide, on a white background.

(b) Records. The department may require persons taking crayfish for commercial purposes to keep an accurate, complete record of daily fishing operations on forms provided by the department. If so required, the

original copy of the completed forms, recording one month's fishing activity, shall be mailed to the department by the fifth day of the following month.

(c) Fishing Area and Season.

(1) Area: Crayfish may be taken for commercial purposes only in the following counties or portions thereof except that no crayfish shall be taken in any lake or reservoir within the county:

(A) Tehama, Glenn, Butte, Colusa, Sutter, Yuba, Yolo, Sacramento, Solano, Contra Costa, San Joaquin, Stanislaus, Merced, Kings, Santa Barbara, Ventura, Los Angeles, Orange, San Bernardino, Riverside, San Diego and Imperial counties.

(B) Nevada, Placer, El Dorado, Amador, Calaveras, Tuolumne and Mariposa counties west of Highway 49.

(C) Madera, Fresno, Tulare and Kern counties west of the westerly boundaries of the National Park or National Forest lands.

(2) Open Season: All year.

(d) Restricted Sale.

(1) Crayfish taken under the authority of a commercial license and a crayfish permit may be used only for human consumption and may not be sold, purchased or traded for any other use, except that they may be sold to a registered aquaculturist.

(2) Crayfish taken under the authority of a live bait fish license shall be used only for bait purposes and shall not be sold, purchased or used for any other purpose.

(e) Size Limit.

(1) No live crayfish of the genus *Pacifastacus* less than three and five-eights inches (92mm) in length from tip of nose (acumen) to tip of tail (telson), measured in a straight line ventral side up, may be taken commercially, except an allowable percentage of unacceptable (dead or undersized) *Pacifastacus* in any load or lot shall not be more than 10% by number.

(2) With the exception of the 10% allowable unacceptable crayfish, all other undersized *Pacifastacus* shall be returned unharmed to the waters from which taken. Such crayfish shall be sorted and returned immediately following processing of any trap or trap line before pulling additional traps or before returning to any dock or landing.

(3) The processing plants may not possess any cooked crayfish of the genus *Pacifastacus* which are less than three and one-half inches (89 mm) in length from the tip of nose (acumen) to tip of tail (telson), measured in a straight line ventral side up, except an allowable percentage of undersized *Pacifastacus* shall not be more than 5% by number of the total crayfish received at the processing plant during the day or processing.

(4) Any undersized *Pacifastacus* taken to the processing plant shall be returned to the water from which they were taken within twenty-four hours from the time of arrival at the processing plant. Either the processor or a commercial fisherman shall return the crayfish. Such crayfish shall be maintained alive and in good condition until they are released.

(5) There is no minimum size limit on crayfish of the genus Procambarus or the genus *Orconectes.*

(6) To determine the percentage of unacceptable crayfish of the genus *Pacifastacus* which are either dead and/or less than the minimum size limit fixed by this section, samples shall be taken from various portions of the load or lot and shall be measured and counted. The mean of the combined counts of all samples taken shall be used to determine the percentage of unacceptable *Pacifastacus* in the load or lot. Samples shall be taken in containers of not less than one gallon size approximately full of *Pacifastacus.* At least three such samples shall be taken from any load or lot.

(f) Female Crayfish. Any female crayfish carrying eggs (berried crayfish) or young shall be returned unharmed to the water at the time the crayfish are sorted.

(g) Methods of Take. Crayfish may be taken only by hand, hook and line, dip net not over six feet in greatest diameter or with a trap not over three feet in greatest dimension.

(h) Trap Identification. All crayfish traps shall be permanently tagged with a visible, metal tag bearing the crayfish permit number of the fisherman. Any person pulling or raising crayfish traps bearing a permit number other than his own must have in his possession written permission to pull the traps from the person who holds the crayfish permit number identifying such traps.

(i) Buoys. Each person taking crayfish for commercial purposes shall designate a trapping area with at least two buoys, one at either end of a trap line; however, the buoys do not have to be attached to the trap line. Such buoys shall be spaced not less than 200 feet, nor more than 1,200 feet apart. The upstream buoy shall be painted red and the downstream buoy white. When single traps are employed such traps shall be individually buoyed with a minimum spacing of 200 feet between traps. Buoys for single traps shall be painted yellow. Each buoy shall bear the permit number of the fisherman in a color that contrasts with that of the buoy. The permit number on the buoy shall be at least 1 1/2 inches in height and all markings shall be at least one-quarter inch in width.

(j) Containers. Any container used to hold or transport live crayfish shall be vented at the bottom. The depth of crayfish in such container shall not exceed 13 inches.

(k) All crayfish traps must be raised and processed at least once every 72 hours. Traps not processed within this time limit shall be considered abandoned and shall be subject to seizure by department personnel.

(*l*) Scientific and Educational Use.

(1) Each person who collects crayfish for a fee for scientific and educational purposes shall have a commercial fishing license, and each boat used for this purpose shall be registered as a commercial fishing vessel. However, if a fisherman is collecting crayfish of the genus *Pacifastacus* he must also have a scientific collecting permit (see section 650, title 14, CAC, for the requirements).

(2) A qualified scientific supply house shall issue a market order to each fisherman before the fisherman collects crayfish. Each market order shall specify the collecting locality, and the duration of that market order. Each fisherman shall have a market order in his possession when collecting crayfish.

(3) The fishing area and season fixed in subsection (c) and the minimum size limit fixed in subsection (e) of this section shall also apply to the fishermen collecting crayfish for a fee for scientific and educational purposes.

NOTE: Authority cited: Section 8491, Fish and Game Code. Reference: Sections 8491 and 15101, Fish and Game Code.

HISTORY

1. New section filed 6–6–75; effective thirtieth day thereafter (Register 75, No. 23).
2. Amendment filed 1–28–76; effective thirtieth day thereafter (Register 76, No. 5).
3. Amendment of subsections (a)(5) and (e) filed 3–16–77; effective thirtieth day thereafter (Register 77, No. 12).
4. Amendment of subsections (e)(1), (e)(2) and (h) filed 5–10–79; designated effective tenth day thereafter pursuant to section 215, Fish and Game Code (Register 79, No. 19).
5. Repealer and new section filed 10–19–81; effective thirtieth day thereafter (Register 81, No. 43).
6. Amendment filed 8–3–82; effective thirtieth day thereafter (Register 82, No. 32).
7. Amendment of subsection (d)(1) filed 9–15–83; effective thirtieth day thereafter (Register 83, No. 38).
8. Amendment of subsection (a) filed 4–18–91; operative 5–18–91 (Register 91, No. 21).
9. Repealer of subsections (a)(5)–(6), subsection renumbering and amendment of newly designated subsection (a)(5) filed 12–14–2007; operative 1–13–2008 (Register 2007, No. 50).

§ 119. Trawl Nets Inside of the Golden Gate Bridge.

Bay shrimp, Oriental gobies, longjaw mudsuckers, staghorn sculpin, and plainfin midshipman inside of the Golden Gate Bridge may be taken for commercial purposes by the use of trawl nets only under a revocable, nontransferable permit issued by the department. All other species taken shall be immediately returned to the water.

(a) Qualifications of Permits. The applicant must be a licensed commercial fisherman and operator of a currently registered commercial fishing vessel.

(b) Limitation of Permit. A permit shall be issued to an individual owning or operating a vessel engaged in the fishery. Permits shall not be assigned or transferred from person to person. See subsection 699(b) of these regulations for the fee for this permit.

(c) Permit Areas.

(1) Trawl nets may be used in Districts 2, 12, 13, and that portion of District 3 upstream of the Carquinez Bridge, except as noted in subsections (c)(2) and (c)(3).

(2) The southern boundary of Fish and Game District 13 is the Southern Pacific Railroad crossing at Coyote Creek.

(3) Trawl nets may be used only in the portions of Districts 2 and 3 lying westerly of a projected straight line beginning at Point Edith on the south and extending through Buoy "6" to the shoreline on the north.

(d) Season. All year.

(e) Limitation of Gear.

(1) When any nets possessed under the terms of these regulations are in possession on any permittee's vessel, no other fishing nets may be possessed on that vessel.

(2) All fishing gear used under the provisions of this permit is subject to inspection and approval by the department.

(3) On request, any authorized representative of the department shall be permitted to travel on the permittee's boat to observe fishing operations.

(f) Identification of Vessel. Each vessel operating under the provisions of these regulations shall display on both sides of the vessel the number of the owner's permit in 14 inch black numbers on a white background.

(g) Records. Pursuant to section 190, of these regulations, each permittee shall complete and submit an accurate record of his fishing activities on a Bay Shrimp Log form, (FG 2025 (new 11/2005), see Appendix A.

(h) Conditions of Permit. The provisions of the Fish and Game Code relating to commercial fishing except as modified by the provisions of this permit shall be a condition of all permits to be fully performed by the holders thereof, their agents, servants, employees, or those acting under their direction and control.

(i) A permittee prohibited from obtaining a permit may request a hearing before the commission to show cause why his trawl fishing privileges should be restored.

(j) Revocation of Permits. Permits may be revoked and cancelled by the commission without notice, upon the breach or violation of any fish and game law or regulation or any violation of the terms or conditions of this permit by the holders thereof, their agents, servants, employees or those acting under their direction and control. Permits so revoked and cancelled may not be renewed for a period of one year from the date of revocation.

NOTE: Authority cited: Section 8832, Fish and Game Code. Reference: Sections 7857 and 8832, Fish and Game Code.

HISTORY

1. Relettering of subsections (e)–(j) to (f)–(k) and new subsection (e) filed 5–11–83; effective thirtieth day thereafter (Register 83, No. 20). For prior history, see Register 81, No. 43.
2. Amendment of subsection (e) filed 9–19–85; effective thirtieth day thereafter (Register 85, No. 38).
3. Amendment of subsection (h) filed 12–8–89; operative 1–1–90 (Register 89, No. 50).
4. Amendment of subsection (b) filed 4–18–91; operative 5–18–91 (Register 91, No. 21).
5. Amendment of section and NOTE filed 3–22–2006; operative 4–21–2006 (Register 2006, No. 12).
6. Editorial correction of subsection (g) (Register 2006, No. 20).

§ 120. Prawn or Shrimp Trawling.

The following are the regulations under which permits to use or possess trawls for the taking of shrimp or prawns in ocean waters pursuant to section 8842 are to be granted:

(a) Qualifications of Permittee. The applicant must be the operator of a currently registered commercial fishing vessel.

(b) Southern Pink Shrimp Trawl Permit. On and after April 1, 2001, any person using a trawl net to take, possess aboard a boat, or land pink shrimp for commercial purposes in ocean waters south of a line drawn due west of Point Conception shall have a southern pink shrimp trawl permit that has not been suspended or revoked.

(c) Cost of Permit. See subsection 699(b) of these regulations for the fee for this permit. (NOTE: This fee shall be charged effective April 1, 1992.)

(d) Permit Areas. The taking of pink shrimp north of a line drawn due west of Point Conception shall be subject to this section and Section 120.01, Title 14, CCR. Trawling for shrimp or prawns shall be permitted only in those waters of Fish and Game Districts 6, 7, 10, 17, 18, and 19, lying not less than three (3) nautical miles from the nearest point of land on the mainland shore, all offshore islands and the boundary line of District 19A, except that in waters lying between a line extending due west from False Cape and a line extending due west from Pigeon Point, trawling is allowed not less than two (2) nautical miles from the nearest point of land on the mainland shore. However, no trawling shall be conducted in the cowcod closure areas defined in Section 150.06, Title 14, CCR.

(e) Season. Pink shrimp may be taken April 1 through October 31. The taking of golden, spot and ridgeback prawns is provided for in Section 120.3, Title 14, CCR.

(f) Gear Specifications.

(1) The net to be used for the capture of shrimp or prawns shall be an otter trawl or a beam trawl net.

(2) The mesh of any webbing used on or with the beam or otter trawl shall not be less than 1 3/8 inches measured inside the knots.

(3) An approved Bycatch Reduction Device (BRD) shall be used on all trawl nets used in the commercial pink shrimp trawl fishery and is described as one of the following:

(A) The Nordmore Grate. The grate consists of a series of rigid or semi–rigid vertical bars that form a panel which guides finfish out of an escape hole located in the top of the net. The device may include a funnel used to concentrate catch near the bottom of the panel to facilitate sorting but is not a required component. An approved Nordmore Grate must meet the following criteria:

1. The rigid or semi–rigid panel must completely cover some portion of the net in diagonal cross–section.
2. None of the openings between the vertical bars of the panel may exceed 2 inches.
3. The escape hole, when spread open, must expose a hole at least 100 square inches in surface area, which is the equivalent to removing 10–12 meshes in a straight line.
4. The escape hole must be forward of the panel and the farthest back point must end within four meshes of the point at which the rigid or semi–rigid panel connects to the main net at its farthest back point.

(B) The Soft–Panel Excluder. This device uses a mesh panel to guide fish out of an escape hole located in the top of the net. An approved soft–panel BRD must satisfy the following criteria:

1. The panel meshes must be constructed of net material with individual meshes no larger than 6 inches (stretch measure).
2. The panel must completely cover some portion of the net in diagonal cross–section and partial panels are not allowed.
3. The escape hole must, when spread open, expose a hole at least 100 square inches in surface area, which is equivalent to cutting 10–12 meshes in a straight line.
4. The escape hole must be positioned forward of the panel and end within four meshes of the point at which the panel connects to the main net at its farthest back point.

(C) The Fisheye Excluder. This device functions as a simple forward facing escape hatch that is maintained by a rigid frame. An approved fisheye BRD must meet the following criteria:

1. The escape hole must be forward facing so that finfish can swim towards the mouth of the net to exit through the fisheye.
2. The device must be placed on the top of the codend, no further forward than 84 codend meshes, counted from the pursing rings.
3. The escape hole must be no less than 6 inches in height and no less than 10 inches in width.

(4) A revocable experimental BRD permit may be issued by the Department's Marine Region Manager and used in lieu of an approved BRD under the following terms and conditions:

(A) The experimental BRD meets minimum design criteria for approved BRDs as determined by the Marine Region Manager.

(B) The permitted vessel carries a Department–approved observer coverage during all times that the experimental BRD is used in lieu of an approved BRD to harvest pink shrimp.

(C) The experimental BRD permit is valid for the duration of the impending or current pink shrimp season unless revoked.

(5) Bycatch reduction devices shall not be modified in any way that interferes with their ability to allow fish to escape from the trawl, except for the purpose of testing the BRD to measure shrimp loss. Authorized testing of BRDs may be conducted as follows:

(A) All testing must occur between 3:00 p.m. and 6:00 p.m. Pacific Time.

(B) For vessels fishing two nets simultaneously (double–rigged boats), only one net may contain a disabled BRD (approved or experimental).

(C) For vessels fishing only one net, the BRD may be disabled only between 3:00 p.m. and 6:00 p.m. Pacific Time.

(g) Limitations of Gear.

(1) Nets used for the taking of shrimp or prawns under this regulation may be possessed on a boat in a permit area only when the shrimp or prawn trawling season is open in that area, except as provided in (6) below and except that for a period of seven (7) days following the close of the season, shrimp or prawn nets may be possessed on a boat for the purpose of cleaning, drying, or maintaining such nets, provided that the boat remains in port during the time the net(s) is aboard. No shrimp trawl net may be possessed on board a vessel in the commercial pink shrimp fishery that does not include an excluder device. All bycatch reduction devices and codends used for trawl fishing for pink shrimp must be readily accessible and made available for inspection at the request of a department official.

(2) When any nets possessed under the terms of these regulations are in possession on any permittee's vessel, no other fishing nets may be possessed on that vessel.

(3) No web, the meshes of which are less than that prescribed in these regulations, may be possessed on any vessel which is operating under the provisions of a shrimp or prawn permit.

(4) All fishing gear used under the provisions of this permit is subject to inspection and approval by the Department of Fish and Game at any time.

(5) On request, any authorized representative of the Department of Fish and Game shall be permitted to travel on the permittee's boat to observe shrimp or prawn trawling operations.

(6) The department may issue revocable nontransferable permits to shrimp permittees for purpose of transporting shrimp or prawn nets in closed permit areas. The permit must include such information as the name of the vessel that will transport the net and a termination date that does not extend beyond the end of the season in progress. The permit shall be carried aboard the vessel upon which the net is being transported.

(7) No shrimp trawl nets may be removed from the vessel participating in the pink shrimp trawl fishery prior to the offloading of pink shrimp.

(h) Incidentally Caught Fish. Not more than 1,500 pounds, multiplied by the number of days of the fishing trip, of fish other than Pacific whiting, shortbelly rockfish, or arrowtooth flounder caught incidentally with shrimp or prawns may be possessed on any boat operating under a permit as provided in these regulations, except salmon may be taken and possessed subject to sections 8210.2 to 8226, and 8230 to 8237, inclusive, of the Fish and Game Code. Spot prawns shall not be possessed or landed as incidental catch in the pink shrimp fishery.

(i) Maximum Count per Pound. It is illegal for any vessel operating under a southern pink shrimp permit or a permit as provided in Section 120.01, Title 14, CCR, to land pink shrimp having a count greater than 160 shrimp per pound.

(j) Records. Pursuant to section 190 of these regulations, each permittee shall complete and submit an accurate record of his fishing activities on a form (Shrimp/Prawn Trawl Log, DFG 120 (10/ 89), see Appendix A) provided by the department.

(k) Conditions of Permit. The provisions of the Fish and Game Code of California relating to commercial fishing except as modified by the provisions of this permit shall be a condition of all permits to be fully performed by the holders thereof, their agents, servants, employees, or those acting under their direction and control.

(l) Revocation of Permits. All permits may be revoked and canceled by the Fish and Game Commission without notice, upon the breach or violation of any fish and game law or regulation or any violation of the terms or conditions of this permit by the holders thereof, their agents, servants, employees or those acting under their direction and control. Permits so revoked and canceled may not be renewed for a period of one year from the date of revocation.

HISTORY

1. Amendment of subsection (e) filed 4–7–76; effective thirtieth day thereafter (Register 76, No. 3.)
2. Amendment of subsection (i) filed 6–4–76; effective thirtieth day thereafter (Register 76, No. 23).
3. Amendment of subsection (e) filed 11–5–79 as an emergency; effective upon filing (Register 79, No. 45). A Certificate of Compliance must be filed within 120 days or emergency language will be repealed on 3–5–80.
4. Certificate of Non–Compliance filed 1–25–80 (Register 80, No. 4).
5. Editorial correction of subsection (e) (Register 80, No. 47).
6. Amendment of subsection (e) filed 2–19–81 as an emergency; effective upon filing (Register 81, No. 8). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 6–18–81.
7. Reinstatement of subsection (e) as it existed prior to emergency amendment filed 2–19–81 by operation of section 11346.1(b). Government Code (Register 81, No. 43).
8. Amendment filed 10–19–81; effective thirtieth day thereafter (Register 81, No. 43).
9. Editorial correction of History Notes No. 7 and No. 8 (Register 81, No. 47).
10. Amendment of subsection (b), new subsection (d), repealer of subsection (h) and relettering of former subsections (d)–(h) filed 3–18–83; effective thirtieth day thereafter (Register 83, No. 12).
11. Editorial correction of subsection (h)(1) filed 4–12–84; effective thirtieth day thereafter (Register 84, No. 15).
12. Amendment of subsections (c), (f) and (k)(2) filed 9–23–86; operative 10–23–86 (Register 86, No. 40).
13. Amendment of subsection (k) filed 12–8–89; operative 1–1–90 (Register 89, No. 50).
14. Amendment of subsection (d) filed 4–18–91; operative 5–19–91 (Register 91, No. 21)
15. Amendment of subsection (e) filed 3–5–2001; operative 3–5–2001 pursuant to Fish and Game Code sections 202 and 215 (Register 2001, No. 10).
16. Repealer of subsections (b) and (c), new subsection (b), subsection relettering, and amendment of newly designated subsections (d), (e), (h) and (i) filed 3–28–2001; operative 3–28–2001 pursuant to Government Code section 11343.4 (Register 2001, No. 13).
17. New subsections (f)(3)–(f)(5)(C), amendment of subsection (g)(1), new subsection (g)(7) and amendment of NOTE filed 12–17–2001; operative 1–16–2002 (Register 2001, No. 51).
18. Amendment of subsection (h) filed 3–26–2003; operative 3–26–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 13).

§ 120.01. Pink Shrimp Trawling.

(a) Permit Required. On and after April 1, 2001, any person using a trawl net to take, possess aboard a vessel, or land pink shrimp for commercial purposes in ocean waters north of a line drawn due west of Point Conception shall have a northern pink shrimp trawl permit or a northern pink shrimp trawl individual permit that has not been suspended or revoked. All pink shrimp taken in ocean waters north of the aforementioned line incidental to other fishing activities shall be immediately returned to the water. Pink shrimp taken south of the aforementioned line shall be subject to the provisions of Section 120, Title 14, CCR. For the purposes of this section, vessel owner includes any person who has a lease–purchase agreement for the purchase of a vessel.

(b) Initial Permit Issuance.

(1) A northern pink shrimp trawl individual permit may be issued to the holder of a valid 2000–01 pink shrimp trawl individual permit who landed a minimum of 5,000 pounds of pink shrimp north of Point Conception in each of three of the fishing seasons from April 1, 1994 to October 31, 1999 as documented by department landing receipts submitted in their name and commercial fishing license identification number.

(2) A northern pink shrimp trawl vessel permit may be issued to the current owner of a vessel with a valid 2000–01 pink shrimp trawl vessel permit who landed a minimum of 5,000 pounds of pink shrimp north of Point Conception in each of three of the fishing seasons from April 1, 1994 to October 31, 1999, as documented by department landing receipts.

(3) A northern pink shrimp trawl vessel permit may be issued to an individual who does not qualify for a permit in (b)(1) or (2), above, and is the current owner of a commercial fishing vessel and who has been licensed as a California commercial fisherman for at least 20 years at the time of application and has participated in the pink shrimp trawl fishery for at least one of those years in this state as documented by department landing receipts that cumulatively total 5,000 pounds of pink shrimp landed by trawl nets in their name and commercial fishing license number. Any permit issued under this provision shall be nontransferable.

(4) Initial applications for all northern pink shrimp trawl permits shall be received by the department or, if mailed, postmarked no later than May 31, 2001. Initial late applications shall be received by the department or, if mailed, postmarked not later than June 30, 2001 and shall be accompanied by a $50 late fee. Initial late applications not received by the department or, if mailed, postmarked after June 30, 2001, will not be considered. A permit shall not be issued until the $50 late fee is paid.

(5) No individual or corporation that qualifies for a northern pink shrimp trawl vessel permit shall be issued a northern pink shrimp trawl individual permit.

(c) Vessel Length Endorsement.

(1) Each northern pink shrimp trawl vessel permit shall be endorsed with the overall length at the time of initial issuance. Vessel overall length is measured between the perpendiculars at the foremost portion of the hull at the stem, excluding any extensions commonly known as bowsprits, and the aftermost portion of the hull at the sternpost, excluding any extensions thereof. One of the following forms of documentation shall be submitted as proof of the vessel's overall length.

(2) Marine Survey Report. Before any northern pink shrimp trawl vessel permit is issued or transferred to another vessel, the owner of the vessel who will receive the permit may submit a marine survey completed by a certified marine surveyor on or after April 1, 1999 that clearly shows the vessel overall length.

(3) Federal Groundfish Permit. Before any northern pink shrimp trawl vessel permit is issued or transferred to another vessel, the owner of the vessel who will receive the permit may submit their current valid Federal Groundfish Permit with its endorsed length as documentation of the vessel's overall length.

(4) When a vessel is no longer available for an overall length measurement, as determined by the department, and does not have a current valid Federal Groundfish Permit, the department may consider: a Marine Survey dated prior to April 1, 1999, U.S. Coast Guard Documentation, or Department of Motor Vehicles registration records.

(d) Permit Renewal.

(1) Applicants for northern pink shrimp trawl permits must have held a valid northern pink shrimp trawl permit in the immediately preceding permit year. All applications for northern pink shrimp trawl permit renewal shall be received by the department or, if mailed, postmarked not later than April 30 each year. Late applications for northern pink shrimp trawl permit renewal shall be received by the department or, if mailed, postmarked not later than May 31 of each year and shall be accompanied by a $50 late fee. Late applications for northern pink shrimp trawl permit renewal not received, or if mailed, postmarked after May 31 will not be considered. A permit shall not be issued until the $50 late fee is paid.

(2) A northern pink shrimp trawl individual permit shall be upgraded to a northern pink shrimp trawl vessel permit before April 1, 2003. The vessel that the northern pink shrimp trawl vessel permit is assigned to may be not more than five feet greater in overall length than the longest vessel on which the permittee made qualifying landings. The individual permittee is subject to the terms of permit renewal in Section 120.01(d)(1). Any northern pink shrimp trawl individual permit not upgraded to a northern pink shrimp trawl vessel permit before April 1, 2003 shall be deemed forfeit to the department.

(e) Permit Transfers.

(1) A northern pink shrimp trawl vessel permit may be transferred to a replacement vessel owned by the permittee within two years of the permitted vessel being lost, stolen, or destroyed. The replacement vessel may be up to but not more than five feet greater in overall length than the original permitted vessel. The original length endorsement will remain on the permit.

(2) A northern pink shrimp trawl vessel permit is otherwise transferable to another owner only if the vessel qualifying for the initial permit landed 90,000 pounds of pink shrimp by trawl north of Point Conception from April 1, 1994 to October 31, 1999. An individual permit, when upgraded to a vessel permit pursuant to Section 120.01(d)(2), shall be otherwise transferable to another owner only if the fishermen qualifying for the initial permit landed 90,000 pounds of pink shrimp by trawl north of Point Conception from April 1, 1994 to October 31, 1999.

(A) The transferable permit may not be transferred more than once every twelve months.

(B) The transferable permit may be transferred any number of times to a different vessel up to five feet greater in overall length than the original endorsement, or of equal or less overall length. The original length endorsement will remain on the permit.

(C) A transferable permit may be permanently changed to a nontransferable permit on written request of the vessel owner. The permit shall not be restored to a transferable permit under any circumstances.

(3) On the death of a transferable northern pink shrimp trawl vessel permittee an heir may apply to the department to transfer that permit to him or her. The application for transfer shall be received by the department within two years of the death of the permittee.

(4) Any northern pink shrimp trawl vessel permit may be temporarily transferred, for up to one year, to a different vessel, if the permitted vessel is seriously damaged, has suffered a major mechanical breakdown, or is lost or destroyed. The request for temporary transfer shall include documentation of the damage, breakdown, loss or destruction.

(5) Any northern pink shrimp trawl vessel may be permanently retired from the fishery for any reason, and the permit transferred to a different vessel, up to but not more than five feet greater in overall length than the original length endorsement, which is owned by the same permittee.

(f) Appeal.

(1) Any applicant who is denied initial issuance of a northern pink shrimp trawl vessel permit or a northern pink shrimp trawl individual permit by the department for any reason may appeal that denial to the commission in writing, describing the basis for the appeal. The appeal shall be received by the commission or, if mailed, postmarked not later than March 31, 2002.

(2) Appeals for initial permit issuance may be based on medical conditions, vessel condition, purchase of a vessel during the moratorium period which had a pink shrimp vessel permit, economic conditions in the fishery, historic participation levels in the California pink shrimp fishery, oceanographic conditions and associated low availability of shrimp in the California area of the fishermen's residence, and incapacity of the vessel to participate in the fishery.

(3) Any applicant who is denied renewal of a northern pink shrimp trawl permit may appeal the denial to the department in writing describing the basis for the appeal. The appeal shall be received or, if mailed, postmarked no later than March 31 following the permit year in which the applicant last held a valid northern pink shrimp trawl permit. The ap-

peal shall be reviewed and decided by the department. The decision of the department may be appealed in writing to the commission within 60 days of the date of the department's decision.

(4) Any applicant who is denied transfer of a northern pink shrimp trawl vessel permit may appeal the denial to the department in writing not more than 90 days from the date of denial describing the basis for the appeal. The appeal shall be reviewed and decided by the department. The decision of the department may be appealed in writing to the commission within 60 days of the date of the department's decision.

(g) Fees.

(1) The annual fee for a transferable northern pink shrimp trawl vessel permit is $1,066.25.

(2) The fee to transfer a permit to a new owner is $1,000. No northern pink shrimp trawl vessel permit shall be transferred without a completed application and payment of fees.

(3) The fee to transfer a permit to another vessel owned by the same permittee is $200.

(4) The fee for a temporary permit transfer of up to one year is $100.

(5) The annual fee for a nontransferable northern pink shrimp trawl vessel permit is $533.25.

(6) The annual fee for a northern pink shrimp trawl individual permit is $500.

(7) The fee to upgrade a northern pink shrimp trawl individual permit to a northern pink shrimp trawl permit is $200.

(h) Conditions for Continued Eligibility. Any northern pink shrimp trawl vessel or northern pink shrimp trawl individual permit not renewed on or before May 31 of each permit year shall be considered forfeit to the department.

(i) Capacity Goal.

(1) The department shall evaluate the capacity goal every three years and report to the commission, with a recommendation regarding issuance of new permits.

(2) The capacity goal for transferable permits shall be a range from 75 up to the number of permits initially issued, and for nontransferable permits a range of 0 up to the number of permits initially issued.

(j) Permit Revocation.

(1) A northern pink shrimp trawl vessel or individual permit shall be revoked if false information is provided by the permittee to obtain the permit.

NOTE: Authority cited: Sections 713, 1050, 8591 and 8842, Fish and Game Code. Reference: Sections 1050, 7057, 7852.2, 7858, 8101, 8591 and 8842, Fish and Game Code.

HISTORY

1. New section filed 3–28–2001; operative 3–28–2001 pursuant to Government Code section 11343.4 (Register 2001, No. 13).
2. Amendment of section and NOTE filed 8–28–2001; operative 9–27–2001 (Register 2001, No. 35).
3. Change without regulatory effect amending subsections (g)(1) and (g)(5) and amending NOTE filed 5–12–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 19).
4. Change without regulatory effect amending subsections (g)(1) and (g)(5) filed 12–19–2006 pursuant to section 100, title 1, California Code of Regulations (Register 2006, No. 51).

§ 120.3. Golden Prawn (*Penaeus Californiensis*), Spot Prawn (*Pandalus Platyceros*) and Ridgeback Prawn (*Eusicyonia Ingentis*) Trawling.

Prawns may only be taken by trawl nets for commercial purposes pursuant to sections 120 and 120.3 of these regulations, or by traps, pursuant to sections 180, 180.2, 180.5 and this section. Spot prawns may not be taken or possessed using trawl nets.

Permits to use or possess trawl nets for the taking of golden prawns and ridgeback prawns in ocean waters may be granted only under the following conditions:

(a) Qualifications of Permittee. The applicant must be a licensed commercial fisherman and operator of a currently registered commercial fishing vessel.

(b) Cost of Permit. See subsection 699(b) of these regulations for the fee for this permit. (NOTE: this fee shall be charged effective April 1, 1992.)

(c) Permit Area. Trawling for golden and ridgeback prawns shall be permitted in waters not less than 25 fathoms in depth and lying not nearer than three nautical miles distance from the nearest point of land on the mainland shore, and from all offshore islands. No trawling shall be conducted in the cowcod closure areas defined in Section 150.06, Title 14, CCR. Also, trawling shall not be conducted within District 19A which shall include a line from Malibu Point (34°01.8′ N., 118°40.8′ W) to Rocky Point (Palos Verdes Point) (33°46.5′ N., 118°25.7′ W.).

(1) Trawling Zones.

(A) Trawling Zone 1: Includes waters between the California–Oregon border and a line extending due west from False Cape (Lat. 40°31′ N).

(B) Trawling Zone 2: Includes those waters between a line extending due west from False Cape and a line extending due west from Lopez Point (Lat. 36° N).

(C) Trawling Zone 3: Includes those waters between a line extending due west from Lopez Point and a line extending due west from Point Arguello (Lat. 34°35′ N).

(D) Trawling Zone 4: Includes those waters between a line extending due west from Point Arguello and a line extending due west from Point Dume (Lat. 34°0′ N).

(E) Trawling Zone 5: Includes those waters lying between a line extending due west from Point Dume and the California–Mexico boundary, excluding Fish and Game Districts 19A, 19B, 20, 20A and 21.

(d) Restricted Catch Period:

Trawling for ridgeback prawns in all zones shall be subject to the incidental catch restrictions pursuant to subsection (g) from June 1 through September 30.

(e) Gear Specifications.

(1) Trawl nets with single–walled bag or cod–end: The mesh of any webbing shall not be less than 1 1/2 inches in length.

(2) Trawl nets with double–walled bag or cod–end: The mesh of any webbing or liner shall not be less than 3 inches in length. The lines and cod–end shall be tied together along the rib lines.

(3) Mesh measurement. Minimum trawl mesh size requirements are met if a standard stainless steel wedge of appropriate gauge can be passed with thumb pressure only through 16 of 20 sets of two meshes each of wet mesh in the cod–end.

(f) Limitation of Gear.

(1) No net, the meshes of which are less than prescribed in these regulations, may be possessed on any vessel which is operating under the provisions of a golden prawn or ridgeback prawn permit.

(2) All fishing gear used under the provisions of these regulations is subject to inspection and approval by the department at any time.

(3) On request, any authorized representative of the department shall be permitted to travel on the permittee's boat to observe golden prawn or ridgeback prawn trawling operations.

(g) Incidental Catch Restrictions.

(1) Not more than 1,000 pounds of any fish caught incidentally with pink shrimp, golden or ridgeback prawns may be possessed on any boat operating under a permit as provided in these regulations. Fisherman should refer to subsection 189(a), Title 14, CCR, for bycatch limits of federally–managed groundfish species. Any amount of sea cucumbers taken incidentally may be possessed if the owner or operator of the vessel possesses a permit to take sea cucumbers pursuant to Section 8405 of the Fish and Game Code.

(2) During the restricted catch period for ridgeback prawns, loads of fish shall not contain more than 50 pounds without restriction or 15%, by weight, of ridgeback prawns. For the purpose of this regulation, species of fish other than spot prawns shall not be included in the determination of the percentage of ridgeback prawns taken or possessed in any load of fish containing mixed species.

(3) Trawl loads of fish shall not contain more than 50 pounds without restriction or 15%, by weight, of spot prawns. For the purpose of this reg-

ulation, species of fish other than ridgeback prawns shall not be included in the determination of the percentage of spot prawns taken or possessed in any load of fish containing mixed species.

(h) Records. Pursuant to Section 190 of these regulations, each permittee shall complete and submit an accurate record of his fishing activities on a form (Shrimp/Prawn Trawl Log, DFG 120 (10/89), see Appendix A) provided by the department.

(i) Conditions of Permit. The provisions of the California Fish and Game Code relating to commercial fishing, except as modified by the provisions of these regulations, shall be a condition of all permits to be fully performed by the holders thereof, their agents, servants, employees, or those acting under their direction and control.

(j) Revocation of Permits. All permits may be revoked and cancelled by the commission upon the breach or violation of any fish and game law or regulation or violation of the terms or conditions of this permit by the holders thereof, their agents, servants, employees or those acting under their direction and control.

NOTE: Authority cited: Sections 710.7, 711, 8591 and 8842, Fish and Game Code. Reference: Sections 710.7, 711, 8140 and 8842, Fish and Game Code.

HISTORY

1. Amendment of subsection (h) filed 6–4–76; effective thirtieth day thereafter (Register 76, No. 23). For prior history, see Register 75, No. 12.
2. Amendment of subsection (h) filed 10–9–81; effective thirtieth day thereafter (Register 81, No. 43).
3. Amendment filed 5–17–83; effective thirtieth day thereafter (Register 83, No. 21).
4. Amendment of heading and subsections, (c), (e), (h) and (j)(2) filed 9–23–86; operative 10–23–86 (Register 86, No. 40).
5. Amendment of subsection (j) filed 12–8–89; operative 1–1–90 (Register 89, No. 50).
6. Amendment of subsection (d) filed 4–18–91; operative 5–18–91 (Register 91, No. 21).
7. Amendment of subsection (i)(1) filed 9–14–92; operative 10–14–92 (Register 92, No. 38).
8. Amendment of subsections (c), (e)(1)(C), (f)(1), (h)(3) and NOTE filed 11–14–95; operative 11–14–95 pursuant to Fish and Game Code sections 202 and 215 (Register 95, No. 46).
9. Amendment of subsection (f)(1) and NOTE filed 9–19–97; operative 10–19–97 (Register 97, No. 38).
10. Amendment filed 5–3–2000; operative 5–3–2000 pursuant to Fish and Game Code section 215 (Register 2000, No. 18).
11. Editorial correction of subsection (e)(3) (Register 2000, No. 28).
12. New subsection (c), subsection relettering, amendment of newly designated subsections (e)(1)–(2), (f)(4), (g)(3) and (i) and amendment of NOTE filed 7–14–2000; operative 7–14–2000 pursuant to Fish and Game Code section 215 (Register 2000, No. 28).
13. Amendment of subsection (d) filed 3–5–2001; operative 3–5–2001 pursuant to Fish and Game Code sections 202 and 215 (Register 2001, No. 10).
14. Amendment of first two paragraphs and subsection (e), repealer of subsections (e)(1)–(2) and (f)(4), amendment of subsections (g)(1), (g)(3), (h)(1) and (h)(3) and amendment of NOTE filed 9–12–2002 as an emergency; operative 9–12–2002 (Register 2002, No. 37). A Certificate of Compliance must be transmitted to OAL by 1–10–2003 or emergency language will be repealed by operation of law on the following day.
15. Reinstatement of section as it existed prior to 9–12–2002 emergency amendment by operation of Government Code section 11346.1(f) (Register 2003, No. 6).
16. Amendment of subsection (e)(1) and amendment of NOTE filed 2–3–2003; operative 2–3–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 6).
17. Amendment filed 3–26–2003; operative 3–26–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 13).

§ 120.4. Restricted Access Fishery.

A control date of January 1, 1999, is established for the purpose of developing a restricted access spot, ridgeback, and golden prawn trawl fishery. Only those vessels which have made at least one spot, ridgeback, or golden prawn landing with trawl gear before this date may be considered for inclusion in the restricted access trawl fishery.

NOTE: Authority cited: Sections 8591 and 8842, Fish and Game Code. Reference: Sections 8590, 8591, 8593 and 8595, Fish and Game Code.

HISTORY

1. New section filed 5–3–2000; operative 5–3–2000 pursuant to Fish and Game Code section 215 (Register 2000, No. 18).

§ 120.5. Brine Shrimp Trawling—Mono Lake, Mono County.

Permits to use or possess trawl nets for the taking of brine shrimp in Mono Lake, Mono County, pursuant to section 8842 of the Fish and Game Code may be granted only under the following terms and conditions:

(a) Qualifications of Permittee. The applicant must be a licensed commercial fisherman and operator of a currently registered commercial fishing vessel.

(b) Limitation of Permit. Not more than one permit shall be issued to any one person. No permit shall be valid for more than one vessel. Permits shall not be assigned or transferred from person to person nor from vessel to vessel.

(c) Duration of Permit. Except as otherwise provided, any permit issued pursuant to these regulations shall be in force from January 1st to December 31st, or, if issued after the beginning of such term, for the remainder thereof.

(d) Permit Area. Mono Lake, Mono County.

(e) Season. All year.

(f) Gear Specifications. Any trawl net.

(g) Limitation of Gear.

(1) Nets used for the taking of brine shrimp under this regulation may not be possessed in any area except Mono Lake, Mono County, and on shore within one mile from the edge of the lake.

(2) The holder of a permit to take brine shrimp in Mono Lake, Mono County, may transport any trawl net across any district closed to the possession of said nets for the purpose of using same in Mono Lake.

(h) Incidentally Caught Fish. All other fish or shellfish incidentally captured in trawling for brine shrimp must be returned immediately to the lake.

(i) Conditions of Permit. The provisions of the Fish and Game Code of California relating to commercial fishing except as modified by the provisions of this permit shall be a condition of all permits to be fully performed by the holders thereof, their agents, servants, employees, or those acting under their direction or control.

(j) Revocation. All permits may be revoked or suspended by the Fish and Game Commission for a period of not to exceed one year for any violation of the terms or conditions of this permit by the holders thereof, their agents, servants, employees or those acting under their direction or control.

(k) Cost of Permit. See subsection 699(b) of these regulations for the fee for this permit.

NOTE: Authority cited: Section 8842, Fish and Game Code. Reference: Section 8842, Fish and Game Code.

HISTORY

1. New section filed 8–27–62 as an emergency; effective upon filing (Register 62, No. 18).
2. Certificate of Compliance–section 11422.1, Government Code, filed 11–20–62 (Register 62, No. 24).
3. Amendment of NOTE filed 10–19–81; effective thirtieth day thereafter (Register 81, No. 43).
4. New subsection (k) filed 4–18–91; operative 5–18–91 (Register 91, No. 21).

§ 120.6. Use of Powered Equipment of the Type, Size and Specifications Hereinafter Noted to Take Crustaceans.

Powered equipment may be used to take only *Callianassa affinis, Callianassa californiensis,* and *Callianassa giga* (commonly called ghost shrimp) under the following conditions:

(a) Powered equipment is a hand operated hydraulic pump or a pump driven by an engine not to exceed 5 horsepower. Intake and outlets of suction and hydraulic nozzles shall not be in excess of an inside diameter of 2 inches. The hydraulic nozzle shall not be longer nor extended into any tideland sands to a depth greater than 3 feet, and all engine–driven pumps shall have a shut–off valve at the nozzle.

(b) Each person operating or assisting in operating such equipment will be required to possess a commercial fishing license and a permit as provided by this section.

(c) Permits may be issued annually for the period of the commercial fishing license on application filed at one of the Department of Fish and Game offices. Permits may contain additional terms and conditions, including areas of use, as prescribed by the Department of Fish and Game. See subsection 699(b) of these regulations for the fee for this permit.

(d) Powered equipment may be used on intertidal areas, that is, between high water and low water marks, except powered equipment shall not be used in Tomales Bay, Bodega Harbor or Bolinas Lagoon. In Morrow Bay engine–driven hydraulic pumps may not be used south of a line running 230 magnetic from the public boat ramp at the south end of the Embarcadero.

[The next page is 55.]

(e) Holes created in the mudflat surface by engine–driven pumps shall not exceed 8 feet in any horizontal dimension, nor more than 12 inches in depth.

(f) Mollusks and crustaceans, other than ghost shrimp, exposed or hydraulically sluiced to the surface, shall be returned immediately to their natural habitat, and no fish, mollusks or crustaceans, other than ghost shrimp shall be possessed by the permittee at any time during pumping operations or while traveling to or from pumping operations.

(g) Each permittee shall have his permit in his possession while operating such equipment.

(h) A permit shall not be assigned or transferred, and any right or privilege granted thereunder is subject to revocation by the Fish and Game Commission at any time.

(i) All provisions of the following numbered sections of the Fish and Game Code shall be a condition of all permits to be fully performed by the holders thereof, viz: 7700–7855, 8010–8024, 8250–8283, 8603, 8630–8634, 9050–9053. All section numbers are inclusive.

(j) Permits shall only be issued upon the conditions contained in the application and signed by the applicant that he has read, understands, and agrees to be bound by all terms of the permit.

(k) Any permit may be revoked or suspended for a period fixed by the commission, upon the breach or violation of the terms of the permit, or any of the foregoing sections of the Fish and Game Code, or any of these regulations, or if, in the opinion of the department, the resource is endangered. Any person who has had his permit revoked may be required to appear before the Fish and Game Commission when applying for a new permit. For a period of not more than one year, the commission may defer action upon the application of any person who uses powered equipment to take ghost shrimp without first having secured a permit under these regulations.

NOTE: Authority cited: Sections 8500 and 9053, Fish and Game Code. Reference: Sections 8500 and 9053, Fish and Game Code.

HISTORY

1. New section filed 7–3–64; effective thirtieth day thereafter (Register 64, No. 14).
2. Amendment of subsections (c) and (d) filed 5–29–69 as an emergency; effective upon filing (Register 69, No. 22).
3. Certificate of Compliance–section 11422.1, Gov. Code, filed 7–31–69 (Register 69, No. 31).
4. Amendment of subsection (d) filed 4–5–79 as an emergency; effective upon filing (Register 79, No. 14).
5. Certificate of Compliance filed 6–11–79 (Register 79, No. 24).
6. Amendment filed 10–19–81; effective thirtieth day thereafter (Register 81, No. 43).
7. Amendment of subsections (a), (d) and (e) filed 7–14–86; effective thirtieth day thereafter (Register 86, No. 29).
8. Amendment of subsection (c) filed 4–18–91; operative 5–18–91 (Register 91, No. 21).

§ 120.7. Taking of Sea Urchins for Commercial Purposes.

(a) Permit Required.

(1) Any person taking or assisting in the taking of sea urchins for commercial purposes shall have obtained a valid sea urchin permit and shall be in possession of said permit when engaged in such activities. A sea urchin diving permit is not required to operate or assist in operating a vessel used to take sea urchins, however, no person without a valid sea urchin diving permit shall engage in diving from a vessel from which sea urchins are being taken or possessed for commercial purposes, unless authorized by the department's marine region regional manager or his or her designee for the purposes of sea urchin management or research.

(2) To provide an economic incentive for cooperative sea urchin management and research activity, and notwithstanding any other portion of this section, the department may authorize the holder of a valid sea urchin diving permit to harvest (take, possess, land and/or sell) red sea urchins during a closed season or in a closed area, subject to such restrictions regarding date(s), location(s), time(s), size, poundage or other matters as specified by the department. Any data collected during such harvest activity shall be made available to the department. The form of this authorization shall be a letter from the department's marine region regional manager or his or her designee issued to the permittee and containing all conditions of use.

(b) Classes of Permits.

(1) Sea Urchin Diving Permit. Sea urchin diving permits will be issued to licensed commercial fishermen 16 years of age or older who have qualified for permits pursuant to subsection (c).

(2) Sea Urchin Crewmember Permit. Sea urchin crewmember permits will be issued to licensed commercial fishermen 16 years of age or older who do not qualify for sea urchin diving permits.

(c) Permit Renewal.

(1) Applicants for renewal of sea urchin diving permits must have held a valid, unrevoked sea urchin diving permit in the immediately preceding permit year (April 1–March 31).

(2) In 2008, applications for renewal of sea urchin diving permits shall be received by the department or, if mailed, postmarked no later than June 30. In 2009 and thereafter, applications for renewal of sea urchin diving permits shall be received by the department or, if mailed, postmarked no later than April 30. Late fees, late fee deadlines, and late renewal appeal provisions are specified in Fish and Game Code Section 7852.2.

(d) Number of Permits.

(1) All qualified prior sea urchin diving permittees shall be eligible to receive diving permits regardless of the number issued.

(2) If the number of diving permits issued to prior permittees is more than 300, the total number of new sea urchin diving permits available for issuance shall be one–tenth the difference between the total number of sea urchin diving permits issued prior to August 1 of the current permit year and the total number of sea urchin permits issued during the immediately preceding permit year. If the number of diving permits issued to prior permittees is less than 300, the number of new sea urchin diving permits to be issued shall be the difference between the number of diving permits issued to prior permittees and 300. If the number of permits issued to prior permittees is 300, no new sea urchin diving permits shall be available.

(e) New Permittees:

(1) Applications for the issuance of any new sea urchin diving permits that may become available each year shall be received by the department or, if mailed, postmarked no later than June 30. Applications shall be submitted to the department's License and Revenue Branch office in Sacramento. If any new sea urchin diving permits are available for issuance, as provided in subsection (d)(2), they shall be issued to licensed commercial fishermen who held, for each of the two immediately preceding permit years, a valid sea urchin crewmember permit.

(2) If there are more applicants for sea urchin diving permits than there are permits available, a drawing will be held to determine which applicants will be eligible to purchase permits. Any person who submits more than one application for a new sea urchin diving permit in any one permit year will be excluded from the drawing. Each applicant who meets the criteria in subsection (e)(1) shall be entered into the drawing once. In addition, each applicant shall be entered into the drawing one more time for each additional year, above the minimum required two years, that the applicant possessed a valid sea urchin crewmember permit. No applicant shall be entered more than five times for each drawing. The drawing will be held on the third Wednesday in August each year. Permits will be issued to successful applicants in the order drawn. Payment of the fee for the sea urchin diving permit must be received at the department's License and Revenue Branch office in Sacramento on or before September 25.

(f) Fee. The fee for sea urchin crewmember permits shall be the amount authorized by Section 699 of these regulations.

(g) Renewal Appeals. Late renewal appeal provisions are specified in Fish and Game Code Section 7852.2.

(h) Vessel Identification. When sea urchins are taken under these regulations, the vessel's commercial registration number shall be displayed on both sides of the boat. The number shall be black, at least 10 inches high, and on a white background. All permittees aboard the boat shall be

mutually responsible for the proper display of the vessel's commercial registration number.

(i) Conditions of the Permit:

(1) No person shall take or possess lobsters or abalone aboard any boat used to take sea urchins under these regulations on any day that sea urchins have been taken or are to be taken.

(2) Hydraulic lifts and air lifts shall be used only in such a manner that no rocks or other mineral matter, aquatic plants, fish or other aquatic life except sea urchins, shall be removed from the bottom or otherwise disturbed.

(j) Revocation of Permits. Any permit may be suspended, revoked, or canceled by the commission upon breach or violation of any fish and game regulation pertaining to the take of sea urchins or abalone; or violation of the terms or conditions of the permit by the holders thereof, their agents, servants, employees or those acting under their direction and control.

(k) Exemption from Tidal Invertebrate Permit. A sea urchin diver or sea urchin crewmember operating under the provisions of this section is not required to possess a Tidal Invertebrate Permit, but is subject to the provisions of section 123, Title 14, CCR.

(*l*) Fishing Season.

(1) From November through May, the open season for red sea urchins is seven days per week.

(2) From June through October, the open season for red sea urchins is Monday, Tuesday, Wednesday and Thursday.

(3) During any closed period, no red sea urchins may be possessed on any commercially registered vessel, except that any commercially registered vessel may transport red sea urchins after any closure goes into effect, provided that the vessel is in port no later than 0800 hours on the first day of the closed period.

(m) Logbooks. Each permittee shall complete and submit an accurate record of all sea urchin fishing activities on a form (DFG–120.7 (2/08)), incorporated herein by reference, provided by the department before the sea urchins are landed. The completed daily records shall be sent to the Fort Bragg office of the Department of Fish and Game for fishing activities north of the Monterey–San Luis Obispo county line, and to the Los Alamitos office for fishing activities south of the Monterey–San Luis Obispo county line on or before the tenth day of each month following the month to which the records pertain.

(n) Closed Areas.

(1) Sea urchins shall not be taken for commercial purposes in state marine reserves or state marine parks. Specific regulations in state marine conservation areas may prohibit the commercial take of sea urchins as per subsection 632(b).

(2) The Gerstle Cove area in Salt Point State Marine Conservation Area (Sonoma County) is closed to all commercial fishing for sea urchins. This area is delimited as all the ocean waters east of a line extending 180° true from the southernmost point of Salt Point (38° 33.92′ N. lat. 123° 19.89′ W. long.) and north of a line extending 270° true from the westernmost point of land of the unnamed point at the southern end of Gerstle Cove (38° 33.6′ N. lat. 123° 19.37′ W. long.).

(3) The South Caspar Point area in Mendocino County is closed to all commercial fishing for sea urchins. This area is bounded on the north by a line extending 90° magnetic from sea to the mouth of Caspar Creek (north bank) in Caspar Cove, on the south by the northern boundary of the Point Cabrillo State Marine Conservation Area and its westward extension to the 120–foot depth contour, on the west by 120–foot depth contour line connecting the north and south boundary lines, and on the East by the mainland shore. The Point Cabrillo State Marine Conservation Area remains closed to the take of all forms of marine life except as permitted in subsection 632(b).

(o) Size Limit.

(1) In southern California (south of the Monterey–San Luis Obispo county line) no red sea urchin between one and one–half (1 1/2) and three and one–quarter (3 1/4) inches in shell diameter, not including the spines or any portion of their ball–and–socket attachment to the shell, may be taken, possessed, sold, or purchased, except that not more than thirty (30) such red sea urchins per permittee per load may be taken, possessed, sold or purchased.

(2) In northern California (north of the Monterey–San Luis Obispo county line) no red sea urchin between one and one–half (1 1/2)and three and one–half (3 1/2) inches in shell diameter, not including the spines or any portion of their ball–and–socket attachment to the shell, may be taken, possessed, sold or purchased, except that not more than thirty (30) such red sea urchins per permittee per load may be taken, possessed, sold or purchased.

(3) Red sea urchins less than one and one–half (1 1/2) inches in shell diameter shall not be considered as part of the thirty (30) undersized red sea urchins per permittee per load that may be taken, possessed, sold or purchased.

(4) Every sea urchin permittee shall carry and use an accurate measuring device, to determine the size of red sea urchins being taken as specified in subsections (o)(1) and (o)(2) above, while diving for sea urchins for commercial purposes.

(p) Authorization of an Assistant for a Sea Urchin Diver Permittee.

(1) Authorization by Department. The holder of a sea urchin diving permit, who, after entering the sea urchin fishery, becomes, due to a severe unforeseen or catastrophic long–term (expected to be for one year or longer) or permanent injury or disease, physically unable to dive, may designate a specific individual as an assistant, upon written approval from the department. The department may authorize, in writing, any one specific individual to be designated by the permittee as an assistant, providing the following conditions have been met:

(A) the permittee provides documentation from a qualified physician that the permittee suffers from the disease or injury and it will prevent the permittee from diving. Such conditions shall not include short or long–term common illnesses, conditions caused or primarily exacerbated by aging, or any other condition which appears to be marginal or common, such as routine back or neck problems;

(B) the permittee has no violations or pending violations for which his or her permit could be revoked;

(C) the proposed assistant has a current California commercial fishing license and has not had any California commercial fishing license or permit suspended or revoked; has never been convicted, and no charges are pending for a violation of any provision of the Fish and Game Code or Title 14, California Code of Regulations.

(2) Special Provisions:

(A) The authorized sea urchin diver assistant may take or assist in the taking of sea urchin only when in the company of the permittee.

(B) The permittee shall have no authority to, and shall not dive for sea urchin while a valid letter authorizing the permittee to designate an assistant exists, regardless of whether or not the assistant is actively diving.

(C) The authorized sea urchin diver assistant shall have no right to ownership or transfer of the permit beyond that which is otherwise provided by law.

(D) The sea urchin diving permit, in addition to the sea urchin diver assistant authority shall be subject to revocation, suspension or other actions provided in law or regulation, upon violations committed by the assistant, when acting under the authority of a sea urchin diver assistant. The assistant shall take no actions authorized pursuant to a sea urchin diver permit without the consent of the permittee.

(E) The department shall review the authority authorized pursuant to this section at least once every year and may withdraw the authority if any of the conditions are not met.

(3) Fee Requirement. Any person authorized as an assistant pursuant to this subsection shall annually pay a fee to the department equal to the amount required of permittees pursuant to Fish and Game Code Section 9055.

(4) Required Possession of Department Authorization. The assistant shall carry the department's letter of authority whenever conducting activities authorized pursuant to the subsection.

(5) The department shall report to the commission within 18 months of the enactment of these provisions on the merits of the program. The department shall make a recommendation to the commission to either continue or discontinue the program, based on achievements and problems associated with the administration of these provisions.

8. Repealer and new section filed 7–8–85; effective thirtieth day thereafter (Register 85, No. 28).
9. New subsection (a)(4) filed 7–27–87 as an emergency; operative 7–27–87 (Register 87, No. 31). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 11–24–87.
10. Certificate of Compliance filed 10–22–87 (Register 87, No. 43).
11. Amendment of subsection (d) and new subsections (i)–(k) filed 10–22–87; operative 11–21–87 (Register 87, No. 43).
12. Amendment filed 2–6–89; operative 3–8–89 (Register 89, No. 8).
13. Amendment of subsection (n) filed 12–8–89; operative 1–1–90 (Register 89, No. 50).
14. Amendment of subsections (b), (c), (d), (e), (g), (m), (o) and (p) filed 5–8–90; operative 6–7–90 (Register 90, No. 24).
15. Amendment of subsections (m)(1)–(3) and renumbering, (p)(1)–(2) and new subsection (p)(4) filed 7–7–92; operative 8–6–92 (Register 92, No. 28).
16. New subsections (q)–(q)(6) filed 7–8–93; operative 7–8–93 pursuant to Government Code section 11346.2(d) (Register 93, No. 28).
17. Amendment of section and NOTE filed 3–30–94; operative 3–30–94 (Register 94, No. 13).
18. Amendment of section and NOTE filed 8–6–98; operative 8–6–98 pursuant to Government Code section 11343.4(d) (Register 98, No. 32).
19. Amendment filed 9–2–2003; operative 10–2–2003 (Register 2003, No. 36).
20. Redesignation and amendment of portion of subsection (a) as new subsection (a)(1) and new subsection (a)(2) filed 10–6–2003; operative 11–5–2003 (Register 2003, No. 41).
21. New subsection (n)(1), subsection renumbering, amendment of newly designated subsections (n)(2)–(3) and amendment of subsection (o)(4) filed 3–8–2005; operative 4–7–2005 (Register 2005, No. 10).
22. Amendment of subsections (c)–(c)(2) and (e)(1)–(2), repealer and new subsection (g), amendment of subsections (*l*)(1)–(2), repealer of subsections (*l*)(3)–(4), subsection renumbering and amendment of subsection (m) filed 6–30–2008; operative 6–30–2008 pursuant to Government Code section 11343.4 (Register 2008, No. 27).

§ 121. Lobsters, Spiny. Possession During Closed Season.

No spiny lobsters may be sold or possessed during the closed season except as follows: Lobsters taken or imported during the open season which were cooked and frozen or frozen prior to the close of the open season, and lobsters imported into California during the twenty–six (26) days following the close of the open season, provided such lobsters were cooked and frozen or frozen prior to importation. During the closed season, after the twenty–six (26) day importation period, no spiny lobsters may be possessed on any boat, barge, or vessel.

NOTE: Authority cited: Sections 240 and 2365, Fish and Game Code. Reference: Sections 240, 2365 and 8254, Fish and Game Code.

HISTORY

1. Amendment filed 7–31–68; effective thirtieth day thereafter (Register 68, No. 29). For prior history, see Register 58, No. 1.
2. Amendment filed 3–12–74 as an emergency; effective upon filing (Register 74, No. 11).
3. Certificate of Compliance filed 6–5–74 (Register 74, No. 23).
4. Amendment of NOTE filed 10–19–81; effective thirtieth day thereafter (Register 81, No. 43).
5. Amendment of section heading filed 3–21–90; operative 3–21–90 (Register 91, No. 41).
6. Editorial correction of HISTORY 5. (Register 91, No. 41).

§ 121.5. Lobsters, Spiny. Verification of Size.

(a) All California spiny lobsters (Panulirus interruptus) taken, possessed, transported or sold must be maintained in such a condition that their size can be determined pursuant to Fish and Game Code Section 8252 until prepared for immediate consumption or sold to the ultimate consumer except as provided for in subsection (b) below.

(b) California spiny lobsters may be split along the midline of the carapace by persons licensed pursuant to Fish and Game Code Section 8034 (Fish Processors License) or Section 8037 (Commercial Fish Business License) provided both halves of each lobster are kept together by banding or packaging until either displayed for purchase by the ultimate consumer or prepared for immediate consumption.

NOTE: Authority cited: Sections 240, 2365 and 8254, Fish and Game Code. Reference: Sections 240, 2365 and 8254, Fish and Game Code.

HISTORY

1. New section filed 3–21–90 as an emergency; operative 3–21–90 (Register 90, No. 13). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–19–90.
2. Repealed by operation of Government Code section 11346.1(g) 120 days from effective date (Register 91, No. 41).
3. New section filed 3–10–93 as an emergency; operative 3–10–93 (Register 93, No. 11). A Certificate of Compliance must be transmitted to OAL 6–8–93 or emergency language will be repealed by operation of law on the following day.
4. New section refiled 9–27–93 with amendment of subsection (b); operative 10–27–93 (Register 93, No. 40).

§ 122. Lobsters, Permits to Take.

(a) Classes of Lobster Permits.

(1) There is a transferable lobster operator permit, a non–transferable lobster operator permit and a lobster crewmember permit.

(2) Under operator permits issued by the department, licensed commercial fishermen may use traps to take spiny lobsters for commercial purposes in Districts 18, 19, 20A, and that part of District 20 southerly of Santa Catalina Island between Southeast Rock and China Point. No other method of take is authorized for the commercial harvest of spiny lobsters.

(3) Any licensed commercial fisherman not eligible to obtain a lobster operator permit pursuant to this section may purchase a lobster crewmember permit, authorizing him/her to accompany the holder of a lobster operator permit and to assist that person in the commercial take of spiny lobster.

(b) Each lobster permit shall be issued annually and shall be valid for the period of the commercial lobster season. Each operator and crewmember permittee shall have his/her permit in possession when taking lobsters.

(c) Except as provided in this section, a permit shall not be assigned or transferred, and any right or privilege granted thereunder is subject to revocation, without notice, by the Fish and Game Commission, at any time.

(d) Applicants for the renewal of lobster operator permits shall have held a valid lobster operator permit, that has not been suspended or revoked, in the immediately preceding permit year.

(e) Transferable Lobster Operator Permit Qualification Criteria and Procedures:

(1) To qualify for a transferable lobster operator permit, an individual shall hold a valid 2005–06 lobster operator permit that has not been suspended or revoked and have landed a minimum of 500 pounds of lobster per year during any 4 of the 5 permit years from 1996–97 through 2000–01, inclusive, or have landed a minimum of 2,000 pounds of lobster per year during any 2 of those 5 permit years as documented by fish landing receipts submitted to the department in his or her name and commercial fishing license identification number pursuant to Section 8046, Fish and Game Code.

(2) Beginning on July 1, 2005 or 30 calendar days after the effective date of these regulations, whichever date is later, the department shall make an initial determination, based on department records, of which

holders of valid 2005–06 lobster operator permits, that have not been suspended or revoked, meet the qualifications for a transferable lobster operator permit specified in subsection (e)(1) above and shall mail notice of such determination, to the last address on record with the department, to all 2005–06 lobster operator permit holders. Each person who meets the qualifications will have his/her permit designated by the department as a transferable lobster operator permit.

(3) The holder of a 2005–06 lobster operator permit who is notified by the department that he/she does not meet the qualifications for a transferable lobster operator permit may submit to the department's License and Revenue Branch, 3211 "S" Street, Sacramento, CA 95816, copies of fish landing receipts that have been issued in his/her name and commercial fishing license identification number pursuant to sections 8043 and 8046, Fish and Game Code, that demonstrate he/she does meet the qualifications in subsection (e)(1) above. Such fish landing receipts and a letter requesting that his/her permit be designated as a transferable lobster operator permit shall be submitted to the department on or before March 31, 2006. Any request postmarked or presented after March 31, 2006 will not be considered.

(4) The holder of a 2005–06 lobster operator permit not able to meet these qualification criteria or meeting them and failing to submit his/her fish landing receipts on or before March 31, 2006, pursuant to subsection (e)(3) above shall have his/her permit designated a non–transferable lobster operator permit, effective with the 2006–07 license year.

(5) The holder of a valid lobster operator permit that has not been suspended or revoked, from the immediately preceding permit year shall be eligible to purchase a lobster operator permit of the same classification.

(f) Procedures and Deadline for Permit Renewal.

Applications for renewal of transferable and non–transferable lobster operator permits must be received by the department or if mailed, postmarked not later than April 30 of each year. Late fees, late fee deadlines, and late renewal appeal provisions are specified in Fish and Game Code Section 7852.2.

(g) Procedures, Timelines and Initial Limit on Permit Transfers.

(1) The holder of a valid transferable lobster operator permit that has not been suspended or revoked may transfer his/her permit to another person licensed as a California commercial fisherman. The application to transfer a permit shall be in the form of a notarized letter from the existing permit holder identifying the transferee and shall include the original transferable lobster operator permit, a copy of the transferee's commercial fishing license and a nonrefundable permit transfer fee of five hundred dollars ($500). The application shall be submitted to the department's License and Revenue Branch, 3211 "S" Street, Sacramento, CA 95816. The transferable lobster operator permit shall be valid for the remainder, if any, of the then current lobster season and may be renewed in subsequent years pursuant to these regulations. If the transferee holds a non–transferable lobster operator permit, that permit shall be cancelled.

(2) Not more than 10 applications to transfer a permit shall be processed by the department during each license year (April 1–March 31) until March 31, 2008, after which date there is no limit on the number of transfers that may be processed during a license year. Applications will be processed in the order received. If on any given day the number of applications received is greater than the available number of transfers, the department shall conduct a drawing to determine which application(s) shall be processed. This subsection shall not apply in the event of the death of the permit holder. The estate of the holder of a transferable lobster operator permit may renew that permit as provided for in these regulations if needed to keep it valid. The estate of the decedent may transfer that permit pursuant to subsection (g)(1) above not later than one year from the date of death of the permit holder as listed on the death certificate.

(h) No SCUBA equipment or other artificial breathing device may be used to take lobster on any boat being operated pursuant to a commercial lobster permit.

(i) All provisions of the Fish and Game Code and regulations of the Fish and Game Commission relating to lobsters shall be a condition of all permits to be fully performed by the holders thereof, their agents, servants, employees, or those acting under their direction or control.

(j) Exemption from Tidal Invertebrate Permit. A lobster operator or crewmember operating under the provisions of a lobster permit is not required to possess a Tidal Invertebrate Permit, but is subject to the provisions of Section 123.

(k) No lobster trap used under authority of this permit shall be pulled or raised or placed in the water between one hour after sunset to one hour before sunrise.

(*l*) All lobster traps and receivers impounding lobsters shall be individually buoyed. The buoys must be on the surface of the water, except after the first Tuesday in October when buoys may be submerged by means of metallic timing devices, commonly called "pop–ups."

(m) Each buoy identifying a lobster trap shall display the commercial fishing license identification number of the lobster operator permit holder followed by the letter P. The commercial fishing license number and the letter P shall be in a color which contrasts with that of the buoy and shall be at least one (1) inch in height and at least one–eighth (1/8) inch in width.

(n) Any person pulling or raising lobster traps and receivers bearing a commercial fishing license number other than his/her own must have in his/her possession from the party who holds the permit assigned to said gear written permission to pull the traps, or receivers.

(o) The employees of the department may disturb or move any lobster trap at any time while such employees are engaged in the performance of their official duties and shall inspect any lobster trap to determine whether it is in compliance with all provisions of the Fish and Game Code and regulations of the commission.

(p) During the closed season for the taking of spiny lobster, no buoy attached to any trap may be marked in such manner as to identify the trap as a lobster trap, except that legally marked lobster traps may be placed in the water not more than six (6) days before the opening of the season and may remain in the water for not more than six (6) days after the close of the season, if the door or doors to such traps are wired open, the trap is unbaited, the buoy remains at the surface of the ocean, and no attempt is made to take spiny lobsters.

(q) Restricted fishing areas.

(1) No lobster trap used under the authority of this permit shall be used within 750 feet of any publicly–owned pier, wharf, jetty or breakwater; however, such traps may be used to within 75 feet of any privately–owned pier, wharf, jetty or breakwater.

(2) No lobster traps shall be set or operated within 250 feet of the following specified navigation channels.

(A) Newport Bay: Starting at the demarcation line at the entrance to Newport Bay and extension of the west side channel line, proceed southeasterly on a bearing of 151° magnetic one nautical mile; then northeasterly 44° magnetic 500 feet; then northwesterly 331° magnetic one nautical mile to the demarcation line and an extension of the east side channel line.

(B) Dana Point Harbor: Starting from Dana Point east jetty light "6," proceed on a bearing of 120° magnetic 450 yards to red buoy "4"; then south 180° magnetic one nautical mile; then westerly 270°, 300 yards; then north 0° magnetic approximately one nautical mile to Dana Point Harbor light "5."

(C) Oceanside Harbor: Starting from Oceanside Harbor breakwater light "1," proceed on a bearing of 225° magnetic for one nautical mile; then southeast for 450 yards on a bearing of 110° magnetic; then northeast on a bearing of 35° magnetic for one nautical mile to Oceanside Harbor south jetty light "2"; then west–southwest on a bearing of 253° to the point of beginning at Oceanside Harbor breakwater light "1."

(r) Records. Pursuant to section 190 of these regulations, any person who owns and/or operates any vessel used to take lobsters shall complete and submit an accurate record of his/her lobster fishing activities on a form (Daily Lobster Log, DFG 122 (7/96), incorporated herein by reference) provided by the department.

(s) The person required to submit logs pursuant to these regulations shall have complied with said regulations during the immediate past license year, or during the last year such person held a permit, in order to be eligible for a successive year annual permit.

(t) Any person denied a permit under these regulations may request a hearing before the commission to show cause why his/her permit request should not be denied. Such request must be received by the commission within 60 days of the department's denial. Any person denied the designation of his/her lobster operator permit as a transferable lobster operator permit pursuant to subsection (e) of these regulation may appeal the denial to the commission. Such appeal must be received by the commission within 60 days of the department's denial.

HISTORY

1. Amendment of subsection (k) filed 10–12–77 as an emergency; effective upon filing (Register 77, No. 42). For prior history, see Register 73, No. 50.
2. Certificate of Compliance filed 12–16–77 (Register 77, No. 51).
3. Amendment of subsections (g) and (i) and new subsections (m) and (n) filed 5–15–80; effective thirtieth day thereafter (Register 80, No. 20).
4. Editorial correction of subsection (m) (Register 81, No. 19)
5. Amendment of NOTE filed 10–19–81; effective thirtieth day thereafter (Register 81, No. 43).
6. New subsection (j) and relettering of subsections (j)–(n) to subsections (k)–(o) filed 10–5–82; effective thirtieth day thereafter (Register 82, No. 41).
7. Amendment of subsection (g) filed 11–17–83; effective thirtieth day thereafter (Register 83, No. 47).
8. Amendment of subsection (*l*) filed 1–17–85; effective thirtieth day thereafter (Register 85, No. 3).
9. Amendment of subsections (h) and (k) filed 1–15–86; effective thirtieth day thereafter (Register 86, No. 3).
10. Amendment of subsection (m) filed 12–8–89; operative 1–1–90 (Register 89, No. 50).
11. Amendment of subsection (h) filed 9–4–90; operative 9–4–90 (Register 90, No. 42).
12. Amendment of subsection (a) and NOTE filed 11–1–94; operative 11–1–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 44).
13. Amendment of subsections (a)–(b) filed 9–6–95; operative 9–6–95 pursuant to Government Code section 11343.4(d) (Register 95, No. 36).
14. Amendment of section and NOTE filed 9–10–96; operative 10–10–96 (Register 96, No. 37).
15. Editorial correction of subsections (g) and (n) and NOTE (Register 98, No. 37).
16. Repealer of subsections (d)(1)–(d)(1)(B), amendment of subsection (f)(1) and new subsection (o)(2)(C) filed 9–9–98; operative 9–9–98 pursuant to Government Code section 11343.4(d) (Register 98, No. 37).
17. Amendment redesignating former subsection (e)(1) as subsection (e), redesignating and amending former subsection (f)(1) as subsection (f) and repealing subsections (e)(2) and (f)(2)–(f)(3) filed 6–16–2003; operative 7–16–2003 (Register 2003, No. 25).
18. New subsection (i) and subsection relettering filed 3–8–2005; operative 4–7–2005 (Register 2005, No. 10).
19. Amendment of section and NOTE filed 7–13–2005; operative 7–13–2005 pursuant to Government Code section 11343.4 (Register 2005, No. 28).
20. Amendment of subsection (f) and NOTE filed 7–8–2008; operative 7–8–2008 pursuant to Government Code section 11343.4 (Register 2008, No. 28).

§ 123. Tidal Invertebrates.

Marine invertebrates shall not be taken for commercial purposes in any tide pool or tidal area, including tide flats or other areas between the high tide mark and 1,000 feet beyond the low tide mark of any natural or constructed shoreline, except as otherwise provided in this section. Revocable Tidal Invertebrate Permits may be issued by the department in accordance with the following regulations:

(a) Qualifications of Permittee.

The applicant must be a licensed commercial fisherman. If a vessel is used in taking or transporting tidal invertebrates for commercial purposes, the vessel must be currently registered and all fishermen on the vessel must possess a valid Tidal Invertebrate Permit.

(b) Limitation of Permit.

Not more than one permit shall be issued to any one person. Permits shall not be assigned or transferred from person to person.

(c) Duration of Permit and Fee for Permit: Any Tidal Invertebrate Permit issued pursuant to these regulations shall be valid from April 1 to March 31 of the following year, or, if issued after the beginning of such term for the remainder thereof. See subsection 699(b) of these regulations for the fee for this permit.

(d) Permit Exemption.

Commercial fishermen taking only lobster, sea cucumber, squid, crab or sea urchin need not possess the permit as required in this section but are subject to the provisions of this section and must have the appropriate permits to take such species as required by Fish and Game Code sections 8254, 8405, 8421, 9001 and 9054, and regulations adopted pursuant thereto.

(e) Provisions of this section do not apply to commercial fishermen taking freshwater clams or crayfish in inland waters.

(f) Permit Conditions.

(1) Under the terms of a Tidal Invertebrate Permit issued pursuant to this section only the following invertebrates may be take for commercial purposes: barnacles, chiones, clams, cockles, sand crabs, limpets, mussels, sand dollars, octopuses, shrimp, sea hares, starfish, worms and native oysters subject to the following restrictions:

(A) Marine worms shall not be taken in any mussel bed, nor shall any person pick up, remove, detach from the substrate any other organisms, or breakup, remove, alter or destroy any rock or other substrate or surfaces to which organisms are attached to obtain marine worms.

(B) Clams may only be taken in accordance with restrictions listed pursuant to Fish and Game Code sections 8340–8343, and 8346.

(2) Marine invertebrates may not be taken for commercial purposes in state marine reserves or state marine parks. Commercial take of marine invertebrates may be limited in state marine conservation areas pursuant to specific regulations in subsection 632(b).

NOTE: Authority cited: Section 8500, Fish and Game Code. Reference: Sections 8254, 8305.5, 8306.8, 8396, 8500, 9001 and 9054, Fish and Game Code.

HISTORY

1. Amendment of subsection (f)(2) filed 12–15–77; effective thirtieth day thereafter (Register 77, No. 51). For prior history, see Register 77, No. 4.
2. Amendment of subsection (f)(1) filed 10–11–78; effective thirtieth day thereafter (Register 78, No. 41).
3. Amendment of subsections (f)(1) and (2) filed 3–14–80; effective thirtieth day thereafter (Register 80, No. 11).
4. Amendment filed 1–15–81; effective thirtieth day thereafter (Register 81, No. 3).
5. Editorial correction of subsection (d) (Register 81, No. 9).
6. Amendment of subsection (f)(1) filed 4–26–84; effective thirtieth day thereafter (Register 84, No. 17).
7. Amendment of subsection (f)(1) filed 10–11–85; effective thirtieth day thereafter (Register 85, No. 41).
8. Amendment of subsection (f)(2)(A) filed 12–21–90; operative 1–20–91 (Register 91, No. 4).
9. Amendment of subsection (c) filed 4–18–91; operative 5–18–91 (Register 91, No. 21).
10. Amendment of subsection (d) and NOTE filed 7–7–92; operative 8–6–92 (Register 92, No. 28).
11. Amendment filed 3–8–2005; operative 4–7–2005 (Register 2005, No. 10).

§ 124.1. California Halibut Bottom Trawl Vessel Permits.

(a) California Halibut Bottom Trawl Vessel Permits shall be issued pursuant to Section 8494 of the Fish and Game Code.

(b) Renewal. Beginning April 1, 2009, and thereafter, applications for renewal of California Halibut Bottom Trawl Vessel Permits shall be received by the department, or if mailed, postmarked, on or before April 30 of each permit year. Late fees, late fee deadlines, and late renewal appeal provisions are specified in Fish and Game Code Section 7852.2.

NOTE: Authority cited: Sections 1050 and 8494(h), Fish and Game Code. Reference: Sections 1050, 7852.2 and 8494, Fish and Game Code.

HISTORY

1. New section filed 7–8–2008; operative 7–8–2008 pursuant to Government Code section 11343.4 (Register 2008, No. 28).

§ 125. Commercial Rock Crab Permits.

(a) Permit Required for Take Using Trap Gear.

Effective April 1, 2005, any person using traps to take, possess aboard a vessel, use as bait, or land rock crab (*Cancer antennarius, C. anthonyi,* or *C. productus*) for commercial purposes shall have a valid general trap permit issued pursuant to Fish and Game Code Section 9001 and either a northern or southern rock crab trap permit as described in this Section that has not been suspended or revoked.

(1) Presence of Permit Holder Aboard a Vessel. At least one rock crab trap permit holder shall be on board at all times when taking, possessing aboard a vessel, using as bait, or landing rock crab using trap gear. If a support vessel is used, a rock crab trap permit holder shall be on each vessel when taking rock crab.

(2) Crewmembers. Any licensed commercial fisherman working on a vessel utilizing commercial rock crab trap gear shall possess a valid general trap permit that has not been suspended or revoked. Crewmembers are not required to hold a rock crab trap permit.

(3) Fishermen holding lobster operator or crewmember permits issued pursuant to Fish and Game Code Section 8254 and Section 122, Title 14, CCR, taking rock crab incidentally as authorized in Fish and Game Code Section 8250.5 during the lobster fishing season specified in Fish and Game Code Section 8251 and in lobster trap gear as defined in Fish and Game Code Section 9010, are exempt from the rock crab trap permit requirements of this Section.

(4) Revocation or suspension. A northern or southern rock crab trap permit may be revoked or suspended by the commission upon violation of the Fish and Game Code, or violation of regulations adopted by the Commission, by the holder thereof, his or her agent, employee, or person acting under his or her direction and control.

(b) Permit Conditions.

(1) Commercial rock crab trap permits are issued conditional upon all provisions of the Fish and Game Code and regulations of the Fish and Game Commission relating to crabs and traps.

(2) Pursuant to Fish and Game Code Section 9005, every trap or string of traps deployed for purposes of commercially harvesting rock crab shall be marked with a buoy.

(3) Timed buoy release mechanisms capable of submerging a buoy attached to a trap, commonly known as "pop–ups," shall not be used on buoy lines attached to rock crab traps, and shall not be possessed by any commercial rock crab trap permittee on any vessel while taking or attempting to take rock crab.

(c) Permit Areas.

(1) The northern rock crab trap permit is required only in ocean waters between 42°00′ N. lat. (the Oregon/California border) and 36°00′ N. lat. (at Lopez Point, Monterey County).

(2) The southern rock crab trap permit is required only in ocean waters south of 36°00′ N. lat. (at Lopez Point, Monterey County).

(d) Northern Rock Crab Trap Permit Issuance.

(1) A person is eligible to purchase a northern rock crab trap permit if the individual meets all of the following criteria:

(A) the individual must be a licensed commercial fisherman;

(B) the individual must possess a valid general trap permit, issued pursuant to Fish and Game Code Section 9001, that has not been suspended or revoked; and

(C) each year the individual must submit to the department a northern rock crab trap permit application form DFG 1375 (6/04), which is incorporated by reference herein, and the annual permit fee specified in subsection (f).

(e) Southern Rock Crab Trap Permit Issuance.

(1) Initial Permit Issuance. During the 2005–2006 permit year, any person is eligible for initial issuance of a southern rock crab trap permit if the individual meets all of the following criteria:

(A) the individual must be a licensed commercial fisherman; and

(B) the individual must possess a valid general trap permit, issued pursuant to Fish and Game Code Section 9001, that has not been suspended or revoked; and

(C) the individual must have landed a minimum of 500 pounds of rock crab utilizing trap gear between January 1, 1998 and December 31, 2003 at ports located within the southern permit area as defined in subsection (c), and as documented by fish landing receipts submitted to the department in the individual's name and commercial fishing license identification number pursuant to Fish and Game Code Section 8046. Individuals who hold a Nearshore Fishery Trap Endorsement issued pursuant to Section 150.03, Title 14, CCR, are exempt from this eligibility requirement.

(D) Application Deadlines for Southern Rock Crab Trap Permit. A southern rock crab trap application form DFG 1324(6/04), which is incorporated by reference herein, and the annual permit fee specified in subsection (f) must be received by the department or, if mailed, must be postmarked on or before September 30, 2005. Applications for initial issuance of a southern rock crab trap permit received by the department, or, if mailed, postmarked from October 1 through October 31, 2005 will be assessed a $50 late fee. Applications and permit fees for initial issuance of southern rock crab trap permits received, or, if mailed, postmarked after October 31, 2005 shall be returned to the applicant unissued.

(2) Southern Rock Crab Trap Permit Renewal. Southern rock crab trap permits must be renewed annually.

(A) Beginning with the 2006–2007 permit year, only persons who held a valid southern rock crab trap permit during the immediately preceding permit year are eligible to obtain a permit for the following permit year.

(B) All applications and permit fees for renewal of a southern rock crab trap permit shall be received by the department, or, if mailed, postmarked on or before April 30 of each year. Late fees, late fee deadlines, and late renewal appeal provisions are specified in Fish and Game Code Section 7852.2.

(f) Fees.

(1) Northern rock crab trap permit. The department shall charge an annual fee of two hundred and fifty dollars ($250.00).

(2) Southern rock crab trap permit. The department shall charge an annual fee of two hundred and fifty dollars ($250.00).

(g) Appeals.

(1) Southern Rock Crab Trap Permit Initial Issuance Appeals. Any applicant who is denied initial issuance of a southern rock crab trap permit for any reason by the department may appeal that denial to the commission in writing, describing the basis for the appeal. The appeal shall be received by the commission or, if mailed, postmarked on or before March 31, 2006.

(2) Southern Rock Crab Trap Renewal Appeals. Late renewal appeal provisions are specified in Fish and Game Code Section 7852.2.

(h) Restricted Access.

A control date of January 1, 2003 is established for the purpose of considering a future restricted access southern rock crab trap fishery. Landings on or after this date may not apply toward a permit in a future restricted access program for the southern rock crab trap fishery if one is developed.

(i) Tidal Invertebrate permits issued pursuant to Section 123, Title 14, CCR, are not required for the commercial take of rock crab.

NOTE: Authority cited: Sections 1050 and 8282, Fish and Game Code. Reference: Sections 1050, 7852.2, 7857, 8250.5, 8282, 8284, 9000, 9001, 9002, 9005, 9006 and 9011, Fish and Game Code.

HISTORY

1. New section filed 2–28–2005; operative 2–28–2005 pursuant to Government Code section 11343.4 (Register 2005, No. 9).
2. Amendment of section heading, new subsection (a)(4), repealer of subsection (g), subsection relettering and amendment of NOTE filed 5–3–2007; operative 6–2–2007 (Register 2007, No. 18).

3. Amendment of subsections (e)(2), (g)(2) and NOTE filed 7–8–2008; operative 7–8–2008 pursuant to Government Code section 11343.4 (Register 2008, No. 28).

§ 125.1. Commercial Take of Rock Crab; Size Limit; Use of Rock Crab as Bait; Incidental Take Provisions.

(a) Rock crab, as defined in Fish and Game Code section 8275(c), less than 4 1/4 inches, measured across the carapace in a straight line through the body, from edge of shell to edge of shell at the widest part, shall not be taken, possessed, bought, sold, or used as bait.

(b) Measuring requirements. Any person taking rock crab for any commercial purpose or for use as bait shall carry a measuring device and shall measure any rock crab immediately. Undersized rock crab shall be immediately returned to the water.

(c) Incidental take. Only the following species may be taken incidentally in rock crab traps being used to take rock crab under authority of a permit issued pursuant to Section 125. All other invertebrates and finfish shall be immediately released to the water.

(1) Kellet's whelk.

(2) Octopus.

(3) Crabs, other than the genus *Cancer*.

(d) Pursuant to Fish and Game Code Section 9001.7, rock crab may be used as bait in finfish traps. However, consistent with Fish and Game Code Section 5508, rock crab may not be possessed or maintained in such a condition that their size cannot be determined. Additionally, consistent with Fish and Game Code Section 5509, rock crab may not be possessed or maintained in such a condition that the species cannot be readily identified.

NOTE: Authority cited: Section 8282, Fish and Game Code. Reference: Sections 8250.5, 8281, 8284, 9001.7 and 9011, Fish and Game Code.

HISTORY

1. New section filed 5–3–2007; operative 6–2–2007 (Register 2007, No. 18).

§ 126. Commercial Take of Tanner Crab.

(a) Permit Required for Take and Possession Using Trap Gear. Any vessel using traps to take, possess aboard a vessel, or land Tanner crab (*Chionoecetes spp.*) for commercial purposes shall have a valid Tanner Crab Trap Vessel Permit. Tanner crab taken incidentally in other trap fisheries may not be possessed and must be immediately returned to the water unless the vessel is issued a Tanner Crab Trap Vessel Permit. A Tanner Crab Trap Vessel Permit is not required to incidentally take, possess or land Tanner crab with gear other than trap gear. For purposes of this Section, the term "Tanner crab" includes all species of the genus *Chionoecetes*.

(1) Permit Issuance Provisions.

(A) An applicant is eligible to purchase a Tanner Crab Trap Vessel Permit for placement on a vessel if the following conditions are met:

1. The vessel must be issued a valid commercial boat registration pursuant to Fish and Game Code Section 7881.

2. The applicant must hold a valid commercial fishing license issued pursuant to Fish and Game Code Section 7850.

3. The applicant must submit a Tanner Crab Trap Vessel Permit application form FG 1439 (9/05), which is incorporated by reference herein, and the permit fee specified in subsection (a)(2).

(B) There are no deadlines or late fees for purchase of a Tanner Crab Trap Vessel Permit. The sale of Tanner Crab Trap Vessel Permits is not restricted and therefore permits are not subject to renewal requirements.

(2) Permit Fee. The Department shall charge a fee of $10,000 for a Tanner Crab Trap Vessel Permit that is valid from April 1 through March 31.

(3) Other Permits Required,

(A) Any person who operates or assists on any vessel for purposes of taking, transporting or landing Tanner crab under authority of a Tanner Crab Trap Vessel Permit shall possess a valid commercial fishing license issued pursuant to Fish and Game Code Section 7850, unless expressly exempted by that Section.

(B) Any person operating under authority of Fish and Game Code Section 7850 who operates or assists on any vessel when trap gear is aboard for purposes of taking, transporting or landing Tanner crab under authority of a Tanner Crab Trap Vessel Permit shall also possess a valid General Trap Permit issued pursuant to Fish and Game Code Section 9001.

(4) Tanner Crab Trap Construction Requirements, Specifications, and Limits.

(A) State Trapping Requirements. As a condition of this permit, Tanner crab traps and commercial Tanner crab trap fishing activities are subject to statutes and regulations that define and specify the following general trap requirements: trap logbooks and submission requirements, trap destruction devices, disturbing traps of another, trap servicing intervals not to exceed 96 hours, trap marker buoys, and other trap and buoy identification requirements. These statutes and regulations are defined in Fish and Game Code sections 9001, 9002, 9003, 9004, 9005, 9006, 9007, and 9008, and sections 180, 180.2, 180.5, and 190, Title 14, CCR.

(B) Trap Construction and Dimensional Requirements.

1. Escape Ports. Every Tanner crab trap shall have at least three openings of at least 4.5 inches in diameter in the side or upper panels of the trap to allow for escapement of undersized crab. The 4.5–inch measurement of the opening shall be taken at its smallest inside diameter. The openings may be constructed with a rigid opening such as a ring or as part of a mesh panel. At the time of measurement, the trap shall be set upright as if it were in use. If the opening is non–rigid or contained within pliable mesh, the smallest inside diameter measurement shall be taken so that a rigid cylindrical measuring device 4.5 inches in its outside diameter and at least three inches in length shall be able to pass easily through the opening.

2. Trap Dimensional Requirements. Tanner crab traps must not be more than 10 feet long and not more than 10 feet wide and not more than 42 inches high, as measured by the greatest distance in each dimension.

(C) Trap Destruction Devices. Traps utilized under authority of a Tanner Crab Trap Vessel Permit must contain a trap destruction device meeting the requirements for Tanner crab traps specified in Section 180.2, Title 14, CCR.

(D) Prohibition on Pop–Ups. Timed buoy release mechanisms capable of submerging a buoy attached to a trap, commonly known as "pop–ups," shall not be used on buoy lines attached to Tanner crab traps, and shall not be possessed by any commercial vessel while taking, attempting to take, or possessing Tanner crabs.

(E) Depth Requirement. Tanner crab traps shall only be placed or otherwise used in water depths greater than 300 fathoms.

(F) Vessel Buoy Marking Requirement. In addition to the trap and buoy marking requirements specified in Fish and Game Code section 9006 and 9007, every string of traps shall be marked with a buoy on each end of the string that is marked with the vessel's commercial boat registration number issued by the department pursuant to Fish and Game Code Section 7881. A vessel fishing under authority of a Tanner Crab Trap Vessel Permit may only take, possess aboard a vessel, transport, deliver, or land Tanner crab from traps marked with the vessel's own registration number. The vessel's registration number on each buoy shall be preceded by the letters "TC." The numbers and letters shall be in a color which contrasts with the color of the buoy. A line thickness no less than 1/8 inch shall be used to create letters and numbers which shall be no less than two (2) inches in height and no less than one (1) inch in greatest width. The permit holder shall maintain the buoys so that the registration numbers and the letters "TC" are legible and easily determined.

(G) Disturbing Traps Prohibited. It is unlawful to willfully or recklessly disturb, move or damage any trap or attachment thereof that belongs to another owner and that is marked with a vessel registration number and the letters "TC." However, a person aboard a permitted vessel may pull or raise a trap marked with a buoy bearing a vessel registration number and the letters "TC" other than his own, but must have written permission in his or her immediate possession from the permittee whose vessel registration number is marked on the buoy. This subsection does not apply to employees of the department while engaged in the performance of official duties. Employees of the department may disclose the name, address, and registration number of Tanner Crab Trap Vessel permittees to repre-

sentatives of public safety agencies to assist in the return of traps and attachments to their proper owners. This subsection does not create any duty on any state or local agency to remove or move a trap, line, or buoy that may endanger the public safety and does not create any liability to Part 2 (commencing with Section 814) of Division 3.6 of Title 1 of the Government Code.

(H) Trap and String Limits. No more than 480 traps may be submerged or otherwise used per permitted vessel. Not more than six strings with not more than 80 traps per string shall be submerged or otherwise used. All traps must be fished on a string of traps. For purposes of this Section, "string" means individual traps that are connected by line or other means.

(5) Processing at Sea. Vessels may process crabs at sea and land them in a condition other than whole pursuant to the requirements of this Section.

(A) For purposes of this Section, the term "processing" shall not be equated to the term or activity of "Process fish" as defined in Fish and Game Code Section 8031.

(B) If Tanner crab is not landed in the round, the whole-weight conversion factor that shall be applied is 1.61. At the time the landing receipt is completed pursuant to Fish and Game Code Section 8043, the processed weight shall be recorded in the "Pounds" section and the converted whole weight, in pounds, shall be recorded in the space marked "Note Pad" on the landing receipt.

(C) For purposes of landing tax payments as required and specified by Fish and Game Code sections 8041 and 8051, for Tanner crab landed in processed condition, tax payments shall be computed and paid based on the converted whole weight.

(6) Cumulative Vessel Trip Limits.

(A) A cumulative trip limit is the total number of pounds of Tanner crab that may be taken and retained, possessed, or landed by a vessel in a two-month period without a limit on the number of landings or trips. The cumulative trip limit per vessel per designated two-month limit period is 250,000 pounds of whole crab. For purposes of calculating catch against a cumulative vessel trip limit, all landings of processed crab shall be converted to the whole-weight equivalent as described in subsection (a)(5)(B).

(B) Cumulative trip limit periods start at 0001 hours local time, end at 2400 hours local time, and are in two month periods as follows:

1. January 1 through the last day of February,
2. March 1–April 30,
3. May 1–June 30,
4. July 1–August 31,
5. September 1–October 31,
6. November 1–December 31.

(C) All landings made in a vessel's registration number listed on landing receipts submitted to the department pursuant to Fish and Game Code Section 8043 count toward the cumulative trip limit for the two month period that corresponds to the date on the receipt. Such receipts must accurately record the weight of Tanner crab landed.

(D) Copies of all landing receipts which document the catch of Tanner crab shall be kept onboard the fishing vessel throughout, and for 15 days following, each period for which cumulative landings by individual vessels are limited.

(E) When the seasonal catch limit defined in subsection (b) is reached and action to close the fishery is taken, cumulative trip limits defined in this subsection become inoperative.

(7) Incidental Landings and Allowances.

(A) No more than five percent of the total possessed or landed catch by weight may be comprised of invertebrates other than Tanner crab. All crab and other invertebrates taken in Tanner crab traps, except for crab of the genus Cancer (including but not limited to Dungeness crab and rock crab) may be landed and sold incidentally under authority of a Tanner Crab Trap Vessel Permit.

(B) All finfish taken in Tanner crab traps, with the exception of sablefish, shall immediately be returned to the water. Sablefish may be landed if authorized pursuant to Federal groundfish regulations.

(C) No invertebrates or finfish taken in Tanner crab traps may be used as bait.

(8) Observer Requirements and Cooperation with Observer Programs.

(A) Each permittee is required to carry an observer onboard to gather biological, fishery and bycatch information during Tanner crab fishery operations according to the specifications defined in this subsection. The permittee shall contract with either a National Marine Fisheries Service (NMFS)–certified observer provider firm, or a private individual who is certified either as a NMFS observer or as a crab observer by the Alaska Department of Fish and Game. The Tanner Crab Trap Vessel permittee shall be liable for a violation of any terms or conditions of this subsection.

1. Prior to contracting, the permittee is required to acquire department approval of the selected provider firm or private individual. The department shall review the qualifications of the observer with whom the vessel wishes to contract with, and may reject the individual or firm. Request for department approval shall be directed to the department's Marine Region Regional Manager or his or her designee, and must be sought by phone at (562) 342-7108, and in writing to the department's office at 4665 Lampson Avenue, Suite C, Los Alamitos, CA 90720. Requests for approval must be made at least 60 days prior to the planned commencement of fishing activity. At the time the request is made, the permittee must also notify the department of the anticipated start date of fishing activity.

2. As a condition of the contract, the observer shall collect biological and fishery data as requested by the department. Data to be collected by the observer shall include vessel identification, date and time, information on catch, incidental take, sex ratio, size, maturity, condition and quality factors, weight, discards, gear specifications, vessel position and depth, trap soak time, number of traps set and pulled, and a summary of the vessel's daily activities and interactions with other vessels or fisheries compiled in a daily observation report. As needed, the department may request the observer to provide additional information that is similar in scope and nature to the aforementioned items. The permittee is required to ensure that while aboard, the observer is gathering data at all times when the vessel is engaged in fishing activity.

3. The department will provide all necessary sampling materials, equipment and a computer to the selected provider firm or individual for the observer's use aboard the vessel. The permittee shall ensure that the sampling materials, equipment and computer are returned to the department following completion of the observer's duties. Observer safety equipment needs and safety specifications shall be arranged by the permittee with the selected provider firm or private individual, and shall not be the responsibility of the department.

4. The contract between the permittee and the selected provider firm or private individual shall specify that data collected aboard the vessel shall be the property of the department.

5. The permittee shall ensure that all data collected or reported by the observer shall be delivered to the department office at 4665 Lampson Avenue, Suite C, Los Alamitos, CA 90720 on or before the 10th day of each month following the month to which the observer's records pertain. Observer records that are mailed shall be postmarked on or before the 10th day of each month following the month to which the records pertain.

6. The permittee shall ensure that the data and all reports and documentation are collected by the observer on paper data sheets, entered into a computer provided by the department, and provided to the department in electronic format according to the submission procedures described in this subsection. Paper data sheets used onboard the vessel shall be included with the electronic data submitted to the department.

(B) As a condition of a Tanner Crab Trap Vessel Permit, the permittee is required to have an observer onboard at the time the vessel's fishing activity commences each fishing season, and during all fishing operations that occur over the sixty consecutive days that follow. A vessel's fishing activity commences at the time that a trap is deployed for purposes of commercially harvesting Tanner crab.

(C) All vessels and persons operating under authority of a Tanner Crab Trap Vessel Permit are subject to provisions of Section 105.5, Title 14,

CCR. The crew must allow personnel designated by the department to board any commercial fishing vessel, conveyance, or other mechanical device used under authority of a Tanner Crab Trap Vessel Permit, to observe or inspect equipment, procedures, crabs, other invertebrates or fish.

(9) Permit Revocation and Violations.

(A) Pursuant to Fish and Game Code subsection 1052(b), a Tanner Crab Trap Vessel Permit shall be revoked if the applicant or permittee submits false information for the purposes of obtaining a permit.

(B) Any Tanner Crab Trap Vessel Permit may be suspended, revoked or cancelled by the commission upon notice by the department of a violation by a permit holder, or any person acting under authority of his or her permit, of Fish and Game Code sections 9001, 9002, 9003, 9004, 9005, 9006, 9007, and 9008, sections 105.5, 180, 180.2, 180.5, and 190, Title 14, CCR, the regulations of this Section, or other provisions of the Fish and Game Code or regulations of the Fish and Game Commission relating to crabs, traps, and times or areas closed to fishing.

(C) The Tanner Crab Trap Vessel Permit holder shall be liable for any violations committed by him or her of Fish and Game Code sections 9001, 9002, 9003, 9004, 9005, 9006, 9007, and 9008, sections 105.5, 180, 180.2, 180.5, and 190, Title 14, CCR, the regulations of this Section, or other provisions of the Fish and Game Code or regulations of the Fish and Game Commission relating to crabs, traps, and times or areas closed to fishing. The Tanner Crab Trap Vessel Permit holder shall also be liable for violations committed by any other person operating under the authority of his or her permit. Additionally, any such other person is liable for his or her own violations.

(b) Seasonal Catch Limit. For the period from April 1 through March 31 of the following year, a total of not more than two million pounds of Tanner crab may be landed in California. For purposes of this catch limit, all landings of processed crab shall be converted to the whole–weight equivalent as described in subsection (a)(5)(B). The directed trap fishery closure shall be implemented as follows:

(1) Mechanism for Fishery Closure. The department will estimate from the current trends in catch and using available scientific information the time at which the catch limit will be reached. The department will close the directed trap fishery at the time the catch limit is reached or is projected to be reached prior to the end of the fishing year.

(2) The department shall give holders of Tanner Crab Trap Vessel Permits described in subsection (a) no less than 10 days notice of the closure via a notification letter sent to the permittee's address on file with the department. The department shall give the public and the commission no less than 10 days notice of the closure via a department news release.

(3) When the Tanner crab catch limit has been reached, Tanner crab may continue to be taken incidentally in other fisheries where a Tanner Crab Trap Vessel Permit is not required.

(c) Minimum Size Limit. Any species of Tanner crab must have a minimum carapace width of 5 inches measured by the greatest straight–line distance across the carapace at a right angle to a line midway between the eyes to the posterior margin, not including spines. Every person taking Tanner crabs shall carry a measuring device and any Tanner crab that is found to be undersized shall immediately be returned to the water.

(d) Male–Only Fishery. Only male Tanner crabs may be retained and landed. All female Tanner crabs shall immediately be returned to the water.

(e) Prohibition on Use as Bait. Tanner crabs may not be used as bait in any commercial fishery.

(f) Tidal Invertebrate Permits. Tidal Invertebrate Permits issued pursuant to Section 123, Title 14, CCR, are not required for the commercial take of Tanner crab.

§ 132. Importation of Crab.

This section applies only to crab of the species *Cancer magister*. Except as otherwise provided herein, live crab, cooked crabmeat or whole or cracked crab in the shell may be imported into California under the following regulations and conditions:

(a) During the closed season cooked picked crabmeat imported into California must be in containers and each container must bear the name and address of the out–of–state processor.

(b) During the closed season all shipments of cooked crabmeat, or cooked crab in the shells, imported into the State of California shall be accompanied by a manifest, bill of lading, or invoice showing the name and address of the shipper and the name and address of the importer or consignee and the quantity of cooked crabmeat or cooked crab contained in said shipment. Immediately after the receipt of each shipment of cooked crabmeat, or cooked crab, the importer thereof shall furnish the nearest office of the Department of Fish and Game with a copy of the manifest, bill of lading, waybill, or invoice covering each shipment received by said importer.

(c) No cooked crabmeat, cooked whole or cracked crab, or cooked picked crabmeat shall be imported into California by boat or by sea during the closed season for crabs in California. All such importation of crabmeat must be by land or air carrier.

(d) No female crab may be imported into California at any time.

(e) All crabs imported into California at any time must meet the requirements of size as specified in Section 8278 of the California Fish and Game Code.

(f) No cooked crabmeat or cooked whole or cracked crab in the shell may be imported at any time into California unless legally taken and possessed in the state or country of origin of such shipment of crab.

(g) Persons importing live crabs into California during the closed season shall comply with the following requirements:

(1) All live crabs imported into California must be accompanied by an invoice, bill of lading or manifest showing the name and address of the shipper, the name and address of the importer or consignee and the quantity of live crabs contained in the shipment.

(2) All containers of live crab shipped into California must bear, on the outside of the container, the name and address of the shipper, the name and address of the importer or consignee, the wording "LIVE DUNGENESS CRAB" in addition to the documentation required by subsection 132(g)(1).

(3) All crab distributed by the importer or consignee must be accompanied by documentation indicating "live imported Dungeness crab" in addition to the documentation required by subsection 132(g)(1).

(h) Prior notice of at least 36 hours for each shipment shall be provided the department office nearest the point of destination during normal

working hours (8:00 a.m.–5:00 p.m., Monday–Friday). Said notice shall include approximate time of entry into the state and the route of travel through the state. The importer shall furnish a copy of the bill of lading covering each importation received by said importer to said department office within 24 hours of receipt of the shipment.

HISTORY

1. New section filed 7–3–79 as an emergency; effective upon filing (Register 79, No. 27).
2. Amendment filed 8–6–79 as an emergency; effective upon filing (Register 79, No. 32).
3. A Certificate of Compliance must be filed by 1031–79 or both prior emergency filings will revert to the former language pursuant to Government Code Section 11422.1(c).
4. Certificate of Compliance filed 9–26–79 (Register 79, No. 39).
5. Amendment filed 7–24–80 as an emergency; effective upon filing (Register 80, No. 30). A Certificate of Compliance must be transmitted to OAH within 120 days or emergency language will be repealed on 11–20–80
6. Repealer and new section filed 7–6–81 as an emergency; effective upon filing (Register 81, No. 28). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 11–3–81.
7. Certificate filed 9–22–81 repealing section by operation of Government Code Section 11346.1 (Register 81, No. 39).
8. Amendment of NOTE filed 10–19–81; effective thirtieth day thereafter (Register 81, No. 43).
9. New section filed 6–27–84 as an emergency; effective upon filing (Register 84, No. 28). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 10–25–84.
10. Repealed by operation of Government Code Section 11346.1(g) (Register 84, No. 43).

§ 133. Crabmeat, Cooked Crabs or Parts Thereof.

This section applies only to crabs of the species Cancer magister. Crabmeat, cooked crabs or parts thereof, taken during the open season for crabs may be possessed, transported, and sold during the closed season under the following regulations:

(a) Such cooked crabmeat, and cooked crabs or parts thereof shall be placed by the owner or possessor of such crabmeat, cooked crabs or parts thereof, in storage prior to the close of the season or within 10 days after the close of the season.

Within 14 days after the close of the season the owner or possessor of such crabmeat, cooked crabs or parts thereof, which are being held for sale during the closed season, shall furnish the Department of Fish and Game with a written inventory of all crabmeat, cooked crabs or parts thereof held in possession on the tenth day after the close of the season. The inventory shall show the address of each cold storage plant where such crabmeat, cooked crabs or parts thereof are stored, as well as the amount in pounds of such crabmeat, cooked crabs or parts thereof held in each of said cold storage plants.

(b) All withdrawals of cooked crabs or parts thereof, except picked crabmeat, from such cold storage plants shall be accompanied by a delivery manifest and a copy of said manifest shall be mailed to the nearest Department of Fish and Game office on the same date as the withdrawal.

(c) The cold storage delivery manifest shall show the following: weight of cooked crabs or parts thereof, except picked crabmeat; name and address to whom delivery was made; and date and time of withdrawal.

§ 134. Sturgeon, Importation of.

NOTE: Authority cited: Sections 2361, 2363, 2430, 2431, 7701, 7708, 8213 and 8431, Fish and Game Code. Reference: Sections 2353, 2361, 2430–2433, 7700–7710.5, 8213 and 8431, Fish and Game Code.

HISTORY

1. New section filed 12–17–51; effective thirtieth day thereafter (Register 26, No. 7).
2. Repealer and new section filed 4–19–55; effective thirtieth day thereafter (Register 55, No. 6).
3. Repealer filed 10–19–81; effective thirtieth day thereafter (Register 81, No. 43).

§ 135. Transportation, Possession and Sale of Imported Sturgeon, Striped Bass, Steelhead Trout and Shad.

All imported sturgeon, striped bass, steelhead trout and shad shall be imported, transported, possessed and sold as provided in this section. This section applies to fish commercially taken out–of–state and not to those species grown or imported live by registered aquaculturists in this state.

(a) At least 12–hour prior notice by the shipper or consignee of each shipment of such fish shall be provided to the department's regional office nearest the consignee during normal business hours (Monday through Friday, 8:00 a.m. to 5:00 p.m.).

(b) Such fish must be accompanied by a bill of lading, waybill, invoice or similar accountable document showing the place of origin of the shipment, the name and address of the consignee and a listing of all fish by species, total weight and tag number.

(c) The consignee shall retain a copy of the bill of lading or similar accountable document for one year and make it available to the department upon request.

(d) All dead fish or parts thereof, may be imported, transported, or sold within the state in any form but shall be either:

(1) Packaged in sealed containers or boxes. Each container or box shall be clearly labeled showing a description of the contents and an identification of the shipper; or

(2) Tagged with consecutively numbered cinch–up vinyl plastic spaghetti tags with a legend showing the name of the shipper along with the city and state of origin. The tag sequence shall be present on all invoices and waybills. Reusable tags may not be possessed in the State of California. When tags are removed from the fish they must be destroyed by cutting through that portion of the tag which contains the name of the shipper and the tag number; or

(3) Clearly marked, using liquid nitrogen and a metal brand, with an "A," 1/2 inch square, posterior to the head, anterior to the dorsal fin and above the lateral line. All fish shall be marked when alive but may be killed prior to transport or sale.

(e) All live fish may be imported, transported or sold within the state in any form but shall be either tagged or marked as described in subsections (d)(2) or (d)(3).

(f) Fish tagged, marked and/or packaged under subsections (d) or (e) above may be reprocessed and repackaged or retagged by dealers possessing a Wholesale Fish Dealer's and Processor's License as provided by section 8040 of the Fish and Game Code as well as a revocable processing permit issued by the Wildlife Protection Branch of the department specifically for striped bass, sturgeon and steelhead trout and shad. The permit shall be issued on a calendar year basis, or part thereof. When transported for sale such fish or portions of fish shall meet the transportation requirements of subsections (b) and (c).

(g) No such fish may be possessed at a place where fish are sold unless packaged, marked or tagged in the manner described in subsections (d) or (e) except that operators or employees of retail stores, restaurants or other eating establishments may remove portions from packaged,

marked or tagged fish when such portions are being displayed or prepared for actual sale to a consumer or for actual consumption on the premises.

(h) The permit issued pursuant to subsection (f) may be cancelled or suspended at any time by the department upon conviction of a violation of these regulations by a court of competent jurisdiction. Cancellation or suspension may be appealed to the commission. See subsection 699(b) of these regulations for the fee for this permit.

3. Repealer filed 10–19–81; effective thirtieth day thereafter (Register 81, No. 43).

§ 142. Fishermen and Fish Plants.

(a) In order to prevent waste of fish, no person shall take or bring into any cannery, packing, preserving, reduction or other plant, fish in excess of an amount for which he has a bona fide order in writing, either from the plant to which the fish are to be delivered, or from an organization acting for the plants or for the fishermen within the region; and no person shall deliver fish to a packing plant which are of a size, condition or species not specified in the bona fide order.

A person shall not be considered as having a bona fide order to deliver fish if it is general knowledge, or if it is known by him, that weather conditions, strikes or other labor conditions, or any other conditions will prevent the completed delivery of fish to the given plant.

(b) To prevent waste of fish, fishermen shall to the best of their ability, avoid impounding more fish when laying out the net than they intend to load on their boat, or of impounding fish of a size or species which do not comply to this order. In cases where more fish are accidentally caught in the net than it is desired to take on their boat or lighter, or in cases where fish which in size, quality or species do not conform to this order, are accidentally caught in the net, fishermen shall release the excess fish or the fish which do not comply to this order while they are still alive and before they commence brailing out the catch.

2. Amendment filed 6–5–61 as an emergency; effective upon filing (Register 24, No. 4).
3. Repealer filed 10–19–81; effective thirtieth day thereafter (Register 81, No. 43).

§ 146. Sampling Methods.

Samples taken pursuant to this section establish a rebuttable presumption that the sampling results are evidence of the true condition of the entire load or lot in the examination of which the sample was taken. The presumption established by this section is a presumption affecting the burden of proof.

(a) In sampling loads or lots of fish to determine species or size composition by number or weight, a minimum of five subsamples shall be taken at reasonable intervals throughout the unloading process. The department shall prescribe methods of selecting samples which shall be reasonably calculated to produce by such sampling fair representations of the composition of the entire load or lot which is sampled.

(b) To insure reasonable calculation of fair representation of composition, subsamples shall be taken to provide that the following minimum sample sizes are attained when dealing with the prescribed percentage tolerances:

Percentage Tolerance	*Minimum Total Sample Size (in number of fish)*
50%	378
40%	363
30%	318
25%	284
18%	223
15%	193

(c) Samples shall be taken and evaluated by deputized Wildlife Protection personnel or other designated personnel trained and certified by the department to conduct sampling activities established pursuant to this section.

NOTE: Authority cited: Sections 7701, 7702, 7708 and 8189, Fish and Game Code. Reference: Sections 7700–7710.5, 8075–8080 and 8180–8189, Fish and Game Code.

HISTORY

1. New Section filed 7–7–55 as an emergency; effective upon filing (Register 55, No. 10).
2. Amendment filed 4–21–60; effective thirtieth day thereafter (Register 60, No. 9).

3. Amendment filed 1–4–66; effective thirtieth day thereafter (Register 66, No. 1).

4. Repealer and new section filed 10–19–81; effective thirtieth day thereafter (Register 81, No. 43).

§ 147. Granting and Issuance of Permits to Take and Use Anchovies by a Reduction Process.

Anchovies shall not be taken, possessed, landed, or processed for reduction purposes except under revocable permits issued pursuant to this section. Anchovies may be taken for reduction purposes in the Northern Permit Area from August 1 to June 30. Anchovies may be taken for reduction purposes in the Southern Permit Area from September 15 to June 30.

(a) Permits to Take, Possess, Land or Transport Anchovies.

(1) To Whom Issued. Revocable permits shall be issued to the owner or operator of a currently registered California commercial fishing vessel. Permits may not be transferred from one boat to another without authorization from the department. The individual to whom the permit is issued must be aboard when fishing for anchovies for reduction purposes. Any permittee whose permit has been revoked may not take or assist in taking anchovies for reduction purposes for the remainder of the season.

(2) Where Issued. Permits may be obtained from the department offices at Long Beach and Monterey. Such permits shall be valid until terminated or revoked. See subsection 699(b) of these regulations for the fee for this permit.

(3) Conditions of Permits.

(A) Suspension of Permits. When the harvest quotas established by the commission in subsection (a)(3)(F) are close to being reached, the department will notify all permit holders of the closing date 48 hours prior thereto.

(B) Gear Specifications:

1. It is unlawful for any permittee to use a roundhaul net, with a wet–stretch mesh size less than 10/16 of an inch, except that the bag portion of a purse seine net may have a wet–stretch mesh size of not less than 8/16 of an inch, to take anchovies for reduction purposes. The bag portion of a purse seine net shall be constructed as a single unit and shall not exceed 12.5 percent of the total area of the net.

2. It is unlawful for any permittee to possess aboard his fishing vessel any fishing gear contrary to the above specifications when anchovies taken for reduction purposes are possessed aboard the vessel.

3. Minimum mesh size requirements are met if a standard stainless steel wedge of appropriate gauge can be passed, with thumb pressure only, through 16 of 20 sets of two meshes each of wet mesh.

4. Notwithstanding these gear specifications, a permittee may, until April 1, 1986, possess and use a roundhaul net of smaller mesh size if, prior to use, the permittee has notified the department and has demonstrated to the department that the net was used in the California anchovy reduction fishery prior to May 24, 1983.

(C) Gear Inspection. Fishing gear possessed aboard a permittee's vessel shall be subject to inspection by the department at all times to determine compliance with gear specification requirements specified in subsection (a)(3)(B).

(D) Vessel Identification. The operator of any boat engaged in taking anchovies under these regulations shall at all times while operating such boat identify it by displaying on an exposed part of the superstructure, amidship on each side and on top of the house visible from the air, the department's registration number of the boat in 14–inch black numerals on white background.

(E) Declaration of Intent to Take, Possess, Land or Transport Anchovies for Reduction Purposes.

1. The provisions of subsection (a)(3)(E) shall apply only to vessels taking anchovies for reduction purposes as described in subsection (a)(3)(F)1. and 2.

2. No vessel shall be operated to take, carry or deliver anchovies for reduction purposes unless a declaration of intent has been filed regarding said vessel in accordance with these regulations.

3. Before a vessel operator can file a declaration of intent as required by subsection (a)(3)(E) he must be the operator of a vessel duly registered as provided by section 7890 of the Fish and Game Code, and must possess a valid commercial fishing license.

4. No vessel operating under the authority of a declaration of intent filed pursuant to these regulations shall take, carry or deliver anchovies for any purpose other than reduction except when taking anchovies for canning or live bait purposes as provided in subsection (a)(3)(E)12 of these regulations, or when operating pursuant to an exception filed in accordance with subsection (a)(3)(E)5 of these regulations. When operating under the authority of an exception, no anchovies may be taken for reduction purposes.

5. During the period for which the declaration is in force and effect, a named vessel may be used to take, carry and deliver anchovies for other than reduction purposes if, and only if, operator files an exception in accordance with the following provisions:

a. When the operator intends to use said vessel to take anchovies for purposes other than reduction, he shall so notify the Long Beach or Yountville offices of the department, either by letter or telegram, prior to the commencement of fishing. This notice shall be posted or sent prior to the commencement of fishing and shall be effective only on the vessel named.

b. The notice shall contain the following information: the calendar days for which the exception is to be effective; the purpose for which the anchovies are to be taken; and the name and registration number of the vessel.

6. Declaration of intent shall be filed with the department during normal working hours at the Yountville, San Diego or Long Beach office of the department. The declaration of intent shall be filed on forms furnished by the department.

7. Each declaration of intent shall specify the vessel to which it applies. Only one vessel may be specified on any one declaration, but a qualified applicant may file separate declarations for more than one vessel.

8. Except as otherwise provided, any declaration of intent filed pursuant to these regulations shall be in force only during the open season, or if filed after the beginning of such term, for the remainder thereof.

9. A copy of each declaration filed under subsection (a)(3)(E) to take anchovies shall be carried aboard the vessel to which it relates and shall be exhibited upon demand to the authorized representative of any reduction plant to which said vessel is delivering anchovies and upon demand to any officer of the department.

10. No vessel which has filed a declaration of intent to take, carry and deliver anchovies for purposes of reduction and has filed no exception thereto shall place any net in the water for the purpose of taking anchovies in any unauthorized area. In the event of any violation of this section, the operator of said vessel shall be deemed in violation thereof.

11. Whenever anchovies are possessed aboard a vessel for which declaration of intent to take, carry and deliver anchovies for reduction purposes has been filed and such declaration is in full force and effect, and not then subject to any notice of exception pursuant to subsection (a)(3)(E)5, it shall be conclusively presumed that said anchovies were taken and were being carried for reduction purposes.

12. Notwithstanding the other provisions of subsection (a)(3)(E), vessels operating under a declaration of intent to take anchovies for reduction purposes may also take anchovies for canning purposes, pursuant to the appropriate sections of the Fish and Game Code and of this section, and may also take anchovies for live bait purposes, providing that all conditions, laws, and regulations pertaining to the reduction fishery are adhered to while so engaged in live bait fishing.

(F) Permit Areas and Quotas.

1. Northern Permit Area. The area shall include the waters of the Pacific Ocean between the California–Oregon border and a line extending due west (true) from Point Buchon. Anchovies taken under the provisions of these regulations may be taken in all waters of the northern permit area described above, with the following exceptions: within Districts 2, 8, 9, 11, 12, 13, 15; the waters of Bodega and Tomales Bay; that portion of

District 10 lying inshore of a line beginning at Pigeon Point (San Mateo County) northwesterly in a straight line to the U.S. Navigation Light on S.E. Farallon Island, northerly in a straight line to the U.S. Navigation Light on Pt. Reyes (Marin County); that portion of District 16 lying southerly of the Monterey Breakwater magnetic east to shoreline; that portion of District 18 within three miles of shore in the area lying between a line drawn magnetic west of Point Estero and a line drawn magnetic west of Point Buchon; and that portion of District 18 within three miles of shore in that area lying between a line drawn magnetic west of Point San Luis and a line drawn magnetic west of Arroyo Grande Creek.

2. Southern Permit Area. The area shall include the waters of the Pacific Ocean between the United States–Mexico International Boundary and a line extending due west (true) from Point Buchon. Anchovies taken under the provisions of these regulations may be taken in all waters of the southern permit area described above, with the following exceptions: within three miles of the mainland shore south of Point Buchon and in all districts or portions of districts where and at such times as the use of round–haul nets is prohibited; within four miles of the mainland shore between lines running 235° magnetic from the steam plant stack at Mandalay Beach and 205° magnetic from the steam plant stack at Ormond Beach; within the area encompassed by a line extending six miles 165° magnetic from Point Fermin, thence to a point located three miles offshore on a line 210° magnetic from Huntington Beach pier; within six miles of the mainland shore south of a line running 210° magnetic from the tip of the outer breakwater of Oceanside Harbor.

3. Quotas. If the department or department's designee does not produce a northern anchovy biomass estimate, total tonnage reserved for a harvest quota is 5,000 tons and is established on August 1 of each year. This quota is allocated evenly between northern and southern permit areas.

4. Adjustments to Quotas. If during the season the maximum quota set by the commission for the northern or southern permit areas should be approached, the commission will consider an increase in the quota for the area approaching its quota. After May 15, any tonnage remaining in the quota for the northern permit area will be made available to southern area permittees.

(b) Permits to Reduce Anchovies.

(1) Qualification of Permittee. To be eligible for a reduction permit under these regulations each applicant must have the license provided in section 8042(a) of the Fish and Game Code, and supply proof to the satisfaction of the department that the applicant can properly unload, weigh, and utilize anchovies for reduction before any permit is issued.

(2) Applications. All applications for permits to reduce whole anchovies for a given season must be received by the Fish and Game Commission, 1416 Ninth Street, Sacramento, CA 95814, on or before the close of business on the preceding July 15.

(3) Limitation of Permit. Not more than one permit shall be issued for each plant. Permits shall not be transferred without prior authorization from the commission.

(4) Duration of Permit. Except as otherwise provided, any permit issued pursuant to these regulations shall be in force only for the time as specified on such permit.

(5) Records. The permittee shall submit daily to the nearest office of the department receipts required under the provisions of section 8011 of the Fish and Game Code for all anchovies purchased or received that day for reduction.

(6) Plant Delivery. No reduction plant shall take delivery of anchovies from any vessel whose operator has not filed a declaration of intent required under subsection (a)(3)(E) to take, carry and deliver anchovies for reduction purposes.

(7) Weighing of Fish Landed. No anchovies intended for use or used in any reduction plant shall be unloaded from any vessel except at a weighing or measuring device approved by the Bureau of Weights and Measures. *Such anchovies shall be weighed by a public weighmaster* licensed as an individual under the laws of this state and a receipt as to such weight shall be immediately issued by him to the fisherman at the time of receipt of such anchovies. Copies of such receipt shall be handled in the manner provided in sections 8011 to 8014 of the Fish and Game Code.

(8) Fish from South of the International Boundary. Anchovies taken south of the United States–Mexico International Boundary and landed in California for reduction processes shall be included in the total quota set by these regulations for the southern permit area.

(c) These regulations shall be set forth in or attached to all permits. Permits shall be issued only upon conditions contained in the application and signed by the applicant that he has read, understands and agrees to be bound by all the terms of the permit. A copy of these regulations shall be given to every person who files a declaration of intent pursuant to these regulations.

(d) Revocation of Permits. Any permit may be revoked by the commission upon breach or violation of any Fish and Game law or regulation or violation of the terms or conditions of the permit by holders thereof, their agents, servants, employees, or those acting under their direction and control.

HISTORY

1. Amendment of subsections (a) and (a)(3)(E) filed 8–18–82; effective upon filing pursuant to Government Code section 11346.2(d) (Register 82, No. 34). For prior history, see Register 81, No. 42.
2. Amendment of subsections (a)(3)(B) and (a)(3)(C) filed 5–26–83 as an emergency; effective upon filing (Register 83, No. 22). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 9–23–83.
3. Certificate of Compliance including amendment of NOTE filed 9–16–83 (Register 83, No. 38).
4. Amendment filed 9–19–83; effective thirtieth day thereafter (Register 83, No. 38).
5. Editorial correction of NOTE filed 10–13–83 (Register 83, No. 42).
6. Amendment of subsection (a)(3)(F) filed 10–18–84; effective upon filing pursuant to Government Code section 11346.2(d) (Register 84, No. 42).
7. Amendment of subsection (a)(3)(F) filed 9–23–85; effective thirtieth day thereafter (Register 85, No. 38).
8. Amendment of subsection (a)(3)(f)3 filed 10–3–88; operative 11–2–88 (Register 88, No. 41).
9. Amendment of subsection (a) filed 4–18–91; operative 5–18–91 (Register 91, No. 21).
10. Amendment of subsections (a)(3)(E)1., (a)(3)(E)5., (a)(3)(E)5.a. and (a)(3)(E)6., repealer and new subsection (a)(3)(F)3. and amendment of NOTE filed 11–12–96; operative 11–12–96 pursuant to Fish and Game Code sections 202 and 215 (Register 96, No. 46).

§ 148. Permits to Commercially Take Pacific Mackerel.

NOTE: Authority cited: Section 7652, Fish and Game Code. Reference: Sections 7650–7653 and 8411, Fish and Game Code.

HISTORY

1. Amendment of subsection (b) filed 6–28–82 as an emergency; effective upon filing (Register 82, No. 28). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 10–26–82. For prior history, see Register 81, No. 43.
2. Certificate of Compliance filed 9–29–82 (Register 82, No. 40).
3. Editorial correction of subsection (a)(2) filed 12–29–82 (Register 83, No. 1).
4. Amendment of subsection (b)(3)(B)1 filed 11–10–83 as an emergency; effective upon filing (Register 83, No. 47).
5. Order of Repeal of 11–10–83 emergency order filed 11–18–83 by OAL pursuant to Government Code section 11349.6 (Register 83, No. 47).
6. Amendment of subsection (b) filed 8–27–84; effective upon filing pursuant to Government Code section 11346.2(d) (Register 84, No. 35).
7. Amendment of subsection (b) filed 7–10–85; effective thirtieth day thereafter (Register 85, No. 28).
8. Amendment of subsection (a) filed 4–18–91; operative 5–18–91 (Register 91, No. 21).
9. Amendment of subsection (a) filed 9–9–92; operative 10–9–92 (Register 92, No. 37).
10. Repealer of section and amendment of NOTE filed 9–24–2001; operative 10–24–2001. Submitted to OAL for printing only pursuant to Fish and Game Code section 7652(d) (Register 2001, No. 39).

§ 149. Commercial Taking of Market Squid.

(a) Fishing days. North of a westerly extension of the United States — Republic of Mexico boundary line, market squid may not be taken for commercial purposes between 1200 hours (noon) on Friday and 1200 hours (noon) on Sunday of each week. This regulation applies to vessels catching squid or attracting squid with lights. This regulation does not ap-

ply to vessels taking squid for live bait purposes only or to fishing activities which result in squid landings taken pursuant to subsection (g) of this Section. Squid taken for live bait purposes pursuant to this Section shall only be sold as live bait.

(b) Records. Pursuant to Section 190 of these regulations, any person who possesses a valid Market Squid Vessel Permit, Market Squid Brail Permit, or Market Squid Light Boat Permit shall complete and submit an accurate record of his/her squid fishing, lighting, or brailing activities on a form (Market Squid Vessel Logbook — DFG 149a (9/01), or Market Squid Light/Brail Boat Logbook — DFG 149b (10/05), which are located in Appendix A of Subdivision 1 of Division 1 of Title 14, CCR) provided by the department, as appropriate to the type of fishing activity. Logbook records shall be transmitted to the department on or before the 10th day of each month following the month that fishing activity occurred.

(c) Maximum Wattage. Each vessel fishing for squid or lighting for squid shall utilize a total of no more than 30,000 watts of lights to attract squid at any time.

(d) Light Shields. Each vessel fishing for squid or lighting for squid will reduce the light scatter of its fishing operations by shielding the entire filament of each light used to attract squid and orienting the illumination directly downward, or providing for the illumination to be completely below the surface of the water. The lower edges of the shields shall be parallel to the deck of the vessel.

(e) Seasonal Catch Limitation. For the period from April 1 through March 31 of the following year, a total of not more than 118,000 short tons of market squid may be taken statewide by vessels permitted under Section 149.1 or 149.3, Title 14, CCR, with the fishery closure implemented as follows:

(1) The department shall estimate, from the current trend in landings, when the market squid catch limit will be reached, and will publicly announce the effective date of closure of the directed fishery on VHF/channel 16 between the hours of 10:00 p.m. and 12:00 a.m. (midnight). It shall be the responsibility of all operators of permitted market squid vessels to monitor VHF/channel 16 to determine when the catch limit is expected to be reached and the fishery closed. Any announcement issued or made by the department on VHF/channel 16 shall constitute official notice.

(2) Whenever the market squid catch limit has been reached, market squid may be taken for commercial purposes through March 31 only if the amount taken does not exceed two tons landed in a calendar day or if the squid taken is used for live bait only.

(f) Closed Times and Areas for Seabirds. Market squid may not be taken for commercial purposes utilizing attracting lights in all waters of the Gulf of the Farallones National Marine Sanctuary. Boundaries of the Sanctuary are defined as those in effect on August 27, 2004, pursuant to Title 15, Code of Federal Regulations (CFR), Part 922, Subpart H. This regulation also applies to vessels pursuing squid for live bait purposes.

(g) Incidental Allowance. It is unlawful to take, land, or possess in excess of two tons of squid per trip or per calendar day except as authorized under a Market Squid Vessel Permit or a Market Squid Brail Permit as described in subsection 149.1(b) or Section 149.3, or for purposes of live bait only.

(h) Forfeiture. Squid landed or possessed in violation of the allowance specified in subsection (g) above shall be forfeited to the department by the signing of an official release of property form. The squid shall be sold or disposed of in a manner to be determined by the department. The proceeds from all sales shall be paid into the Fish and Game Preservation Fund.

(i) Use of Lights to Aggregate Squid. It is unlawful to attract squid by light except as authorized under permits described in subsection 149.1(b) or Section 149.3. This regulation does not apply to seine skiffs of a permitted vessel, or to vessels pursuing squid for live bait purposes only.

(j) Citations for violations of this Section may be issued to the vessel operator, crewmembers, and/or the holder of a market squid permit issued pursuant to Section 149.1 or 149.3, Title 14, CCR.

(k) Exemption from Tidal Invertebrate Permit. A commercial market squid vessel or light boat operating under the provisions of a commercial market squid permit is not required to possess a Tidal Invertebrate Permit, but is subject to the provisions of Section 123.

NOTE: Authority cited: Sections 7078, 7701, 7708, 7923, 8026, 8425 and 8429.5, Fish and Game Code. Reference: Sections 7701, 7708, 7923, 8026, 8425, 8429.5, 8429.7, 12159 and 12160, Fish and Game Code.

HISTORY

1. New section filed 9–2–83 as an emergency; effective upon filing (Register 83, No. 38).
2. Order of Repeal filed 9–12–83 by OAL pursuant to Government Code Section 11349.6 (Register 83, No. 38).
3. New section filed 1–11–84; effective thirtieth day thereafter (Register 84, No. 2).
4. Amendment of subsection (a) and new subsection (b) filed 4–24–90; operative 4–24–90 pursuant to Government Code section 11346.2(d) (Register 90, No. 19).
5. Repealer and new section and amendment of NOTE filed 6–4–98; operative 7–4–98 (Register 98, No. 23).
6. Repealer and new section filed 2–23–2000; operative 2–23–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 8).
7. New subsections (c) and (d) filed 5–31–2000; operative 5–31–2000 pursuant to Fish and Game Code section 215 (Register 2000, No. 22).
8. New subsections (e)–(e)(2) and amendment of NOTE filed 5–20–2002; operative 6–19–2002 (Register 2002, No. 21).
9. New subsections (f)–(j) [reserved] and new subsection (k) filed 3–8–2005; operative 4–7–2005 (Register 2005, No. 10).
10. Amendment of section and NOTE filed 3–28–2005; operative 3–28–2005 pursuant to Government Code section 11343.4 (Register 2005, No. 13).
11. Amendment of subsection (b) filed 2–13–2007; operative 2–13–2007 pursuant to Government Code section 11343.4 (Register 2007, No. 7).

§ 149.1. Market Squid Fishery Restricted Access Program.

(a) Permit Required. On and after April 1, 2005, no person shall take, land, or attract squid by light for commercial purposes, except as provided in subsection 149(g), unless the owner of that vessel has a valid market squid permit for use on that vessel that has not been suspended or revoked.

(b) Classification of Permits and Permit Authorization.

(1) A Market Squid Vessel Permit authorizes the use of round haul gear, including purse seine, drum seine and lampara nets for commercial harvest. Use of brail gear, including dip and scoop nets, is also authorized. Lights may also be used as specified in regulation to aggregate squid for purposes of commercial harvest. No other gear is authorized under this permit to take or assist in the taking of market squid for commercial purposes. Market Squid Vessel Permits are designated as either transferable or non–transferable as described in subsection (o) below.

(2) A Market Squid Brail Permit authorizes the use of brail gear including dip and scoop nets to take market squid for commercial purposes. Lights may also be used as specified in regulation to aggregate squid for purposes of commercial harvest. No other gear is authorized under this permit to take or assist in the taking of market squid for commercial purposes. Market Squid Brail Permits are designated as either transferable or non–transferable as described in subsection (o) below.

(3) A Market Squid Light Boat Permit authorizes only the use of lights as specified in regulation to aggregate squid for purposes of commercial harvest. No other gear is authorized under this permit to take or assist in the taking of market squid for commercial purposes. Market Squid Light Boat Permits are designated as either transferable or non–transferable as described in subsection (o) below.

(4) Only one market squid permit, regardless of the class of permit as described in subsections (b)(1), (2), and (3) above, may be issued per owner per vessel.

(c) Initial Issuance Criteria. Any person who is the registered owner of the vessel must provide current proof of vessel ownership at the time of application. Permits as described in subsection (b) shall be issued only to the following persons, partnerships or corporations based on qualifying criteria described in this subsection. Transferable permits shall be issued to owners where the vessel meets the specified initial issuance criteria for the class of permit. Non–transferable permits shall be issued only to individuals that meet the specified initial issuance criteria for the class of permit. During initial permit issuance, a permit must be placed only on a vessel that was licensed with a valid Market Squid Vessel Permit or a Market Squid Light Boat Owner's Permit in the 2004–05 permit year,

and which must also be the vessel upon which the qualifying catches were made.

(1) Market Squid Vessel Permit — Transferable.

(A) A Transferable Market Squid Vessel Permit may be issued to an individual, partnership or corporation that is the owner of a commercial fishing vessel with a Market Squid Vessel Permit for the 2004–05 permit year that has been registered with the department pursuant to Fish and Game Code Section 7881 at the time of application, and

(B) the Market Squid Vessel Permit has not been suspended or revoked, and

(C) the vessel must have made at least 50 landings of market squid from January 1, 2000 through March 31, 2003 as documented by fish landing receipts submitted to the department in the vessel's name and identification number pursuant to Fish and Game Code Section 8046.

(D) Upon issuance of a transferable Market Squid Vessel Permit, additional squid fishery catch history associated with the vessel may not be used by any individual, partnership or corporation toward qualification for additional permits of any class.

(2) Market Squid Vessel Permit — Non–Transferable.

(A) A Non–Transferable Market Squid Vessel Permit may be issued to an individual that is the owner of a commercial fishing vessel with a Market Squid Vessel Permit for the 2004–05 permit year that has been registered with the department pursuant to Fish and Game Code Section 7881 at the time of application, and

(B) the Market Squid Vessel Permit has not been suspended or revoked, and

(C) pursuant to Fish and Game Code Section 8101, the individual must have been licensed as a California commercial fisherman for at least 20 years at the time of application, and

(D) the individual has made at least 33 landings of market squid from the vessel licensed with a Market Squid Vessel Permit for the 2004–05 permit year as documented by fish landing receipts submitted to the department in the person's name and commercial fishing license identification number pursuant to Fish and Game Code Section 8046, prior to August 27, 2004. Only receipts that demonstrate catch aboard a vessel with a Market Squid Vessel Permit for the 2004–05 permit year that does not already qualify for issuance of a transferable Market Squid Vessel Permit under subsection (c)(1) of this section or a transferable Market Squid Brail Permit under subsection (c)(3) of this section or a transferable Market Squid Light Boat Permit under subsection (c)(5) of this section are valid for consideration.

(E) The department shall separately identify Non–Transferable Market Squid Vessel Permits issued under this section and those permits shall become null and void upon the death of the permit holder.

(3) Market Squid Brail Permit — Transferable.

(A) A Transferable Market Squid Brail Permit may be issued to an individual, partnership, or corporation that is the owner of a commercial fishing vessel that has been registered with the department pursuant to Fish and Game Code Section 7881 at the time of application, and

(B) have been issued a Market Squid Vessel Permit for the 2004–05 permit year for that vessel that has not been suspended or revoked, and

(C) the vessel must have made at least 10 landings of market squid with brail gear from January 1, 2000 through March 31, 2003 as documented by fish landing receipts submitted to the department in the vessel's name and identification number pursuant to Fish and Game Code Section 8046.

(D) Upon issuance of a transferable Market Squid Brail Permit, additional squid fishery catch history associated with the vessel may not be used by any individual, partnership or corporation toward qualification for additional permits of any class.

(4) Market Squid Brail Permit — Non–Transferable.

(A) A Non–Transferable Market Squid Brail Permit may be issued to an individual that is the owner of a commercial fishing vessel with a Market Squid Vessel Permit for the 2004–05 permit year that has been registered with the department pursuant to Fish and Game Code Section 7881 at the time of application, and

(B) the Market Squid Vessel Permit has not been suspended or revoked, and

(C) pursuant to Fish and Game Code Section 8101, the individual must have been licensed as a California commercial fisherman for at least 20 years at the time of application, and

(D) the individual has made at least 10 landings of market squid with brail gear from the vessel with a Market Squid Vessel Permit for the 2004–05 permit year as documented by fish landing receipts submitted to the department in the person's name and commercial fishing license identification number pursuant to Fish and Game Code Section 8046, during any one permit year (April 1 through March 31 of the following year) from January 1, 2000 through March 31, 2003. Only receipts that demonstrate catch from a vessel with a Market Squid Vessel Permit for the 2004–05 permit year that does not already qualify for issuance of a transferable Market Squid Vessel Permit under subsection (c)(1) of this section or a transferable Market Squid Brail Permit under subsection (c)(3) of this section or a transferable Market Squid Light Boat Permit under subsection (c)(5) of this section are valid for consideration.

(E) The department shall separately identify Non–Transferable Market Squid Brail Permits issued under this section and those permits shall become null and void upon the death of the permit holder.

(5) Market Squid Light Boat Permit — Transferable.

(A) A Transferable Market Squid Light Boat Permit may be issued to an individual, partnership or corporation that is the owner of a commercial fishing vessel that has been registered with the department pursuant to Fish and Game Code Section 7881 at the time of application, and

(B) the individual, partnership or corporation must have been issued a Market Squid Vessel Permit or a Squid Light Boat Owner's Permit for the 2004–05 permit year for use on that vessel that has not been suspended or revoked, and

(C) the individual, partnership or corporation must have submitted to the department, pursuant to subsection 149(b) and Section 190, Title 14, CCR, at least one market squid light boat logbook form (DFG 149b) with fishing activity dated on or prior to December 31, 2000 for that vessel.

(D) Upon issuance of a transferable Market Squid Light Boat Permit, additional squid fishery light boat activity associated with the vessel may not be used by any individual, partnership or corporation toward qualification for additional permits of any class.

(6) Market Squid Light Boat Permit — Non–Transferable.

(A) A Non–Transferable Market Squid Light Boat Permit may be issued to an individual that is the owner of a commercial fishing vessel that has been registered with the department pursuant to Fish and Game Code Section 7881 at the time of application, and

(B) the individual must have been issued a Market Squid Vessel Permit or a Squid Light Boat Owners Permit for the 2004–05 permit year for use on that vessel that has not been suspended or revoked, and

(C) pursuant to Fish and Game Code Section 8101, the individual must have been licensed as a California commercial fisherman for at least 20 years at the time of application, and

(D) the individual must have submitted to the department, pursuant to subsection 149(b) and Section 190, Title 14, CCR, at least one market squid light boat logbook form (DFG 149b) with fishing activity dated from January 1, 2001 through August 27, 2004 for that vessel. Only logbook forms from a vessel with a Market Squid Vessel Permit or a Squid Light Boat Owners Permit for the 2004–05 permit year that has not already qualified for issuance of a transferable Market Squid Vessel Permit under subsection (c)(1) of this section or a transferable Market Squid Brail Permit under subsection (c)(3) of this section or a transferable Market Squid Light Boat Permit under subsection (c)(5) of this section are valid for consideration.

(E) The department shall separately identify Non–Transferable Market Squid Light Boat Permits issued under this section and those permits shall become null and void upon the death of the permit holder.

(7) Non–Transferable Market Squid Vessel Permits, Non–Transferable Market Squid Brail Permits, and Non–Transferable Market Squid

Light Boat Permits may only be issued to individuals, and shall not be issued to partnerships or corporations, although the permit may be placed on a vessel which is owned by a partnership or corporation.

(d) Application Deadlines for Initial Permit Issuance.

(1) All applications [FG 1315 (8/04), incorporated by reference herein] and permit fees for initial issuance of Market Squid Vessel Permits, Market Squid Brail Permits, and Transferable Market Squid Light Boat Permits must be received by the department, or, if mailed, postmarked on or before June 30, 2005. Applications and permit fees for initial issuance of Market Squid Vessel Permits, Market Squid Brail Permits, and Transferable Market Squid Light Boat Permits received by the department, or, if mailed, postmarked from July 1 through July 31, 2005 will be assessed a $250 late fee, notwithstanding Fish and Game Code Section 7852.2. Applications and permit fees for initial issuance of Market Squid Vessel Permits, Market Squid Brail Permits, and Transferable Market Squid Light Boat Permits received by the department or postmarked after July 31, 2005 will be denied by the department and returned to the applicant.

(2) All applications [FG 1319 (New 12/06), incorporated by reference herein] and permit fees for initial issuance of Non–Transferable Market Squid Light Boat Permits must be received by the department at the address specified on the application, or, if mailed, postmarked on or before June 30, 2007. Applications and permit fees for initial issuance of Non–Transferable Market Squid Light Boat Permits received by the department, or, if mailed, postmarked from July 1 through July 31, 2007 will be assessed a $250 late fee, notwithstanding Fish and Game Code Section 7852.2. Applications and permit fees for initial issuance of Non–Transferable Market Squid Light Boat Permits received by the department or postmarked after July 31, 2007 will be denied by the department and returned to the applicant.

(e) Initial Issuance Appeals. Any applicant who is denied initial issuance of a Market Squid Vessel Permit, Market Squid Brail Permit, or a Market Squid Light Boat Permit by the department pursuant to subsection (c) may appeal that denial to the commission in writing, describing the basis for the appeal. The appeal shall be received by the commission or, if mailed, postmarked within 60 days of the department's denial.

(f) Annual Permit Renewal.

(1) On and after April 1, 2006, Market Squid Vessel Permits, Market Squid Brail Permits and Transferable Market Squid Light Boat Permits will be issued annually by the department only to those persons who have held the same class of permit in the immediately preceding permit year.

(2) On and after April 1, 2008, Non–Transferable Market Squid Light Boat Permits will be issued annually by the department only to those persons who held such permits in the immediately preceding permit year.

(3) Upon the death of the individual to whom a Non–Transferable Market Squid Vessel Permit, Non–Transferable Market Squid Brail Permit, or Non–Transferable Market Squid Light Boat Permit is issued, the permit shall be considered null and void and permit renewal criteria specified in this subsection shall not apply.

(g) Application Deadlines for Annual Permit Renewal. All applications [FG 1315 (Rev. 11/05), incorporated by reference herein] and permit fees for renewal of Market Squid Vessel Permits, Market Squid Brail Permits, and Market Squid Light Boat Permits must be received by the department at the address specified on the application, or, if mailed, postmarked on or before April 30 of each permit year. Late fees, late fee deadlines, and late renewal appeal provisions are specified in Fish and Game Code Section 7852.2.

(h) Renewal Appeals. Late renewal appeal provisions are specified in Fish and Game Code Section 7852.2.

(i) Permit, Transfer and Upgrade Fees.

(1) The department shall charge an annual fee for a permit of each permit class as follows:

(A) Market Squid Vessel Permit — Transferable — $2,101.25.

(B) Market Squid Vessel Permit — Non–Transferable — $1,050.50.

(C) Market Squid Brail Permit — Transferable — $2,101.25.

(D) Market Squid Brail Permit — Non–Transferable — $1,050.50.

(E) Market Squid Light Boat Permit — Transferable — $630.25.

(F) Market Squid Light Boat Permit — Non–Transferable — see Section 699, Title 14, CCR, for the permit fee.

(2) The department shall charge a non–refundable fee of five hundred dollars ($500) for each permit transfer. If more than one permit is involved in the transfer based on provisions defined in subsection (o), a total of five hundred dollars ($500) dollars shall be charged for the transaction.

(3) The department shall charge a non–refundable fee of one thousand five hundred dollars ($1,500) for each Market Squid Brail Permit Upgrade based on provisions defined in subsection (q).

(j) Permit Revocation, Suspension or Cancellation.

(1) Pursuant to Fish and Game Code Section 1052(b), a Market Squid Vessel Permit, Market Squid Brail Permit, or a Market Squid Light Boat Permit shall be revoked if false information is provided by the permittee to obtain or maintain the permit.

(2) A Market Squid Vessel Permit, Market Squid Brail Permit, or a Market Squid Light Boat Permit may be suspended, revoked, or cancelled by the commission upon conviction of a violation of regulations contained in Section 149, Title 14, CCR, or violation of the terms and conditions of the permit.

(k) Dissolution of Partnership or Corporation. If a transferable Market Squid Vessel Permit, Market Squid Brail Permit, or Market Squid Light Boat Permit is issued for a vessel that is owned by a bona fide partnership or corporation which becomes dissolved, the partnership or corporation shall notify the department of the name of the partner or shareholder who is the successor permitholder and the department shall reissue the permit to that partner or shareholder. Change of vessel ownership provisions defined in subsection (*l*) and transfer fees in subsection (i)(2) apply.

(*l*) Change of Vessel Ownership.

(1) If a transferable Market Squid Vessel Permit, Market Squid Brail Permit, or Market Squid Light Boat Permit is issued for a vessel that is owned by an individual or by a bona fide partnership or corporation, and the individual, bona fide partnership, or corporation transfers the title of ownership of the vessel to another entity, the original entity to which the permit is issued must notify the department of the change in ownership, and submit a non–refundable transfer fee of five hundred dollars ($500).

(2) Upon payment of fees, and surrender to the department of the original permit or permits, the department shall issue the applicable permit to the new owner of the vessel that is valid for the remainder of the fishing season. Gross tonnage endorsement provisions defined in subsection (n) below shall apply.

(3) Non–Transferable Market Squid Vessel Permits, Non–Transferable Market Squid Brail Permits and Non–Transferable Market Squid Light Boat Permits which are issued to individuals shall not be transferred to a new owner. Sale or transfer of ownership of a vessel that is authorized to fish under a non–transferable market squid permit shall render the permit null and void.

(m) Capacity Goals.

(1) The capacity goal for transferable and non–transferable Market Squid Vessel Permits is 55.

(2) The capacity goal for transferable and non–transferable Market Squid Brail Permits is 18.

(3) The capacity goal for transferable and non–transferable Market Squid Light Boat Permits is 34.

(4) Should the number of Market Squid Vessel Permits, Market Squid Brail Permits, or Market Squid Light Boat Permits issued by the department fall below the capacity goal for that permit class, the commission may prescribe criteria for issuance of additional permits of that class, which may include but is not limited to previous issuance of market squid vessel, brail or light boat permits, market squid catch or market squid logbook histories.

(n) Gross Tonnage Endorsement. Each Market Squid Vessel Permit or Market Squid Brail Permit shall be endorsed with the gross tonnage at the time of initial issuance. Any vessel owner transferring a Market Squid Vessel Permit or Market Squid Brail Permit shall also provide gross tonnage information for the replacement vessel as described below.

(1) The gross tonnage shall be determined as follows:

(A) If the owner of the vessel holds a Federal Coastal Pelagic Species Permit issued by the National Marine Fisheries Service for that vessel, the owner of the vessel shall submit a copy of the vessel owner's current valid Federal Coastal Pelagic Species Permit with the vessel's endorsed gross tonnage.

(B) If the owner of the vessel does not hold a Federal Coastal Pelagic Species Permit for the vessel, the gross tonnage will be determined by multiplying the length (L), breadth (B), and depth (D) of the vessel by 0.0067. Records of length, breadth, and depth used for determining gross tonnage will be those recorded on the vessel's United States Coast Guard documentation paper.

(2) The gross tonnage endorsement will remain in effect for the lifetime of each permit, regardless of the gross tonnage of a vessel to which it was transferred.

(3) In cases where a permit is transferred to a vessel with a smaller gross tonnage, the original gross tonnage endorsement will remain, and excess gross tonnage cannot be split out from the original permit endorsement for any purpose.

(4) In cases where two or more permits are transferred to a replacement vessel pursuant to guidelines in subsection (o), the replacement vessel shall be issued a transferable permit which reflects a gross tonnage endorsement which is recorded as either the sum of the gross tonnage endorsements from the original vessels, or the gross tonnage of the replacement vessel, whichever of the two values is less.

(o) Transfer of Permits to Replacement Vessels.

(1) Conditions for permit transferability as defined in this subsection shall provide the mechanism for achieving the capacity goals defined in subsection (m) of this Section over time.

(2) Definitions of Comparable Capacity.

(A) For purposes of permit transferability described in this subsection, two vessels are of comparable capacity if the gross tonnage, as defined in subsection (n) of this Section, of the replacement vessel is not in excess of ten percent greater than the gross tonnage of the originally permitted vessel [the replacement vessel's gross tonnage must be less than (the gross tonnage of the original vessel) plus (0.1 multiplied by the gross tonnage of the original vessel)].

(B) A replacement vessel shall be considered of comparable capacity in cases of permit transfers where the gross tonnage of the original vessel exceeds the gross tonnage of the replacement vessel by any amount. Gross tonnage endorsement provisions for the replacement vessel defined in subsection (n) shall apply.

(3) After August 31, 2005 the following conditions for transferability of permits to replacement vessels will be in effect for permits in each class as described:

(A) The owner of a vessel with a valid Transferable Market Squid Vessel Permit may transfer the permit to another person who is the owner of a replacement commercial fishing vessel of comparable capacity as defined in this subsection.

(B) If transfer is sought of a Transferable Market Squid Vessel Permit for a replacement commercial fishing vessel which is not of comparable capacity as defined in this subsection, one additional valid Transferable Market Squid Vessel Permit shall be transferred and surrendered to the department at the time of the transfer. Market Squid Vessel Permit transfers are not authorized in cases where the gross tonnage of the replacement vessel is not of comparable capacity to the sum of the gross tonnages of the two original vessels as defined above.

(C) A Transferable Market Squid Brail Permit issued to an individual, partnership or corporation may be transferred to another entity who is the owner of a replacement commercial fishing vessel of comparable capacity as defined in this subsection.

(D) A Transferable Market Squid Light Boat Permit issued to an individual, partnership or corporation may be transferred to another entity who is the owner of a replacement commercial fishing vessel.

(E) In the event of death of the holder of a Transferable Market Squid Vessel Permit, Transferable Market Squid Brail Permit, or a Transferable Market Squid Light Boat Permit, the estate must apply for transfer of the permit to another entity within one year of the permitholder's death.

(F) A Non–Transferable Market Squid Vessel Permit or a Non–Transferable Market Squid Brail Permit issued to an individual may not be transferred to another entity, but in the event the permitted vessel is lost, stolen or destroyed, or has suffered a major mechanical breakdown, the permit may be placed on a replacement vessel of comparable capacity as defined in subsection (m). A Non–Transferable Market Squid Light Boat Permit issued to an individual may not be transferred to another entity, but in the event the permitted vessel is lost, stolen or destroyed, or has suffered a major mechanical breakdown, the permit may be placed on a replacement vessel. A notarized, written request for transfer must be submitted, along with proof that the permitted vessel is lost, stolen, or destroyed in the form of a copy of the report filed with the United States Coast Guard or any other law enforcement agency or fire department investigating the loss. In the case of mechanical breakdown, the request shall include an estimate of the costs to repair the vessel from a marine surveyor or boat repair yard. The department shall not issue a permit for a replacement vessel pursuant to this subsection if the permitted vessel was reported lost, stolen, destroyed, or damaged for fraudulent purposes.

(4) The applicant for transfer must be the owner of a replacement commercial fishing vessel that has been registered with the department pursuant to Fish and Game Code Section 7881 at the time of application.

(5) A written request for transfer of a market squid permit of any class shall be submitted to the department by the owner of the replacement vessel in the form of a notarized letter, accompanied by the nonrefundable transfer fee and shall include a copy of the permit or permits which are being considered for transfer, current proof of vessel ownership, and gross tonnage information as described in subsection (n), if applicable.

(6) Any market squid permit holder intending to transfer a permit shall submit a notarized letter to the department setting forth the conditions of the sale, and shall specify that the terms of the transfer as documented by the replacement vessel owner are valid and true.

(7) Upon determining that the applicant is qualified to transfer the permit to a replacement vessel, payment of all fees, and surrender to the department of the original permit or permits, the department shall issue the applicable permit to the owner of the replacement vessel that is valid for the remainder of the fishing season. Gross tonnage endorsement provisions defined in subsection (n) above shall apply.

(8) At the time the permit transfer is complete, vessels previously authorized to fish under conditions of a surrendered permit shall not take or attract squid for commercial purposes unless otherwise authorized in regulation or statute.

(p) Transfer Appeals. Any applicant who is denied transfer of a Market Squid Vessel Permit, Market Squid Brail Permit, or a Market Squid Light Boat Permit may appeal the denial to the department in writing describing the basis for the appeal. The appeal shall be received or, if mailed, postmarked within 60 days of the date of the department's denial. The appeal shall be reviewed and decided by the department. The decision of the department may be appealed in writing to the commission within 60 days of the date of the department's written decision.

(q) Market Squid Brail Permit Upgrade. Purchase of a Transferable Market Squid Brail Permit by a permittee who holds a Transferable Market Squid Light Boat Permit may occur with surrender of a Transferable Market Squid Light Boat Permit. Non–Transferable Light Boat Permits are not eligible for upgrade.

(1) An application for upgrade to a Market Squid Brail Permit shall be submitted to the department by a Transferable Market Squid Light Boat permittee in the form of a notarized letter, and shall include a copy of the permit which is being sought for surrender, current proof of vessel ownership, and gross tonnage information as described in subsection (n).

(2) Upon determining that the applicant is qualified to upgrade the permit, payment of all permit and upgrade fees, and surrender to the department of the original permit, the department shall issue the replacement permit that is valid for the remainder of the fishing season. Gross tonnage endorsement provisions defined in subsection (n) above shall apply.

(r) Market Squid Brail Permit Upgrade Appeals. Any applicant who is denied upgrade of a Transferable Market Squid Light Boat Permit to a Transferable Market Squid Brail Permit may appeal the denial to the department in writing describing the basis for the appeal. The appeal shall be received or, if mailed, postmarked within 60 days of the date of the department's denial. The appeal shall be reviewed and decided by the department. The decision of the department may be appealed in writing to the commission within 60 days of the date of the department's written decision.

NOTE: Authority cited: Sections 713, 1050, 7071, 7078, 7923, 8026, 8425, 8428 and 8429.5, Fish and Game Code. Reference: Sections 1050, 7050, 7071, 7701, 7708, 7852.2, 7923, 8026, 8101, 8425, 8428, 8429.5 and 8429.7, Fish and Game Code.

HISTORY

1. New section filed 3–28–2005; operative 3–28–2005 pursuant to Government Code section 11343.4 (Register 2005, No. 13).
2. New subsections (i)(3) and (q)–(r) filed 4–22–2005; operative 4–22–2005 pursuant to Government Code section 11343.4 (Register 2005, No. 16).
3. Change without regulatory effect amending subsections (g) and (i)(1)(A)–(E) and amending NOTE filed 12–19–2006 pursuant to section 100, title 1, California Code of Regulations (Register 2006, No. 51).
4. Amendment filed 2–13–2007; operative 2–13–2007 pursuant to Government Code section 11343.4 (Register 2007, No. 7).
5. Amendment of subsections (g) and (h) and NOTE filed 7–8–2008; operative 7–8–2008 pursuant to Government Code section 11343.4 (Register 2008, No. 28).

§ 149.3. Experimental Market Squid Vessel Permits.

(a) The commission may issue 3 Non–Transferable Market Squid Vessel Permits as described in Section 149.1 to any individual for placement on any vessel for purposes of developing a squid fishery in areas previously not utilized for squid production.

(b) Excepting initial issuance provisions defined in subsection 149.1(c), terms and conditions of Section 149.1 apply in entirety to permits issued pursuant to this Section.

(c) Individuals issued permits pursuant to this Section are subject to all commercial squid fishing regulations defined in Section 149, Title 14, CCR.

(d) Market Squid Vessel Permits issued pursuant to this Section may be suspended, revoked, or cancelled by the commission upon conviction of a violation of regulations contained in Section 149, Title 14, CCR, or violation of the terms and conditions of the permit.

NOTE: Authority cited: Sections 7071, 7078 and 8425, Fish and Game Code. Reference: Sections 7070, 7071, 7075, 7078 and 7083, Fish and Game Code.

HISTORY

1. New section filed 3–28–2005; operative 3–28–2005 pursuant to Government Code section 11343.4 (Register 2005, No. 13).

§ 150. Nearshore Fishery Restricted Access Program.

(a) Nearshore Fishery Permits issued pursuant to Fish and Game Code Section 8587, are valid only in the regional management area specified in the permit.

(b) The department shall issue a Nearshore Fishery Permit for a regional management area described in Section 52.04, Title 14, CCR to each nearshore fishery permittee who meets the regional qualifying criteria below. A person will receive only one Nearshore Fishery Permit for use in only one regional management area. A person meeting the qualifications for more than one regional management area must make a permanent, irrevocable decision prior to obtaining a Nearshore Fishery Permit for the 2003–2004 permit year to fish in one regional management area. The permit shall not be changed to another regional management area under any circumstances.

(c) Nearshore Fish Stocks Used for Landings Qualification. The following names or market categories and their associated codes as recorded on department fish landing receipts pursuant to Fish and Game Code Section 8043 will be used to determine eligibility: black–and–yellow rockfish (251), cabezon (261), California scorpionfish (260), California sheephead (145), China rockfish (258), gopher rockfish (263), grass rockfish (652), greenlings of the genus *Hexagrammos* (290), kelp rockfish (659), group nearshore rockfish (973) and group gopher rockfish (962).

(d) Initial Permit Issuance.

(1) North Coast Region. The person has a valid 2002–2003 Nearshore Fishery Permit that has not been suspended or revoked, and has landed nearshore fish stocks as described in Section 150.01, Title 14, CCR, from January 1, 1994 to December 31, 1999, as documented by department fish landing receipts submitted in his name and commercial fishing license identification number pursuant to Fish and Game Code Section 8046, and satisfies the landings and participation requirements below:

(A) has made at least one landing of nearshore fish stocks as described in Section 150.01, Title 14, CCR, between January 1, 1994 and December 31, 1999, and

(B) has made at least one landing of nearshore fish stocks as described in Section 150.01, Title 14, CCR, in either the 2000 or 2001 calendar year.

(C) landings of nearshore fish stocks used to qualify must have been made at ports located within the North Coast Region as defined in Section 52.04, Title 14, CCR.

(D) Nearshore Fishery Permits issued pursuant to subsection (d)(1) are designated North Coast Region Nearshore Fishery Permits, are transferable, and authorize the holder to take, possess aboard a vessel, or land nearshore fish stocks as described in Section 150.01, Title 14, CCR, in the North Coast Region only.

(2) North–Central Coast Region. The person has landed nearshore fish stocks as described in Section 150.01, Title 14, CCR, from January 1, 1994 to December 31, 1999, as documented by department fish landing receipts submitted in his name and commercial fishing license identification number pursuant to Fish and Game Code Section 8046, and has a valid 2002–2003 Nearshore Fishery Permit that has not been suspended or revoked, and satisfies the landing and participation requirements below:

(A) has landed at least 500 pounds of nearshore fish stocks as described in Section 150.01, Title 14, CCR, in each of 3 calendar years during the period 1994 to 1999, inclusive.

(B) has made at least one landing of nearshore fish stocks as described in Section 150.01, Title 14, CCR, in either the 2000 or 2001 calendar year.

(C) landings of nearshore fish stocks used to qualify must have been made at ports located within the North–Central Coast Region as defined in Section 52.04,Title 14, CCR.

(D) Nearshore Fishery Permits issued pursuant to subsection (d)(2) are designated North–Central Coast Region Nearshore Fishery Permits, are transferable, and authorize the holder to take, possess aboard a vessel, or land nearshore fish stocks as described in Section 150.01, Title 14, CCR, in the North–Central Coast Region only.

(3) South–Central Coast Region. The person has landed nearshore fish stocks as described in Section 150.01, Title 14, CCR, from January 1, 1994 to December 31, 1999, as documented by department fish landing receipts submitted in his name and commercial fishing license identification number pursuant to Fish and Game Code Section 8046, and has a valid 2002–03 Nearshore Fishery Permit that has not been suspended or revoked, and satisfies the landing and participation requirements below:

(A) has landed at least 500 pounds of nearshore fish stocks as described in Section 150.01, Title 14, CCR, in each of 3 calendar years during the period 1994 to 1999, inclusive, and which sold for a minimum average ex–vessel price per pound of $2.00 for landings of nearshore fish stocks landed during the most current three calendar years with landings of nearshore fish stocks during the period 1994 to 1999, inclusive.

(B) has made at least one landing of nearshore fish stocks as described in Section 150.01, Title 14, CCR, in either the 2000 or 2001 calendar year.

(C) landings of nearshore fish stocks used to qualify must have been made at ports located within the South–Central Coast Region.

(D) Nearshore Fishery Permits issued pursuant to subsection (d)(3) are designated South–Central Coast Region Nearshore Fishery Permits, are transferable, and authorize the holder to take, possess aboard a vessel, or

land nearshore fish stocks as described in Section 150.01, Title 14, CCR, in the South–Central Coast Region only.

(4) South Coast Region. The person has landed nearshore fish stocks as described in Section 150.01, Title 14, CCR, from January 1, 1994 to December 31, 1999, as documented by department fish landing receipts submitted in his name and commercial fishing license identification number pursuant to Fish and Game Code Section 8046, and has a valid 2002–2003 Nearshore Fishery Permit that has not been suspended or revoked, and satisfies the landing and participation requirements below:

(A) has landed at least 500 pounds of nearshore fish stocks as described in Section 150.01, Title 14, CCR, in each of 3 calendar years during the period 1994 to 1999, inclusive, and which sold for a minimum average ex–vessel price per pound of $2.00 for landings of nearshore fish stocks landed during the most current three calendar years with landings of nearshore fish stocks during the period 1994 to 1999, inclusive.

(B) has made at least one landing of nearshore fish stocks as described in Section 150.01, Title 14, CCR, in either the 2000 or 2001 calendar year.

(C) landings of nearshore fish stocks used to qualify must have been made at ports located within the South Coast Region as defined in Section 52.04, Title 14, CCR.

(D) Nearshore Fishery Permits issued pursuant to subsection (d)(4) are designated South Coast Region Nearshore Fishery Permits, are transferable, and authorize the holder to take, possess aboard a vessel, or land nearshore fish stocks as described in Section 150.01, Title 14, CCR, in the South Coast Region only.

(e) Initial Qualification for 20–year California Commercial Fishermen. During the initial year of the nearshore restricted access program, any person who has been licensed as a California commercial fisherman for at least 20 years at the time of application, and who does not qualify for a permit in (d)(1), (2), (3), or (4) above, and who has participated in the commercial nearshore fishery for at least one of those years as documented by department fish landing receipts submitted in his name and commercial fishing license identification number pursuant to Fish and Game Code Section 8046, upon application shall be issued a Non–Transferable Nearshore Fishery Permit for one regional management area, based on the following minimum landing requirements in subsection (e)(1), (2), (3), or (4) below:

(1) landed at least 200 pounds of nearshore fish stocks as described in Section 150.01, Title 14, CCR, in any one calendar year between January 1, 1994 and December 31, 1999.

(A) landings used to qualify must have been made at ports located within the North Coast Region as defined in Section 52.04, Title 14, CCR.

(B) Nearshore Fishery Permits issued pursuant to subsection (e)(1) are designated Non–Transferable North Coast Nearshore Fishery Permits and authorize the holder to take, possess aboard a vessel, or land nearshore fish stocks as described in Section 150.01, Title 14, CCR, in the North Coast Region only.

(2) landed at least 650 pounds of nearshore fish stocks as described in Section 150.01, Title 14, CCR, in any one calendar year between January 1, 1994 and December 31, 1999.

(A) landings used to qualify must have been made at ports located within the North–Central Coast Region as defined in Section 52.04, Title 14, CCR.

(B) Nearshore Fishery Permits issued pursuant to subsection (e)(2) are designated Non–Transferable North–Central Coast Nearshore Fishery Permits and authorize the holder to take, possess aboard a vessel, or land nearshore fish stocks as described in Section 150.01, Title 14, CCR, in the North–Central Coast Region only.

(3) landed at least 1,050 pounds of nearshore fish stocks as described in Section 150.01, Title 14, CCR, in any one calendar year between January 1, 1994 and December 31, 1999.

(A) landings used to qualify must have been made at ports located within the South–Central Coast Region as defined in Section 52.04, Title 14, CCR.

(B) Nearshore Fishery Permits issued pursuant to subsection (e)(3) are designated Non–Transferable South–Central Coast Nearshore Fishery Permits and authorize the holder to take, possess aboard a vessel, or land nearshore fish stocks as described in Section 150.01, Title 14, CCR, in the South–Central Coast Region only.

(4) landed at least 800 pounds of nearshore fish stocks as described in Section 150.01, Title 14, CCR, in any one calendar year between January 1, 1994 and December 31, 1999.

(A) landings used to qualify must have been made at ports located within the South Coast Region as defined in Section 52.04, Title 14, CCR.

(B) Nearshore Fishery Permits issued pursuant to subsection (e)(4) are designated Non–Transferable South Coast Nearshore Fishery Permits and authorize the holder to take, possess aboard a vessel, or land nearshore fish stocks as described in Section 150.01, Title 14, CCR, in the South Coast Region only.

(5) A non–transferable Nearshore Fishery Permit shall become null and void upon the death of the permit holder.

(f) Capacity Goal. The capacity goal for each nearshore regional management area is as follows: 14 North Coast Region Nearshore Fishery Permits, 9 North–Central Coast Region Nearshore Fishery Permits, 20 South–Central Coast Region Nearshore Fishery Permits, and 18 South Coast Region Nearshore Fishery Permits. The capacity goal for Non–Transferable Nearshore Fishery Permits is zero.

(g) Permit Transfers.

(1) If the combined total of transferable and non–transferable Nearshore Fishery permits in a regional management area is greater than the capacity goal for that regional management area on or after April 1, 2003, the following provisions for permit transfers are in effect:

(A) A Nearshore Fishery Permit issued pursuant to this section may be voluntarily transferred by the permittee, if the transferee (person to whom the permit is to be issued) has never been convicted of a violation of any provision of these regulations or of the Fish and Game Code pertaining to the commercial take of nearshore fish stocks as described in Section 150.01, Title 14, CCR. Until the number of permits in a regional management area equals or falls below the capacity goal for that regional management area, a permit may only be transferred if one additional transferable permit for the same regional management area is surrendered to the department for cancellation at the same time the application for the transfer is submitted to the department.

(B) A Nearshore Fishery Permit may be transferred pursuant to this section to a person only if that person holds a commercial fishing license issued pursuant to Fish and Game Code Section 7850 and submits to the department a notarized letter from each of the permittees described in subdivision (A), that each include a statement identifying the person to whom the Nearshore Fishery Permit is to be transferred and setting forth the conditions of the transfer.

(C) Application for transfer of a Nearshore Fishery Permit, in the form of a notarized letter, shall be submitted to the department by the transferee.

(D) Upon determining that the transferee of the Nearshore Fishery Permit is qualified to receive a Nearshore Fishery Permit and upon payment of all permit and transfer fees, the department shall issue a Nearshore Fishery Permit for that regional management area to the transferee that is valid for the remainder of the then current fishing season. At the time the permit transfer is complete the additional transferable Nearshore Fishery Permit is required to be surrendered by the transferee pursuant to subsection (g)(1)(A). If the transferee holds a Non–Transferable Nearshore Fishery Permit, that permit shall be cancelled.

(E) After the transfer of a person's Nearshore Fishery Permit, the former permit holder may not take, possess, transfer, or sell any nearshore fish stocks as described in Section 150.01, Title 14, CCR, for commercial purposes unless otherwise permitted by law.

(2) Should the combined total of transferable and non–transferable Nearshore Fishery Permits in a regional management area fall below the capacity goal, the commission may prescribe criteria for the transfer of

permits or the issuance of additional permits pursuant to the Administrative Procedure Act following public notice and not less than one public hearing.

(3) A transferable Nearshore Fishery Permit issued pursuant to this section may be transferred to the estate of a permittee who has died only for the purpose of transferring the Nearshore Fishery Permit to another person.

(A) Such transfer may be considered if the estate makes application, in the form of a notarized letter, for the transfer within one year of the date of death as listed on the death certificate.

(B) The estate is responsible for any permit renewal fees under subsection (n) of this Section or Section 150.03, Title 14, CCR.

(4) The Nearshore Fishery Permit in the estate of a deceased permittee may be transferred to any person who meets all of the following qualifications:

(A) The person, at that time, holds a commercial fishing license issued pursuant to Fish and Game Code Section 7850.

(B) The person has never been convicted of a violation of any provision of these regulations or of the Fish and Game Code pertaining to the commercial take of nearshore fish stocks.

(C) The transfer of the permit is subject to subsection (g)(1) and (2) above.

(5) A Nearshore Fishery Permit in the estate of a deceased permittee that is transferred to an immediate family member (spouse, child, grandchild, parent, or sibling) or to a partner as described in Fish and Game Code Section 8102 is exempt from the requirements in subsection (g)(1) and (2) above.

(h) Application Deadline for Initial Issuance of Nearshore Fishery Permit. All applications (FG 1326(1/03), incorporated herein by reference) and permit fees for initial issuance of Nearshore Fishery Permits under the restricted access program must be received by the department, or, if mailed, be postmarked on or before June 30, 2003. Applications and permit fees for initial issuance of Nearshore Fishery Permits under the restricted access program received by the department, or, if mailed, postmarked from July 1 through July 31, 2003 will be assessed a $50 late fee. Applications and permit fees for the initial issuance of Nearshore Fishery Permits under the restricted access program postmarked or received after July 31, 2003 shall be returned to the applicant unissued.

(i) Nearshore Fishery Permit Renewal Requirements. Notwithstanding Fish and Game Code Section 8587, after April 1, 2004, Nearshore Fishery Permits for a regional management area will be issued annually by the department only to those persons who have held a valid Nearshore Fishery Permit for that regional management area in the immediately preceding permit year.

(j) Application Deadline for Nearshore Fishery Permit Renewal. All applications (FG 1326 (Rev. 11/05), incorporated herein by reference) and permit fees for renewal of Nearshore Fishery Permits must be received by the department, or, if mailed, postmarked on or before April 30 of each permit year. Late fees, late fee deadlines, and late renewal appeal provisions are specified in Fish and Game Code Section 7852.2.

(k) Presence of Permit Holder on Vessel. At least one Nearshore Fishery Permit holder shall be on board at all times when taking, possessing aboard a boat, or landing nearshore fish stocks as described in Section 150.01, Title 14, CCR. If a support vessel is used, a permit holder shall be on each vessel when taking nearshore fish stocks.

(*l*) Gear Authorized for Use. Only dip nets (as defined in Section 1.42, Title 14, CCR), hook-and-line gear consistent with restrictions of Section 150.17, Title 14, CCR, and gear authorized for use under a gear endorsement issued pursuant to Section 150.03, Title 14, CCR, shall be used to take, possess aboard a vessel, or land nearshore fish stocks as described in Section 150.01, Title 14, CCR.

(m) Appeals.

(1) Any applicant who is denied initial issuance of a Nearshore Fishery Permit for any reason may appeal to the department in writing describing the basis for the appeal. The appeal shall be received or, if mailed, postmarked, no later than March 31, 2004. The appeal shall be reviewed and decided by the department. The decision of the department may be appealed in writing to the commission within 60 days of the date of the department's denial.

(2) Renewal Appeals. Late renewal appeal provisions are specified in Fish and Game Code Section 7852.2.

(3) Any applicant who is denied transfer of a Nearshore Fishery Permit may appeal to the department in writing describing the basis for the appeal. The appeal shall be reviewed and decided by the department. The decision of the department may be appealed in writing to the commission within 60 days of the date of the department's denial.

(n) Fees. Notwithstanding Fish and Game Code Section 8587, the fees for a Nearshore Fishery Permit under the restricted access program shall be as follows:

(1) The department shall charge an annual fee for each transferable Nearshore Fishery Permit of $533.25.

(2) The department shall charge an annual fee for each Non-Transferable Nearshore Fishery Permit of $533.25.

(3) The department shall charge a non-refundable fee of $500 for each permit transfer. If more than one permit is required for the transfer, a total of $500 shall be charged.

(o) Revocation of Permits. Any permit may be suspended, revoked, or cancelled by the commission upon conviction of a violation of any provision of these regulations or Fish and Game Code pertaining to the commercial take of nearshore fish stocks as described in Section 150.01, Title 14, CCR, or violation of the terms or conditions of the permit by the holder thereof, his agents, servants, employees or those acting under his direction and control.

HISTORY

1. New section filed 10-13-2000; operative 10-13-2000 pursuant to Fish and Game Code section 215 (Register 2000, No. 41).
2. Amendment of subsection (a) and new subsection (b)(1) filed 3-14-2002; operative 3-14-2002 pursuant to Government Code section 11343.4 (Register 2002, No. 11).
3. Amendment of section heading, repealer and new section and amendment of NOTE filed 3-10-2003; operative 3-10-2003 pursuant to Government Code Section 11343.4 (Register 2003, No. 11).
4. Amendment filed 3-29-2004; operative 3-29-2004 pursuant to Government Code section 11343.4 (Register 2004, No. 14).
5. Amendment of subsection (*l*) filed 3-14-2005; operative 4-13-2005 (Register 2005, No. 11).
6. Change without regulatory effect amending subsections (j) and (n)(1)-(3) and amending NOTE filed 5-10-2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 19).
7. Change without regulatory effect amending subsections (j) and (n)(1)-(2) filed 12-19-2006 pursuant to section 100, title 1, California Code of Regulations (Register 2006, No. 51).
8. Amendment of subsection (j), repealer and new subsection (m)(2) and amendment of NOTE filed 7-8-2008; operative 7-8-2008 pursuant to Government Code section 11343.4 (Register 2008, No. 28).

§ 150.01. Nearshore Fishery Permit Required.

Notwithstanding Section 8587 of the Fish and Game Code, a nearshore fishing permit is required only for the commercial take of the following species of nearshore fish stocks: black-and-yellow rockfish, gopher rockfish, kelp rockfish, California scorpionfish, greenlings of the genus *Hexagrammos,* China rockfish, grass rockfish, California sheephead, and cabezon.

NOTE: Authority cited: Section 8587.1, Fish and Game Code. Reference: Section 8587, Fish and Game Code.

HISTORY

1. New section filed 3-5-2001; operative 3-5-2001 pursuant to Fish and Game Code sections 202 and 215 (Register 2001, No. 10).

§ 150.02. Control Dates for Other Nearshore Species; Permits to Commercially Take Deeper Nearshore Fish Species.

(a) Permit Required. Effective April 1, 2003, any person taking, possessing aboard a boat, or landing any species of deeper nearshore fish listed in subsection (b) below for commercial purposes shall possess a

valid deeper nearshore species fishery permit issued to that person that has not been suspended or revoked, except that when using a boat to take deeper nearshore species at least one person aboard the boat shall have a valid deeper nearshore species fishery permit.

(b) Permit Authorization. Notwithstanding Section 8587 of the Fish and Game Code, a deeper nearshore species fishery permit is required only for the commercial take of the following species of nearshore fish stocks: black rockfish, blue rockfish, brown rockfish, calico rockfish, copper rockfish, olive rockfish, quillback rockfish and treefish.

(c) Permit Revocation. Deeper nearshore species fishery permits are revocable.

(d) Fees. The fee for a deeper nearshore species fishery permit is $133.50.

(e) Initial Issuance Criteria. Notwithstanding Section 8587 of the Fish and Game Code, a deeper nearshore species fishery permit shall be issued only to persons who have made landings that cumulatively total 200 pounds of any of the eight species for which a deeper nearshore species fishery permit is required pursuant to subsection (b). Landings must have been made in an individual's name and commercial fishing license identification number and submitted on fish landing receipts to the department pursuant to Section 8043, Fish and Game Code, and must have been made from January 1, 1994 through December 31, 1999. Applications (FG 1329(2/03), incorporated herein by reference) for initial issuance must be received by the department, or, if mailed, postmarked on or before September 30, 2003. Applications received by the department or postmarked from October 1, 2003 through October 31, 2003 must be accompanied by a $50 late fee. Applications received by the department or postmarked after October 31, 2003 will be returned to the applicant unissued.

(f) Appeal. Any applicant who is denied issuance of a deeper nearshore species fishery permit may appeal the denial to the department in writing describing the basis for the appeal. The appeal shall be received by the department, or, if mailed, postmarked on or before March 31, 2004. The appeal shall be reviewed and decided by the department. The decision of the department may be appealed in writing to the commission within 60 days of the date of the department's decision.

(g) Renewal.

(1) Applicants seeking renewal of a deeper nearshore species fishery permit must have held a deeper nearshore species fishery permit in the immediately preceding permit year.

(2) Applications [FG 1329 (Rev. 11/05), incorporated herein by reference] and permit fees for renewal of a deeper nearshore species fishery permit must be received by the department, or, if mailed, postmarked on or before April 30 of each permit year. Late fees, late fee deadlines, and late renewal appeal provisions are specified in Fish and Game Code Section 7852.2.

(3) Applications for renewal must be accompanied by evidence that the qualification requirements specified in subsection (g)(1) have been met.

(h) A control date of December 31, 1999 is established for the purpose of developing a restricted access commercial nearshore fishery for those persons taking nearshore fish stocks not covered under other nearshore control dates or nearshore restricted access programs established in Section 150, Title 14, CCR. Species subject to this control date include only black rockfish, blue rockfish, brown rockfish, calico rockfish, copper rockfish, monkeyface eel, olive rockfish, quillback rockfish and treefish. Landings of these species made after this date may not apply toward qualifying for participation in a future restricted access program for this component of the nearshore fishery.

(i) This section does not apply to those nearshore species for which a Nearshore Fishery Permit is required pursuant to Section 150.01.

NOTE: Authority cited: Sections 713, 1050, 7071 and 8587.1, Fish and Game Code. Reference: Sections 1050, 7071, 7852.2, 7857, 7858, 8585.5 and 8587.1, Fish and Game Code.

HISTORY

1. New section filed 8–12–2002; operative 9–11–2002 (Register 2002, No. 33).
2. Amendment of section heading, section and NOTE filed 3–26–2003; operative 3–26–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 13).
3. Amendment of subsections (e) and (g)(2) filed 3–29–2004; operative 3–29–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 14).
4. Change without regulatory effect amending subsections (d) and (g)(2) and amending NOTE filed 5–10–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 19).
5. Change without regulatory effect amending subsections (d) and (g)(2) filed 12–19–2006 pursuant to section 100, title 1, California Code of Regulations (Register 2006, No. 51).
6. Amendment of subsection (g)(2) and NOTE filed 7–8–2008; operative 7–8–2008 pursuant to Government Code section 11343.4 (Register 2008, No. 28).

§ 150.03. Nearshore Fishery Gear Endorsement Program.

(a) The following regulations govern the qualification, issuance and appeals process of a gear endorsement program for the commercial take of nearshore fish stocks.

(b) Nearshore fish stocks are those listed in Section 150.01, Title 14, CCR.

(c) Qualifications for Gear Endorsement. A transferable gear endorsement shall be issued upon application only to a person who has a valid 2003–2004 transferable Nearshore Fishery Permit, issued pursuant to Section 150, Title 14, CCR, for a specific regional management area as defined in Section 52.04, Title 14, CCR. A non–transferable gear endorsement shall be issued upon application only to a person who has a valid 2003–2004 non–transferable Nearshore Fishery Permit, issued pursuant to Section 150, Title 14, CCR, for a specific regional management area as defined in Section 52.04, Title 14, CCR. The following qualifying criteria shall be used to determine eligibility for either a transferable or non–transferable trap endorsement:

(1) North Coast Region Trap Endorsement. A trap endorsement allows the permittee to use trap gear when taking nearshore fish stocks as described in Section 150.01, Title 14, CCR, in addition to gear authorized under Section 150(*l*), Title 14, CCR. A trap endorsement shall be attached to the North Coast Region Nearshore Fishery Permit issued to a person who has satisfied the following requirements:

(A) has a valid 2002–2003 general trap permit that has not been suspended or revoked, and

(B) has landed at least 1,000 pounds of nearshore fish stocks as described in Section 150.01, Title 14, CCR, between January 1, 1994 and October 20, 2000 that were taken with trap gear.

(C) landings of nearshore fish stocks as described in Section 150.01, Title 14, CCR, used to qualify must have been made at ports located within the North Coast Region as defined in Section 52.04, Title 14, CCR, as documented by department landing receipts submitted in his name and commercial fishing license identification number pursuant to Fish and Game Code Section 8046.

(2) North–Central Coast Region Trap Endorsement. A trap endorsement allows the permittee to use trap gear when taking nearshore fish stocks as described in Section 150.01, Title 14, CCR, in addition to gear authorized under Section 150(*l*), Title 14, CCR. A trap endorsement shall be attached to the North–Central Coast Region Nearshore Fishery Permit issued to a person who has satisfied the following requirements:

(A) has a valid 2002–2003 general trap permit that has not been suspended or revoked, and

(B) has landed at least 1,000 pounds of nearshore fish stocks as described in Section 150.01, Title 14, CCR, between January 1, 1994 and October 20, 2000 that were taken with trap gear.

(C) landings of nearshore fish stocks as described in Section 150.01, Title 14, CCR, used to qualify must have been made at ports located within the North–Central Coast Region as defined in Section 52.04, Title 14, CCR, as documented by department landing receipts submitted in his name and commercial fishing license identification number pursuant to Fish and Game Code Section 8046.

(3) South–Central Coast Region Trap Endorsement. A trap endorsement allows the permittee to use trap gear when taking nearshore fish

stocks as described in Section 150.01, Title 14, CCR, in addition to gear authorized under Section 150(*l*), Title 14, CCR. A trap endorsement shall be attached to the South–Central Coast Region Nearshore Fishery Permit issued to a person who has satisfied the requirements of either (A), or (B) and (C) below:

(A) has a valid 2002–2003 finfish trap permit that has not be suspended or revoked, or

(B) has a valid 2002–2003 general trap permit that has not been suspended or revoked, and has landed at least 500 pounds of nearshore fish stocks as described in Section 150.01, Title 14, CCR, in each of 3 calendar years during the period January 1, 1994 through October 20, 2000 that were taken with trap gear.

(C) landings of nearshore fish stocks as described in Section 150.01, Title 14, CCR, used to qualify must have been made at ports located within the South–Central Coast Region as defined in Section 52.04, Title 14, CCR, as documented by department landing receipts submitted in his name and commercial fishing license identification number pursuant to Fish and Game Code Section 8046.

(4) South Coast Region Trap Endorsement. A trap endorsement allows the permittee to use trap gear when taking nearshore fish stocks as described in Section 150.01, Title 14, CCR, in addition to gear authorized under Section 150(*l*), Title 14, CCR. A trap endorsement shall be attached to the South Coast Region Nearshore Fishery Permit issued to a person who has a valid 2002–2003 finfish trap permit that has not been suspended or revoked.

(5) A non–transferable trap endorsement issued under this Section shall become null and void upon the death of the permit holder.

(d) Transfer of Nearshore Fishery Permit Gear Endorsements. The transfer of a Nearshore Fishery Permit gear endorsement is subject to the provisions of Section 150(g), Title 14, CCR. Only one Nearshore Fishery Permit gear endorsement is required to transfer the gear endorsement to a new permittee.

(e) Application Deadline for Initial Issuance of Nearshore Fishery Permit Gear Endorsements. All applications (FG 1327(1/03), incorporated herein by reference) and permit fees for initial issuance of Nearshore Fishery Permit gear endorsements under the restricted access program must be received by the department, or, if mailed, be postmarked on or before June 30, 2003. Applications and permit fees for initial issuance of Nearshore Fishery Permit gear endorsements under the restricted access program received by the department, or, if mailed, postmarked from July 1 through July 31, 2003 will be assessed a $50 late fee. Applications and permit fees for the initial issuance of Nearshore Fishery Permit gear endorsements under the restricted access program postmarked or received after July 31, 2003 shall be returned to the applicant unissued.

(f) Nearshore Fishery Permit Gear Endorsement Renewal Requirements. After April 1, 2004, notwithstanding Fish and Game Code Section 8587, Nearshore Fishery Permit gear endorsements for a regional management area will be renewed annually by the department only to a person who has held a valid Nearshore Fishery Permit gear endorsement for that regional management area in the immediately preceding permit year.

(g) Application Deadline for Nearshore Fishery Permit Gear Endorsement Renewal. All applications [FG 1326 (Rev. 11/05), incorporated herein by reference] and permit fees for renewal of Nearshore Fishery Permit gear endorsements must be received by the department, or, if mailed, postmarked on or before April 30 of each permit year. Late fees, late fee deadlines, and late renewal appeal provisions are specified in Fish and Game Code Section 7852.2.

(h) Appeals.

(1) Any applicant who is denied initial issuance of a Nearshore Fishery Permit gear endorsement for any reason may appeal to the department in writing describing the basis for the appeal. The appeal shall be received or, if mailed, postmarked, no later than March 31, 2004. The appeal shall be reviewed and decided by the department. The decision of the department may be appealed in writing to the commission within 60 days of the date of the department's denial.

(2) Renewal Appeals. Late renewal appeal provisions are specified in Fish and Game Code Section 7852.2.

(3) Any applicant who is denied transfer of a Nearshore Fishery Permit gear endorsement may appeal to the department in writing describing the basis for the appeal. The appeal shall be reviewed and decided by the department. The decision of the department may be appealed in writing to the commission within 60 days of the date of the department's denial.

(i) Fees. Notwithstanding Fish and Game Code Section 8587, the fees for a Nearshore Fishery Permit gear endorsement under the restricted access program shall be as follows:

(1) The department shall charge an annual fee for each Nearshore Fishery Permit gear endorsement of $80.00.

(2) The department shall charge a non–refundable fee of $75 for each gear endorsement transfer.

(j) Revocation of Nearshore Fishery Permit Gear Endorsement. Any Nearshore Fishery Permit gear endorsement may be suspended, revoked, or cancelled by the commission upon conviction of a violation of any provision of these regulations or Fish and Game Code pertaining to the commercial take of nearshore fish stocks as described in Section 150.01, Title 14, CCR, or violation of the terms or conditions of the permit by the holder thereof, his agents, servants, employees or those acting under his direction and control.

(k) Notwithstanding Fish and Game Code Section 9001.5, a finfish trap permit is not required when taking nearshore fish stocks under the authority of a Nearshore Fishery Permit and trap endorsement issued pursuant to sections 150 and 150.03, Title 14, CCR. A general trap permit, issued pursuant to Fish and Game Code Section 9001, is required when taking nearshore fish stocks under the authority of a Nearshore Fishery Permit and trap endorsement issued pursuant to sections 150 and 150.03, Title 14, CCR.

NOTE: Authority cited: Sections 713, 1050 and 8587.1, Fish and Game Code. Reference: Sections 1050, 7852.2, 8046, 8589.5, 8589.7, 9001 and 9001.5, Fish and Game Code.

HISTORY

1. New section filed 6–18–2001; operative 7–18–2001 (Register 2001, No. 25).
2. Amendment of section heading, section and NOTE filed 3–10–2003; operative 3–10–2003 pursuant to Government Code Section 11343.4 (Register 2003, No. 11).
3. Amendment of section and NOTE filed 3–29–2004; operative 3–29–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 14).
4. Change without regulatory effect pursuant to section 100, title 1, California Code of Regulations, amending subsections (g), (i)(1)–(i)(2) and NOTE in accordance with section 713 of the Fish and Game Code, filed 5–11–2005; operative 6–10–2005 pursuant to the Commission's instructions (Register 2005, No. 19).
5. Change without regulatory effect amending subsections (g) and (i)(1)–(2) filed 12–19–2006 pursuant to section 100, title 1, California Code of Regulations (Register 2006, No. 51).
6. Amendment of subsection (g), repealer and new subsection (h)(2) and amendment of NOTE filed 7–8–2008; operative 7–8–2008 pursuant to Government Code section 11343.4 (Register 2008, No. 28).

§ 150.04. Control Date for Gear Endorsement Program for Other Nearshore Species.

(a) A control date of October 20, 2000 is established for the purpose of developing and implementing a gear endorsement program for the commercial nearshore fishery for nearshore fish stocks not covered under other nearshore control dates or nearshore restricted access programs established in Section 150, Title 14, CCR, or Section 150.03, Title 14, CCR. Species subject to this control date include only black rockfish, blue rockfish, brown rockfish, calico rockfish, copper rockfish, monkeyface eel, olive rockfish, quillback rockfish and treefish.

(b) In addition to any other requirements the Commission may adopt, in order to be considered for inclusion in a future gear endorsement program described in subsection (a), a person must have made at least one landing of the nearshore species described in subsection (a). This landing must be in his/her own name and commercial fishing license identification number on or before the control date in subsection (a) using a specified gear type (traps and/or hook and line and/or nets) as documented by a fish landing receipt prepared pursuant to Fish and Game Code Section

8043 and submitted to the department pursuant to Fish and Game Code Section 8046.

(c) This section does not apply to those nearshore species for which a Nearshore Fishery Permit is required pursuant to Section 150.01.

NOTE: Authority cited: Sections 7071 and 8587.1, Fish and Game Code. Reference: Sections 7071, 8043, 8046, 8585.5, 8586 and 8587.1, Fish and Game Code.

HISTORY

1. New section filed 8–12–2002; operative 9–11–2002 (Register 2002, No. 33).
2. Amendment of subsections (a) and (b) filed 3–26–2003; operative 3–26–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 13).

§ 150.05. Nearshore Fishery Bycatch Permit Program.

(a) A Nearshore Fishery Bycatch Permit authorizing the take, possession aboard a vessel, or landing of nearshore fish stocks as described in Section 150.01, Title 14, CCR, and in the manner and amount described in subsections (b) and (d) below may be issued to a person who meets the following conditions:

(1) has a valid 2002–2003 Nearshore Fishery Permit that has not been suspended or revoked.

(2) The person is not eligible for a 2003–2004 Nearshore Fishery Permit, or the person is eligible for a 2003–2004 Nearshore Fishery Permit based on landings made with gear not authorized under Section 150 or 150.03, Title 14, CCR, and chooses not to convert to the gear authorized pursuant to Section 150, 150.03 or 150.17, Title 14, CCR.

(b) Gear Authorized for Use. Only trawl or entangling nets shall be used to take, possess aboard a vessel, or land nearshore fish stocks as described in Section 150.01, Title 14, CCR, under a Nearshore Fishery Bycatch Permit issued pursuant to this section.

(c) Nearshore Fishery Bycatch Permits are non–transferable and the permit becomes null and void upon the death of the permit holder.

(d) Trip Limits.

(1) Nearshore Fishery Bycatch Permit holders are subject to all state and federal cumulative trip limits pursuant to sections 150.16 and 189, Title 14, CCR. Pursuant to sections 150.06 and 189, Title 14, CCR, no retention of nearshore fish stocks is allowed when the directed nearshore fishery is closed.

(2) Notwithstanding, Section 120.3, Title 14, CCR, and Fish and Game Code Section 8496, a person holding a Nearshore Fishery Bycatch Permit may take, possess aboard a vessel, or land nearshore fish stocks as described in Section 150.01, Title 14, CCR, under the following trip limits:

(A) North Coast Region. Zero (0) pounds of nearshore fish stocks may be taken per trip.

(B) North–Central Coast Region. Zero (0) pounds of nearshore fish stocks may be taken per trip.

(C) South–Central Coast Region. Twenty–five (25) pounds of nearshore fish stocks may be taken per trip.

(D) South Coast Region. Fifty (50) pounds of nearshore fish stocks may be taken per trip.

(e) Application Deadline for Initial Issuance of Nearshore Fishery Bycatch Permits. All applications (FG 1328(1/03), incorporated herein by reference) and permit fees for initial issuance of Nearshore Fishery Bycatch Permits must be received by the department, or, if mailed, be postmarked on or before June 30, 2003. Applications and permit fees for initial issuance of Nearshore Fishery Bycatch Permits under the restricted access program received by the department, or, if mailed, postmarked from July 1 through July 31, 2003 will be assessed a $50 late fee. Applications and permit fees for the initial issuance of Nearshore Fishery Bycatch Permits under the restricted access program postmarked or received after July 31, 2003 shall be returned to the applicant unissued.

(f) Nearshore Fishery Bycatch Permit Renewal Requirements. Notwithstanding Fish and Game Code Section 8587, after April 1, 2004, Nearshore Fishery Bycatch Permits will be renewed annually by the department only to a person who has held a valid Nearshore Fishery Bycatch Permit in the immediately preceding permit year.

(g) Application Deadline for Nearshore Fishery Bycatch Permit Renewal. All applications [FG 1328 (Rev. 11/05), incorporated herein by reference] and permit fees for renewal of Nearshore Fishery Bycatch Permits must be received by the department, or, if mailed, postmarked on or before April 30 of each permit year. Late fees, late fee deadlines, and late renewal appeal provisions are specified in Fish and Game Code Section 7852.2.

(h) Appeals.

(1) Any applicant who is denied initial issuance of a Nearshore Fishery Bycatch Permit for any reason may appeal to the department in writing describing the basis for the appeal. The appeal shall be received or, if mailed, postmarked, no later than March 31, 2004. The appeal shall be reviewed and decided by the department. The decision of the department may be appealed in writing to the commission within 60 days of the date of the department's denial.

(2) Renewal Appeals. Late renewal appeal provisions are specified in Fish and Game Code Section 7852.2.

(i) Fees. The department shall charge an annual fee for each Nearshore Fishery Bycatch Permit of $213.25.

(j) Revocation of Nearshore Fishery Bycatch Permit. Any permit may be suspended, revoked, or cancelled by the commission upon conviction of a violation of any provision of these regulations or Fish and Game Code pertaining to the commercial take of nearshore fish stocks as described in Section 150.01, Title 14, CCR, or violation of the terms or conditions of the permit by the holder thereof, his agents, servants, employees or those acting under his direction and control.

NOTE: Authority cited: Sections 713, 1050 and 8587.1, Fish and Game Code. Reference: Sections 1050, 7850, 7852.2, 8496, 8587 and 8587.1, Fish and Game Code.

HISTORY

1. New section filed 3–10–2003; operative 3–10–2003 pursuant to Government Code Section 11343.4 (Register 2003, No. 11).
2. Amendment filed 3–29–2004; operative 3–29–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 14).
3. Change without regulatory effect pursuant to section 100, title 1, California Code of Regulations, amending subsections (g) and (i) and amending NOTE in accordance with section 713 of the Fish and Game Code, filed 5–11–2005; operative 6–10–2005 pursuant to the Commission's instructions (Register 2005, No. 19).
4. Change without regulatory effect amending subsections (g) and (i) filed 12–19–2006 pursuant to section 100, title 1, California Code of Regulations (Register 2006, No. 51).
5. Amendment of subsection (g), repealer and new subsection (h)(2) and amendment of NOTE filed 7–8–2008; operative 7–8–2008 pursuant to Government Code section 11343.4 (Register 2008, No. 28).

§ 150.06. Management Areas Defined; Closure Periods Defined.

(a) Cowcod closure areas means both Area 1 and Area 2: Area 1, also termed the western cowcod conservation area adopted as federal groundfish regulations, is an area south of Point Conception bound by straight lines connecting the following points in the order listed:

33°50′ N. lat., 119°30′ W. long.;
33°50′ N. lat., 118°50′ W. long.;
32°20′ N. lat., 118°50′ W. long.;
32°20′ N. lat., 119°37′ W. long.;
33°00′ N. lat., 119°37′ W. long.;
33°00′ N. lat., 119°53′ W. long.;
33°33′ N. lat., 119°53′ W. long.;
33°33′ N. lat., 119°30′ W. long.;
33°50′ N. lat., 119°30′ W. long.;

The transit corridor through the cowcod closure Area 1 is bounded on the north by the latitude line at 33°00′ 30″ N. lat., and on the south by the latitude line at 32°59′ 30″ N. lat., and Area 2, also termed the eastern cowcod conservation area adopted as federal groundfish regulations, that is a smaller area west of San Diego bound by straight lines connecting the following points in the order listed:

32°42′ N. lat., 118°02′ W. long.;
32°42′ N. lat., 117°50′ W. long.;
32°36′42″ N. lat., 117°50′ W. long.;
32°30′ N. lat., 117°53′30″ W. long.;
32°30′ N. lat., 118°02′ W. long.;
32°42′ N. lat., 118°02′ W. long.;

(b) Seasonal closure periods and in–season closures enacted due to quota attainment for commercial rockfish, a subgroup of rockfish, lingcod or California scorpionfish noticed in the Federal Register by the National Marine Fisheries Service shall apply in state waters within the geographic boundary areas defined in Title 50, Code of Federal Regulations (CFR), Parts 600 and 660. See also Section 189, Title 14, California Code of Regulations for additional explanation regarding fishing for federal groundfish in state waters.

(c) Seasonal closures for commercial sheephead, cabezon, and greenlings of the genus Hexagrammos:

(1) For ocean waters between 42°00′ N. lat. (the Oregon/California border) and 40°10′ N. lat. (near Cape Mendocino, Humboldt County), closed time periods for sheephead, cabezon, and greenlings of the genus Hexagrammos shall be defined as the time periods closed to commercial take of shallow and deeper nearshore rockfishes for ocean waters between 40°10′ N. lat. (near Cape Mendocino) and 34°27′ N. lat. (at Point Conception, Santa Barbara County), noticed in the Federal Register by the National Marine Fisheries Service, or defined in Title 50, Code of Federal Regulations (CFR), Parts 600 and 660. Time periods closed to the commercial take of shallow or deeper nearshore rockfish fisheries enacted in–season due to quota attainment do not apply.

(2) For ocean waters between 40°10′ N. lat. (near Cape Mendocino) and 34°27′ N. lat. (at Point Conception, Santa Barbara County), closed time periods for sheephead, cabezon, and greenlings of the genus Hexagrammos shall be defined as the time periods closed to commercial take of shallow and deeper nearshore rockfishes in this area noticed in the Federal Register by the National Marine Fisheries Service, or defined in Title 50, Code of Federal Regulations (CFR), Parts 600 and 660. Time periods closed to the commercial take of shallow or deeper nearshore rockfish fisheries enacted in–season due to quota attainment do not apply.

(3) For ocean waters between 34°27′ N. lat. (at Point Conception, Santa Barbara County) and the U.S./Mexico border, closed time periods for sheephead, cabezon, and greenlings of the genus Hexagrammos shall be defined as the time periods closed to commercial take of shallow and deeper nearshore rockfishes in this area noticed in the Federal Register by the National Marine Fisheries Service, or defined in Title 50, Code of Federal Regulations (CFR), Parts 600 and 660. Time periods closed to the commercial take of shallow or deeper nearshore rockfish fisheries enacted in–season due to quota attainment do not apply.

NOTE: Authority cited: Sections 7071, 7652 and 8587.1, Fish and Game Code. Reference: Sections 7071, 7652, 8585.5 and 8587.1, Fish and Game Code.

HISTORY

1. New section filed 3–5–2001; operative 3–5–2001 pursuant to Fish and Game Code sections 202 and 215 (Register 2001, No. 10).
2. Repealer and new subsection (b), new subsection (c) and subsection relettering filed 12–30–2002; operative 1–1–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 1).
3. Amendment of subsection (a) filed 12–31–2002; operative 12–31–2002. Submitted to OAL for printing only pursuant to Fish and Game Code section 7652(d) (Register 2003, No. 1).
4. Repealer of subsection (d) filed 11–7–2003; operative 12–7–2003 (Register 2003, No. 45).
5. Repealer and new subsection (c), new subsections (c)(1)–(3) and amendment of NOTE filed 1–15–2004; operative 1–15–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 3).

§ 150.16. Commercial Take of Nearshore Fishes.

(a) Notwithstanding Section 8588(b) of the Fish and Game Code, minimum size limits (total length) are as follows:

(1) black–and–yellow rockfish (*Sebastes chrysomelas*) ... 10 in.
(2) cabezon (*Scorpaenichthys marmoratus*) ..... 15 in.
(3) California scorpionfish or sculpin (*Scorpaena guttata*) ..... 10 in.
(4) California sheephead (*Semicossyphus pulcher*) ..... 13 in.
(5) China rockfish (*Sebastes nebulosus*) ..... 12 in.
(6) gopher rockfish (*Sebastes carnatus*) ..... 10 in.
(7) grass rockfish (*Sebastes rastrelliger*) ..... 12 in.
(8) greenlings of the genus Hexagrammos (*Hexagrammos* spp.) ..... 12 in.
(9) kelp rockfish (*Sebastes atrovirens*) ..... 10 in.

(b) Species of nearshore fish stocks as defined in Section 1.90, Title 14, CCR, must be sorted by species prior to weighing and the weight reported separately on the Fish and Game receipt.

(c) Any nearshore fish listed under this section that are taken in a nearshore fishery shall be measured immediately upon being brought aboard the vessel and released immediately if not in compliance with the size limits specified.

(d) Regulations adopted to modify the minimum size limits or to specify maximum size limits shall be based on the best available scientific information and adopted pursuant to the Administrative Procedure Act following public notice and not less than one public hearing.

(e) Cumulative trip limits for sheephead, cabezon, greenlings of the genus Hexagrammos, California scorpionfish, and subgroups of rockfish.

(1) A cumulative trip limit is the total number of pounds of a species or a species group that may be taken and retained, possessed, or landed by an individual commercial licensee in a cumulative trip limit period without a limit on the number of landings or trips.

(2) Cumulative trip limit periods start at 0001 hours local time, end at 2400 hours local time, and are in two month periods as follows:

(A) January 1 through the last day of February,
(B) March 1–April 30,
(C) May 1–June 30,
(D) July 1–August 31,
(E) September 1–October 31,
(F) November 1–December 31.

(3) Landings toward a cumulative trip limit value for a defined cumulative trip limit period provided in this subsection are summed by an individual's California commercial license number listed on fish receipts submitted to the department pursuant to Section 8043, Fish and Game Code.

(4) Any person landing species for which there is a cumulative trip limit established pursuant to this Section shall keep in their immediate possession copies of any and all reports of landings required by state laws or regulations throughout the cumulative limit period during which a landing occurred and for 15 days thereafter.

(5) Cumulative trip limit values noticed in the Federal Register by the National Marine Fisheries Service for the cumulative trip limit periods for shallow nearshore rockfish, deeper nearshore rockfish, and California scorpionfish apply to each individual California commercial licensee in addition to the federally–defined vessel–based limits. Landings are summed by an individual's California commercial license number listed on fish receipts submitted to the department pursuant to Section 8043, Fish and Game Code.

(6) Cumulative trip limits for sheephead, cabezon and greenlings.

(A) The cumulative trip limit per individual per two–month limit period when fishing is allowed pursuant to Section 150.06, Title 14, CCR, is as follows:

	Sheephead	*Cabezon*	*Greenlings*
January–February	2,000 pounds	300 pounds	25 pounds
March–April	2,000 pounds	100 pounds	25 pounds
May–June	2,400 pounds	250 pounds	25 pounds
July–August	2,400 pounds	150 pounds	25 pounds
September–October	2,400 pounds	900 pounds	25 pounds
November–December	2,400 pounds	100 pounds	25 pounds

(B) The department will evaluate year–to–date catch levels against total allowable catch limits defined in Section 52.10. Based on these data, when the department determines that cumulative trip limits defined in this Section need significant adjustment upward or downward (by 50 percent or more) in order to spread the allowable catches through the open season to the extent possible and prevent early attainment of the annual total allowable commercial catch, the cumulative trip limits defined in this Section may become inoperative and may be replaced with alternative limits as determined by the department. The department may perform these in–season analyses between May and September of each year;

and provide notification of changes by October 15 of each year, as described in subsection (e)(6)(C).

(C) The department shall give holders of nearshore fishery permits no less than 10 days notice of any cumulative trip limit change pursuant to this Section via a notification letter sent to the permittee's address on file with the department.

(D) When optimum yields, allocations, total allowable catches or other catch limits defined in Section 52.10 are reached, and action to close the fishery is taken pursuant to Section 52.10 subsection (b), cumulative trip limits defined in this Section become inoperative.

(f) All other trip limits (including daily, weekly and cumulative trip limits) established for commercial rockfish, a subgroup of rockfish, or California scorpionfish noticed in the Federal Register by the National Marine Fisheries Service shall apply in state waters within the geographic boundary areas defined in Title 50, Code of Federal Regulations (CFR), Parts 600 and 660. See also Section 189, Title 14, California Code of Regulations for additional requirements regarding fishing for federal groundfish in state waters.

NOTE: Authority cited: Sections 240, 7071, 8587.1 and 8588, Fish and Game Code. Reference: Sections 240, 8585.5, 8587.1 and 8588, Fish and Game Code.

HISTORY

1. New section filed 3–5–2001; operative 3–5–2001 pursuant to Fish and Game Code sections 202 and 215 (Register 2001, No. 10).
2. New subsection (e) filed 8–23–2001 as an emergency; operative 9–1–2001 (Register 2001, No. 34). A Certificate of Compliance must be transmitted to OAL by 12–31–2001 or emergency language will be repealed by operation of law on the following day.
3. New subsection (f) and amendment of NOTE filed 9–18–2001 as an emergency; operative 9–18–2001 (Register 2001, No. 38). A Certificate of Compliance must be transmitted to OAL by 1–16–2002 or emergency language will be repealed by operation of law on the following day.
4. New subsection (g) filed 11–8–2001 as an emergency; operative 11–8–2001 (Register 2001, No. 45). A Certificate of Compliance must be transmitted to OAL by 3–8–2002 or emergency language will be repealed by operation of law on the following day.
5. Repealer of subsections (e)–(g) and new subsections (e)–(e)(6)(C) filed 12–30–2002 as an emergency; operative 1–1–2003 (Register 2003, No. 1). A Certificate of Compliance must be transmitted to OAL by 5–1–2003 or emergency language will be repealed by operation of law on the following day.
6. Repealer of subsections (a) and (b) and subsection relettering filed 12–30–2002; operative 1–1–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 1).
7. Amendment of subsection (b), new subsections (c) and (d) and subsection relettering filed 1–9–2003; operative 2–8–2003 (Register 2003, No. 2).
8. Reinstatement of section as it existed prior to 12–30–2002 order by operation of Government Code section 11346.1(f) (Register 2003, No. 45).
9. Repealer of subsections (e)–(g) and new subsections (e)–(f) filed 11–7–2003; operative 12–7–2003 (Register 2003, No. 45).
10. Amendment of subsection (e)(6)(A) filed 3–1–2005; operative 3–31–2005 (Register 2005, No. 9).

§ 150.17. Limitations on Number of Hooks and Area.

Excepting the provisions of Fish and Game Code subsection 9027.5(c), it is unlawful to use more than 150 hooks on a vessel, or to use more than 15 hooks per line, to take nearshore fish stocks for commercial purposes in ocean waters within one mile of shore within Fish and Game Districts 6, 7, and 10, or in ocean waters within one mile of the mainland shore in Fish and Game Districts 17, 18, and 19.

NOTE: Authority cited: Sections 7071 and 8587.1, Fish and Game Code. Reference: Sections 7050, 7051, 7055, 7060, 8585.5 and 9027.5, Fish and Game Code.

HISTORY

1. New section filed 3–5–2001; operative 3–5–2001 pursuant to Fish and Game Code sections 202 and 215 (Register 2001, No. 10).
2. Amendment of section and NOTE filed 1–9–2003; operative 2–8–2003 (Register 2003, No. 2).

§ 155. White Seabass, Commercial Take.

(a) Notwithstanding Fish and Game Code Section 8383, white seabass may not be taken for commercial purposes between March 15 and June 15, inclusive, between the United States–Mexico International Boundary and a line extending due west (true) from Point Conception, except that one white seabass not less than 28 inches in total length may be taken, possessed, and sold by a vessel each day if taken incidental to gill and trammel net fishing operations conducted under authority of a permit issued pursuant to Fish and Game Code Section 8681. Any fish so taken shall not be transferred to any other vessel.

(b) The restrictions in this section shall not apply to white seabass taken in waters lying south of the International Boundary Line between the United States and Mexico extended westerly into the Pacific Ocean. A current fishing permit issued by the Mexican Government is evidence that white seabass were taken south of the international boundary.

NOTE: Authority cited: Section 7071, Fish and Game Code. Reference: Section 7071, Fish and Game Code.

HISTORY

1. New section filed 6–2–2000; operative 6–2–2000 pursuant to Fish and Game Code section 215 (Register 2000, No. 22). For prior history, see Register 67, No. 50.

§ 155.01. White Seabass Commercial Size Limit:

It is unlawful to take, possess, sell, or purchase any white sea bass less than 28 inches in length, measured from the tip of the lower jaw to the end of the longer lobe of the tail.

NOTE: Authority cited: Sections 7071 and 7078, Fish and Game Code. Reference: Sections 7071, 7075, 7082 and 7083, Fish and Game Code.

HISTORY

1. New section filed 7–31–2002; operative 8–30–2002 (Register 2002, No. 31).

§ 155.05. Use of Purse Seine and Roundhaul Nets and Delivery to California Ports.

(a) It is unlawful to use any purse seine or round haul net to take white seabass in waters off California.

(b) It is unlawful to possess any white seabass, except those taken south of the International Boundary Line between the United States and Mexico, and imported into the state pursuant to authority of subsections (c) and (d), on any boat carrying or using any purse seine or round haul net, including, but not limited to, a bait net defined pursuant to subsection 50.01(b), Title 14, CCR.

(c) White seabass taken in waters south of the International Boundary Line between the United States and Mexico, extended westerly in the Pacific Ocean, may be delivered to California ports aboard boats, including boats carrying purse seine or roundhaul nets in accordance with subsection (d) governing the inspection and marking of such fish imported into this State. The cost of such inspection and marking shall be paid by the importer.

(d) No person, firm, or corporation shall deliver, accept, or unload any white seabass from any vessel carrying a purse seine or roundhaul net until the Fish and Game Patrol office nearest the point of delivery shall have issued a written inspection clearance to the master or operator of such vessel, or his agent, permitting said delivery. Such clearances shall be issued upon presentation of evidence satisfactory to the Department of Fish and Game of the fact that such fish was taken south of the International Boundary Line between the United States and Mexico.

(e) Notwithstanding the provisions of this section, the department may issue permits to hook–and–line commercial fishermen to possess a bona fide bait net on their vessels for the purpose of taking bait for their own use only.

NOTE: Authority cited: Sections 7071 and 7083, Fish and Game Code. Reference: Sections 2362, 7071, 7075, 7082, 7083 and 8623 Fish and Game Code.

HISTORY

1. New section filed 7–31–2002; operative 8–30–2002 (Register 2002, No. 31).

§ 155.10. Gill Net Mesh Size, Closed Season, Possession of Thresher and Shortfin Mako.

(a) Gill nets with meshes of a minimum length of six inches may be used to take white seabass. However, during the period from June 16 to March 14, inclusive, not more than 20 percent by number of a load of fish may be white seabass 28 inches or more in total length, up to a maximum of 10 white seabass per load, if taken in gill nets with meshes from 3 1/2 to 6 inches in length.

(b) In accordance with Fish and Game Code Section 8576, during the period from February 1 to August 14, inclusive, not more than two thresher sharks and two shortfin mako sharks may be possessed and sold if taken incidentally in drift gill nets while fishing for white seabass and if at least five white seabass are possessed and landed at the same time as the incidentally taken thresher or shortfin mako shark.

NOTE: Authority cited: Sections 7071 and 7083, Fish and Game Code. Reference: Sections 7071, 7075, 7082, 7083, 8576 and 8623, Fish and Game Code.

HISTORY
1. New section filed 7–31–2002; operative 8–30–2002 (Register 2002, No. 31).

§ 156. Sardines, Limit of Catch for Reduction Purposes.

NOTE: Authority cited: Section 1068, Fish and Game Code. Current authority: Sections 8075–8080, Fish and Game Code.

HISTORY
1. Expired by own terms (Register 58, No. 15). For prior history, see Register 28, No.5.

§ 157. Importation of Sardines for Bait.

All persons importing sardines for bait must send a copy of the incoming foreign manifest or bill of lading to the Department of Fish and Game, 245 W. Broadway, Long Beach, California 90802. The foreign manifest or bill of lading must show the country of origin of the sardines and the weight of the shipment.

The importer shall also advise the above office of the location where the imported sardines will be stored. Each sale of sardines to other than the actual consumer must be reported to the department. The report must show the name and address of the consignee and consignor and the date and weight of the shipment.

A copy of the foreign manifest or bill of lading, together with a notice of location of sardine storage, and a report of each subsequent sale of the sardines, must be sent to the department at the above address within 48 hours of the transaction.

Imported sardines sold at retail must be delivered to the consumer in packages or containers showing the name of the dealer, the weight of the contents of each package or container, the country of origin, and a statement that the sardines were legally imported for sale as bait.

NOTE: Authority cited: Section 8150.5, Fish and Game Code.

HISTORY
1. New section filed 3–12–74; effective thirtieth day thereafter (Register 74, No. 11).
2. Amendment of NOTE filed 10–19–81; effective thirtieth day thereafter (Register 81, No. 43).
3. Page reprinted to correct paging error (Register 81, No. 47).
4. Editorial correction filed 12–29–82 (Register 83, No. 1).

§ 158. Sardines.

(a) Pursuant to Section 190 of these regulations, a permittee taking sardines for bait under the provisions of Fish and Game Code Section 8152 shall complete and submit a record of daily fishing activity on a form (Live Bait Log, DFG 158 (10/89), see Appendix A) provided by the Department.

(b) The fee for a Sardine Permit issued pursuant to Section 8150.7 of the Fish and Game Code and for a Sardine Live–Bait Permit issued pursuant to Section 8152 of the Fish and Game Code shall be the same as the permit fee authorized by Section 699, Title 14, CCR.

NOTE: Authority cited: Sections 1050, 8026 and 8152, Fish and Game Code. Reference: Sections 1050, 8026, 8150.7 and 8152, Fish and Game Code.

HISTORY
1. New section filed 12–8–89; operative 1–1–90 (Register 89, No. 50).
2. New subsection (a) designator and subsection (b) and amendment of NOTE filed 5–11–92; operative 6–10–92 (Register 92, No. 19).

§ 159. Commercial Fishing for Coastal Pelagic Species.

(a) General provisions. No person shall engage in commercial fishing for coastal pelagic species (CPS) except as provided by the Fish and Game Code and regulations provided herein. Applicable regulations adopted by the U.S. Secretary of Commerce pursuant to the Magnuson Fishery Conservation and Management Act and published in Title 50, Code of Federal Regulations (CFR), Parts 600 and 660 are hereby incorporated and made a part of these regulations. Federal regulations shall be made available upon request from the Department of Fish and Game, Marine Region, 1416 Ninth Street, Box 944209, Sacramento, CA 94244–2090, phone number 916–653–6281.

(b) General Definitions. For purposes of these regulations, the following definitions shall apply:

(1) *Actively managed species (AMS).* Those CPS for which the Secretary has determined that harvest guidelines or quotas are needed by Federal management according to the provision of the federal CPS Fishery Management Plan.

(2) *Advisory Subpanel (AP).* The Coastal Pelagic Species Advisory Subpanel that comprises members of the fishing industry and public appointed by the Council to review proposed actions for managing the coastal pelagic fisheries.

(3) *Biomass.* The estimated amount, by weight, of a coastal pelagic species population. The term biomass means total biomass (age 1 and above) unless stated otherwise.

(4) *Closure.* Taking and retaining, possessing, or landing the particular species or species group is prohibited. Unless otherwise announced in the Federal Register, offloading must begin before the time the fishery closes.

(5) *Coastal pelagic species (CPS).* Includes northern anchovy (*Engraulis mordax*), Pacific mackerel (*Scomber japonicus*), Pacific sardine (*Sardinops sagax*), jack mackerel (*Trachurus symmetricus*), and market squid (*Loligo opalescens*).

(6) *Coastal Pelagic Species Management Team (CPSMT).* The individuals appointed by the Council to review, analyze, and develop management measures for the CPS fishery.

(7) *Council.* The Pacific Fishery Management Council, including its CPSMT, AP, Scientific and Statistical Committee (SSC), and any other committee established by the Council.

(8) *Federally Designated Routine Management Measures.* Routine Management Measures, identified as catch restrictions intended to keep landings within the harvest levels announced by the Secretary of Commerce and noticed in the Federal Register by the National Marine Fisheries Service, are hereby incorporated and made a part of these regulations. Should any federal management measures conflict with existing statutes, including Fish and Game Code Sections 8496 and 8842(b), or regulations of the commission, the provisions in the statutes or regulations which conflict with the federal management measures are made inoperative.

(9) *Finfish.* For the purpose of this section only, finfish includes northern anchovy, Pacific mackerel, Pacific sardine, and jack mackerel, but excludes market squid.

(10) *Fishery Management Area.* The EEZ off the coasts of Washington, Oregon, and California between 3 and 200 nautical miles offshore, bounded in the north by the Provisional International Boundary between the United States and Canada, and bounded in the south by the International Boundary between the United States and Mexico.

(11) *Fishing trip.* A period of time between landings when fishing is conducted.

(12) *Harvest guideline.* A specified numerical harvest objective that is not a quota. Attainment of a harvest guideline does not require complete closure of a fishery.

(13) *Harvesting vessel.* A vessel involved in the attempt or actual catching, taking or harvesting of fish, or any activity that can reasonably be expected to result in the catching, taking or harvesting of fish.

(14) *Land* or *Landing.* To begin transfer of fish from a fishing vessel. Once transfer begins all fish onboard the vessel are counted as part of the landing.

(15) *Limited entry fishery.* The commercial fishery consisting of vessels fishing for CPS in the CPS Management Zone under limited entry permits issued under § 660.512.

(16) *Live bait fishery.* Fishing for CPS for use as live bait in other fisheries.

(17) *Monitored species (MS).* Those CPS the Secretary has determined not to need management by harvest guidelines or quotas according to the provisions of the FMP.

(18) *Nonreduction fishery.* Fishing for CPS for use as dead bait or for processing for direct human consumption.

(19) *Owner.* A person who is identified as the current owner in the Certificate of Documentation (CG–1270) issued by the U.S. Coast Guard for a documented vessel, or in a registration certificate issued by a state or the U.S. Coast Guard for an undocumented vessel.

(20) *Person.* Any individual, corporation, partnership, association or other entity (whether or not organized or existing under the laws of any

state), and any Federal, state, or local government, or any entity of any such government that is eligible to own a documented vessel under the terms of 46 U.S.C. 12102(a).

(21) *Processing* or *to process.* Preparing or packaging coastal pelagic species to render the fish suitable for human consumption, pet food, industrial uses or long–term storage, including, but not limited to, cooking, canning, smoking, salting, drying, filleting, freezing, or rendering into meal or oil, but does not mean heading and gutting unless there is additional preparation.

(22) *Prohibited Species.* All species of trout and salmon (*Salmonidae*) and Pacific Halibut (*Hippoglossus stenolepis*).

(23) *Quota.* A specified numerical harvest objective for a single species of CPS, the attainment (or expected attainment) of which causes the complete closure of the fishery for that species.

(24) *Reduction fishery.* Fishing for CPS for the purposes of conversion into fish flour, fish meal, fish scrap, fertilizer, fish oil, other fishery products, or byproducts for purposes other than direct human consumption.

(25) *Regional Administrator.* The Regional Administrator, Southwest Region, NMFS, 501 W. Ocean Boulevard, Suite 4200, Long Beach, CA 90802–4213, or a designee.

(26) *Reserve.* A portion of the harvest guideline or quota set aside at the beginning of the year for specific purposes, such as for individual harvesting groups to ensure equitable distribution of the resource or to allow for uncertainties in preseason estimates of DAP and JVP.

(27) *Secretary.* The Federal Secretary of Commerce.

(28) *Sustainable Fisheries Division (SFD).* The Assistant Regional Administrator for Sustainable Fisheries, Southwest Region, NMFS, or a designee.

(29) *Totally lost.* The vessel being replaced no longer exists *in specie,* or is absolutely and irretrievably sunk or otherwise beyond the possible control of the owner, or the costs of repair (including recovery) would exceed the repaired value of the vessel.

(30) *Trip limit.* The total allowable amount of a CPS species by weight or by percentage of weight of fish on board the vessel that may be taken and retained, possessed, or landed from a single fishing trip by a vessel that harvests CPS.

NOTE: Authority cited: Section 7652, Fish and Game Code. Reference: Sections 7650–7653, 8150.7 and 8411, Fish and Game Code.

HISTORY

1. New section filed 9–24–2001; operative 10–24–2001. Submitted to OAL for printing only pursuant to Fish and Game Code section 7652(d) (Register 2001, No. 39).
2. Amendment of subsection (b)(9) filed 10–16–2007; operative 11–15–2007 (Register 2007, No. 42).

§ 163. Harvest of Herring.

Herring may be taken for commercial purposes only in those areas and by those methods specified in subsections (f)(1) and (f)(2) of this section under a revocable permit issued to an individual on a specified fishing vessel by the department. Transfer of permits from one boat to another may be authorized by the department upon written request by the permittee, accompanied by a copy of the current commercial boat registration of the new vessel. The fee for any approved transfer or substitution of a permit pursuant to this paragraph shall be $50 for any request received by the department after November 15, and must be submitted with the transfer or substitution request to the department's License and Revenue Branch office. Any permittee denied a transfer pursuant to this paragraph may request a hearing before the commission to show cause why his request should not be denied. Permittees shall have their permit in their possession (including the attachment of any changes approved by the department after the permit is issued) and shall be aboard the vessel named on their permit at all times during herring fishing operations, except that the department may authorize a permittee to have a crew member temporarily serve in his or her place aboard the vessel during a season. Requests for temporary permittee substitution must be submitted in writing by the permittee, accompanied by a copy of the temporary substitute's current California commercial fishing license. Two permits may be jointly fished on a single vessel upon approval of a written request by both permittees to the department. A permittee may simultaneously fish his or her own permit and a permit temporarily transferred to him or her on a single vessel within the same fishing group. A permittee serving as a temporary substitute on a permit while simultaneously fishing his or her own permit on a single vessel in the same fishing group shall incur the same penalties on his/her permit for all violations as those incurred against the permit for which he/she is serving as temporary substitute as prescribed in these regulations and in Section 163.5, Title 14, CCR. A person may not serve as a temporary substitute on more than one permit simultaneously on a single vessel in the same fishing group. Any request received by the department from November 1 to November 15 to transfer boats or substitute a permit or to simultaneously fish two permits on a single vessel shall be processed for approval by the department after November 15.

(a) Qualifications of Permittee. To obtain a permit to take herring a person shall:

(1) Be a currently licensed California commercial fisherman. When a permit is held in partnership (pursuant to the provisions of Section 8552.6 of the Fish and Game Code), both partners must be currently licensed California commercial fishermen.

(2) Have been a permittee during the previous herring season.

(3) Qualify for an odd– or even–numbered permit as specified in subsection (c)(1)(B).

(4) Qualify for a "DH" gill net permit as specified in subsection (c)(1)(C).

(5) Have submitted a release of property forms and payment for all herring landed in excess of the established quota as specified in subsection (e)(5) of these regulations, and all fees from prior seasons.

(6) Any person denied a permit under these regulations may request a hearing before the commission to show cause why his or her permit should not be denied.

(b) Permit Applications. Each applicant for a herring permit shall:

(1) Completely fill out and submit the required department application form (FG 1377 (Rev. 3/07), incorporated by reference herein available at the department's License and Revenue Branch, Sacramento). Applications shall include the filing fee, as specified in section 8550.5 of the Fish and Game Code, and copies of the current California boat registration and commercial fishing license of the applicant.

(2) Permittees will be issued permits for the same area and gear type they held during the previous season. In San Francisco Bay, round haul permittees who transferred gear type to gill net were designated as CH–(600–642)–SF permittees. For every conversion of gear type to gill net by a round haul permittee, the amount of herring allocated to each round haul permittee was transferred from the round haul quota to the gill net quota. For each round haul permit converted prior to October 6, 1995, fishing with gill net gear is authorized in two of the following fishing periods: odd–numbered permits, even–numbered permits, or December herring ("DH") permits. The permitholder of a converted round haul ("CH") permit is permanently assigned to the two fishing groups ("DH", odd–, or even–numbered permit) he or she designated. For every conversion of gear type to gill net by a round haul permittee after October 6, 1995 but before October 2, 1998, the permit is permanently in the two fishing groups ("DH", odd–, or even–numbered permit) assigned by the department. All remaining round haul permits as of October 3, 1998 were converted to gill net permits and assigned to a single gill net group.

Upon transfer, the department assigned each converted "CH" permit to a single gill net group ("DH", odd numbered, or even–numbered permit) as designated by the permitholder. A round haul herring permit, held in partnership prior to November 3, 1994 and subsequently converted to a "CH" permit prior to October 2, 1998, is not subject to assignment to a single gill net group upon transfer to one of the partners.

(3) Permit Renewal. Applications for renewal of all herring permits shall be received by the department, or if mailed, postmarked, on or before the first Friday of October each year. Late fees, late fee deadlines, and late renewal appeal provisions are specified in Fish and Game Code Section 7852.2.

(4) Subsections (a)(2) and (b) do not apply to permits issued for taking herring in ocean waters or to fresh fish market permits.

(c) Permits.

(1) Permits to take herring for roe purposes will be issued by the department beginning November 15. Permits will be sent by first class mail to the permittees. Not more than three permits shall be issued for Crescent City and not more than four permits shall be issued for Humboldt Bay.

No new round haul permits shall be issued for San Francisco Bay. No new gill net permits shall be issued for the Tomales Bay permit area until the maximum number of permits is less than 35. No new odd– or even–numbered gill net permits shall be issued for San Francisco Bay until the maximum number of permits is less than 160. No new "DH" permits shall be issued until the maximum number of permits is less than 80. The permittee shall be responsible for all crew members acting under his or her direction or control to assure compliance with all Fish and Game regulations as provided in this section, or in the Fish and Game Code, relating to herring.

(A) The total number of gill net permits issued to individuals not qualifying under subsection (a)(2) shall be the difference in number of permittees meeting such qualifications and the total number of gill net permits authorized by the commission in subsection (c)(1).

(B) Individuals not qualifying under subsection (a)(2) will be eligible to apply for any available odd– or even–numbered gill net permits provided they are a currently licensed California commercial fisherman.

(C) Individuals not qualifying and receiving permits under subsections (a)(2) or (c)(1)(B) will be eligible to apply for any available "DH" gill net permits provided they are a currently licensed California commercial fisherman.

(D) In the event that the number of eligible applicants qualifying under subsections (c)(1)(B) or (c)(1)(C) exceeds the available permits, a lottery shall be held.

(E) Preferential status will not be given for participation on vessels with permits specified in subsections (c)(2) and (c)(3) of this section.

(2) Fresh Fish Market. Ten permits will be issued to take herring for the fresh fish market in San Francisco Bay and five in Tomales Bay. See subsection 699(b) of these regulations for the fee for this permit. However, no permittee may take or possess herring except in the amount specified on a current daily market order, not to exceed 500 pounds, from a licensed fish dealer. Fresh fish market permits will be issued beginning November 1 at the department's License and Revenue Branch, Sacramento. In the event there are more applicants than the specified number of available fresh fish permits, a lottery will be held to determine the permittees. Applicants may apply for only one bay. Fresh fish market permits shall be in force from November 2 through November 15 and April 1 through October 31.

(3) Ocean Waters. Permits to take herring in ocean waters will be issued by the department at its offices in Monterey, the San Francisco Bay area and Eureka. See subsection 699(b) of these regulations for the fee for this permit.

Herring taken under the authority of subsections (c)(2) and (c)(3) may not be sold for roe purposes.

(d) Vessel Identification. The master of any boat engaged in taking herring under these regulations shall at all times while operating such boat, identify it by displaying on an exposed part of the superstructure, amidship, on each side of the house and visible from the air, the herring permit number of that vessel in 14–inch high, 2–inch wide black Roman alphabet letters and Arabic numerals painted on a white background permanently fixed to each side of the vessel.

(e) Monitoring of Herring.

(1) Herring taken for roe purposes may only be delivered to a person licensed pursuant to subsection (j) of these regulations.

(2) Gill net permittees shall notify the department's San Francisco Bay Area Marine Region office within 24 hours if they terminate fishing operations for the season prior to the overall quota being taken.

(3) The department will estimate from the current trend of individual boat catches the time at which the herring season catch will reach any quota permitted under these regulations and will publicly announce that time on VHF/Channel 16. It shall be the responsibility of all permittees to monitor this radio channel at all times. Any announcement made by the department on VHF/Channel 16 shall constitute official notice. All fishing gear must be removed from the water by the announced time terminating fishing operations. The department may announce a temporary closure for the gill net fishery in order to get an accurate tally of landings and to allow all boats to unload. If the fishery is reopened, permittees may be placed on allotted tonnages to preclude exceeding a quota and, if necessary, additional time may be granted to reach the quotas.

(4) It is unlawful to transfer herring or herring nets from one permittee to another or from one boat to another, or from one gear type to another except that, nonmotorized lighters may be used, provided they do not carry aboard any gear capable of taking herring, including net reels, and that the catches of not more than one permittee are aboard the lighters at any time. Permit vessels shall not serve as lighters for other permit boats. In San Francisco Bay a permittee and his/her gear must stay together when delivering fish to market. Except as specified in subsection (e)(6) of these regulations, all fish taken by gill nets shall be retained and landed. Gill net permit vessels may not be used to assist in herring fishing operations during their off–week.

(5) All herring landed in excess of any established permit quota shall be forfeited to the department by the signing of a Release of Property form (FG–MR–674 (Rev. 5/02)), which is incorporated by reference herein. Such fish shall be sold or disposed of in a manner determined by the department. The proceeds from all such sales shall be paid into the Fish and Game Preservation Fund.

(6) Sturgeon, halibut, salmon, steelhead and striped bass may not be taken by or possessed on any vessel operating under the authority of these regulations. All sturgeon, halibut, salmon, steelhead and striped bass shall be returned immediately to the water.

(f) Methods of Take.

(1) For purposes of this section regarding harvest of herring: San Francisco Bay is defined as the waters of Fish and Game districts 12 and 13 and that portion of district 11 lying south of a direct line extending westerly from Peninsula Point, the most southerly extremity of Belvedere Island (37 degrees 51 minutes 43 seconds N, 122 degrees 27 minutes 28 seconds W), to the easternmost point of the Sausalito ferry dock (37 degrees 51 minutes 30 seconds N, 122 degrees 28 minutes 40 seconds W); Tomales Bay is defined as the waters of district 10 lying south of a line drawn west, 252 degrees magnetic, from the western tip of Tom's Point (38 degrees 12 minutes 53 seconds N, 122 degrees 57 minutes 11 seconds W) to the opposite shore (38 degrees 12 minutes 44 seconds N, 122 degrees 57 minutes 42 seconds W); ocean waters are limited to the waters of districts 6 (excluding the Crescent City area), 7, 10 (excluding Tomales Bay), 16 and 17 (except as specified in subsection (h)(6) of these regulations); Humboldt Bay is defined as the waters of districts 8 and 9; Crescent City area is defined as Crescent City Harbor and that area of the waters of district 6 less than 20 fathoms in depth between two nautical measure lines drawn due east and west true from Point Saint George (41 degrees, 47 minutes, 07 seconds N, 124 degrees, 15 minutes, 16 seconds W) and Sister Rocks (41 degrees, 39 minutes, 31 seconds N, 124 degrees 08 minutes 43 seconds W).

(2) The use of round haul nets to take herring for roe purposes is prohibited. The use of round haul nets to take herring is prohibited except in ocean waters (as defined in subsection (f)(1) of these regulations).

(A) No permittee shall possess or fish more than a total of 65 fathoms (1 shackle) of gill net, as measured at the cork line, in San Francisco and Tomales bays. Said gill nets shall not exceed 120 meshes in depth. In Humboldt Bay and Crescent City Harbor, no permittee shall possess or fish in combination more than 150 fathoms of gill net. Fresh fish permittees shall not possess or fish more than 65 fathoms (1 shackle).

Set gill nets shall be anchored by not less than 35 pounds of weight at each end, including chain; however, at least one–half of the weight must be anchor. Gill nets shall be tended at all times in San Francisco Bay. Tended means the registered gill net permittee shall be in the immediate

proximity, not exceeding three nautical miles, of any single gill net being fished.

(B) In Tomales Bay, the length of the meshes of any gill net used or possessed in the roe fishery shall not be less than 2 inches or greater than 2 1/2 inches, except that four permittees (designated by the department in writing) participating in department–sponsored research on mesh size may use gill nets approved by the department with mesh less than the size designated herein. In Humboldt Bay and Crescent City Harbor the length of the meshes of any gill net used or possessed in the roe fishery shall not be less than 2 1/4 inches or greater than 2 1/2 inches. In San Francisco Bay the length of the meshes of any gill net used or possessed in the roe fishery shall not be less than 2 or greater than 2 1/2 inches, except that six permittees (designated by the department in writing) participating in department–sponsored research on mesh size may use gill nets of another size approved by the department. The meshes of any gill net used or possessed by fresh fish permittees shall not be greater than 2 inches.

Length of the mesh shall be the average length of any series of 10 consecutive meshes measured from the inside of the first knot and including the last knot when wet after use; the 10 meshes, when being measured, shall be an integral part of the net as hung and measured perpendicular to the selvages; measurements shall be made by means of a metal tape measure while 10 meshes are suspended vertically under one–pound weight, from a single stainless steel peg or nail of no more than 5/32 inch in diameter. In Humboldt Bay and Crescent City Harbor, the length of any series of 10 consecutive meshes as determined by the above specification shall not be less than 22 1/2 inches or greater than 25 inches. In Tomales Bay, the length of any series of 10 consecutive meshes as determined by the above specifications shall not be less than 20 inches or greater than 25 inches. In San Francisco Bay, the length of any series of 10 consecutive meshes as determined by the above specification shall not be less than 20 inches or greater than 25 inches.

(C) No net shall be set or operated to a point of land above lower low water or within 300 feet of the following piers and recreation areas: Berkeley Pier, Paradise Pier, San Francisco Municipal Pier between the foot of Hyde Street and Van Ness Avenue, Pier 7 (San Francisco), Candlestick Point State Recreation Area, the jetties in Horseshoe Bay, and the fishing pier at Fort Baker. No net shall be set or operated within 70 feet of the Mission Rock Pier. In the Crescent City area and Humboldt Bay gill nets may be set or operated within 300 feet of any pier.

(D) No nets shall be set or operated in Belvedere Cove north of a line drawn from the tip of Peninsula Point (37 degrees 51 minutes 43 seconds N, 122 degrees 27 minutes 28 seconds W) to the tip of Elephant Rock (southwest of Pt. Tiburon at 37 degrees 52 minutes 19 seconds N, 122 degrees 27 minutes 03 seconds W). Also, no gill nets shall be set or operated from November 15 through February 15 inside the perimeter of the area bounded as follows: beginning at the middle anchorage of the western section of the Oakland Bay Bridge (Tower C at 37 degrees, 47 minutes, 54 seconds N, 122 degrees, 22 minutes, 40 seconds W) and then in a direct line southeasterly to the Lash Terminal buoy #5 (G"5" buoy, flashing green 4s at 37 degrees, 44 minutes, 23 seconds N, 122 degrees, 21 minutes, 36 seconds W), and then in a direct line southeasterly to the easternmost point at Hunter's Point (Point Avisadero at 37 degrees, 43 minutes, 44 seconds N, 122 degrees, 21 minutes, 26 seconds W) and then in a direct line northeasterly to the Anchorage #9 buoy "A" (Y"A" buoy, flashing yellow 4s at 37 degrees, 44 minutes, 46 seconds N, 122 degrees, 19 minutes, 25 seconds W) and then in a direct line northwesterly to the Alameda N.A.S. entrance buoy #1 (G"1" buoy, flashing green 4s at the entrance to Alameda Carrier Channel, 37 degrees, 46 minutes, 38 seconds N, 122 degrees, 20 minutes, 27 seconds W) and then in a direct line northwesterly to the Oakland Harbor Bar Channel buoy #1 (G"1" buoy, flashing green 2.5s at 37 degrees, 48 minutes, 15 seconds N, 122 degrees, 21 minutes, 23 seconds W) and then in a direct line southwesterly to the point of beginning. (Tower C of the Oakland Bay Bridge, at 37 degrees, 47 minutes, 54 seconds N, 122 degrees, 22 minutes, 40 seconds W).

(E) No boats or nets shall be operated or set in violation of existing state regulations applying to the navigation or operation of fishing vessels in any area, including but not limited to San Francisco Bay, Tomales Bay, Humboldt Bay and Crescent City Harbor.

(F) Gill nets shall be marked at both ends with a buoy displaying above its waterline, in Roman alphabet letters and Arabic numerals at least 2 inches high, the official number of the vessel from which such net is being fished. Buoys shall be lighted at both ends using matching white or amber lights that may be seen for at least a distance of 100 yards and marked at both ends with matching flags or markers or placards, all of rigid or non–collapsible material of the same color, on a staff at least 3 feet above the water at each end, bearing the herring permit number in contrasting 4–inch black letters.

(G) The use of explosives, seal bombs, or marine mammal deterrent devices in the herring fishery is prohibited inside the waters of San Francisco Bay during the herring season.

(H) All San Francisco Bay herring permittees or their temporary substitutes shall recognize city ordinances governing transient noise sources, when fishing within 500 feet of any shoreline with residential dwellings, between the hours of 10:00 p.m. and 7:00 a.m. through implementation of noise reduction measures specified or developed by the herring fishing industry and approved by the department. Noise reduction measures include, but are not limited to: noise dampening devices for shakers and anchor chains, muffled engine exhaust systems, limited use of deck speakers, and/or reduced speed within 500 feet of shore.

(g) Quotas.

(1) Crescent City Area: The total take of herring in the Crescent City area for commercial purposes by use of gill net only shall not exceed 30 tons per season.

(2) Humboldt Bay: The total take of herring in Humboldt Bay for commercial purposes by use of gill net only shall not exceed 60 tons per season.

(3) Tomales Bay: The total take of herring for commercial purposes by use of gill net only shall be 350 tons per season.

(A) The total take of herring for the fresh fish market shall not exceed 10 tons per season.

(4) San Francisco Bay: The total take of herring in San Francisco Bay for commercial purposes shall not exceed 1,094 tons (gill net permittees plus fresh fish allocation) for the 2007–08 season. Tonnage shall be allocated on the following basis:

(A) Gill net permittees (including "CH" permittees): 1,074 tons (1,094 tons minus fresh fish allocation). Tonnage shall be allocated to each fishing group ("DH", odd, and even) in proportion to the number of permits that are assigned to each fishing group minus the number of permits in each platoon that are suspended for the entire season. Each gill net permittee (designated by the department in writing) participating in research sponsored by the department shall be assigned an individual quota equal to 0.5 percent of the season gill net quota per assigned platoon, unless provided for pursuant to subsection (g)(4)(B) of these regulations.

(B) The total take of herring for the fresh fish market shall not exceed 20 tons per season, except that 10 tons total may be transferred, in proportion determined by the department, to gillnet permittee(s) participating in research sponsored by the department pursuant to subsection (g)(4)(A) of these regulations.

(5) Ocean Waters: Herring may not be taken for roe purposes.

(h) Season.

(1) Humboldt Bay: The season shall be from noon on January 2 until noon on March 9.

(2) Crescent City: The season shall be from noon on January 14 until noon on March 23.

(3) San Francisco Bay: The season shall be from 5 p.m. on Sunday, December 2, 2007 until noon on Friday, December 21, 2007 and from 5 p.m. on Wednesday, January 2, 2008 until noon on Friday, March 21, 2008.

(A) In San Francisco Bay, gill net permittees with even permit numbers and "CH" permittees assigned to the "even" fishing group shall be permitted to fish only on the following dates: January 6–11, January 20–25, February 3–8, February 17–22, March 2–7, and March 16–21.

(B) In San Francisco Bay, gill net permittees with odd permit numbers and "CH" permittees assigned to the "odd" fishing group shall be permitted to fish only on the following dates: January 2–4, January 13–18, January 27–February 1, February 10–15, February 24–29, and March 9–14.

(C) In San Francisco Bay, gill net permittees with "DH" permit numbers and "CH" permittees assigned to the "DH" fishing group shall be permitted to fish only on the following dates: December 2–7, December 9–14 and December 16–21. In the event permittees described under subsections (h)(3)(A) and (h)(3)(B) both reach their quotas pursuant to subsection (g)(4)(A), "DH" permittees, on notification by the department, may resume fishing operations until such group has reached the successive established termination date or quota.

(D) No more than six gill net permittees (designated in writing by the department) participating in research sponsored by the department shall be permitted to fish, under the direction of the department, from 5 p.m. on Sunday, December 2, 2007 until noon on Friday, December 21, 2007 and from 5 p.m. on Wednesday, January 2, 2008 until noon on Friday, March 21, 2008.

(4) In Tomales Bay, the season shall be from noon on Wednesday, December 26, 2007 until noon Friday, February 29, 2008.

(5) Herring fishing in San Francisco Bay is not permitted from noon Friday through 5:00 p.m. Sunday night. Herring fishing is allowed in Tomales Bay from noon Friday through 5:00 p.m. Sunday night if the department is reimbursed for the cost of operations. The department shall submit a detailed invoice of its cost of operations within 30 days of providing the service. Party shall remit payment to the department within 30 days of the postmark date of the department's invoice.

(6) Ocean Waters: The season shall be from April 1 to October 31 for all authorized fishing gear except in districts 16 and 17 where the season shall be from April 1 to November 30.

(7) In the event permittees described under subsections (h)(3)(A) or (h)(3)(B) reach their quota pursuant to subsection (g)(4)(A), the alternate group of permittees on notification by the department may commence fishing operations until such group has reached the successive established termination date or quota.

(i) Any permit issued pursuant to this section may be suspended or revoked at any time by the commission for cause after notice and opportunity to be heard, or without a hearing upon conviction of a violation of Fish and Game Code statutes or Division 1, Title 14, CCR, while fishing as a participant in the herring fishery by a court of competent jurisdiction. A permittee whose permit has been suspended or revoked for conviction of a violation of Fish and Game Code statutes or Division 1, Title 14, CCR, while fishing as a participant in the herring fishery may request a hearing before the commission to show cause why his/her herring fishing privileges should be restored. A person whose herring permit has been revoked by the commission shall not participate in any herring fishery during the following season. A person whose herring permit has been suspended for the entire season by the commission shall not participate in any herring fishery during the season the permit is suspended. A person whose herring permit has been suspended for a period less than the entire season by the commission shall not participate in any herring fishery during the period that the permit is suspended. If a herring permit that had a temporary substitute is suspended by the commission due to the actions of the temporary substitute, the person who acted as the temporary substitute shall not participate in any herring fishery during the following season during the period that the permit is suspended. If a herring permit that had a temporary substitute is revoked by the commission due to the actions of the temporary substitute, the person who acted as the temporary substitute shall not participate in any herring fishery during the following season. If a herring permittee is convicted of a violation, or if the permit is suspended or revoked, due to the actions of a temporary substitute who is simultaneously fishing his or her own permit on a single vessel in the same fishing group, the person who was acting as the temporary substitute will receive the same penalty against his/her own permit as received by the permittee, pursuant to these regulations and Section 163.5, Title 14, CCR. For Category II violations prescribed in Section 163.5(f) against a permit due to the actions of a temporary substitute while simultaneously fishing his/her own permit, equal points or penalties shall be assigned to the permit owned by the temporary substitute.

(j) Herring Buyer's Permit. A holder of a current fish receiver's license shall obtain a permit to buy herring for roe purposes for each fishing area specified in subsection (f)(1) of these regulations and approved by the department. After approval of an application and payment of the $750 filing fee (filing fees in Humboldt Bay and Crescent City area shall be waived), a revocable, nontransferable permit to buy herring for roe purposes may be issued subject to the following regulations:

(1) The permittee shall permanently mark all vehicles, containers or pallets with individualized serial numbers and predetermined tare weights.

The serial number and predetermined tare weight shall be permanently marked in letters, and numerals at least 3 inches high on each side of vehicle container or pallet.

(2) A landing receipt must be made out immediately upon completion of weighing of any single boat load (hereinafter "load") of herring of a permittee. A sample of herring for roe testing purposes shall be taken from every load. No herring shall be taken for testing purposes from a load that has not first been weighed and recorded.

(A) The landing receipt for each vessel must be completed and signed by both the herring permittee and a certified weighmaster or his/her deputy prior to commencing unloading operations of another vessel.

(B) The weighmaster or deputy filling out the landing receipt must include all information required by Fish and Game Code Section 8043 and shall sign the landing receipt with his/her complete signature. The weighmaster shall list on the landing receipt the number of fish in, and the weight of, each roe test for the landing reported on the receipt.

(C) All landing receipts that have not been delivered to the department must be immediately available to the department at the weigh station.

(D) A reasonable amount of herring will be made available by the herring buyer to the department, at no cost, for management purposes.

(3) Prior to weighing herring, each permittee shall have each weighing device currently certified and sealed by the County Division of Weights and Measures.

(4) Weight tally sheets shall be used when any load of fish is divided and placed into more than one container prior to the completion of the landing receipt. Weight tally sheets shall include the time unloading operations begin.

(A) The tally sheets shall be composed of four columns:

1. The serial or I.D. number of all containers in which the load is initially placed and all subsequent containers, if any, in which the load is placed until, and including for, shipment from the buyer's premises.

2. The gross weight;

3. The tare weight of the bin or containers; and

4. The net weight of fish. Net weight will include the weight of the herring taken for testing purposes.

(B) The work or weight tally sheets shall be retained by the permittee for one year, and must be available at all times for inspection by the department.

(C) When requested by the department, the buyer shall submit to the department a California Highway Patrol weighing certificate for any truck load designated by the department. Such certificate shall be placed in the U.S. Postal system to the department's San Francisco Bay Area Marine Region office within twenty–four (24) hours of the truck's departure from the buyer's premises.

(5) In San Francisco Bay, herring may not be unloaded between the hours of 10 p.m. and 6 a.m., or at any time on Saturdays and Sundays, unless the permittee has notified and received prior approval from the department to conduct such activities during those hours.

(6) Every permittee shall comply with all applicable sections of the Fish and Game Code.

(7) The permittee is responsible to ensure that all provisions of the herring buyer's permit are complied with, even though the tasks may be delegated to others.

(8) The permit may be revoked upon violation of any provisions contained herein by the holder of the permit, his/her agents, servants, employees, or those acting under his/her direction or control and shall not be renewed for a period of one year from the date or revocation.

HISTORY

1. Amendment of subsections (a), (e)–(h) and (j) filed 9–15–88; operative 10–15–88 (Register 88, No. 39). For prior history, see Register 87, No. 47.
2. Amendment of subsection (h) filed 12–21–88 as an emergency; operative 12–21–88 (Register 89, No. 1). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 4–20–89.
3. Amendment filed 11–27–89 as an emergency; operative 11–27–89 (Register 90, No. 2). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 3–27–90.
4. Certificate of Compliance as to 11–27–89 order transmitted to OAL 3–26–90 and filed 4–24–90 (Register 90, No. 19).
5. Amendment of subsection (c) filed 4–18–91; operative 5–18–91 (Register 91, No. 21).
6. Amendment of first paragraph, subsections (a)(4)–(5), (b)(2), (c)(1), (c)(1)(C), (c)(1)(D)2, (c)(2), (e)(2), (e)(4), (f)(2), (f)(2)(C)–(E), (g)(3)(A)–(B), (g)(4), (h) and (j) and adoption of subsection (e)(7) filed 12–13–91; operative 12–13–91 pursuant to Government Code section 11346.2 (d) (Register 92, No. 13).
7. Amendment of subsections (b)(2), (c)(1), (c)(3), (e)(3), (e)(7), (e)(7)(B)(4), (f)(2)(B)–(C), (g)(3)(A)–(B), (g)(4)–(g)(4)(B), and (h)(1)–(7) filed 11–10–92; operative 12–10–92 (Register 92, No. 46).
8. Amendment of section text and NOTE filed 10–28–93; operative 11–28–93 (Register 94, No. 45).
9. Amendment of section text and NOTE filed 11–3–94; operative 11–3–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 45).
10. Amendment of section and NOTE filed 11–7–95; operative 11–7–95 pursuant to Fish and Game Code sections 202 and 215 (Register 95, No. 45).
11. Amendment filed 11–12–96; operative 11–12–96 pursuant to Fish and Game Code sections 202 and 215 (Register 96, No. 46).
12. Amendment of section and NOTE filed 10–8–97; operative 10–8–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 41).
13. Amendment filed 10–30–98; operative 10–30–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 44).
14. Amendment of subsections (a)(1), (c)(1)(B), (c)(1)(C), (c)(2), (f)(2)(B), (f)(2)(D), (g)(3)(A), (g)(4), (g)(4)(A), (h)(3)–(h)(3)(D), (h)(4), (i) and (j)(2)(B) and repealer of subsections (g)(3)(A)1.–4. filed 11–1–99; operative 11–1–99 pursuant to Fish and Game Code section 202 (Register 99, No. 45).
15. Amendment filed 10–27–2000; operative 10–27–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 43).
16. Amendment of first paragraph and amendment of subsections (a)(6), (b)(2), (e)(3), (e)(4), (e)(6), (f)(2)(B) and (f)(2)(F), new subsections (f)(2)(G)–(H) and amendment of subsections (g)(3)(A), (g)(4)–(g)(4)(B), (h)(3)–(h)(3)(D), (h)(4), (i), (j)(2) and (j)(8) filed 10–31–2001; operative 11–1–2001 pursuant to Fish and Game Code section 215 (Register 2001, No. 44).
17. Amendment of first paragraph and subsections (a)(4), (b)(2), (c)(1)(D)2., (e)(5), (f)(1), (f)(2)(B), (f)(2)(D), (g)(3)(A), (g)(4)–(g)(4)(B) and (h)(3)–(h)(4) filed 10–21–2002; operative 10–21–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 43).
18. Amendment of subsections (f)(2)(B), (f)(2)(D), (g)(3)(A), (g)(4)–(g)(4)(B) and (h)(3)–(h)(4) and amendment of NOTE filed 11–13–2003; operative 11–15–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 46).
19. Amendment of subsections (f)(2)(B), (g)(3)(A), (g)(4), (h)(3)–(4) and (h)(7) filed 11–3–2004; operative 11–3–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 45).
20. Amendment of subsections (f)(2)(A)–(B), (g)(3)(A), (g)(4)–(g)(4)(A) and (h)(3)–(h)(5) filed 12–19–2005; operative 12–19–2005 pursuant to Government Code section 11343.4 (Register 2005, No. 51).
21. Amendment filed 12–1–2006; operative 12–1–2006 pursuant to Government Code section 11343.4 (Register 2006, No. 48).
22. Amendment of first paragraph and subsections (b)(1), (b)(3), (f)(2)(A), (g)(4)–(g)(4)(A) and (h)(3)–(4) filed 11–28–2007; operative 11–28–2007 pursuant to Government Code section 11343.4 (Register 2007, No. 48).
23. Repealer and new subsection (b)(3) and amendment of NOTE filed 7–8–2008; operative 7–8–2008 pursuant to Government Code section 11343.4 (Register 2008, No. 28).

§ 163.1. Herring Permit Transfers.

(a) Definitions.

Individual means a single natural person.

Individually held means a permit that is not held by a partnership under Fish and Game Code Section 8552.6.

Permit means a valid entitlement issued pursuant to Fish and Game Code Section 8552, which has not been suspended or revoked, to take herring for roe purposes.

Fishing group means those platoons whose season is designated in Section 163(a) of these regulations.

(b) Multiple permits. In the San Francisco Bay fishery, no person may ever hold, either individually or in partnership, more than a total of three permits, and/or more than one permit in any fishing group.

(c) Notice/application to transfer and transfer fee. A transfer under this regulation does not require the notice to qualified point holders required by Fish and Game Code Section 8552.2. The permit holder must submit a notarized letter, signed by the permit holder, to the department's San Francisco Bay Area Marine Region office requesting transfer of the permit, identifying the individual to whom the permit is to be transferred. Notwithstanding Fish and Game Code Section 8552.7 the fee to transfer a herring permit is one thousand dollars ($1000). The fees shall be deposited in the Fish and Game Preservation Fund and shall be expended for research and management activities to maintain and enhance herring resources pursuant to subsection 8052(a) of the Fish and Game Code.

(d) Permit Renewal. Each permit individually held shall be separately renewed according to the procedures in Section 163 of these regulations.

(e) Appeals. Any individual who is denied the transfer of a permit may appeal in writing to the department's San Francisco Bay Area Marine Region office not more than 60 days from the date of denial. The appeal shall describe the basis for the appeal and contain all supporting evidence. If the denial is sustained, the individual may appeal in writing to the commission within 60 days of the date of the department's decision.

NOTE: Authority cited: Sections 8552.1, 8552.3 and 8553, Fish and Game Code. Reference: Sections 8552, 8552.1, 8552.2, 8552.3 and 8552.7, Fish and Game Code.

HISTORY

1. New section filed 12–19–2005; operative 12–19–2005 pursuant to Government Code section 11343.4 (Register 2005, No. 51).
2. Amendment of section heading, section and NOTE filed 3–27–2006; operative 3–27–2006 pursuant to Government Code section 11343.4 (Register 2006, No. 13).

§ 163.5. Penalties in Lieu of Suspension or Revocation—Herring Permittees.

(a) Pursuant to the provisions of section 309 of the Fish and Game Code and sections 163 and 746, Title 14, CCR, any permit issued pursuant to Section 8550 of the Fish and Game Code may be suspended or revoked at any time by the Commission for cause, after notice and an opportunity to be heard, or without a hearing upon conviction of the permittee or his/her substitute (pursuant to Section 163, Title 14, CCR) of a violation of Fish and Game Code statutes or Division 1, Title 14, CCR, while fishing as a participant in the herring fishery by a court of competent jurisdiction. A permittee whose permit has been suspended or revoked for conviction of a violation of Fish and Game Code statutes or Division 1, Title 14, CCR, while fishing as a participant in the herring fishery may request a hearing before the commission to show cause why his or her herring fishing or buying privileges should be restored.

(b) Notwithstanding subsection (a), the Executive Secretary of the Commission shall enter into a stipulated compromise settlement agreement with the consent of the permittee for category I violations, and may enter into a compromise for category II violations with the consent of the permittee. The provisions of this section regarding compromise settlement agreements shall not apply if action is brought to recover civil damages under Section 2014 of the Fish and Game Code from the person subject to action under this section.

(c) Terms and Conditions of a stipulated compromise agreement may include, but are not limited to, the payment of monetary penalties, the reduction of a revocation to a suspension for a specified period of time, a

period of probation not to exceed three years or any other terms and conditions, mutually agreed upon by the Executive Secretary acting for the Commission and the permittee, without further hearing or appeal.

(d) A compromise settlement agreement may be entered before, during or after the Commission hearing on the matter, but is valid only if executed and signed by the Executive Secretary and the permittee prior to the adoption of the decision by the Commission. Any monetary penalty included in a compromise settlement agreement shall be within the range of monetary penalties as prescribed in subsection (f) of these regulations and shall be due and payable within 30 days after the compromise is entered into. Any and all funds submitted as payment in whole or in part by a permittee of any monetary penalties stipulated in a compromise settlement agreement shall be nonrefundable.

(e) If the permittee fails to perform all of the terms and conditions of the compromise settlement agreement, such agreement is thereby declared void and the Commission, notwithstanding the compromise settlement agreement, may take any action authorized by section 163 of these regulations against the permittee.

(f) Procedures for determining monetary penalties:

(1) Monetary penalties (score range multiplied by the monetary range) for compromise settlement agreements shall be based on the following point system:

SCORE RANGE (Total Points)	*MONETARY RANGE*
1–10	$200 per point as provided in subsection (f)(2) below.
11+	$400 per point as provided in subsection (f)(2) below.

(2) The score range shall be based on a cumulative total of the points assigned in this subsection:

(A) POINTS ASSIGNED FOR CATEGORY I VIOLATIONS ARE AS FOLLOWS:

1. Failure to properly identify vessel (Sec. 163(d))	1 point
2. Improperly marked buoys or flags (Sec. 163(f)(2)(F))	1 point
3. Failure of permittee to have herring permit, commercial fishing license, or boat registration aboard the permit vessel (Sec. 163, para. 1)	2 points
4. Setting or operating nets within 300 feet of specified piers and jetties (Sec. 163(f)(2)(C) and (f)(2)(E))	3 points
5. Failure to "tend" nets (Sec. 163(f)(2)(A))	5 points
6. Failure of herring buyer to permanently mark all vehicles, containers or pallets (Sec. 163(j)(1))	5 points

(B) POINTS ASSIGNED FOR CATEGORY II VIOLATIONS ARE AS FOLLOWS:

1. Unloading fish without recovering both nets and having them aboard vessel (Sec. 163(e)(4))	6 points
2. Fishing in a closed area (Sec. 163(f)(1) and 163(f)(2)(D))	12 points, plus all fish and nets on the vessel at the time of the violation shall be forfeited to the department and such fish and nets shall be sold or disposed of in a manner determined by the department with the proceeds from all such sales paid into the Fish and Game Preservation Fund
3. Failure to remove fishing gear from water by announced time terminating fishery operations (Sec. 163(e)(3))	6 points, plus 1/2 point for each hour, or portion thereof, after closing time
4. Possession or use of nets with undersized mesh (Sec. 163 (f)(2)(B))	12 points, plus all fish and nets on the vessel at the time of the violation shall be forfeited to the department and such fish and nets shall be sold or disposed of in a manner determined by the department with the proceeds from all such sales paid into the Fish and Game Preservation Fund
5. Failure to immediately return all halibut, sturgeon, salmon, steelhead and striped bass to the water (Sec. 163(e)(6))	10 points
6. Possession or use of extra nets or nets which exceed maximum length restrictions (Sec. (f)(2)(A))	12 points, plus 1/2 point for every 5 fathoms of net, or portion thereof, exceeding maximum, plus all fish and nets on the vessel at the time of the violation shall be forfeited to the department and such fish and nets shall be sold or disposed of in a manner determined by the department with the proceeds from all such sales paid into the Fish and Game Preservation Fund
7. Failure of permittee or his or her temporary substitute, authorized by the department, to be aboard the vessel during herring fishing operations (Sec. 163, para 1)	10 points
8. Failure to complete and maintain weight tally sheets (Sec. 163(j)(4))	10 points
9. Failure to immediately complete a Fish and Game receipt upon completion of weighing any load or lot of fish (Sec. 163(j)(2))	15 points

(C) For each prior conviction of the permittee within the past three years for violations of the laws or regulations pertaining to the commercial take of herring:

1. The following additional points shall be assessed:

(i) For one prior conviction for a violation of the commercial herring fishing laws or regulations within the past three years, the monetary assessment shall be doubled if the total point score (points from prior violation added to points for current violation) is 10 or less, and tripled if such total point score is 11 points or more.

(ii) For two prior convictions for violations of the commercial herring fishing laws or regulations within the past three years, the monetary assessment shall be quadrupled if the total point score (points from prior convictions added to points for current violation) is 17 or less.

2. The permit shall be revoked, or suspended for a period of at least 1 year, if the total point score is 18 points or more.

(3) Conviction of multiple violations, committed at the same time, shall be treated as one conviction for the purposes of implementing the provisions of this section.

(4) All monetary penalties for compromise agreements assessed under this section shall be deposited by the Department to the Fish and Game Preservation Fund.

NOTE: Authority cited: Sections 1050, 8553 and 8555, Fish and Game Code. Reference: Sections 309, 1050, 7852.2, 8552, 8553 and 8555, Fish and Game Code.

HISTORY

1. New section filed 1–3–89; operative 2–2–89 (Register 89, No. 1). For history of former section, see Register 76, No. 35.
2. Amendment of subsections (a), (f)(1), (f)(2)(A)4., (f)(2)(A)6., and (f)(2)(B)3. and repealer of subsection (f)(4) filed 1–15–92 as an emergency; operative 2–14–92 (Register 92, No. 12).
3. Amendment of subsections (a), (f)(2)(B)3., (f)(2)(B)5. and (f)(2)(B)7. filed 11–12–96; operative 11–12–96 pursuant to Fish and Game Code sections 202 and 215 (Register 96, No. 46).
4. Repealer of subsection (f)(2)(A)3., subsection renumbering and amendment of subsection (f)(2)(B)6. filed 10–30–98; operative 10–30–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 44).
5. Amendment of subsection (a) filed 10–27–2000; operative 10–27–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 43).
6. Repealer of subsection (f)(1)(B)1. and subsection renumbering filed 10–31–2001; operative 11–1–2001 pursuant to Fish and Game Code section 215 (Register 2001, No. 44).
7. Amendment of subsection (f)(2)(B)7. filed 10–21–2002; operative 10–21–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 43).
8. Repealer of subsection (f)(2)(A)3., subsection renumbering and amendment of NOTE filed 7–8–2008; operative 7–8–2008 pursuant to Government Code section 11343.4 (Register 2008, No. 28).

§ 163.6. Commercial Harvesting of Herring.

NOTE: Authority cited: Section 8550, Fish and Game Code. Reference: Section 8550, Fish and Game Code.

HISTORY

1. New section filed 5–4–76 as an emergency; effective upon filing (Register 76, No. 19).
2. Certificate of Compliance filed 6–30–76 (Register 76, No. 27).
3. Repealer filed 8–27–76; effective thirtieth day thereafter (Register 76, No. 35).

§ 164. Harvesting of Herring Eggs.

(a) Herring eggs may be taken for commercial purposes only under a revocable, nontransferable permit issued by the department. A department–issued copy of the permit shall be aboard each vessel harvesting, processing or transporting herring eggs under the authority of the permit. The permittee or his/her authorized agent shall be aboard any vessel that is harvesting, processing or transporting herring eggs under the authority of the permit. The permit shall list the names of all authorized agents and all vessels used for harvesting, processing or transporting herring eggs under the authority of the permit (This includes the attachment of any changes approved by the department after the permit is issued).

(b) Herring eggs may be harvested only from the waters of San Francisco Bay. The harvest season is December 1 to March 31.

(c) For purposes of this section, San Francisco Bay is defined as the waters of Fish and Game districts 11, 12, 13 and that part of district 2 known as Richardson Bay.

(d) No more than 11 permits may be issued under the provisions of these regulations. No new permits shall be issued until the maximum number of permits is less than 10. The commission will review and determine annually whether further action, other than permit attrition, is deemed necessary to achieve a reduction to 10 permits.

(e) Fishing, Harvesting, and Processing Defined. Unless the context requires otherwise, the following definitions shall apply to the herring eggs on kelp (HEOK) fishery:

(1) "Fishing" means the act of suspending giant kelp (*Macrocystis pyrifera*) for the purposes of taking herring eggs, and/or the subsequent act of removing herring eggs on kelp from the water for the purposes of transport or harvest. Any person engaged in fishing shall possess a commercial fishing license pursuant to Section 7850 of the Fish and Game Code.

(2) "Harvesting" means the act of removing herring eggs on kelp from the water for the purposes of processing for sale and/or transport to market. Any person engaged in harvesting shall possess a commercial fishing license pursuant to Section 7850 of the Fish and Game Code.

(3) "Processing" means the act of separating or removing kelp blades (with herring eggs attached) from the stipe of harvested herring eggs on kelp, and loading the processed blades into bins or totes. Any person engaged in, or employed for the specific purpose of, processing herring eggs on kelp shall fall under the category of nonapplicability in regard to possession of a commercial fishing license pursuant to Section 7850.5 of the Fish and Game Code. Pursuant to Section 7850.5 of the Fish and Game Code, a person engaged in processing (permittees and authorized agents excepted) may stand aboard a herring eggs on kelp vessel while at a dock or landing, but any not be transported aboard the vessel. A person engaged in processing (permittees and authorized agents excepted) may not stand on the herring eggs on kelp raft, nor physically participate in the removal of herring eggs on kelp from the water.

(f) Permits. Permits shall be issued in two categories:

(1) Prior permittee. Permits shall be issued to all prior permittees. A prior permittee is defined as a person who has:

(A) met the requirements under subsection (g) of these regulations, and

(B) renewed their herring eggs on kelp permit for the immediately preceding herring eggs on kelp season, and

(C) submitted all fees from prior seasons.

(2) New permittee. A new permittee is defined as any applicant who held a herring permit issued pursuant to Section 163 of these regulations during the preceding herring season, but does not qualify as a prior permittee as defined above. The total number of permits available to new permittees shall be the difference between the 10 permit limit and the number of permits issued to individuals qualifying as prior permittees. In the event that the number of eligible applicants qualifying for new permits exceeds the number of available permits, a lottery shall be held.

(g) Permit conditions: Every person operating under a permit to harvest herring eggs shall:

(1) Forfeit his or her herring fishing privileges authorized pursuant to Section 163 of these regulations during the same season.

(2) In addition to any license fees required by the Fish and Game Code, pay a royalty of $500 per ton of herring eggs on kelp taken. (The royalty fee shall include the landing tax imposed pursuant to Article 7.5, (commencing with Section 8040) Chapter 1, Part 3, Division 6, of the Fish and Game Code, and the royalty fee required for the harvesting of kelp pursuant to Section 165, Title 14 CCR).

(3) Submit a Herring–Eggs–on–Kelp Monthly Landings and Royalty Report (FG 143 HR (Rev. 5/01), which is incorporated by reference herein (available at the department's San Francisco Bay Area Marine Region office), with payment due to the department's San Francisco Bay Area Marine Region office for each month of the season, within 60 days after the close of the month for which it is due.

(h) Permit applications. Each applicant for a herring eggs on kelp permit shall:

(1) Completely fill out and submit the required department Herring–Eggs–on–Kelp Permit Application (FG 1406 5/07)) which is incorporated by reference herein (available at the department's License and Revenue Branch, Sacramento), for the season to which the application applies. No person shall submit more than one application per season. Applications shall include a performance deposit as specified in subsection (i).

(2) Permit Renewal. Applications for renewal of all Herring–Eggs–on–Kelp permits shall be received by the department, or if mailed, postmarked, on or before August 1 each year. Late fees, late fee deadlines, and late renewal appeal provisions are specified in Fish and Game Code Section 7852.2.

(3) Have submitted all fees from prior seasons.

(i) Each application shall include a performance deposit equal to 50% of the royalty price for the permit (i.e., allotment). The deposit shall be credited to the amount payable by the successful applicants and shall not be refundable. The performance deposit shall be returned to an applicant who does not qualify for a permit.

(j) Method of Take. Herring eggs may only be taken by harvesting giant kelp (*Macrocystis* sp.), with spawn (i.e., eggs) attached, which has been artificially suspended using the following two methods: rafts and/or lines, a technique commonly known as the "open pond" method. For the purpose of this Section, a raft is defined as a temporary, mobile structure with a metal, wood or plastic frame. The total surface area of each raft is not to exceed 2,500 square feet. Rafts used by a licensed herring eggs on kelp permittee, prior to the 1995–96 season, are exempt from these size specifications. Such rafts may not be modified to exceed 2,500 square feet total surface area. Any new raft built after the 1995–96 herring eggs on kelp season must meet the specified dimensions. A line is defined as a piece of line of no more than 1200 feet in overall length that is suspended under a suitable permanent structure (e.g., pier or dock), or between two permanent structures (e.g., piers or docks). Kelp lines shall have floats or cork over the entire length of line. Each end of the line must be attached to a permanent structure. Kelp lines suspended from a permanent structure (e.g., pier or dock) shall not be placed as to hinder navigation. If kelp lines are suspended under a permanent structure (e.g., pier or dock), or if a raft is tied up to a permanent structure (e.g., pier, dock or rock wall, natural stationary shoreline structures), the permittee shall obtain prior written approval from the appropriate owners or controlling agency (e.g., wharfinger, Coast Guard, Navy or private owner). Buoys are not permanent structures.

(1) Not more than two rafts and/or two lines may be used per permit. Two permits may be simultaneously fished on the same raft if each line on the raft is clearly identified with the permit number of the owner. Each raft shall have a light at each corner that may be seen for at least a distance of 100 yards. Each raft shall be further identified with the herring eggs on kelp permit number in 14–inch high, 2–inch wide black Roman alphabet letters and Arabic numerals painted on a white background permanently affixed to the raft. Lines shall be marked at the beginning and the end with a light that may be seen for at least a distance of 100 yards. Each line shall be further identified with the herring eggs on kelp permit number in 14–inch high, 2–inch wide black Roman alphabet letters and Arabic numerals painted on a white background, permanently affixed to the line.

(2) Not more than ten sets of test kelp may be used per permit. Test kelp is defined as one stipe with blades, attached to a length of line for the purpose of testing for spawning activity. A set is defined as one length of line with test kelp attached. Each set must be attached to a permanent structure (e.g., pier, dock) and marked with the herring eggs on kelp permit number, in Roman alphabet letters and Arabic numerals at least 3 inches high, at a point above the waterline. No herring eggs on kelp shall be retained from test kelp sets for testing purposes that have not been weighed and recorded, pursuant to subsection 164(k).

(3) Rafts and/or lines may not be placed in any waters or areas otherwise closed or restricted to the use of herring gill nets operating pursuant to Section 163 of these regulations, except where written approval is granted by the owners or controlling agency (e.g., Navy, Coast Guard). Rafts and/or lines may be placed in Belvedere Cove or Richardson Bay, only if permittees tie their rafts and/or lines to a permanent structure (e.g., pier, dock or rock wall, natural stationary shoreline structures), and obtain prior written approval. Buoys are not permanent structures.

(4) The total amount of herring eggs on kelp that may be harvested by each permittee shall be based on the previous season's spawning population assessment of herring in San Francisco Bay, as determined by the department. This assessment is used to establish the overall herring fishing quotas pursuant to Section 163 of these regulations.

The total amount of herring eggs on kelp that may be harvested by an individual possessing a gill net permit issued pursuant to Section 163 of these regulations shall be 0.9 tons per season. The total amount of herring eggs on kelp that may be harvested by an individual possessing a "CH" permit issued pursuant to Section 163 of these regulations shall be 1.9 tons per season.

(5) Each vessel operating under or assisting in fishing operations under a permit issued pursuant to these regulations shall have a current Fish and Game commercial boat registration and be further identified with the permittee's herring eggs on kelp permit number in 14–inch high, 2–inch wide black Roman alphabet letters and Arabic numerals painted on a white background permanently affixed to each side of the vessel. If a herring eggs on kelp vessel is also used as an assist vessel in another permittee's fishing operation, it must be identified with the number of the permit it is assisting.

(6) The permittee shall notify the department's License and Revenue Branch, Sacramento in writing with the name and registration number of any vessel that will be used for harvesting, processing or transporting herring eggs under the authority of the permit. The permittee shall provide a copy of the current California certificate of boat registration with the permittee's written notification. The permittee shall receive written approval from the department before using a vessel for harvesting, processing or transporting herring eggs.

(7) Permittee shall notify the department's San Francisco Bay Area Marine Region office at the telephone number designated on the herring eggs on kelp permit within a 4–hour period prior to the suspension of kelp on a raft and/or lines and supply the following information:

(A) Where the kelp suspension will take place; and

(B) Where the permittee plans to fish the rafts and/or lines; and

(C) A local fax number or mailing address where confirmation of kelp suspension notification can be sent.

(k) Harvesting, Landing and Processing Requirements. Every person who harvests, receives, processes or wholesales herring eggs shall comply with the following requirements.

(1) Obtain all appropriate commercial fish business licenses and permits required by Fish and Game Code sections 8030–8038.

(2) Permittee shall notify the department's San Francisco Bay Area Marine Region office at the telephone number designated on the herring eggs on kelp permit a minimum of 12 hours prior to harvesting herring eggs on kelp on a weekday and supply the following information: description and point of departure of the vessel used; the exact location of each raft and/or line and estimated time of beginning of each operation; and if harvesting occurs, the point of landing and time of landing or off–loading of the herring eggs on kelp harvested. If any of this information changes after notification is given, the permittee shall again notify the department at the telephone number designated on the herring eggs on kelp permit.

(3) Herring eggs on kelp may be harvested any time on weekdays, but shall not be off–loaded between the hours of 10:00 p.m. and 6:00 a.m.

(4) Herring eggs on kelp may be harvested on Saturdays and Sundays at any time if the permittee reimburses the department for the cost of operations. The department shall submit a detailed invoice of its cost of operations within 30 days of providing the services. Permittee shall remit payment to the department within 30 days of the postmark date of the department's invoice. Permittee shall notify the department at the phone number designated on the herring eggs on kelp permit, during normal business hours (between 8:00 a.m. and 5:00 p.m., Mondays through Friday) prior to harvesting herring eggs on kelp on Saturday or Sunday, and shall supply the following information:

(A) Description and point of departure of the vessel used.

(B) The exact location of each raft and estimated time of the beginning of the harvesting operation, the estimated time of off–loading of the harvested product, and the point of off–loading.

(C) A local telephone number of the permittee for the immediate confirmation or clarification of the information required in subsection 164(k)(4).

(5) Permittee shall have a certified scale aboard the vessel at all times if any brining is conducted aboard that vessel. This scale shall be used to determine the total weight of herring eggs on kelp prior to brining. For the purposes of this section, all portions of the kelp blade, including all trimmed–off portions (trim), shall be considered part of the harvested product and included in the total weight of herring eggs on kelp. The stipe and pneumatocyst shall not be considered a part of the harvested product;

therefore, the weight of the stipe and pneumatocyst shall not be considered in determining the total weight of herring eggs on kelp.

(6) All bins or totes shall be permanently marked with individualized serial numbers, beginning with the prefix CA, and predetermined tare weights (including lids). The serial number and predetermined tare weight shall be permanently marked in letters and numerals at least 3 inches high on each side of the bin or tote.

(7) Prior to weighing herring eggs on kelp, each receiver of herring eggs on kelp shall have a scale currently certified and sealed by the County Division of Weights and Measures.

(8) Weight tally sheets and a landing receipt shall be immediately completed upon the landing and weighing of any single permittee's boat load of harvested herring eggs on kelp (hereinafter "load").

(A) The landing receipt for each herring eggs on kelp permittee shall be completed and signed by the permittee prior to commencing unloading operations of another permittee's load.

(B) The landing receipt for each load shall include all information required by Fish and Game Code Section 8043. Tally sheets shall indicate the serial number, the tare weight of the bin or tote, the net weight of the product (eggs on kelp), excluding the salt and brine and the gross weight of each bin or tote. Filled bins or totes shall be weighed when landed on–shore, or before they are moved from the premises if processing takes place on–shore. The weight tally sheet shall be retained by the permittee for one year and shall be available at all times for inspection by the department. All herring eggs on kelp landed in excess of any established permit quota shall be forfeited to the department by the signing of a Release of Property form (FG–MR–674 (Rev. 5/02)), which is incorporated by reference herein). Such excess of herring eggs on kelp shall be sold or disposed of, and the proceeds from all such sales shall be paid into the Fish and Game Preservation Fund.

(9) There shall be no landing or off–loading of herring eggs on kelp from a permittee's vessel, from 10:00 p.m. Friday to 6:00 a.m. Monday, unless brining is conducted at a shore–based facility. If brining occurs on–shore, the permittee shall notify the department's designated contact 12 hours prior to the shipping or removal of the bins or totes from the premises.

(*l*) These regulations and all sections of the Fish and Game Code pertaining thereto shall be set forth in all permits. Permits shall be issued upon the conditions contained in the application and signed by the applicant that he has read, understands, and agrees to be bound by all terms of the permit.

(m) A permit may be suspended by the Department of Fish and Game for breach or violation of the terms of the permit by the permittee, or any other person(s) operating under the terms of the permit. Any such suspension may be appealed to the Fish and Game Commission pursuant to section 746 of these regulations.

(n) Authorized agents. Each herring eggs on kelp permittee may designate two authorized agents to operate under his or her permit. To designate an authorized agent, the permittee shall submit to the department's License and Revenue Branch, Sacramento a completed, signed Authorized Agent Form (MRD 164 (8/97)) which is incorporated by reference herein. A permittee may replace an authorized agent by submitting a new Authorized Agent Form to the department's License and Revenue Branch, Sacramento. A copy of the current California commercial fishing license for each authorized agent shall be submitted with each Authorized Agent Form. A person designated on the Authorized Agent Form shall act as an authorized agent only after the permittee has received written approval from the department. An authorized agent:

(1) May serve in the place of the permittee for all fishery activities requiring the presence or action of the permittee, including the signing of landing receipts;

(2) Shall possess a current California commercial fishing license;

(3) Shall not be another herring eggs on kelp permittee unless the other permittee has stopped fishing his or her permit for the season;

(4) Who does not hold a herring eggs on kelp permit, may act as an authorized agent for more than one herring eggs on kelp permittee.

NOTE: Authority cited: Sections 1050, 5510, 8389, 8553 and 8555, Fish and Game Code. Reference: Sections 1050, 7850. 7850.5, 7852.2, 8043, 8053, 8389 and 8550–8556, Fish and Game Code.

HISTORY

1. New section filed 10–8–69 as an emergency; designated effective 11–10–69 (Register 69, No. 41). For history of prior section, see Register 63, No. 1.
2. Certificate of Compliance—section 11422.1, Government Code, filed 12–17–69 (Register 69, No. 51).
3. Amendment filed 6–30–78; effective thirtieth day thereafter (Register 78, No. 26).
4. Amendment of NOTE filed 10–19–81; effective thirtieth day thereafter (Register 81, No. 43).
5. Amendment filed 3–29–90; operative 3–29–90 (Register 90, No. 19).
6. Amendment of subsections (i) and (j) filed 10–23–91; operative 11–22–91 (Register 92, No. 5).
7. Amendment of subsections (f)(2), (i) and (i)(2) filed 11–10–92; operative 12–10–92 (Register 92, No. 46).
8. Amendment of subsections (i)(2) and (j)(2), new subsection (j)(2)(D) and amendment of NOTE filed 10–28–93; operative 11–28–93 (Register 94, No. 45).
9. Amendment of subsections (i)(2), (i)(4), (j)(2), (j)(3), (j)(5) and (j)(6) filed 11–30–94; operative 11–3–94 pursuant to Government Code section 11346.2(d) (Register 94, No. 45).
10. Amendment filed 11–7–95; operative 11–7–95 pursuant to Fish and Game Code section 202 and 215 (Register 95, No. 45).
11. Amendment of subsections (j)(3)(D)– (j)(4) and NOTE filed 11–15–95; operative 11–15–95 pursuant to Fish and Game Code sections 202 and 215 (Register 95, No. 46).
12. Amendment of subsections (c), (i)(4)(A), (i)(5), (j)(7) and (j)(7)(B) filed 11–12–96; operative 11–12–96 pursuant to Fish and Game Code sections 202 and 215 (Register 96, No. 46).
13. Amendment of section and NOTE filed 10–17–97; operative 10–17–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 42).
14. Amendment of subsection (i)(4), repealer of subsection (j)(3)(A)–(C) designators and amendment of newly reorganized subsection (j)(3) filed 10–30–98; operative 10–30–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 44).
15. Amendment of subsections (a), (f)(2), (g)(1), (i)–(i)(5), (j)(5) and (m) and new subsections (f)(3) and (i)(6) filed 11–1–99; operative 11–1–99 pursuant to Fish and Game Code section 202 (Register 99, No. 45).
16. Amendment filed 10–27–2000; operative 10–27–2000 pursuant to Government Code section 11343.4(d) (Register 2000, No. 43).
17. Amendment of section and NOTE filed 10–31–2001; operative 11–1–2001 pursuant to Fish and Game Code section 215 (Register 2001, No. 44).
18. Amendment of subsections (h)(1), (j), (j)(4) and (k)(8)(B) filed 10–21–2002; operative 10–21–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 43).
19. Amendment of subsections (h)(1), (i) and (j)(4) filed 11–13–2003; operative 11–15–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 46).
20. Amendment of subsections (e) and (f)(1)(B), new subsection (f)(1)(C) and amendment of subsections (h)(1), (i)–(j), (j)(4), (k)(5) and (k)(9) filed 11–3–2004; operative 11–3–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 45).
21. Amendment of subsections (h)(1) and (j)(4) filed 12–19–2005; operative 12–19–2005 pursuant to Government Code section 11343.4 (Register 2005, No. 51).
22. Amendment of subsections (h)(1), (j)(6) and (n) filed 12–1–2006; operative 12–1–2006 pursuant to Government Code section 11343.4 (Register 2006, No. 48).
23. Amendment of subsections (h)(1) and (j)(4) filed 11–28–2007; operative 11–28–2007 pursuant to Government Code section 11343.4 (Register 2007, No. 48).
24. Amendment of subsection (h)(1), repealer and new subsection (h)(2) and amendment of NOTE filed 7–8–2008; operative 7–8–2008 pursuant to Government Code section 11343.4 (Register 2008, No. 28).

§ 165. Harvesting of Kelp and Other Aquatic Plants.

(a) General License Provisions. Pursuant to the provisions of Section 6651 of the Fish and Game Code, no kelp or other aquatic plants may be harvested for commercial purposes except under a revocable license issued by the department.

(1) Who Shall be Licensed. Each company or individual harvesting kelp and other aquatic plants for industrial, human consumption or aquaculture purposes shall apply each year for a license on forms provided by the department. Application forms and a list of laws and regulations governing the harvest of kelp and other aquatic plants are available on request from the department's Marine Region, 20 Lower Ragsdale Drive, Suite 100, Monterey, CA 93940, and from the department's field offices in Eureka, Belmont, Los Alamitos and San Diego.

(2) Cost of License. See section 6651 of the Fish and Game Code.

(3) Where to Submit Applications. Application forms, together with the fee authorized by Section 6651 of the Fish and Game Code, shall be submitted to the department's Los Alamitos office, 4665 Lampson Avenue, Suite C, Los Alamitos, CA 90720.

(4) License Limitation. All provisions of sections 6650–6680 of the Fish and Game Code, and sections 165 and 165.5 of the commission regulations shall become a condition of all licenses issued under this section to be fully performed by the holders thereof, their agents, servants, employees or those acting under their direction or control.

(b) General Harvesting Provisions.

(1) Weighing of Kelp. A kelp harvester shall determine the weight of harvested kelp or other aquatic plants upon landing or delivery to the harvester's place of business. The harvester may determine the weight of harvested kelp or other aquatic plants using either direct weighing or a volume conversion that has been approved by the department. If the weight is determined by a certified or licensed weighmaster, the harvester shall obtain a receipt and maintain the receipt in the landing record required under subsection (b)(3) below.

(2) Harvesting Records. Every person harvesting kelp and other aquatic plants and licensed pursuant to section 6650 of the Fish and Game Code shall keep a book or books recording the following:

(A) Category of plants harvested as defined in Section 165(c), (d) and (e).

(B) The wet weight of harvested kelp or other aquatic plants recorded in pounds or tons (1 ton = 2000 pounds).

(C) Name and address of the person or firm to whom the plants are sold, unless utilized by the harvester. The book(s) shall be open at all times for inspection by the department.

(3) Landing Records. Records of landing shall be prepared by all harvesters licensed pursuant to Section 6650 of the Fish and Game Code. Records of landing shall be made in triplicate using forms FG 113 (Rev. 1/97, see Appendix A) and FG 114 (Rev. 1/07, see Appendix A). The landing records shall show:

(A) The wet weight of all aquatic plants harvested in units as defined in subsection (b)(2)(B) above.

(B) Name of harvester.

(C) Department of Fish and Game kelp harvester number.

(D) Dates of landing and report period.

(E) Kelp bed number and, if applicable, harvest control area or marine protected area where plants were harvested.

(F) A duplicate copy of the landing record shall be kept by a kelp harvester for a period of one year and shall be available for inspection at any time within that period by the department. A kelp harvester who harvests kelp from a harvest control area established under subsection (c)(4)(E) below or from a marine protected area established under subsection 632(b) shall maintain a copy of the landing record on board the harvest vessel for all harvesting conducted during that harvest control period. The original and one copy of the record shall be delivered to the department at the address indicated within 10 days after the close of each month, with the specified royalty required for all kelp and other aquatic plants harvested. Failure to submit the required landing record and royalty fees within the prescribed time limit are grounds for revocation of the harvester's license.

(4) No eel grass (Zostera) or surf grass (Phyllospadix) may be cut or disturbed.

(5) No kelp or other aquatic plant may be harvested in a state marine reserve or state marine park as per subsection 632(a). Commercial harvest of kelp or other aquatic plants may be limited in state marine conservation areas as per subsection 632(b).

(6) It is unlawful to cause or permit waste of any kelp or other aquatic plants taken in the waters of this state or to take, receive or agree to receive more kelp or other aquatic plants than can be used without waste or spoilage.

(c) Harvesting of Macrocystis and Nereocystis (giant and bull kelp). In this subsection, kelp means both giant and bull kelp.

(1) A kelp harvester may harvest kelp by cutting and removing portions of attached kelp or by collecting unattached kelp.

(2) A kelp harvester may not cut attached kelp at a depth greater than four feet below the surface of the water at the time of cutting.

(3) No kelp received aboard a harvesting vessel shall be allowed to escape from the vessel or be deposited into the waters of this state.

(4) If, at any time, the commission finds that the harvesting of kelp will tend to destroy or impair any kelp bed or beds, or parts thereof, or tend to impair or destroy the supply of food for fish or marine mammals, the commission may limit or prohibit the harvest of kelp within a bed or portion of a bed for any length of time.

(A) In beds north of Point Montara, Nereocystis (bull kelp) may only be taken by hand harvesting. No mechanical harvesters of any kind are allowed.

(B) Between April 1 and July 31, a kelp harvester may not harvest bull kelp from a nonleased kelp bed that lies partially or totally within the boundary of the Monterey Bay National Marine Sanctuary extending from Santa Rosa Creek, San Luis Obispo County, northward to Rocky Point, Marin County. This subsection does not preclude the removal of bull kelp from beaches within the Monterey Bay National Marine Sanctuary during the seasonal closure.

(C) Prior commission approval of a kelp harvest plan is necessary before a kelp harvester may use a mechanical harvester to harvest giant kelp in a nonleased kelp bed north of Santa Rosa Creek, San Luis Obispo County. For approval of a kelp harvest plan, a harvester must identify how a mechanical harvester will be used while avoiding: 1) repetitive harvest from individual giant kelp plants; 2) harvest of bull kelp from those portions of kelp beds that contain both giant kelp and bull kelp; and 3) harvest giant kelp near sea otter rafting sites used by female sea otters with dependent pups.

(D) A kelp harvester may not harvest kelp in that portion of kelp bed 220 in Monterey County that lies in the area bounded by the mean high tide line, a line extending due north from the tip of the Monterey breakwater and latitude 36° 36.83 N.

(E) With a finding as determined in subsection (c)(4) above, the commission may designate, through emergency regulation, a nonleased kelp bed or portion of a bed as a harvest control area for a specified period of time. The commission shall set a cumulative harvest tonnage limit for each kelp harvester that may not be exceeded while harvesting within the control area during any consecutive 7–day period. The department shall maintain a list of active harvest control areas, their effective time period, and their cumulative harvest tonnage limit on its web page (www.dfg.ca.gov). The same information may be obtained by contacting the Marine Region office at 20 Lower Ragsdale Drive, Suite 100, Monterey, CA 93940.

Bed. No.	*Square Miles*
10	0.00
15	0.04
22	0.05
24	0.05
203	0.00
206	0.04
224	0.06
225	0.00
226	0.00
301	0.00
302	0.00
303	1.33
304	0.89
305	1.11
306	1.03
307	0.93
310	0.00
311	0.00
Total	5.53

(6) Only a lessee authorized by the commission may harvest kelp from the following beds:

Bed No.	*Square Miles*
308	0.20
309	0.14
312	0.20
Total	0.54

(7) In addition to the license fee, a kelp harvester shall pay a royalty of $1.71 for each ton (2,000 pounds) of wet kelp harvested from a non-leased bed.

(d) Harvesting of marine plants of the genera *Gelidium, Pterocladia, Gracilaria, Iridaea, Gloiopeltis* or *Gigartina* which are classified as agar-bearing plants.

(1) General Provisions.

(A) All agar-bearing plants must be harvested by cutting, except that drift or loose plants may be picked up by the harvester. Agar-bearing plants may be cut no closer than two inches to the holdfast and no holdfast may be removed or disturbed. All agar-bearing plants which are removed from a bed must be taken from the water for weighing and processing.

(B) While harvesting agar-bearing plants, it is unlawful to harvest abalone or to have abalone harvesting equipment in possession.

(C) License numbers of the harvesters will be displayed on both sides of the boat from which they are operating in 10-inch black numbers on a white background.

(D) A harvester may use conventional underwater diving gear or SCUBA when harvesting agar-bearing plants.

(2) Kelp Drying Permits. Pursuant to section 6653.5 of the Fish and Game Code, no company or individuals shall reduce the moisture content or otherwise dry agar-bearing plants harvested from waters of the state except under the authority of a kelp drying permit issued by the department. Drying permits shall be issued under the following conditions:

(A) Where Issued. Requests for kelp drying permits shall be submitted to the Department of Fish and Game at the address listed in section 165(a)(3).

(B) Cost of Permit. See subsection 699(b) of these regulations for the fee for this permit.

(C) Permit Review. The department shall return permit application forms to the applicant within three working days of receipt.

(D) Duration of Permits. Except as otherwise provided, kelp drying permits shall be valid for a term of one year from date of issue.

(E) Weighing of Kelp. All agar-bearing marine plants shall be weighed upon landing pursuant to the provisions of subsection (b)(1) of these regulations.

(F) Plant Delivery. Every person taking delivery of agar-bearing marine plants for drying purposes from persons licensed pursuant to section 6650 of the Fish and Game Code or harvesters drying their own plants shall keep a book or books recording the following:

1. A full and correct record of all agar-bearing plants received from other licensed agar harvesters or taken by permittee.

2. Names of the different species.

3. The number of pounds received.

4. Name, address and kelp harvester number of the person from whom the agar-bearing plants were received. The book(s) shall be open at all times for inspection by the department.

(G) Landing Receipts. Receipts shall be issued by all kelp drying permittees to harvesters licensed pursuant to subsection (b)(3) of these regulations and shall show:

1. Price paid.

2. Department origin block number where the agar-bearing plants were harvested.

3. Such other statistical information the department may require.

(H) The original signed copy of receipt shall be delivered to the agar harvester at the time of purchase or receipt of the agar-bearing plants. The duplicate copy shall be kept by the kelp drying permittee for a period of one year and shall be available for inspection at any time within that period by the department, and the triplicate shall be delivered to the department at the address indicated within 10 days after the close of each month, with a royalty of $17.00 per wet ton (2,000 lbs.) for all agar-bearing seaweed received. Failure to submit the required landing receipts and royalty fees within the prescribed time limit is grounds for revocation of the permittee's drying permit.

(e) Harvesting of marine plants, including the genera Porphyra, Laminaria, Monostrema, and other aquatic plants utilized fresh or preserved as human food and classified as edible seaweed.

(1) General Provisions.

(A) Edible varieties of marine plants must be harvested by cutting or picking, except that drift or loose plants may be picked up by the harvester. All harvested plants must be processed.

(B) Edible seaweed may be harvested from state waters throughout the year, except as provided under section 164.

(C) While harvesting edible seaweed, it is unlawful to harvest abalone or to have abalone harvesting equipment in possession.

(D) A harvester may use conventional underwater diving gear or SCUBA while harvesting edible seaweed.

(2) Harvest of Bull Kelp for Human Consumption. Notwithstanding subsection 165(c) (5)(A), persons operating under the authority of an edible seaweed harvesters license may take, not to exceed, 2 tons (4,000 lbs) of bull kelp per year. The entire plant may be harvested.

(3) Weighing of Edible Marine Plants. All edible marine plants shall be weighed pursuant to the provisions of subsection (b)(1) of these regulations and landing receipts in duplicate issued as per subsection (b)(3).

(4) The original copy of the receipt shall be delivered to the department at the address indicated within 10 days after the close of each month with a royalty of $24 per wet ton (2,000 lbs.) of edible marine plants harvested from state waters other than San Francisco Bay and Tomales Bay.

(f) All Other Species of Kelp.

(1) Applicant shall apply to the commission, outlining the species to be harvested, amount and location. The commission may set conditions and amount of royalty after review of the application.

HISTORY

1. Amendment of subsection (a)(3) filed 10–8–69 as an emergency; designated effective 11–10–69 (Register 69, No. 41). For prior history, see Register 69, No. 15.
2. Certificate of Compliance—section 11422.1, Gov. Code, filed 12–17–69 (Register 69, No. 51).
3. Amendment of subsection (a)(1)(E) filed 6–30–77 as an emergency; effective upon filing (Register 77, No. 27).
4. Certificate of Compliance filed 8–24–77 (Register 77, No. 35).
5. Amendment filed 3–9–81; effective thirtieth day thereafter (Register 81, No. 11).
6. Amendment filed 9–6–85; effective thirtieth day thereafter (Register 85, No. 36).
7. Change without regulatory effect of subsection (e)(3) filed 5–5–86; effective thirtieth day thereafter (Register 86, No. 19).
8. Amendment of subsections (a)(2), (a)(3) and (c)(5) filed 1–27–87; effective thirtieth day thereafter (Register 87, No. 5).
9. Amendment of subsection (c) filed 12–3–90; operative 1–2–91 (Register 91, No. 4).
10. Amendment of subsections (a) and (d) filed 4–18–91; operative 5–18–91 (Register 91, No. 21).
11. Editorial correction of printing error in subsection (c)(3) (Register 91, No. 31).
12. Amendment of subsections (a)(3) and (c)(2), new subsections (c)(5)–(c)(5)(B), subsection renumbering and amendment of newly designated subsection (c)(6), and new subsection (e)(3) and subsection renumbering filed 3–26–96; operative 3–26–96 pursuant to Government Code section 11343.4(d) (Register 96, No. 13).
13. Amendment filed 10–25–2001; operative 11–24–2001 (Register 2001, No. 43).
14. Amendment of subsection (b)(5) filed 3–8–2005; operative 4–7–2005 (Register 2005, No. 10).
15. Change without regulatory effect amending subsection (a)(3) filed 5–5–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 18).

16. Amendment of subsections (b)(1), (b)(3), (b)(3)(D)–(F) and (c)(4)(D) filed 8–22–2007; operative 9–21–2007 (Register 2007, No. 34).

§ 165.5. Lease of Kelp Beds for Exclusive Harvest of *Macrocystis* and *Nereocystis*.

(a) The commission may lease to any person the exclusive privilege to harvest kelp in any designated kelp bed or beds, or part thereof described in subsection (j). In this section, kelp means giant kelp, bull kelp, or both.

(b) A current list of kelp beds considered by the commission to be available for leasing may be obtained through written request to the department's Marine Region at 20 Lower Ragsdale Drive, Suite 100, Monterey, CA 93940. Any person desiring to lease the exclusive privilege of harvesting kelp shall make a written application to the Fish and Game Commission, 1416 Ninth Street, Sacramento, CA 95814. The application for kelp bed lease shall include:

(1) The number of the designated bed or beds as shown in subsection (j), a description of the kelp bed or portion of the kelp bed requested and the designated number of square miles in each bed or portion thereof.

(2) A minimum deposit of $2,565 per square mile for kelp beds lying south of Point Arguello and $1,368 per square mile for kelp beds lying north of Point Arguello. (The deposit shall be returned to the applicant if a lease is not executed.)

(3) A detailed development plan for the proposed kelp bed lease showing the intended use, the manner of harvesting and transporting the kelp and the amount of kelp the lessee proposes to harvest during each of the next five years.

(4) The financial capabilities of the lessee to carry out the proposed plan of development. The department shall evaluate the submitted plans, and provide its evaluation to the commission.

(5) Applicants for the lease of Kelp Beds 300–312 shall, in addition to the above requirements, submit evidence of a scientifically acceptable survey of the requested kelp bed, conducted within one year of the date of the application, showing the extent of the kelp bed and the quantity (biomass) of kelp present. Evidence of such a survey must be submitted annually prior to beginning harvest. Harvest of bull kelp from leased beds shall be limited to not more than 15 percent of the bull kelp biomass revealed by the survey.

(c) Kelp leases may be awarded to applicants determined by the commission to possess the capabilities to harvest and utilize kelp in a manner beneficial to the state.

(1) In case more than one application is received for the lease of a specified kelp bed or beds, the lease shall be awarded to the highest qualified bidder.

(2) Bids tendered for the exclusive right to harvest kelp from designated kelp beds will be for the dollar amount of royalty to be paid on each wet ton of kelp harvested. The minimum acceptable bid will be for a royalty rate of no less than $1.71 per wet ton of kelp harvested.

(3) The commission may reject any or all applications for the lease of the exclusive privilege to harvest kelp, if it deems the rejection to be in the public interest.

(d) If the specified kelp harvesting area applied for is found to be available for lease, and that the lease would be in the public interest, the commission shall have legal notices published in a newspaper of general circulation in each county where the kelp bed, or any part thereof, is located. The department shall, in addition, notify by mail all current holders of kelp harvesting licenses that a kelp lease is being considered.

(e) Upon termination of a kelp bed lease for any reason, the commission shall notify all current holders of kelp licenses of the availability of such bed(s) for lease.

(f) Kelp bed leases shall be awarded for a maximum term of 20 years.

(g) The royalty rate for kelp harvested from leased kelp beds shall be no less than $1.71 per wet ton of kelp harvested from such beds. A nonrefundable advance payment computed on the basis of the harvest of 800 tons of kelp annually times the bid royalty rate per square mile for kelp beds located north of Point Arguello and the harvest of 1,500 tons of kelp annually times the bid royalty rate per square mile for beds lying south of that point is due and payable to the department on January 1 each year. Kelp harvested from each bed during the calendar year will be credited against the advance payment at the specified royalty rate until the deposit has been depleted. Kelp harvested from each bed in excess of the amount covered by the advance deposit shall be assessed at the basic royalty rate established by Section 165(c)(5).

(h) Each kelp lease shall specify a period prior to expiration when renewal of the lease may be requested by lessee. If during the notification period the lessee successfully demonstrates to the commission that all conditions of the lease have been met, the lessee shall have a prior right to renew the lease on terms agreed upon between the commission and the lessee. If terms of a lease renewal are not agreed upon prior to termination of a lease agreement, the commission shall advertise for bids on the individual kelp beds comprising the lease. If a request for renewal is not made during the specified period by the lessee, the commission shall advertise for bids on the individual kelp beds comprising the lease.

(i) Notwithstanding the provisions of subsections (f) and (h), at any time during the term of a lease, a lessee may notify the commission of its desire to enter into a new lease. If the lessee can successfully demonstrate to the commission that all conditions of its lease have been met and that a new lease would be in the best interest of the state, a new lease may be drawn on terms agreed upon between the two parties, provided a new lease is negotiated for an additional period not to exceed 20 years.

(j) There is established a "Revised Official Map and Description of Kelp Beds, Pt. Arguello to U.S.–Mexico Boundary" dated August 1, 1963 revised March 3, 1967, a new "Official Map and Description of Kelp Beds, Pt. Arguello to Pt. Montara" dated March 3, 1967, and a new map "Official Map and Description of Kelp Beds, Pt. Montara to California–Oregon Boundary" dated June 15, 1995. These maps are based upon U.S. Coast and Geodetic Survey Charts No. 5020, dated April 1961, No. 5302, dated October 12, 1964, and No. 5402, dated September 6, 1965, as filed with the Fish and Game Commission. Beds are described as follows: (all bearings are true bearings)

(1) Mainland Beds (Pt. Arguello to Mexico)

Bed 1. From a line drawn 264° from the U.S.A.–Mexico International Boundary to a line drawn 270° from the southern tip of San Diego Bay. 0.20 square miles.

Bed 2. From a line drawn 270° from the southern tip of San Diego Bay to a line drawn 259° from the southern tip of Point Loma. 0.10 square miles.

Bed 3. From a line drawn 259° from the southern tip of Point Loma to a line drawn 272° from the south jetty of Mission Bay. 2.58 square miles.

Bed 4. From a line drawn 272° from the south jetty of Mission Bay to a line drawn 283° from Scripps Pier. 2.53 square miles.

Bed 5. From a line drawn 283° from Scripps Pier to a line drawn 269° from the mouth of the San Dieguito River. 0.00 square miles.

Bed 6. From a line drawn 269° from the mouth of the San Dieguito River to a line drawn 236° from the middle of Loma Alta Lagoon (at South Oceanside). 1.52 square miles.

Bed 7. From a line drawn 236° from the middle of Loma Alta Lagoon to a line drawn 215° from the middle of the city of San Onofre. 0.66 square miles.

Bed 8. From a line drawn 215° from the middle of the city of San Onofre to a line drawn 219° from the middle of San Juan Creek. 1.53 square miles.

Bed 9. From a line drawn 219° from the middle of San Juan Creek to a line drawn 220° from Abalone Pt. 0.39 square miles.

Bed 10. From a line drawn 220° from Abalone Pt. to a line drawn 220° from the south jetty of Newport Bay. 0.00 square miles.

Bed 13. From a line drawn 156° from the San Pedro Breakwater Lighthouse to a line drawn 232° from Pt. Vicente. 0.54 square miles.

Bed 14. From a line drawn 232° from Pt. Vicente to a line drawn 256° from the southern tip of the Redondo Beach Breakwater. 0.74 square miles.

Bed 15. From a line drawn 223° from the Santa Monica Pier to a line drawn 156° from Malibu Pt. 0.04 square miles.

Bed 16. From a line drawn 156° from Malibu Pt. to a line drawn 185° from Pt. Dume. 0.21 square miles.

Bed 17. From a line drawn 185° from Pt. Dume to a line drawn 207° from Pt. Mugu. 0.62 square miles.

Bed 18. From a line drawn 217° from the middle of the mouth of Ventura River to a line drawn 214° from Pitas Pt. 0.14 square miles.

Bed 19. From a line drawn 214° from Pitas Pt. to a line drawn 218° from Rincon Pt. 0.05 square miles.

Bed 20. From a line drawn 218° from Rincon Pt. to a line drawn 198° from Loon Pt. 0.24 square miles.

Bed 21. From a line drawn 198° from Loon Pt. to a line drawn 184° from the eastern boundary of the Montecito Hotel (2.4 miles 072° from tip of S.B. Breakwater). 0.19 square miles.

Bed 22. From a line drawn 184° from the eastern boundary of the Montecito Hotel to a line drawn 166° from the tip of the Santa Barbara Breakwater. 0.05 square miles.

Bed 23. From a line drawn 166° from the tip of the Santa Barbara Breakwater to a line drawn 195° from the Santa Barbara Lighthouse. 0.10 square miles.

Bed 24. From a line drawn 195° from the Santa Barbara Lighthouse to a line drawn 197° from the middle of Rogue Creek (Arroyo Burro). 0.05 square miles.

Bed 25. From a line drawn 197° from the middle of Rogue Creek to a line drawn 185° from the middle of Hope Ranch Creek. 0.18 square miles.

Bed 26. From a line drawn 185° from the middle of Hope Ranch Creek to a line drawn 176° from Goleta Pt. 0.60 square miles.

Bed 27. From a line drawn 176° from Goleta Pt. to a line drawn 210° from Coal Oil Pt. 0.43 square miles.

Bed 28. From a line drawn 210° from Coal Oil Pt. to a line drawn 200° from the Middle of Gato Canyon (about 1.5 miles west of Naples). 0.60 square miles.

Bed 29. From a line drawn 200° from the middle of Gato Canyon to a line drawn 183° from the middle of Refugio Creek. 0.17 square miles.

Bed 30. From a line drawn 183° from the middle of Refugio Creek to a line drawn 180° from the middle of Canada de Molino (about 5 miles west of Refugio Creek). 0.39 square miles.

Bed 31. From a line drawn 180° from the middle of Canada de Molino to a line drawn 180° from the middle of Alegria Canyon (about 3.4 miles west of Gaviota). 0.16 square miles.

Bed 32. From a line drawn 180° from the middle of Alegria Canyon to a line drawn 180° from Pt. Conception. 2.76 square miles.

Bed 33. From a line drawn 180° from Pt. Conception to a line drawn 231° from Expada Bluff. 0.97 square miles.

Bed 34. From a line drawn 231° from Espada Bluff to a line drawn 270° from Pt. Arguello. 0.31 square miles.

Total Area Mainland Beds (Pt. Arguello to Mexico). ..... 19.05 square miles

(2) Island Beds

Bed 101. San Clemente Island. From a line drawn 120° from Pyramid Head to a line drawn 210° from China Pt. 0.66 square miles.

Bed 102. San Clemente Island. From a line drawn 210° from China Pt. to a line drawn 226° from Seal Cove. 2.39 square miles.

Bed 103. San Clemente Island. From a line drawn 226° from Seal Cove to a line drawn 0° from Northwest Harbor. 2.89 square miles.

Bed 104. San Clemente Island. From a line drawn 0° from Northwest Harbor to a line drawn 120° from Pyramid Head. 0.22 square miles.

Bed 105. Santa Catalina Island. Entire island. 0.75 square miles.

Bed 106. Santa Barbara Island. Entire island. 0.23 square miles.

Bed 107. San Nicolas Island. South of a line drawn 75° from the east end to a line drawn 283° from the west end. 1.15 square miles.

Bed 108. San Nicolas Island. North of a line drawn 283° from the west end to a line drawn 75° from the east end. 2.85 square miles.

Bed 109. Anacapa Islands. All islands. 0.32 square miles.

Bed 110. Santa Cruz Island. From a line drawn 86° from San Pedro Pt. to a line drawn 170° from Bowen Pt. 0.64 square miles.

Bed 111. Santa Cruz Island. From a line drawn 170° from Bowen Pt. to a line drawn 306° from West Pt. 0.61 square miles.

Bed 112. Santa Cruz Island. From a line drawn 306° from West Pt. to a line drawn 86° from San Pedro Pt. 0.11 square miles.

Bed 113. Santa Rosa Island. From a line drawn 61° from Skunk Pt. to a line drawn 180° from South Pt. 0.59 square miles.

Bed 114. Santa Rosa Island. From a line drawn 180° from South Pt. to a line drawn 285° from Sandy Pt. 2.17 square miles.

Bed 115. Santa Rosa Island. From a line drawn 285° from Sandy Pt. to a line drawn 45° from Carrington Pt. 1.59 square miles.

Bed 116. Santa Rosa Island. From a line drawn 45° from Carrington Pt. to a line drawn 61° from Skunk Pt. 0.62 square miles.

Bed 117. San Miguel Island. South of a line drawn 60° from Cardwell Pt. to a line drawn 231° from Pt. Bennett. 1.35 square miles.

Bed 118. San Miguel Island. North of a line drawn 231° from Pt. Bennett to a line drawn 60° from Cardwell Pt. 1.51 square miles.

Total Island Beds ..... 20.65 square miles

(3) Mainland Beds (Pt. Arguello to Point Montara)

Bed 202. From a line drawn 270° from Pt. Arguello to a line drawn 270° from Point Sal. 0.10 square miles.

Bed 203. From a line drawn 270° from Point Sal to a line drawn 270° from Pismo Beach Pier. 0.00 square miles.

Bed 204. From a line drawn 270° from Pismo Beach Pier to a line drawn 180° from Point San Luis. 0.72 square miles.

Bed 205. From a line drawn 180° from Point San Luis to a line drawn 250° from Point Buchon. 0.64 square miles.

Bed 206. From a line drawn 250° from Point Buchon to a line drawn 270° from Morro Rock. 0.04 square miles.

Bed 207. From a line drawn 270° from Morro Rock to a line drawn 190° from Point Estero. 1.46 square miles.

Bed 208. From a line drawn 190° from Point Estero to a line drawn 230° from Von Helm Rock. 2.61 square miles.

Bed 209. From a line drawn 230° from Von Helm Rock to a line drawn 200° from San Simeon Point. 2.20 square miles.

Bed 210. From a line drawn 200° from San Simeon Point to a line drawn 230° from Point Piedras Blancas. 2.02 square miles.

Bed 211. From a line drawn 230° from Point Piedras Blancas to a line drawn 240° from Salmon Head. 1.50 square miles.

Bed 212. From a line drawn 240° from Salmon Head to a line drawn 240° from Cape San Martin. 1.26 square miles.

Bed 213. From a line drawn 240° from Cape San Martin to a line drawn 240° from Lopez Point. 2.14 square miles.

Bed 214. From a line drawn 240° from Lopez Point to a line drawn 240° from Partington Point. 2.03 square miles.

Bed 215. From a line drawn 240° from Partington Point to a line drawn 200° from Pfeiffer Point. 0.80 square miles.

Bed 216. From a line drawn 200° from Pfeiffer Point to a line drawn 200° from Point Sur. 3.08 square miles.

Bed 217. From a line drawn 200° from Point Sur to a line drawn 270° from Yankee Point. 2.38 square miles.

Bed 218. From a line drawn 270° from Yankee Point to a line drawn 270° from Point Lobos. 0.50 square miles.

Bed 219. From a line drawn 270° from Point Lobos to a line drawn 270° from Point Cypress. 1.28 square miles.

Bed 220. From a line drawn 270° from Point Cypress to a line drawn 000° from Monterey Pier. 1.88 square miles.

Bed 221. From a line drawn 000° from Monterey Pier to a line drawn 180° from Santa Cruz Pier. 0.90 square miles.

Bed 222. From a line drawn 180° from Santa Cruz Pier to a line drawn 240° from Sand Hill Bluff. 0.81 square miles.

Bed 223. From a line drawn 240° from Sand Hill Bluff to a line drawn 240° from Point Ano Nuevo. 0.19 square miles.

Bed 224. From a line drawn 240° from Point Ano Nuevo to a line drawn 270° from Pescadero Point. 0.06 square miles.

Bed 225. From a line drawn 270° from Pescadero Point to a line drawn 270° from Point Montara. 0.00 square miles.

Total area of Mainland Beds (Pt. Arguello to Point Montara) ..... 28.60 square miles

(4) Mainland Beds (Point Montara to Oregon).

Bed 226. From a line drawn 270° from Point Montara to a line drawn 270° from Fort Point. 0.00 square miles.

Bed 301 From a line drawn 270° from Fort Point to a line drawn 270° from Point Reyes. 0.00 square miles.

Bed 302 From a line drawn 270° from Point Reyes to a line drawn 240° from Duncan's Point. 0.00 square miles.

Bed 303. From a line drawn 240° from Duncan's Point to a line drawn 270° from Gualala Point. 1.33 square miles.

Bed 304. From a line drawn 270° from Gualala Point to a line drawn 240° from Iverson Point 0.89 square miles.

Bed 305. From a line drawn 240° from Iverson Point to a line drawn 330° from Point Arena. 1.11 square miles.

Bed 306. From a line drawn 330° from Point Arena to a line drawn 270° from Stillwell Point. 1.03 square miles.

Bed 307. From a line drawn 270° from Stillwell Point to a line drawn 270° from the middle of Ten-mile River. 0.93 square miles.

Bed 308. From a line drawn 270° from the middle of Ten-mile River to a line drawn 180° from Point Delgada. 0.20 square miles.

Bed 309. From a line drawn 180° from Point Delgada to a line drawn 260° from Point Mendocino. 0.14 square miles.

Bed 310. From a line drawn 260° from Cape Mendocino to a line drawn 300° from the South jetty of Humboldt Bay. 0.0 square miles.

Bed 311. From a line drawn 300° from the South jetty of Humboldt Bay to a line drawn 270° from the middle of the Klamath River. 0.00 square miles.

Bed 312. From a line drawn 270° from the middle of the Klamath River to a line drawn 250° from the California–Oregon Boundary

Total of mainland beds, Point Montera to Oregon Boundary ..... 5.83 square miles

§ 166. Salmon: Importation and Sale.

Regulations prescribed for importation of salmon into the state, and for the sale of salmon during the closed season. As used herein, the word "salmon" means all such fish except those caught under authority of a sport fishing license.

(a) Importation of Salmon. All salmon, fresh or frozen, imported into this state for human consumption shall be in such condition that the size and species can be determined as set forth by Section 2361 of the Fish and Game Code. Salmon legally taken and imported into this state for sale may be transported overland provided:

(1) Such salmon are shipped under a bill of lading issued at point of origin of shipment, a copy of which is possessed by the carrier during transport, showing the point of origin of shipment, the point of delivery to consignee, and listing all fish by species and weight;

(2) Prior notice of at least 12 hours for each shipment shall be provided the department office nearest the point of entry into the state during normal working hours (8:00 a.m.–5:00 p.m., Monday–Friday). Notice shall include approximate time of entry into the state and the route of travel through the state;

(3) The importer shall furnish the office, notified in sub–paragraph (2), a copy of the bill of lading covering each importation received by said importer within 24 hours of the receipt of the shipment;

(4) Within 14 days after the close of the season the owner or possessor of salmon, which are being held for sale during the closed season, shall furnish the department with a written inventory of all salmon held in possession. The inventory shall declare the address of each cold storage plant where salmon are stored as well as the amount in pounds of such salmon held in each of the cold storage plants.

All withdrawals of salmon from such cold storage plants shall be accompanied by a delivery manifest, and a copy of said manifest shall be mailed to the nearest department office on the same date as the withdrawal. The cold storage delivery manifest shall declare: weight of salmon, name and address to whom delivery was made, and date and time of withdrawal.

(b) Sale of Salmon During the Closed Season. Salmon legally taken or imported may be sold during the closed season as herein provided:

(1) Salmon transported during the period when such fish may not be taken for commercial purposes shall be accompanied by sale receipt or bill of lading. Lots of salmon exceeding fifty pounds shall be transported under bill of lading. The original copy of the bill of lading shall be retained by the consignee for a period of one year and be shown upon demand of any officer authorized to enforce regulations dealing with salmon.

NOTE: Authority cited: Section 8213, Fish and Game Code. Reference: Section 8213, Fish and Game Code.

HISTORY

1. Amendment filed 4–5–77; effective thirtieth day thereafter (Register 77, No. 15). For prior history, see Register 64, No. 3.)

§ 167. Penalties in Lieu of Suspension or Revocation—Salmon Permittees.

Pursuant to the provisions of Section 8237 of the Fish and Game Code, the Commission, after notice and an opportunity to be heard, may suspend or revoke the commercial salmon fishing privileges of any person licensed or required to be licensed under the authority of Sections 7852.5 and 7860 of the Fish and Game Code upon conviction of a commercial salmon fishing violation. Notwithstanding this provision, the Executive Secretary of the Commission may enter into a stipulated compromise settlement agreement with the agreement of the licensee on terms and conditions which may include, but are not limited to, the payment of monetary penalties, the reduction of a revocation to a suspension for a specified period of time, a period of probation not to exceed three years or any other terms and conditions, mutually agreed upon by the Executive Secretary acting for the Commission and the licensee, without further hearing or appeal. Conviction of multiple violations, committed at the same time shall be treated as one conviction for the purposes of implementing the provisions of this section.

A compromise settlement agreement may be entered before, during or after the Commission hearing on the matter, but is valid only if executed and signed by the Executive Secretary and the licensee prior to the adoption of the decision by the Commission. Any monetary penalty included in a compromise settlement agreement shall be within the range of monetary penalties as prescribed in subsection (a) of these regulations and shall be due and payable within 30 days after the compromise is entered into. Any and all funds submitted as payment in whole or in part by a licensee of any monetary penalties stipulated in a compromise settlement agreement shall be nonrefundable.

If the licensee fails to perform all of the terms and conditions of the compromise settlement agreement, such agreement is thereby declared void and the Commission, notwithstanding the compromise settlement agreement, may take any action authorized by Section 8237 of the Fish and Game Code against the licensee.

(a) Procedures for determining monetary penalties:

(1) Monetary penalties (score range multiplied by the monetary range) for compromise settlement agreements shall be based on the following point system:

SCORE RANGE (Total Points)	MONETARY RANGE
1–20	$200 per point as provided in subsection (a)(2) below.
21+	$400 per point as provided in subsection (a)(2) below.

(2) The score range shall be based on a cumulative total of the points assigned in this subsection:

(A) GRAVITY OF THE VIOLATION.

1. Take of undersize salmon, when such fish comprise (Note: the following points assigned shall be doubled if any part of the load or lot was intentionally hidden by the licensee):

a. 1–25 percent of the total load or lot of salmon.

(i) When there are 3 or less undersized salmon in the total load or lot.	1 point, plus 1/2 point for each undersized fish
(ii) When there are more than 3 undersized salmon in the total load or lot.	3 points, plus 1/2 point for each undersized fish

b. 26–50 percent of the total load or lot of salmon.

(i) When there are 3 or less undersized salmon in the total load or lot.	2 points, plus 1/2 point for each undersized fish
(ii) When there are more than 3 undersized salmon in the total load or lot.	4 points, plus 1/2 point for each undersized fish

c. 51–100 percent of the total load or lot of salmon.

(i) When there are 3 or less undersized salmon in the total load or lot.	3 points, plus 1/2 point for each undersized fish
(ii) When there are more than 3 undersized salmon in the total load or lot.	1 point, plus 1 point for each fish

2. Take of silver salmon which are unlawfully retained during the closed season for silver salmon but during the open season for king salm-

on, when such fish comprise (Note: The following points assigned shall be doubled if any part of the load or lot was intentionally hidden by the licensee):

a. 1–25 percent of the total load or lot of silver salmon.

(i) When there are 3 or less silver salmon in the total load or lot. for each silver salmon — 1 point, plus 1/2 point

(ii) When there are more than 3 silver salmon in the total load or lot. — 3 points, plus 1/2 point for each silver salmon

b. 26–50 percent of the total load or lot of silver salmon.

(i) When there are 3 or less silver salmon in the total load or lot. — 2 points, plus 1/2 point for each silver salmon

(ii) When there are more than 3 silver salmon in the total load or lot. — 4 points, plus 1/2 point for each silver salmon

c. 51–100 percent of the total load or lot of silver salmon.

(i) When there are 3 or less silver salmon in the total load or lot. — 3 points, plus 1/2 point for each silver salmon

(ii) When there are more than 3 silver salmon in the total load or lot. — 1 point, plus 1 point for each silver salmon

3. Take of salmon during closed salmon season. — 5 points

4. Take of salmon within a closed area.

a. When the vessel is found fishing within one mile inside the closure boundary. — 2 points

b. When the vessel is found fishing within more than one mile inside the closure boundary. — 5 points

5. Transfer of salmon from nonpermitted vessel to a permitted vessel. — 10 points

6. Use of more than six wires or lines. — 10 points

7. Use of barbed hooks: for each 5 hooks or portion thereof. — 1 point

8. Take of salmon; no valid commercial license in possession. — 2 points, plus purchase of required license

9. Take of salmon; no valid commercial salmon vessel permit in possession. — 10 points

10. Take of salmon; no valid commercial fishing salmon stamp in possession. — 2 points, plus purchase of required stamps

11. Failure to document landing. — 2 points

12. Any other commercial salmon fishing violation. — 1 point

(B) PRIOR VIOLATIONS.

1. For each prior conviction of the licensee within the past three years for violations of the laws or regulations pertaining to the commercial take of salmon, the following additional points shall be assessed:

a. For one prior conviction for a violation of the commercial salmon fishing laws or regulations within the past three years, the accumulative point score shall be doubled to determine the total point score.

b. For two prior convictions for violations of the commercial salmon fishing laws or regulations within the past three years, the accumulative point score shall be tripled to determine the total point score.

c. The provisions of this section regarding compromise settlement agreements shall not apply to any person who has been convicted of three or more convictions, as defined in this section, of the commercial salmon laws or regulations within the past three years or if action is brought to recover civil damages under Section 2014 of the Fish and Game Code from the person subject to action under this section.

(2) All monetary penalties for compromise agreements for points assigned under subsection (a)(2)(A)1. through (a)(2)(A)7. are resource oriented and, therefore, all monetary penalties assessed under these subsections shall be deposited by the Department into the special account established by Section 7861 of the Fish and Game Code. All other monetary penalties assessed under this section shall be deposited by the Department to the Fish and Game Preservation Fund.

2. New NOTE filed 10–19–81; effective thirtieth day thereafter (Register 81, No. 43).
3. Repealer filed 4–1–83; effective upon filing pursuant to Government Code Section 11346.2(d) (Register 83, No. 14).

§ 172. Possession of Trawl or Drag Nets in Districts 4, 19, 19A, 19B, and 21.

Trawl or drag nets may be possessed for the purpose of transportation in Fish and Game Districts 4, 19, 19A, 19B, and 21.

NOTE: Authority cited: Section 8833, Fish and Game Code. Reference: Sections 8830–8843, Fish and Game Code.

HISTORY

1. New section filed 10–5–65 as an emergency; effective upon filing. Certificate of Compliance included (Register 65, No. 19).
2. Repealer and new section filed 10–19–81; effective thirtieth day thereafter (Register 81, No. 43).

§ 173. Midwater Trawls.

NOTE: Authority cited: Section 8830.5, Fish and Game Code. Reference: Sections 8830–8843, Fish and Game Code.

HISTORY

1. New section filed 12–11–70; effective thirtieth day thereafter (Register 70, No. 50).
2. Amendment of NOTE filed 10–19–81; effective thirtieth day thereafter (Register 81, No. 43).
3. New subsection (h) filed 4–18–91; operative 5–18–91 (Register 91, No. 21).
4. Change without regulatory effect repealing section filed 5–16–97 pursuant to section 100, title 1, California Code of Regulations (Register 97, No. 20).

§ 174. Permit to Use Gill Nets or Trammel Nets for Commercial Purposes.

(a) Permit Required.

(1) The owner or operator of a vessel using a gill net or trammel nets shall have obtained a valid gill net/trammel net permit and shall be in possession of said permit when engaged in gill netting or trammel netting activities except as provided under subsection (i). Pursuant to Fish and Game Code Section 7857(c), the permittee shall be present when fish are being taken, possessed aboard a boat, or landed for commercial purposes.

(2) To Whom Issued. The department shall issue permits to the owner or operator of a currently registered commercial fishing vessel who has qualified pursuant to subsection (b).

(b) Qualifications for the Permit. To qualify for a permit, an applicant shall:

(1) Have worked as a crewmember for at least 12 months on vessels using gill nets or trammel nets and shall have worked at least 180 days at sea on such vessels; or

(2) Pass a proficiency examination administered by the department. The proficiency examination shall include written and performance tests which demonstrate knowledge of the proper use of gill nets or trammel nets.

(3) Prove to the director's satisfaction that as the owner or operator of a legally registered commercial fishing vessel, he has landed at least 10,000 pounds of fish during a 12–month period, or has landed fish during a 12–month period for which he was paid at least $10,000. Only landings of fish caught by the use of gill nets or trammel nets shall be used to satisfy the catch requirements of this subsection; or

(4) Prove to the director's satisfaction that as the owner or operator of a legally registered commercial fishing vessel, he has landed at least 1,000 pounds of fish taken in gill nets or trammel nets in 4 of the 5 license years prior to the date of application; or

(5) Have possessed a permit issued pursuant to this section during the previous season and shall have complied with subsection (f) of these regulations.

(6) Only landings and crewmember experience occurring during the five year period prior to the date of application shall be used to meet the requirements of subsection (b). The applicant shall supply documentation that he was a legally licensed commercial fisherman when he made the required landings or met the crewmember experience requirements. Crewmember experience shall be documented by fishing records submitted to the department as required by subsection (f), or by a notarized document signed by the owner or operator of vessels on which the applicant has completed the required experience. Landings of fish shall be verified by the submission of copies of landing receipts.

(c) Limitations of Permit. Permits must be renewed annually.

(d) Permit Renewal. Beginning April 1, 2009, and thereafter, applications for renewal of gill net/trammel net permits shall be received by the department, or if mailed, postmarked, on or before April 30 of each permit year. Late fees, late fee deadlines, and late renewal appeal provisions are specified in Fish and Game Code Section 7852.2.

(e) Cost of Permit. See section 8683 of the Fish and Game Code.

(f) Records. Pursuant to section 190 of these regulations, each permittee shall complete and submit an accurate record of all gill net and trammel net fishing activities on a form (Gill and Trammel Net Log, DFG 174 (10/89), see Appendix A) provided by the department.

(g) Conditions of Permit. Provisions of the Fish and Game Code relating to commercial fish except as modified by the provisions of these regulations, shall be a condition of all permits to be fully performed by the holders thereof, their agents, servants, employees or those acting, under their direction or control.

(h) Revocation. As specified in Fish and Game Code Section 8681, the commission may suspend, revoke, or cancel a permit, license, and commercial fishing privileges pursuant to Fish and Game Code Section 7857.

(i) Exemptions from Permit. The owner or operator of a vessel operating under a permit issued pursuant to section 163 of these regulations is not required to possess the permit authorized by this section.

NOTE: Authority cited: Sections 1050 and 8682, Fish and Game Code. Reference: Sections 1050, 1700, 7852.2, 8568, 8680, 8681, 8682 and 8683, Fish and Game Code.

HISTORY

1. New section filed 3–25–81; effective thirtieth day thereafter (Register 81, No. 13).
2. Amendment of section heading and subsections (a)(1), (b)(2)–(4.) and (f) filed 3–17–82; effective thirtieth day thereafter (Register 82, No. 12).
3. New subsections (j)–(l) filed 7–8–82 as an emergency; effective upon filing (Register 82, No. 28). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 11–5–82.
4. Amendment of subsections (j) and (1) filed 8–13–82 as an emergency; effective upon filing (Register 82, No. 33). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 12–11–82.
5. Reinstatement of section as it existed prior to emergency adoption of subsections (j)–(l) filed 7–8–82 and the amendment of subsections (j) and (l) filed 8–13–82 by operation of Government Code section 11346.1(f) (Register 83, No. 34).
6. New subsections (j) and (k) filed 8–12–83 as an emergency; effective upon filing (Register 83, No. 34). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 12–10–83.
7. Amendment of subsection (i) filed 5–9–84; effective thirtieth day thereafter (Register 84, No. 19).
8. Amendment of subsection (b)(5) and repealer of subsections (j) and (k) filed 5–19–86; effective thirtieth day thereafter (Register 86, No. 21).
9. Amendment of subsection (f) filed 12–8–89; operative 1–1–90 (Register 89, No. 50).
10. Amendment of subsection (e) filed 4–18–91; operative 5–18–91 (Register 91, No. 21).
11. Amendment of subsection (a)(1), repealer of subsection (a)(3), amendment of subsections (b)(6) and (c), repealer and new subsections (d) and (h) and amendment of subsection (i) and NOTE filed 7–8–2008; operative 7–8–2008 pursuant to Government Code section 11343.4 (Register 2008, No. 28).

§ 174.5. Gill Nets and Trammel Nets—Areas with Restricted Fishing.

NOTE: Authority cited: Section 8664.5, Fish and Game Code. Reference: Sections 1700, 3515 and 4500, Fish and Game Code.

HISTORY

1. New section filed 3–31–87 as an emergency; designated effective 4–1–87 (Register 87, No. 14). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 7–30–87. For prior history, see Register 87, No. 14.
2. New section filed 7–23–87 as an emergency; operative 7–23–87 (Register 87, No. 31). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 11–20–87.
3. Repealed by operation of Government Code section 11346.1(g) on 11–20–87 (Register 89, No. 16).
4. New section filed 4–12–89 as an emergency; operative 4–12–89 (Register 89, No. 16). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 8–10–89.
5. New subsection (a)(2) filed 6–5–89 as an emergency; operative 6–5–89 (Register 89, No. 23). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 10–3–89.
6. Certificate of Compliance as to 4–12–89 and 6–5–89 orders including amendment transmitted to OAL 8–7–89 and filed 8–31–89 (Register 89, No. 35).
7. Amendment of subsection (c) filed 12–8–89 as an emergency; operative 12–8–89 (Register 89, No. 50). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 4–9–90.
8. Expired by its own terms on 3–31–90 (Register 91, No. 31).

§ 174.7. Gill Nets and Trammel Nets—District 18.

NOTE: Authority cited: Section 8664.5(b), Fish and Game Code. Reference: Sections 1700, 4500, 4700 and 8664.5, Fish and Game Code.

HISTORY

1. New section filed 9–7–89 as an emergency; operative 9–7–89 (Register 89, No. 39). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed by operation of law on 1–5–90. For prior history, see Register 87, No. 27.
2. Expired by its own terms on 11–30–89 (Register 91, No. 31).

§ 175. Trawl Nets.

NOTE: Authority and reference cited: Section 7652, Fish and Game Code.

HISTORY

1. New section filed 1–3–83; designated effective 1–3–83 pursuant to Government Code Section 11346.2(d) (Register 83, No. 2).
2. Expired by own terms (Register 83, No. 28).

§ 176. Trawl Fishing Activity Records.

Pursuant to Section 190 of these regulations, the master or his designee of any vessel operating any trawl net in the public waters under the jurisdiction of the state, or taking fish by such net without the state and bringing them into the state, shall complete and submit an accurate record of fishing activities on a form (Trawl Trip Log, DFG 176 (10/89), see Appendix A) provided by the department.

NOTE: Authority cited: Section 8026, Fish and Game Code. Reference: Section 8026, Fish and Game Code.

HISTORY

1. New section filed 12–8–89; operative 1–1–90 (Register 89, No. 50).

§ 180. Traps.

Revocable, nontransferable permits to use traps for commercial purposes may be issued by the department to take fish, mollusks and crustaceans except market crabs (*Cancer magister*) and lobster under the following conditions:

(a) Permits will include conditions under which traps shall be used to take fish, mollusks or crustaceans. No person shall use any trap except as authorized in a permit. The taking of spot prawns shall be subject to the conditions of this section and section 180.1.

(b) Every person who takes or assists in taking fish, mollusks, or crustaceans with any trap or who possesses or transports fish, mollusks, or crustaceans on any boat, barge, or vessel when any trap is aboard, shall have in his possession a valid permit issued to him pursuant to this section while engaged in any such activity.

(c) The department may inspect the traps at any time.

(d) Records. Pursuant to section 190 of these regulations, each permittee may be required by the department to complete and submit an accurate log of the fishing operations on a form (Daily Trap Log, DFG 180A (10/89) or Daily Sablefish Trap Log, DFG 180B (10/89), see Appendix A) provided by the department.

(e) Traps must be marked by buoys as specified by the department.

(f) All traps must have at least one destruct device of a type authorized by the department.

(g) The permit may be suspended temporarily by the Director for a breach or violation of the terms of the permit by the holder thereof, or any member of his crew on the designated vessel. In addition, the permit may be temporarily suspended or denied by the Director if he determines that the trap or its operation is detrimental to any of the ocean's living marine resources. The commission shall be notified of any such suspension, and subsequently may revoke or reinstate the permit or fix the period of its suspension after written notice to the permittee and after he has been afforded an opportunity to be heard. In the event a permit is denied by the Director the applicant may apply to the commission for an experimental gear permit under Section 8606 of the Fish and Game Code.

(h) The permit number of the boat operator shall be displayed on both sides of the boat in ten-inch black numbers on a white background. All permittees aboard the boat shall be mutually responsible for the proper display of the numbers.

(i) Cost of Permit. The fee for this permit shall be the amount specified in Section 9001, Fish and Game Code.

(j) Exemption from Tidal Invertebrate Permit. A commercial fisherman operating under the provisions of a commercial trap permit and lobster operator permit is not required to possess a Tidal Invertebrate Permit, but is subject to the provisions of Section 123.

NOTE: Authority cited: Sections 7701, 7708, 8491 and 8500, Fish and Game Code. Reference: Sections 7700–7710.5, 8490, 8491, 8500, 9000–9011 and 9015, Fish and Game Code.

HISTORY

1. New section filed 1–24–75 as an emergency; effective upon filing. Certificate of Compliance included (Register 75, No. 4).
2. Amendment filed 3–17–76 as an emergency; effective upon filing (Register 76, No. 12).
3. Certificate of Compliance filed 5–4–76 (Register 76, No. 19).
4. Amendment of subsections (b) and (f) and new subsection (k) filed 4–11–78; effective thirtieth day thereafter (Register 78, No. 15).
5. Amendment filed 4–11–80; effective thirtieth day thereafter (Register 80, No. 15).
6. Amendment of NOTE filed 10–19–81; effective thirtieth day thereafter (Register 81, No. 43).
7. Amendment of subsection (f) filed 12–8–89; operative 1–1–90 (Register 89, No. 50).
8. New subsection (*l*) filed 4–18–91; operative 5–18–91 (Register 91, No. 21).
9. Amendment of subsections (a), (e)(2), (f) and NOTE filed 11–14–95; operative 11–14–95 pursuant to Fish and Game Code sections 202 and 215 (Register 95, No. 46).
10. Repealer of subsections (c), (e)–(e)(6), and (j), subsection relettering, amendment of newly designated subsection (i) and amendment of NOTE filed 9–19–97; operative 10–19–97 (Register 97, No. 38).
11. New subsection (j) filed 3–8–2005; operative 4–7–2005 (Register 2005, No. 10).

§ 180.1. Spot Prawn *(Pandalus platyceros)* Fishing.

Spot prawns may only be taken by trawl nets for commercial purposes pursuant to subsection 120.3(g) of these regulations, or by traps, pursuant to sections 180, 180.2, 180.5 and this section.

(a) No trap may be used to take spot prawns from November 1 through January 31, between a line drawn due west from Point Arguello, Santa Barbara County and the United States — Mexico boundary. No trap may be used to take spot prawns from May 1 through July 31 between a line drawn due west from Point Arguello, Santa Barbara County, and the California–Oregon boundary.

(1) Spot prawn traps may be set and baited no earlier than 0600 hours (6:00 a.m.) on January 31 in waters south of a line drawn due west from Point Arguello, and no earlier than 0600 hours (6:00 a.m.) on July 31 in waters north of a line drawn due west from Point Arguello.

(2) In areas in which the season closure begins November 1, all traps must be removed from the water prior to November 1, weather and sea conditions permitting. In areas in which the season closure begins May 1, all traps must be removed from the water prior to May 1, weather and sea conditions permitting. In the event that a permittee is unable to comply with this subdivision, then that person must notify the nearest department office via telephone or FAX and certified mail not later than 1600 hours (4:00 p.m.) on November 1 or May 1, whichever is applicable, stating the reason for the delay and the anticipated date of trap removal. Notification does not relieve the permittee of responsibility for complying with this subdivision unless approved by the department.

(3) All spot prawns taken in any trap during the closed season shall be immediately returned to the water and no spot prawn may be possessed aboard, or landed from, any vessel operating under authority of a spot prawn trap permit in any area during the closed season in that area.

(b) All spot prawn traps shall be made of mesh with a minimum inside measurement of 7/8 inch by 7/8 inch, such that a 7/8 inch square peg passes through the mesh without stretching the mesh. (Note: Fathom Plus Traps may be used to take spot prawns.)

(c) Trap Limits.

(1) Tier 1 and Tier 3 trap limits. Not more than 500 traps may be used from any Tier 1 or Tier 3 vessel to take spot prawns except that not more than 300 traps may be used from any Tier 1 or Tier 3 vessel to take spot prawns within three miles of the mainland shore between a line drawn due west from Point Arguello, Santa Barbara County, and the California–Oregon boundary.

(2) Tier 2 trap limits. Not more than 150 traps may be used from any Tier 2 vessel.

(d) Each string of spot prawn traps shall be marked with a buoy bearing the commercial fishing license identification number issued to the owner or operator of the vessel.

NOTE: Authority cited: Sections 711 and 8591, Fish and Game Code. Reference: Sections 710.7, 711, 8140, 8590, 8591, 8593, 8594, 8595, 8842, 9000, 9001, 9004–9008 and 9015, Fish and Game Code.

HISTORY

1. New section filed 11–14–95; operative 11–14–95 pursuant to Fish and Game Code sections 202 and 215 (Register 95, No. 46).
2. Amendment of subsections (a)–(a)(3) and and amendment of NOTE filed 9–19–97; operative 10–19–97 (Register 97, No. 38).
3. Amendment of section heading, section and NOTE filed 5–3–2000; operative 5–3–2000 pursuant to Fish and Game Code section 215 (Register 2000, No. 18).
4. Editorial correction of NOTE (Register 2000, No. 28).
5. Amendment of subsection (a)(2), new subsection (e) and amendment of NOTE filed 7–14–2000; operative 7–14–2000 pursuant to Fish and Game Code section 215 (Register 2000, No. 28).
6. Amendment filed 12–13–2004; operative 12–13–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 51).
7. Amendment of subsection (b) and NOTE filed 10–31–2005; operative 11–30–2005 (Register 2005, No. 44).

§ 180.2. Trap Destruction Devices.

Pursuant to the provisions of Section 9003 of the Fish and Game Code, every trap used to take fin fish, mollusks or crustaceans shall contain at least one destruction device that complies with the specifications described in this Section. The use of any structures or materials that defeat or interfere with the purpose of the destruct device is prohibited.

(a) Escape openings.

(1) Each trap destruct device shall create an unobstructed escape opening in the top or upper half of the trap of at least 5 inches in diameter when the destruct attachment material corrodes or fails, except for traps used under authority of a Tanner Crab Trap Vessel Permit.

(2) Traps used under authority of a Tanner Crab Trap Vessel Permit shall have an unobstructed escape opening in any sidewall or on the top of the trap; the escape opening shall not be on the floor of the trap. The opening shall measure not less than 11 inches taken at its smallest inside diameter. If the opening is non–rigid or contained within pliable mesh, the smallest inside diameter measurement shall be taken so that a rigid cylindrical measuring device 11 inches in its outside diameter and at least 6.5 inches in length shall be able to pass easily through the opening.

(b) The escape opening on each trap must be closed with one of the following destruct attachment materials:

(1) 14 gauge (.080 + or – .003 inch) or smaller metal hog rings excluding stainless steel or other non–corrodible materials;

(2) untreated cotton twine size No. 21–thread or less, except that traps used to take Dungeness, Tanner or rock crabs are limited to a single strand of untreated cotton twine size No. 120 or less;

(3) 24 gauge (.028 + or – .003 inch) or smaller uncoated bare metal crimps excluding stainless steel or other non–corrodible materials;

(4) magnesium pins not larger than one–quarter (.25) inch in diameter which may be used to hold together each half of plastic or fiberglass traps or may be used to attach the lid or door; or

(5) The use of rubber straps attached to metal or plastic hooks with a single loop of untreated cotton twine size No. 120 or less may be used to close the trap provided they are attached in such a manner as to aid the destruct process. The use of any rubber strap or non–corrosive material that defeats or interferes with the purpose of the destruct panel is prohibited.

(c) [Operative until July 16, 2006] Notwithstanding subsection (a) above, traps used to take Dungeness crabs, which are constructed of wire mesh, may have up to three meshes (described as "V"s or a "W" and a "V") that protrude into the destruct device opening provided that the points of each of these meshes are separated by at least one side (bar) of an adjoining mesh that has been removed and each of the meshes extend into the opening a distance of not more than 2 1/2 inches, as measured from the perimeter of the opening along either edge of the protruding wire mesh, to serve as an anchor for the destruct attachment material. On Dungeness crab traps constructed of wire mesh, the panel containing the destruct device and the wire mesh acting as an anchor for the destruct ma-

terial must be constructed of a single wire no greater than .050 inches in diameter. This subsection shall become inoperative on July 16, 2006 and is repealed effective that date.

(c) [Operative July 16, 2006] Notwithstanding subsection (a) above, traps used to take Dungeness crabs, which are constructed of wire mesh, may have not more than a single wire mesh (described as a "V") that protrudes into the destruct device opening provided that mesh extends into the opening a distance of not more than 2 1/2 inches, as measured from the perimeter of the opening along either edge of the protruding wire mesh, to serve as an anchor for the destruct attachment material. On Dungeness crab traps constructed of wire mesh, the panel containing the destruct device and the wire mesh acting as an anchor for the destruct material must be constructed of a single wire no greater than .050 inches in diameter. This subsection shall become operative on July 16, 2006.

NOTE: Authority cited: Sections 7090, 7708, 8500 and 9003, Fish and Game Code. Reference: Sections 7090, 8500, 9003 and 9008, Fish and Game Code.

HISTORY

1. New section filed 9–19–85, operative 10–19–85; Register 85, No. 40)
2. Amendment to add subsections (d) and (e) filed 9–23–86, operative 10–23–86; Register 86, No. 39.
3. Amendment filed 3–2–94; operative 4–1–94 (Register 94, No. 9).
4. Amendment of subsection (a)(2) and NOTE filed 11–13–95 as an emergency; operative 11–13–95 (Register 95, No. 46). A Certificate of Compliance must be transmitted to OAL by 3–12–96 or emergency language will be repealed by operation of law on the following day.
5. Reinstatement of subsection (a)(2) and NOTE as they existed prior to emergency amendment that was filed 11–3–95 by operation of Government Code section 11346.1(f). Operative 3–13–96 (Register 96, No. 23).
6. Amendment of subsection (a)(2) and NOTE filed 6–7–96; operative 7–7–96 (Register 96, No. 23).
7. Amendment of section and NOTE filed 3–4–2003; operative 4–3–2003 (Register 2003, No. 10).
8. Amendment of subsection (b)(3) and both versions of subsection (c) filed 9–18–2003; operative 10–18–2003 (Register 2003, No. 38).
9. Amendment of introductory paragraph and subsections (a)–(a)(1), new subsection (a)(2), amendment of subsections (b), (b)(2) and (b)(5) and amendment of NOTE filed 3–14–2006; operative 3–14–2006 pursuant to Government Code section 11343.4 (Register 2006, No. 11).

§ 180.3. Restricted Access Spot Prawn Trap Fishery.

(a) Control Date. A control date of January 1, 1999, is established for the purpose of developing a restricted access spot prawn trap fishery. Only those vessels which have made at least one spot prawn landing with trap gear before this date may be considered for inclusion in the restricted access trap fishery. Additional vessels which have made landings of spot prawns with trawl gear between 1994 and 2001 also may be considered for inclusion in the restricted access spot prawn trap fishery (trawl conversion program).

(b) Permit Requirement, Classification of Permits and Permit Conditions. Effective April 1, 2002, no person shall use a vessel to land spot prawns for commercial purposes using traps authorized pursuant to Sections 8591 and 9001 of the Fish and Game Code, unless the owner of that vessel has a general trap permit, issued pursuant to Section 9001 of the Fish and Game Code, and a spot prawn trap vessel permit for that vessel that has not been suspended or revoked.

(1) Tier 1 Permits. Spot prawn trap vessel permits issued pursuant to subsection (c)(1) shall be considered as Tier 1 permits, and permitted vessels are authorized to use the number of traps specified for Tier 1 permits pursuant to Section 180.1(c), Title 14.

(2) Tier 2 Permits. Spot prawn trap vessel permits issued pursuant to subsection (c)(2) shall be considered as Tier 2 permits, and permitted vessels are authorized to use the number of traps specified for Tier 2 permits pursuant to Section 180.1(c), Title 14. Permitted vessels with Tier 2 permits may not exceed a maximum of 5000 pounds of spot prawns landed in any permit year. The revenue from any landings in excess of 5000 pounds in any permit year shall be forfeited to the department.

(3) Tier 3 Permits. Spot prawn trap vessel permits issued pursuant to subsection (c)(3) shall be considered as Tier 3 permits, and permitted vessels are authorized to use the number of traps specified for Tier 3 permits pursuant to Section 180.1(c), Title 14. Tier 3 permits shall also be known as trawl conversion permits.

(c) Initial Issuance Criteria. A spot prawn trap vessel permit for a specific tier shall be issued only to the following persons for use on qualifying vessels:

(1) Tier 1 Permits. A person who is the owner of a commercial fishing vessel that has been registered with the department pursuant to Section 7881 of the Fish and Game Code in each of the 1997–98, 1998–99, and 1999–2000 permit years, and has made landings of spot prawns utilizing traps on or before January 1, 1999, as documented by landing receipts that were delivered to the department pursuant to Section 8046 of the Fish and Game Code, and who has satisfied at least one of the following minimum vessel–based landing requirements:

(A) at least 20 landings of spot prawns, utilizing traps, in each of the calendar years 1997, 1998, and 1999;

(B) at least 2,000 pounds of spot prawns landed, utilizing traps, in each of the calendar years 1997, 1998, and 1999;

(C) at least 10,000 pounds of spot prawns landed, utilizing traps, in each of the calendar years 1998 and 1999.

(2) Tier 2 Permits.

(A) A person who is the owner of a commercial fishing vessel that has been registered with the department pursuant to Section 7881 of the Fish and Game Code in each of the 1997–98, 1998–99, and 1999–2000 permit years, and has made landings of spot prawns utilizing traps on or before January 1, 1999, as documented by landing receipts that were delivered to the department pursuant to Section 8046 of the Fish and Game Code, and who does not satisfy any of the minimum landing requirements in subsection (c)(1) and has satisfied at least one of the following minimum vessel–based landing requirements:

1. at least 10 landings of spot prawns, utilizing traps, in calendar year 1998;

2. at least 1,000 pounds of spot prawns landed, utilizing traps, in calendar year 1998.

(B) Any individual, who has been licensed as a California commercial fisherman for at least 20 years, and who has participated in the commercial spot prawn trap fishery for at least one of those years, and who has made at least 20 landings of spot prawns, using traps, totaling at least 10,000 pounds in one of those years, shall be issued a Tier 2 permit.

(3) Tier 3 Permits. Prawn points will be used to determine eligibility for initial issuance of Tier 3 permits. Any person who is the owner of a commercial fishing vessel that has been registered with the department pursuant to Section 7881 of the Fish and Game Code between 1994 and 2001 will receive points based on spot prawn landings made utilizing trawl gear.

(A) Points will be awarded to a vessel based on landing history between January 1, 1994 through December 31, 2001 as documented by fish landing receipts that were submitted to the department pursuant to Section 8046 of the Fish and Game Code in the vessel's name and commercial boat registration number as follows:

1. One hundred prawn points will be earned for each calendar year in which the vessel made a landing of spot prawn with trawl gear between 1994 and 2001.

2. One prawn point will be earned for every 500 pounds of spot prawn the vessel landed with trawl gear between 1994 and 2001; and

3. One prawn point will be earned for each landing of spot prawn a vessel made with trawl gear between 1994 and 2001;

(B) A vessel must have in excess of 1,000 prawn points to qualify for initial issuance of a Tier 3 permit.

(d) Capacity Goal. The commission has determined that the spot prawn trap fishery capacity goal for Tier 1 and Tier 3 permits combined shall be 17. The commission has determined that the spot prawn trap fishery capacity goal for Tier 2 permits shall be 0.

(e) Application Deadline for Initial Issuance of Spot Prawn Trap Vessel Permits.

(1) Tier 1 and Tier 2 Permits. All applications and permit fees for initial issuance of Tier 1 and Tier 2 spot prawn trap vessel permits must be re-

ceived by the department or, if mailed, must be postmarked no later than June 30, 2002. Applications for initial issuance of a spot prawn trap vessel permit received from July 1 through July 31, 2002 shall be considered late and will be assessed a late fee. Applications and monies due for the initial issuance of Tier 1 and Tier 2 spot prawn trap vessel permits not received or, if mailed, not postmarked, by July 31, 2002 shall be returned to the applicant unissued.

(2) Tier 3 Permits. All applications (FG 1424 (new, 8/04) incorporated by reference herein) and permit fees for initial issuance of Tier 3 spot prawn trap vessel permits must be received by the department or, if mailed, must be postmarked no later than February 28, 2005. Applications for initial issuance of Tier 3 spot prawn trap vessel permits received from March 1 through March 31, 2005 shall be considered late and will be assessed a late fee pursuant to subsection (n). Applications and monies due for initial issuance of Tier 3 spot prawn trap vessel permits not received or, if mailed, not postmarked, by March 31, 2005 shall be returned to the applicant unissued.

(f) Minimum Landing Requirements for Spot Prawn Trap Vessel Permit Renewal. No minimum landings of prawns shall be required to be eligible for renewal of a spot prawn trap vessel permit.

(g) Annual Spot Prawn Trap Vessel Permit Renewal. Applications [FG 1422 (Rev. 11/05) incorporated by reference herein] for renewal of a spot prawn trap vessel permit shall be received by the department, or, if mailed, postmarked, by April 30 of each year. Late fees, late fee deadlines, and late renewal appeal provisions are specified in Fish and Game Code Section 7852.2.

(h) Presence of Owner on Vessel. An owner of the vessel to which the spot prawn trap vessel permit has been issued must be on the vessel when spot prawns are being taken or landed, except that one additional operator may be designated during a license year by informing the department in writing with a letter sent to the department's office in Monterey.

(i) Revocation of Permit. A spot prawn trap vessel permit shall be revoked if the permittee submits false information for the purposes of obtaining a spot prawn trap vessel permit.

(j) Transfer of a Spot Prawn Trap Vessel Permit to Another Vessel. A transfer of a spot prawn trap vessel permit to another vessel may be approved for use on a replacement vessel only if all of the following criteria are met:

(1) In the form of a notarized letter, the owner of the vessel which has a valid Spot Prawn Trap Vessel Permit shall submit a request for transfer of a Spot Prawn Trap Vessel Permit to the department.

(2) The vessel owner pays the non–refundable transfer fee specified in subsection (m) to the department.

(3) Unless the vessel was lost, stolen, or destroyed, a permit may not be transferred more than once during any permit year.

(4) The spot prawn trap vessel permit for the permitted vessel is valid, and has not been suspended or revoked.

(5) The owner of a vessel with a valid Spot Prawn Trap Vessel Permit has written authority from the legal owner and/or partners, or mortgager, of the replacement vessel, to which the permit shall be transferred, to transfer the Spot Prawn Trap Vessel Permit from the permitted vessel to the replacement vessel.

(k) Change of Ownership of a Spot Prawn Trap Vessel Permit.

(1) All Tier 1 spot prawn trap vessel permits shall be transferable to another person, but not more than once within any 3–year period. Upon the death of the permittee, transfer of a Tier 1 spot prawn vessel permit may be considered if the estate submits a notarized letter for the change of ownership to the department, within one year of the death of the permittee as listed on the death certificate.

(2) A change of ownership of a Tier 1 spot prawn trap vessel permit to another person may be approved only if the vessel owner submits a notarized statement for change of ownership to the department. Thereafter, upon notice to the department, the person purchasing the spot prawn trap vessel permit may use that permit for the taking and landing of spot prawns for any and all of the unexpired portion of the permit year, provided the following requirements are met:

(A) the person purchasing the permit shall have a valid commercial fishing license issued pursuant to Section 7852 of the Fish and Game Code that has not been suspended or revoked, and a general trap permit issued pursuant to Section 9001 of the Fish and Game Code that has not been suspended or revoked.

(B) the person is the owner of a commercial fishing vessel that has been registered with the department pursuant to Section 7881 of the Fish and Game Code that has not been suspended or revoked. The person receiving the permit shall be eligible for a permit, pursuant to the provisions of this section, for the use of that vessel in subsequent years.

(3) Notwithstanding the transfer of ownership provisions in subsection (k) for Tier 1, upon the death of a spot prawn trap vessel Tier 1 permittee the estate may apply to the department to transfer that permit to the estate. The request for transfer shall be received by the department within one year of the death of the permittee.

(4) The vessel owner pays the non–refundable transfer fee specified in subsection (m) to the department.

(5) Tier 2 spot prawn trap vessel permits shall not be transferred to another person. Tier 2 permits shall become null and void upon death of the permit holder.

(6) Tier 3 spot prawn trap vessel permits shall not be transferred to another person. Tier 3 permits shall become null and void upon death of the permit holder.

(*l*) Appeals.

(1) Any applicant who is denied initial issuance of a spot prawn trap vessel Tier 1 or Tier 2 permit for any reason may appeal that denial to the department in writing describing the basis for the appeal. The appeal shall be received or, if mailed, postmarked no later than March 31, 2003. Any applicant who is denied initial issuance of a Tier 3 spot prawn trap vessel permit for any reason may appeal that denial to the department in writing describing the basis for the appeal. The appeal shall be received or, if mailed, postmarked no later than September 30, 2005. The appeal shall be reviewed and decided by the department. The decision of the department may be appealed in writing to the commission within 60 days of the date of the department's decision

(2) Renewal Appeals. Late renewal appeal provisions are specified in Fish and Game Code Section 7852.2.

(3) Any applicant who is denied transfer of a spot prawn trap vessel permit may appeal the denial to the department in writing describing the basis for the appeal. The appeal shall be reviewed and decided by the department. The decision of the department may be appealed in writing to the commission within 60 days of the date of the department's decision.

(m) Fees.

(1) Tier 3 Initial Issuance Fee. The department shall charge a fee for each Tier 3 spot prawn trap vessel permit of $1,015.

(2) Annual Renewal Fee. The department shall charge an annual fee for each Tier 1 and Tier 2 spot prawn trap vessel permit of $266.50. The department shall charge an annual renewal fee for each Tier 3 spot prawn trap vessel permit of $1,066.25. Late fees, late fee deadlines, and late renewal appeal provisions are specified in Fish and Game Code Section 7852.2.

(3) Vessel Transfer Fee. The department shall charge a non–refundable fee of $200 for each vessel transfer.

(4) Change of Ownership Fee. The department shall charge a non–refundable fee of $50 for each change of ownership of the spot prawn trap vessel permit.

(5) Initial Issuance Late Fees. The department shall charge a non–refundable late fee of $50 if an application for initial issuance of a Tier 1 or Tier 2 spot prawn trap vessel permit is received from July 1 to July 31, 2002. The department shall charge a non–refundable late fee of $50 if an application for initial issuance of a Tier 3 spot prawn trap vessel permit is received from March 1 to March 31, 2005.

HISTORY

1. New section filed 5–3–2000; operative 5–3–2000 pursuant to Fish and Game Code section 215 (Register 2000, No. 18).
2. Amendment of section and NOTE filed 3–14–2002; operative 3–15–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 11).
3. Amendment of subsections (b)(2)(C), (j)(2) and (k)(1)–(2) filed 7–12–2004; operative 8–11–2004 (Register 2004, No. 29).
4. Amendment of section heading, section and NOTE filed 12–13–2004; operative 12–13–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 51).
5. Change without regulatory effect amending subsections (n)(1)–(n)(6) and amending NOTE filed 5–12–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 19).
6. Change without regulatory effect amending subsections (g) and (n)(2) filed 12–19–2006 pursuant to section 100, title 1, California Code of Regulations (Register 2006, No. 51).
7. Amendment of section and NOTE filed 7–8–2008; operative 7–8–2008 pursuant to Government Code section 11343.4 (Register 2008, No. 28).

§ 180.4. Finfish Trap Construction.

The entrance funnels of finfish traps used in waters between Point Arguello, Santa Barbara County and Point Montara, San Mateo County, shall have a rigid inside entrance diameter of not greater than 5.00 inches. Funnels constructed of a readily deformable material such as "chicken wire" and commonly referred to as "pulled" shall have a rigid metal ring of not greater than 5.00 inches in diameter permanently affixed in each entrance funnel.

NOTE: Authority cited: Section 8587.1, Fish and Game Code. Reference: Section 8587.1, Fish and Game Code.

HISTORY

1. New section filed 12–19–2001; operative 1–18–2002 (Register 2001, No. 51).

§ 180.5. Trap Buoy Identification.

Pursuant to the provisions of Section 9005 of the Fish and Game Code, every trap or string of traps placed in waters of the state to take fin fish, mollusks or crustaceans for commercial purposes shall be marked with a buoy. Buoys used to mark any trap or string of traps shall be clearly and distinctly marked with a buoy identification number as required by Section 9006 of the Fish and Game Code. The specified identification number shall be at least one and one–half inches in height and one–quarter inch in width. Each trap marker buoy shall bear the specified number in a color which contrasts with that of the buoy and the number shall be applied so that it is visible and legible.

NOTE: Authority cited: Sections 9003, 9005 and 9006, Fish and Game Code. Reference: Sections 9002, 9003, 9005, 9006, 9007 and 9008, Fish and Game Code.

HISTORY

1. New section filed 9–19–85; effective thirtieth day thereafter (Register 85, No. 40).

§ 180.15. Coonstripe Shrimp *(Pandalus danae)* Fishing.

(a) No person shall use a vessel to take, possess or land coonstripe shrimp for commercial purposes unless the owner of that vessel has been issued a coonstripe shrimp vessel trap permit for that vessel that has not been suspended or revoked.

(b) The fee for a coonstripe shrimp vessel trap permit is $80.00.

(c) Coonstripe shrimp may only be taken for commercial purposes by traps pursuant to this section and sections 180, 180.2, and 180.5, Title 14, CCR.

(1) Coonstripe shrimp may not be taken from November 1 through April 30.

(2) All coonstripe shrimp taken during the closed season shall immediately be returned to the water. No coonstripe shrimp shall be possessed or landed aboard any commercial fishing vessel during the closed season.

(3) Coonstripe shrimp traps may be set and baited no earlier than noon on April 30.

(4) All traps must be removed from the water prior to November 1, weather and sea conditions permitting. In the event that a permittee is unable to comply with this subsection, then the permittee must notify an officer from the department's Enforcement Branch in the nearest department office via telephone or fax not later than noon on October 31. The permittee must state the reason for the delay and the anticipated date of removal. Notification does not relieve the permittee of the responsibility for complying with this subsection unless approved by the department.

(d) A control date of November 1, 2001, is established for the purpose of considering a future restricted access coonstripe shrimp trap fishery. Landings on or after this date may not apply toward a permit in a future restricted access program for the coonstripe shrimp trap fishery if one is developed.

NOTE: Authority cited: Sections 713, 1050, 8591 and 8842, Fish and Game Code. Reference: Sections 1050, 8590, 8591, 8595, 8842, 9001 and 9015, Fish and Game Code.

HISTORY

1. New section filed 3–25–2002; operative 3–29–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 13).
2. Amendment of section and NOTE filed 1–17–2003; operative 2–16–2003 (Register 2003, No. 3).
3. Change without regulatory effect pursuant to section 100, title 1, California Code of Regulations, amending subsection (b) and NOTE in accordance with section 713 of the Fish and Game Code, filed 5–11–2005; operative 6–10–2005 pursuant to the Commission's instructions (Register 2005, No. 19).
4. Change without regulatory effect amending subsection (b) filed 12–19–2006 pursuant to section 100, title 1, California Code of Regulations (Register 2006, No. 51).

§ 181. Commercial Salmon Fishing.

NOTE: Authority cited: Section 7710, Fish and Game Code. Reference: Section 7710, Fish and Game Code.

HISTORY

1. Expired by own terms 5–1–80 (Register 80, No. 22). For prior history, see Registers 77, Nos. 19 and 37; 78, No. 26; 79, No. 14; 79, No. 17; 79, No. 19; 79, No. 36; and 80, No. 14.

§ 182. Commercial Salmon Fishing.

(a) General Provisions. No person shall engage in commercial salmon fishing except as provided by the Fish and Game Code and regulations provided herein. Applicable regulations adopted by the U.S. Secretary of Commerce pursuant to the Magnuson Fishery Conservation and Management Act and published in Title 50, Code of Federal Regulations (CFR), Parts 600 and 660 are hereby incorporated and made a part of these regulations. Federal regulations shall be made available upon request from the Department of Fish and Game, Marine Region, 1416 Ninth Street, BOX 944209, Sacramento, CA 94244–2090, phone number 916–651–7670.

(b) Reporting Requirements

(1) Any person required to complete a landing receipt pursuant to FGC Section 8043 for the landing of salmon shall on the same landing receipt accurately record the total number of salmon landed in the "Note Pad" field of the landing receipt (F&G 625–D rev. 10/00), which may be found in Appendix A of these regulations.

(2) Any person who lands salmon shall keep a copy of all landing receipts documenting salmon landings on board the fishing vessel that caught the salmon until 15 days after the last salmon season closure for the calendar year.

(c) General Definitions. For purposes of these regulations, the following definitions shall apply:

(1) Closures. Taking or taking and retaining any species of salmon is prohibited. Legally caught salmon may be landed on closed areas if they meet the minimum size limit or other special requirements for the area in which they were caught and are not otherwise prohibited by these regulations.

(2) Transit Through Closed Areas. Vessels with an ocean salmon permit from any state with salmon on board shall not have fishing gear in the water while transiting any area closed to commercial salmon fishing.

(3) Size Limits and Length Measurement. All salmon on board must meet the minimum size or other special requirements for the area being fished and the area in which they are landed if that area is open. Total length is measured from the tip of the snout to the extreme tip of the tail without resorting to any force other than swinging or fanning the tail.

(4) Gear Definitions. Troll fishing gear is defined as no more than six lines that drag hooks with bait or lures behind a moving fishing vessel.

Salmon may be taken only by hook and line using barbless hooks. Barbless circle hooks are required when fishing with bait by any means other than trolling.

(5) Barbless Hook Definition. A hook with a single shank and point, with no secondary point or barb curving or projecting in any other direction. Hooks manufactured with barbs can be made "barbless" by removing or completely closing the barb.

(6) Circle Hook Definition. A hook with a generally circular shape, and a point which turns inwards, pointing directly to the shank at a 90 degree angle.

(7) Trolling Definition. Angling from a boat or floating device that is making way by means of a source of power, other than drifting by means of the prevailing water current or weather conditions.

(8) Freezer Trolling Vessel. Frozen salmon may be possessed in a dressed, head–off condition, subject to the following minimum size limit: king salmon, 19–1/2″ in dressed, head–off length when salmon no less than 26 inches total length may be possessed; king salmon, 20–1/4″ in dressed, head–off length when salmon no less than 27 inches total length may be possessed. Dressed, head–off length is the distance measured along the lateral line between the mid–point of the clavicle and the fork of the tail.

(9) Federal Designated Routine Management Measures. Routine Management Measures, identified as catch restrictions intended to keep landings within the harvest levels announced by the Secretary of Commerce and noticed in the Federal Register by the National Marine Fisheries Service, are hereby incorporated and made a part of these regulations. Should any federal management measures conflict with existing statutes, including Fish and Game Code Sections 8210.2 and 8215, the provisions in the statutes which conflict with the federal management measures are made inoperative.

NOTE: Authority cited: Sections 7652 and 8043, Fish and Game Code. Reference: Sections 1700, 7600, 7650, 7652, 7652.1, 7652.2, 7652.3, 8046, 8210.2 and 8215, Fish and Game Code; and Title 50, Code of Federal Regulations, Part 660.

HISTORY

1. New section filed 4–30–91 as an emergency; operative 5–1–91 (Register 91, No. 24). A Certificate of Compliance must be transmitted to OAL by 8–29–91 or emergency language will be repealed by operation of law on the following day.
2. Change without regulatory effect amending subsection (f) filed 6–20–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 39).
3. Certificate of Compliance as to 4–30–91 order transmitted to OAL 8–21–91 and filed 8–29–91 (Register 92, No. 3).
4. Repealer and new section filed 4–30–92 as an emergency; operative 5–1–92 (Register 92, No. 19). A Certificate of Compliance must be transmitted to OAL 8–31–92 or emergency language will be repealed by operation of law on the following day.
5. Certificate of Compliance as to 4–30–92 order including amendment of subsections (e), (f) and (h), adoption of new subsection (g) and subsection relettering transmitted to OAL 7–23–92 and filed 7–31–92 (Register 92, No. 31).
6. Repealer and new section filed 4–29–93 as an emergency; operative 5–1–93 (Register 93, No. 18). A Certificate of Compliance must be transmitted to OAL 8–30–93 or emergency language will be repealed by operation of law on the following day.
7. Repealer of subsection (g) and amendment of subsections (a), (e) and (f) filed 5–25–93 as an emergency; operative 6–1–93 (Register 93, No. 22). A Certificate of Compliance must be transmitted to OAL 9–29–93 or emergency language will be repealed by operation of law on the following day.
8. New subsections (g)–(g)(3) filed 9–3–93 as an emergency; operative 9–6–93 (Register 93, No. 36). A Certificate of Compliance must be transmitted to OAL by 1–4–94 or emergency language will be repealed by operation of law on the following day.
9. Repealed by operation of Government Code section 11346.1(g) (Register 94, No. 16).
10. New section refiled 4–19–94 as an emergency; operative 5–1–94 (Register 94, No. 16). A Certificate of Compliance must be transmitted to OAL by 8–29–94 or emergency language will be repealed by operation of law on the following day.
11. Certificate of Compliance transmitted to OAL 8–24–94 and filed 9–7–94 (Register 94, No. 36).
12. Editorial correction of HISTORY 10 (Register 94, No. 36).
13. Repealer and new section filed 4–27–95 as an emergency; operative 5–1–95 (Register 95, No. 17). A Certificate of Compliance must be transmitted to OAL by 8–25–95 or emergency language will be repealed by operation of law on the following day.
14. Certificate of Compliance as to 4–27–95 order transmitted to OAL 8–28–95 and filed 8–30–95 (Register 95, No. 35).
15. Expired by its own terms on 4–30–96 (Register 96, No. 18).
16. New section filed 5–1–96 as an emergency pursuant to Fish and Game Code section 7652; operative 5–1–96 (Register 96, No. 18). A Certificate of Compliance must be transmitted to OAL by 8–29–96 or emergency language will be repealed by operation of law on the following day.
17. Editorial correction of subsections (b) and (e) (Register 96, No. 35).
18. Certificate of Compliance as to 5–1–96 order transmitted to OAL 8–26–96 and filed 8–28–96 (Register 96, No. 35).
19. Expired by its own terms on 4–30–97 (Register 97, No. 18).
20. New section filed 5–2–97; operative 5–2–97. Submitted to OAL for printing only pursuant to Fish and Game Code section 7652 (Register 97, No. 18).
21. Editorial correction amending HISTORY 16 and HISTORY 19 and adding HISTORY 20 (Register 98, No. 21).
22. Expired by its own terms on 4–30–98 (Register 98, No. 21).
23. New section filed 5–18–98; operative 5–18–98. Submitted to OAL for printing only pursuant to Fish and Game Code section 7652 (Register 98, No. 21).
24. Expired by its own terms on 4–30–99 (Register 99, No. 25).
25. New section filed 6–14–99; operative 6–14–99. Submitted to OAL for printing only pursuant to Fish and Game Code section 7652 (Register 99, No. 25).
26. Expired by its own terms on 4–30–2000 (Register 2000, No. 24).
27. New section filed 6–13–2000; operative 6–13–2000. Submitted to OAL for printing only pursuant to Fish and Game Code section 7652 (Register 2000, No. 24).
28. Repealer and new section filed 5–9–2001; operative 5–9–2001. Submitted to OAL for printing only pursuant to Fish and Game Code section 7652 (Register 2001, No. 19).
29. Amendment of subsection (a), new sections (b)–(b)(2), subsection relettering and amendment of NOTE filed 5–17–2006; operative 5–17–2006. Submitted to OAL for printing only (Register 2006, No. 20).

§ 182.1. Commercial Salmon Fishing.

Under the authority of Sections 7652 and 7652.2 of the Fish and Game Code, Section 8210.2 of said Code and Section 182, Title 14, California Code of Regulations are made temporarily inoperative for the period May 1, 1988 through April 30, 1989 and the following provisions are adopted, such provisions to be effective My 1, 1988 through April 30, 1989 and on April 30, 1989 are repealed. Upon expiration of these provisions in any district or portion thereof, Section 8210.2 of the Fish and Game Code shall become effective in such districts or portions or districts.

(a) In Districts 6, 7, 10, 11, 15, 16, 17, 18, and 19, no king (chinook) salmon may be possessed that is less than 26 inches in length and no silver (coho) salmon less than 22 inches, such lengths to be measured from the tip of the snout to the extreme tip of the tail without resorting to any force other than swinging or fanning the tail. Salmon may be taken only by hook and line and there is no bag limit except as modified in subsections (g), (h), (i) and (n) of these regulations.

(b) In Districts 6, 7, 10, 11, 15, 16, 17, 18, and 19, no person shall engage in commercial salmon fishing using other than single barbless hooks. Single barbless hook means a hook with a single shank and point, with no secondary point or barb curving or projecting in any other direction. Hooks manufactured with barbs can be made "barbless" by forcing the point of the barb flat against the main part of the point.

(c) Except as prohibited under Section 8215 of the Fish and Game Code and subsection (j) of these regulations, frozen salmon may be possessed in Districts 6, 7, 10, 11, 15, 16, 17, 18, and 19, and landed in a dressed, head–off condition, subject to the following minimum size limits: king salmon, 19 1/2″ in dressed, head–off length; silver salmon, 16 1/2″ in dressed, head–off length. Dressed, head–off length is the distance between the mid–point of the clavicle arch and the fork of the tail measured along the lateral line.

(d) In Districts 6, 7, 10, 11, 15, 16, 17, 18, and 19, commercial salmon fishing vessels shall use no more than six troll lines at any time to drag hooks with bait or lures.

(e) In Districts 7, 10, 11, 15, 16, 17, 18, and 19, south of Point Arena (39° 00′ 00″ N. lat.), under the authority of a commercial fishing license, all salmon species other than silver salmon, which are provided for in subsection (i), may be taken between May 1 and September 30.

(f) In District 7 between Point Arena and Cape Vizcaino (39° 43′ 30″ N. lat.), under the authority of a commercial fishing license, all salmon species except silver salmon may be taken between May 1 and May 31. In District 7 between Point Arena and Horse Mountain (40° 5′ 00″ N. lat.), all species other than silver salmon, which are provided for in subsection (i), may be taken from June 5 through September 30, except no

commercial salmon fishing is permitted in the area on Thursdays, Fridays or Saturdays from June 9 through July 16.

(g) In District 7 between Cape Vizcaino and Horse Mountain, under the authority of a commercial fishing license, all salmon species except silver salmon may be taken from May 1 through the earlier of May 31 or the date that the Director of the California Department of Fish and Game determines that a total of 8,000 king salmon will be taken, with the following exceptions and restrictions:

(1) No commercial salmon fishing is permitted in the area on Thursdays, Fridays or Saturdays.

(2) All salmon taken or possessed in the area must be landed in the area.

(h) In District 6 and that portion of District 7 north of Punta Gorda (40° 15′ 30″ N. lat.), under the authority of a commercial fishing license, all salmon species other than silver salmon, which are provided for in subsection (i), may be taken from June 5 through the earlier of August 31 or the date that the Regional Director of the National Marine Fisheries Service (NMFS) determines that a total of 55,500 king salmon will be taken in the commercial fishery since May 1, 1988, in the commercial fishery between Port Orford, in southern Oregon (42° 45′ 11″ N. lat.) and Punta Gorda, with the following provisions, exceptions and clarifications:

(1) No commercial fishing is permitted in the area on Thursdays, Fridays or Saturdays, and the area is closed to all commercial salmon fishing from June 29 through July 16.

(2) On or about July 27, the Regional Director of the NMFS will determine if the commercial king salmon quota in the area through August 31 can be increased, due to a projected underage in the ocean landings of Klamath River fall king salmon in the following two ocean fisheries, through August 31: (1) the recreational fishery in the same general area and (2) the commercial fishery provided for under subsection (g) of these regulations.

(3) The commercial salmon fishing closure specified under subsection (k) of these regulations is in effect.

(i) Silver salmon may be taken for commercial purposes during the same time periods and in the same areas as commercial fishing for all other salmon species is allowed with the following clarifications and exceptions:

(1) The commercial fishing closure specified under subsection (k) of these regulations is in effect.

(2) Commercial fishing for, or possession of, silver salmon is not permitted from May 1 through May 1.

(3) Commercial fishing for silver salmon is prohibited, except as provided under subsection (n), upon the earlier date of the projected attainment of a commercial salmon fishery impact south of Cape Falcon in northern Oregon (45° 46′ 00″ N. lat.) or Port Orford in southern Oregon of 684,700 or 100,000 fish, respectively, as determined by the Director of the NMFS.

(j) In District 6 and that portion of District 7 north of Point Arena, during all three-day closures, except for the 12-hour period immediately following the closure, no vessel may be underway at sea inside the closed area with salmon on board except if prior notification is given the nearest Coast Guard Station of intent to transport commercially-caught salmon through the closed area. Furthermore, it is unlawful for a vessel with an ocean salmon permit from any state to have troll fishing gear in the water in these districts between May 1 and October 31 during those times that commercial salmon fishing is not permitted.

(k) Notwithstanding any of the provisions of this Section, commercial salmon fishing in Districts 6 and 7 north of Punta Gorda is prohibited for three consecutive days upon attainment of 85 percent of the silver salmon quota for the commercial salmon fishery south of Cape Falcon, as determined by the Regional Director of the NMFS.

(*l*) Troll fishing gear is defined as one or more lines that drag hooks with bait or lures behind a moving fishing vessel.

(m) In District 6, no salmon may be taken for commercial purposes in state waters off the mouth of the Klamath River within an area bounded on the north by 41° 38′ 48″ N. latitude (approximately 6 nautical miles north of the Klamath River mouth) and on the south by 41° 26′ 48″ N. latitude (approximately 6 nautical miles south of the Klamath River mouth).

(n) In Districts 6 and 7 between Trinidad Head (41° 3′ 20″ N. lat.) and Punta Gorda, under the authority of a commercial fishing license, all salmon species may be taken between September 1 and the earlier of October 31 or the date that the Regional Director of the NMFS determines that a total of 15,000 king salmon will be taken.

(o) It is unlawful for any person to fish for, or take and retain any species of salmon in Districts 6, 7, 10, 11, 15, 16, 17, 18, and 19: i) during closed seasons or in closed areas; ii) while possessing on board any species of salmon not allowed to be taken in the area at the time, iii) once any catch limit is attained; or iv) by means of gear or methods other than troll fishing gear.

(p) All other provisions, exceptions and restrictions for commercial salmon fishing off California are described in Title 50—Code of Federal Regulations, Part 661.

NOTE: Authority cited: Sections 7652 and 7652.2, Fish and Game Code. Reference: Sections 1700, 7600, 7650, 7652 and 7652.2, and 8210.2 Fish and Game Code; Section 182, Title 14, California Code of Regulations; and Title 50, Code of Federal Regulations, Part 661.

HISTORY

1. New section filed 4–29–85 as an emergency; designated effective 5–1–85 (Register 85, No. 18). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 8–29–85. For prior history, see Register 85, No. 2.
2. Repealed by operation of Government Code Section 11346.1(g) (Register 85, No. 37).
3. New section filed 8–30–85 as an emergency; effective upon filing (Register 85, No. 37). Expires by own terms on 9–30–85.
4. Expired by own terms (Register 86, No. 18).
5. New section filed 4–30–86 as an emergency; designated effective 5–1–86 (Register 86, No. 18). Expires by own terms on 9–30–86.

[The next page is 81.]

6. Section refiled 8–29–86 as an emergency; effective upon filing (Register 86, No. 35). Expires by own terms on 9–30–86.
7. Expired by own terms on 9–30–86 (Register 87, No. 16).
8. New section filed as an emergency 4–15–87; operative upon filing (Register 87, No. 16). Expires by own terms on 9–30–87.
9. Certificate of Compliance transmitted to OAL 8–10–87 and filed 9–2–87 (Register 87, No. 36).
10. Expired by own terms on 9–30–87 (Register 88, No. 18).
11. New section filed 4–29–88 as an emergency; operative 5–1–88 (Register 88, No. 18). Expires by own terms on 4–30–89.
12. Certificate of Compliance filed 8–25–88 (Register 88, No. 39).

§ 183. Commercial Salmon Vessel Permit.

The annual fee for a commercial salmon vessel permit, created pursuant to Section 8235 of the Fish and Game Code, shall be $32.00 and shall be valid from April 1 through March 31 of the following year.

HISTORY

1. New section filed 2–18–83; effective thirtieth day thereafter (Register 83, No. 8). For prior history, see Register 81, No. 47.
2. Change without regulatory effect amending section and NOTE filed 8–24–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 34).
3. Change without regulatory effect amending section and NOTE filed 11–2–2006 pursuant to section 100, title 1, California Code of Regulations (Register 2006, No. 44).

§ 185. Commercial Take, Possession, Purchase, Sale, Transport, Export or Import of Native Reptiles and Amphibians.

NOTE: Authority cited: Sections 5061 and 6896, Fish and Game Code. Reference: Sections 5061 and 6896, Fish and Game Code.

HISTORY

1. New section filed 7–31–75; effective thirtieth day thereafter (Register 75, No. 31).
2. Amendment of subsections (a)(1), (b)(1) and (g), and new subsection (h) filed 12–9–75; effective thirtieth day thereafter (Register 75, No. 50).
3. Amendment filed 2–22–78 as an emergency; effective upon filing. Certificate of Compliance included (Register 78, No. 8).
4. Amendment filed 6–11–79; effective thirtieth day thereafter (Register 79, No. 24).
5. Amendment of NOTE filed 10–19–81; effective thirtieth day thereafter (Register 81, No. 43).
6. New subsection (d) filed 10–1–82; effective thirtieth day thereafter (Register 82, No. 40).
7. Amendment filed 1–20–87; effective upon filing pursuant to Fish and Game Code section 215 (Register 87, No.4).
8. Amendment of subsections (c) and (d) filed 4–18–91; operative 5–18–91 (Register 91, No. 21).
9. Repealer of subsections (a)–(f) and new subsections (a)–(d) filed 4–23–92; operative 5–25–92 (Register 92, No. 20).
10. Repealer filed 9–10–96; operative 9–10–96 pursuant to Fish and Game Code sections 202 and 215 (Register 96, No. 37).

§ 185.5. Captive Propagation of Native Reptiles and Amphibians for Commercial Purposes.

NOTE: Authority cited: Sections 5061 and 6896, Fish and Game Code. Reference: Sections 5061 and 6896, Fish and Game Code.

HISTORY

1. New section filed 4–23–92; operative 5–25–92 (Register 92, No. 20).
2. Repealer of section and forms filed 9–10–96; operative 9–10–96 pursuant to Fish and Game Code sections 202 and 215 (Register 96, No. 37).

§ 186. Commercial Take and Use of Frogs for Human Consumption.

NOTE: Authority cited: Sections 6851 and 15005, Fish and Game Code. Reference: Sections 6850–6885, 15000 and 15005, Fish and Game Code.

HISTORY

1. New section filed 3–17–76; effective thirtieth day thereafter (Register 76, No. 12).
2. Amendment of NOTE filed 10–19–81; effective thirtieth day thereafter (Register 81, No. 43).
3. Amendment filed 4–1–83; effective upon filing pursuant to Government Code Section 11346.2(d) (Register 83, No. 14).
4. Repealer filed 9–10–96; operative 9–10–96 pursuant to Fish and Game Code sections 202 and 215 (Register 96, No. 37).

§ 187. Weight in the Round Conversion Factors for Swordfish, Salmon, Angel Shark, Bonito Shark, Thresher Shark, and Tanner Crab.

For purposes of computing the appropriate landing tax, pursuant to Sections 8042 and 8051 of the Fish and Game Code, the following weight conversion factors must be used by those persons and businesses responsible for remitting such landing taxes as required under Division 6, Part 3, Chapter 1, Article 7.5 of the Fish and Game Code.

(a) Salmon, 110% of the weight landed.

(b) Swordfish, 145% of the weight landed.

(c) Angel shark, 200% of the weight landed.

(d) Bonito shark, 145% of the weight landed.

(e) Thresher shark, 170% of the weight landed.

(f) Tanner crab (*Chionecetes* spp.), 161% of the weight landed.

NOTE: Authority cited: Section 8042, Fish and Game Code. Reference: Sections 8040, 8041, 8042 and 8051, Fish and Game Code.

HISTORY

1. New section filed 10–1–86 as an emergency; operative 10–1–86 (Register 86, No. 40). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 1–29–87.
2. Order of Repeal of 10–1–86 emergency order pursuant to Government Code Section 11349.6 (Register 87, No. 7).
3. Editorial correction deleting text of Section 187 which inadvertently remained in print during production of Register 87, No.7 (Register 87, No. 27).
4. New section filed 1–5–88; operative 2–4–88 (Register 88, No. 15).
5. Amendment of section heading and new subsection (f) filed 3–28–2006; operative 3–28–2006 pursuant to Government Code section 11343.4 (Register 2006, No. 13).

§ 188. Marine Aquaria Receiver's License.

NOTE: Authority cited: Section 8033.2, Fish and Game Code. Reference: Sections 8043.1 and 8596–8598.6, Fish and Game Code.

HISTORY

1. New section filed 12–7–92 as an emergency; operative 12–7–92 (Register 92, No. 50). A Certificate of Compliance must be transmitted to OAL 4–5–93 or emergency language will be repealed by operation of law on the following day.
2. New section refiled 12–29–93 as an emergency; operative 12–29–93 (Register 93, No. 53). A Certificate of Compliance must be transmitted to OAL by 4–28–94 or emergency language will be repealed by operation of law on the following day.
3. Certificate of Compliance as to 12–29–93 order transmitted with amendment of NOTE to OAL 4–13–94 and filed 5–23–94 (Register 94, No. 21).
4. Change without regulatory effect repealing section filed 8–24–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 34).

§ 189. Commercial Groundfish Fishing.

(a) General Provisions. No person shall engage in commercial groundfish fishing except as provided by the Fish and Game Code and regulations provided herein. Applicable regulations adopted by the U.S. Secretary of Commerce pursuant to the Magnuson Fishery Conservation and Management Act and published in Title 50, Code of Federal Regulations (CFR), Parts 600 and 660 are hereby incorporated and made a part of these regulations. Federal regulations shall be made available upon request from the Department of Fish and Game, Marine Region, 1416 Ninth Street, BOX 944209, Sacramento, CA 94244–2090, phone number 916–653–6281.

(b) General Definitions. For the purposes of these regulations, the following definitions shall apply:

(1) Land or Landing. The transfer of fish from a fishing vessel. Once offloading begins, all fish aboard the vessel are counted as part of the landing.

(2) Closure. Taking and retaining, possessing, or landing the particular species or species group is prohibited. Unless otherwise announced in the Federal Register, offloading must begin before the time the fishery closes.

(3) Sorting. It is unlawful for any person to fail to sort prior to the first weighting after offloading, those groundfish species or species groups for which there is a trip limit, size limit, quota, or optimum yield, if the vessel fished or landed in an area during a time when such trip limit, size limit, quota, or optimum yield applied. This provision applies to both the limited entry and open access fisheries.

(4) Trip Limits. Trip limits specify the amount of fish that a vessel may legally land per fishing trip or cumulatively per unit of time or the number of landings of fish that may be made by a vessel in a given period of time.

(A) Daily Trip Limit. Daily trip limit is the maximum amount of groundfish that may be taken and retained, possessed, or landed per vessel in 24 consecutive hours, starting at 0001 hours local time. Only one landing of groundfish shall be made in that 24-hour period. Daily trip limits shall not be accumulated during multiple day trips.

(B) Cumulative Trip Limit. Cumulative trip limit is the maximum amount of groundfish that may be taken and retained, possessed, or landed per vessel in a cumulative fishing period, without a limit on the number of landings or trips.

(5) Size Limits and Length Measurement. Total length is measured from the tip of the snout (mouth closed) to the tip of the tail (pinched together) without mutilation of the fish or the use of additional force to extend the length of the fish.

(6) Limited Entry Fishery. Limited entry fishery includes vessels using trawl gear, longline, and trap (or pot) gear fished pursuant to the harvest guidelines, quotas, and other management measures governing the limited entry fishing. Limited entry gear includes only longline, trap (or pot) or trawl gear used under the authorization of a valid limited entry permit.

(7) Open Access Fishery. Open access fishery includes vessels using exempted gear, and longline and trap (or pot) gear fished pursuant to the harvest guidelines, quotas, and other management measures governing open access fishing. Exempted gear includes all types of fishing gear except longline, trap (or pot), and groundfish trawl gear, and includes trawl gear used to take pink shrimp, and spot and ridgeback prawns, and south of 38° 57′ 30″ N (Point Arena), California halibut and sea cucumber. A State of California limited entry permit is required for the take of sea cucumbers.

(8) Federally Designated Routine Management Measures. Routine Management Measures, identified as catch restrictions intended to keep landings within the harvest levels announced by the Secretary of Commerce and noticed in the Federal Register by the National Marine Fisheries Service, and hereby incorporated and made a part of these regulations. Should any federal management measures conflict with existing statutes, including Fish and Game Code Sections 8496 and 8842(b), or regulations of the commission, the provisions in the statutes or regulations which conflict with the federal management measures are made inoperative.

HISTORY

1. New section filed 5-1-96 as an emergency; operative 5-1-96 (Register 96, No. 18). A Certificate of Compliance must be transmitted to OAL by 8-29-96 or emergency language will be repealed by operation of law on the following day.
2. Editorial correction of HISTORY 1 (Register 96, No. 37).
3. Editorial correction of subsections (c)(4), (d)(1)(E) and (d)(2)(A)1. and HISTORY 1 (Register 96, No. 40).
4. Certificate of Compliance as to 5-1-96 order transmitted to OAL 8-29-96 and filed 10-1-96 (Register 96, No. 40).
5. Amendment filed 10-10-97; operative 10-10-97. Submitted to OAL for printing only pursuant to Fish and Game Code section 7652 (Register 97, No. 41).
6. Amendment filed 9-17-98; operative 9-17-98 pursuant to Government Code section 11343.4(d). Submitted to OAL for printing only pursuant to Fish and Game Code section 7652 (Register 98, No. 38).
7. Amendment filed 5-26-99; operative 5-26-99. Submitted to OAL for printing only pursuant to Fish and Game Code section 7652 (Register 99, No. 22).
8. Amendment of subsection (a) filed 9-18-2000; operative 10-18-2000. Submitted to OAL for printing only pursuant to Fish and Game Code section 7652 (Register 2000, No. 38).

Chapter 6.5. Fishing Activity Records

§ 190. Fishing Activity Records.

Pursuant to Sections 7923 and 8026, Fish and Game Code, the owner and operator of a commercial fishing vessel or the holder of a commercial fishing license or permit participating in specified fisheries, and the owner and license holder of a commercial passenger fishing vessel shall keep and submit a complete and accurate record of fishing activities.

(a) Fishing activity records shall be kept on forms provided by the department.

(b) Fishing activity records shall be kept on the vessel while it is engaged in, or returning from, fishing operations and shall be completed before the end of a trip, at the time of sale of the catch or at the end of each day's fishing.

(c) Fishing activity records shall be delivered to the department at 4665 Lampson Avenue, Suite C, Los Alamitos, CA 90720, or such other department office as may be specified in regulation on or before the 10th day of each month following the month to which the records pertain. Fishing activity records that are mailed shall be postmarked on or before the 10th day of each month following the month to which the records pertain.

(d) Failure to keep and submit required records of fishing activity may result in revocation or suspension (including non-renewal) of the license or permit for the taking of all fish or for the particular species for which the records are required, by the Department, for a period not to exceed one year. Any revocation, suspension or nonrenewal may be appealed to the Commission.

(e) All fishing activity records shall be deemed confidential upon receipt by the Department.

2. Amendment of subsection (d) filed 9-11-92; operative 10-12-92 (Register 92, No. 37).
3. Editorial correction of subsection (d) (Register 95, No. 4).
4. Amendment of subsection (d) filed 1-25-95; operative 2-24-95 (Register 95, No. 4).
5. Amendment of subsection (c) filed 10-6-2003; operative 11-5-2003 (Register 2003, No. 41).

§ 191. Far Offshore Longline Logbook.

NOTE: Authority cited: Sections 7701, 7708 and 8026, Fish and Game Code. Reference cited: Section 8026, Fish and Game Code.

HISTORY

1. New section filed 9-14-94; operative 10-14-94 (Register 94, No. 37).
2. Repealer filed 11-22-99; operative 11-22-99 pursuant to Government Code section 11343.4(d) (Register 99, No. 48).

§ 195. Report of Fish Taken To Be Made by Owner of Barge or Vessel for Hire, and Boat Limits.

(a) Records required by Sections 7923 and 8026 of the Fish and Game Code shall be made on a form provided by the department (Skipper's Log Book-Marine Sportfishing — Southern California F&G 656 and Skipper's Log Book-Marine Sportfishing Central and Northern California F&G 623, DFG 195, which is incorporated by reference, and hereafter referred to as logbook for purposes of this section). The logbook shall include the following information and be completed and available for inspection as specified in this section:

(1) A full and correct record of fish taken, including species or specified species groups, filled out before the trip is completed (see Section 190(b) of Title 14, CCR). The names used for designating the species of fish shall be those in common usage unless otherwise designated by the department.

(2) The owner/operator copy of the logbook shall be maintained and kept on the vessel for a period of one year, and upon request, shall be made available for inspection by any authorized representative of the Department.

(3) The numbered logbook shall be completed sequentially. A voided log shall have the word "Void" plainly and noticeably written on the face of the log.

(b) The owner(s) and/or operator(s) of each vessel required to obtain a license under Section 7920 of the Fish and Game Code shall post a notice in a prominent place on the vessel giving information to fishermen

on license requirements, bag limits, and other pertinent information. This notice shall be furnished by the department.

(c) Both the vessel owner(s) and/or operator(s) shall be responsible for keeping accurate records and insuring the vessel is in compliance with subsections (a) and (b) above.

(d) All fishing activity records are confidential pursuant to Fish and Game Code Sections 7923 and 8022 and Government Code Sections 6276 and 6276.10.

(e) Boat Limits: When two or more persons licensed or otherwise authorized to sport fish in ocean waters off California or in the San Francisco Bay District, as defined in Section 27.00, are angling for finfish in these waters aboard a vessel licensed under Section 7920, fishing by these persons (to include vessel operator(s) and crew members where licensed to sportfish under their own individual limits) may continue until the passenger's boat limits of those finfish are taken and possessed aboard the vessel as authorized under this section.

(1) For purposes of this section, the vessel operator(s) and crew members are not passengers and may not take fish towards obtaining boat limits for passengers except for casting, setting trolling gear, gaffing or netting fish, but may take fish during a fishing trip for their personal use only. Vessel operator(s) and crew members may assist passengers in other activities including, but not limited to, obtaining bait, chumming, baiting and untangling hooks and lines, identifying, dispatching, filleting, counting, bagging and otherwise handling fish taken by passengers. Upon completion of a fishing trip, the vessel operator(s) and crew members may only possess fish that are part of the own personal bag limit not to exceed authorized sportfishing daily bag and possession limits.

(2) Fish taken by operator(s) and crew members for personal use pursuant to (e)(1) above must be separated from fish taken under a boat limit and labeled in a manner that they can be identified as an individual operator's or crew members fish. Operator(s) and crew members are also prohibited from giving all or part of their individual limit to any passenger during or after a trip.

(3) The authorization for boat limits aboard a vessel does not apply to fishing trips originating in California where fish are taken in other jurisdictions.

(4) A boat limit for a species or species group is equal to the number of passengers aboard the vessel that are licensed or otherwise authorized to sport fish in ocean waters off California or in the San Francisco Bay District multiplied by the individual daily bag limit authorized for a species or species group. For purposes of this section, the number of passengers shall not include the vessel operator(s) and crew members. It is unlawful to exceed the boat limit at any time.

(5) Prior to the departure on a fishing trip of a vessel that is operating under authority of a license issued pursuant to Fish and Game Code Section 7920, the number of fishers, to include passengers, guests, operators and crew who will be fishing, shall be recorded under "number of fishers" on the logbook for that trip. In addition, the number of vessel operator(s) and crew members who will fish for that trip shall be recorded in the space to the right of the operator's signature on the logbook.

(6) Upon completion of a sport fishing trip aboard a vessel reporting under this section, each licensed or otherwise authorized angler may not possess more than the daily bag and possession limits. For the purposes of this section, a fishing trip is completed at the time a person disembarks from the vessel and individual possession limits apply.

(7) Species for which no daily bag limit exists are not included in the boat limit.

(f) Where boat limits are provided for in this section, the vessel operator(s) and crew members may be cited for violations occurring aboard the vessel, including but not limited to violations of the following:

(A) Overlimits

(B) Possession of prohibited species

(C) Minimum size limits

(D) Fish taken out of season or in closed areas

(g) Boat limits are not authorized for sturgeon fishing and shall not apply to the take, possession or retention of sturgeon.

NOTE: Authority cited: Sections 7071, 7923 and 8587.1, Fish and Game Code. Reference: Sections 7923 and 8587.1, Fish and Game Code.

HISTORY

1. Renumbering and amendment of former Section 225.7 to Section 195 filed 12–8–89; operative 1–1–90 (Register 89, No. 50).
2. Amendment of section heading, new subsection (e) and amendment of NOTE filed 3–5–2001; operative 3–5–2001 pursuant to Fish and Game Code sections 202 and 215 (Register 2001, No. 10).
3. Repealer of subsection (e) filed 9–12–2002 as an emergency; operative 9–12–2002 (Register 2002, No. 37). A Certificate of Compliance must be transmitted to OAL by 1–10–2003 or emergency language will be repealed by operation of law on the following day.
4. Reinstatement of section as it existed prior to 9–12–2002 emergency amendment by operation of Government Code section 11346.1(f) (Register 2003, No. 9).
5. Repealer of subsection (e) filed 2–27–2003; operative 2–27–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 9).
6. Amendment of section heading and section filed 2–24–2004; operative 3–1–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 9).
7. Change without regulatory effect amending subsection (e)(5) filed 12–7–2004 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 50).
8. New subsection (g) filed 2–28–2007; operative 2–28–2007 pursuant to Government Code section 11343.4 (Register 2007, No. 9).
9. Amendment of subsections (a)(1), (e), (e)(4) and (e)(6)–(7) filed 10–16–2007; operative 11–15–2007 (Register 2007, No. 42).

Chapter 7. Capture, Transportation, Possession, and Sale of Freshwater Fish for Bait for Profit

§ 200. Application Procedure for Live Freshwater Bait Fish License.

Application for live freshwater bait fish license shall be made on the departmental form and submitted with the statutory fee to one of the department's regional offices (Redding, Rancho Cordova, Yountville, Fresno and Long Beach).

NOTE: Authority cited: Sections 8460, 8462 and 8491, Fish and Game Code. Reference: Sections 8460–8463, 8490 and 8491, Fish and Game Code.

HISTORY

1. New Sections 200 through 200.17 filed 5–6–58; designated effective 1–2–59 (Register 58, No. 8). (For history of former Section 200, see Register 58, No. 8.)
2. Renumbering of Chapter 5 to Chapter 7 filed 1–16–74; designated effective 3–1–74 (Register 74, No. 3).
3. Amendment of Chapter title filed 12–31–80; effective thirtieth day thereafter (Register 81, No. 1).
4. Editorial correction (Register 81, No. 4).
5. Repealer of Chapter 7 (Sections 200–200.30, not consecutive) and new Chapter 7 (Sections 200–200.31, not consecutive) filed 11–5–81; effective thirtieth day thereafter (Register 81, No. 45). For prior history, see Registers 78, No. 24; 75, No. 27; 75, No. 23; 69, No. 51; 69, No. 8; 68, No. 48; 65, No. 11; 63, No. 2; 60, No. 9; 59, No. 18; 59, No. 5; and 58, No. 15.

§ 200.10. Sale and Transfer of Live Freshwater Bait Fish License.

Live freshwater bait fish licenses shall not be resold or transferred.

NOTE: Authority cited: Sections 8460, 8462 and 8491, Fish and Game Code. Reference: Sections 8460–8463, 8490 and 8491, Fish and Game Code.

HISTORY

1. Editorial correction of printing error in first paragraph (Register 91, No. 31).

§ 200.11. Requirements for Obtaining Live Freshwater Bait Fish License.

A live freshwater bait fish license shall not be issued unless the application contains a statement signed by the applicant stating that he has read, understands, and agrees to be bound by these regulations and by all the terms of the license.

NOTE: Authority cited: Sections 8460, 8462 and 8491, Fish and Game Code. Reference: Sections 8460–8463, 8490 and 8491, Fish and Game Code.

§ 200.12. Live Freshwater Bait Fish License for Retail Live Bait Outlets.

A live freshwater bait fish license is required for each live bait outlet and the specific location must be shown on the license. Such license is required in order to possess or sell live freshwater fin fish, live waterdogs (as defined in subsection 200.31(c)) and live freshwater crayfish for use as bait in inland waters.

NOTE: Authority cited: Sections 8460, 8462 and 8491, Fish and Game Code. Reference: Sections 8460–8463, 8490 and 8491, Fish and Game Code.

HISTORY

1. Amendment filed 1–20–87; effective upon filing pursuant to Fish and Game Code section 215 (Register 87, No. 4).
2. Amendment filed 4–23–92; operative 5–25–92 (Register 92, No. 20).

§ 200.13. Species Which Live Freshwater Bait Fish Licensees May Possess or Sell.

Except as provided below, a live freshwater bait fish licensee may possess or sell live only those legally acquired bait species approved for use by sport fishermen in the sport fishing district or portions of sport fishing district in which the licensee is located (see sections 4.10 through 4.30). Licensees located in districts adjacent to ocean waters and within five miles of ocean waters may possess and sell live bait species which may be used in ocean districts.

Bait fish licensees located within a one–mile wide land zone around Lake Tahoe may possess and sell only those species of fin fish which sport fishermen may take directly from Lake Tahoe and use for bait in Lake Tahoe. Such fish shall not be transported from this Lake Tahoe zone.

NOTE: Authority cited: Sections 8437, 8460, 8462 and 8491, Fish and Game Code. Reference: Sections 8460–8463, 8490 and 8491, Fish and Game Code.

HISTORY

1. Amendment of first paragraph filed 12–22–98; operative 12–22–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 52).

§ 200.14. Importation of Freshwater Bait Fish into the Colorado River District.

NOTE: Authority cited: Sections 2120, 2122, 8460, 8462 and 8491, Fish and Game Code. Reference: Sections 2000–2002, 2013, 2120–2122, 2271, 2301, 2302, 6300, 6301, 6303, 6306, 6401, 8437, 8460–8463, 8490 and 8491, Fish and Game Code.

HISTORY

1. Repealer filed 7–25–88; operative 7–25–88 (Register 88,No. 32).

§ 200.29. Sources of Live Freshwater Bait Fish for Commercial Purposes.

(a) Sources of live fin fish for bait are limited to the following:

(1) Fish reared by a registered aquaculturist.

(2) The following species taken under the authority of a commercial fishing license:

(A) Longjaw mudsucker (*Gillichthys mirabilis*)

(B) Staghorn sculpin (*Leptocottus armatus*)

(C) Yellowfin gobies

(3) Bait fish licensees located within a one–mile wide landzone around Lake Tahoe may take from Lake Tahoe only those species of fin fish which sport fishermen may take directly from Lake Tahoe and use for bait in Lake Tahoe.

(b) Freshwater clams and freshwater crayfish for live bait purposes may be taken only under the authority of a live freshwater bait fish license. Crayfish taken for live bait purposes shall be taken pursuant to Section 116, Title 14, CAC.

(c) Sources of live waterdogs for bait are limited to the following:

(1) Waterdogs reared by registered aquaculturists.

(2) Waterdogs imported from any other state.

(3) Waterdogs may not be taken from the wild for commercial or bait purposes in California except with written authorization from the Department.

NOTE: Authority cited: Sections 2120, 2122, 8437, 8460, 8462, 8491 and 15005–15006, Fish and Game Code. Reference: Sections 2000–2002, 2013, 2120–2122, 2270–2272, 6300, 6301, 6303, 6306, 6401, 8437, 8460–8463, 8490, 8491, 15005, 15006 and 15101, Fish and Game Code.

HISTORY

1. Editorial correction of subsection (a)(2) filed 2–11–83 (Register 83, No. 7).
2. Amendment of subsection (a)(1) filed 4–1–83; effective upon filing pursuant to Government Code Section 11346.2(d) (Register 83, No. 14).
3. New subsection (c) filed 1–20–87; effective upon filing pursuant to Fish and Game Code Section 215 (Register 87, No.4).
4. Amendment of subsection (a)(2)(C) filed 12–22–98; operative 12–22–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 52).

§ 200.31. Species Prohibited for the Purpose of Commercial Bait Sales.

The following species are prohibited for the purpose of commercial bait sales:

(a) Yellowfin gobies, except that yellowfin gobies may be sold as bait only in those areas within the Valley District described in Section 4.20(a)(4)(A), (B) and (C) of these regulations.

(b) Tilapia, except that tilapia may be sold as bait only in that area of the Colorado River District bounded by Highway 111 on the north and east and Highway 86 on the west and south.

(c) Salamanders, except for waterdogs (exotic subspecies of the tiger salamander, *Ambystoma tigrinum* ssp.). No waterdogs 3 inches or less in length may be sold as bait.

NOTE: Authority cited: Sections 8437, 8460 and 8462, Fish and Game Code. Reference: Sections 8437, 8460–8463 and 8490, Fish and Game Code.

HISTORY

1. Amendment of subsection (a) filed 11–1–82 as an emergency; effective upon filing (Register 82, No. 45). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 3–1–83.
2. Certificate of Compliance including editorial correction of NOTE filed 2–14–83 (Register 83, No. 7).

3. New subsection (b) filed 2–19–85; effective thirtieth day thereafter (Register 85, No. 8).
4. New subsection (c) filed 1–20–87; effective upon filing pursuant to Fish and Game Code section 215 (Register 87, No. 4).
5. Amendment of subsection (c) filed 4–23–92; operative 5–25–92 (Register 92, No. 20).
6. Amendment of subsection (a) filed 12–22–98; operative 12–22–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 52).

Chapter 8. Miscellaneous

§ 225. Use of Explosives in State Waters.

Explosives may not be used in the waters of this state inhabited by fish except under a permit issued by the department pursuant to the provisions of this section. The permit fee shall be $100.

(a) Requests for permits to use explosives in state waters shall be made to the department. Requests for renewal, supplemental action, or amendments shall be made to the department.

(b) Permits shall be issued in such a manner as will result in a minimum destruction to marine life and fisheries.

(c) No explosives shall be used for seismic exploration except the following:

(1) Deflagrating explosives, such as black powder, or any other "low" explosive which in the opinion of the department is equivalent to it. For exploding black powder, no more than one (1) electric blasting cap and one (1) length of detonating fuse not to exceed six (6) feet in length or of greater strength than fifty (50) grains of explosive per foot, shall be used for each container. Means for exploding deflagrating explosives other than black powder are subject to approval of the department. The amount of deflagrating explosives to be used at each shot point shall not exceed ninety (90) pounds.

(2) Detonating explosives, such as nitro–carbo–nitrate, or any other "high" explosive which in the opinion of the department is equivalent to it. For exploding detonating explosives of the nitro–carbo–nitrate type, no more than one (1) electric blasting cap and one (1) commercial booster shall be used for each container. Means for exploding detonating explosives other than nitro–carbo–nitrate are subject to approval of the department. The amount of detonating explosives to be used at each shot point in waters of less than two hundred (200) feet in depth shall not exceed five (5) pounds. The amount of detonating explosives to be used at each shot point in waters of greater depth than two hundred (200) feet shall not exceed twenty (20) pounds.

No unjetted explosive charges shall be detonated within one–half (1/2) mile of any breakwater, jetty, pier, or anchored fishing boat or barge. No explosive charges shall be detonated in a kelp bed as designated by the department observer or within three hundred (300) feet of the fringe thereof, or within one–half (1/2) mile of the mouth of any stream when the department observer finds that a concentration of fish may be endangered.

(d) An employee of the Department of Fish and Game shall accompany the boat or crew which is conducting the seismic exploratory work. This observer shall have the authority to stop operations in any given area if, in his opinion, undue damage to marine life occurs, or to stop temporarily or slow up operations until the observer can clearly determine the amount of animals killed. Operations also may be temporarily suspended when in opinion of observer, after consultation with party chief, it is determined that weather conditions make further operations unsafe for personnel and equipment or when equipment breakdowns result in unsatisfactory observations of marine life.

A boat and crew, satisfactory to the department, shall be provided for the observer at all times and during operations shall not be used for any other purpose. One of the crew members must be competent in the operation of the communication and fish–detecting devices described below. Radio–telephone communications between the observer boat and the operating boat shall be maintained at all times when explosives are being detonated. A recording depth–indicator and a modern–type of sonar or fish–detecting device satisfactory to the department shall be provided for the observer boat. The observer boat shall carry, and the crew shall help operate such gear and equipment for determining damage to marine life as the observer shall furnish, and permittee shall meet any expense of gear rental or operation that may be incurred. The observer boat and all equipment, including communication and fish–detecting devices, must be kept in good working condition at all times.

(e) The applicant of a permit for seismic exploration shall defray the cost of such observer's services and all administrative and incidental costs by payment to the Department of Fish and Game, Sacramento, California, for the benefit of the Fish and Game Preservation Fund the minimum deposit of seven hundred fifty dollars ($750) per survey crew for each month for which a permit is requested, said month commencing the date on which said permit becomes effective, whether operations are commenced on that date or not. A similar minimum deposit of seven hundred fifty dollars ($750) per month shall be made fifteen (15) days prior to the addition of every crew not specified in original application for permit.

This sum shall be paid as follows:

(1) The minimum payment due prior to issuance or a renewal of a permit shall be seven hundred fifty dollars ($750) for each month or fraction of a month covered by the permit, and shall accompany the application.

(2) Expenses as they accrue to the department shall be charged against this minimum deposit.

(3) At the expiration of the permit, the cancellation of operations, or the denial of the application, any sum remaining over and above those expenses incurred by the department shall be refunded within thirty (30) days.

(4) Any expenses incurred by the department in connection with the permit over and above the minimum deposits shall be due and payable upon billing by the department.

(5) Any temporary cessation of seismic operations of thirty (30) days or less shall be considered as an expense to the department in the amount of the observer's monthly salary and associated administrative costs.

(f) Before beginning any day's seismic exploration operations, permission to detonate must be obtained from the observer and such permission must also be obtained during the day if the observer has temporarily stopped work due to excessive damage to marine life.

(g) All fish of edible size which may be killed during seismic exploration operations shall be picked up by the operating crew, and arrangements made by the permittee for their disposal subject to approval of the department. If sold any money received from such sale shall be paid into the Fish and Game Preservation Fund. When in the judgment of the observer an excessive amount of fish has been killed and washed onto any shore in such quantities as to endanger public health or create a nuisance, the permittee shall immediately gather up and dispose of such fish in a manner satisfactory to the observer.

(h) Anyone applying for or holding a permit for seismic exploration shall notify the Sacramento Headquarters Office of the Department of Fish and Game, or the office designated in the permit, in writing not less than fifteen (15) days before beginning operations or before adding a survey crew, and not less than five (5) days before transferring a crew between permits held by the same permittee. Notification of intention to terminate operations or to suspend operations more than thirty (30) days shall also be given in writing not less than fifteen (15) days in advance of such termination. Copies of all notices and reports shall be sent to the Sacramento Headquarters Office. At least twenty–four (24) hours before commencing operations within three (3) miles of shore, or in any new area whose boundaries shall be defined in the permit, where he has not operated during the preceding one (1) month, the permittee shall discuss the forthcoming operations with the department at Sacramento Headquarters or other office as designated in the permit.

(i) On the fifteenth and last days of each month of seismic operation, the permittee shall submit a report of dates, location, and number of detonations made in the preceding period. A report shall be submitted for each permit for each half–month period whether operations were actually conducted or not. The report shall include the species and weight of edible

fish disposed of, as provided in paragraph (g), and the name of the recipient. Reports shall be submitted in duplicate in the manner provided for above in (h).

(j) All permits for seismic exploration shall be issued for a period of not to exceed six (6) months, but may be renewed from time to time thereafter, for such periods not to exceed six (6) months at a time, as the department may approve. Separate permits are required for: (1) the ocean waters; (2) each inland water operation regardless of location.

(k) Every permittee shall post a copy of said permit for seismic exploration in a conspicuous place aboard the main survey vessel where it can be inspected by the observer and survey crew at any time.

(*l*) No permit granted pursuant to these regulations for seismic exploration shall be valid or exercised unless at the same time the permittee has a permit in full force and effect issued by the State Lands Commission of California and authorizing such seismic operations.

(m) Any permit issued pursuant to these regulations for seismic exploration may be canceled or suspended at any time by the commission for cause after notice and opportunity to be heard, or without a hearing upon conviction of a violation of these regulations by a court of competent jurisdiction.

(n) A permit to use explosives in state waters inhabited by fish for other than seismic exploration shall be issued under the following conditions to ensure that the state's aquatic resources are protected (the granting or denial of a permit may be appealed pursuant to section 5500 of the Fish and Game Code):

(1) The permittee shall abide by all terms and conditions as set forth in the permit.

(2) The department may require that a department observer be present during the use of explosives in state waters. The permittee shall, at the department's request, reimburse the department for expenses incurred for an observer including, but not limited to, time, mileage and other expenses, at a rate to be determined by the department. Reimbursement to be paid into the Fish and Game Preservation Fund.

(3) The permittee may be required to provide a boat, operator and fish detecting instruments.

(4) An observer may, when there is a threat to the resource, cancel or delay the use of explosives in state waters.

HISTORY

1. Renumbered from former section 751 (Register 59, No. 9). For history of former section, see Register 57, No. 9.
2. Amendment filed 2–2–61; effective thirtieth day thereafter (Register 61, No. 3).
3. Amendment filed 1–26–62; effective thirtieth day thereafter (Register 62, No. 2).
4. Amendment filed 7–5–62; effective thirtieth day thereafter (Register 62, No. 13).
5. Renumbering of chapter 6 to chapter 8 filed 1–16–74; designated effective 3–1–74 (Register 74, No. 3).
6. Amendment of NOTE filed 10–5–81; effective thirtieth day thereafter (Register 81, No. 41).
7. Amendment filed 9–15–83; effective thirtieth day thereafter (Register 83, No. 38).
8. Amendment filed 11–13–86; effective thirtieth day thereafter (Register 86, No. 46).
9. Amendment of undesignated introductory paragraph filed 4–18–91; operative 5–18–91 (Register 91, No. 21).

§ 225.1. Use of Explosives for Blasting or Special Purposes.

Under the authority of this section, any person may use explosives in the waters of this State for any lawful and valid purpose, other than the taking of animal life, whenever the amount of the charge is not more than one blasting cap or its equivalent. Also exempted are such explosives designated by the State Fire Marshal as agricultural and wildlife fireworks, according to Part 2, Div. 11, Section 12508 of the Health and Safety Code.

Anchors propelled into the ocean floor by explosives charges are emergency devices and do not require a permit.

§ 225.5. Streams, Artificial Barriers.

Pursuant to the provisions of Section 5948 of the Fish and Game Code, the following shall constitute a log jam or debris accumulation or other artificial barrier preventing the passage of fish up and down stream or which is deleterious to fish:

(a) Any log jam or debris accumulation which has no well–defined channel through which all fish may pass upstream or downstream at any time without delay;

(b) Any log jam or debris accumulation in any stream which reduces the dissolved oxygen content below five parts of oxygen to one million parts of water, or causes any other condition toxic to fish or aquatic life.

§ 226.5. Issuance of Permits to Destroy Harmful Species of Fish in Private Waters for Management Purposes.

Pursuant to the provisions of section 5501 of the Fish and Game Code, free permits for depredation purposes to take any species of fish which, in the opinion of the Department of Fish and Game, is harmful to other species of fish may be issued by the department on the following terms:

(a) Subject to paragraph (g) of this section, such fish may be destroyed by means of chemicals, seining or draining.

(b) Application shall be made to the Regional Manager of the Department of Fish and Game for the region in which the water is located. An application form will be supplied to each applicant upon request.

(c) All waters to be treated, seined or drained shall be entirely within the exterior boundaries of the land owned or leased by the applicant or applicants.

(d) Permits shall not be granted for streams or rivers.

(e) No permit may be granted if, in the judgment of the Department of Fish and Game, it contains publicly owned fish of desirable species which should be protected.

(f) Permittees shall notify the Regional Office of the Department of Fish and Game 10 days in advance of operations so that arrangements may be made for observation by the department if that is deemed desirable.

(g) No water may be chemically treated if, in the judgment of the Department of Fish and Game, the chemical could escape to other waters and endanger publicly owned fish.

(h) The Department of Fish and Game may specify the nature and amount of chemical to be used and its mode of application.

(i) Fish recovered under authority of this permit may not be sold (see section 226.7).

(j) The permittee agrees to hold the State of California, its agents, servants and employees free and harmless from all claims for damages resulting from the permittee's negligence or willful failure to follow the department's written recommendations prescribed for the chemical treatment of any water.

(k) Permits may be revoked for a violation of the terms thereof or for a conviction of any violation of any provision of the Fish and Game Code or commission regulations pertaining to activities covered by the permit. In order to protect fishery resources, permits may be revoked or amended without notice. Said revocations or amendments are subject to review by the commission.

(*l*) Permits shall only be issued upon the condition contained in the application and signed by the applicant that he has read, understands and agrees to be bound by all the terms of the permit and these regulations.

NOTE: Authority cited: Sections 2120, 5510 and 8437, Fish and Game Code. Reference: Sections 2120, 5501, 5510 and 8437, Fish and Game Code.

HISTORY

1. New section 757 filed 11–1–55; effective thirtieth day thereafter (Register 55, No. 16).
2. Renumbered from former section 757 (Register 59, No. 9).
3. Amendment filed 4–21–60; effective thirtieth day thereafter (Register 60, No. 9).
4. Amendment of NOTE filed 10–5–81; effective thirtieth day thereafter (Register 81, No. 41).
5. Amendment of subsections (j) and (k) filed 9–15–83; effective thirtieth day thereafter (Register 83, No. 38).
6. Amendment of undesignated introductory paragraph filed 4–18–91; operative 5–18–91 (Register 91, No. 21).

§ 226.7. Issuance of Permits and Conditions for Taking Inland or Freshwater Fishes.

Pursuant to the provisions of section 8437 of the Fish and Game Code, inland or freshwater fishes listed in this section may not be taken for commercial purposes except in accordance with the following regulations:

(a) This section does not apply to the taking of live freshwater fish for bait purposes (see sections 8460–8463 of the Fish and Game Code and sections 200–200.31 of title 14).

(b) Licenses and permits required.

(1) Fishes listed in this section may not be taken for commercial purposes except under a revocable, nontransferable permit issued by the department. Applications for the permit shall be made to the regional manager for the region in which the fish are to be taken. An application form will be supplied to each applicant upon request.

(2) Persons taking fishes listed in this section for commercial purposes shall also comply with requirements of the Fish and Game Code relating to commercial fishing licenses, commercial fishing vessel registration, and other applicable commercial laws.

(3) Every person who takes for commercial purposes, assists in taking, possesses or transports the fishes listed in this section while on any boat or vessel, or who uses or operates or assists in using or operating any boat, trap, or other appliance to take fish, must have a valid permit issued to him and must be in possession of said permit while engaged in any such activities.

(c) Permits shall be issued for not longer than one year. Permits may be revoked for a violation of the terms thereof or for a conviction of any violation of any provision of the Fish and Game Code or commission regulations pertaining to activities covered by the permit. In order to protect fishery resources, permits may be revoked or amended without notice. Said revocations or amendments are subject to review by the commission.

(d) The department may withhold a permit for one year following a conviction of a violation of any provision of the Fish and Game Code, or commission regulations relating to activities covered by the permit.

(e) Permits shall only be issued after the application has been signed by the applicant indicating that he has read, understands and agrees to the terms of the permit and these regulations. See subsection 699(b) of these regulations for the fee for this permit.

(f) Only the following fishes are authorized to be taken: Freshwater mollusks, threadfin shad (*Dorosoma petenense*) and fishes belonging to the lamprey family (*Petromyzontidae*), smelt family (*Osmeridae*), sucker family (*Catostomidae*), carp or minnow family (*Cyprinidae*) except grass carp (*Ctenopharyngodon idella*), killifish family (*Cyprinodontidae*), livebearer family (*Poeciliidae*), silverside family (*Atherinidae*), cichlid family (*Cichlidae*), gray mullet family (*Mugilidae*), sculpin family (*Cottidae*), stickleback family (*Gasterosteidae*), and goby family (*Gobiidae*). Any grass carp inadvertently taken must be immediately returned unharmed to the water.

(g) All species other than those specified in the permit shall be returned immediately in good condition to the water of origin.

(h) All fish authorized to be taken by the permit must be captured only in those waters and only with those types of gear specified in the permit.

(i) Areas and periods of fishing and the amount taken may be restricted by the department as necessary to protect authorized fishes or other fishes or to reduce interference with angling.

(j) Permittee shall comply with all requirements of the department with respect to construction and deployment of fishing gear.

(k) The permittee shall provide the department with a schedule of fishing operations as required by the department.

(*l*) The department may require that an employee of the department be present to inspect fishing operations. All costs of such inspection shall be borne by the permittee.

(m) The department may require that the permittee submit reports at the end of each month showing the total number and/or weight of each species taken from each water specified in the permit, the number and/or approximate total weight of each species returned to the water, and such other data as the department may request.

NOTE: Authority cited: Sections 2120, 5510, 8437, 8462 and 8475, Fish and Game Code. Reference: Sections 2120, 5501, 5510, 8437, 8462 and 8475, Fish and Game Code.

HISTORY

1. Amendment filed 4–11–78; effective thirtieth day thereafter (Register 78, No. 15). For prior history, see Register 71, No. 15.
2. Repealer and new section filed 10–5–81; effective thirtieth day thereafter (Register 81, No. 41).
3. Amendment of subsection (f) filed 10–14–88; operative 11–13–88 (Register 88, No. 45).
4. Amendment of subsection (e) and nonsubstantive amendment of NOTE filed 4–18–91; operative 5–18–91 Register 91, No. 21).

5. Amendment of subsection (f) and NOTE filed 5–5–97; operative 6–4–97 (Register 97, No. 19).

§ 227. Sale of Live Aquaculture Products by Aquarium or Pet Stores.

(a) No live aquaculture products shall be maintained or sold by aquarium or pet stores except the following:

(1) Tropical species of ornamental marine or freshwater plants and animals not utilized for human consumption or bait purposes;

(2) Goldfish;

(3) Koi;

(4) Albino channel catfish;

(5) White sturgeon not to exceed 8 inches in total length;

(6) Giant freshwater prawn *(Macrobrachium rosenbergi);*

(7) Brine shrimp;

(8) Worms of the family *Tubificidae;*

(9) Crustaceans of the order Amphipoda that are native to California waters;

(10) Mosquitofish, *Gambusia affinis,* except that mosquitofish may not be sold by aquarium or pet stores in Inyo, Mono, San Bernardino, Riverside and Imperial counties.

(11) Abalone.

(b) White sturgeon and abalone shall be sold only under an Aquarium Dealer's Permit issued by the department to the owner of the aquarium or pet store. Applications shall be made on a department form available upon request from the Department of Fish and Game, Wildlife Protection Division, 1416 Ninth Street, Sacramento, California 95814. The permit shall be issued free of charge on a calendar year basis, or part thereof. See subsection 699(b) of these regulations for the fee for this permit. Aquarium dealer permittees shall maintain a log of all sales and shipments of live sturgeon and abalone, the name of the individual, company or organization taking possession of the product, the date of sale and the number of sturgeon or abalone sold. The log shall be shown upon request by an authorized department official.

(c) All abalone sold under an aquarium dealer's permit shall be marked as provided by section 238(e)(1)(B) of this title.

(d) Under no condition shall any live aquaculture product sold at an aquarium or pet store be planted in any waters of the state.

NOTE: Authority cited: Sections 1050, 15005, 15200 and 15202, Fish and Game Code. Reference: Sections 1050 and 8371, Fish and Game Code.

HISTORY

1. New section filed 4–1–83; effective upon filing pursuant to Government Code section 11346.2(d) (Register 83, No. 14).
2. Amendment of subsection (a) filed 7–13–84; effective thirtieth day thereafter (Register 84, No. 28).
3. Amendment filed 7–8–85; effective thirtieth day thereafter (Register 85, No. 28).
4. Amendment of subsection (b) filed 4–18–91; operative 5–18–91 (Register 91, No. 21).
5. Editorial correction of printing error in subsection (b) (Register 91, No. 31).

§ 228. Suction Dredging.

For purposes of these regulations, suction dredging (also called vacuum dredging) is defined as the use of a suction system to remove and return material at the bottom of a stream, river, or lake for the extraction of minerals. Suction dredges may only be used pursuant to the following provisions:

(a) Permit requirement. Every person who operates the intake nozzle of any suction dredge shall have a suction dredge permit in his/her immediate possession. Suction dredge permits shall be valid from the first of the year for one calendar year or if issued after the first of the year, for the remainder of that year. The department will charge a fee for each suction dredge permit pursuant to Section 5653(c), Fish and Game Code. Permits may be obtained at any Regional office or at the License and Revenue Branch office.

Any person with a qualifying disability under the Americans With Disabilities Act, who presents a Disabled Person DMV registration or other State, or Federal approved documentation of disability, and who requires assistance in operating a suction dredge may also apply for an assistant suction dredge permit. Any assistant suction dredge permit issued by the department to such disabled person shall be in the disabled applicant's name and shall be issued at no charge. The disabled permittee must be present at the dredge site while the assistant is operating the suction dredge. The assistant shall have the assistant suction dredge permit in his/her immediate possession while assisting the disabled permittee in suction dredging activities. Any assistant may be prosecuted for a violation of the laws or regulations pertaining to suction dredging. The disabled permittee may be prosecuted for a violation of the laws or regulations pertaining to suction dredging committed by his/her assistant.

(b) Special Suction Dredge Permits.

(1) Submission of Written Plan. Any person may apply for a special suction dredge permit to operate a suction dredge with a nozzle larger than prescribed in subsections 228(e)(1), 228.5(c) or 228.5(d) by submitting a written plan detailing the proposed operation. If the department determines that no deleterious effect to fish may occur, the special permit shall be issued with conditions prescribed by the department to protect fish resources. A special permit will be issued or denied within 30 days upon receipt of a complete written plan detailing the proposed operation unless the time is intended by mutual agreement. If the special permit is denied, the justification for denial will be provided.

(2) Appeal of Denial. The denial of a special suction dredge permit may be appealed in writing to the director or his/her designee (hereinafter referred to as director). If the director determines that no deleterious impacts to fish may occur, the director shall authorize the issuance of the permit. The director shall respond to an appeal within 45 days from receipt of notice of request to appeal.

(c) Permit Revocation or Suspension. Any suction dredge permit, assistant suction dredge permit, or special suction dredge permit may be revoked or suspended by the regional manager or his/her designee (hereinafter referred to as regional manager) for any violation of the laws or regulations pertaining to suction dredging. The regional manager may, in his/her discretion, revoke or suspend the permit or permit renewal or permanently revoke the renewal of a permit based on past citations or convictions of such laws or regulations. A regional manager's decision to revoke or suspend a permit or permit renewal may be appealed to the director. Any revocation or suspension of a permit or permit renewal shall be in accordance with the following provisions:

(1) Hearing When Permittee Convicted of Violation. In the case where the permittee has already been convicted of a violation of Section 5653 or 5653.3 of the Fish and Game Code or any regulation pertaining thereto permitted by said code, the regional manager shall schedule a hearing to consider the revocation or suspension of his/her permit or permit renewal:

(A) Notification. The regional manager shall notify the permittee, by certified letter, of the intent to consider the revocation or suspension of his/her permit or permit renewal at the hearing. The certified letter shall include the following information:

1. Name of permittee and last known address.
2. Date, time and place of scheduled hearing,
3. Reason for impending action, including a statement as to date and fact of conviction(s).
4. A copy of Section 228, Title 14, California Code of Regulations.
5. A statement that the permittee has the right to appear and to be represented by legal counsel.

(B) Recording. The proceedings of the hearing shall be recorded by an electronic tape recording system.

(C) Reading of Documents. At the hearing, the regional manager shall read the conviction documents. The department shall provide the regional manager with the background information regarding the violation(s) and conviction(s) and shall submit into the record a copy of the document(s) which include(s) the facts of the conviction(s) of a violation of the regulation(s) or statute.

(D) Statement by Permittee. The permittee shall make his/her statement regarding the violation(s) and conviction(s), and may argue that ex-

tenuating circumstances were such as to not warrant the loss of his/her permit or permit renewal.

(E) Questioning. The permittee or the department personnel may be questioned by the regional manager.

(F) Findings. At the conclusion of the hearing, the regional manager shall make a decision which contains findings or reasons for the proposed action.

(G) Notification by Certified Mail. After the hearing, the regional manager shall provide the permittee, by certified mail, a copy of the final decision.

(H) Appeal. The permittee may request an appeal in writing to the director within 30 days of the date of receipt of the regional manager's decision. The director shall respond to an appeal in writing within 45 days from receipt of notice of request to appeal.

(I) Judicial Review. The permittee may request judicial review by filing a petition for writ of mandate in accordance with provisions of the Code of Civil Procedure within 30 days from the date of the decision. The record of the proceedings shall be prepared by the department and delivered to the petitioner within 30 days after receipt of petitioner's request and upon payment of the fee specified in Section 69950 of the Government Code.

(2) Hearing When Permittee Cited but Not Convicted. In the case where the permittee has not been convicted of a violation of Section 5653 of the Fish and Game Code or any regulation pertaining to suction dredging permitted by said code, but has been cited by the department, the regional manager shall schedule a hearing to consider the revocation or suspension of his/her permit or permit renewal:

(A) Notification. The regional manager shall notify the permittee, by certified letter, of the regional manager's intent to consider the revocation or suspension of his/her permit or permit renewal at the hearing. The certified letter shall include the following information:

1. Name of permittee and last known address.

2. Date, time and place of scheduled hearing.

3. Reason for impending regional manager's action, including a concise statement of the acts or nonactions of the permittee which constitutes a violation of Section 5653 or 5653.3, of the Fish and Game Code or regulations made pursuant thereto.

4. A copy of Section 228, Title 14, California Code of Regulations.

5. A statement that the permittee has the right to appear and to be represented by legal counsel.

(B) Recording. The proceedings of the hearing shall be recorded by an electronic type recording system.

(C) Presentation of Evidence. The permittee and the department have the right to present evidence at the scheduled hearing as follows:

1. Oral evidence shall be taken on oath or affirmation.

2. Each party may call and examine witnesses, cross-examine opposing witnesses on any relevant matter, may rebut evidence against him/her, and may orally argue the matter.

3. The hearing need not be conducted according to the technical rules relating to evidence and witnesses. Any relevant evidence shall be admitted if it is the sort of evidence on which responsible persons would rely in the conduct of serious affairs.

4. The permittee or the department may be questioned by the regional manager.

(D) Findings. At the conclusion of the hearing, the regional manager shall make a decision based on the evidence presented at the hearing and shall issue written findings containing reasons for the decision and the evidence relied upon.

(E) Notification by Certified Mail. After the hearing the regional manager shall provide the permittee, by certified mail, a copy of the final decision.

(F) Appeal. The permittee may request an appeal in writing to the director within 30 days of the date of receipt of the regional manager's decision. The director shall respond to an appeal in writing within 45 days from receipt of notice of request to appeal.

(G) Judicial Review. The permittee may request judicial review by filing a petition of writ of mandate in accordance with provisions of the Code of Civil Procedure within 30 days from the date of the director's decision. The record of the administrative proceedings shall be prepared by the department and delivered to the petitioner within 30 days after receipt of petitioner's request and upon payment of the fee specified in Section 69950 of the Government Code.

(d) Special Approval for Use of Suction Dredges in Lakes and Reservoirs. No suction dredging is permitted in any lake or reservoir without written approval from the lake operating agency, the Regional Water Quality Control Board and an on-site inspection and approval by the Department.

(e) Equipment Requirements.

(1) Nozzle Restriction. No suction dredge having an intake nozzle with an inside diameter larger than six inches may be used unless:

(A) Otherwise provided under special regulations of Section 228.5, Title 14, California Code of Regulations, or

(B) A constricting ring with an inside diameter not larger than six inches has been attached to the intake nozzle. This constricting ring must be of solid, one-piece construction with no openings other than the intake and openings not greater than one inch between the constricting ring and nozzle. It must be welded or otherwise permanently attached over the end of the intake nozzle. No quick-release devices are permitted.

(2) Hose Restriction. The inside diameter of the intake hose may not be more than four inches larger than the permitted intake nozzle size.

(f) Restrictions on Methods of Operation.

(1) Winching is permitted under the following provisions:

(A) Boulders and other material may only be moved within the existing water line. No boulders or other material shall be moved outside the water line.

(B) Winching of any material embedded on banks of streams or rivers is prohibited.

(C) Winching of any material into a location which deflects water into the bank is prohibited.

(D) No power-winch activated shovels, buckets or rakes may be used to excavate materials in the stream course. Nets and other devices may be used to collect cobbles and boulders by hand for removal from dredge holes providing the materials are not removed from within the water line.

(E) No woody streamside vegetation shall be removed or damaged. Trees may be used as winch and pulley anchor points provided that precautions are taken to ensure that trunk surfaces are protected from cutting or abrasions.

(2) No person may suction dredge into the bank of any stream, lake or river.

(3) No person shall remove or damage woody riparian vegetation during suction dredge operations.

(4) No person shall move any anchored, exposed woody debris such as root wads, stumps or logs.

(5) No person shall divert a stream or river into the bank.

(6) No person shall dam or otherwise obstruct a stream, river or lake in such a manner that fish passage is impeded.

(7) No person shall import any earthen material into a stream, river or lake.

Operating outside these Restrictions On Methods Of Operation may require compliance with Fish and Game Code sections 1600 – 1607, which govern lake and streambed alterations.

(g) Compliance with Other Laws. Nothing in any permit issued pursuant to these regulations authorizes the permittee to trespass on any land or property, or relieves the permittee of the responsibility of complying with applicable federal, State, or local laws or ordinances.

(h) Emergency Closure. The Department may initiate emergency regulatory action pursuant to Government Code Section 11346.1 to close any water to suction dredging.

NOTE: Authority cited: Sections 5653 and 5653.9, Fish and Game Code. Reference: Sections 5653 – 5653.9, Fish and Game Code.

HISTORY

1. New section filed 5–27–94; operative 5–27–94 (Register 94, No. 21). For prior history, see Register 81, No. 41.
2. Amendment of subsection (b)(1), new subsections (b)(2)–(3) and subsection renumbering filed 4–26–2001 as an emergency; operative 4–26–2001 (Register 2003, No. 9). A Certificate of Compliance must be transmitted to OAL by 8–24–2001 or emergency language will be repealed by operation of law on the following day.
3. Editorial correction adding HISTORY 2 (Register 2003, No. 9).
4. Reinstatement of section as it existed prior to 4–26–2001 emergency amendment by operation of Government Code section 11346.1(f) (Register 2003, No. 9).
5. Change without regulatory effect amending subsection (b)(1) filed 4–7–2008 pursuant to section 100, title 1, California Code of Regulations (Register 2008, No. 15).

§ 228.5. Suction Dredge Use Classifications and Special Regulations.

(a) Suction Dredge Use Classifications. For purposes of these regulations, the following classes of suction dredge use restrictions apply in California's lakes, reservoirs, streams and rivers as specified:

(1) Class A:	No dredging permitted at anytime.
(2) Class B:	Open to dredging from July 1 through August 31.
(3) Class C:	Open to dredging from the fourth Saturday in May through October 15.
(4) Class D:	Open to dredging from July 1 through September 15.
(5) Class E:	Open to dredging from July 1 through September 30.
(6) Class F:	Open to dredging from December 1 through June 30.
(7) Class G:	Open to dredging from the fourth Saturday in May through September 30.
(8) Class H:	Open to dredging throughout the year.

(b) Special Closures by County. Except as specified in subsections (c) and (d) below, the suction dredge class restrictions for each county are as follows:

(1) Alameda	Class H.
(2) Alpine	Class C.
(3) Amador	East of Highway 49 is Class C, the remainder is Class H.
(4) Butte	Class C.
(5) Calaveras	East of Highway 49 is Class C, the remainder is Class H.
(6) Colusa	Class H.
(7) Contra Costa	Class H.
(8) Del Norte	Class E.
(9) El Dorado	East of Highway 49 is Class C, the remainder is Class H.
(10) Fresno	Within the external boundaries of the National Forests is Class C, the remainder is Class H. (Kings River Special Management Area has been closed to suction dredging by the U.S. Forest Service. Contact Sequoia National Forest for details.)
(11) Glenn	Class H.
(12) Humboldt	Class E.
(13) Imperial	Class H.
(14) Inyo	Class A.
(15) Kern	Class H.
(16) Kings	Class H.
(17) Lake	Class H.
(18) Lassen	Class C.
(19) Los Angeles	Class H. (Portions of the San Gabriel Mountains may be closed to suction dredging by the U.S. Forest Service. Contact the Angeles National Forest for details.)
(20) Madera	Within the external boundaries of the National Forests is Class C, the remainder is Class H.
(21) Marin	Class A.
(22) Mariposa	Within the external boundaries of the National Forests is Class C, the remainder is Class H.
(23) Mendocino	Class A.
(24) Merced	Class H.
(25) Modoc	Class C.
(26) Mono	Class A.
(27) Monterey	Class A.
(28) Napa	Class A.
(29) Nevada	East of Highway 49 is Class C, the remainder is Class H.
(30) Orange	Class H.
(31) Placer	East of Highway 49 is Class C, the remainder is Class H.
(32) Plumas	Class C.
(33) Riverside	Class H.
(34) Sacramento	Class H.
(35) San Benito	Class A.
(36) San Bernardino	Class H. (Portions of the San Gabriel Mountains may be closed to suction dredging by the U.S. Forest Service. Contact the Angeles National Forest for details.)
(37) San Diego	Class H.
(38) San Francisco	Class H.
(39) San Joaquin	Class H.
(40) San Luis Obispo	Class A.
(41) San Mateo	Class A.
(42) Santa Barbara	Class H.
(43) Santa Clara	Class H.
(44) Santa Cruz	Class A.
(45) Shasta	Class C.
(46) Sierra	Class C.
(47) Siskiyou	Class E.
(48) Solano	Class H.
(49) Sonoma	Class A.
(50) Stanislaus	Class H.
(51) Sutter	Class H.
(52) Tehama	Class D.
(53) Trinity	Class E.
(54) Tulare	Within the external boundaries of the National Forests is Class C, the remainder is Class H.
(55) Tuolumne	East of Highway 49 is Class C, the remainder is Class H.
(56) Ventura	Class H.
(57) Yolo	Class H.
(58) Yuba	Class H.

(c) Eight–Inch Nozzle Size. An eight–inch diameter intake nozzle size is permitted on the following rivers unless otherwise specified in Section 228.5(d):

(1) American (Placer, Nevada, and El Dorado counties)
(2) Cosumnes (Sacramento, Amador and El Dorado counties)
(3) Feather (Butte, Plumas, and Yuba counties)
(4) Klamath (Del Norte, Humboldt and Siskiyou counties)
(5) Merced (Mariposa and Merced counties
(6) Mokelumne (Amador, Calaveras and San Joaquin counties)
(7) New (Trinity County)
(8) Scott (Siskiyou County)
(9) Trinity (Trinity and Humboldt counties)
(10) Yuba (Sierra and Yuba counties)

(d) Special Regulations by Water. In addition to the classifications listed in Section 228.5(b) and (c), the special regulations below apply to the following waters:

(1) American River (Sacramento County). The main stem American River from the Sacramento River upstream to Nimbus Dam is Class A.

(2) American River, Middle Fork (El Dorado and Placer counties). The main stem American River Middle Fork from its junction with the North Fork of the American River upstream to the confluence with the Rubicon River is Class C. (Note: Recreational dredging is allowed in the Auburn State Recreation Area on an interim management basis. Contact the Auburn State Recreation Area for instructions.)

(3) American River, North Fork (Placer County). The main stem North Fork American River from Folsom Reservoir to the Colfax–Iowa Hill Road Bridge is Class C. From the Colfax–Iowa Hill Road Bridge upstream to Heath Springs (T16N R14E S26) is Class A. (Note: Recreational dredging is allowed in the Auburn State Recreation Area on an interim management basis. Contact the Auburn State Recreation Area for instructions.)

(4) American River, South Fork (El Dorado County). The main stem South Fork American River from Folsom Reservoir upstream to the Highway 49 bridge at Coloma is Class C.

(5) American River, South Fork Tributaries (El Dorado County). All tributaries to the South Fork American River from Folsom Reservoir upstream are Class C.

(6) Antelope Creek and Tributaries (Placer County). Antelope Creek and its tributaries are Class B.

(7) Auburn Ravine and Tributaries (Placer County). Auburn Ravine and its tributaries are Class B.

(8) Bear River (Placer County). The main stem Bear River from Forty Mile Road to the South Sutter Irrigation District's diversion dam is Class D.

(9) Big Chico Creek (Butte County). The main stem Big Chico Creek from Manzanita Avenue in Chico to the head of Higgins Hole (T24N R3E S31) is Class A.

(10) Big Creek and Tributaries (Fresno County). Big Creek, tributary to the Kings River, and its tributaries are Class A.

(11) Big Creek (Trinity County). The main stem Big Creek is Class A.

(12) Blue Creek and Tributaries (Del Norte and Humboldt counties). Blue Creek and its tributaries are Class A.

(13) Butte Creek (Butte County). The main stem Butte Creek from the Sutter County line upstream to the Durham–Oroville Highway Bridge is Class H, and from the Durham–Oroville Highway Bridge upstream to the intake of Centerville Ditch (T23N R3E S10) is Class A.

(14) Calaveras River and Tributaries (Calaveras and San Joaquin counties). The Calaveras River and its tributaries below New Hogan Reservoir are Class B.

(15) Canyon Creek (Yuba County). The main stem Canyon Creek from its mouth upstream to the Sierra–Yuba County line (T20N R8E S25) is Class C.

(16) Cherry Creek (Tuolumne County). The main stem of Cherry Creek is Class B.

(17) Chowchilla River (Madera and Mariposa counties). The main stem Chowchilla River from Eastman Lake upstream to the West and East forks of the Chowchilla River is Class A.

(18) Chowchilla River West Fork (Madera and Mariposa counties). The main stem West Fork Chowchilla River from its mouth upstream to the Highway 49 bridge is Class A.

(19) Clavey River (Tuolumne County). The main stem Clavey River is Class A.

(20) Clear Creek and Tributaries (Siskiyou County). Clear Creek and its tributaries are Class A.

(21) Colorado River and Tributaries (Imperial, Riverside and San Bernardino counties). The main channel and all side sloughs and tributaries of the Colorado River are Class A.

(22) Cosumnes River (Sacramento, Amador and El Dorado counties). The main stem Cosumnes River from the Western Pacific Railroad Bridge about 1/4 mile above the mouth upstream to the Latrobe Highway Bridge is Class D, and from the Latrobe Highway Bridge upstream to the confluence with the North and Middle forks of the Cosumnes River is Class H.

(23) Cosumnes River, North Fork (El Dorado County). The main stem North Fork Cosumnes River from the Middle Fork of the Cosumnes River upstream to the Somerset–Pleasant Valley Road Bridge is Class H.

(24) Cosumnes River, Middle Fork (El Dorado County). The main stem Middle Fork Cosumnes River from the North Fork Cosumnes River upstream to Bakers Ford on the Aukum–Somerset Road is Class H.

(25) Cosumnes River, South Fork (Amador and El Dorado counties). The main stem South Fork Cosumnes from Middle Fork Cosumnes River upstream to the County Road Bridge at River Pines is Class H.

(26) Cow Creek and Tributaries (Fresno County). Cow Creek and its tributaries are Class A.

(27) Curtis Creek (Tuolumne County). The main stem Curtis Creek is Class C.

(28) Deep Creek (San Bernardino County). The main stem Deep Creek is Class A.

(29) Deer Creek (Nevada County). The main stem Deer Creek from Ponderosa Way below Rough and Ready Falls (T16N R7E S13) upstream to Highway 49 is Class C.

(30) Dillon Creek and Tributaries (Siskiyou County). Dillon Creek and its tributaries are Class A.

(31) Dinkey Creek and Tributaries (Fresno County). Dinkey Creek and its tributaries are Class A.

(32) Eagle Creek (Tuolumne County). The main stem Eagle Creek is Class C.

(33) Eastman Lake (Madera and Mariposa counties). Eastman Lake is Class A.

(34) Eel River, All Forks and Tributaries (Mendocino County). The Eel River, all forks and its tributaries upstream of the Humboldt/Mendocino and Trinity/Mendocino County lines are Class A.

(35) Eel River, Middle Fork and Tributaries (Mendocino and Trinity counties). The Middle Fork Eel River and its tributaries are Class A.

(36) Feather River (Butte County). The main stem Feather River from Honcut Creek (T17N R3E S27) upstream to the Highway 70 Bridge is Class B, and from the Highway 70 Bridge upstream to Oroville Dam is Class A.

(37) Feather River, South Fork (Butte and Plumas counties). The main stem South Fork Feather River from Oroville Reservoir upstream to Little Grass Valley Dam (T22N R9E S31) is Class C.

(38) Flat Creek and Tributaries (Shasta County). Flat Creek and its tributaries are Class H.

(39) French Creek (Trinity County). The main stem French Creek is Class A.

(40) Grapevine Creek (Tuolumne County). The main stem Grapevine Creek is Class B.

(41) Horton Creek (Tuolumne County). The main stem Horton Creek is Class A.

(42) Hunter Creek (Tuolumne County). The main stem Hunter Creek is Class B.

(43) Independence Creek and Tributaries (Nevada and Sierra counties). Independence Creek and its tributaries from Independence Lake upstream are Class A.

(44) Jawbone Creek (Tuolumne County). The main stem Jawbone Creek is Class B.

(45) Kaweah River (Tulare County). The main stem Kaweah River upstream of Kaweah Reservoir is Class A.

(46) Kern River and Tributaries (Kern and Tulare counties). The Kern River and its tributaries from Isabella Dam upstream are Class A.

(47) Kern River, South Fork and Tributaries (Kern and Tulare counties). The South Fork Kern River and its tributaries are Class A.

(48) Kings River and Tributaries (Fresno and Kings counties). The Kings River and its tributaries from Tulare Lake upstream to Pine Flat Dam are Class A.

(49) Klamath River, Main Stem (Del Norte, Humboldt and Siskiyou counties). The main stem Klamath River from the mouth upstream to the Salmon River is Class G, from the Salmon River upstream to 500 feet downstream of the Scott River is Class H, from 500 feet downstream of the Scott River upstream to Iron Gate Dam is Class G, and from Iron Gate Dam to the Oregon border is Class A.

(50) Knights Creek (Tuolumne County). The main stem Knights Creek is Class C.

(51) Lavezzola Creek (Sierra County). The main stem Lavezzola Creek is Class C.

(52) Little Rock Creek and Tributaries (Los Angeles County). The main stem Little Rock Creek and its tributaries from the Sycamore Campground in the Angeles National Forest upstream are Class A.

(53) Little Swede Creek (Trinity County). The main stem Little Swede Creek is Class A.

(54) Macklin Creek (Nevada County). The main stem Macklin Creek from its confluence with the Middle Fork Yuba River (T19N R12E S16) upstream is Class A.

(55) Malibu Creek and Tributaries (Los Angeles County). Malibu Creek and its tributaries are Class A.

(56) McCloud River (Shasta County). The main stem McCloud River from the southern boundary of Section 16, T38N, R3W, upstream to Lake McCloud Dam is Class A.

(57) Merced River (Merced County). The main stem Merced River from the San Joaquin River upstream to the Crocker–Huffman Dam (upstream from Snelling) is Class A.

(58) Merced River (Mariposa County). The main stem Merced River is Class C.

(59) Merced River, North Fork (Mariposa County). The main stem North Fork Merced River is Class C.

(60) Miner's Ravine and Tributaries (Placer County). Miner's Ravine and its tributaries are Class B.

(61) Minnow Creek (Tuolumne County). The main stem Minnow Creek is Class A.

(62) Mokelumne River (Amador, Calaveras and San Joaquin counties). The main stem Mokelumne River from Burella Road upstream to Camanche Dam is Class A, from Camanche Dam upstream to Pardee Dam is Class H, and from Pardee Dam upstream is Class C.

(63) Mud Creek (Butte County). The main stem Mud Creek from Big Chico Creek upstream is Class C.

(64) Nelson Creek (Plumas County). The main stem Nelson Creek is Class C.

(65) New River and Tributaries (Trinity County). New River and its tributaries upstream from the East Fork New River, are Class A.

(66) New River East Fork and Tributaries (Trinity County). The East Fork New River and its tributaries from the New River upstream are Class A.

(67) Piru Creek and Tributaries (Ventura and Los Angeles counties). Piru Creek and its tributaries are Class A.

(68) Pit River and Tributaries (Lassen and Modoc counties). The Pit River and its tributaries are Class A.

(69) Poor Man Creek and Tributaries (Tuolumne County). Poor Man Creek and its tributaries are Class A.

(70) Portuguese Creek and Tributaries (Madera County). Portuguese Creek and its tributaries are Class A.

(71) Rock Creek (Butte County). The main stem Rock Creek from Big Chico Creek upstream to the Butte/Tehama County Line is Class C.

(72) Rock Creek and Tributaries (Shasta County). Rock Creek and its tributaries are Class H.

(73) Rose Creek (Tuolumne County). The main stem Rose Creek is Class C.

(74) Rubicon River and Tributaries (El Dorado and Placer counties). The Rubicon River and its tributaries are Class C. No dredge with an intake larger than four inches may be used.

(75) Sacramento River and Tributaries (several counties). The main stem Sacramento River from the San Francisco Bay upstream to Shasta Dam is Class A. The Sacramento River and its tributaries from Shasta Lake upstream to Box Canyon Dam are Class A.

(76) Salmon River (Siskiyou County). The main stem Salmon River is Class D.

(77) Salmon River, North Fork (Siskiyou County). The main stem North Fork Salmon River from the South Fork Salmon River upstream to the Marble Mountain Wilderness boundary is Class D.

(78) Salmon River, South Fork (Siskiyou County). The main stem South Fork Salmon River from the North Fork Salmon River upstream to the Trinity Alps Wilderness boundary is Class D.

(79) Salt Creek and its Tributaries (Riverside County). Salt Creek and its tributaries are Class A.

(80) San Felipe Creek and its Tributaries (Imperial and San Diego Counties), San Felipe Creek and its tributaries are Class A.

(81) San Gabriel, East Fork and Tributaries (Los Angeles County). The East Fork San Gabriel River and its tributaries from Cattle Canyon upstream are Class A.

(82) San Gabriel River, West Fork and Tributaries (Los Angeles County). The West Fork San Gabriel River and its tributaries from the Rincon Guard Station upstream are Class A.

(83) San Joaquin River (several counties). San Joaquin River from the Delta upstream to Friant Dam (Millerton Lake) is Class A.

(84) San Juan Creek and Tributaries (Orange and Riverside counties). San Juan Creek and its tributaries from its mouth upstream are Class A.

(85) San Mateo Creek and Tributaries (San Diego, Orange and Riverside counties). San Mateo Creek and its tributaries from its mouth upstream are Class A.

(86) Santa Ana River and its Tributaries (San Bernardino County). The Santa Ana River and its tributaries from the mouth of Bear Creek upstream are Class A.

(87) Santa Clara River and Tributaries (Los Angeles and Ventura counties). The Santa Clara River and its tributaries from the Los Angeles/Ventura County line upstream are Class A, except that Texas Canyon Creek is Class H.

(88) Santiago Creek and Tributaries (Orange County). Santiago Creek and its tributaries within the Cleveland National Forest are Class A.

(89) Saxon Creek (Mariposa County). The main stem Saxon Creek is Class A.

(90) Scott River and Tributaries (Siskiyou County). The Scott River and its tributaries are Class G.

(91) Secret Ravine and Tributaries (Placer County). Secret Ravine and its tributaries are Class B.

(92) Sespe Creek (Ventura County). The main stem Sespe Creek from the Los Padres National Forest boundary upstream to its confluence with Tule Creek is Class A.

(93) Shay Creek and Tributaries (San Bernardino County). Shay Creek and its tributaries are Class A.

(94) Shasta River and Tributaries (Siskiyou County). The Shasta River and its tributaries are Class A.

(95) Sherlock Creek (Mariposa County) The main stem Sherlock Creek is Class A.

(96) Silver King Creek and Tributaries (Alpine County). Silver King Creek and its tributaries are Class A.

(97) Six–Bit Creek and Tributaries (Tuolumne County). Six–Bit Creek and its tributaries are Class A.

(98) Smith River Middle Fork (Del Norte County). The main stem Middle Fork Smith River is Class D.

(99) Stanislaus River (Calaveras, San Joaquin, Stanislaus and Tuolumne counties). The main stem Stanilaus River from the San Joaquin River upstream to Goodwin Dam is Class A, and from New Melones Dam upstream, excluding New Melones Reservoir, is Class C.

(100) Sullivan Creek (Tuolumne County). The main stem Sullivan Creek is Class C.

(101) Sutter Creek (Amador County). The main stem Sutter Creek from Highway 49 upstream to Pine Gulch Road is Class H.

(102) Sycamore Creek and Tributaries (Fresno County). Sycamore Creek, tributary to the Kings River, and its tributaries are Class A.

(103) Texas Canyon Creek (Los Angeles County). The main stem Texas Canyon Creek is Class H.

(104) Trinity River, Main Stem below Lewiston Dam (Humboldt and Trinity counties). The main stem Trinity River from the Klamath River upstream to the South Fork Trinity River is Class A, from the South Fork Trinity River upstream to the North Fork Trinity River is Class H, from the North Fork Trinity River upstream to Grass Valley Creek is Class D, and from Grass Valley Creek upstream to Lewiston Dam is Class A.

(105) Trinity River, Main Stem and Tributaries above Lewiston Dam (Trinity County). The Trinity River and its tributaries above Lewiston Dam are open to dredging from July 1 through October 15.

(106) Trinity River, North Fork and Tributaries (Trinity County) The North Fork Trinity River and its tributaries upstream from Hobo Gulch Campground are Class A.

(107) Tuolumne River (Stanislaus County). The main stem Tuolumne River from the Waterford Bridge upstream to La Grange Dam is Class A.

(108) Tuolumne River, North Fork, and Tributaries (Tuolumne County). The North Fork Tuolumne River and its tributaries are Class B.

(109) Turnback Creek and Tributaries (Tuolumne County). Turnback Creek and its tributaries are Class A.

(110) Wolf Creek (Nevada County). The main stem Wolf Creek from the Tarr Ditch Diversion (T15N R8E S10) upstream is Class C.

(111) Woods Creek and Tributaries (Tuolumne County). Woods Creek and its tributaries from Harvard Mine Road (Jamestown) downstream are Class C, from Harvard Mine Road upstream are Class A.

(112) Wooley Creek and Tributaries (Siskiyou County). Wooley Creek and its tributaries are Class A.

(113) Yuba River (Yuba County). The main stem Yuba River from its mouth at Marysville upstream to Highway 20 is Class B, and from Highway 20 upstream to Englebright Dam is Class A.

(114) Yuba River, North Fork (Sierra and Yuba counties). The main stem North Fork Yuba River from the Middle Fork of the Yuba River upstream to Fiddle Creek is Class H.

HISTORY

1. New section filed 5–27–94; operative 5–27–94 (Register 94, No. 21).

§ 230. Issuance of Permits for Contests Offering Prizes for the Taking of Game Fish.

(a) Definition of Contests.

(1) Type A Contest. Type A contests are those events offering prizes totaling more than $1,000 in value or with more than 50 participants. Type A contests may not exceed three days in duration and no more than one Type A event may be held at any water on the same day for the same game fish category listed in subsection 230(b)(1). If two or more applicants have requested a permit for the same date for a water, the application received first shall be given priority except for black bass contests, see subsection (b)(1)(A) through (D), below.

(See subsection 230(e) re: additional restrictions for black bass events.)

(2) Type B Contest. Type B contests are those events offering prizes of $1,000 or less and with 50 or fewer participants.

(b) Issuance of Permits.

(1) Revocable permits to conduct fishing contests (including tournaments, derbies or tagged fish contests) may be issued by the department to any person (as defined by section 67, Fish and Game Code) authorizing the permittee to offer prizes or other inducements for the taking of game fish. The department shall issue such permits if it determines the proposed contest(s) would not be detrimental to the resource. For the purposes of this section, game fish are defined as the following: white sturgeon and green sturgeon; American shad; salmon and trout—all species; goldfish; common carp; hardhead; Sacramento squawfish; western sucker; catfish and bullheads—all species; striped bass; white bass; black bass and sunfish—all species; tilapia—all species; sargo; bairdiella; and orangemouth corvina. Procedures for issuing event permits for black bass fishing contests are specified in subsections (A) through (D), below:

(A) A random drawing will be conducted by department personnel to issue Type A permits for black bass fishing contests during July of the year preceding the contest date. Drawings will be conducted the second Friday of July for bodies of water north of the Tehachapi Mountains and the third Friday of July for waters south of the Tehachapi Mountains. Applications will not be accepted prior to July 1 of the year preceding the calendar year in which a contest is proposed.

(B) Applicants may submit a completed application(s) (including appropriate fees) to the appropriate department office (see Section 230(b)(2)) or attend the random drawings in person. Applications received prior to the random drawings must be prioritized by the applicant and if not, will be drawn in chronological order based on the contest date. Prior to the drawing, a random number will be assigned to each applicant in attendance and to each group of applications submitted by an individual not in attendance. A series of random drawings of the assigned numbers will be conducted by department personnel and one application accepted for each number drawn. Only one application shall be accepted from each applicant during each consecutive round of the drawing process. Rounds of drawings will be conducted until all applications have been accepted, or there are no more available dates for a given body of water, whichever occurs first.

(C) Immediately following the drawing(s), the fees for all successful applications not already submitted must be paid to the department.

(D) Permits for applications received after the drawings will be issued in chronological order of receipt, subject to availability.

(2) Application shall be made on a standard form provided by the department (APPLICATION FOR PERMIT TO OFFER PRIZES FOR TAKING GAME FISH, FG 775 (Rev. 11/98)), which is incorporated by reference herein), and shall include the name of the sponsor, if any, and the name and address of the applicant, the telephone number where the applicant can be reached, and for each contest: the location and date of the event, total value of the prizes, and expected number of participants. The application must be signed by the applicant. Applications for Type B contests should be submitted to the regional office (see map and addresses of Regional offices attached to application form FG 775 (Rev. 11/98)) nearest to the applicant. Applications for Type A permits must be submitted to the department regional office for the region where the contest(s) is proposed.

(3) The application shall be submitted to the department at least 30 days prior to the proposed contest(s).

(4) Applications will not be accepted prior to July 1 of the year preceding the calendar year in which any contest is proposed.

(5) The department will consider requests for adjustments to approved Type A contest dates, if such requests are received by the issuing regional office not later than 30 days prior to the contest date to be changed.

(6) Permits are not transferable.

(7) Event and Annual Permits.

(A) An Event Permit will be issued for each Type A contest (see subsection 230(a)(1)).

(B) An Annual Permit will be issued on a calendar year basis to cover all Type B Contests (see subsection 230(a)(2)) proposed for that year.

(8) Cost of permit: See subsection 699(b) of these regulations for the fee for this permit.

(c) Observer Requirement. An employee of the department may be assigned as an observer and be present at any contest. The applicant shall reimburse the department $100 per day for the cost of the observer's services and all associated administrative and incidental costs.

(d) Compliance with Sport Fishing Regulations.

(1) No provisions of these regulations exempt any participant in a contest from the sport fishing regulations, except that the department may, for permitted contests, authorize an exemption to:

(A) Regulations which impose an increased minimum size limit larger than 12 inches, a slot size limit, or a reduced bag limit less than five fish for Type A contests, and;

(B) Daily bag and possession limits for all permitted black bass contests, insofar that once the daily bag and possession limit has been reached by an individual angler, that same angler may continue to fish under the condition that each additional fish caught must immediately be returned to the water alive and in good condition, or be used to replace a fish being maintained alive and in good condition from the participant's livewell or other suitable holding facility.

(2) To prevent the movement of live fish from one body of water to another, the department also may establish permit conditions governing the movement of live fish associated with tournament activities.

(e) Additional Restrictions for Black Bass Contests.

(1) Insofar as possible, all fish shall be returned to the water alive and in good condition, except the department may for scientific or management purposes, take possession of any fish caught during the contest and provide for retention of unusually large fish by participants. The department shall notify the permittee or his designated representative of such exceptions prior to the start of the contest.

(2) All contestants shall have facilities for keeping bass alive and in good condition. The contest or department officials shall have the authority to disqualify any individual from competing if suitable facilities are not available.

(3) Only artificial lures may be used.

(f) Special Conditions. To provide for the welfare of fish populations or individual fish, the department may impose special conditions not specifically covered herein for any contest. The Department shall provide such conditions in writing to the applicant when issuing the permit. The applicant shall provide copies or otherwise inform every participant of the special conditions. It is unlawful for any person participating in a contest permitted under the authority of this Section to violate any condition of the permit.

(g) Submission of Reports. Permittees shall complete and return a report on a standard form (attached to application form FG 775(6/90)) provided by the department, or an equivalent form, within 30 days after the completion of each contest. The permittee shall answer all the questions thereon relating to the contest, so that department personnel may monitor the impact of such events on fisheries resources.

(h) Revocation or Denial of Permits. Failure of a permittee to comply with the provisions of this section, and any special conditions applied under this section, can result in the revocation of current permits or denial of applications for future permits, as determined by the department.

NOTE: Authority: Sections 1050 and 2003, Fish and Game Code. Reference: Sections 711, 713, 1050 and 2003, Fish and Game Code.

HISTORY

1. New section filed 1–24–75 as an emergency; effective upon filing. Certificate of Compliance included (Register 75, No. 4).
2. Amendment of NOTE filed 10–5–81; effective thirtieth day thereafter (Register 81, No. 41).
3. Amendment of subsection (f)(5) filed 9–15–83; effective thirtieth day thereafter (Register 83, No. 38).
4. Amendment filed 4–11–85; effective thirtieth day thereafter (Register 85, No. 15).
5. Amendment filed 5–19–86; effective thirtieth day thereafter (Register 86, No. 21).
6. Amendment filed 6–15–88; operative 7–15–88; (Register 88, No. 27).
7. Change without regulatory effect filed 7–28–88; operative 8–27–88 (Register 88, No. 33).
8. Amendment filed 9–19–90; operative 9–19–90 pursuant to Government Code section 11346.2(d) (Register 90, No. 44).
9. Amendment of subsection (b) and nonsubstantive amendment of NOTE filed 4–18–91; operative 5–18–91 (Register 91, No. 21).
10. Amendment of subsection (d) filed 2–9–96; operative 2–9–96 pursuant to Fish and Game Code sections 202 and 205 (Register 96, No. 6).
11. Amendment of subsections (a)(1), (b)6)(B) and (d), including new subsection designators (d)(1)–(3), filed 1–16–97; operative 1–16–97 pursuant to Fish and Game Code sections 202 and 215 (Register 97, No. 3).
12. Repealer of subsection (d)(2), subsection renumbering, and amendment of newly designated subsection (d)(2) filed 2–5–98; operative 3–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 6).
13. Amendment of subsections (b)(2), (b)(4), (e) and (f) filed 1–19–99; operative 2–18–99 (Register 99, No. 4).
14. Amendment of subsections (a)(1) and (b)(1), new subsections (b)(1)(A)–(D) and amendment of subsection (b)(4) filed 6–30–2003; operative 6–30–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 27).
15. Amendment of subsection (d)(1), including redesignation of portion of former subsection (d)(1) to subsection (d)(1)(A) and new subsection (d)(1)(B) filed 8–23–2005; operative 9–22–2005 (Register 2005, No. 34).

§ 231. Exchanging of Sport–Caught Fish.

(a) A sport–caught fish exchange permit is required of any person or persons who exchange fresh fish taken under the authority of a sport fishing license for filleted, smoked or canned fish as provided in this section. Upon application and payment of $53.25, the department shall issue such permits.

(1) Where Issued. Permits shall be issued at department offices in San Diego, Long Beach, Monterey, Menlo Park, Eureka, Redding, Yountville and the License and Revenue Branch in Sacramento.

(2) Limitations of Permit. Permits are nontransferable.

(3) Duration of Permit. Permits shall be valid from January 1 to December 31, inclusive or if issued after the beginning of that term, for the remainder thereof.

(b) Authorized Species. Any legally taken species of sport–caught fish may be possessed for filleting, smoking or canning if the same fish is returned to the angler or if the fish is exchanged pound for pound, adjusted for loss during processing, or exchanged according to (c) below for various tunas. A reasonable fee to cover processing costs may be charged. The following species may be possessed for canning only, as authorized in subsection (c) below: albacore, bluefin tuna, yellowfin tuna, bigeye tuna, skipjack, and yellowtail. For the purpose of this section, skipjack and yellowtail are included as tuna along with bigeye, bluefin and yellowfin.

(c) Exchange Process.

(1) Permittees may accept tuna for canning and provide in exchange one (1) six ounce can of albacore (white meat) tuna at no cost as follows:

(A) For each pound of tuna received, if the sale price of tuna to the permittee is greater than $4,470.00 per ton.

(B) For each two (2) pounds of tuna received, if the sale price of tuna to the permittee is less than $4,470.00, but greater than $2,240.00 per ton.

(C) For each three (3) pounds of tuna received, if the sale price of tuna to the permittee is less than $2,240.00, but greater than $1,490.00 per ton.

(D) For each four (4) pounds of tuna received, if the sale price of tuna to the permittee is less than $1,490.00, but greater than $1,120.00 per ton.

(E) For each five (5) pounds of tuna received, if the sale price of tuna to the permittee is less than $1,120.00, but greater than $900.00 per ton.

(F) For each six (6) pounds of tuna received, if the sale price of tuna to the permittee is less than $900.00, but greater than $750.00 per ton.

(G) For each seven (7) pounds of tuna received, if the sale price of tuna to the permittee is less than $750.00, but greater than $640.00 per ton.

(H) For each eight (8) pounds of tuna received, if the sale price of tuna to the permittee is less than $640.00, but greater than $560.00 per ton.

(I) For each nine (9) pounds of tuna received, if the sale price of tuna to the permittee is less than $560.00, but greater than $500.00 per ton.

(J) For each ten (10) pounds of tuna received, if the sale price of tuna to the permittee is less than $500.00, but greater than $450.00 per ton.

(K) For each eleven (11) pounds of tuna received, if the sale price of tuna to the permittee is less than $450.00, but greater than $410.00 per ton.

(L) For each twelve (12) pounds of tuna received, if the sale price of tuna to the permittee is less than $410.00, but greater than $370.00 per ton.

(2) Permittees may accept tuna for canning and provide in exchange one (1) six ounce can of yellowfin (light meat) tuna at no cost as follows:

(A) For each one (1) pound of tuna received, if the sale price of tuna to the permittee is greater than $2,280.00 per ton.

(B) For each two (2) pounds of tuna received, if the sale price of tuna to the permittee is less than $2,280.00, but greater than $1,140.00 per ton.

(C) For each three (3) pounds of tuna received, if the sale price of tuna to the permittee is less than $1,140.00, but greater than $760.00 per ton.

(D) For each four (4) pounds of tuna received, if the sale price of tuna to the permittee is less than $760.00, but greater than $570.00 per ton.

(E) For each five (5) pounds of tuna received, if the sale price of tuna to the permittee is less than $570.00, but greater than $460.00 per ton.

(F) For each six (6) pounds of tuna received, if the sale price of tuna to the permittee is less than $460.00, but greater than $380.00 per ton.

(G) For each seven (7) pounds of tuna received, if the sale price of tuna to the permittee is less than $380.00, but greater than $330.00 per ton.

(H) For each eight (8) pounds of tuna received, if the sale price of tuna to the permittee is less than $330.00, but greater than $290.00 per ton.

(I) For each nine (9) pounds of tuna received, if the sale price of tuna to the permittee is less than $290.00, but greater than $260.00 per ton.

(J) For each ten (10) pounds of tuna received, if the sale price of tuna to the permittee is less than $260.00, but greater than $230.00 per ton.

(K) For each eleven (11) pounds of tuna received, if the sale price of tuna to the permittee is less than $230.00, but greater than $210.00 per ton.

(L) For each twelve (12) pounds of tuna received, if the sale price of tuna to the permittee is less than $210.00, but greater than $190.00 per ton.

(3) Cans of fish exchanged shall be indelibly marked or embossed with "Not for Sale" or "Illegal to Sell".

(4) Fish received for processing under this subsection may only be used for canning. Tuna, except yellowtail, not returned to the angler may be canned and sold or sold to a cannery for the purpose of canning. Tuna

not acceptable for canning may be sold for reduction purposes. Yellowtail must be donated to a non-profit charitable institution for food purposes only and may be fresh or processed.

(d) Species Limitation. Salmon may only be exchanged for salmon. Striped bass may only be exchanged for striped bass. Tuna may only be exchanged for tuna.

(e) Records. Immediately upon receiving fish, a permittee shall record the name, address and fishing license number of the angler, the date the fish were received and the number and weight of all fish by species received from that angler. At the time the fish are returned to the angler or otherwise disposed of, the permittee shall record the species and weight of the fish returned or if not returned to the angler, the disposition of the fish, and the date of return or disposition. Permittees shall keep and maintain all records required by these regulations at their place of business for three years and shall make them available to authorized department personnel upon demand.

(f) Transportation. Permittees may transport or provide for the transportation of tuna to canneries or processing facilities outside of California. Fish being transported shall be accompanied by a bill of lading, waybill, invoice or similar accountable document showing the name and address of the consignor, the name and address of the consignee and a listing of all fish by species and the number or weight of each species.

(g) Marking. All fish shall be marked by the permittee by removing the entire upper lobe of the tail. This marking shall be done in the presence of the person delivering such fish. Fish so marked shall be kept separate from commercially taken fish until transported to a cannery or processing facility.

(h) Waste. It shall be unlawful for any person to allow the deterioration or waste of any sport-caught fish.

(i) Revocation of Permits. Any permit may be revoked or suspended by the commission upon a violation by the permittee or the permittee's agent, servant, employee or person acting under the permittee's direction or control of any provision of these regulations or of the provisions of the Fish and Game Code relating to the receiving, processing or sale of fish taken under authority of a sport fishing license.

NOTE: Authority cited: Sections 200, 202, 205, 713, 5510, 7121, 7701 and 7708, Fish and Game Code. Reference: Sections 200–202, 1050, 5510, 7121, 7701 and 7708, Fish and Game Code.

HISTORY

1. New section filed 3–28–86; effective upon filing pursuant to Government Code section 11346.2(d) (Register 86, No. 13).
2. Amendment of subsections (a)–(c) and repealer of subsection (f) filed 2–25–88; operative 3–26–88 (Register 88, No. 10).
3. Amendment of subsections (b) and (c) filed 11–21–89 as an emergency; operative 11–21–89 (Register 89, No. 47). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed by operation of law on 3–21–90.
4. Reinstatement of subsections (b) and (c) as they existed prior to emergency amendment filed 11–21–89 by operation of Government Code section 11346.1(f) (Register 90, No. 31).
5. Amendment of subsections (b), (c) and (e) filed 6–8–90; operative 6–8–90 pursuant to Government Code section 11346.2(d) (Register 90, No. 31).
6. Amendment of subsection (e) filed 6–27–91; operative 7–29–91 (Register 91, No. 40).
7. Amendment of subsection (a)(3) filed 9–9–92; operative 10–9–92 (Register 92, No. 37).
8. Editorial correction of printing error in subsections (c)(4) and (d) filed 7–19–93; operative 8–18–93 (Register 93, No. 30).
9. Amendment of subsections (c)(1)(A)–(c)(3)(D) and new subsection (c)(2)(F) filed 7–19–93; operative 8–18–93 (Register 93, No. 30).
10. Amendment of section heading, subsections (a) and (c)(5) and NOTE filed 10–16–95 as an emergency; operative 10–16–95 (Register 95, No. 42). A Certificate of Compliance must be transmitted to OAL by 2–13–96 or emergency language will be repealed by operation of law on the following day.
11. Certificate of Compliance as to 10–16–95 order including amendment of subsections (a), (b), (c)(1)(C), (c)(5) and (e), repealer of subsection (f) and subsection relettering, and amendment of newly designated subsections (f) and (g) transmitted to OAL 2–9–96 and filed 3–13–96 (Register 96, No. 11).
12. Amendment of subsections (a)(1), (b) and (c)(1), repealer of subsections (c)(1)(A)–(c)(3)(D) and new subsections (c)(1)(A)–(c)(2)(L) filed 8–16–2000; operative 9–15–2000 (Register 2000, No. 33).
13. Change without regulatory effect renumbering former subsections (c)(4) and (c)(5) to subsections (c)(3) and (c)(4) filed 10–31–2000 pursuant to section 100, title 1, California Code of Regulations (Register 2000, No. 44).
14. Change without regulatory effect amending subsection (a) and amending NOTE filed 5–11–2005 pursuant to section 100, title 1, California Code of Regulations (Register 2005, No. 19).
15. Change without regulatory effect amending subsection (a) filed 12–19–2006 pursuant to section 100, title 1, California Code of Regulations (Register 2006, No. 51).

Chapter 9. Aquaculture

§ 235. Aquaculture Registration.

(a) Registration Required. Pursuant to the provisions of Section 15101 of the Fish and Game Code, all aquaculture facilities must be registered with the department each year. For purposes of Chapter 9, Subdivision 1, Division 1, Title 14, California Code of Regulations, an aquaculture facility is one that is devoted to the propagation, cultivation, maintenance and harvesting of aquatic plants and animals in marine, brackish or fresh water. This registration is not required for: the maintenance of koi and goldfish in closed systems for personal, pet or hobby purposes; the harvest and sale of brine shrimp; and the sale or cultivation of tropical species of ornamental marine or fresh water plants or animals, not utilized for human consumption or bait purposes, but maintained in closed systems for personal, pet industry or hobby purposes.

(1) Who Shall Register. The owner of each aquaculture facility shall register each year on forms provided by the department. Individual forms must be completed for each aquaculture facility location. Application forms and a list of laws and regulations governing aquaculture are available from the department's Aquaculture Development Section, 1416 Ninth Street, Sacramento 95814, and from the department's regional offices in Redding, Yountville, Rancho Cordova, Fresno, Long Beach and Menlo Park, on request.

(2) Cost of Registration. The registration fee for each new registered owner or operator shall be the fee specified in Section 15101(b) of the Fish and Game Code.

(3) Where to Submit Applications. Application forms together with the registration fee shall be submitted to one of the department's regional offices listed in subsection (1) above. Applications will be processed within five working days after approval. Applications shall be made on a form (Application for Aquaculture Registration, FG 750 (2/91), which is incorporated by reference herein) supplied by the department.

(b) Registration Limitation. The applicant must certify that he/she has read, understands and agrees to be bound by the regulations of the commission and the Fish and Game Code sections governing aquaculture and its products.

(c) Duration of Registration. The annual term of registration shall be January 1 to December 31, or if issued after the beginning of such term, for the remainder of that calendar year. Aquaculturists must reregister their facilities by March 1 of each year. Reregistration (renewal) fees shall be the amount specified in Section 15101(b) of the Fish and Game Code. An additional surcharge, specified in Section 15103 of the Fish and Game Code, shall be paid at the time of renewal if the proceeds from sale of aquaculture products of the facility in the preceding year exceed $25,000. Penalties for late renewal will be assessed in accordance with Section 15104 of the Fish and Game Code. Anyone failing to register under this section shall be operating unlawfully.

(d) All permits specified in this chapter, in addition to the aquaculture registration issued pursuant to Section 15101 of the Fish and Game Code, shall be issued under the following conditions:

(1) Where Issued. Requests for permits required in Chapter 9, unless specifically directed otherwise, shall be submitted to the Department of Fish and Game Aquaculture Development Section, 1416 Ninth Street, Sacramento, CA 95814.

(2) Cost of Permit. Except as otherwise provided, see Section 15101 of the Fish and Game Code.

(3) Duration of Permits. Except as otherwise provided, permits will be issued on a calendar year basis, or if issued after January 1, for the remainder thereof.

NOTE: Authority cited: Sections 1050, 15005, 15101, 15102, 15103, 15104 and 15200, Fish and Game Code. Reference: Sections 15000–15005 and 15100–15102, Fish and Game Code.

HISTORY

1. New chapter 9 (sections 235–240, not consecutive) filed 4–1–83; effective upon filing pursuant to Government Code section 11346.2(d) (Register 83, No. 14).
2. Amendment of subsection (a) filed 7–8–87; operative 8–7–87 (Register 87, No. 29).
3. Amendment filed 7–25–88; operative 7–25–88 (Register 88, No. 32).
4. Amendment of subsection (d) filed 4–18–91; operative 5–18–91 (Register 91, No. 21).
5. Amendment of subsections (a), (c), (d) and NOTE filed 7–24–91; operative 8–23–91 (Register 92, No. 8).
6. Change without regulatory effect amending subsection (d)(2) filed 11–20–91 pursuant to section 100, title 1, California Code of Regulations (Register 92, No. 15).
7. Amendment of subsection (a) filed 9–7–2000; operative 10–7–2000 (Register 2000, No. 36).

§ 235.1. Screening Requirements for Aquaculture Facilities.

All bodies of water or private hatcheries registered for aquaculture purposes shall be entirely within the exterior boundaries of the land owned or leased by the owner of the facility. No aquaculture facility shall be built or operated on a natural water course or lake without the prior written approval of the department. Prior written approval is not required for aquaculture facilities constructed below a spring rising on private property.

For purposes of this section, waters existing seasonally or intermittently and not serving as a passageway or nursery area for anadromous fish are not required to be screened.

Except for those facilities using marine water, all artificial inlets and outlets of such bodies of water or private hatcheries used for aquaculture purposes shall be screened to prevent the ingress or egress of aquatic plants or animals.

NOTE: Authority cited: Sections 15200 and 15400, Fish and Game Code. Reference: Sections 17, 15102, 15202 and 15400, Fish and Game Code.

HISTORY

1. Amendment filed 12–2–85; effective thirtieth day thereafter (Register 85, No. 49).

§ 235.2. Permit to Operate an Aquaculture Facility for Anadromous Fish on Davenport Landing Creek (Santa Cruz County).

Permits may be issued to operate a registered aquaculture facility for anadromous fish under the following general terms and conditions:

(a) Any permit issued shall be on an experimental basis until its impact on the fishery resource can be ascertained. These regulations shall be applicable only to the waters of Davenport Landing Creek, contained within Santa Cruz County, until January 1, 1996, after which date these regulations and permit shall have no force or effect.

(b) Persons desiring a permit to operate an anadromous fish aquaculture facility on Davenport Landing Creek shall file a request with the commission. Commission approval must be obtained following a public hearing as required by section 15901 of the Fish and Game Code. If a permit is authorized by the commission, upon payment of $100.00 a permit will be issued to the permittee by the Wildlife Protection Division following notification by the commission.

(c) All fish released into the wild under authority of any permit during the time they are in the wild will become the property of the state and may be taken under the authority of a sport or commercial fishing license.

(d) Prior to release into state waters, fish may be examined by the department to determine that they are not diseased or infected with any disease which, in the opinion of the department, may be detrimental to the state fishery resources. If such fish are found to be diseased or infected, they shall not be released into state waters and shall be disposed of in accordance with department instructions. Cost of such inspection shall be paid by the permittee.

(e) Importation of eggs or fish into the state by permittee shall be in accordance with section 15600 of the Fish and Game Code and section 236(c) of these regulations.

(f) Any liberation of fish by permittee into state waters shall be approved in advance by the department.

(g) The department may require the permittee to mark specific numbers of fish prior to their release into state waters. Any marks used by permittee to identify fish released into state waters shall be approved in advance by the department.

(h) The permittee shall have the right to trap and retain all fish returning to the stream; the department shall be allowed to examine all fish trapped.

(i) All live fish being transported by the permittee shall be in accordance with the provisions of sections 2270–2273, 15005 and 15600 of the Fish and Game Code.

(j) All dead fish being transported from facilities operated pursuant to this permit shall be tagged or packaged in accordance with the provisions of section 238 of this title and with section 15005, Fish and Game Code.

(k) Permittee shall maintain accurate records on forms provided by the department. Copies of these records will be forwarded to the department monthly, annually, and at times determined by the department.

(*l*) If, after a hearing, the commission finds that the operation described in the permit and conducted pursuant to this section is not in the best public interest, the commission may alter the conditions of the permit to mitigate such adverse effects, including but not limited to the immediate suspension of operation under the permit.

(m) The permittee shall reimburse the department for all actual costs incurred by the department in inspecting and monitoring the permittee's operations.

(n) The permittee shall provide all necessary security measures to protect fish at the rearing, release and trapping facilities.

(o) Upon termination of the permit, the permittee shall remove all structures and facilities placed in the stream bed by the permittee and shall return the watercourse to its original condition. In the event the permittee fails to do so, the state may restore the site at the permittee's sole cost. The permittee shall post a performance bond, signed by both the permittee and a corporate surety company, in the amount of $15,000, to assure restoration of the premises to their original condition and to assure compliance with all other provisions of this permit.

NOTE: Authority cited: Sections 1050, 15004, 15005, 15101, and 15200, Fish and Game Code. Reference: Sections 1050, 2270–2273, 15005, 15200, 15202, 15900, 15901, 15903, 15905, 15906, and 15907, Fish and Game Code.

HISTORY

1. Amendment filed 12–2–85; effective thirtieth day thereafter (Register 85, No. 49).
2. Amendment of subsection (a) changing applicable date of section from January 1, 1991, to January 1, 1996, filed 4–18–91; effective 5–18–91 (Register 91, No. 19). Section is inapplicable between January 1, 1991 and 5–18–91 by its own terms.
3. Changes without regulatory effect amending subsections (b), (i), (*l*), and reference citation filed 4–18–91 pursuant to section 100, title 1, California Code of Regulations (Register 91, No. 19).
4. Amendment of subsection (b) filed 4–18–91; operative 5–18–91 (Register 91, No. 21).

§ 236. Importation of Live Aquatic Plants and Animals.

The provisions of this section shall apply to the importation of all live aquatic plants and animals.

(a) No person shall import into this state any prohibited species of live aquatic plant or animal listed pursuant to Section 2118 of the Fish and Game Code or Section 671 of these regulations unless specifically authorized by the commission.

(b) Unless specifically prohibited by these regulations, plants and animals within the following groups may be imported without an importation permit from the department:

(1) Mollusks and crustaceans intended to go directly into the seafood market and which will not be placed into the waters of the state nor placed in waters which are discharged to waters of the state.

(2) Live ornamental tropical marine or freshwater plants or animals that are not utilized for human consumption or bait purposes, are maintained in closed systems for personal, pet industry or hobby purposes, and which will not be placed in waters of the state.

(3) Brine shrimp.

(c) With the exception of those importations described in Section 236(a) and (b), live aquatic plants and animals may be imported into this state only in accordance with the following terms and conditions:

(1) A standard importation permit signed by the director or his agent is required, and no shipment into the state may be made prior to the issuance of the permit authorizing the shipment or shipments. The department shall charge a fee of $25.00 for issuing each permit. Fees charged for inspections shall be independent of the fees charged for issuing permits.

(2) With the exceptions of the live aquatic animals listed in subsection 236(c)(6), a permit is required for each lot or load, and each shipment must be accompanied by the original copy of the importation permit. Unless otherwise authorized, the person who is to receive any shipments of aquatic plants and animals shall apply to the department for this importation permit.

(3) Application for a standard importation permit shall be made on a form (Application for Standard Importation Permit, FG 789 (2/91), which is incorporated by reference herein) supplied by the department, as directed in Section 235(d) and shall reach the department's headquarters office at least 10 working days in advance of the probable arrival date of the shipment. A copy of the permit authorized by the director or his agent must accompany each load. If a change in date of shipment becomes necessary after a permit has been issued, the permittee shall notify the Aquaculture Development Section at least 5 days before the new date of shipment. Under special circumstances, the department may waive this 5–day notice requirement.

(4) All live aquatic plants and animals imported into California may be inspected by the department, either at the place of entry into the state or at other locations suitable to the department. The person importing the aquatic plants or animals may be required to provide facilities for inspecting and sorting them, and may be required to pay inspection costs, including salary and travel expenses of the inspector.

(5) Any lot or load of aquatic plants and animals found by the inspector to be diseased, parasitized or to contain species not authorized by the importation permit must be immediately destroyed or transported out of California within a period of time specified by the department. In such cases, the importation permit is automatically revoked.

(6) In lieu of the permits specified in subsection 236(c)(1), long–term permits for the following aquatic animals may be issued by the department for periods of up to one year. Application shall be made on a form (Application for Long–term Permit to Import Animals into California, FG 786 (2/91), which is incorporated by reference herein) supplied by the department. The department shall charge a fee for issuing each permit. See subsection 699(b) of these regulations for the fee for this permit.

(A) Oyster, oyster larvae and oyster seed.

(B) Ghost shrimps (*Callianassa spp*).

(C) Mud shrimps (*Upogebia spp*).

(D) Longjaw mudsuckers (Gillichthys mirabilis).

(E) Red swamp crayfish (*Procambarus clarkii*).

(F) Orconectes virilis.

(G) Marine Annelid worms (*Phylum Annelida*).

(H) Sacramento blackfish (*Orthodon microlepidotus*).

(I) Other species under conditions which the department determines represent no significant risk to the fish and wildlife resources of the state.

(7) Importation of Salmonid Eggs. Applications to import eggs of fishes of the family salmonidae (trout, salmon and char) shall be accompanied by a health certificate signed by a person competent in the diagnosis of fish diseases stating that the hatchery or other sources of the eggs to be imported and the eggs themselves are free of the following diseases: infectious pancreatic necrosis (IPN); bacterial kidney disease (BKD); infectious hematopoietic necrosis (IHN); and viral hemorrhagic septicemia (Egtved).

In questionable cases, the director of the department shall determine whether or not the person making the certification is technically qualified to do so.

(8) Only those aquatic plants and animals lawfully obtained in another state or country may be imported.

NOTE: Authority cited: Sections 1050, 2118, 6401, 15004, 15600 and 15601, Fish and Game Code. Reference: Sections 2116–2191, 2270–2272 and 3201–3204, Fish and Game Code.

HISTORY

1. Amendment filed 7–25–88; operative 7–25–88 (Register 88, No. 32).
2. Amendment of subsection (a) filed 4–18–91; operative 5–18–91 (Register 91, No. 21).
3. Amendment filed 7–24–91; operative 8–23–91 (Register 92, No. 8).
4. Amendment of subsection (c)(6) filed 6–9–95; operative 7–10–95 (Register 95, No. 23).

§ 236.1. Importation and Planting of Live Bivalve Mollusks.

NOTE: Authority cited: Sections 1050, 15004, 15005, 15200–15202, 15400 and 15600, Fish and Game Code. Reference: Sections 15004, 15200–15202 and 15600, Fish and Game Code.

HISTORY

1. Repealer filed 7–25–88; operative 7–25–88 (Register 88, No. 32).

§ 237. Leasing of State Water Bottoms for Aquaculture.

(a) Definitions. The following definitions are established for terms used in this section:

(1) "Aquaculture Area" means any public waters or private waters contiguous to public waters set aside for the purpose of cultivating, harvesting or relaying of any aquatic plant or animal life.

(2) "Aquaculture Agreement" means an agreement for the establishment of an aquaculture area on private water bottoms contiguous to state water bottoms which may include a permit for relaying or depuration of shell fish under authority of Fish and Game Code Division 12. Permits may include use of state or private lands for aquaculture purposes.

(3) "Aquaculture Lease" means a lease of state water bottoms for the cultivation of aquatic plants and animals.

(4) "Depuration" means the process by which shellfish cleanse themselves of contaminants in a controlled process water environment.

(5) "Depuration Facility" means the physical structure, enclosure or device in which depuration is accomplished, including all appurtenances.

(6) "Growing Area" means any offshore ocean, coastal estuarine or freshwater area suitable for natural shellfish growth or artificial shellfish propagation and shall include open seawater systems.

(7) "Relaying" means the moving of shellfish from one water to another.

(8) "Shellfish" in this section means native or nonnative bivalve mollusks.

(9) "Classified Areas" include those waters that may be classified by the State Department of Health according to the following:

(A) "Approved Area": a shellfish–growing area not adversely affected by sewage or other wastes.

(B) "Conditionally Approved Area": a shellfish–growing area that may be occasionally affected by sewage or other toxic substances.

(C) "Prohibited Area": a shellfish–growing area not certified because of its proximity to a known waste discharge or because the area is influenced by other detrimental environmental factors.

(D) "Restricted Area": a shellfish–growing area subjected to a limited degree of pollution which makes it unsafe to harvest shellfish for direct marketing but where harvesting for relaying or depuration may be permitted.

(10) "Lot" is a designated quantity of shellfish that is identifiable and may consist of one or more batches.

(11) "Batch" is a measurable, identifiable unit such as bushel, and one or more batches will comprise a lot.

(12) "Tidal Area" means the intertidal area between the high tide mark and 1,000 feet offshore. Commercial harvesting of native invertebrates in this area is subject to special permit requirements under Section 8500 of the Fish and Game Code.

(b) Applications.

(1) Applications for a lease of state water bottoms for aquaculture or for an aquaculture agreement or for a permit to relay or depurate shellfish shall be made to the commission.

(2) Applications shall be accompanied by proof of ownership of, or a valid lease on the lands on which the operations are to occur, or description of the state lands which the applicant has leased or intends to lease and on which the operations are to occur.

(3) Applications also shall be accompanied by a description of the area involved and a reference map clearly showing the exterior boundaries of the area. The description must be tied to monuments of record and maps must be in a form acceptable for recording in the county(ies) in which the aquaculture area is located. A copy of all maps shall be submitted by the commission to the State Lands Commission. No aquaculture agreement will be valid until the State Lands Commission has certified to the department that the area applied for is unencumbered or the private ownership is properly described, so as not to preclude its use for the proposed culture.

(4) No aquaculture lease for state water bottoms will be approved until the commission has held a public hearing at least 90 days after notice thereof has been published in a newspaper of general circulation within the county involved. An aquaculture lease or aquaculture agreement is subject to repeal if a map of the area is not filed by the holder of such lease or agreement in the appropriate county(ies) within 30 days of approval by the commission.

(5) No aquaculture agreement for private water bottoms will be approved until the commission has held a public hearing at least 30 days after notice thereof has been published in a newspaper of general circulation within the county involved. An aquaculture agreement is subject to repeal if a map of the area is not filed by the holder of such aquaculture agreement in the appropriate county(ies) within 30 days of approval by the commission.

(6) An explanation of the type of operation including the aquaculture practices, relay or depuration activities to be employed, shall be included in all applications for aquaculture leases or agreements.

(7) The change of any authorized cultural practices as specified in the aquaculture lease or agreement must have approval of the commission before the change is put into effect.

(8) The application shall include information as to whether each of the areas involved in the aquaculture relay or depuration operation has been classified by the Department of Health Services as approved, conditionally approved, prohibited, restricted or unclassified.

(c) Aquaculture Leases and Agreements.

(1) Aquaculture leases or agreements shall not be modified, amended, transferred, assigned or hypothecated without the approval of the commission.

(2) The holder of the aquaculture lease or agreement shall comply with the provisions of the Fish and Game Code and the rules and regulations of the commission and any special provisions set forth in the lease or agreement by the commission.

(3) Before an aquaculture lease or agreement is issued by the department, the applicant must present evidence that the applied for aquaculture area has been registered in compliance with Fish and Game Code Section 15101.

(4) The department may inspect the depuration facilities, culture or relay areas of a holder of an aquaculture lease or agreement at any time.

(5) Vessels used by holders of an aquaculture lease or agreement may be required to maintain clearly visible identifying numbers.

(6) The holder of an aquaculture lease or agreement shall record the size, numbers or pounds of shellfish or other marine life planted, relayed or taken in or from waters of the state on forms as designated by the department.

(7) Marking of leases. All aquaculture leases shall be clearly marked. Minimum marking requirements shall include:

(A) One buoy anchored on each of the four corners and one buoy, possessing radar–reflecting capabilities, anchored in the center of each aquaculture lease. All buoys used to define the boundaries of an aquaculture lease shall be marked in conformance with the International Association of Lighthouse Authorities Maritime Buoyage system regulations (33 CFR Section 62.33 and 66.01–10).

(B) All buoys shall bear the Aquaculture Lease No. M– (followed by the appropriate number).

(C) Buoys marking the boundaries of an aquaculture lease shall be maintained at all times. If buoys are lost, displaced or are otherwise removed from an aquaculture lease, they must be replaced within a two–week period, weather conditions permitting, or the lease may be subject to termination.

(D) If aquaculture leases are located in areas too shallow to effectively maintain buoys, the four corners (boundaries) of a lease may be defined by stakes extending no less than three feet above the surface of the water at mean higher high water supporting the markings prescribed in subsection (A). Stakes used to define the limits of an aquaculture lease shall be marked and maintained in the same manner as buoys in the preceding subsections.

(E) Each aquaculture lessee shall make application to the U.S. Coast Guard, Aids to Navigation Branch, 400 Ocean Gate, Long Beach, CA 90822, for approval of the buoys and markings to be established on aquaculture leases.

(d) In addition to other requirements, a permit to relay or depurate shellfish shall contain the following conditions:

(1) An operation conducted under an aquaculture agreement or a relay or depuration permit that receives shellfish from the licensee's or permittee's own lands or lands leased by it, is not required to be licensed as a wholesale fish dealer and preserver, but shall maintain such records as are required by the department to monitor such operations, including but not limited to: data with respect to each batch of shellfish depurated or relayed that will show: its origin and quantity; date or reception by the depuration facility or relay bed and the length of time held in the facility or bed; and their final disposition. All depurated or relayed shellfish shall be identified by a tag or label securely fastened to the shipping container and bearing the certificate number of the shipper, his name and address, the name and address of the consignee, and the kind and quantity of shellfish in the container and the batch or lot number.

(2) The operator of a depurating facility receiving shellfish from other than the operator's owned or leased areas shall obtain a wholesale fish dealer's and preserver's license prior to the department's issuance of a permit and the permittee will maintain such records as required by the department.

(3) A relay or depuration permittee, moving shellfish for the purpose of cleansing, shall satisfactorily identify each lot of shellfish harvested and maintain its identity separate from other shellfish throughout its relaying or depuration process until certification by the Department of Health Services that edible shellfish standards have been met.

(4) Persons holding an aquaculture lease or agreement who relay shellfish from one area of the state to another, whether from private or public water bottoms, shall give the department notice two working days prior to the relay. Such notification shall be given to the department's office specified in the agreement.

(5) No shellfish shall be relayed without obtaining written permission from the department.

(6) Shellfish harvested from a conditionally approved or restricted area for relaying or depuration, shall be identified by a lot number. Shellfish so identified must be kept separate throughout the relaying or depuration process.

(7) Oysters, clams and mussels harvested for human consumption from the waters of Districts 12 and 13 by commercial fishermen, shall be taken only for the purposes of relaying or depuration.

(8) Shellfish produced by a registered aquaculture facility within the state may be relayed at any time. Such shellfish shall be free of disease and parasites so as to pose no threat to the environment. Hatcheries producing shellfish to be planted in state waters shall be inspected by the department for the presence of disease organisms at least once a year and, following such inspection, a permit authorizing planting of specified species for the ensuing year may be issued.

In lieu of the hatchery inspection, at the option of the registrant, inspection of each lot from the hatchery that is to be planted in state waters shall be requested. Request for inspecting each lot shall be made by the registrant at least two working days prior to the transfer. A written permit authorizing the planting shall be obtained before planting the shellfish.

(9) Subsection (d)(8) does not preclude inspections under Section 1006 of the Fish and Game Code.

(e) Shellfish relayed from Districts 12 and 13.

(1) Native shellfish taken from Districts 12 and 13 under an aquaculture lease or agreement for purposes of purification, whether from public or private lands, are subject to a royalty of 0.0125H per pound after taking the shellfish from the relaying or depurating sit. For the purpose of computing the royalty, the charge shall be based on the weight (including shell) of the shellfish after completion of the cleansing process. The royalty is payable within 30 days after close of the calendar month in which it became due. If not paid within 60 days after the close of the month for which it became due, a penalty equal to 10% of the royalty shall be added to it.

(2) Nonnative shellfish relayed from Districts 12 and 13 and relayed for the purposes of purification, are subject to a 0.02H per pound fee after taking them from the relaying or depuration site. The fee is charged to cover administrative costs and is subject to adjustment and penalty as described in subsection (e)(1).

(f) Persons holding an aquaculture lease or agreement and using state water bottoms shall, in addition to the acreage rental fee for use of state water bottoms, be assessed a fee on all shellfish harvested not to exceed the privilege tag as provided in Fish and Game Code Section 15003. The fees shall be subject to the penalty and adjustment as described in subsection (e)(1). These fees shall not apply to the harvesting of shellfish from state or private water bottoms in Districts 12 and 13 for the purposes of cleansing. When water quality in Districts 12 and 13 permits direct use of the shellfish from state water bottoms or native shellfish from private water bottoms, the fee established by Fish and Game Code Section 15003 shall apply.

(g) Agar–bearing plants taken from state waters are subject to the fees of Section 165(a)(2)(E) of this title.

(h) Oysters, clams and mussels harvested from Districts 12 and 13 for commercial purposes must be taken by licensed commercial fishermen. In addition to a commercial fishing license, every fisherman when harvesting shellfish, must have in his possession a current permit issued pursuant to Section 123 of this title. Only those species listed on the permit for harvest from Districts 12 and 13 may be taken.

(i) Improvements of aquaculture leases.

(1) Oyster Cultivation.

(A) Bottom culture: leases must be improved at an average rate of at least two cases of seed–bearing shell (160 pounds of seed–bearing shell) or 30 bushels of shellfish one or more years of age per acre over the allotted acreage per year. Improvements by unattached, single seed (less than one year old) shall consist of planting an average rate of 10,000 single seed per acre per year over the allotted acreage. Term of improvement shall be four years for seed–bearing shell and three years for oysters one or more years of age.

(B) Off–bottom culture: leases must be improved at an average rate of at least one case of seed–bearing shell (80 pounds of seed–bearing shell), or 15 bushels of oysters one or more years of age per acre over the allotted acreage per year. Improvement by unattached single seed (less than one year old) shall consist of planting an average rate of 5,000 single seed per acre per year over the allotted acreage. Term of improvement shall be four years for seed–bearing shell and three years for oysters one or more years of age.

(C) Production requirements: the annual harvest rate shall be an average of 2,000 oysters per acre (over one year of age) over the allotted acreage effective three years after the effective date of the lease. Harvest reports shall be recorded in the form of a receipt in quadruplicate fur-

nished by the department. The triplicate copy shall be delivered to the department on or before the first and sixteenth day of each month.

(2) Miscellaneous Aquatic Species.

(A) A lease of state water bottoms for the cultivation of species other than oysters will include minimum planting and harvesting requirements for the species to be cultivated to insure that water bottoms so encumbered will be used for the purpose intended.

(B) Harvest amounts shall be recorded in the form of a receipt in quadruplicate furnished by the department. The triplicate copy shall be delivered to the department on or before the first and sixteenth day of each month.

(j) As proof of use, holders of aquaculture leases shall submit to the department office designated in the lease agreement, a written declaration under penalty of perjury showing the date, quantity of species and acreage in each planting, also including a map showing acres, amounts and dates planted.

NOTE: Authority cited: Sections 1050, 8500, 15003, 15101, 15200, 15400 and 15408, Fish and Game Code. Reference: Sections 1050, 8500, 15003, 15101 and 15400, Fish and Game Code.

HISTORY

1. New subsection (c)(7) filed 7–14–86; effective thirtieth day thereafter (Register 86, No. 29).
2. Amendment of subsection (d) filed 7–25–88; operative 7–25–88 (Register 88, No. 32).
3. Amendment of subsection (c)(7) filed 4–14–89; operative 5–14–89 (Register 89, No. 16).

§ 238. Sale and Transportation of Aquatic Plants and Animals.

Importation of live aquatic plants and animals is governed by Section 236 of these regulations. Except as provided for by Section 236, aquaculture products may be sold or transported in this state only in accordance with the following general terms and conditions:

(a) All aquaculture products sold or transported under the provisions of this section must have been legally reared or imported by an aquaculturist registered in this state.

(b) The following provisions apply to transactions of aquaculturists involving aquaculture products:

(1) A registered aquaculturist may sell and transport live aquaculture products authorized by that registration to any other aquaculturist authorized to possess the same species.

(2) All shipments of authorized aquaculture products shall be accompanied by a duplicate of a sales invoice or waybill showing the name of the producer, the producer's aquaculture registration number, date of shipment, the species being transported, the weight, volume or count of each species in the shipment, and the name and address of the consignee.

(3) Duplicates of the required sale or shipping documents shall be retained by the producer, and by the shipper, if different from the producer, for a period of one year from the date of sale. The records shall be shown upon written demand by the director of the department. The information contained in these documents is confidential except that such information may be disclosed in accordance with a proper judicial order in cases or actions instituted for enforcement of this section or for prosecution of violations of this section.

(c) A registered aquaculturist may sell and transport live those aquaculture products authorized by that registration to any of the following whose licenses or permits authorize the possession of the same live plants and animals for commercial purposes. Documents as described in Section 238(b)(2) shall accompany each shipment. Aquaculture products may not be stocked in any water of the state, except as provided for in Section 238.5 of these regulations.

(1) Scientific or educational establishments;

(2) Aquarium Dealer Permittees (See Section 227 of these regulations);

(3) Live Freshwater Bait Fish Licensees (See Sections 200 through 200.31 of these regulations);

(4) To any other legal purchaser or possessor for whom possession is legal.

(d) The following provisions apply to the operator of any commercial establishment where aquaculture products are maintained alive for human consumption:

(1) Under no condition shall these aquaculture products be stocked in any waters of this state.

(2) The operator may transport live aquaculture products between aquaculture facilities, retail sales stores, and/or wholesale distribution points. Documents as described in Section 238(b)(2) shall accompany each shipment.

(3) The operator shall retain copies of all sales invoices or waybills received with the products. Such invoices or waybills shall be retained by the operator for a period of at least one year following receipt of the aquaculture products listed thereon, and such invoices or waybills shall be produced upon request of an official of the department.

(4) All aquaculture products, except live shellfish, sold and leaving the premises of the operator shall be killed and accompanied by a sales receipt showing the date of purchase and name of business where purchased or be packaged in accordance with Section 240 of these regulations.

(e) Marking and Tagging Requirements.

(1) Abalone.

(A) All abalone produced by an aquaculturist registered pursuant to Section 15101 of the Fish and Game Code may be possessed, harvested, sold and transported, provided the abalone are identifiable as being cultivated or are packaged in sealed containers as provided for in Section 240 of these regulations.

Such abalone are exempt from the size limits established by Section 8304 of the Fish and Game Code.

(B) Abalone which spend part of their life in marine waters of the state, other than while in an aquaculture facility, must have an identifying mark or tag approved by the Department, or be otherwise identified as a product of aquaculture by a method approved by the Commission. Such identifying mark or method must be approved, or a tag attached, prior to the abalone being placed in waters outside the aquaculture facility. For purposes of this section, the term "aquaculture facility" includes a hatchery, rearing facility, pen, cage or any similar structure or device.

(C) Any person other than a registered aquaculturist processing cultured abalone at the wholesale level must possess a revocable processing permit for cultured abalone, as issued by the department.

(f) Retail Sales of Aquaculture Products at an Aquaculture Facility. All aquaculture products sold at an aquaculture facility shall be dead at the time of sale except for:

(1) Aquaculture products sold under the provisions of Sections 238(c), 238(d)(2), or 238.5 of these regulations. Aquaculture products sold under provisions of Section 238.5 of these regulations may be transported live and stocked as provided for by Section 238.5 of these regulations by retail customers. Documents as described in Section 238(b)(2) shall accompany each shipment, and records as described in Section 238(b)(3) shall be maintained by the aquaculturist and the retail customer.

(2) Striped bass, hybrid striped bass, abalone, steelhead trout and sturgeon sold pursuant to the provisions of Section 240 of these regulations.

(3) Aquaculture produced shellfish purchased at retail and taken from the aquaculture facility by the purchaser need only be accompanied by a sales receipt showing the name and aquaculture registration number of the producer, the item(s) and quantity purchased and the date of purchase. All other shipments of aquaculture products shall be accompanied by a sales invoice or waybill as provided in Section 238(b)(2) of these regulations.

(4) Those freshwater bait fishes that would be legal for sale as live bait by a licensed Live Freshwater Bait Fish Dealer in the same sport fishing district or portion of sport fishing district in which the aquaculture facility is located (see Sections 4.10 through 4.30 and Sections 200.13 through 200.31 for legal live bait fishes).

NOTE: Authority cited: Sections 1050, 6401, 7701, 8040, 15005, 15200, 15202 and 15400, Fish and Game Code. Reference: Sections 17, 1050, 6400–6401, 7701–7708, 8040, 8304, 8371, 8435, 8436, 15005, 15200, 15202 and 15400–15415, Fish and Game Code.

History
1. New subsection (f)(4) filed 10–18–85; effective thirtieth day thereafter (Register 85, No. 42).
2. Amendment filed 7–25–88; operative 7–25–88 (Register 88, No. 32).
3. Amendment filed 7–24–91; operative 8–23–91 (Register 92, No. 8).
4. Amendment filed 2–8–94; operative 3–10–94 (Register 94, No. 6).
5. Amendment of subsection (e)(1)(B) filed 5–1–98; operative 5–31–98 (Register 98, No. 18).

§ 238.5. Stocking of Aquaculture Products.

Upon stocking, aquaculture products are wild and therefore "fish" as defined by Section 45 of the Fish and Game Code, except when stocked into a registered aquaculture facility. No person shall stock aquaculture products in this state except in accordance with the following general terms and conditions:

(a) All aquaculture products stocked under these provisions must be legally reared or possessed by an aquaculturist registered in this state. No person shall stock aquaculture products which are parasitized, diseased or of an unauthorized species.

(b) Live aquaculture products shipped to Inyo or Mono counties must be certified by the department as disease and parasite–free before being stocked in waters in those counties.

(c) A registered aquaculturist producing or possessing rainbow trout (*Oncorhynchus mykiss*), largemouth bass (*Micropterus salmoides*), bluegill (*Lepomis macrochirus*), redear sunfish (*Lepomis microlophus*), Sacramento perch (*Archoplites interruptus*), channel catfish (*Ictalurus punctatus*), blue catfish (*Ictalurus furcatus*) and white catfish (*Ictalurus catus*), may stock these species under the following terms and conditions.

Only publicly owned lakes covered by a cooperative agreement between the department and the lake operator and privately owned reservoirs, lakes and ponds in the following counties or portions thereof may be stocked without a stocking permit: Alameda, Butte, Colusa, Contra Costa, Glenn, Imperial, Kern, except in the Kern River drainage above Democrat Dam; Kings, Lake except in the Eel River drainage; Los Angeles, Merced, Napa, Orange, Riverside, Sacramento, San Benito, San Bernardino, San Diego, San Joaquin, Santa Barbara, Solano, Stanislaus, Sutter, Tehama, Ventura, Yolo, Yuba; those portions of Amador, Calaveras, El Dorado, Mariposa, Nevada, Placer and Tuolumne west of Highway 49; Fresno west of the Sierra and Sequoia National Forest boundaries; Madera west of the Sierra National Forest boundary; and Tulare west of the Sequoia National Forest and Sequoia National Park boundaries.

(d) Except for those species listed in Section 238.5(c) when planted into those specific areas and waters covered in Section 238.5(c), no person shall stock aquatic plants and animals except as follows:

(1) Each stocking of fish shall require a separate Private Stocking Permit (FG 749 (Rev. 5/93), which is incorporated by reference herein) issued by the department. A copy of this permit shall accompany all shipments. However, a copy of the same permit (FG 749 (Rev. 5/93)) may be used for additional consignments of the same species when stocked in the same water or waters, until cancelled by the department. See subsection 699(b) of these regulations for the fee for this permit.

(2) Application for the private stocking permit shall be made to the regional manager of the Fish and Game region in which the fish are to be stocked. An application will be supplied to each applicant upon request.

(3) No person shall stock any species of fish in any water in which the stocking of such fish is contrary to the fisheries management programs of the department for that water or drainage, or in any water from which such fish might escape to other waters where such fish are not already present. All applicants will be advised upon request of the said departmental fisheries management programs.

(4) Permittee shall notify the regional office of the department not less than 10 days in advance of stocking in order to make arrangements for inspection. Such inspection may be waived at the discretion of the department. If, upon inspection, diseased or parasitized fish or fish of unauthorized species are found by the department to be present, they shall be disposed of by the permittee as directed by the department. The department may require that the expense of any inspection made necessary by the provisions of these regulations be borne by the permittee.

(5) A stocking permit may be cancelled or suspended by the department upon conviction of a violation of these regulations by a court of competent jurisdiction. Cancellation or suspension may be appealed to the commission.

(6) A stocking permit is valid only when signed by the applicant.

(e) A registered aquaculturist selling and transporting aquatic plants and animals for the purpose of stocking in this state shall retain copies of documents required by Section 15005(b) of the Fish and Game Code for a period of three years following stocking of the fish. The documents shall be shown upon written demand by the director of the department. The information contained in the documents is confidential except that such information may be disclosed in accordance with a proper judicial order in cases or actions instituted for enforcement of this section or for prosecution of violations of this section.

(f) Except for Inyo, Mono, San Bernardino, Riverside and Imperial counties, mosquitofish (*Gambusia affinis*) may be planted for purposes of mosquito control without obtaining a permit otherwise required by these regulations. In Inyo and Mono counties and in public waters of San Bernardino, Riverside and Imperial counties, mosquitofish may not be planted without the written concurrence of the department.

NOTE: Authority cited: Sections 1050, 2363, 6401, 7701, 7708, 15005, 15200, 15202, 15501 and 15504, Fish and Game Code. Reference: Sections 17, 45, 1050, 6400–6401, 7701–7708, 8371, 8435, 8436, 15005, 15200, 15202 and 15504, Fish and Game Code.

History
1. Amendment of subsection (d) filed 4–18–91; operative 5–18–91 (Register 91, No. 21).
2. Amendment of subsections (c) and (d) filed 7–24–91; operative 8–23–91 (Register 92, No. 8).
3. Amendment of subsection (d)(1) filed 10–7–96; operative 11–6–96 (Register 96, No. 41).
4. Amendment of first paragraph and NOTE filed 1–20–99; operative 2–19–99 (Register 99, No. 4).

§ 238.6. Triploid Grass Carp Stocking.

Pursuant to Section 6450 of the Fish and Game Code, the department may issue permits to stock triploid grass carp.

(a) Purpose for Stocking. This section provides for the introduction of triploid grass carp, solely for the purpose of managing and controlling nuisance submerged aquatic plants. Triploid grass carp may only be stocked in waters approved by the department.

(b) To Whom Issued. Triploid grass carp stocking permits may be issued to a person, organization, or agency, to control or eradicate nuisance submerged aquatic plants, only within those waters under their control.

(1) Triploid grass carp stocking permits are not transferrable to persons, organizations, or agencies other than the permittee, except in the event that ownership of, or legal control over a water body named in the permit is transferred from the permittee to another person, organization, or agency. In this event, the permittee shall notify the department in writing within 10 (ten) days of the transaction. In addition, the permittee shall be responsible for informing the new owner of, or party assuming legal control over that water body, that triploid grass carp have been stocked therein. For the remaining term of the existing permit, said permit shall be transferred to the new owner of, or party assuming legal control over said water body, provided that said party agrees in writing to comply with the terms and conditions specified in this section. After expiration of the existing permit, the party assuming permittee status shall be required to renew the grass carp permit pursuant to subsection 238.6(e)(3)(B).

(2) Grass carp programs approved by the department on or before June 1, 1995 shall be exempt from the provisions of this section. Such programs shall be allowed to continue operations under a Private Stocking Permit (Form FG 749–(revised 5/93)), provided that the permittee: furnishes proof that the site had prior approval under a program approved by the department on or before June 1, 1995.

(c) Limitations.

(1) No permits shall be issued to stock grass carp in any major drainage or water having an open freshwater connection to other waters of the state (e.g., streams, rivers, lakes, or reservoirs).

(2) No permit shall be issued for grass carp introductions within the 100–year flood plain, as defined by the Federal Emergency Management

Agency (FEMA), or local agency responsible for flood control, with the following exceptions:

(A) Grass carp introductions may be permitted within closed basins, including that of the Salton Sea, subject to the conditions stated in subsections (c)(3) and (4), below.

(B) Along the Colorado River and in basins where the 100–year flood plain zones have not been defined, permit approval shall be based upon department evaluations.

(3) For water bodies open to public angling, or those located within residential–area golf courses, triploid grass carp introductions shall be limited to those waters which have been determined by the department to be secure from removal or escape of grass carp.

(4) No permit shall be issued for grass carp introductions into waters inhabited by plants or animals designated as threatened, endangered, or species of special concern.

(5) Only those grass carp which have been reared, held and transported in aquaculture facilities and equipment, inspected and certified by the department as being free of diseases and parasites may be stocked under the provisions of this section. In addition, the department shall:

(A) restrict grass carp introductions to those grass carp that have been rendered sterile immediately after the eggs have been fertilized,

(B) require individual fish to be checked to ensure that a third, triploid, set of chromosomes has been retained, preventing further reproduction by the individual fish,

(C) limit aquatic plant pest control programs using grass carp to the use of sterile triploid grass carp with documented certification of triploidy to ensure sterility, and

(D) inspect prospective grass carp aquaculture rearing facilities, holding facilities and transporters, to certify that they are free of diseases and parasites, and that they are secure from the escape of grass carp.

(6) Each triploid grass carp shall be implanted with serially–numbered tags provided or approved by the department.

(7) The department may limit the number and minimum size of triploid grass carp to be stocked in any proposed water. The number of triploid grass carp stocked may not exceed that specified on the permit, unless the permittee has obtained a department approved amendment to said permit.

(8) Security measures acceptable to the department shall be in place before triploid grass carp may be introduced into permitted waters. Such devices may include, but are not limited to, the following: fenced enclosures, locked gates, controlled access, and bird netting.

(9) Wherever barriers or screens are required to contain triploid grass carp within a proposed stocking site, the design for such structures must be approved by the department, and said structures shall be installed by the applicant prior to issuance of the Triploid Grass Carp Stocking Permit.

(10) Prior to stocking, permittee shall post prominent notices at each stocking site declaring the penalties for unauthorized removal of triploid grass carp.

(11) The permittee shall not place triploid grass carp in waters other than those specified in the permit.

(d) Permits.

(1) The term of the permit shall be one calendar year or remaining portion of the year.

(2) An amendment to change permit conditions may be issued by the department at any time during the term of the permit upon written request by the permittee, provided that such changes are consistent with the provisions of this section.

(3) The permittee shall retain a copy of the triploid grass carp stocking permit while grass carp are present in the permitted water. Said permit shall be available for presentation on request of any department employee.

(4) The department shall deny an application to stock triploid grass carp in any water body, if such proposed stocking is inconsistent with the provisions of this section.

(e) Application procedure. Applications shall be submitted on a form (Application for Triploid Grass Carp Stocking Permit for Aquatic Plant Management, FG 749–TGC (12/96), which is incorporated by reference herein) supplied by the department and may be filed with the department at any time. All applications shall be sent to the address indicated on the form and shall be submitted with appropriate application and inspection fees (see subsection (b)(3) below).

(1) Application Requirements. The applicant shall provide the following information, when requesting said permit, as well as when renewing an existing permit:

(A) Name, address, and affiliation of applicant.

(B) Location of the proposed stocking site.

(C) Number and type of water bodies to be stocked, and their sizes, in acres, or in square feet for waters less than one acre.

(D) Source of water supply and locations of water outlets, if applicable.

(E) A description of aquatic plant management problems, including but not limited to:

1. Type(s) of aquatic vegetation present, relative abundance of each, expressed as percentage of surface coverage, at the peak of the growing season.

2. Desired vegetation quantity or coverage.

(F) Number of triploid grass carp requested.

(G) Existing water quality data for the proposed water, if any.

(2) Inspection.

(A) Initial Inspection of Proposed Waters. All waters proposed for triploid grass carp stocking shall be subject to inspection by the department, to verify stocking is consistent with the provisions and limitations of this section, and to determine the number of triploid grass carp to stock.

(B) Periodic Follow–Up Inspections. All waters stocked with triploid grass carp shall be subject to inspection by department employees.

(3) Fees. The application and inspection fees shall be paid to the department at the time the Triploid Grass Carp Stocking Permit application is filed.

(A) Pursuant to Section 6454 of the Fish and Game Code, the department shall charge the following fees to defray costs incurred in the initiation and implementation of the Triploid Grass Carp Program:

1. Stocking fee: $15.00/fish, and

2. Annual renewal fee: $7.50/fish

NOTE: The stocking fee will be assessed upon initial stocking and at any subsequent time that additional fish are added. Renewal fees are based on the number of fish remaining in the pond. The renewal fee is based on the presumption that no fish have been removed from the pond unless the permittee can provide proof acceptable to the department that fish have died or have been removed from the pond.

(B) All permits expire on December 31. Permits must be renewed by March 1 of the following year. If permit renewal fees are not received by the department on or before March 1, the department may eradicate all grass carp present in ponds for which permits have lapsed.

(f) Annual Reports.

(1) On or before March 1 of each year following the first year after triploid grass carp have been stocked, all permittees shall submit to the department a report documenting the progress of the aquatic vegetation control program in the permitted water. This report shall be submitted on a form furnished by the department (Triploid Grass Carp Stocking Permit Annual Report Form (FG 749–Rep (12/96)), which is incorporated by reference herein.

(2) Pursuant to Fish and Game Code subsection 6453(b), the permittee shall continue to submit annual reports until five years after the use of grass carp to control aquatic plant pests is terminated, unless acceptable evidence is provided to the department that all grass carp have been removed from the water.

(3) Permit amendments to stock triploid grass carp in excess of the number specified in the original permit shall be denied if the permittee fails to submit such reports.

(g) No live triploid grass carp shall leave the permittee's waters without advance approval in writing from the department.

(h) Permit Revocation.

(1) The department may revoke a Triploid Grass Carp Stocking Permit at any time upon its determination that the permittee has not complied with the terms and conditions of the permit, or if grass carp are used in any manner that is inconsistent with the provisions of this section.

(2) Upon revocation of the permit, all grass carp possessed under the privileges of the permit may be seized by the department for disposition deemed appropriate by the department.

NOTE: Authority cited: Sections 6450, 6454 and 6459, Fish and Game Code. Reference: Sections 6450–6460, Fish and Game Code.

HISTORY

1. New section filed 5–5–97; operative 6–4–97 (Register 97, No. 19).
2. Amendment of section and NOTE filed 4–24–2001; operative 5–24–2001 (Register 2001, No. 17).

§ 240. Transportation, Possession and Sale of Sturgeon, Striped Bass, Hybrid Striped Bass (Striped Bass Crossed with White Bass), Abalone and Steelhead Trout Produced or Imported by Registered Aquaculturists for Aquaculture Purposes.

All sturgeon, striped bass, hybrid striped bass, abalone and steelhead trout produced or imported by registered aquaculturists for aquaculture purposes shall be transported, possessed and sold as provided in this section. For purposes of these regulations, aquaculture products are products of aquaculture as defined by Section 17 of the Fish and Game Code.

(a) Such aquaculture products must be accompanied by a duplicate of a sales invoice or waybill, showing the name and address of the producer, the producer's aquaculture registration number, date of shipment, the species being transported, the weight, volume, or count of each species in the shipment, the name and address of the intended receiver and tag number if subject tag is required.

(b) The consignee shall retain a copy of the bill of lading or similar accountable document for one year and make it available to the department upon request.

(c) Live aquaculture products are not subject to the provisions of subsections (c), (d) and (e). All dead aquaculture products or parts thereof, except hybrid striped bass sold whole or in the round with the head attached, transported or sold within the state pursuant to this section shall be either:

(1) Packaged in sealed containers or boxes. Each container or box shall be clearly labeled showing a description of the contents and an identification of the shipper; or

(2) Tagged with consecutively numbered cinch–up vinyl plastic spaghetti tags with a legend showing the name of the shipper along with the city and state of origin. The tag sequence shall be present on all invoices and waybills. Reusable tags may not be possessed in the State of California. When tags are removed from the aquaculture products they must be destroyed by cutting through that portion of the tag which contains the name of the shipper and the tag number; or

(3) Clearly marked, using liquid nitrogen and a metal band, with an "A," 1/2–inch square, posterior to the head, anterior to the dorsal fin and above the lateral line. All aquaculture products shall be marked when alive but may be killed prior to transport or sale.

(d) No such dead aquaculture products may be possessed at a place where aquaculture products are sold unless packaged, marked or tagged in the manner described in subsection (c) except that operators or employees of retail stores, restaurants or other eating establishments may remove portions from packaged, marked or tagged aquaculture products when such portions are being displayed or prepared for actual sale to a consumer or for actual consumption on the premises.

(e) Aquaculture products tagged, marked and/or packaged under subsection (c) above may be processed and repackaged or retagged by dealers possessing a revocable processing permit issued by the Wildlife Protection Division of the department specifically for striped bass, hybrid striped bass, sturgeon, abalone and steelhead trout. The permit shall be issued free of charge on a calendar year basis, or part thereof. When transported for sale such aquaculture products or portions of aquaculture products shall meet the transportation requirements of subsections (a) and (b).

(f) Live aquaculture products may not be imported except in accordance with Section 236, Title 14, California Administrative Code.

(g) Live hybrid striped bass may not be imported or possessed by registered aquaculturists except under the terms of a permit issued by the department, specifying conditions under which these aquaculture products may be reared and transported. Requests for permits shall be submitted to the Department of Fish and Game Aquaculture Development Section, 1416 Ninth Street, Sacramento, California 95814.

(h) Live hybrid striped bass shall only be possessed or sold in Imperial, Los Angeles, Orange, Riverside, San Bernardino, San Diego, San Luis Obispo, Santa Barbara, Ventura, Lassen and Modoc counties.

(i) All aquaculture products held live for retail sale shall be killed at the time of sale and be dead before leaving the retailer's premises, and under no condition may these aquaculture products be stocked in any lake, pond or stream.

NOTE: Authority cited: Sections 1050, 7701, 7708, 15005, 15102, 15200, 15202 and 15600, Fish and Game Code. Reference: Sections 1050, 2348, 7700–7703, 8371, 8431 and 15505, Fish and Game Code.

HISTORY

1. Amendment filed 3–25–87; effective thirtieth day thereafter (Register 87, No. 13).
2. Amendment of section heading, first paragraph, and subsection (e) filed 7–24–91; operative 8–23–91 (Register 92, No. 8).

§ 241. Importation of Salmonid Produced in Idaho.

No live wild or cultured fish of the family *Salmonidae* (trout, salmon and chars) produced in the State of Idaho, nor their live eggs, nor live fish hatched from their eggs may be imported into California.

NOTE: Authority cited: Section 15510, Fish and Game Code. Reference: Sections 15500 and 15510, Fish and Game Code.

HISTORY

1. New section filed 11–8–83 as an emergency; effective upon filing (Register 83, No. 47). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 3–8–84.
2. Certificate of Compliance transmitted to OAL 2–7–84 and filed 3–8–84 (Register 84, No. 10).

§ 243. Take of Aquatic Plants, Invertebrates, Fishes and Bullfrogs from the Wild for Use as Broodstock for Aquaculture Purposes.

Pursuant to the provisions of sections 5503 and 15300 of the Fish and Game Code, aquatic plants, invertebrates, fishes and bullfrogs (Rana catesbeiana) may be taken from the wild for aquaculture purposes only in accordance with the following regulations:

(a) This section does not apply to the following:

(1) The take of live freshwater fish for sale as bait (see sections 8460–8463 of the Fish and Game Code and sections 200–200.31 of title 14, CAC).

(2) The take of aquatic animals by commercial fishermen (see section 226.7, title 14, CAC).

(3) The take of anadromous fish under restrictions applied to ocean ranching (see sections 15900–15908 of the Fish and Game Code and section 235.2, title 14, CAC).

(b) The department may issue a revocable, nontransferable permit to collect aquatic plants, invertebrates, fishes and bullfrogs from the wild for use in developing a domesticated broodstock for aquaculture purposes. Permits shall not be issued for striped bass or white sturgeon except by specific commission authorization. No permits shall be issued for golden trout, steelhead trout, chinook salmon or coho salmon, or for those animals listed by the state or federal government as endangered, threatened or fully protected. Permits shall state the name of permittee, permittee's aquaculture registration number, name of the collector(s) if different from permittee, species to be collected, number or total weight to be collected, collection locations and methods, period for which the permit is valid and any special collection requirements.

(1) Who May Obtain Permits. Permits shall be issued only to the owner or operator of an aquaculture facility currently registered according to section 15101 of the Fish and Game Code and section 235 of title 14, CAC. The aquaculturist must be authorized by said registration to pos-

sess the species to be taken. The aquaculturist may designate, on the permit application, a person to collect for him.

(2) Cost of the Permit. An administrative fee of $50 shall be charged for processing the permit. The department shall assess an additional fee, equal to the actual costs to the department in salaries, travel expenses and equipment use, if any department personnel are required to assist in the collection or inspection of the wild broodstock.

The department may waive any portion of the fees, except the $50 administrative fee, if the permittee agrees to restock into the wild a portion of the cultured progeny of wild broodstock. Fees waived may not be in excess of the current wholesale market value of the progeny stocked. The number of progeny and place to be stocked may be negotiated by the department and the permittee.

(3) How to Apply for the Permit. Application for the permit shall be made on forms provided by the department. Application forms are available on request from the Aquaculture Development Section, Department of Fish and Game, 1416 Ninth Street, Sacramento, CA 95814.

Completed and signed application forms and the $25 administrative fee shall be submitted to the Department of Fish and Game, Aquaculture Development Section, 1416 Ninth Street, Sacramento, CA 95814.

(c) Who May Collect Wild Broodstock. Wild broodstock shall be collected only by those persons listed on the permit. At least one of the persons designated by the permit shall be present when animals are collected. Collectors shall have the collection permit in their possession while engaged in collection activities and while transporting species collected to the permittee's registered facility. Persons assisting the collector, and under their direct supervision, need not have a broodstock collection permit.

The department may require that an employee of the department be present to monitor collection operations, or that the broodstock be collected by department personnel. All costs to the department for monitoring or collecting shall be borne by the permittee. Any special conditions applied to the collection of wild broodstock shall be stated on the permit.

(d) Collection Methods and Gear. All aquatic plants and animals authorized to be taken by the permit shall be captured only in those waters and only with those types of gear specified in the permit. All species other than those specified in the permit shall be returned immediately in good condition to the water of origin.

The permittee shall comply with department requirements concerning construction and deployment of collection gear. Locations and times of collecting and the amount taken may be restricted by the department to protect the wild populations of authorized species or other species found in the collecting area, or to reduce interference with angling.

(e) Notification of Department. Before making any collection, the permittee shall notify the department's regional office having responsibility for the area where the permittee wishes to collect. Such notification shall reach the regional office by letter, telephone or personal contact at least 48 hours in advance of the collection date(s) and shall include the locality, dates and time(s) during which collecting is to be done.

(f) Written Reports. Permittee shall submit a written report within six months of the permit's expiration date or prior to application for any additional broodstock collection permits, whichever is earlier. The report shall state the number of plants or animals collected, the location and condition of the wild broodstock and the number or amount of progeny cultured.

(g) Disposition of Wild Broodstock and Their Cultured Progeny. Wild plants and animals taken under the authority of this permit remain the property of the state and shall not be sold, bartered or traded without written permission of the department. Wild broodstock shall be held only at an aquaculture facility registered by the permittee. The department may require that animals obtained under this permit be returned alive and in good condition to the water where taken or donated to a charitable organization approved by the department.

The cultured progeny of plants and animals lawfully obtained under the authority of a broodstock collection permit are the exclusive property of that person who cultured them, or that person's successor in interest.

(h) Permittees shall allow authorized department employees to inspect any and all wild broodstock authorized by this permit and their holding facilities. Inspections may be made during normal working hours or with prior notification, if some other time is agreeable to both parties.

(i) Permit Denial or Revocation. The department may deny or revoke a permit to take wild plants and animals for use in developing a domesticated broodstock for the following reasons:

(1) To protect an aquatic resource.

(2) To protect public safety.

(3) A commercial source is available.

(4) The applicant does not have facilities or experience necessary to develop a domesticated broodstock from wild plants or animals.

(5) The applicant or permittee has demonstrated repeated failure to develop a domesticated broodstock from wild plants or animals.

(6) The applicant or permittee, his designated collector or an employee or assistant has violated the terms of a permit issued for the collection of wild broodstock, or has been convicted by a court of competent jurisdiction of any violation of the Fish and Game Code or commission regulations pertaining to activities covered by this permit.

Denial or revocation may be appealed to the commission.

NOTE: Authority cited: Sections 1050, 1907, 5503, 15001 and 15300, Fish and Game Code. Reference: Sections 2000, 2052, 2273, 5503, 8430, 8433, 8435, 8436, 8460 and 15004, Fish and Game Code.

HISTORY

1. New section filed 7–8–85; effective thirtieth day thereafter (Register 85, No. 30).
2. Amendment of subsection (b) filed 4–18–91; operative 5–18–9–1 (Register 91, No. 21).

§ 245. Aquaculture Disease Control Regulations.

(a) General Conditions.

(1) All fish inspections and disease examinations shall be conducted in accordance with the 1979 edition of "Procedures for Detection and Identification of Certain Fish Pathogens" published by the Fish Health Section of the American Fisheries Society (FHS Blue Book). All such inspections and examinations shall be conducted by a fish pathologist.

(2) When a listed disease is identified by a fish pathologist in aquatic plants or animals in an aquaculture facility or in transit to or from such a facility which requires restrictive action by the department, the owner or consignee involved shall be notified by the department immediately. The owner or consignee may accept the original identification or may request that the department seek confirmation of the identification by another fish pathologist.

(3) Upon confirmation, if requested, or acceptance of the identification of any listed disease which requires restrictive action by the department as set forth in subsection (c), a compliance agreement describing the action to be taken may be drawn up between the owner and the director. The department shall commence negotiation of the terms of the compliance agreement within 48 hours after acceptance or confirmation as defined in subsection (b). The agreement must be signed by the owner and the director within 30 days of acceptance or confirmation. If the compliance agreement is not signed within 30 days, a quarantine as specified in Fish and Game Code Section 15505 may be imposed while the owner appeals to the commission. The agreement shall be designed in consultation with the Aquaculture Disease Committee to bring the least amount of economic hardship possible to the affected party while affording maximum protection to other growers and the fishery resources of the State.

(4) If at any time a fish pathologist identifies one or more pathogens listed in this section anywhere within the State of California, he must immediately report the identification to the director of the department.

(5) Methods for disposal of aquatic plants and animals and for disinfection of aquaculture equipment and facilities shall be specified in the compliance agreement in accordance with the disease category and the threat to other aquatic plant or animal life or aquaculture facilities.

(6) Any live aquatic plants, animals or eggs originating outside the United States shall be certified by a fish pathologist as disease– and parasite–free before a permit for importation is issued.

(7) Anyone interested in conducting research on those diseases designated as catastrophic must submit a written research proposal to the director of the department and obtain written approval from the director before the causative agent is brought to their facility. Anyone denied

approval pursuant to this subsection may appeal such denial to the commission.

(8) Upon identification of a disease which presents a threat to the aquaculture industry or aquatic animal or plant life, but which is not listed in this section, the director of the department shall immediately consult, by phone if necessary, with the Aquaculture Disease Committee, impose an immediate holding action and develop a plan of action.

(b) Definitions.

(1) Compliance Agreement. A written agreement between the director of the department and the owner or consignee of the diseased or parasitized aquaculture product which outlines the steps for disposal of the diseased or parasitized aquatic plants or animals and the procedures, both chemical and mechanical, for clean up of the facility.

(2) Confirmation. The second identification of a disease agent from the original sample or source by another fish pathologist.

(3) Disposal. The destruction or marketing of animals by methods prescribed in a compliance agreement.

(4) Eradication. The elimination of disease-causing agents.

(5) Fish Pathologist. A department virologist or fish pathologist, or a fish pathologist certified by the Board of Certification of the Fish Health Section of the American Fisheries Society pursuant to their guidelines adopted effective January 1, 1982.

(6) Immediate Holding Action. A prohibition of moving any plant or animal from an aquaculture facility for up to 30 days.

(7) Other Holding Action. Restrictions outlined in the compliance agreement on plant or animal movement to specific markets, watersheds or geographic areas deemed necessary by the department to protect other aquaculture facilities and the aquatic plants and animals of the State.

(8) Q Diseases. Diseases for which there is so little information they cannot be given a permanent classification.

(c) Disease Categories. The diseases of concern are grouped in four categories as to their seriousness and the specific action to be taken when diagnosed.

(1) Significant Diseases. On identification by a fish pathologist and confirmation, if requested, of any of these diseases, the director shall immediately consult, by phone if necessary, with the Aquaculture Disease Committee and shall impose an immediate holding action, other holding action or no restrictions as the director in consultation with the Aquaculture Disease Committee may deem necessary.

(A) Furunculosis (*Aeromonas salmonicida*).

(B) Enteric Redmouth (ERM) (*Yersinia ruckeri*).

(C) Vibriosis (*Vibrio sp.*).

(D) Copepod (*Genera Lernaea, Salmincola*, and *Ergasilus*).

(E) Golden Shiner Virus.

(F) Oyster Fungus Disease (*Labyrinthomyxa marina*).

(G) MSX Oyster Disease (*Minchinia nelsoni*).

(H) Ichthyophonus (*Ichthyophonus hoferi*).

(I) South African sabellid polychaete worm (unnamed parasitic species).

(2) Serious Diseases. On identification by a fish pathologist of any of these diseases, the director shall immediately consult, by phone if necessary, with the Aquaculture Disease Committee and shall impose an immediate holding action until confirmation, if requested, is obtained; then the action will be disposal or other holding action the director in consultation with the Aquaculture Disease Committee may deem necessary, as specified in the compliance agreement.

(A) Infectious Hematopoietic Necrosis (IHN).

(B) Ceratomyxosis (*Ceratomyxa shasta*).

(C) Bacterial Kidney Disease (*Renibacterium salmoninarum*).

(D) *Pleistophora ovariae.*

(E) Proliferative Kidney Disease (PKD).

(F) SSO (*Minchinia costalis*).

(G) Microcell disease of oysters.

(H) Whirling Disease (*Myxosoma cerebralis*).

(3) Catastrophic Diseases. On identification by a fish pathologist of any of these diseases, the director shall immediately consult, by phone if necessary, with the Aquaculture Disease Committee and shall impose an immediate holding action until confirmation, if requested, is obtained; then other holding action, disposal and eradication shall be required, as specified in the compliance agreement.

(A) Viral Hemorrhagic Septicemia (VHS), Egtved Virus.

(B) Infectious Pancreatic Necrosis (IPN).

(C) Channel Catfish Virus Disease (CCVD).

(4) Q Diseases. On identification by a fish pathologist and confirmation, if requested, of any of these diseases, the director shall immediately consult, by phone if necessary, with the Aquaculture Disease Committee and shall impose an immediate holding action pending determination of a course of action for diseases in this classification.

(A) Viral Erythrocytic Necrosis (VEN).

(B) *Herpesvirus salmonis* (HPV).

(C) Spring Viremia of Carp (*Rhabdovirus carpio*).

(D) *Edwardsiella ictaluri.*

(E) Denman Island Disease of Oysters.

(d) Aquatic Diseases and Host Organisms. Pursuant to Section 15500 of the Fish and Game Code, the commission has compiled a list of diseases and parasites and the aquatic plants and animals they are known to infect or parasitize. Infected plants or animals are considered detrimental to the aquaculture industry and to wild stocks of aquatic plants and animals.

Disease	*Host*
1. Viral Hemorrhagic Septicemia (VHS)	Rainbow trout
2. Infectious Pancreatic Necrosis (IPN)	Salmonids
3. Channel Catfish Virus (CCVD)	Channel catfish
4. Whirling Disease—*Myxosoma cerebralis*	Salmonids, tubifex
5. Infectious Hematopoietic Necrosis (IHN)	Salmonids
6. Ceratomyxosis—*Ceratomyxa shasta*	Salmonids
7. Bacterial Kidney Disease—*Renibacterium salmoninarum*	Salmonids
8. *Pleistophora ovariae*	Golden shiner, fathead minnow
9. Proliferative Kidney Disease (PKD)	Salmonids
10. SSO—*Minchinia costalis*	Oyster
11. Microcell Disease of Oysters	Oyster
12. Furunculosis—*Aeromonas salmonicida*	All fin fish
13. Enteric Redmouth (ERM)—*Yersinia ruckeri*	Salmonids
14. Vibriosis—*Vibrio* sp.	All fin fish
15. Copepod (Genera: *Lernaea, Salmincola,* and *Ergasilus*)	Freshwater fin fish
16. Golden Shiner Virus	Golden Shiner
17. Oyster Fungus Disease—*Labyrinthomyxa marina*	Oysters
18. MSX Oyster Disease—*Minchinia nelsoni*	Oysters
19. Ichthyophonus—*Ichthyophonus hoferi*	All fin fish
20. Viral Erythrocytic Necrosis (VEN)	Marine and anadromous fin fish
21. *Herpesvirus salmonis* (HPV)	Rainbow trout
22. Spring Viremia of Carp—*Rhabdovirus carpio*	Carp
23. *Edwardsiella ictaluri*	Channel catfish
24. Denman Island Disease of Oysters	Pacific oyster
25. South African sabellid polychaete worm (unnamed parasitic species)	Marine Gastropods

HISTORY

1. Amendment of subsection (d)(7); deletion of subsection (c)(3)(D); and addition of subsection (c)(2)(H) filed 9-29-86, operative 10-29-86 making the following changes:
Subsection (c)(3)(D): Deleted "Whirling Disease (*Myxosoma cerebralis*).";
Subsection (c)(2)(H): Added "Whirling Disease (*Myxosoma cerebralis*).";
Subsection (d)(7): Substituted "B" for "P" in "Bacterial" after "7."; (Register 86, No. 43).
2. New subsection (c)(1)(I) and amendment of subsection (d) adding item 25 filed 7-28-99; operative 8-27-99 (Register 99, No. 31).
3. Editorial correction moving HISTORIES related to Appendix A to follow Appendix A and renumbering HISTORIES (Register 2006, No. 20).

KELP HARVESTER'S MONTHLY REPORT

This report is made in accordance with provisions establish in Chapter 6, Articles 1-3, Sections 6650-6711, Fish and Game Code, and CA Code of Regulations, Title 14, Sections 165-165.5. The purpose of which is to report the number of tons of wet aquatic plants harvested during the month.

HARVESTERS LICENSE NUMBER: _____
NAME: _____
ADDRESS: _____

REPORT PERIOD _____ _____
Month Year

Kelp Bed #	Total Tons harvested	Rate Per Ton (1) (2)	Total Amt. Due	Balance of Advanced Deposit (3)	Net Amt. Due
		TOTALS			

INSTRUCTIONS READ CAREFULLY

A.) Prepare a detail sheet (as attached) for each vessel or harvest operation. Show totals of detail sheet in second column of this report.

B.) A report must be filed each month. If no plants were harvested, please indicate and return report.

C.) Make checks payable to Dept. of Fish and Game.

D.) Prepare this report in triplicate. Forward the original and one copy plus payment to: CA Dept. of Fish and Game, 1416 Ninth Street, Sacramento, CA 95814.

E.) Retain one copy for your files

(1) $1.71 per wet ton, open beds.
(2) Leased Beds enter contract rate per ton.
(3) Enter the amount to be deducted from the advance deposit on each leased bed. Leave this col. blank for open. If balance of advance deposit is less than "amount due" show the difference in "Net Amount Due" column.

Certificate: I hereby certify that I have examined this report and the above statements are made in good faith and the figures shown herein are to the best of my knowledge and belief a true and correct record of kelp harvested during the month for which this report is rendered.

MARKET SQUID VESSEL LOGBOOK

NOTICE TO INDIVIDUALS

(A) This information is being requested by:

THE STATE OF CALIFORNIA,
Department of Fish and Game, Marine Region

(B) The official responsible for maintaining this information is:

Regional Manager, Marine Region
4665 Lampson Avenue, Suite C, Los Alamitos, CA 90720

(C) Any person who owns and/or operates any vessel used to take squid shall complete and submit an accurate record of his/her squid fishing activities on forms provided by the Department. The authority to collect this information is granted pursuant to Fish and Game Code Sections 7923 and 8026, and California Code of Regulations, Title 14, Sections 149 and 190.

(D) It is mandatory to furnish all the information requested by the Department.

(E) The law authorizes penalties and permit/license suspension or revocation for failing to provide this information as stated in Fish and Game Code Sections 8026 and 12002.

(F) Fisheries research and management are the principal purposes for which this information is to be used.

(G) Information from this form may be given to a person, or to another agency where the transfer is necessary for the transferee agency to perform its constitutional or statutory duties, and the use is compatible with a purpose for which the information was collected..., and to a government entity when required by state or federal law (Civil Code Section 1798.24, subdivisions e and f). Currently a Memorandum of Understanding exists with the National Oceanic and Atmospheric Administration, National Marine Fisheries Service, Southwest Region.

(H) An individual has a right of access to records containing their personal information maintained by the Department. Records may be accessed by contacting the official listed in Section (B).

IMPORTANT INSTRUCTIONS

General

1. A special paper has been used in this logbook which provides a duplicate without the use of carbon paper. The folded flap must be inserted between sets of pages to prevent writing from duplicating on other pages. **DO NOT** allow the book to get wet.
2. Return completed copies to the Department on or before the 10th of the following month (1933 Cliff Drive, Suite 9, Santa Barbara, CA 93109). Voided logs must also be submitted. Notification is not needed for months not fished.
3. Additional logbooks and envelopes may be obtained through the Santa Barbara field office.
4. The duplicate copy is the property of the permittee and should remain in the book as a permanent fishing record.

Specific

Summary Page

1. Complete the Market Squid Vessel Summary Page during the first fishing trip of the year.
2. Any changes to information on the summary page need to be made when starting a new logbook. Please indicate if this is the first summary of the year or changes to a previous summary.

Definitions

Attracting light used: Type (i.e., sodium, incandescent), wattage, and number for each type of light.
Vessel characteristics: Boat length and gross tonnage of the vessel. Horsepower of both main and auxiliary engines.
Net Characteristics: Circle the type of net used. Write the net length and depth in fathoms, and the stretched mesh size in inches.
Electronics used: Circle the appropriate response.
Fish hold's water system: Brine = sea water added to hold in addition to what was pumped in with the squid, RSW = refrigerated sea water, Dry = no additional water added, CSW (live) = recirculating sea water, or other, please specify type.

Log

1. One line per set.
2. A single log page can be used for multiple trips. If you run out of lines, simply continue the trip on the next log page.
3. The log should be filled out prior to returning to port. Landing receipt number(s) can be filled out later.
4. Start a new page each month.

Definitions

Date: Date of set.
Set Number: Each set should be numbered consecutively for the trip. Begin with set one on the next trip. Sets where no squid were caught need to be included and noted in the comments section why no squid were caught.
Set Time: Begin - when the net is first deployed. End - when the net is pursed and you begin to bring in the excess net. Use a 24-hour clock. Example: 1:30 AM is 0130, 5:00 PM is 1700
Set Position: The position when you begin to set the net. Use latitude and longitude with decimal minutes to the hundredths place. Example: 34° 05.15' N, 120° 04.85' W.
SST (°F): Sea surface temperature at the beginning of the set.
Bottom depth (in fathoms): Depth at the beginning of the set.
Name of light boat used, if any?: Name of light boat that attracted squid for you.
Did you use your own lights? Y/N: "Yes" if you used your own lights to attract squid and "No" if you did not for the set.
Catch Estimate (Tons): Estimate the catch for each set in tons.
Was your catch limited by a market order?: "Yes" if your catch was limited by a market order and "No" if it was not.
Bycatch: Primary species common name and amount in pounds.
Landing Receipt(s): Landing receipt(s) number for each fishing trip.
Comments: Includes any anecdotal information such as equipment problems, interference from other boats, weather-related problems, squid size and condition, net snagged on bottom, loss of catch or net damage by marine mammals, etc.

MARKET SQUID LIGHT/BRAIL LOGBOOK
IMPORTANT INSTRUCTIONS

General

1. Insert the folded flap between sets of pages to prevent duplicating on other pages.
2. Please return completed (white) copies to the Department **on or before** the **10th** of the following month (20 Lower Ragsdale Dr. Suite 100, Monterey, CA. 93940).
3. Additional logbooks and envelopes may be obtained through the Department of Fish and Game office in Monterey at the above address.
4. The duplicate copy (yellow) is the property of the permittee and should remain in the logbook as a permanent fishing record.
5. Use a blue or black ballpoint pen. DO NOT use pencil or felt marker.
6. Write legibly.

Specific

PROFILE Page

1. Complete the Market Squid Light/Brail Boat Summary Page after reading the instructions.
2. Please indicate if this is your first summary as captain or if there are changes to a previous summary. Check No changes if information is the same.

Definitions:

- **Attracting lights used**: Type (sodium, incandescent, metal halide), individual bulb wattage, and number of total bulbs for each type.
- **Vessel characteristics**: Boat length, gross tonnage and hold capacity (if applicable) of the vessel. Horsepower of both the main and auxiliary (generator) engines.
- **Electronics used**: Circle appropriate response
- **Net type**: If applicable, circle appropriate response
- **Scoop capacity**: Dimensions of scoop, i.e. circumference and depth of bag
- **Crewmembers**: List names and license numbers

BOAT Log

1. Use only one line per day, unless you provided light for more than two seiners or fished in more than one general location. Several fishing days, but no more than seven, may be recorded per page.
2. Fishing activity must be recorded before fishing activity is complete.

Definitions:

- **Date**: Date of fishing activity
- **General location**: Use a landmark or a common name of your fishing location. Example: Cannery Row, Scorpion Anchorage-Santa Cruz Island, Point Dume, Newport Beach. Unspecific locations such as Monterey Bay, Santa Monica Bay, etc. are not acceptable. If location is unknown, use GPS cooridinates.
- **Hours spent searching**: Hours spent metering for squid. This time also includes time spent holding locations for day sets.
- **Hours spent lighting**: Hours spent attempting to attract squid with light.
- **Name of seiner that set squid**: Provide the name of the seiner that set squid on each line. If you lit for more than two seiners, use the next line.
- **Estimated total tons taken by each seiner**: Enter total tons taken by each seiner. Use one line per seiner.
- **Estimated tonnage, if any, remaining after fishing is completed**: Was there any squid left? Enter amount in tons.
- **Your vessel's catch for live bait**: Enter live bait amount in pounds.
- **For Brail Permittees- amount sold to market**: Record amount sold to market and landing receipt number.
- **Were birds present?** Y/N: Enter appropriate response.
- **Were marine mammals present?** Y/N: Enter appropriate response.
- **Comments**: List by date any anecdotal information such as equipment problems, interference from other boats, weather-related problems, day set activity, etc.

FG 2025 (new 11/2005)

HISTORY

1. Amendment of Appendix A — "Daily Lobster Log" filed 9–10–96; operative 10–10–96 (Register 96, No. 37).

2. Repealer of form DFG 122 (within Appendix A) and new form DFG 122 (incorporated by reference) filed 7–13–2005; operative 7–13–2005 pursuant to Government Code section 11343.4 (Register 2005, No. 28).

3. Amendment adding form FG 2025 to Appendix A filed 3–22–2006; operative 4–21–2006 (Register 2006, No. 12).
4. Editorial correction moving HISTORIES related to Appendix A from section 245 to following Appendix A and renumbering HISTORIES (Register 2006, No. 20).
5. New forms DFG 149a and DFG 149b filed 2–13–2007; operative 2–13–2007 pursuant to Government Code section 11343.4 (Register 2007, No. 7).
6. Amendment of appendix adding forms FG 113 and FG 114 filed 8–22–2007; operative 9–21–2007 (Register 2007, No. 34).

Subdivision 2. Game and Furbearers

Chapter 1. General Provisions and Definitions

§ 250. General Prohibition Against Taking Resident Game Birds, Game Mammals and Furbearing Mammals.

Except as otherwise provided in this Title 14, and in the Fish and Game Code, resident game birds, game mammals and furbearing mammals may not be taken at any time.

NOTE: Authority cited: Sections 200, 202, and 203, Fish and Game Code. Reference: Sections 200–203.1, 206, 207, 211–222, 2000, 2001, 3000, 3500, 3950, and 4000, Fish and Game Code.

HISTORY

1. Sections 250, 251, and 801 repealer filed 6–9–59, effective 7–1–59; new Chapter 1 (Sections 250–258) filed 6–9–59; designated effective 7–1–59 (Register 59, No. 9). For history of former Sections 250, 251, and 801, see Register 58, No. 10.
2. Amendment of NOTE filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).

§ 250.5. Shooting Time.

In these orders whenever a specific clock time is mentioned, such time is meant to be legal California time for the date specified: i.e., during the days when California is on Pacific Daylight Saving Time, Pacific Daylight Saving Time is intended; when California is legally on Pacific Standard Time, Pacific Standard Time is intended. When reference is made to sunrise or sunset time, such reference is to the sunrise or sunset time at the location of the hunter.

NOTE: Authority cited: Sections 200, 202, 203, and 3000, Fish and Game Code. Reference: Sections 200–203.1, 206, 207, and 211–222, Fish and Game Code.

HISTORY

1. New NOTE filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).

§ 250.6. Definition of Take.

NOTE: Authority cited: Sections 200, 202, and 203, Fish and Game Code. Reference: Sections 86 and 2000, Fish and Game Code.

HISTORY

1. New section filed 6–4–70; designated effective 7–1–70 (Register 70, No. 23).
2. Repealer filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).

§ 251. Prohibition on Pursuing or Shooting Birds and Mammals from Motor–Driven Air or Land Vehicles, Motorboats, Airboats, Sailboats or Snowmobiles.

(a) General Prohibition: No person shall pursue, drive, herd, or take any bird or mammal from any type of motor–driven air or land vehicles, motorboat, airboat, sailboat, or snowmobile. Additionally, no person shall use any motorized, hot–air, or unpowered aircraft or other device capable of flight or any earth orbiting imaging device to locate or assist in locating big game mammals beginning 48 hours before and continuing until 48 hours after any big game hunting season in the same area. No person shall use at any time or place, without Department approval, any computer, telemetry device or other equipment to locate a big game mammal to which a tracking device is attached. For purposes of this subsection "use" includes but is not limited to personal use or intent by another to obtain information from such personal use. Evidence of an act constituting a violation of this section includes but is not limited to flying slowly at low attitudes, hovering, circling or repeatedly flying over any area where big game may be found. Exceptions to this subsection are:

(1) When the motor of such motorboat, airboat, or sailboat has been shut off and/or the sails furled and its progress therefrom has ceased, and it is drifting, beached, moored, resting at anchor, or is being propelled by paddle, oar or pole.

(2) When used by the landowner or tenant of private property to drive or herd game mammals for the purpose of preventing damage to private property.

(3) Pursuant to a license from the department issued under such regulations as the commission may prescribe (see subsection 251(b) below).

(b) Mobility Disabled Persons Motor Vehicle License

(1) Applications: Applications for a Motor Vehicle Hunting License for mobility disabled persons shall be on a form supplied by the Department (Mobility Impaired Disabled Persons Motor Vehicle Hunting License Application, FG1460–10/95). The application shall include the applicant's name, address, physical description, a description of the qualifying disability, and a certified statement from a licensed physician describing the applicant's permanent disability. It shall be unlawful for any person to falsify an application for a Motor Vehicle Hunting License.

(2) Terms of the License: The Motor Vehicle Hunting License shall specify conditions under which said license shall be used and shall include but not be limited to the following provisions:

(A) The licensee shall be accompanied by an able bodied assistant who shall immediately retrieve, and tag if necessary, all game taken. (Possession of the licensee's tag, required in this subsection, shall not be considered an unlawful possession of a tag or license issued to another person).

(B) The assistant shall not possess a firearm, crossbow or archery equipment unless he/she is a licensed hunter and possesses any necessary license or tag for the area being hunted. The assistant shall not discharge a firearm or release a bolt or an arrow from the vehicle. If licensed, the assistant may dispatch wounded game which has moved out of range of the licensee.

(C) The vehicle must be stopped and the engine must be shut off prior to the licensee discharging firearm or releaseing a bolt from a crossbow or an arrow from archery equipment.

(D) The licensee shall notify the Department, at the regional office having responsibility for the area where the licensee intends to hunt, at least 48 hours prior to hunting or contact the department's 24–hour dispatcher at the number indicated on the license. The licensee shall specify the locality, vehicle description, and the approximate time frame during which such hunt shall take place.

(E) The licensee or assistant shall not pursue any animal or drive or herd animals to any other hunters with a motor vehicle.

(F) This license does not grant permission to trespass on private property or permission to use a motor vehicle while in any area where the use of motor vehicles is restricted or prohibited.

(G) This license does not grant permission to discharge a firearm in any place or manner that would otherwise be unlawful, or to possess a loaded firearm in violation of any other city, county or state law.

(H) The licensee shall have the license in possession while hunting from a motor vehicle.

(3) License Fee: A license fee of $25.00, as adjusted annually pursuant to Section 713 of the Fish and Game Code, shall be charged for processing and issuing the Mobility Impaired Disabled Person Motor Vehicle Hunting License. Licenses shall be issued only by the Director or his/her designee. Licenses shall be permanent and have no expiration date.

PLEASE INDICATE TYPE OF DISABILITY:

- ☐ FULLY CONFINED TO A WHEELCHAIR
- ☐ SINGLE OR DOUBLE AMPUTEE ABOVE THE KNEE, OR DOUBLE AMPUTEE BELOW THE KNEE
- ☐ MUST DEPEND UPON THE AID OF A WALKER, CRUTCHES, ETC., TO WALK

"No person shall pursue, drive, herd, or take any bird or mammal from any type of motor-driven air or land vehicles, motorboat, airboat, sailboat, or snowmobile, except: (c) Pursuant to a permit from the department issued under such regulations as the commission may prescribe." The Department will consider requests to hunt from a motor vehicle based upon the information on this application form.

The permittee, if approved, will be issued a permit which will specify the conditions under which the permittee will be allowed to hunt from a vehicle. The permittee will be required to adhere to the following minimum requirements: (1) The permittee shall be accompanied by an abulatory assistant who shall immediately retrieve, and tag if necessary, all game taken; (2) The assistant shall not possess a weapon unless he/she is a licensed hunter in possession of the appropriate tags for the game being taken; (3) The vehicle must be stopped and the engine must be shut off prior to discharging the weapon; (4) The permittee shall have the permit in possession while in the field and present it upon request to any peace officer.

In the event a license is granted, I hereby agree to abide by all conditions of said license and all laws and regulations of the Fish and Game Code of California and Title 14, California Code of Regulations. I am eligible for indicated license and I am not under revocation or suspension, nor is there a case pending that would restrict me from obtaining a license. I have not made more than one application for a Motor Vehicle Hunting Permit. My signature below is written consent to use this information for the purpose of verifying disability.

I hereby certify that all information contained on this application and/or submitted, meet the requirements for issuance of subject license is correct and true. I understand that, in the event that this information is found to be incorrect or untrue, the license issued will be considered invalid and must be surrendered where purchased and that I will be subject to criminal prosecution. This license or permit may be suspended or revoked by the Fish and Game Commission if you are convicted of, or plead guilty or nolo contendre to, a Fish and Game violation.

APPLICANT'S SIGNATURE_____ DATE_____

SECTION 2. THIS SECTION MUST BE FILLED OUT BY A LICENSED PHYSICIAN

To qualify for this permit, the applicant must be certified by licensed physician as having a permanent physical disability and is nonambulatory or mobility is substantially impaired. "Nonambulatory" means permanently physically reliant on a wheelchair or similar remedial appliance or device for mobility. "Substantially Impaired Mobility" means virtual inability to move on foot due to permanent physical reliance on crutches, canes, prosthetic appliances or similar remedial appliance or device. The qualifying disability must be clearly explained by the physician.

Qualifying Disability: _____

I hereby certify that the information provided above is true and correct to the best of my ability. I also certify that the above described disability is permanent and fully complies with the above described conditions.

NOTE: Authority cited: Sections 200, 202, 203, 355, 3003.5, 3800, and 4150, Fish and Game Code. Reference: Sections 200, 202, 203, 355, 356, 711, 3003.5, 3800, and 4150, Fish and Game Code.

HISTORY

1. Amendment filed 6–15–60; designated effective 7–1–60 (Register 60, No. 14). See history note to Sec. 250.
2. Amendment filed 6–4–70; designated effective 7–1–70 (Register 70, No. 23).
3. Amendment filed 6–5–72; effective thirtieth day thereafter (Register 72, No. 24).
4. New NOTE filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).
5. Amendment of subsection (c) filed 6–22–84 as an emergency; designated effective 7–1–84 (Register 84, No. 28). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 10–29–84.
6. Certificate of Compliance including amendment of NOTE transmitted to OAL 10–22–84 and filed 11–26–84 (Register 84, No. 48).
7. Amendment of subsection (a) and new subsection (b) filed 1–2–91; operative 2–1–91 (Register 91, No. 6).
8. Amendment filed 7–13–94; operative 7–13–94 pursuant to sections 202 and 215, Fish and Game Code (Register 94, No. 28).
9. Amendment of subsections (b)(1), (b)(2)(A)–(C), (b)(3) and form filed 6–26–96; operative 7–1–96 pursuant to section 11343.4(d) (Register 96, No. 26).
10. Amendment of subsection (a) filed 7–7–2004; operative 7–7–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 28).

§ 251.1. Harassment of Animals.

Except as otherwise authorized in these regulations or in the Fish and Game Code, no person shall harass, herd or drive any game or nongame bird or mammal or furbearing mammal. For the purposes of this section, harass is defined as an intentional act which disrupts an animal's normal behavior patterns, which includes, but is not limited to, breeding, feeding or sheltering. This section does not apply to a landowner or tenant who drives or herds birds or mammals for the purpose of preventing damage to private or public property, including aquaculture and agriculture crops.

NOTE: Authority cited: Sections 200, 202, 203, 355, 3800 and 4150, Fish and Game Code. Reference: Sections 200, 202, 203, 203.1, 207, 215, 220, 2000, 3800 and 4150, Fish and Game Code.

HISTORY

1. New section filed 6–4–70; designated effective 7–1–70 (Register 70, No. 23).
2. Amendment filed 5–28–71; designated effective 7–1–71 (Register 71, No. 22).
3. Repealer filed 6–5–72; effective thirtieth day thereafter (Register 72, No. 24).
4. New section filed 11–14–90; operative 11–14–90 pursuant to Government Code section 11346.2(d) (Register 90, No. 50).

§ 251.2. Permits to Pursue, Drive, Herd, or Take Birds and Mammals.

Permits to pursue, drive, herd, or take birds and mammals with or from motorized water, land, or air vehicles may be issued by the department under and subject to the following conditions:

(a) To Whom Issued. Permits may be issued to landowners, tenants, or lessees suffering damage, actual or immediately threatened, to land or property by birds or mammals. Permits may not be issued to any person less than 18 years of age. The privilege granted in a permit entitles only the permittee, members of his family, his employees or contractors to pursue, drive, herd, or take birds and mammals in accordance with the provisions of the permit. No permittee shall allow any person under 16 years of age to take, pursue, drive, or herd birds or mammals under a permit. No permit may be transferred to another person.

(b) Exemption from Permit. Federal or state animal control agencies and their employees or contractors, including other public employees supervised by such agencies, engaged in pursuing, driving, herding or taking birds or mammals in the performance of their regular duties are not required to obtain a permit pursuant to this section. This exemption shall not be effective unless the agencies or their employees or contractors are performing their required duties in accordance with applicable Federal regulations. Agencies taking depredating animals on or over private lands shall do so only through a written landowner agreement. Such agreement shall become valid only upon approval of the department. Federal or state animal control agencies engaged in the foregoing activities shall submit a report to the headquarters office of the Department of Fish and Game each calendar quarter showing the number and species of birds or mammals taken or herded; area where the activity occurred, and such other information the department may require.

(c) Application Requirements. An applicant for a permit shall submit a written request to the department showing his name, address, location and size of the land where damage is occurring, and the names of all individuals and/or State or Federal agencies other than the applicant who may be employed or authorized by the applicant to pursue, drive, herd, or take the birds or mammals which are causing damage, actual or immediately threatened, to land or property; a description of the property, including livestock or other domestic animals being damaged; the species of birds or mammals causing damage; the proposed method of pursuing, driving, herding, or taking the offending animals; the period of time a permit is needed to alleviate damage; and such other information the department may require.

(d) Investigation of Damage. Upon receiving a request for a permit, the department shall investigate the applicant's claim of damage and shall be satisfied that damage has occurred or is immediately threatened before issuing a permit. The department may deny a request for a permit, and the applicant may appeal such decision before the commission.

(e) Permit Limitations. A permit issued pursuant to these regulations shall not authorize the permittee to kill any game bird or game mammal. A permit shall be valid on public lands only if the permittee has permission from the agency controlling the lands to exercise the privileges of the permit on such lands, or if the permittee, by obtaining a permit under these regulations, has fulfilled applicable requirements set forth in Federal laws and regulations.

The department may impose any additional limitation or requirement in a permit as needed to prevent unnecessary harm to any species of wildlife or for public safety reasons.

(f) Reports. The permittee shall submit a report within 15 days following expiration of the permit showing the number of birds or mammals taken under the permit, except that any permittee authorized to use any type of aircraft under such permit shall submit a report to the department each calendar quarter showing the number and species of animals taken.

NOTE: Authority cited: Section 3003.5, Fish and Game Code. Reference: Section 3003.5, Fish and Game Code.

HISTORY

1. New section filed 7–6–72; effective thirtieth day thereafter (Register 72, No. 28).
2. Amendment filed 1–16–74; effective thirtieth day thereafter (Register 74, No. 3).
3. Amendment of subsections (a) and (b) filed 12–9–75 as an emergency; effective upon filing. Certificate of Compliance included (Register 75, No. 50).
4. Amendment of NOTE filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).

§ 251.3. Prohibition Against Feeding Big Game Mammals.

No person shall knowingly feed big game mammals, as defined in Section 350 of these regulations.

NOTE: Authority cited: Sections 200, 202 and 203, Fish and Game Code. Reference: Sections 200, 202, 203, 203.1, 207, 215 and 220, Fish and Game Code.

HISTORY

1. New section filed 6–26–96; operative 7–1–96 pursuant to section 11343.4(d) (Register 96, No. 26).
2. Amendment filed 1–8–2008; operative 2–7–2008 (Register 2008, No. 2).

§ 251.4. Mountain Lion Tagging.

(a) Permits and Tagging Requirements.

Pursuant to Section 4800 of the Fish and Game Code, no person may sell or possess any mountain lion, part or product thereof, unless he/she is in possession of an authorizing permit issued by the department and said mountain lion, part or product thereof, has been tagged by the department. Permits and numbered tags shall be issued from the Wildlife Protection Division, 1416 Ninth Street, Box 944209, Sacramento, Ca 94244–2090 (Telephone No. 916 653–4094) only to persons who can demonstrate that the mountain lion, part or product thereof, was in their possession on or before June 6, 1990.

(b) Prohibition of Removal of Tag.

No person shall remove the tag applied to a lion, part or product thereof, pursuant to this section.

(c) Permit Fee: $5.00.

NOTE: Authority cited: Sections 200 and 3080, Fish and Game Code. Reference: Sections 200 and 4800, Fish and Game Code.

HISTORY

1. New section filed 7–6–72; effective thirtieth day thereafter (Register 72, No. 28).
2. Repealer filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).
3. New section filed 7–8–92; operative 7–8–92 pursuant to Fish and Game Code section 215 (Register 92, No. 28).

§ 251.5. Game Birds, Game Mammals, Furbearers and Nongame Animals, Possession Of.

(a) Migratory game birds may not be held beyond the period provided by the federal regulations and in accordance with the daily bag and possession limits prescribed by these regulations. (See section 500.)

(b) Live mountain lions may be possessed only under terms of a permit issued by the Department pursuant to section 2150 of the Fish and Game Code or if the owner can demonstrate that the mountain lion was in his/her possession on or before June 6, 1990 under a permit issued pursuant to section 3200 of said code.

(c) Every game bird, game mammal, furbearer or nongame animal taken under the authority of a hunting or trapping license and reduced to possession by the hunter or trapper shall be immediately killed and become a part of the daily bag limit.

NOTE: Authority cited: Sections 200, 202, 203, 220, 3005.5, 3800 and 4150, Fish and Game Code. Reference: Sections 200–203.1, 207, 220, 2000, 2001, 3005.5, 3800, 4150 and 4800, Fish and Game Code.

HISTORY

1. Amendment filed 12–11–70; effective thirtieth day thereafter (Register 70, No. 50). For prior history, see Register 70, No. 23.
2. Relettering of subsection (e) to (f) and new subsection (e) filed 6–1–73; designated effective 7–1–73 (Register 73, No. 22).
3. Amendment of subsection (e) filed 6–6–75; designated effective 7–1–75 (Register 75, No. 23).
4. Amendment of subsection (a) filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).
5. Editorial correction of subsection (b) filed 8–26–82 (Register 82, No. 35).
6. Amendment of subsection (b) filed 4–18–91; operative 5–18–91 (Register 91, No. 21).
7. Amendment of subsection (d) filed 7–31–91; operative 8–30–91 (Register 91, No. 48).
8. Amendment of subsection (e) and NOTE filed 1–27–94; operative 1–27–94 pursuant to Fish and Game Code sections 202 and 215 (Register 94, No. 4).
9. Repealer of subsections (f)–(f)(11) filed 8–8–94; operative 9–7–94 (Register 94, No. 32).
10. Repealer of subsections (a) and (b), subsection relettering and amendment of NOTE filed 9–1–2000; operative 9–1–2000 pursuant to Fish and Game Code section 215 (Register 2000, No. 35).

§ 251.6. Tagging of Live Domesticated Big Game Mammals.

(a) Domesticated game breeders or other persons holding domesticated big game mammals including nonnative hoofed big game mammals in captivity shall within 30 days after such mammals are acquired, or born, mark each animal with a seal, ear tag or other marking device supplied by the Department of Fish and Game. Alternate methods of marking big game mammals may be used upon approval by the department.

(b) The requirements of this section shall not apply to public zoological gardens, game breeders holding animals on any island in the Santa Barbara Channel area, and to those animals presently in captivity in such cases where the department determines that the capturing and marking or tagging would create a substantial risk to human safety or to the health and safety of the animals.

(c) The seals shall be numerically identified and issued at a cost of 25 cents (25¢) per seal. The seals shall be issued only from the Sacramento office of the Department of Fish and Game.

NOTE: Authority cited: Sections 1002, 3080, 3081, 3214, and 3217, Fish and Game Code. Reference: Sections 1002, 3080, 3081, 3200–3219, and 3950, Fish and Game Code.

HISTORY

1. New section filed 3–17–71; effective thirtieth day thereafter (Register 71, No. 12).
2. Amendment of NOTE filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).

§ 251.7. Possession, Transportation and Importation of Game Birds.

(a) No person may possess any birds taken in this state in excess of the daily bag and possession limits. The exception to this is for the purpose of transportation, cleaning, storage (including temporary storage), shipment, or taxidermy services, where an individual may possess game birds taken by another hunter provided that they are tagged by the hunter who has lawfully taken them. The tag must contain the hunter's name, address, hunting license number, kinds and numbers of game birds taken, date and location of kill, and signature.

(b) All birds, including migratory game birds, possessed or transported within California must have a fully feathered wing or head attached until placed into a personal abode or commercial preservation facility or being prepared for immediate consumption. Doves must have a fully feathered wing attached.

(c) Migratory game birds imported into California shall be accompanied by a declaration of entry as prescribed in Section 2353 of the Fish and Game Code.

(d) Only one possession limit of migratory game birds may be possessed per individual after the close of the season for that species.

NOTE: Authority cited: Sections 202 and 355, Fish and Game Code. Reference: Sections 202, 355 and 356, Fish and Game Code.

HISTORY

1. New section filed 10–12–95; operative 10–12–95 pursuant to Government Code section 11343.4(d) (Register 95, No. 41).
2. Change without regulatory effect amending subsection (d) filed 10–31–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 44).
3. Amendment of subsections (a) and (b) filed 8–29–2007; operative 9–1–2007 pursuant to Government Code section 11343.4 (Register 2007, No. 35).

§ 251.8. Transportation of Game Birds and Game Mammals off Indian Reservations.

(a) Pursuant to the provisions of sections 3080 and 3081(b) of the Fish and Game Code, game birds and game mammals taken by California Indians on reservations under those circumstances wherein the taking of such animals is excepted from the application of the California Fish and Game Code in accordance with the provisions of section 12300 of the Fish and Game Code may be transported off the reservation and possessed within this state subject to the following conditions:

(1) A permit, in such form as shall be prescribed by the Department of Fish and Game, to transport the carcass of a game bird or mammal or parts thereof off a particular California Indian reservation shall first be obtained from tribal members designated by the tribal council of the reservation. Copies of the permit shall be maintained and distributed by the designated tribal members in accordance with instructions issued by the Department of Fish and Game.

(2) The carcass of each game bird or mammal or parts thereof shall be suitably stamped and/or tagged in such manner as shall be designated by the Department of Fish and Game prior to the transportation off the reservation.

(3) The permit, stamps and/or tags, as prescribed by the Department of Fish and Game, shall be furnished to each tribal reservation without charge. No fee shall be charged for the issuance of the permit or the stamping and/or tagging of the carcass.

(4) The permittee shall retain such permit in his possession and shall maintain the stamp and/or tags on the carcass or parts thereof at all times while transporting or possessing the carcass or parts thereof off his reservation.

[The next page is 109.]

(b) Game birds and game mammals taken on Indian reservations in accordance with applicable provisions of the Fish and Game Code and part 2, division 1, title 14, of the California Code of Regulations, which apply to the remainder of the state may be transported and possessed on such reservations without a permit being issued or the carcasses being stamped or tagged as provided in this section.

NOTE: Authority cited: Sections 200, 202, 203, 3080, 3081, and 12300, Fish and Game Code. Reference: Sections 200–203.1, 206, 207, 211–222, 3080, 3081, and 12300, Fish and Game Code.

HISTORY

1. New section filed 7–3–70; effective thirtieth day thereafter (Register 70, No. 27).
2. Amendment of NOTE filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).
3. Editorial correction of printing error in subsection (b) (Register 91, No. 31).

§ 251.9. Computer Assisted Remote Hunting.

(a) It is unlawful to take or assist in the taking of any bird or mammal in or from this state, by computer–assisted remote hunting.

(b) It is unlawful to establish or operate a computer–assisted remote hunting site for the purpose of taking any bird or mammal from or within this state.

(c) For the purposes of this section, "computer–assisted remote hunting" means the use of a computer or any other remotely controlled device, equipment, software, or technology, to remotely control the aiming or discharge of any weapon, including, but not limited to, any firearm, bow and arrow, spear, harpoon or any other weapon capable of killing or injuring any bird or mammal, for the purposes of taking any bird or mammal.

(d) For the purposes of this section, "computer–assisted remote hunting site" means any computer, internet site or web–based device or system, or other electronically operated site or system used to assist in the remote taking of any bird or mammal.

NOTE: Authority cited: Sections 200, 202 and 203, Fish and Game Code. Reference: Sections 200, 202 and 203, Fish and Game Code.

HISTORY

1. New section filed 11–1–2005; operative 12–1–2005 (Register 2005, No. 44).

§ 252. Bag and Possession Limit Defined.

"Bag and possession limit" means the daily bag limit of each kind of resident and migratory game birds, game mammals and furbearing mammals which may be taken and possessed by any one person unless otherwise authorized.

NOTE: Authority cited: Sections 200, 202, 203, 2001, 3800, and 4150, Fish and Game Code. Reference: Sections 200–203.1, 206, 207, 211–222, 2001, 3800, and 4150, Fish and Game Code.

HISTORY

1. Amendment filed 6–1–73; designated effective 7–1–73 (Register 73, No. 22).
2. New NOTE filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).

§ 253. Big Game Defined. [Repealed]

NOTE: Authority cited: Sections 200, 202, and 203, Fish and Game Code. Reference: Sections 200–203.1, 206, 207, 211–222, 2001, 3800, and 4150, Fish and Game Code.

HISTORY

1. Amendments filed 6–4–70; designated effective 7–1–70 (Register 70, No. 23).
2. Repealer filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).

§ 255. Code Definitions Reaffirmed.

Words defined by sections 8, 9, 10, 11, 18, 22, 29, and 30 through 88 inclusive of the Fish and Game Code have had and shall have the same meaning, definition and scope whenever used in division 1 of title 14, California Code of Regulations, it being the intent of the Fish and Game Commission in adopting the orders, rules, and regulations set forth in said division that the provisions of said sections were and are applicable.

NOTE: Authority cited: Sections 200, 202, 203, 3800, and 4150, Fish and Game Code. Reference: Sections 200–203.1, 206, 207, 211–222, 3800, and 4150, Fish and Game Code.

HISTORY

1. New NOTE filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).
2. Editorial correction of printing error (Register 91, No. 31).

§ 256. Forked Horn and Three Point Bucks Defined.

NOTE: Authority and reference cited: Sections 200–221, inclusive, Fish and Game Code.

HISTORY

1. Amendment filed 6–13–68; designated effective 7–1–68 (Register 68, No. 22).
2. New subsections (c) and (d) filed 5–11–79; designated effective 7–1–79 (Register 79, No. 19).
3. Renumbering and amendment of Section 256 to Section 351 filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).

§ 257. Resident Small Game Defined.

"Resident small game" means the following resident game birds: Chinese spotted doves, Eurasian collared–doves, ringed turtle–doves of the family Columbidae, California quail and varieties thereof, Gambel's or desert quail, mountain quail and varieties thereof, blue grouse and varieties thereof, ruffed grouse, sage grouse (sage hens), white–tailed ptarmigan, Hungarian partridges, red–legged partridges, including the chukar and other varieties, ring–necked pheasants and varieties, and wild turkeys of the order Galliformes; and the following game mammals: jackrabbits and varying hares (genus *Lepus*), cottontail rabbits, brush rabbits, pigmy rabbits (genus *Sylvilagus*), and tree squirrels (genus *Sciurus* and *Tamiasciurus*).

NOTE: Authority cited: Sections 200, 202 and 203, Fish and Game Code. Reference: Sections 200, 202, 203, 207, 3800 and 3950, Fish and Game Code.

HISTORY

1. Amendment filed 6–23–66; designated effective 7–2–66 (Register 66, No. 19).
2. Amendment of NOTE filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).
3. Amendment filed 9–27–84; effective tenth day thereafter (Register 85, No. 39).
4. Amendment of section filed 9–16–91; operative 9–16–91 pursuant to Fish and Game Code section 215 (Register 91, No. 52).
5. Amendment of section and NOTE filed 8–29–2007; operative 9–1–2007 pursuant to Government Code section 11343.4 (Register 2007, No. 35).

§ 257.5. Prohibition Against Taking Resident Game Birds and Mammals by the Aid of Bait.

Except as otherwise provided in these regulations or in the Fish and Game Code, resident game birds and mammals may not be taken within 400 yards of any baited area.

(a) Definition of Baited Area. As used in this regulation, "baited area" shall mean any area where shelled, shucked or unshucked corn, wheat or other grains, salt, or other feed whatsoever capable of luring, attracting, or enticing such birds or mammals is directly or indirectly placed, exposed, deposited, distributed, or scattered, and such area shall remain a baited area for ten days following complete removal of all such corn, wheat or other grains, salt, or other feed.

(b) Exceptions:

(1) The taking of domestically reared and released game birds on licensed pheasant clubs and other licensed game bird clubs;

(2) The taking of resident game birds and mammals on or over standing crops, flooded standing crops (including aquatics), flooded harvested croplands, grain crops properly shocked on the field where grown, or grains found scattered solely as the result of normal agricultural planting or harvesting;

(3) The taking of resident game birds and mammals on or over any lands where shelled, shucked or unshucked corn, wheat or other grain, salt, or other feed have been distributed or scattered as the result of bona fide agricultural operations or procedures, or as a result of manipulation of a crop or other feed on the land where grown for wildlife management purposes: provided that manipulation for wildlife management purposes does not include the distributing or scattering of grain or other feed once it has been removed from or stored on the field where grown.

NOTE: Authority cited: Sections 200, 202 and 203, Fish and Game Code. Reference: Sections 200–203.1, 206, 207, 211–222, 3800 and 3950, Fish and Game Code.

HISTORY

1. New section filed 8–9–79; designated effective 9–1–79 (Register 79, No. 32).
2. Amendment of NOTE filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).
3. Amendment of first paragraph filed 7–1–86; effective upon filing (Register 86, No. 27).

§ 258. Season Defined.

"Season" means that period of time during which resident and migratory game birds, game mammals and fur–bearing mammals may be taken. All dates are inclusive.

NOTE: Authority cited: Sections 200, 202, 203, 355, 3800, and 4150, Fish and Game Code. Reference: Sections 11, 29, 62, 200–203.1, 206, 207, 211–222, 355, 3800, and 4150, Fish and Game Code.

HISTORY

1. Amendment filed 6–23–66; designated effective 7–2–66 (Register 66, No. 19).
2. New NOTE filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).

§ 260. Prohibition Against Taking Other Than Migratory Game Birds and Quail in Picacho State Recreation Area.

Notwithstanding any other provisions of these regulations, in Picacho State Recreation Area only migratory game birds and quail may be taken or possessed as prescribed in Sections 301, 500, 501 and 502 of these regulations.

NOTE: Authority cited: Sections 200, 202, 203, 308, 355, 3800, and 4150, Fish and Game Code. Reference: Sections 200–203.1, 206, 207, 211–222, 355, 356, 3800, and 4150, Fish and Game Code.

HISTORY

1. New section filed 7–31–68 as an emergency; effective upon filing (Register 68, No. 29).
2. Certificate of Compliance—Section 11422.1, Gov. Code, filed 10–8–68 (Register 68, No. 38).
3. Amendment of NOTE filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).

§ 260.1. Prohibition Against Hunting Other Than During September–January on Providence Mountains State Recreation Area.

Notwithstanding any other provisions of these regulations, in Providence Mountains State Recreation Area hunting is permitted only during the period September 1 to January 31.

NOTE: Authority cited: Sections 200, 202, 203, 355, 3800, and 4150, Fish and Game Code. Reference: Sections 200–203.1, 206, 207, 211–222, 355, 356, 3800, and 4150, Fish and Game Code.

HISTORY

1. New section filed 6–5–72; effective thirtieth day thereafter (Register 72, No. 24).
2. Amendment of NOTE filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).

§ 260.2. Hunting Restrictions on Lake Oroville State Recreation Area.

Game species may be taken on the Lake Oroville State Recreation Area only as follows:

(a) No hunting of any type is permitted between February 1 and September 14 except for wild turkeys only, during the spring turkey hunting season as provided in Section 306 of these regulations.

(b) No waterfowl or deer hunting is permitted at any time.

(c) Game species may be taken only during their respective open seasons or portions thereof falling within the period September 15 through January 31; and as provided in (a) above; and as otherwise provided by state Parks and Recreation area regulations (see area regulations).

NOTE: Authority cited: Sections 200, 202, 203, 308, 355, 3800, and 4150, Fish and Game Code. Reference: Sections 200–203.1, 206, 207, 211–222, 355, 356, 3800 and 4150, Fish and Game Code.

HISTORY

1. New section filed 8–28–74; effective thirtieth day thereafter (Register 74, No. 35).
2. Amendment of subsection (c) filed 8–31–78; designated effective tenth day thereafter (Register 78, No. 35).
3. Amendment filed 5–11–79; designated effective 7–1–79 (Register 79, No. 19).
4. Amendment of NOTE filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).
5. Amendment of subsection (a) filed 9–16–81; designated effective tenth day thereafter (Register 81, No. 38).

§ 260.3. Prohibition Against Taking Other Than Migratory Game Birds on San Luis Reservoir State Recreation Area.

Notwithstanding any other provision of these regulations, in San Luis Reservoir State Recreation Area, only migratory waterfowl may be taken or possessed as prescribed in Section 502 of these regulations.

NOTE: Authority cited: Sections 200, 202, 203, 308, 355, 3800, and 4150, Fish and Game Code. Reference: Sections 200–203.1, 206, 207, 211–222, 355, 356, 3800, and 4150, Fish and Game Code.

HISTORY

1. New section filed 8–28–74; effective thirtieth day thereafter (Register 74, No. 35).
2. Amendment of NOTE filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).

§ 260.4. Prohibition Against Taking Other Than Waterfowl and Resident Small Game on Perris Reservoir State Recreation Area.

Notwithstanding any other provision of these regulations, in Perris Reservoir State Recreation Area only waterfowl and resident small game may be taken or possessed as prescribed in Section 551 of these regulations.

NOTE: Authority cited: Sections 200, 202, 203, 308, 355, 3800, and 4150, Fish and Game Code. Reference: Sections 200–203.1, 206, 207, 211–222, 355, 356, 3800, and 4150, Fish and Game Code.

HISTORY

1. New section filed 8–28–74; effective thirtieth day thereafter (Register 74, No. 35).
2. Amendment filed 5–11–79; designated effective 7–1–79 (Register 79, No. 19).
3. Editorial correction (Register 79, No. 31).
4. Amendment of NOTE filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).

§ 260.5. Prohibition Against Taking Other Than Waterfowl, American Coots, Common Moorhens and Common Snipe Within Harry A. Merlo State Recreation Area.

Notwithstanding any other provision of these regulations, in Harry A. Merlo State Recreation Area, only waterfowl, American coots, common moorhens and common snipe may be taken or possessed as prescribed in Section 502 of these regulations.

NOTE: Authority cited: Sections 200, 202, 203, 355, 3800 and 4150, Fish and Game Code. Reference: Sections 200, 203.1, 355, 356, 3800 and 4150, Fish and Game Code.

HISTORY

1. New section filed 10–7–83; effective upon filing (Register 83, No. 41).
2. Amendment filed 10–11–85; effective upon filing (Register 85, No. 44).

§ 262. Prohibition Against Hunting on Portions of Frank's Tract State Recreation Area.

That portion of Frank's Tract State Recreation Area lying southwest of the following line is closed to hunting: Beginning at a point on Little Frank's Tract 2,000 feet north of the Piper Slough; southeast 2,000 feet east of the Piper Slough levee to the junction of the Holland Island levee.

NOTE: Authority cited: Sections 200, 202, 203, 308, 355, 3800 and 4150, Fish and Game Code. Reference: Sections 200–203.1, 206, 207, 211–222, 355, 356, 3800 and 4150, Fish and Game Code.

HISTORY

1. New section filed 10–14–82; effective upon filing (Register 82, No. 42).

§ 263. Prohibition Against Night Hunting.

Notwithstanding any other provisions of these regulations, hunting wildlife from one–half hour after sunset to one–half hour before sunrise is prohibited in Monterey and San Benito counties east of Highway 101.

NOTE: Authority cited: Section 3000, Fish and Game Code. Reference: Section 3000, Fish and Game Code.

HISTORY

1. New section filed 6–14–77; designated effective 7–1–77 (Register 77, No. 25).
2. Amendment filed 6–13–78; effective thirtieth day thereafter (Register 78, No. 24).
3. Amendment filed 5–11–79; designated effective 7–1–79 (Register 79, No. 19).
4. Amendment of NOTE filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).

§ 264. Use of Lights While Hunting—Specific Areas.

(a) Lights of any size or voltage may be used to take furbearing or nongame mammals only in the areas described in subsections (b) and (c) below, and only under the following conditions:

(1) The use of lights for night hunting is prohibited in any area where the general deer season is open.

(2) Furbearing mammals and nongame mammals may be taken with the aid of a spotlight or other artificial light operated from a vehicle provided such vehicle is stopped and standing with the motor off. No spotlight may be used from a vehicle which is on a public road or highway.

(b) Zone 1. (Portions of Butte, Colusa, Glenn, Placer, Sacramento, Sutter, Tehama, Yolo and Yuba counties.)

Area: Within the boundary beginning at the junction of Interstate 880 and Interstate 5 near Sacramento; east on Interstate 880 to its junction with Interstate 80; north and east on Interstate 80 to its junction with Highway 65 near Roseville, along Highway 65 to its junction with Highway 20 at Marysville; west on Highway 20 to its junction with Highway 45; north on Highway 45 to its junction with Highway 162; east on Highway 162 to its junction with Highway 99; north on Highway 99 to South Avenue near the town of Corning; west on South Avenue to Interstate 5 in Corning; north on Interstate 5 to Corning Road; west on Corning Road to Paskenta Road; west on the Paskenta Road to the town of Paskenta; southwest on the Round Valley Road to the Garland Road; south on the Garland Road to the town of Newville; south on the Newville–Elk Creek Road to the town of Elk Creek; south on the Elk Creek–Stonyford Road to the town of Stonyford; south on the Stonyford–Leesville Road to the town of Ladoga; south on the Stonyford–Leesville Road to the town of Leesville; south from Leesville on the Bear Valley Road to its intersection with Highway 20; east on Highway 20 to its intersection with Highway 16; south and east on Highway 16 to its intersection with Interstate 5; east on Interstate 5 to Interstate 880 and the point of beginning.

(c) Zone 2. (Portions of Inyo, Kern, Los Angeles, Mono and San Bernardino counties and all of Imperial, Orange, Riverside and San Diego counties.)

Area: Inyo, Mono and Kern counties south and east of a line beginning at the junction of Highway 182 and the California–Nevada state line; south on Highway 182 to its junction with Highway 395; south on Highway 395 to its intersection with Highway 168 at Bishop; west on Highway 168 to its intersection with the Inyo National Forest boundary; south on the Inyo National Forest boundary to its junction with County Highway J41; south and east on County Highway J41 to its junction with Highway 395; south on Highway 395 to its junction with Highway 14 near Inyokern; south on Highway 14 to its junction with Highway 178 at Freeman; west on Highway 178 to its junction with the Bodfish–Caliente Road at Isabella; south on the Bodfish–Caliente Road to its junction with Highway 58; east on Highway 58 to its junction with the Los Angeles Aqueduct; south and west on the Los Angeles Aqueduct Road to its junction with 265th Street West near Neenach; south on 265th Street West to its junction with the Elizabeth Lake–Pine Canyon Road at Three Points; east along the Elizabeth Lake–Pine Canyon Road to its junction with Highway 14 at Palmdale; south on Highway 14 to its intersection with the Angeles Forest Highway; south on the Angeles Forest Highway to the Mill Creek Summit Road; east and south on the Mill Creek Summit Road to its intersection with the Angeles Crest Highway (Highway 2) at Upper Chilao Campground; east on the Angeles Crest Highway to its intersection with the Los Angeles–San Bernardino county line; north on the Los Angeles–Kern–San Bernardino county line to its intersection with Highway 58; east on Highway 58 to its intersection with the range line between R3W and R4W; south along the range line between R3W and R4W to the southeast corner of T8N, R4W; east along T8N to its intersection with the west boundary of the U.S. Marine Corps Training Center; south and east on that boundary to its intersection with Giant Rock Road; east along Giant Rock Road to a point where it turns southeast and corresponding with a projected north extension of Sunfair Road; south on Sunfair Road and its projected extension to the San Bernardino–Riverside county line; and all of Imperial, Orange, Riverside and San Diego counties.

NOTE: Authority cited: Section 2005, Fish and Game Code. Reference: Section 2005, Fish and Game Code.

HISTORY

1. New section filed 1–18–78 as an emergency; effective upon filing. Certificate of Compliance included (Register 78, No. 3).
2. Amendment filed 5–19–80; designated effective 5–19–80 (Register 80, No. 21).
3. Repealer and new section filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).
4. Amendment of subsections (a)(2) and (c) filed 6–24–85 as an emergency; effective upon filing (Register 85, No. 27). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 10–22–85.
5. Notice of Erroneous filing declaring 6–24–85 Certificate of Compliance null and void filed 7–2–85 by OAL (Register 85, No. 27).
6. Certificate of Compliance as to 6–24–85 order transmitted to OAL 9–30–85 and filed 11–1–85 (Register 85, No. 44).

§ 264.5. Use of Lights While Hunting—Remainder of State.

Lights may be used, in those portions of the state not listed in Section 264, to take furbearers and nongame mammals under the following conditions only:

(a) Only 9 volt lights or smaller, hand–held or worn on the head are permitted.

(b) Persons using such lights must be on foot.

(c) Lights may not be used in or from a vehicle and may not be attached or powered from any source other than self–contained batteries.

(d) A landowner or tenant suffering damage to livestock or other property by furbearing mammals or nongame mammals may designate, in writing, persons allowed by such landowner or tenant to use artificial lights in excess of 9 volts to assist in taking the depredating mammals. The landowner or tenants shall notify the closest fish and game office whenever furbearing or nongame mammals are taken under this authority.

No furbearing or nongame mammals including any threatened, endangered or fully protected species may be taken contrary to any other prohibition set forth in these regulations.

NOTE: Authority cited: Section 2005, Fish and Game Code. Reference: Section 2005, Fish and Game Code.

HISTORY

1. New section filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).
2. Amendment of subsections (b) and (d) filed 6–24–85 as an emergency; effective upon filing (Register 85, No. 27). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 10–22–85.
3. Notice of erroneous filing declaring 6–24–85 Certificate of Compliance null and void filed 7–2–85 by OAL (Register 85, No. 27).
4. Certificate of Compliance as to 6–24–85 order transmitted to OAL 9–30–85 and filed 11–1–85 (Register 85, No. 44).

§ 265. Use of Dogs for Pursuit/Take of Mammals or for Dog Training.

(a) Prohibitions on the Use of dogs. The use of dogs for the pursuit/take of mammals or for dog training is prohibited as follows:

(1) The use of dogs is prohibited during the archery seasons for deer or bear.

(2) The use of dogs is prohibited for the take of elk, bighorn sheep and antelope.

(3) Mountain lions may not be pursued with dogs except under the provisions of a depredation permit issued pursuant to Section 4803 of the Fish and Game Code. Dog training on mountain lions is prohibited.

(4) The use of dogs for the pursuit/take of mammals or for dog training is prohibited from the first Saturday in April through the day preceding the opening of the general deer season in the following dog control zones:

(A) Central California Dog Control Zone: Napa County north of Highway 128 and east of Highway 29; Lake County east of a line beginning at the Lake–Napa county line and Highway 29; northwest on Highway 29 to Highway 20; northwest on Highway 20 to the Lake–Mendocino county line; Mendocino County east of Highway 101, and north of Highway 20; Sierra and Alpine counties, and those portions of Nevada, Placer,

Amador and Calaveras counties east of Highway 49; and El Dorado County east of the following line: Beginning at the junction of Highway 49 and the Placer–El Dorado county line; south on Highway 49 to Highway 193 at Cool; east and south along Highway 193 to Highway 49 in Placerville; south on Highway 49 to the Amador–El Dorado county line.

(B) Northern California Dog Control Zone: Plumas and Trinity counties; Butte County east of the following line: Beginning at the junction of Highway 99 and the Butte–Tehama county line; south and east along Highway 99 to Highway 149; south and east along Highway 149 to Highway 70; south along Highway 70 to the Butte–Yuba county line; Del Norte County east of Highway 101; Glenn County west of a line beginning at the intersection of the Stonyford–Ladoga Road and the Glenn–Tehama county line; south along this road to the Colusa–Glenn county line; Humboldt County north and east of Highway 36 and 101; Siskiyou County south and west of the following line; from the Oregon–California state line south on Interstate 5 to Highway 97 at the town of Weed; north on Highway 97 to the town of Macdoel; south from Macdoel on the Mt. Hebron Road to the Redrock Road; east on the Redrock Road to the Davis Road; north on David Road to the Gold Digger Pass Road; east on the Gold Digger Pass Road to the western boundary of the Lava Beds National Monument; north and east on said boundary to the Siskiyou–Modoc county line; Shasta County south and west of Highways 89 and 44 and north of the following line; where the Trinity National Forest boundary intersects the Shasta–Tehama county line; north on said boundary to Highway 36 near the town of Platina; east on Highway 36 to County Road A16; north on Road A16 to the city of Redding; north on Interstate 5 to the south shore of Shasta Lake; east and north along the shore of Shasta Lake to Fender's Ferry Road; southeast on Fender's Ferry Road to Highway 299; southwest on Highway 299 to Oakrun; southwest on the Oakrun Road to Fern Road; east and south on Fern Road to the town of Whitmore; south on Ponderosa Way to Highway 44 near Innwood; east on Highway 44 and the Wilson Hill Road to the Shasta–Tehama county line; those portions of Tehama County within the Mendocino and Trinity National Forests and east of the Ponderosa Truck Trail; those portions of Lassen County north and west of the following line: north from the Lassen–Sierra county line on Highway 395 to Highway 36 east of Susanville; northwest on Highway 36 to Highway 139; north on Highway 139 to the Lassen–Modoc county line.

(C) Southern Sierra Dog Control Zone: Those portions of Tuolumne, Mariposa, Madera, Fresno and Tulare counties east of the following line: Beginning at the intersection of Highway 49 and the Calaveras–Tuolumne county line; south on Highway 49 to Highway 120; east on Highway 120 to the Smith Station Road (J20); south on the Smith Station Road (J20) to the Greeley Hill Road; east on the Greeley Hill Road to the North Fork of the Merced River at Bower Cave; south on the North Fork of the Merced River to Road 3S15 (Black Mountain Road); east on Road 3S15 to Forest Service Road 3S02; southwest on Forest Service Road 3S02 crossing the U.S. Forest Service–Bureau of Land Management property boundary in Section 28 located in Township 3S, Range 18E to Forest Service Road 2S05 (Bull Creek Road); south on Forest Service Road 2S05 (Bull Creek Road) to the Main Fork of the Merced River; west on the Main Fork of the Merced River to Highway 49; south on Highway 49 to Highway 140 at Mariposa; north on Highway 140 to the South Fork of the Merced River; east along the South Fork of the Merced River to Hite Cove and south on the U.S. Forest Service Road and its continuation from Hite Cove, through Jerseydale Station and Darrah to the Triangle Road; south along the Triangle Road to Highway 49; south along Highway 49 to Highway 41 at Oakhurst; north along Highway 41 to its intersection with the Bass Lake Road at Yosemite Forks; south along Bass Lake Road and Road 274 past Bass Lake on the east side of the lake to the junction with the Mammoth Pool Road at North Fork; south along the North Fork–Auberry Road to the San Joaquin River; east along the San Joaquin River to Italian Bar Road at the Italian Bar Bridge; south on Italian Bar Road to Jose Basin Road (County Road M2441; east on Jose Basin Road (County Road M2441) to its intersection with Forestry Service Roads 8S08 (Railroad Grade Road) and 9S07 (Jose Basin Road); south on 9S07 (Jose Basin Road) to Auberry Road near Pine Ridge; east on Auberry Road to Highway 168; east on Highway 168 to Toll House Road; south on Toll House Road to Peterson Mill Road; east on Peterson Mill Road to Rush Creek Road at Soaproot Saddle; south on Rush Creek Road to Big Creek Road; east on Big Creek Road to Dinkey–Trimmer Road at Haslett Basin; east on Dinkey–Trimmer Road to Sycamore Springs Road; east on Sycamore Springs Road to Black Rock Road at Balch Camp; east on the Black Rock Road to the Rodgers Ridge Road at Black Rock Station; east along Rodgers Ridge Road to Garlic Spur; south on Garlic Spur to the Kings River; west along the Kings River to Verplank Ridge; south on Verplank Ridge–Hoise Ridge to Highway 180 near Cherry Gap; south along Highway 180 to the north boundary of Kings Canyon National Park; south along that park boundary and along the west boundary of Sequoia National Park to the boundary of Sequoia National Forest between Grouse Peak and Dennison Mountain; south along the common line between R29E and R30E, M.D.B.M. to the boundary of the Sequoia National Forest; east and south along that boundary to Balch Park Road; southeast along that road to the west boundary of Mountain Home State Forest; south and east along that boundary to Forest Trail 30E15; southeast along 30E15 to the Doyle Springs Road; southwest along Doyle Springs Road to Camp Wishon; southeast along the Alder Creek Grove–Hossack Meadow Road to Camp Nelson; south along Highway 190 and the Coy Flat Road to the boundary of the Tule River Indian Reservation; south along the east boundary of that reservation to Parker Peak; southeast through Upper Parker Meadow to Parker Pass; south through Starvation Creek Grove to the southwest corner of Section 15, T23S, R31E, M.D.B.M.; east to the northeast corner of Section 22, T23S, R31E, M.D.B.M.; south approximately 6 miles to Sugarload Campground; southeast along the Forest Road 24S06 through Portuguese Pass to the Tulare–Kern county line; that portion of Kern County within a line beginning where the Tulare–Kern county line intersects the west boundary of the Sequoia National Forest; south along the said boundary to the Poso Flat–Davis Station Road; northeast along said road through Davis Flat and Shirley Meadow to Forest Highway 90 at Greenhorn Summit; northeast along Forest Highway 90, Cow Creek and Bull Run Creek to the Tulare–Kern county line; west along said county line to the point of beginning; and those portions of Inyo and Mono counties west of Highway 395.

(D) Southern California Dog Control Zone: Those portions of Los Angeles, Ventura and Santa Barbara counties within the Los Padres and Angeles National Forests; and those portions of San Bernardino County within the San Bernardino and Angeles National Forests.

(b) Authorized Use of Dogs. The use of dogs for the pursuit/take of mammals or for dog training is authorized as follows:

(1) Dog Control Zones. The use of dogs for the pursuit/take of mammals or for dog training is permitted in the dog control zones described in subsections 265(a)(4)(A), (B), (C) and (D) from the opening day of the general deer season through the first Friday in April.

(2) Areas of the State Outside the Dog Control Zones. The use of dogs for the pursuit/take of mammals or for dog training in areas outside of the dog control zones is permitted year–round, except for closures and restrictions described in this Section 265 and section 364, and the provisions of sections 3960 and 4800 of the Fish and Game Code which prohibit allowing any dog to pursue any big game mammal during the closed season on such mammal or mountain lions, elk or any fully–protected, threatened or endangered mammal at any time.

(3) Take of Depredating Mammals. The use of dogs is permitted for pursuing/taking depredating mammals by federal and county animal damage control officers or by permittees authorized under a depredation permit issued by the department.

(4) Take of Furbearers and Nongame Mammals. Furbearers and nongame mammals as specified in Section 472(a) may be taken with the aid of dogs during the appropriate open season, except for closures and restrictions described in subsections 265(a) and (b).

(5) Prohibition on Starting Pursuit Within 400 Yards of Baited Area. Pursuits may not be started within 400 yards of a baited area as described in Section 257.5 of these regulations.

(6) Dog Training. Except for the prohibitions of subsection 265(a), dog training is permitted pursuant to the following provisions:

(A) Dog Training Defined. For purposes of these regulations, dog training is defined as the education of dogs through "breaking" or "practicing" under strict provisions that preclude the injuring or take of animals. Training is distinguished from "pursuit", as used in Section 86 of the Fish and Game Code, in that the animal being chased shall not be killed, captured, or injured.

(B) Prohibition on Killing, Capturing or Injuring Mammals. No person shall kill, capture or injure any mammal, nor shall any person's dog be allowed to kill, capture or injure any mammal during dog training.

(C) Prohibition on Possession of Equipment. No firearm, archery gear, crossbow or other instrument capable of killing, injuring or capturing any animal may be possessed by any person training dogs during the seasons described in subsection 265(b)(6)(F) below. Possession of a firearm, archery gear, crossbow or other instrument capable of killing or capturing any animal is prohibited while training dogs, but such equipment may be transported to or from a campsite, transported to or from a residence or lawfully possessed by a person at a campsite provided all dogs are secured and under the control of the owner, agent or person training or transporting said dogs.

(D) Prohibition on Starting Dog Training Within 400 Yards of Baited Area. Dog Training may not be started within 400 yards of a baited area as described in Section 257.5 of these regulations.

(E) Prohibition on Training Dogs on Bear and Other Big Game Mammals or on Protected, Threatened or Endangered Mammals. It shall be unlawful to train any dog on any big game mammal or to train any dog on any fully-protected, threatened or endangered mammal at any time. A person in possession of a valid bear tag may utilize the general bear season for purposes of educating dogs for bear. A person in possession of a valid deer tag may utilize the general deer season for purposes of educating a dog for deer. Only one dog may be used for training in areas where the general deer season (as described in subsection 360(a) and (b)) is open.

(F) Seasons.

1. Gray Fox. Dogs may be trained on gray fox from March 1 through the day preceding the opening of the general gray fox season, except for closures and restrictions described in subsections 265(a) and (b).

2. Raccoon. Dogs may be trained on racoon from April 1 through the day preceding the opening of the general raccoon season, except for closures and restrictions described in subsections 265(a) and (b).

3. Bobcat. Dogs may be trained on bobcat from the day following the close of the bobcat seasons through the day preceding the opening of the general bobcat seasons, except for closures and restrictions described in subsections 265(a) and (b).

4. Other Mammals. Except for closures and prohibitions described in this Section 265 and sections 3960 and 4800 of the Fish and Game Code, dogs may be trained on mammals other than gray fox, raccoon and bobcat at any time.

(c) Restrictions on the Number of Dogs per Hunter.

(1) One Dog per Hunter Limitation During Deer Season. No more than one dog per hunter may be used in the area where the general deer season is open.

(2) Three Dogs per Hunter Limitation for the Take of Wild Pigs. Up to three dogs per hunter may be used for the purpose of taking wild pigs, pursuant to the following provisions:

(A) No more than one dog per hunter may be used in an area where the general deer season is open.

(B) No dogs may be used within the closures described in subsection 265(a).

(C) After the general deer season (as described in subsections 360(a) and (b)) closes, there is no limit on the number of dogs that may be used during the general bear season.

(d) Prohibition on Treeing Switches and Use of Global Positioning System Equipment.

(1) Treeing Switches. Effective July 1, 1995, electronic dog retrieval collars containing functioning treeing switches (devices consisting of a mercury switch mechanism that results in a change in the transmitted signals when the dog raises its head to a treed animal) are prohibited on dogs used for the pursuit/take of mammals.

(2) Global Positioning System Equipment. Electronic dog retrieval collars employing the use of global positioning system equipment (devices that utilize satellite transmissions) are prohibited on dogs used for the pursuit/take of mammals.

HISTORY

1. Repealer and new section filed 7-8-92; operative 7-8-92 pursuant to Fish and Game Code section 215 (Register 92, No. 28). For prior history, see Register 91, No. 48.
2. New subsection (d) filed 7-13-95; operative 7-13-94 pursuant to sections 202 and 215, Fish and Game Code (Register 94, No. 28).
3. Amendment of subsections (b)(2), (b)(6)(C), (b)(6)(E), and (c)(1), repealer of subsections (c)(A)-(B), and amendment of subsection (c)(2)(C) filed 6-26-96; operative 7-1-96 pursuant to section 11343.4(d) (Register 96, No. 26).
4. Amendment of subsections (a)(4)(A) and (B) filed 7-1-98; operative 7-1-98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 27).
5. Amendment of subsection (a)(4)(C) filed 6-28-2002; operative 6-28-2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 26).

§ 300. Upland Game Birds.

(a) Resident Upland Game Birds

(1) General Seasons: Shotgun; Crossbow; and Pistol/Revolver for Blue/Ruffed Grouse Only; Bag and Possession Limits and Open Areas

(see Authorized Methods of Take, Section 311)

Species	*1. Seasons*	*2. Daily Bag and Possession Limits*
(A) Pheasants	The second Saturday in November extending for 44 consecutive days	Bag Limit: 2 males per day for the first 2 days of the season; 3 males per day after the first two days of the season Possession Limit: double the daily bag limit
3. Area:	Statewide	
Species	*1. Seasons*	*2. Daily Bag and Possession Limits*
(B) Quail [including California (valley) quail, mountain quail, and Gambel's (desert) quail	See area zone descriptions for details	Bag Limit: 10 quail in any combination of species per day Possession Limit: double the daily bag limit
Mountain Quail only:	a. Early Mountain Quail Season (Zone Q1) – The second Saturday in September extending through the Friday prior to the third Saturday in October	
All species:	General Quail Season (Zone Q1) – The third Saturday in October extending through the last Sunday in January	
All species:	b. Early Coastal Season (Zone Q2) – The last Saturday in September extending through the last Sunday in January	
All species:	c. Balance of the State Season (Zone Q3) – The third Saturday in October extending through the last Sunday in January	

QUAIL HUNTING ZONE AREA DESCRIPTIONS

3. Area Zone Descriptions:

a. Zone Q1:
The early mountain quail season hunting zone includes the counties of Alpine, Butte, Del Norte, Glenn, Humboldt, Inyo, Lassen, Modoc, Mono, Plumas, Shasta, Sierra, Siskiyou, Tehama, Trinity, and those portions of Amador, Calaveras, El Dorado, Fresno, Madera, Mariposa, Nevada, Placer, Tuolomne, Tulare, and Yuba counties lying east of the western boundary of the national forests.

b. Zone Q2:
The early coastal quail season (all species) hunting zone includes the counties of Marin, Napa, Solano, Sonoma, Lake, and Mendocino.

c. Zone Q3:
The balance of the state season (all species) hunting zone includes the remaining land area not included in Zone Q2 (the counties of Marin, Napa, Solano, Sonoma, Lake, and Mendocino).

(C) Chukar (Red–Legged Partridges)	The third Saturday in October through the last Sunday in January	Bag Limit: 6 chukar per day Possession Limit: double the daily bag limit
3. Area	Statewide	
Species	*1. Seasons*	*2. Daily Bag and Possession Limits*
(D) Sage Grouse	The second Saturday in September extending for two consecutive days	See area open zone descriptions (subsection 300(a)(1)(D)3.) Eastern Lassen and Central Lassen zones: Bag Limit: 2 sage grouse per day, 2 per season Possession Limit: 2 sage grouse per season North Mono and South Mono zones: Bag Limit: 1 sage grouse per day, 1 per season Possession Limit: 1 sage grouse per season

SAGE GROUSE HUNTING ZONE DESCRIPTIONS AND PERMIT PROCESS

3. Area Open Zone Descriptions:

a. East Lassen Zone:
That portion of Lassen County beginning at the intersection of Highway 395 and County Road 502 in the town of Ravendale; north and east on County Road 502 to County Road 526 (Buckhorn Road); east on County Road 526 to the Nevada state line; south along the Nevada state line to its intersection with County Road 320 (Wendel–Flanigan Road); northwest on County Road 320 to its intersection with Highway 395 between Wendal and Litchfield north on Highway 395 to the point of beginning.

b. Central Lassen Zone:
That portion of Lassen County beginning at the intersection of Highway 139 and County Road 513 (Termo–Grasshopper Road); east on County Road 513 to its intersection with County Road 523 (Westside Road); north on County Road 523 to its intersection with County Road 525 (Brockman Road); east on County Road 525 to its intersection with Highway 395; south on Highway 395 to its intersection with Highway 36 in the town of Johnstonville; west on Highway 36 to its intersection with Highway 139 in Susanville; north on Highway 139 to the point of beginning.

c. North Mono Zone:
That portion on Mono County beginning at the intersection of Highway 182 and the California–Nevada state line; south and east along the California–Nevada state line to Highway 167; west along Highway 167 to Highway 395; north along Highway 395 to Highway 182 at Bridgeport; north along Highway 182 to the point of beginning.

d. South Mono Zone:
That portion of Mono County beginning at the intersection of U.S. Highway 6 and U.S. Highway 395; north along U.S. Highway 6 to the intersection of U.S. Highway 120; west along U.S. Highway 120 to the intersection of the Benton Crossing Road; west along Benton Crossing Road to the intersection of Owens River Road; west along Owens River Road to the intersection of U.S. Highway 395; south along U.S. Highway 395 to the point of beginning.

No open season in the balance of the state not included in the above open zones.

4. Number of Permits:

a. East Lassen Zone: 20 permits

b. Central Lassen Zone: 15 permits

c. North Mono Zone: 25 permits

d. South Mono Zone: 35 permits

5. Permit Process:

The free sage grouse hunting permits shall be issued by public drawing. All applicants shall apply either on a postcard or through the Internet at the License and Revenue Branch Home Page at http://www.dfg.ca.gov/licensing and select sage grouse drawing. All applicants must provide their name, address, zip code, hunting license number, and the zone they wish to hunt. Applicants shall submit only one drawing application for either the East Lassen Zone, Central Lassen Zone, North Mono Zone, or the South Mono Zone. Up to four hunters may apply as a party. All hunter's names, addresses, and hunting license numbers must be included on the application. Postcard applications for all hunts shall be mailed to the Department of Fish and Game, License and Revenue Branch, 1740 North Market Blvd., Sacramento, California, 95834. Applications must be received by 5:00 PM on the second Monday of August for all open zones (East Lassen Zone, Central Lassen Zone, North Mono Zone, or the South Mono Zone). Successful applicants will be notified by mail prior to the opening date of the season. Permits are non-transferable. Any permits remaining after the drawing will be issued on a first–come, first–served basis and will be advertised by news release following each drawing. Applications for remaining permits shall be mailed to the above address with the same required information. Successful drawing applicants previously selected, or hunt party members, may not apply for remaining permits.

6. Falconry Only Permits:
Applicants desiring to use a sage grouse permit during the falconry–only season must declare upon the application that the permit is for falconry only.

Species	*1. Seasons*	*2. Daily Bag and Possession Limits*
(E) Blue and Ruffed Grouse	The second Saturday in September extending for 31 consecutive days	Bag Limit: 2 grouse per day Bag Limit Makeup: • up to 2 blue grouse • up to 2 ruffed grouse • or one of each Possession Limit: • double the daily bag limit

BLUE AND RUFFED GROUSE HUNTING ZONE DESCRIPTIONS

3. Area Open Zone: The open hunting zone for blue and ruffed grouse includes the following counties: Alpine, Amador, Butte, Calaveras, Del Norte, El Dorado, Fresno, Glenn, Humboldt, Inyo, Lake, Lassen, Madera, Mariposa, Mendocino, Modoc, Mono, Nevada, Placer, Plumas, Shasta, Sierra, Siskiyou, Tehama, Trinity, Tulare, Tuolumne, and Yuba. All other counties are closed to the taking of blue or ruffed grouse.

Species	*1. Seasons*	*2. Daily Bag and Possession Limits*
(F) White–tailed Ptarmigan	The second Saturday in September extending for nine consecutive days	Bag Limit: 2 ptarmigan per day, 2 per season Possession Limit: 2 per season

PTARMIGAN HUNTING ZONE DESCRIPTIONS

3. Area Open Zone: The open hunting zone for ptarmigan includes Alpine County and that portion of Mono County lying north and west of a line beginning at the intersection of Highway 203 and the Madera County line; east on Highway 203 to Highway 395; and north on Highway 395 to the Nevada state line.

Species	*1. Seasons*	*2. Daily Bag and Possession Limits*
(G) Wild Turkeys	a. Fall Season – The second Saturday in November extending for 16 consecutive days	Bag Limit: 1 either–sex turkey per day, 1 per season Possession Limit: 1 per season
	b. Spring Season – The last Saturday in March extending for 37 consecutive days	Bag Limit: 1 bearded turkey per day, 3 per season. No person shall take more than a total of 3 turkeys during the general,

Species	*1. Seasons*	*2. Daily Bag and Possession Limits*
	c. Additional Spring Season for Hunters with Junior Hunting Licenses — The day following the close of the general spring turkey season extending for 14 consecutive days	archery, and additional season for junior hunters, combined. Possession Limit: 3 per season (A bearded turkey is one having a beard visible through the breast feathers.)
3. Area:		

a. Fall Season:
All counties except San Diego County

b. Spring Season:
Statewide including State Game Refuge 1G, located in Tehama County

(2) Archery Seasons, Bag and Possession Limits and Open Areas

(see Authorized Methods of Take, sections 311 and 354)

Species	*1. Seasons*	*2. Daily Bag and Possession Limits*
(A) Pheasants	The second Saturday in November extending for 60 consecutive days	Bag Limit: 2 pheasants per day for the first 2 days of the season; 3 pheasants per day after the first two days of the season Possession Limit: double the daily bag limit; the daily archery bag may contain not more than one female pheasant
3. Area:	Statewide	

Species	*1. Seasons*	*2. Daily Bag and Possession Limits*
(B) Quail (all species)	The third Saturday in August extending for 21 consecutive days and during the general seasons as follows:	Bag Limit: 10 quail in any combination of species per day
Mountain Quail only:	a. Early Mountain Quail Season (Zone Q1) – The second Saturday in September extending through the Friday prior to the third Saturday in October	double the daily bag limit
All species:	General Quail Season (Zone Q1) – The third Saturday in October extending through the last Sunday in January	
All species:	b. Early Coastal Season (Zone Q2) – The last Saturday in September extending through the last Sunday in January	
All species:	c. Balance of the State Season (Zone Q3) – The third Saturday in October extending through the last Sunday in January	
3. Area:	Statewide	
(C) Chukar	The third Saturday in August extending for 21 consecutive days and during the general season	Bag Limit: 6 chukar Possession Limit: double the daily bag limit
3. Area:	Statewide	

Species	*1. Seasons*	*2. Daily Bag and Possession Limits*
(D) Sage Grouse	The second Saturday in September extending for 2 consecutive days	See area open zone descriptions (subsection 300(a)(1)(D)3.) East Lassen and Central Lassen zones: Bag Limit: 2 sage grouse per day, 2 per season Possession Limit: 2 sage grouse per season North Mono and South Mono zones: Bag Limit: 1 sage grouse per day, 1 per season Possession Limit: 1 sage grouse per season
3. Area:	Open Zone: see open zone descriptions for details [subsection 300(a)(1)(D)3.], which include portions of Lassen, Mono, and Inyo counties. Hunting by free permit only; see permit process section for details.	

Species	*1. Seasons*	*2. Daily Bag and Possession Limits*
(E) Blue and Ruffed Grouse	The third Saturday in August extending for 21 consecutive days and during the general season from the second Saturday in September extending for 31 consecutive days	Bag Limit: 2 grouse per day Bag Limit Makeup: • up to 2 blue grouse • up to 2 ruffed grouse • or one of each Possession Limit: • double the daily bag limit
3. Area:	Open Zone: see open zone descriptions for details [subsection 300(a)(1)(E)3.], which include northern and eastern portions of the state	

Species	*1. Seasons*	*2. Daily Bag and Possession Limits*
(F) White-Tailed Ptarmigan	The second Saturday in September extending for nine consecutive days	Bag Limit: 2 ptarmigan per day, 2 per season Possession Limit: 2 per season
3. Area:	Open Zone: see open zone descriptions for details [subsection 300(a)(1)(F)3.], which include portions of Alpine and Mono counties	

Species	*1. Seasons*	*2. Daily Bag and Possession Limits*
(G) Wild Turkeys	a. Fall Season – The second Saturday in November extending for 16 consecutive days	Bag Limit: 1 either-sex turkey per day, 1 per season Possession Limit: 1 per season
	b. Spring Season – The last Saturday in March extending for 51 consecutive days	Bag Limit: 1 bearded turkey per day, 3 per season. No person shall take more than a total of 3 turkeys during the general, archery, and additional season for junior hunters, combined. Possession Limit: 3 per season (A bearded turkey is one having a beard visible through the breast feathers.)

Species	*1. Seasons*	*2. Daily Bag and Possession Limits*

3. Area:

a. Fall Season:
All counties except San Diego County

b. Spring Season:
Statewide including State Game Refuge 1G, located in Tehama County

(3) Falconry Seasons, Bag and Possession Limits and Open Areas

(see Authorized Methods of Take, Section 311)

Species	*1. Seasons*	*2. Daily Bag and Possession Limits and Hawking Hours*
(A) Pheasants (B) Quail (C) Chukar (D) Blue and Ruffed Grouse (E) White–Tailed Ptarmigan	October 1 extending through the last day in February	Bag and Possession Limits: same as general season regulations by species. The daily falconry bag may contain birds of either sex. Hawking hours are sunrise to sunset.
3. Area:	See open zone descriptions for details on each species [subsection 300(a)(1)]	
Species	*1. Seasons*	*2. Daily Bag and Possession Limits and Hawking Hours*
(F) Sage Grouse	The first Saturday in November extending for 60 consecutive days, and during the general season	See area open zone descriptions (subsection 300(a)(1)(D)3.) East Lassen and Central Lassen zones: Bag Limit: 2 sage grouse per day, 2 per season Possession Limit: 2 sage grouse per season North Mono and South Mono zones: Bag Limit: 1 sage grouse per day, 2 per season Possession Limit: 1 sage grouse per season Hawking hours are sunrise to sunset.
3. Area:	See open zone descriptions [subsection 300(a)(1)(D)3.]; hunting by free permit only; see permit process section for details [subsection 300(a)(1)(D)5.].	
Species	*1. Seasons*	*2. Daily Bag and Possession Limits and Hawking Hours*
(G) Wild Turkeys	a. Fall Season – The second Saturday in November extending for 16 consecutive days b. Spring Season – The last Saturday in March extending for 37 consecutive days	Bag Limit: 1 either–sex turkey per day Possession Limit: 1 per season Bag Limit: 1 bearded turkey per day Possession Limit: 3 per season (A bearded turkey is one having a beard visible through the breast feathers.)

3. Area:

a. Fall Season:
All counties except San Diego County

b. Spring Season:
Statewide including State Game Refuge 1G, located in Tehama County

(b) Migratory Upland Game Birds

(1) Shotgun, Archery, and Falconry Seasons and Bag and Possession Limits

(see Authorized Methods for Take, Section 507)

Species	*1. Seasons*	*2. Daily Bag and Possession Limits*
(A) Band–Tailed Pigeons	a. Northern Zone – The third Saturday in September extending for 9 consecutive days b. Southern Zone – The third Saturday in December extending for 9 consecutive days	Bag Limit: 2 band–tailed pigeons per day Possession Limit: double the daily bag limit

BAND–TAILED PIGEON HUNTING ZONE DESCRIPTIONS

3. Area Open Zone Descriptions:

a. Northern Zone:
Includes the counties of Alpine, Butte, Del Norte, Glenn, Humboldt, Lassen, Mendocino, Modoc, Plumas, Shasta, Sierra, Siskiyou, Tehama, and Trinity.

b. Southern Zone:
Includes the balance of the state not included in the northern zone described above.

Species	*1. Seasons*	*2. Daily Bag and Possession Limits*
(B) Doves (Mourning doves, white–winged doves, spotted doves, Eurasian collared–doves, and ringed turtle doves)	September 1–15 and from the second Saturday in November extending for 45 days	Bag Limit: Spotted doves, Eurasian collared–doves, and ringed turtle doves shall be included in the bag and possession limit set for the mourning doves and white–winged doves. 10 doves per day in aggregate of the above listed dove Possession Limit: double the daily bag limit in aggregate of the above listed dove
3. Area:	Statewide for mourning doves, spotted doves, ringed turtle–doves, and Eurasian collared–doves.	
Note: There is no open hunting season on common ground–doves, ruddy ground–doves, and Inca doves.	White–winged doves may be taken only in Imperial, Riverside, and San Bernardino counties.	
(C) Common Snipe	The third Saturday in October extending for 107 days	Bag Limit: 8 per day Possession Limit: double the daily bag limit
3. Area:	Statewide	

NOTE: Authority cited: Sections 200, 202, 203 and 355, Fish and Game Code. Reference: Sections 200, 202, 203, 203.1, 215, 220, 355 and 356, Fish and Game Code.

HISTORY

1. Amendment of subsections (a)(2)(B) and (b)(2)(B) filed 10–9–86 as an emergency; effective upon filing (Register 86, No. 42). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 2–6–87. For prior history, see Register 85, No. 39.
2. Reinstatement of subsections (a)(2)(B) and (b)(2)(B) as they existed prior to emergency amendment filed 10–9–86 by operation of Government Code section 11346.1(f) (Register 87, No. 27).
3. Amendment filed 10–3–88; operative 10–3–88 (Register 88, No. 41).
4. Amendment of subsections (a)(2) and (b)(2) filed 9–16–91; operative 9–16–91 pursuant to Fish and Game Code section 215 (Register 91, No. 52).
5. Amendment of subsections (a)(2)(A), (b) and (b)(2) filed 9–16–93; operative 9–16–93 pursuant to sections 202 and 215, Fish and Game Code (Register 93, No. 38).
6. Amendment of section heading, repealer and new section, and amendment of NOTE filed 10–2–98; operative 10–2–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 40).

7. Amendment of subsections (a)(1)(D)2., (a)(1)(D)4.–5., (a)(2)(D)2. and (a)(3)(F)2. filed 10–14–99; operative 10–14–99 pursuant to Fish and Game Code sections 202 and 215 (Register 99, No. 42).
8. Amendment filed 9–1–2000; operative 9–1–2000 pursuant to Fish and Game Code section 215 (Register 2000, No. 35).
9. Amendment of subsections (a)(1)(D)4.a.–b. filed 10–31–2001; operative 11–30–2001 (Register 2001, No. 44).
10. Amendment of subsections (a)(1)(A)1. and (a)(1)(D)4. filed 9–18–2002; operative 9–18–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 38).
11. Amendment of subsection (a)(1)(D)4.c. filed 9–4–2003; operative 9–4–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 36).
12. Amendment of subsections (a)(1)(D), (a)(1)(D)3.d., (a)(1)(D)4.a.–d. and (a)(2)(G)b. filed 10–21–2004; operative 10–21–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 43).
13. Editorial correction of subsection (a)(3)(G)b. (Register 2006, No. 9).
14. Amendment of section and NOTE filed 8–29–2007; operative 9–1–2007 pursuant to Government Code section 11343.4 (Register 2007, No. 35).
15. Amendment of subsection (a)(1)(D)5. filed 12–14–2007; operative 1–13–2008 (Register 2007, No. 50).

§ 300.5. Archery Pheasant.

NOTE: Authority cited: Section 200, Fish and Game Code. Reference: Sections 200–221, Fish and Game Code.

HISTORY

1. Amendment filed 8–24–77; designated effective 9–10–77 (Register 77, No. 35). For prior history, see Register 76, No. 34.
2. Amendment filed 8–31–78; designated effective tenth day thereafter (Register 78, No. 35).
3. Amendment filed 8–9–79; designated effective 9–1–79 (Register 79, No. 32).
4. Repealer filed 8–13–80; designated effective 9–1–80 (Register 80, No. 33).

§ 300.8. Falconry Pheasant.

NOTE: Authority cited: Section 200. Fish and Game Code. Reference: Sections 200–221, Fish and Game Code.

HISTORY

1. Amendment filed 8–20–76; effective tenth day thereafter (Register 76, No. 34). For prior history, see Register 75, No. 38.
2. Amendment filed 8–24–77; designated effective 9–10–77 (Register 77, No. 35).
3. Amendment filed 8–31–78; designated effective tenth day thereafter (Register 78, No. 35).
4. Amendment filed 8–9–79; designated effective 9–1–79 (Register 79, No. 32).
5. Repealer filed 8–13–80; designated effective 9–1–80 (Register 80, No. 33).

§ 301. Quail.

NOTE: Authority cited: Sections 200, 202 and 203, Fish and Game Code. Reference: Sections 200, 202, 203, 208 and 220, Fish and Game Code.

HISTORY

1. Amendment of subsection (a)(4) filed 10–17–84; designated effective tenth day thereafter (Register 84, No. 42). For prior history, see Register 81, No. 38.
2. Amendment of subsection (b)(1) filed 9–27–85; effective tenth day thereafter (Register 85, No. 39).
3. Amendment of subsection (a)(4) filed 8–29–86, operative 8–29–86, deleting the words "opening of the general quail seasons in areas specified in subsections (2) and (3) above" and adding the words "third Saturday in October" (Register 86, No. 36).
4. Amendment of subsection (b)(1) filed 9–8–88; operative 9–8–88 (Register 88, No. 38).
5. Amendment of subsection (a)(4) filed 9–14–90; operative 9–14–90 (Register 90, No. 43).
6. Amendment of subsections (a) and (b)(2) filed 9–16–91; operative 9–16–91 pursuant to Fish and Game Code section 215 (Register 91, No. 52).
7. Repealer filed 10–2–98; operative 10–2–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 40).

§ 301.5. Archery and Falconry Quail.

NOTE: Authority cited: Section 200, Fish and Game Code. Reference: Sections 200–221, Fish and Game Code.

HISTORY

1. Amendment filed 8–20–76; effective tenth day thereafter (Register 76, No. 34). For prior history, see Register 75, No. 33.
2. Amendment filed 8–24–77; designated effective 9–10–77 (Register 77, No. 35).
3. Amendment filed 8–31–78; designated effective tenth day thereafter (Register 78, No. 35).
4. Amendment filed 8–9–79; designated effective 9–1–79 (Register 79, No. 32).
5. Repealer filed 8–13–80; designated effective 9–1–80 (Register 80, No. 33).

§ 302. Red–Legged Partridge (Chukar).

NOTE: Authority cited: Sections 200, 202 and 203, Fish and Game Code. Reference: Sections 200, 202, 203, 208 and 220, Fish and Game Code.

HISTORY

1. Amendment filed 8–24–77; designated effective 9–10–77 (Register 77, No. 35). For prior history, see Register 76, No. 34.
2. Amendment filed 8–31–78; designated effective tenth day thereafter (Register 78, No. 35).
3. Amendment filed 8–9–79; designated effective 9–1–79 (Register 79, No. 32).
4. Amendment filed 8–13–80; designated effective 9–1–80 (Register 80, No. 33).
5. Amendment of NOTE filed 9–16–81; designated effective tenth day thereafter (Register 81, No. 38).
6. Amendment of subsection (b)(1) filed 9–27–85; effective tenth day thereafter (Register 85, No. 39).
7. Amendment of subsection (b)(1) filed 9–8–88; operative 9–8–88 (Register 88, No. 38).
8. New subsections (c)–(c)(2) filed 9–16–93; operative 9–16–93 pursuant to sections 202 and 215, Fish and Game Code (Register 93, No. 38).
9. Repealer filed 10–2–98; operative 10–2–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 40).

§ 302.5. Archery and Falconry Red–Legged Partridge (Chukar).

NOTE: Authority cited: Section 200, Fish and Game Code. Reference: Sections 200–221, Fish and Game Code.

HISTORY

1. New section filed 8–9–79; designated effective 9–1–79 (Register 79, No. 32).
2. Repealer filed 8–13–80; designated effective 9–1–80 (Register 80, No. 33).

§ 303. Sage Grouse.

NOTE: Authority cited: Sections 200, 202, 203, 215 and 220, Fish and Game Code. Reference: Sections 200, 202, 203, 208 and 220, Fish and Game Code.

HISTORY

1. Amendment of subsection (a) filed 8–24–77; designated effective 9–10–77 (Register 77, No. 35).
2. Amendment of subsection (a) filed 8–31–78; designated effective tenth day thereafter (Register 78, No. 35).
3. Amendment filed 8–9–79; designated effective 9–1–79 (Register 79, No. 32).
4. Amendment filed 8–13–80; designated effective 9–1–80 (Register 80, No. 33).
5. Amendment of NOTE filed 9–16–81; designated effective tenth day thereafter (Register 81, No. 38).
6. Amendment filed 8–24–83; designated effective tenth day thereafter (Register 83, No. 35).
7. Amendment filed 9–16–87; operative 9–16–87 pursuant to Fish and Game Code section 202 (Register 87, No. 38).
8. Amendment of subsections (a)(1) and (a)(2), (c) and (e) filed 9–14–90; operative 9–14–90 (Register 90, No. 43).
9. Amendment of section filed 9–16–91; operative 9–16–91 pursuant to Fish and Game Code section 215 (Register 91, No. 52).
10. Amendment of subsections (d) and (e) filed 9–30–92; operative 9–30–92 pursuant to Fish and Game Code sections 202 and 215 (Register 92, No. 40).
11. New subsection (b) and relettering, amendment of subsection (e) and new subsection (f)(2) filed 9–16–93; operative 9–16–93 pursuant to sections 202 and 215, Fish and Game Code (Register 93, No. 38).
12. Amendment of subsections (e) and (f)(1) filed 9–26–94; operative 9–26–94 pursuant to sections 202 and 215, Fish and Game Code (Register 94, No. 39).
13. Amendment of subsection (e) and NOTE filed 8–31–95; operative 8–31–95 pursuant to Fish and Game Code sections 202 and 215 (Register 95, No. 35).
14. Amendment of subsections (b) and (f)(1) filed 9–30–96; operative 9–30–96 pursuant to Fish and Game Code sections 202 and 215 (Register 96, No. 40).
15. Amendment of subsections (c)(4) and (e) filed 9–30–97; operative 9–30–97 pursuant to Fish and Game Code sections 202 and 215 (Register 97, No. 40).
16. Repealer filed 10–2–98; operative 10–2–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 40).

§ 303.1. Sage Grouse: Closure to Taking.

HISTORY

1. New section filed 9–1–65 as an emergency; effective upon filing (Register 65, No. 16). For former history, see Register 61, No. 12.
2. Repealer filed 6–23–66 designated effective 7–2–66, and new section filed 6–24–66 as an emergency; effective upon filing (Register 66, No. 19).
3. Expired by own terms (Register 67, No. 24).

§ 304. Blue and Ruffed Grouse.

NOTE: Authority cited: Section 200, 202 and 203, Fish and Game Code. Reference: Sections 200, 202, 203, 208, and 220, Fish and Game Code.

HISTORY

1. Amendment of subsection (b)(1) filed 8–18–82; effective upon filing pursuant to Government Code section 11346.2(d) (Register 82, No. 34). For prior history, see Register 81, No 38.
2. Amendment filed 9–27–85; effective tenth day thereafter (Register 85, No. 31).
3. Amendment of subsections (a)(2) and (b)(2) filed 9–16–91; operative 9–16–91 pursuant to Fish and Game Code section (Register 91, No. 52).
4. Repealer filed 10–2–98; operative 10–2–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 40).

§ 304.5. White–Tailed Ptarmigan.

NOTE: Authority cited: Sections 200, 202 and 203, Fish and Game Code. Reference: Sections 200, 202, 203, 208 and 220, Fish and Game Code.

HISTORY

1. New section filed 9–5–89; operative 9–5–89 pursuant to Government Code section 11346.2(d) (Register 89, No. 36). For prior history, see Registers 87, No. 38 and 85, No. 39.
2. Amendment of subsection (c) filed 9–14–90; operative 9–14–90 (Register 90, No. 43).
3. Amendment of section deleting subsection (c), (d) and (e) filed 9–16–91; operative 9–16–91 pursuant to Fish and Game code section 215 (Register 91, No. 52).
4. Repealer filed 10–2–98; operative 10–2–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 40).

§ 305. Chinese Spotted Doves and Ringed Turtledoves.

NOTE: Authority cited: Sections 200, 202 and 203, Fish and Game Code. Reference: Sections 200, 202, 203, 206, 214, 214.5, and 220, Fish and Game Code.

HISTORY

1. Expired by own terms (Register 61, No. 25).
2. New section filed 6–13–62; designated effective 7–1–62 (Register 62, No. 12).
3. Amendment filed 6–15–67; designated effective 7–1–67 (Register 67, No. 24).
4. Amendment filed 8–13–80; designated effective 9–1–80 (Register 80, No. 33).
5. Amendment of NOTE filed 9–16–81; designated effective tenth day thereafter (Register 81, No. 38).
6. Amendment of subsection (a)(1) filed 8–18–82; effective upon filing pursuant to Government Code Section 11346.2(d) (Register 82, No. 34).
7. Repealer filed 10–2–98; operative 10–2–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 40).

§ 306. Wild Turkeys.

NOTE: Authority cited: Sections 200, 202 and 203, Fish and Game Code. Reference: Sections 200, 202, 203, 206, 214, 214.5 and 220, Fish and Game Code.

HISTORY

1. Amendment of subsection (b)(1) filed 8–18–82; effective upon filing pursuant to Government Code Section 11346.2(d) (Register 82, No. 34). For prior history, see Register 81, No. 38.
2. Amendment filed 8–24–83; designated effective tenth day thereafter (Register 83, No. 35).
3. Amendment of subsection (a) filed 10–17–84; designated effective tenth day thereafter (Register 84, No. 42).
4. Amendment filed 9–27–85; effective tenth day thereafter (Register 85, No. 39).
5. Amendment of subsections (a)(1) and (b)(1) filed 9–16–87; operative 9–16–87 pursuant to Fish and Game Code Section 202 (Register 87, No. 38).
6. Amendment of subsection (b)(1) filed 9–16–93; operative 9–16–93 pursuant to sections 202 and 215, Fish and Game Code (Register 93, No. 38).
7. Repealer filed 10–2–98; operative 10–2–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 40).

§ 306.5. Spring Wild Turkey.

NOTE: Authority cited: Section 200, Fish and Game Code. Reference: Sections 200–221, Fish and Game Code.

HISTORY

1. Amendment of subsection (a) filed 8–31–78; designated effective tenth day thereafter (Register 78, No. 35).
2. Amendment filed 8–9–79; designated effective 9–1–79 (Register 79, No. 32).
3. Repealer filed 8–13–80; designated effective 9–1–80 (Register 80, No. 33).
4. Amendment of section heading filed 9–27–85; effective tenth day thereafter (Register 85, No. 39).

§ 307. Tree Squirrels.

Tree squirrels may be taken only as follows:

(a) General Season and Areas:

The general season in the counties of Alameda, Alpine, Amador, Butte, Calaveras, Colusa, Contra Costa, Del Norte, El Dorado, Fresno, Glenn, Humboldt, Kings, Lake, Lassen, Madera, Marin, Mariposa, Mendocino, Merced, Modoc, Monterey, Napa, Nevada, Placer, Plumas, Sacramento, San Benito, San Luis Obispo, San Joaquin, San Mateo, Santa Clara, Santa Cruz, Shasta, Sierra, Siskiyou, Solano, Sonoma, Stanislaus, Sutter, Tehama, Trinity, Tulare, Tuolumne, Yolo, Yuba, and that portion of Kern County lying east of Interstate 5 shall open on the second Saturday in September extending through the last Sunday in January.

(b) Archery and Falconry Tree Squirrel Season and Area: Tree squirrels may be taken with bow and arrow or raptors only during the general tree squirrel season and as follows:

(1) The season in the counties of Alpine, Amador, Butte, Calaveras, Del Norte, El Dorado, Fresno, Glenn, Humboldt, Lake, Lassen, Madera, Marin, Mariposa, Modoc, Napa, Nevada, Placer, Plumas, Shasta, Sierra, Siskiyou, Solano, Sonoma, Sutter, Tehama, Trinity, Tulare, Tuolumne, and Yuba; and that portion of Kern County lying east of Interstate 5 shall open on the first Saturday in August extending through the day before the general tree squirrel season.

(c) Bag and Possession Limit: Four squirrels per day, four in possession.

(d) Except as provided herein, tree squirrels may not be taken at any time in the balance of the state.

NOTE: Authority cited: Sections 200, 202 and 203, Fish and Game Code. Reference: Sections 200–203.1 and 207, Fish and Game Code.

HISTORY

1. New section filed 6–13–62; operative 7–1–62 (Register 62, No. 12), incorporating portions of former Section 307, which was repealed by its own terms on 12–30–61, Register 61, No. 26 (Register 62, No. 12).
2. Amendment of subsections (a) and (b) filed 6–14–63; operative 7–1–63 (Register 63, No. 10).
3. Amendment of subsections (a) and (b) filed 6–16–64; operative 7–1–64 (Register 64, No. 13).
4. Amendment of subsections (a), (b) and (c) and new subsection (d) filed 6–18–65; operative 7–1–65 (Register 65, No. 10).
5. Amendment of subsections (a) and (b) and repealer of subsections (c) and (d) filed 6–23–66; operative 7–2–66 (Register 66, No. 19).
6. Amendment of subsections (a) and (b) and new subsections (c) and (d) filed 6–15–67; operative 7–1–67 (Register 67, No. 24).
7. Amendment of subsections (a), (b), and (c) filed 6–13–68; operative 7–1–68 (Register 68, No. 22).
8. Amendment of subsections (a), (b), and (c) filed 5–29–69; operative 7–1–69 (Register 69, No. 22).
9. Amendment of subsections (a), (b), (c), and (d) filed 6–4–70; operative 7–1–70 (Register 70, No. 23).
10. Amendment of subsections (a), (b), and (c) filed 5–28–71; operative 7–1–71 (Register 71, No. 22).
11. Amendment of subsections (a), (b), and (c) filed 6–5–72; operative 7–5–72 (Register 72, No. 24).
12. Amendment of subsections (a), (b), and (c) filed 6–1–73; operative 7–1–73 (Register 73, No. 22).
13. Amendment of subsections (a), (b), and (c) filed 6–7–74; operative 7–1–74 (Register 74, No. 23).
14. Amendment of subsections (a), (b), (c) and (d) filed 6–6–75; operative 7–1–75 (Register 75, No. 23).
15. Amendment of subsections (a) and (b) filed 6–4–76; operative 7–1–76 (Register 76, No. 23).
16. Amendment of subsections (a) and (b) filed 6–14–77; operative 7–1–77 (Register 77, No. 25).
17. Amendment of subsections (a)(1) and (b)(1) filed 6–13–78; operative 7–13–78 (Register 78, No. 24).
18. Amendment of subsections (a)(1) and (b)(1) filed 5–11–79; (Register 79, No. 19).
19. Amendment of subsections (a)(1) and (b)(1) filed 5–19–80; operative 5–19–80 (Register 80, No. 21).
20. Amendment of subsections (a), (b) and (c) filed 5–13–81; operative 5–23–81 (Register 81, No. 20).
21. Amendment of subsections (a)(1) and (d) filed 7–1–86; operative 7–1–86 (Register 86, No. 27).
22. Amendment of subsection (a)(1), and new subsection (d) filed 9–11–86 as an emergency; operative 9–11–86 (Register 86, No. 37). A Certificate of Compliance must be transmitted to OAL no later than 1–9–87 or emergency language will be repealed by operation of law (Gov. C. § 11346.1).
23. Editorial correction of HISTORY 21. (Register 87, No. 7).
24. Emergency language as to 9–11–86 order including amendment approved and filed in final by OAL on 2–9–87 (Register 87, No.7).
25. Amendment of subsections (a)(1), (b)(1) and NOTE, and repealer of subsection (b)(2) filed 6–23–93; operative 6–23–93 pursuant to Fish and Game Code sections 202 and 215 (Register 93, No. 26).

§ 307.5. Archery and Falconry Tree Squirrels.

NOTE: Authority cited: Sections 200, 202, and 203, Fish and Game Code. Reference: Sections 200–203.1, 206, 207, 211–222, and 3800, Fish and Game Code.

HISTORY

1. Amendment of subsection (a)(1) filed 6–13–78; effective thirtieth day thereafter (Register 78, No. 24). For prior history, see Register 77, No. 25.
2. Amendment filed 5–11–79; designated effective 7–1–79 (Register 79, No. 19).
3. Amendment filed 5–19–80; designated effective 5–19–80 (Register 80, No. 21).
4. Repealer filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).

§ 308. Brush, Cottontail and Pigmy Rabbits, and Varying Hare (Snowshoe).

(a) General Season and Area: The general season shall open on July 1 extending through the last Sunday in January, and shall be open statewide except for that area described in (d) below.

(b) Falconry Rabbits and Hares. Brush, cottontail and pigmy rabbits and varying hare (snowshoe) may be taken with raptors only during the general rabbit and hare seasons and as follows: The season shall open on the first Monday following the close of the general season extending through the third Sunday in March, and shall be open statewide except for that area described in (d) below.

(c) Bag and Possession Limit in the Aggregate of All Species: Five per day, 10 in possession.

(d) The take of brush and cottontail rabbits is prohibited within the area described as follows: That portion of San Joaquin County generally located between Stockton and Tracy that is enclosed by the following lines: Beginning at the intersection of Stewart Road and Interstate 5; west along Stewart road to the intersection of Stewart Road and Old River; southwest along Old River to the intersection of Old River and Tom Paine Slough; south along Tom Paine Slough to the intersection of Tom Paine Slough and Sugar Cut; south along Sugar Cut to the intersection of Sugar Cut and Interstate 205; east along Interstate 205 to the intersection of Interstate 205 and Interstate 5; north along Interstate 5 to the intersection of Interstate 5 and Stewart Road.

NOTE: Authority cited: Sections 200, 202 and 203, Fish and Game Code. Reference: Sections 200–203.1, 207 and 222, Fish and Game Code.

HISTORY

1. Amendment of subsections (a)(1) and (b)(1) filed 6–13–78; effective thirtieth day thereafter (Register 78, No. 24). For prior history, see Register 77, No. 23.
2. Amendment filed 5–11–79; designated effective 7–1–79 (Register 79, No. 19).
3. Amendment of subsections (a) and (b) filed 5–19–80; designated effective 5–19–80 (Register 80, No. 21).
4. Amendment filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).
5. Amendment of subsection (c) and NOTE filed 6–26–96; operative 7–1–96 pursuant to section 11343.4(d) (Register 96, No. 26).
6. Amendment of subsections (a) and (b) and new subsection (d) filed 6–28–2002; operative 6–28–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 26).

§ 308.1. Falconry Rabbits.

HISTORY

1. Amendment filed 6–4–76; designated effective 7–1–76 (Register 76, No. 23). For prior history, see Register 75, No. 23.

2. Repealer filed 6–14–77; designated effective 7–1–77 (Register 77, No. 25).

§ 308.5. Crop Damage by Rabbits.

See Section 4186, Fish and Game Code.

HISTORY

1. New section filed 6–12–59; designated effective 7–1–59 (Register 59, No. 9).
2. Amendment filed 6–16–61; designated effective 7–1–61 (Register 61, No. 12).

§ 309. Jack Rabbits, Black–Tailed and White–Tailed.

(a) General Season and Area: The general season shall be open statewide all year.

(b) Bag and Possession Limit: No limit.

NOTE: Authority and reference cited: Sections 200, 202, and 203, Fish and Game Code. Reference: Sections 200–203.1, 206, 207, 211–222, and 3800, Fish and Game Code.

HISTORY

1. Amendment filed 6–14–77; designated effective 7–1–77 (Register 77, No. 25). For prior history, see Register 76, No. 23.
2. Amendment of subsection (a) filed 6–13–78; effective thirtieth day thereafter (Register 78, No. 24).
3. Amendment filed 5–11–79; designated effective 7–1–79 (Register 79, No. 19).
4. Amendment filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).

§ 309.5. Falconry Rabbits and Hares.

NOTE: Authority cited: Sections 200, 202, and 203, Fish and Game Code. Reference: Sections 200–203.1, 206, 207, 211–222, and 3800, Fish and Game Code.

HISTORY

1. New section filed 6–14–77; designated effective 7–1–77 (Register 77, No. 25).
2. Amendment filed 6–13–78; effective thirtieth day thereafter (Register 78, No. 24).
3. Amendment filed 5–11–79; designated effective 7–1–79 (Register 79, No. 19).
4. Amendment of subsections (a) and (b)(2) filed 5–19–80; designated effective 5–19–80 (Register 80, No. 21).
5. Repealer filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).

§ 310. Shooting Hours on Resident Small Game Mammals.

The shooting hours for all resident small game mammals shall be one–half hour before sunrise to one–half hour after sunset.

NOTE: Authority cited: Section 3000, Fish and Game Code. Reference: Section 3000, Fish and Game Code.

HISTORY

1. Amendment filed 6–4–70; designated effective 7–1–70 (Register 70, No. 23). For prior history, see Register 69, No. 22.
2. Amendment filed 8–20–76; effective tenth day thereafter (Register 76, No. 34).
3. New NOTE filed 9–16–81; designated effective tenth day thereafter (Register 81, No. 38).

§ 310.5. Shooting Hours for Upland Game Birds.

The shooting hours for all upland game birds, except for pheasants and the spring wild turkeys season, shall be from one–half hour before sunrise to sunset. The shooting hours for pheasants shall be from 8:00 a.m. to sunset. The shooting hours for the spring wild turkey season shall be from one–half hour before sunrise to 4:00 p.m.

NOTE: Authority cited: Section 3000, Fish and Game Code. Reference: Section 3000, Fish and Game Code.

HISTORY

1. New section filed 8–20–76; effective tenth day thereafter (Register 76, No. 34).
2. Amendment of NOTE filed 9–16–81; designated effective tenth day thereafter (Register 81, No. 38).
3. Amendment filed 8–18–82; effective upon filing pursuant to Government Code Section 11346.2(d) (Register 82, No. 34).
4. Amendment filed 8–24–83; designated effective tenth day thereafter (Register 83, No. 35).
5. Amendment filed 10–17–84; designated effective tenth day thereafter (Register 84, No. 42).
6. Amendment filed 9–27–85; effective tenth day thereafter (Register 85, No. 39).
7. Amendment filed 9–16–87; operative 9–16–87 pursuant to Fish and Game Code section 202 (Register 87, No. 38).
8. Amendment filed 9–16–93; operative 9–16–93 pursuant to sections 202 and 215, Fish and Game Code (Register 93, No. 38).
9. Amendment of section heading and repealer and new section filed 10–2–98; operative 10–2–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 40).

§ 311. Methods Authorized for Taking Resident Small Game.

Only the following may be used to take resident small game:

(a) Shotguns 10 gauge or smaller using shot shells only and incapable of holding more than three shells in the magazine and chamber combined. If a plug is used to reduce the capacity of a magazine to fulfill the requirements of this section, the plug must be of one piece construction incapable of removal without disassembling the gun;

(b) Shotgun shells may not be used or possessed that contain shot size larger than No. BB, except that shot size larger than No. 2 may not be used or possessed when taking wild turkey. All shot shall be loose in the shell.

(c) Muzzle–loading shotguns;

(d) Falconry;

(e) Bow and arrow (see Section 354 for archery equipment regulations);

(f) Air rifles firing pellets and powered by compressed air or gas (0.20 caliber minimum for taking wild turkey); and firearm rifles and pistols for taking rabbits and squirrels, except in Los Angeles County, in addition to the methods listed in (a), (b), (c), (d) and (e) above;

(g) In San Diego and Orange counties only, rabbits may be taken at any time during the open season by means of box traps. Such traps shall not exceed 24 inches in any dimension, shall be tended at least once every 24 hours, and shall show the name and address of the trap owner. All rabbits taken under this section shall be immediately killed and become a part of the daily bag limit;

(h) Electronic or mechanically–operated calling or sound–reproducing devices are prohibited when attempting to take resident game birds;

(i) Coursing dogs may be used to take rabbits;

(j) Archers hunting during any archery season may not possess a firearm while in the field engaged in archery hunting during an archery season;

(k) The use of live decoys is prohibited when attempting to take resident game birds;

(l) Pistols and revolvers may be used to take blue and ruffed grouse in those counties only and for the season described in Section 300(a)(1)(E).

(m) Crossbows, except for provisions of Section 354(d) and (g).

(n) Dogs may be used to take and retrieve resident small game.

NOTE: Authority cited: Sections 200, 202 and 203, Fish and Game Code. Reference: Sections 200 and 203, Fish and Game Code.

HISTORY

1. New subsection (m) filed 6–24–85 as an emergency; effective upon filing (Register 85, No. 27). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 10–22–85. For prior history, see Register 84, No. 42.
2. Notice of Erroneous Filing declaring 6–24–85 Certificate of Compliance null and void filed 7–2–85 by OAL (Register 85, No. 27).
3. Amendment filed 9–27–85; effective tenth day thereafter (Register 85, No. 39).
4. Certificate of Compliance as to 6–24–85 order transmitted to OAL 9–30–85 and filed 11–1–85 (Register 85, No. 44).
5. New subsection (n) filed 10–2–87; operative 10–2–87 (Register 87, No. 41).
6. Amendment of subsection (f) filed 6–26–96; operative 7–1–96 pursuant to section 11343.4(d) (Register 96, No. 26).
7. Amendment of subsection (f) filed 7–1–98; operative 7–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 27).
8. Amendment of subsection (f) filed 9–1–2000; operative 9–1–2000 pursuant to Fish and Game Code section 215 (Register 2000, No. 35).
9. Change without regulatory effect amending subsection *(l)* filed 7–24–2001 pursuant to section 100, title 1, California Code of Regulations (Register 2001, No. 30).
10. Amendment of subsection (g) filed 7–7–2004; operative 7–7–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 28).

§ 311.5. Prohibitions on Use of Firearms in Taking Resident and Migratory Game Birds.

HISTORY

1. Amendment filed 6–16–61; designated effective 7–1–61 (Register 61, No. 12).
2. Amendment filed 6–24–63; designated effective 7–1–63 (Register 63, No. 10).

3. Repealer filed 6–15–67; designated effective 7–1–67 (Register 67, No. 24).

§ 311.6. Prohibition of Rifles and Pistols in Picacho and Providence Mountains State Recreation Areas.

The use of rifles and pistols to take any bird or mammal is prohibited in Picacho and Providence Mountains State Recreation Areas.

NOTE: Authority cited: Sections 200, 202 and 203, Fish and Game Code. Reference: Sections 200, 202, 203, 206, 214, 214.5 and 220, Fish and Game Code.

HISTORY

1. New section filed 9–21–67 as an emergency; effective upon filing (Register 67, No. 38).
2. Certificate of Compliance—Section 11422.1, Gov. Code, filed 12–12–67 (Register 67, No. 50).
3. Amendment filed 6–5–72; effective thirtieth day thereafter (Register 72, No. 24).
4. Amendment of NOTE filed 9–16–81; designated effective tenth day thereafter (Register 81, No. 38).

§ 311.7. Use of Rifles and Pistols in Los Angeles County.

In Los Angeles County the use of rifles or pistols is prohibited in the taking of rabbits.

NOTE: Authority cited: Sections 200, 202 and 203, Fish and Game Code. Reference: Sections 200, 202, 203, 206, 214, 214.5 and 220, Fish and Game Code.

HISTORY

1. New NOTE filed 9–16–81; designated effective tenth day thereafter (Register 81, No. 38).

§ 311.8. Prohibition Against Shooting Resident Small Game from Boats.

HISTORY

1. Repealer filed 6–4–70; designated effective 7–1–70 (Register 70, No. 23).

§ 312. Sporting Hunting License: Non–Transferable Tags As Permits.

NOTE: Authority cited: Sections 200, 202, 203 and 3035, Fish and Game Code. Reference: Sections 200, 202, 203, 206, 211–214.5, 220, and 3035, Fish and Game Code.

HISTORY

1. New section 604 filed 7–6–51; effective thirtieth day thereafter (Register 25, No. 1).
2. Amendment filed 2–19–52; effective thirtieth day thereafter (Register 27, No. 4).
3. Renumbered from former section 604 (Register 59, No. 9).
4. Amendment filed 2–4–64; designated effective 7–1–64 (Register 64, No. 3).
5. Amendment of NOTE filed 9–16–81; designated effective tenth day thereafter (Register 81, No. 38).
6. Repealer filed 4–18–91; operative 5–18–91 (Register 91, No. 21).

§ 313. Upland Game Stamp.

Any adult License holder taking resident game birds including Chinese spotted doves, ringed turtle doves, of the family Columbidae; California quail and varieties thereof, Gambel's or desert quail, mountain quail and varieties thereof, blue, ruffed, and sage grouse, white–tailed ptarmigan, Hungarian partridges, red–legged partridges including the chukar and other varieties, ring–necked pheasants and varieties, and wild turkeys of the order Galliformes; and migratory game birds including common snipe, western mourning doves, white–winged doves, and band–tailed pigeons must have a current state upland game stamp affixed to their license.

NOTE: Authority cited: Sections 200, 201, 202, and 203, Fish and Game Code. Reference: Sections 3682 Fish and Game Code.

HISTORY

1. New section filed 7–15–93; operative 8–16–93 (Register 93, No. 29).

Chapter 3. Big Game

§ 350. Big Game Defined.

"Big game" means the following: deer (genus *Odocoileus*), elk (genus *Cervus*), pronghorn antelope (genus *Antilocarpa*), wild pig (feral pigs, European wild pigs and their hybrids (genus *Sus*), black bear (genus *Ursus*) and Nelson bighorn sheep (subspecies *Ovis canadensis nelsoni*) in the areas described in subsection 4902(b) of the Fish and Game Code.

NOTE: Authority cited: Sections 200, 202 and 203, Fish and Game Code. Reference: Sections 200, 202, 203, 203.1, 206, 211, 212, 213, 215, 3950, 4700, 4900 and 4902, Fish and Game Code.

HISTORY

1. Amendment filed 6–14–77; designated effective 7–1–77 (Register 77, No. 25). For prior history, see Register 76, No. 23.
2. Amendment filed 6–13–78; effective thirtieth day thereafter (Register 78, No. 24).
3. Amendment filed 5–11–79; designated effective 7–1–79 (Register 79, No. 19).
4. Amendment filed 5–19–80; designated effective 5–19–80 (Register 80, No. 21).
5. Renumbering and amendment of section 350 to section 360, and new section 350 filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).
6. Amendment filed 6–17–83; designated effective tenth day thereafter (Register 83, No. 25).
7. Editorial correction filed 6–17–83 (Register 83, No. 25).
8. Amendment filed 7–1–86; effective upon filing (Register 86. No. 27).
9. Amendment filed 6–22–87; operative 6–22–87 (Register 87, No. 27).
10. Amendment of section filed 6–28–91; operative 6–28–91 (Register 91, No. 42).

§ 350.5. Specially Protected Mammal Defined.

NOTE: Authority cited: Sections 200, 202 and 203, Fish and Game Code. Reference: Sections 200–203.1, 206, 207, 211–222 and 4850, Fish and Game Code.

HISTORY

1. New section filed 6–17–83; designated effective tenth day thereafter (Register 83, No. 25).
2. Repealer filed 7–1–86; effective upon filing (Register 86, No. 27).

§ 351. Forked–Horn Buck, Antlerless and Either–Sex Deer Defined.

(a) Forked–Horn Buck Defined. For the purpose of these regulations a forked–horn buck is defined as a male deer having a branched antler on either side with the branch in the upper two–thirds of the antler. Eyeguards or other bony projections on the lower one–third of the antler shall not be considered as points or branches.

(b) Antlerless Deer Defined. For the purpose of these regulations, antlerless deer are defined as female deer, fawns of either sex other than spotted fawns, and male deer with an unbranched antler on one or both sides which is not more than three inches in length.

(c) Either–Sex Deer Defined. For the purpose of these regulations, either–sex deer are defined as antlerless deer as described in Section 351 (b), or legal bucks that have two or more points in the upper two–thirds of either antler. Spike bucks may not be taken.

NOTE: Authority cited: Sections 200, 202 and 203, Fish and Game Code. Reference: Sections 200–203.1 and 207, Fish and Game Code.

HISTORY

1. Amendment filed 6–13–68; designated effective 7–1–68 (Register 68, No. 22).
2. New subsections (c) and (d) filed 5–11–79; designated effective 7–1–79 (Register 79, No. 19.)
3. Renumbering and amendment of section 351 to section 365 and renumbering and amendment of section 256 to section 351 filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20). For history of former section 351, see Registers 80, No. 21; 79, No. 19 and 78, No. 24.
4. Amendment of section heading and subsection (a), repealer of subsection (b) and subsection relettering, and amendment of newly designated subsection (c) and NOTE filed 6–23–93; operative 6–23–93 pursuant to Fish and Game Code sections 202 and 215 (Register 93, No. 26).

§ 352. Shooting Hours on Big Game.

Hunting and shooting hours for big game, including but not limited to deer, antelope, elk, bear, and wild pig shall be from one–half hour before sunrise to one–half hour after sunset.

NOTE: Authority cited: Sections 3000, Fish and Game Code. Reference: Sections 3000, and 3950, Fish and Game Code.

HISTORY

1. Amendment filed 6–4–70; designated effective 7–1–70 (Register 70, No. 23).
2. Amendment filed 5–28–71; designated effective 7–1–71 (Register 71, No. 22).
3. Amendment filed 6–5–72; effective thirtieth day thereafter (Register 72, No. 24).
4. Amendment filed 6–13–78; effective thirtieth day thereafter (Register 78, No. 24).

5. Renumbering of Section 356 to Section 352 filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20). For history of former Section 352, see Registers 72, No. 24; 71, No. 22 and 70, No.23.

§ 353. Methods Authorized for Taking Big Game.

(a) Except for the provisions of subsections 353(b) through (h), Title 14, CCR, big game (as defined by Section 350, Title 14, CCR) may only be taken by rifles using centerfire cartridges with softnose or expanding projectiles; bow and arrow (see Section 354, Title 14, CCR, for archery equipment regulations); or wheellock, matchlock, flintlock or percussion type, including "in–line" muzzleloading rifles using black powder or equivalent black powder substitute, including pellets, with a single projectile loaded from the muzzle and at least .40 caliber in designation. For purposes of Section 353, a "projectile" is defined as any bullet, ball, sabot, slug, buckshot or other device which is expelled from a firearm through a barrel by force.

(b) Shotguns capable of holding not more than three shells firing single slugs may be used for the taking of deer, bear and wild pigs. In areas where the discharge of rifles or shotguns with slugs is prohibited by county ordinance, shotguns capable of holding not more than three shells firing size 0 or 00 buckshot may be used for the taking of deer only.

(c) Pistols and revolvers using centerfire cartridges with softnose or expanding projectiles may be used to take deer, bear, and wild pigs.

(d) Pistols and revolvers with minimum barrel lengths of 4 inches, using centerfire cartridges with softnose or expanding projectiles may be used to take elk and bighorn sheep.

(e) Except as provided in subsection 354(j), crossbows may be used to take deer and wild pigs only during the regular seasons.

(f) Under the provisions of a muzzleloading rifle only tag, hunters may only possess muzzleloading rifles as described in subsection 353(a) equipped with open or "peep" type sights only.

(g) Under the provisions of a muzzleloading rifle/archery tag, hunters may only possess muzzleloading rifles with sights as described in subsection 353(f); archery equipment as described in Section 354; or both. For purposes of this subsection, archery equipment does not include crossbows, except as provided in subsection 354(j).

(h) Methods of take within the California condor range. Except as otherwise provided, it is unlawful to use or possess projectiles containing more than one percent lead by weight while taking or attempting to take any big game (as defined in Section 350, Title 14, CCR) in those areas described in Section 3004.5, Fish and Game Code.

(1) Except as otherwise provided, it is unlawful to possess any projectile containing lead in excess of the amount permitted in subsection 353(h) and a firearm capable of firing the projectile while taking or attempting to take any big game within the area described in subsection 353(h). The possession of a projectile containing lead in excess of the amount allowed in subsection 353(h) without possessing a firearm capable of firing the projectile is not a violation of this section.

(i) Except as otherwise provided, while taking or attempting to take big game under the provisions of Section 353 or Section 354, Title 14, CCR, it is unlawful to use any device or devices which: 1) throw, cast or project an artificial light or electronically alter or intensify a light source for the purpose of visibly enhancing an animal; or 2) throw, cast or project an artificial light or electronically alter or intensify a light source for the purpose of providing a visible point of aim directly on a animal. Devices commonly referred to as "sniperscopes", night vision scopes or binoculars, or those utilizing infra–red, heat sensing or other non–visible spectrum light technology used for the purpose of visibly enhancing an animal or providing a visible point of aim directly on a animal are prohibited and may not be possessed while taking or attempting to take big game. Devices commonly referred to as laser rangefinders, "red–dot" scopes with self–illuminating reticles, and fiberoptic sights with self–illuminating sight or pins which do not throw, cast or project a visible light onto an animal are permitted.

NOTE: Authority cited: Sections 200, 202 and 203, Fish and Game Code. Reference: Sections 200, 202, 203, 203.1, 207, 2005, 2055, 3004.5 and 3950, Fish and Game Code.

HISTORY

1. Repealer and new section filed 6–22–87; operative 6–22–87 (Register 87, No. 27). For prior history, see Register 85, No. 44.
2. Amendment of subsection (e) and new subsection (g) filed 5–31–88; operative 5–31–88 (Register 88, No. 23).
3. Amendment of subsection (a) and new subsection (h) filed 10–15–90 as an emergency; operative 10–15–90 (Register 90, No. 46). A Certificate of Compliance must be transmitted to OAL by 2–12–91 or emergency language will be repealed by operation of law on the following day.
4. Reinstatement of section as it existed prior to emergency amendment filed 10–15–90 by operation of Government Code section 11346.1(f) (Register 91, No. 49).
5. Amendment of subsection (a) filed 7–8–92; operative 7–8–92 pursuant to Fish and Game Code section 215 (Register 92, No. 28).
6. Amendment of subsections (b) and (c) and NOTE filed 6–23–93; operative 6–23–93 pursuant to Fish and Game Code sections 202 and 215 (Register 93, No. 26).
7. Amendment of subsections (a) and (g) filed 7–13–94; operative 7–13–94 pursuant to sections 202 and 215, Fish and Game Code (Register 94, No. 28).
8. Change without regulatory effect amending subsection (g) filed 3–28–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 13).
9. Amendment of subsection (a), new subsection (d), repealer of subsections (e) and (f), subsection relettering, and amendment of newly designated subsection (f) filed 7–1–98; operative 7–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 27).
10. Amendment of subsection (a) and new subsection (g) filed 6–27–2000; operative 6–27–2000 pursuant to Fish and Game Code sections 202 and 205 (Register 2000, No. 26).
11. Amendment of subsections (a) and (e)–(g), new subsection (h) and amendment of NOTE filed 7–7–2004; operative 7–7–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 28).
12. Amendment of subsections (a), (c) and (d), new subsections (h)–(h)(1), subsection relettering and amendment of NOTE filed 5–15–2008; operative 7–1–2008 (Register 2008, No. 20).

§ 354. Archery Equipment and Crossbow Regulations.

(a) Bow, as used in these regulations, means any device consisting of a flexible material having a string connecting its two ends and used to propel an arrow held in a firing position by hand only. Bow, includes long bow, recurve or compound bow.

(b) Crossbow, as used in these regulations means any device consisting of a bow or cured latex band or other flexible material (commonly referred to as a linear bow) affixed to a stock, or any bow that utilizes any device attached directly or indirectly to the bow for the purpose of keeping a crossbow bolt, an arrow or the string in a firing position. Except as provided in subsection 354(j), a crossbow is not archery equipment and cannot be used during the archery deer season.

(c) For the taking of big game, hunting arrows and crossbow bolts with a broad head type blade which will not pass through a hole seven–eighths inch in diameter shall be used. Mechanical/retractable broad heads shall be measured in the open position. For the taking of migratory game birds, resident small game, furbearers and nongame mammals and birds any arrow or crossbow bolt may be used except as prohibited by subsection (d) below.

(d) No arrows or crossbow bolt with an explosive head or with any substance which would tranquilize or poison any animal may be used. No arrows or crossbow bolt without flu–flu fletching may be used for the take of pheasants and migratory game birds, except for provisions of section 507(a)(2).

(e) No arrow or crossbow bolt may be released from a bow or crossbow upon or across any highway, road or other way open to vehicular traffic.

(f) No bow or crossbow may be used which will not cast a legal hunting arrow, except flu–flu arrows, a horizontal distance of 130 yards.

(g) Except as described in subsection 354(j), crossbows may not be used to take game birds and game mammals during archery seasons.

(h) Except as provided in subsection 353(g), archers may not possess a firearm while hunting in the field during any archery season, or while hunting during a general season under the provisions of an archery only tag.

(i) No person may nock or fit the notch in the end of an arrow to a bowstring or crossbow string in a ready–to–fire position while in or on any vehicle.

(j) Upon application to the department, the department may issue a Disabled Archer Permit, free of any charge or fee, to any person with a physical disability, as defined in 354(k), which prevents him/her from being able to draw and hold a bow in a firing position. The Disabled Archer Permit authorizes the disabled archer to use a crossbow or device which holds a string and arrow in the firing position to assist in the taking of birds and mammals under the conditions of an archery tag or during archery season.

(1) Applications for a Disabled Archer Permit, 2005/2006 Disabled Archer Permit Application, (Form FG 537 (New 1/05) shall be submitted to the department at the address specified on the application and shall include:

(A) Applicant's name
(B) Applicant's physical address
(C) Applicant's date of birth
(D) Applicant's Driver's License or DMV Number
(E) Applicant's valid hunting license number
(F) Applicant's telephone number

[The next page is 121.]

(G) Applicant's signature
(H) Medical Physician's name
(I) Medical Physician's business address
(J) Medical Physician's business telephone number
(K) Medical Physician's State medical license number
(L) A description of the disabled archer's disability
(M) Medical Physician's signature
(N) Signature of the authorizing department employee and date issued

(2) The valid Disabled Archer Permit shall be in the archer's immediate possession while hunting and shall be shown on demand to any person authorized to enforce this regulation.

(3) The Disabled Archer Permit is valid from July 1 through June 30 of the following year.

(k) For the purposes of this section a physical disability means, a person having a permanent loss, significant limitation, or diagnosed disease or disorder, which substantially impairs one or both upper extremities preventing a hunter to draw and hold a bow in a firing position.

NOTE: Authority cited: Sections 200, 202, 203 and 240, Fish and Game Code. Reference: Sections 200, 202, 203 and 203.1, Fish and Game Code.

HISTORY

1. Amendment of subsections (a) and (f) filed 6–24–85 as an emergency; effective upon filing (Register 85, No. 27). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 10–22–85.
2. Notice of Erroneous Filing declaring 6–24–85 Certificate of Compliance null and void filed 7–2–85 (Register 85, No. 27).
3. Amendment filed 9–27–85; effective tenth day thereafter (Register 85, No. 39).
4. Amendment of subsection (d) filed 10–11–85; effective upon filing (Register 85, No. 44).
5. Certificate of Compliance as to 6–24–85 order transmitted to OAL 9–30–85 and filed 11–1–85 (Register 85, No. 44).
6. Amendment of subsections (b) and (c) filed 6–22–87; operative 6–22–87 (Register 87, No. 27).
7. Amendment of subsection (c) filed 10–15–90 as an emergency; operative 10–15–90 (Register 90, No. 46). A Certificate of Compliance must be transmitted to OAL by 2–12–91 or emergency language will be repealed by operation of law on the following day.
8. Reinstatement of section as it existed prior to emergency amendment filed 10–15–90 by operation of Government Code section 11346.1(f) (Register 91, No. 49).
9. Amendment of subsection (f) and NOTE and new subsection (i) filed 7–8–92; operative 7–8–92 pursuant to Fish and Game Code section 215 (Register 92, No. 28).
10. Change without regulatory effect amending subsection (d) filed 7–24–2001 pursuant to section 100, title 1, California Code of Regulations (Register 2001, No. 30).
11. Amendment of subsection (c) filed 6–24–2003; operative 7–1–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 26).
12. Amendment of subsections (b) and (g)–(h) and new subsection (j) filed 7–7–2004; operative 7–7–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 28).
13. Amendment of subsection (j) and new subsections (j)(1)–(k) filed 7–19–2005; operative 7–19–2005 pursuant to Government Code section 11343.4 (Register 2005, No. 29).

§ 355. Ammunition Authorized for Taking Big Game and Nongame Birds and Nongame Mammals in Condor Range.

In addition to those conditions provided for in sections 353 and 475, only centerfire rifle, centerfire pistol, muzzleloading, shotgun slug, and rimfire ammunition using projectiles certified pursuant to this section as containing no lead (as defined by subsection 353(h)) shall be used for the taking of big game and nongame birds and nongame mammals in condor range (see subsection 353(h)).

(a) Ammunition Certification Process. Any person or manufacturer of ammunition or projectiles wishing to have their ammunition or projectiles certified for hunting big game or nongame birds and nongame mammals in condor range shall submit the information identified in subsections (b)(1)–(5) to the California Department of Fish and Game, Wildlife Programs Branch, Sacramento. The Department shall accept or reject the request within 60 days of receipt. The ammunition or projectiles whose request has been accepted will be added to the list entitled "Certified ammunition and projectiles for hunting big game and nongame birds and nongame mammals in condor range" maintained by the Department.

(b) Information required for consideration of certification:

(1) Name of Manufacturer of ammunition or projectile, address, and contact information.

(2) For ammunition certifications, information shall specify as to caliber, cartridge designation, and projectile. Projectile specifications shall include unique identifying characteristics and percent content of lead by weight.

(3) For projectile certifications, information shall specify as to unique identifying characteristics and percent content of lead by weight.

(4) Signed statement verifying that all information provided is accurate.

(5) Digital color image of projectile or ammunition.

(c) The Department shall determine, based on information supplied, if the projectile contains less than the percent lead content by weight as defined in 353(h).

(d) The Department shall update the list of certified ammunition and projectiles no less than once annually and make it available to hunters.

(e) The Department shall decertify and remove from the list any projectiles or ammunition if information is received that it does not meet the standards set forth in subsection (b) within 60 days of receipt.

HISTORY

1. New subsection (g) filed 5–11–79; designated effective 7–1–79 (Register 79, No. 19). For prior history, see Register 78, No. 24.
2. Repealer filed 6–7–82; designated effective tenth day thereafter (Register 82, No. 24).

§ 359.5. Use of Crossbows.

NOTE: Authority cited: Sections 200, 202, and 203, Fish and Game Code. Reference: Sections 200–203.1, 206, 207, and 211–222, Fish and Game Code.

HISTORY

1. Amendment filed 6–14–77; designated effective 7–1–77 (Register 77, No. 25).
2. Repealer filed 6–7–82; designated effective tenth day thereafter (Register 82, No. 24).

§ 360. Deer.

Except as otherwise provided in this Title 14, deer may be taken only as follows:

(a) A, B, C, and D Zone Hunts.

(1) Zone A.

(A) Area: Shall include all of Zone A–South Unit 110 and Zone A–North Unit 160 (see subsections 360(a)(1)(A)1. through 2.).

1. South Unit 110. In those portions of Alameda, Contra Costa, Fresno, Kern, Kings, Los Angeles, Madera, Merced, Monterey, San Benito, San Joaquin, San Luis Obispo, San Mateo, Santa Barbara, Santa Clara, Santa Cruz, Stanislaus, Tulare and Ventura counties within a line beginning at the intersection of Highway 99 and the San Joaquin–Sacramento county line at Dry Creek; south on Highway 99 to Highway 166 in Kern County; west on Highway 166 to Highway 33; south on Highway 33 to Sespe Creek; east and south along Sespe Creek to Highway 126; east on Highway 126 to Interstate 5; south on Interstate 5 and 405 to Interstate 10; west on Interstate 10 to the Pacific Ocean; north on the Pacific Ocean coastline to the San Mateo–San Francisco county line; east on the San Mateo–San Francisco county line to the Alameda county line; north on the Alameda–San Francisco county line to the Contra Costa–San Francisco county line; northwest on Contra Costa–San Francisco county line to the Contra Costa–Marin county line; northeast on the Contra Costa–Marin county line to the Contra Costa–Solano county line in San Pablo Bay; east on the Contra Costa–Solano county line and the Sacramento River to the confluence of the San Joaquin River and Sacramento–Contra Costa county line; east on the Sacramento–Contra Costa county line and San Joaquin River to the confluence of the Mokelumne River and San Joaquin–Sacramento county line; northeast on the San Joaquin–Sacramento county line and Mokelumne River to the confluence of Dry Creek; east on the San Joaquin–Sacramento county line and Dry Creek to the point of beginning at Highway 99.

2. North Unit 160. In those portions of Colusa, Glenn, Lake, Marin, Mendocino, Napa, Sacramento, Solano, Sonoma and Yolo within a line beginning at the junction of the mouth of Hardy Creek (Mendocino County) and the Pacific Ocean; east along Hardy Creek to Highway 1; north along Highway 1 to Highway 101; south along Highway 101 to Commercial Avenue in the town of Willits; east on Commercial Avenue to the Hearst–Willits Road (County Road 306); north and east on the Hearst–Willits Road to the Main Eel River; southeast on the Main Eel River to Lake Pillsbury at Scott Dam; southeast along the west shore of Lake Pillsbury and the Rice Fork of the Eel River to Forest Service Road M–10; east on Forest Service Road M–10 to Forest Service Road 17N16; east on Forest Service Road 17N16 to Forest Service Road M–10; east on Forest Service Road M–10 to Letts Valley–Fouts Spring Road; east on the Letts Valley–Fouts Spring Road to the Elk Creek–Stonyford Road (County Road 306); north on the Elk Creek–Stonyford Road to the Glenn–Colusa county line; east along the Glenn–Colusa County line to Interstate 5; Interstate 5 south to Highway 99 in the City of Sacramento; Highway 99 south to the Sacramento/San Joaquin County line at Dry Creek, west along the Sacramento/San Joaquin County line and Dry Creek to the confluence with the Mokelumne River, southwest on the Sacramento/San Joaquin County line and Mokelumne River to the confluence with the San Joaquin River and Sacramento/Contra Costa County line, west on the Sacramento/Contra Costa County line and San Joaquin River to the confluence of the Sacramento River and Solano/Contra Costa County line, west on the Sacramento River and Solano/Contra Costa County line to the Marin County line in San Pablo Bay, southwest on the Marin/Contra Costa and Marin/San Francisco county lines to the North Peninsula shoreline near the Golden Gate Bridge, west on the shoreline to the Pacific Ocean coastline, northwest on the Pacific Ocean coastline to the point of beginning.

(B) Season: The season in Zone A–South Unit 110 and Zone A–North Unit 160 shall open on the second Saturday in August and extend for 44 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better, per tag.

(D) Number of Tags: 65,000. Zone A tags are valid in Zone A–South Unit 110 and Zone A–North Unit 160.

(2) Zone B.

(A) Area: Shall include all of Zones B–1, B–2, B–3, B–4, B–5 and B–6 (see subsections 360(a)(2)(A) 1–6).

1. Zone B–1.

In the County of Del Norte and those portions of Glenn, Humboldt, Lake, Mendocino, Siskiyou and Trinity counties within a line: Beginning at the California–Oregon state line and the Pacific Ocean; east along the state line to the point where Cook–Green Pass Road (Forest Service Road 48N20) intersects the California–Oregon state line; south on the Cook–Green Pass Road to Highway 96 near Seiad Valley; west and south along Highway 96 to Highway 299 at Willow Creek; southeast along Highway 299 to the South Fork of the Trinity River; southeast along the South Fork of the Trinity River to the boundary of the Yolla Bolly–Middle Eel Wilderness Area; southwest along the boundary of the Yolla Bolly–Middle Eel Wilderness Area to the Four Corners Rock–Washington Rock Trail; south and east on the Four Corners Rock–Washington Rock Trail to the North Fork of Middle Fork Eel River; south on the North Fork of Middle Fork Eel River to Middle Fork Eel River; east on Middle Fork Eel River to confluence with Balm of Gilead Creek; north and east on Balm of Gilead Creek to confluence with Minnie Creek; east and south on Minnie Creek to Soldier Ridge Trail; north on Soldier Ridge Trail to Summit Trail; south on Summit Trail to Green Springs Trail head at Pacific Crest Road (U.S. Forest Service Road M–2); south on the Mendocino Pass Road to the intersection of Forest Highway 7; west on Forest Highway 7 to the Middle Fork of the Eel River near Eel River Work Center; southwest on the Middle Fork of the Eel River to the Black Butte River; Black Butte River to the Glenn–Mendocino county line; south along the Glenn–

Mendocino and Lake–Mendocino county lines to the northern boundary of State Game Refuge 2–A; east and south along the northern and eastern boundaries of State Game Refuge 2–A to the Glenn–Lake near Sheetiron Mountain; south along the Glenn–Lake and Colusa–Lake county lines to Forest Service Road 17N16; west on Forest Service Road 17N16 to Forest Service Road M–10; west on Forest Service Road M–10 to the Rice Fork of the Eel River; northwest along the Rice Fork of the Eel River and the shore of Lake Pillsbury to the Main Eel River at Scott Dam; west and north along the Main Eel River to the Hearst–Willits Road; southwest on the Hearst–Willits Road to Commercial Avenue; west on Commercial Avenue to Highway 101; north on Highway 101 to Highway 1 at Leggett; west on Highway 1 to its intersection with the South Fork of the Eel River; north and west along the South Fork of the Eel River to the main Eel River; west and north along the main Eel River to mouth of the Eel River and north along the Pacific coastline to the point of beginning.

2. Zone B–2.

In those portions of Humboldt, Shasta, Siskiyou, Tehama, and Trinity counties within a line beginning at the intersection of Interstate 5 and Highway 299 in Redding; west on Highway 299 to the Bully Choop Mountain Road at the Shasta–Trinity county line and Buckhorn Summit; south on the Bully Choop Mountain Road to a point where this road leaves the Shasta–Trinity county line at Mud Springs; southwest along the Shasta–Trinity county line to the Browns Creek–Harrison Gulch Road; south on the Browns Creek–Harrison Gulch Road to Highway 36; east on Highway 36 (200 yards) to Forest Service Arterial Road 41; south on Forest Service Arterial Road 41 to Stuart Gap at the Tehama–Trinity county line; south on the Tehama–Trinity county line to the north boundary of the Yolla Bolly–Middle Eel Wilderness Area; west and south on the Yolla Bolly–Middle Eel Wilderness boundary to the South Fork of the Trinity River; north and west along the South Fork of the Trinity River to Highway 299; west and north on Highway 299 to Highway 96 at Willow Creek; north on Highway 96 to the Cecilville–Salmon River Road (Forest Service Road 93) at Somes Bar; east along the Cecilville–Salmon River Road to Highway 3 at Callahan; east along Highway 3 to the Gazelle–Callahan Road (Forest Service Road 1219); east along the Gazelle–Callahan Road to Highway 99; north along Highway 99 to Louie Road; east along Louie Road to Interstate 5; south along Interstate 5 to the point of beginning.

3. Zone B–3.

In those portions of Colusa, Glenn, Lake, Mendocino, and Tehama counties within a line beginning at the intersection of Interstate 5 and Black Butte Reservoir Road; south on Interstate 5 to the Glenn–Colusa county line; west along the Glenn–Colusa county line to the Elk Creek–Stonyford Road (County Road 306); south on the Elk Creek–Stonyford Road to the Letts Valley–Fouts Spring Road; west on the Letts Valley–Fouts Spring Road through Fouts Spring to Forest Service Road M–10; west on Forest Service Road M–10 to the Colusa–Lake county line; north along the Colusa–Lake and Glenn–Lake county lines to the eastern boundary of State Game Refuge 2–A, near Sheetiron Mountain; north and west along the eastern and northern boundaries of State Game Refuge 2–A to the Lake–Mendocino county line; north on the Lake–Mendocino and Glenn–Mendocino county lines to the Black Butte River; northwest along the Black Butte River to the Middle Fork of the Eel River; east and north along the Middle Fork of the Eel River to Forest Highway 7 near the Eel River Work Center; east on Forest Highway 7 to the Low Gap–Government Flat Road; north on the Low Gap–Government Flat Road to the Round Valley–Paskenta Road at Government Flat; east on the Round Valley–Paskenta Road to the Black Butte Lake–Newville Road; south and east on the Black Butte Lake–Newville Road to Interstate 5 at the point of beginning.

4. Zone B–4.

In those portions of Mendocino and Humboldt counties within a line beginning at the mouth of Hardy Creek and the Pacific Ocean; north along the Pacific coastline to the mouth of the Eel River; east and south along the main Eel River to the South Fork of the Eel River; south along the South Fork of the Eel River to state Highway 1 at Leggett; west on state Highway 1 to Hardy Creek; west along Hardy Creek to the point of beginning.

5. Zone B–5.

In those portions of Glenn, Mendocino, Shasta, Tehama and Trinity counties within a line beginning at the intersection of Highway 299 and Interstate 5 in Redding; south along Interstate 5 to the Black Butte Lake–Newville Road near Orland; west and north on the Black Butte Lake–Newville Road to the Round Valley–Paskenta Road; west on the Round Valley–Paskenta Road to the Pacific Crest Road (U.S. Forest Service Road M–2) near Government Flat; north on the Pacific Crest Road to the Summit Trailhead at Green Springs; north along Summit Trail to Soldier Ridge Trail; south and west along Soldier Ridge Trail to Minnie Creek; north and west on Minnie Creek to Balm of Gilead Creek; west on Balm of Gilead Creek to the Middle Fork of the Eel River; west on the Middle Fork of the Eel River to the North Fork of the Middle Fork of the Eel River; north on the North Fork of the Middle Fork of the Eel River to the Four Corners Rock–Washington Rock Trail; north and west on the Four Corners Rock–Washington Rock Trail to the boundary of the Yolla Bolly–Middle Eel Wilderness Area; north along the boundary of the Yolla Bolly–Middle Eel Wilderness Area to the Tehama–Trinity county line; north on the Tehama–Trinity county line to Forest Service Arterial Road 41 at Stuart Gap; north on Forest Service Arterial Road 41 to Highway 36; west on Highway 36 (200 yards) to the Browns Creek–Harrison Gulch Road; north on the Browns Creek–Harrison Gulch Road to the Shasta–Trinity county line; northeast along the Shasta–Trinity county line to Mud Springs, where the Bully Choop Mountain Road joins the Shasta–Trinity county line; north on the Bully Choop Mountain Road to Highway 299 at Buckhorn Summit and the Shasta–Trinity county line; east on HIghway 299 to Interstate 5 in Redding.

6. Zone B–6.

In that portion of Siskiyou County within a line beginning at the California–Oregon state line and its intersection with Interstate 5; south on Interstate 5 to Louie Road near Gazelle; west on Louie Road to Highway 99; south on Highway 99 to the Gazelle–Callahan Road at Gazelle; west on the Gazelle–Callahan Road to Highway 3; west on Highway 3 to the Cecilville–Salmon River Road (Forest Service Road 93) at Callahan; west on the Cecilville–Salmon River Road to Highway 96 at Somes Bar; north on Highway 96 to the Cook–Green Pass Road at Seiad Valley; north on the Cook–Green Pass Road to the California–Oregon state line; east along the California–Oregon state line to Interstate 5.

(B) Season: The seasons for the B Zone shall be those specified for the areas described as B–1, B–2, B–3, B–4, B–5 and B–6 (see subsections 360(a)(2)(B)1–6).

1. Zone B–1.

The season in Zone B–1 shall open on the third Saturday in September and extend for 37 consecutive days.

2. Zone B–2.

The season in Zone B–2 shall open on the third Saturday in September and extend for 37 consecutive days.

3. Zone B–3.

The season in Zone B–3 shall open on the third Saturday in September and extend for 37 consecutive days.

4. Zone B–4.

The season in Zone B–4 shall open on the fourth Saturday in August and extend for 37 consecutive days.

5. Zone B–5.

The season in Zone B–5 shall open on the third Saturday in September and extend for 37 consecutive days.

6. Zone B–6.

The season in Zone B–6 shall open on the third Saturday in September and extend for 30 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better, per tag.

(D) Number of Tags: 55,500. Zone B tags are valid in Zones B–1, B–2, B–3, B–4, B–5 and B–6

(3) Zone C.

(A) Area: Shall include all of Zones C–1, C–2, C–3, and C–4 (see subsections 360(a)(3)(A)1. through 4.).

1. Zone C–1.

In that portion of Siskiyou County within a line beginning at the California–Oregon state line and its intersection with Interstate 5; south on Interstate 5 to Highway 97 at Weed; north and east on Highway 97 to the intersection with the California–Oregon state line; west on the California–Oregon state line to the point of beginning.

2. Zone C–2.

In those portions of Shasta and Siskiyou counties within a line beginning at the junction of Interstate 5 and Highway 89 south of the town of Mt. Shasta; east and south on Highway 89 to the Pit River at Lake Britton; west and south along the Pit River to Interstate 5 at Shasta Lake; north on Interstate 5 to the point of beginning.

3. Zone C–3.

In that portion of Shasta County within a line beginning at the intersection of Cottonwood Creek and Interstate 5 at Cottonwood; north on Interstate 5 to the Pit River at Shasta Lake; east and north on the Pit River to Highway 89 at Lake Britton; south on Highway 89 to Highway 44 at Old Station; south and west on Highway 44 to the North Fork of Battle Creek; southwest on the North Fork of Battle Creek to Battle Creek; west on Battle Creek to the Sacramento River; north on the Sacramento River to the mouth of Cottonwood Creek; west on Cottonwood Creek to the point of beginning.

4. Zone C–4.

In those portions of Butte, Glenn, Lassen, Plumas, Shasta, and Tehama counties within a line beginning at the junction of Interstate 5 and Cottonwood Creek at Cottonwood; east on Cottonwood Creek to the Sacramento River; south on the Sacramento River to Battle Creek; east on Battle Creek to the North Fork of Battle Creek; northeast on the North Fork of Battle Creek to Highway 44; east on Highway 44 to Highway 89 at the north entrance of Lassen Volcanic National Park; north and east on Highway 89 and 44 to the junction of Highway 44 at Old Station; south and east on Highway 44 to Highway 36 west of Susanville; west on Highway 36 to Highway 147 near Westwood; south on Highway 147 to Highway 89; south on Highway 89 to Highway 70; southwest on Highway 70 to Highway 162 at Oroville; west on Highway 162 to Interstate 5; north on Interstate 5 to Cottonwood Creek to the point of beginning.

(B) Season: The seasons for the C Zone shall be those specified for the areas described as C–1, C–2, C–3, and C–4 (see subsections 360(a)(3)(B)1. through 4.).

1. Zone C–1.

The season in Zone C–1 shall open on the third Saturday in September and extend for 30 consecutive days.

2. Zone C–2.

The season in Zone C–2 shall open on the third Saturday in September and extend for 37 consecutive days.

3. Zone C–3.

The season in Zone C–3 shall open on the third Saturday in September and extend for 37 consecutive days.

4. Zone C–4.

The season in Zone C–4 shall open on the third Saturday in September and extend for 16 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better, per tag.

(D) Number of Tags: 8,575. Zone C tags are valid in Zones C–1, C–2, C–3, and C–4 during the general season only as described above in subsections 360(a)(3)(B)1. through 4.

(4) Zone D–3–5.

(A) Area: Shall include all of zones D–3, D–4, and D–5 (see subsections 360(a)(4)(A)1. through 3.).

1. Zone D–3.

In those portions of Butte, Colusa, Glenn, Nevada, Placer, Plumas, Sierra, Sutter and Yuba counties within a line beginning at the junction of Interstate 5 and Highway 162 at Willows; east on Highway 162 to Highway 70 at Oroville; northeast on Highway 70 to Highway 89; south on Highway 89 to the new Gold Lake Road (near Graeagle); south on the new Gold Lake Road to Highway 49 at Bassetts; east on Highway 49 to Yuba Pass; south on the Yuba Pass–Webber Lake Road (main haul road) through Bonta Saddle to the Jackson Meadows Highway (Fiberboard Road); west on the Jackson Meadows Highway for two miles to the White Rock Lake Road; south on the White Rock Lake Road to the new road to White Rock Lake (below Bear Valley); south and east on the new White Rock Lake Road to the Pacific Crest Trail (one mile west of White Rock Lake in section 21, T18N, R14E, M.D.B.M.); south and east on the Pacific Crest Trail to Interstate 80 near the Castle Peak–Boreal Ridge Summit; west on Interstate 80 to Highway 20; west on Highway 20 to the Bear River in Bear Valley; west along the Bear River to Highway 65 near Wheatland; north on Highway 65 to Highway 70; north on Highway 70 to Highway 20 in Marysville; west on Highway 20 to Interstate 5 at Williams; north on Interstate 5 to the point of beginning.

2. Zone D–4.

In those portions of Colusa, Nevada, Placer, Sacramento, Sutter, Yolo and Yuba counties within a line beginning at the junction of Interstate 5 and Highway 20 at Williams; east on Highway 20 to Highway 70 in Marysville; south on Highway 70 to Highway 65; south on Highway 65 to the Bear River (south of Wheatland); east along the Bear River to Highway 20; east on Highway 20 to Interstate 80; east on Interstate 80 to the Pacific Crest Trail near the Castle Peak–Boreal Ridge Summit; south on the Pacific Crest Trail to Forest Route 03 at Barker Pass; east and north along Forest Route 03 to Blackwood Canyon Road; east along Blackwood Canyon Road to Highway 89 at Lake Tahoe near Idlewild; south on Highway 89 to Blackwood Creek; east on Blackwood Creek to the Lake Tahoe shoreline; south along the shore of Lake Tahoe to the mouth of Miller Creek and the common boundary between the Eldorado and Tahoe National Forests; west along Miller Creek to the Rubicon River; west along the Rubicon River through Hell Hole Reservoir to the Middle Fork of the American River; west along the Middle Fork of the American River to the American River; west along the American River to Interstate 5; north on Interstate 5 to the point of beginning.

3. Zone D–5.

In the counties of Amador and Calaveras and those portions of Alpine, El Dorado, Placer, Sacramento, San Joaquin, Stanislaus and Tuolumne counties within a line beginning at the junction of Interstate 5 and the American River in Sacramento; east along the American River to the Middle Fork of the American River; northeast along the Middle Fork of the American River to the Rubicon River; east along the Rubicon River through Hell Hole Reservoir to its confluence with Miller Creek; east along Miller Creek to its junction with the new (marked) USFS Pacific Crest Trail; north on the Pacific Crest Trail one–quarter mile to a junction with the McKinney–Rubicon Springs Road (Miller Lake Road); east along the McKinney–Rubicon Springs Road to McKinney Creek (NE 1/4, section 23, T14N, R16E, M.D.B.M.); east along McKinney Creek to the west shoreline of Lake Tahoe near Chambers Lodge; south along the shore of Lake Tahoe to the California–Nevada state line; southeast along the California–Nevada state line to Highway 50; southwest on Highway 50 to the Pacific Crest Trail at Echo Summit; south along the Pacific Crest Trail to the township line between Townships 7 and 8 North near Wolf Creek Pass; due west on that township line to the road connecting Lower and Upper Highland Lakes at Lower Highland Lake; west along that road to Highland Creek; southwest along Highland Creek to the North Fork of the Stanislaus River; west along the North Fork of the Stanislaus River to the Stanislaus River; west along the Stanislaus River to Highway 99; north along Highway 99 to Interstate 80; west on Interstate 80 to Interstate 5; north on Interstate 5 to the point of beginning.

(B) Season: The season for zones for D–3 through D–5 shall open on the fourth Saturday in September and extend for 37 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (See subsection 351(a)) or better, per tag.

(D) Number of Tags: 33,000. The Zone D–3–5 tag is valid in zones D–3, D–4, and D–5.

(5) Zone D–6.

(A) Area: In those portions of Alpine, Madera, Mariposa, Merced, Stanislaus and Tuolumne counties within a line beginning at the intersection of Highway 99 and the Stanislaus River at Ripon; east along the Stanislaus River and following the North Fork of the Stanislaus River to Highland Creek; east up Highland Creek to the road connecting Lower and Upper Highland Lakes at Upper Highland Lake; east along that road to the township line between Townships 7 and 8 North; east on that township line to the Sierra crest near Wolf Creek Pass; south along the Sierra crest to the Yosemite National Park boundary near Rodger Peak; along the eastern Yosemite National Park boundary to Highway 41; south along Highway 41 to the Madera–Mariposa county line south of Westfall Station; along the Madera–Mariposa and the Madera–Merced county lines to Highway 99; north along Highway 99 to the point of beginning.

(B) Season: The season in Zone D–6 shall open on the third Saturday in September and extend for 44 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (See subsection 351(a)) or better, per tag.

(D) Number of Tags: 10,000.

(6) Zone D–7.

(A) Area: In those portions of Fresno, Madera, Mariposa and Tulare counties within a line beginning at the intersection of Highway 99 and the Madera–Merced county line; northeast along the Madera–Merced and Madera–Mariposa county lines to Highway 41 south of Westfall Station; north along Highway 41 to Yosemite National Park boundary; east along the park boundary to the Mono–Madera county line near Rodger Peak; south along the Inyo National Forest boundary (crest of the Ritter Range) to the junction of the Inyo National Forest boundary and Ashley Creek; east to Ashley Lake; northeast along Ashley Creek to the junction of King Creek; southeast along King Creek to its junction with the middle fork of the San Joaquin River; south and west along the middle fork of the San Joaquin River to the junction of the Inyo National Forest boundary; east along Fish Creek to its confluence with Deer Creek; north and east along Deer Creek to the upper crossing of the Deer Creek trail; north and east along the Deer Creek trail to the Inyo National Forest Boundary (the Sierra Crest); south along the Sierra crest and the Inyo National Forest boundary to Bishop Pass; west along the Dusy Basin Trail to the Middle Fork of the Kings River; southwest and downstream along the Middle Fork of the Kings River to the junction of the Middle Fork and South Fork of the Kings River; southwest along the Kings River through Pine Flat Reservoir, Piedra and Reedley to Highway 99; north along Highway 99 to the point of beginning.

(B) Season: The season in Zone D–7 shall open on the third Saturday in September and extend for 44 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (See subsection 351(a)) or better, per tag.

(D) Number of Tags: 9,000.

(7) Zone D–8.

(A) Area: In those portions of Fresno, Kern and Tulare counties within a line beginning at the intersection of Highway 99 and the Kings River; upstream and northeast along the Kings River through Reedley, Piedra and Pine Flat Reservoir to the junction of the Middle and South Forks of the Kings River; northeast along the Middle Fork Kings River to the Dusy Basin Trail; east along this trail to the Kings Canyon National Park boundary at Bishop Pass; south along the Kings Canyon and Sequoia National Park boundaries to the Main Kern River; southeast along the Main Kern River and the common boundary between the Inyo and Sequoia National Forests to the end of the Chimney Meadow–Blackrock Station Road (Forest Road 21S03) near Blackrock Mountain; southeast along the Chimney Meadow–Blackrock Station Road through Troy Meadows to the South Fork of the Kern River; south along the South Fork of the Kern River to the Doyle Ranch Road; south along the Doyle Ranch Road to Highway 178 in the town of Onyx; southwest along Highway 178 to Highway 99 at Bakersfield; north along Highway 99 to the point of beginning.

(B) Season: The season in Zone D–8 shall open on the fourth Saturday in September and extend for 30 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (See subsection 351(a)) or better, per tag.

(D) Number of Tags: 8,000.

(8) Zone D–9.

(A) Area: In that portion of Kern County within a line beginning at the intersection of Highways 99 and 178; northeast along Highway 178 along Lake Isabella and through Walker Pass to Highway 14; southwest along Highway 14 to Highway 58; northwest along Highway 58 to Highway 99; north along Highway 99 to the point of beginning.

(B) Season: The season in Zone D–9 shall open on the fourth Saturday in September and extend for 30 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (See subsection 351(a)) or better, per tag.

(D) Number of Tags: 2,000.

(9) Zone D–10.

(A) Area: In those portions of Kern and Los Angeles counties within a line beginning at the intersection of Highways 99 and 58; southeast along Highway 58 to Highway 14; south along Highway 14 to Highway 138; west along Highway 138 to Interstate 5; north on Interstate 5 to Highway 99; north on Highway 99 to the point of beginning.

(B) Season: The season in Zone D–10 shall open on the fourth Saturday in September and extend for 30 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (See subsection 351(a)) or better, per tag.

(D) Number of Tags: 700.

(10) Zone D–11.

(A) Area: Those portions of Los Angeles and San Bernardino counties, within a line beginning at the intersection of Interstate 5 and Highway 138, south of Gorman; east on Highway 138 to Highway 14; south on Highway 14 to Palmdale and Highway 138; east on Highways 138 and 18 to Interstate 15; south on interstates 15 and 15E to Interstate 10; west on Interstate 10 to Interstate 405; north on Interstates 405 and 5 to the point of beginning.

(B) Season: The season in Zone D–11 shall open on the second Saturday in October and extend for 30 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (See subsection 351(a)) or better, per tag.

(D) Number of Tags: 5,500.

(E) Special Conditions: Hunters that possess a D–11 deer tag may also hunt in zones D–13 and D–15 as described in subsections 360(a)(12)(A), (B) and (C), and subsections 360(a)(14)(A), (B) and (C).

(11) Zone D–12.

(A) Area: Those portions of Imperial, Riverside and San Bernardino counties within a line beginning at Highway 62 and the Twentynine Palms–Amboy Road in Twentynine Palms; east along Highway 62 to Highway 95 at Vidal Junction; north on Highway 95 to Interstate 40; east on Interstate 40 to the California–Arizona state line; south along this state line to the U.S.–Mexican border; west along the U.S.–Mexican border to Highway 111 in Calexico; north on Highway 111 to Interstate 10; north and west on Interstate 10 to Highway 62; north and east on Highway 62 to the point of beginning.

(B) Season: The season in Zone D–12 shall open on the first Saturday in November and extend for 23 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (See subsection 351(a)) or better, per tag.

(D) Number of Tags: 950.

(12) Zone D–13.

(A) Area: In those portions of Kern, Los Angeles, San Luis Obispo, Santa Barbara, and Ventura counties within a line beginning at the intersection of Highways 99 and 166 at Mettler; south on Highway 99 and Interstate 5 to Highway 126; west on Highway 126 to the crossing of Sespe Creek; north and then west along Sespe Creek to Highway 33; north on Highway 33 to Highway 166; north and east on Highway 166 to the point of beginning.

(B) Season: The season in Zone D–13 shall open on the second Saturday in October and extend for 30 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (See subsection 351(a)) or better, per tag.

(D) Number of Tags: 4,000.

(E) Special Conditions: Hunters that possess a D–13 deer tag may also hunt in zones D–11 and D–15 as described in subsections 360(a)(10)(A), (B) and (C), and subsections 360(a)(14)(A), (B) and (C).

(13) Zone D–14.

(A) Area: In those portions of Riverside and San Bernardino counties within a line beginning at the junction of Interstates 10 and 15E; northwest on Interstates 15E and 15 through Cajon Pass to Bear Valley Cutoff Road; east on Bear Valley Cutoff Road to Highway 18; east along Highway 18 to Highway 247; southeast on Highway 247 to Highway 62; southwest on Highway 62 to Interstate 10; west on Interstate 10 to the point of beginning.

(B) Seasons: The season in Zone D–14 shall open on the second Saturday in October and extend for 30 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (See subsection 351(a)) or better, per tag.

(D) Number of Tags: 3,000.

(14) Zone D–15.

(A) Area: Including Santa Catalina Island, those portions of Los Angeles, Orange, Riverside, San Bernardino and San Diego counties within a line beginning at the Pacific Ocean and Interstate 10 in Santa Monica; east on Interstate 10 to Highway 79 at Beaumont; south on Highway 79 to Hemet; south on County Road R–3 through Sage to Highway 79; west on Highway 79 to Interstate 15; south on Interstate 15 to Highway 76; west on Highway 76 to the Pacific Ocean; north along the shoreline to the point of beginning.

(B) Season: The season in Zone D–15 shall open on the second Saturday in October and extend for 30 consecutive days.

(C) Bag and Possession Limit: one buck, forked horn (See subsection 351(a)) or better, per tag.

(D) Number of Tags: 1,500.

(E) Special Conditions: Hunters that possess a D–15 deer tag may also hunt in zones D–11 and D–13 as described in subsections 360(a)(10)(A), (B) and (C), and subsections 360(a)(12)(A), (B) and (C).

(15) Zone D–16.

(A) Area: Those portions of Imperial, Riverside and San Diego counties within the line beginning at the Pacific Ocean and Highway 76; east on Highway 76 to Interstate 15; north on Interstate 15 to Highway 79; east on Highway 79 to the San Diego–Riverside county line; east along the San Diego–Riverside county line to the Anza–Borrego State Park boundary; south along the Anza–Borrego State Park boundary to Highway 78; east on Highway 78 to Highway 111; south on Highway 111 to the U.S.–Mexican border; west along the U.S.–Mexican border to the Pacific Ocean; north along the shoreline to the point of beginning.

(B) Season: The season in Zone D–16 shall open on the fourth Saturday in October and extend for 30 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (See subsection 351(a)) or better per tag.

(D) Number of Tags: 3,000.

(16) Zone D–17.

(A) Area: Those portions of Inyo, Kern, Los Angeles and San Bernardino counties within a line beginning at Highway 395 and the Kern–Inyo county line; east along the Kern–Inyo county line to the San Bernardino–Inyo county line; east along the San Bernardino–Inyo county line to Highway 127; north along Highway 127 to the California–Nevada state line; south along the California–Nevada state line to the California–Arizona state line; south along the California–Arizona state line to Interstate 40; Interstate 40 north to Needles; Highway 95 south to Highway 62; west on Highway 62 to Highway 247; northwest on Highway 247 to Highway 18; west on Highway 18 to Bear Valley Cutoff Road; west on Bear Valley Cutoff Road to Interstate 15; north on Interstate 15 to Highway 18; west on Highways 18 and 138 to Highway 14; north on Highways 14 and 395 to the point of beginning.

(B) Season: The season in Zone D–17 shall open on the second Saturday in October and extend for 23 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (See subsection 351(a)) or better per tag.

(D) Number of Tags: 500.

(17) Zone D–19.

(A) Area: Those portions of Imperial, Riverside and San Diego counties within a line beginning at the junction of Interstate 10 and Highway 79; south on Highway 79 to Hemet; south on County Road R–3 to Highway 79; south on Highway 79 to the Riverside–San Diego county line; east on the Riverside–San Diego county line to the Anza–Borrego State Park boundary; south on the Anza–Borrego State Park boundary to Highway 78; east on Highway 78 to Highway 111; north on Highway 111 to the junction of Interstate 10 in Indio; west on Interstate 10 to the point of beginning.

(B) Season: The season in D–19 shall open the first Saturday in October and extend for 30 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better, per tag.

(D) Number of Tags: 1,500.

(b) X–Zone Hunts.

(1) Zone X–1.

(A) Area: In those portions of Lassen, Modoc, Shasta and Siskiyou counties within a line beginning at the California–Oregon state line and its intersection with Highway 139; south on Highway 139 to the Lookout–Hackamore Road; south on the Lookout–Hackamore Road to Highway 299; west on Highway 299 to the Pit River near Bieber; south and west on the Pit River to Highway 89 at Lake Britton; northwest on Highway 89 to Interstate 5 at Mt. Shasta; north on Interstate 5 to the junction of Highway 97 at Weed; north and east on Highway 97 to the California–Oregon state line; east on the California–Oregon state line to the point of beginning.

(B) Season: The season in Zone X–1 shall open on the first Saturday in October and extend for 16 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (See subsection 351(a)) or better, per tag.

(D) Number of Tags: 2,280.

(2) Zone X–2.

(A) Area: In those portions of Modoc and Siskiyou counties within a line beginning at the intersection of Highway 139 and the California–Oregon state line near Tulelake; east along the California–Oregon state line to the eastern shoreline of Goose Lake; southwest along the eastern shoreline of Goose Lake to Westside Road (Modoc County 48); southeast along the Westside Road to Highway 395 in Davis Creek; south along Highway 395 to Highway 299 in Alturas; west along Highway 299 to Highway 139 near Canby; northwest along Highway 139 to the Oregon–California state line and the point of beginning.

(B) Season: The season in Zone X–2 shall open on the first Saturday in October and extend for 16 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (See subsection 351(a)) or better, per tag.

(D) Number of Tags: 180.

(3) Zone X–3a.

(A) Area: In those portions of Lassen and Modoc counties within a line beginning at the intersection of the Lookout–Hackamore Road and Highway 139; southeast on Highway 139 to Highway 299; east on Highway 299 to Highway 395 in Alturas; south on Highway 395 to the Termo–Grasshopper Road (Lassen County 513); west on the Termo–Grasshopper Road to Highway 139; south on Highway 139 to the Cleghorn Road (Lassen County 521); west and north on the Cleghorn Road to Lassen County Road 519 near Coulthurst Flat; west on Lassen County Road 519 to U.S. Forest Service Designated Through Route 22 near Gooch Mountain; west and north on U.S. Forest Service Designated Through Route 22 to the Little Valley Road (Lassen County 404); north on the Little Valley Road to the Western Pacific Railroad; northeast on the Western

Pacific Railroad to Horse Creek; northwest on Horse Creek to the Pit River; north on the Pit River to Highway 299 at Bieber; northeast on Highway 299 to the Bieber–Lookout–Hackamore Road; north along the Bieber–Lookout–Hackamore Road to the point of beginning.

(B) Season: The season in Zone X–3a shall open on the first Saturday in October and extend for 16 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (See subsection 351(a)) or better, per tag.

(D) Number of Tags: 250.

(4) Zone X–3b.

(A) Area: In those portions of Lassen and Modoc counties within a line beginning at the east shoreline of Goose Lake and the California–Oregon state line; east along this state line to the California–Nevada state line; south along the California–Nevada state line to the Clarks Valley–Red Rock–Tuledad Road (Lassen County Roads 512, 510 and 506); west along the Tuledad Red Rock–Clarks Valley Road to Highway 395 at Madeline; north on Highway 395 to Westside Road (Modoc County 48) in Davis Creek; west and north along Westside Road to the south shoreline of Goose Lake; east and north along the south and east shoreline of Goose Lake to the point of beginning.

(B) Season: The season in Zone X–3b shall open on the first Saturday in October and extend for 16 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better, per tag.

(D) Number of Tags: 845.

(5) Zone X–4.

(A) Area: In those portions of Lassen and Shasta counties within a line beginning at the junction of Highways 89 and 44 at Old Station; north on Highway 89 to the intersection with the Pit River at Lake Britton; east and south on the Pit River to Horse Creek; southeast on Horse Creek to the Burlington Northern Railroad; southwest on the Burlington Northern Railroad to the Little Valley Road (Lassen County 404); south on the Little Valley Road to U.S. Forest Service Designated Through Route 22; south and east on U.S. Forest Service Designated Through Route 22 to Lassen County 519 near Gooch Mountain; east on Lassen County 519 to Cleghorn Road (Lassen County 521) near Coulthurst Flat; east on Cleghorn Road to Highway 139; south on Highway 139 to its crossing of Willow Creek in the Willow Creek Valley; south (downstream) on Willow Creek to its crossing of Conservation Center Road (Lassen County A–27); west on Conservation Center Road to Highway 36; northwest on Highway 36 to the intersection with Highway 44; north and west on Highway 44 to the point of beginning.

(B) Season: The season in Zone X–4 shall open on the first Saturday in October and extend for 16 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (See subsection 351(a)) or better, per tag.

(D) Number of Tags: 425.

(6) Zone X–5a.

(A) Area: In that portion of Lassen County within a line beginning at the junction of Highway 395 and Conservation Center Road (Lassen County A–27) in the town of Litchfield; west on Conservation Center Road to its crossing of Willow Creek; northwest (upstream) on Willow Creek to its crossing of Highway 139 in the Willow Creek Valley; north along Highway 139 to the Termo–Grasshopper Road; east on the Termo–Grasshopper Road to Highway 395; south along Highway 395 to the point of beginning.

(B) Season:

The season in Zone X–5a shall open on the first Saturday in October and extend for 16 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (See subsection 351(a)) or better, per tag.

(D) Number of Tags: 60.

(7) Zone X–5b.

(A) Area: That portion of Lassen County lying within the following line: Beginning at the junction of Highway 395 and the Clarks Valley–Red Rock–Tuledad Road (Lassen County Roads 506, 510 and 512); east on the Clarks Valley–Red Rock–Tuledad Road to the California–Nevada state line; south on the California–Nevada state line to the Pyramid Lake Road (Lassen County 320); west on the Pyramid Lake Road to Highway 395; north on Highway 395 to the point of beginning.

(B) Season:

The season in Zone X–5b shall open on the first Saturday in October and extend for 16 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (See subsection 351(a)) or better, per tag.

(D) Number of Tags: 85.

(8) Zone X–6a.

(A) Area: In those portions of Lassen and Plumas counties within a line beginning at the junction of Highway 147 and Highway 36 near Westwood; east on Highway 36 to Conservation Center Road at Susanville (County Road A–27); east on Conservation Center Road to Highway 395 at the town of Litchfield; east on Highway 395 to the Wendel–Pyramid Lake Road (County Road 320); east on the Wendel–Pyramid Lake Road to the Nevada–California state line; south on the Nevada–California state line to the UP–WP railroad line near Herlong; west on the UP–WP railroad line to the Herlong Access Road (County Road A– 25) at Herlong; west on the Herlong Access Road to Highway 395; north on Highway 395 to County Road 336 at Milford; southwest on County Road 336 to U.S. Forest Service Road 26N16 near the Plumas–Lassen county line; west on Forest Service Road 26N16 to Forest Service Road 28N03 at Doyle Crossing; west on Forest Services Road 28N03 to Forest Service Road 29N43 near Antelope Lake; south on Forest Service Road 29N43 to County Road 111 at Flournoy Bridge; south on County Road 111 to Forest Service Road 24N08; south on Forest Service Road 24N08 to County Road 112 at Lake Davis; south on County Road 112 to Highway 70; west on Highway 70 to the Highway 89 junction at Blairsden; west on Highway 89/70 to the Greenville Y west of Quincy; northwest on Highway 89 to Highway 147 at Canyon Dam; north on Highway 147 to the point of beginning.

(B) Seasons: The season in Zone X–6a shall open on the first Saturday in October and extend for 16 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (See subsection 351(a)) or better, per tag.

(D) Number of Tags: 325.

(9) Zone X–6b.

(A) Area: In those portions of Lassen and Plumas counties within a line beginning at the junction of County Road 336 and Highway 395 at Milford; south on Highway 395 to the junction of Highway 395 and the Herlong Access Road (County Road A–25); east on the Herlong Access Road to its junction with the UP–WP railroad line at Herlong; east on the UP–WP railroad line to the Nevada–California state line; south on the Nevada–California state line to the junction of the Nevada–California state line and Highway 395 at Bordertown; northwest on Highway 395 to its junction at Highway 70; west on Highway 70 to its junction with County Road 112; north on County Road 112 to its junction with U.S. Forest Service Road 24N08 at Lake Davis; north on Forest Service Road 24N08 to its junction with County Road 111; northwest on County Road 111 to its junction with Forest Service Road 29N43 at Flournoy Bridge; north on Forest Service Road 29N43 to Forest Service Road 28N03 near Antelope Lake; southeast on Forest Service Road 28N03 to Forest Service Road 26N16 at Doyle Crossing; east on Forest Service Road 26N16 to County Road 336 near the Plumas–Lassen county line; north on County Road 336 to the point of beginning.

(B) Season: The season in Zone X–6b shall open on the first Saturday in October and extend for 16 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better, per tag.

(D) Number of Tags: 375.

(10) Zone X–7a.

(A) Area: In those portions of Lassen, Nevada, Plumas and Sierra counties lying within a line beginning at the junction of Highway 395 and the California–Nevada state line at Bordertown; south along the Long

Valley Road (County Road S570) to its intersection with the Henness Pass Road (County Road S860); west on Henness Pass Road over Summit 2 to the intersection with County Road S450 (near the Davies Creek Campground at Stampede Reservoir); west on County Road S450 (the Henness Pass Road) through Kyburz Flat to its intersection with Highway 89; south on Highway 89 to its intersection with Interstate 80 at Truckee; west on Interstate 80 to the Pacific Crest Trail near the Castle Peak–Boreal Ridge Summit; north on the Pacific Crest Trail to the new road to White Rock Lake (one mile west of White Rock Lake in section 21, T18N, R14E, M.D.B.M.); north on the new White Rock Lake Road below Bear Valley to the White Rock Lake Road; north on the White Rock Lake Road to the Jackson Meadows Highway (Fiberboard Road); east two miles on the Jackson Meadows Highway to the Yuba Pass Road at Webber Lake; north on the Yuba Pass Road (main haul road) through Bonta Saddle to Highway 49 at Yuba Pass; west on Highway 49 to the new Gold Lake Road at Bassetts; north on the new Gold Lake Road to Highway 89 near Graeagle; north on Highway 89 to Highway 70; east on Highway 70 to Highway 395 at Hallelujah Junction; south on Highway 395 to the point of beginning.

(B) Season: The season in Zone X–7a shall open on the first Saturday in October and extend for 16 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (See subsection 351(a)) or better, per tag.

(D) Number of Tags: 205.

(11) Zone X–7b.

(A) Area: In those portions of Nevada, Placer and Sierra counties lying within a line beginning at the junction of Highway 395 and the California–Nevada state line at Bordertown; south along the California–Nevada state line to the shore of Lake Tahoe; west and south along the shore of Lake Tahoe to the mouth of Blackwood Creek near Idlewild; west on Blackwood Creek to Highway 89; north on Highway 89 to Blackwood Canyon Road; Blackwood Canyon Road near Idlewild; west along Blackwood Canyon Road to Forest Route 03; west and south along Forest Route 03 to the Pacific Crest Trail at Barker Pass; north on the Pacific Crest Trail to its intersection with Interstate 80 near the Castle Peak–Boreal Ridge Summit; east on Interstate 80 to its intersection with Highway 89 at Truckee; north on Highway 89 to County Road S450 (the Henness Pass Road, a.k.a. the Kyburz Flat Road); east on County Road S450 to its intersection with County Road S860 (continuation of Henness Pass Road) near the Davies Creek Campground at Stampede Reservoir; east on County Road S860, over Summit 2 to the junction with County Road S570 (the Long Valley Road); north on County Road S570 to Bordertown at the point of beginning.

(B) Season: The season in Zone X–7b shall open on the first Saturday in October and extend for 16 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better, per tag.

(D) Number of Tags: 125.

(12) Zone X–8.

(A) Area: In those portions of Alpine and El Dorado counties within a line beginning at the junction of the California–Nevada state line and Highway 50; southeast along the California–Nevada state line to the Indian Springs Road, south to the Alpine–Mono County line; south along the Alpine–Mono county line to the Sierra crest; northwest along the Sierra crest to the intersection with the Pacific Crest Trail near Wolf Creek Pass; northwest along the Pacific Crest Trail to Highway 50 at Echo Summit; northeast on Highway 50 to the point of beginning.

(B) Season: The season in Zone X–8 shall open on the fourth Saturday in September and extend for 16 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (See subsection 351(a)) or better, per tag.

(D) Number of Tags: 230.

(13) Zone X–9a.

(A) Area: In those portions of Fresno, Inyo, Madera and Mono counties within a line beginning at the intersection of Highway 6 and the California–Nevada state line; south along Highway 6 to its junction with Highway 395; south along Highway 395 to its junction with Highway 168; west and south along Highway 168 to the North Lake Road turnoff; west along the North Lake Road and the Piute Pass Trail to the Sierra Crest (Inyo National Forest Boundary); north along the Inyo National Forest Boundary to the Deer Creek Trail; south and west along the Deer Creek Trail to the upper crossing of Deer Creek; west and south along Deer Creek to its confluence with Fish Creek; west along Fish Creek to its confluence with the middle fork of the San Joaquin River; north along the middle fork of the San Joaquin River to the junction of King Creek; west along King Creek to the junction of Ashley Creek; west along Ashley Creek to Ashley Lake; continue west along Ashley Creek to the junction of the Inyo National Forest boundary; north along the Inyo National Forest Boundary (the crest of the Ritter Range) to the Mono–Madera county line; north along the Mono–Madera county line to Mono–Tuolumne county line; north on the Mono–Tuolumne county line to the Virginia Lakes Trail (Entry Trail D–11); east along Virginia Lakes Trail to Virginia Lakes Road; east along Virginia Lakes Road to Highway 395; south along Highway 395 to Highway 167; east on Highway 167 to the California–Nevada state line; southeast on the California–Nevada state line to the point of beginning.

(B) Season: The season in Zone X–9a shall open on the third Saturday in September and extend for 24 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (See subsection 351(a)) or better, per tag.

(D) Number of Tags: 775.

(14) Zone X–9b.

(A) Area: That portion of Inyo County within a line beginning at the intersection of Highway 395 and Cottonwood Creek; northwest along Cottonwood Creek to the Horseshoe Meadow Road; south along the Horseshoe Meadow Road to the Cottonwood Pass Trail; west along the Cottonwood Pass Trail through Horseshoe Meadow to the Inyo–Tulare county line at Cottonwood Pass; north on the Inyo–Tulare and the Inyo–Fresno county lines to the Piute Pass Trail; east along the Piute Pass Trail to the North Lake Road; east and south on the North Lake Road to Highway 168; north and east on Highway 168 to Highway 395; south on Highway 395 to the point of beginning.

(B) Season: The season in Zone X–9b shall open on the third Saturday in September and extend for 24 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better per tag.

(D) Number of Tags: 325.

(15) Zone X–9c.

(A) Area: In those portions of Inyo and Mono counties within a line beginning at Highway 395 and the Kern–Inyo county line; north along Highway 395 to Highway 6; north on Highway 6 to the California–Nevada state line; southeast along the California–Nevada state line to Highway 127; south along Highway 127 to the Inyo–San Bernardino county line; west along the Inyo–San Bernardino county line to the Kern–Inyo county line; west along the Kern–Inyo county line to the point of beginning.

(B) Season: The season in Zone X–9c shall open on the third Saturday in October and extend for 23 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better, per tag.

(D) Number of Tags: 325.

(16) Zone X–10.

(A) Area: In those portions of Kern, Tulare and Inyo counties within a line beginning at the intersection of Highway 178 and the Doyle Ranch Road in the town of Onyx; north along the Doyle Ranch Road to the South Fork of the Kern River; north along the South Fork of the Kern River to the Chimney Meadow–Blackrock Station Road (Forest Road 21S03); northwest along the Chimney Meadow–Blackrock Station Road through Troy Meadows to the road's end at the Inyo and Sequoia National Forest boundary near Blackrock Mountain; northwest along the Inyo and Sequoia National Forest boundary to the main Kern River; northwest along the main Kern River to the Sequoia National Park boundary; north-

east along the Sequoia National Park boundary to the Inyo–Tulare county line; southeast along the Inyo–Tulare county line to the Cottonwood Pass Trail at Cottonwood Pass; east along the Cottonwood Pass Trail through Horseshoe Meadow to the Horseshoe Meadow Road; north along the Horseshoe Meadow Road to Cottonwood Creek; southeast along Cottonwood Creek to Highway 395; south along Highway 395 to Highway 14; south along Highway 14 to Highway 178; north and west along Highway 178 to the point of beginning.

(B) Season:

The season in Zone X–10 shall open on the last Saturday in September and extend for 16 consecutive days.

(C) Bag and Possession Limit:

One buck, forked horn (See subsection 351(a)) or better, per tag.

(D) Number of Tags: 400.

(17) Zone X–12.

(A) Area: That portion of Mono County within a line beginning at the junction of the California–Nevada state line and Highway 167 (Pole Line Road); west on Highway 167 to Highway 395; north on Highway 395 to Virginia Lakes Road; west on Virginia Lakes Road to the Virginia Lakes Trail (Entry Trail D11); northwest on the Virginia Lakes Trail to the Mono–Tuolumne county line; north along the Mono–Tuolumne county line to the Mono–Alpine county line; northeast along the Mono–Alpine county line to Indian Springs Road; northeast on Indian Springs Road to the California–Nevada state line; southeast on the California–Nevada state line to the point of beginning.

(B) Season: The season in Zone X–12 shall open on the third Saturday in September and extend for 24 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351 (a)) or better, per tag.

(D) Number of Tags: 850.

(c) Additional Hunts.

(1) G–1 (Late Season Buck Hunt for Zone C–4).

(A) Area: Those portions of Butte, Glenn, Lassen, Plumas, Shasta, and Tehama counties within the area described as Zone C–4 (see subsection 360(a)(3)(A)4.).

(B) Season: The season for additional hunt G–1 (Late Season Buck Hunt for Zone C–4) shall open on the fourth Saturday in October and extend for 9 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better, per tag.

(D) Number of Tags: 2,850.

(2) G–3 (Goodale Buck Hunt).

(A) Area: In that portion of Inyo County within a line beginning at the intersection of Highway 395 and Lone Pine Creek; west along Lone Pine Creek to the Inyo–Tulare county line; northwest along the Inyo–Tulare and Inyo–Fresno county lines to Taboose Creek; east along Taboose Creek to Highway 395; south along Highway 395 to the point of beginning.

(B) Season: The season for additional hunt G–3 (Goodale Buck Hunt) shall open on the first Saturday in December and extend for 16 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better, per tag.

(D) Number of Tags: 35.

(3) G–6 (Kern River Deer Herd Buck Hunt).

(A) Area: In those portions of Kern and Tulare counties lying within a line beginning at the intersection of County Road 521 and County Road 495 at Kernville; south on County Road 495 to the intersection of Highway 155 at Wofford Heights; west on Highway 155 to the intersection of U.S. Forest Service Road 24S15 at Greenhorn Summit; north on U.S. Forest Service Road 24S15 to the intersection of U.S. Forest Service Road 23S16 (near Portuguese Pass); northeast on U.S. Forest Service Road 23S16 to County Road SM50; west on County Road SM50 to the *intersection of the Western Divide Highway* (County Road SM107); north on County Road SM107 to the junction of U.S. Forest Service Road 21S50 (near Quaking Aspen Campground); north on U.S. Forest Service Road 21S50 to the junction of U.S. Forest Service Road 20S79; northeast on U.S. Forest Service Road 20S79 to the junction of U.S. Forest Service Road 20S53; northeast on U.S. Forest Service Road 20S53 to the Golden Trout Wilderness boundary (at Lewis Camp Trail Head); east on the Golden Trout Wilderness Boundary to Rattlesnake Creek; southeast on Rattlesnake Creek to U.S. Forest Service Road 22S05; south on U.S. Forest Service Road 22S05 to the Dome Land Wilderness Boundary; southwest on the Dome Land Wilderness Boundary to the intersection of the South Fork of the Kern River; south along the South Fork of the Kern River to the intersection of County Road 521; west on County Road 521 to the point of beginning.

(B) Season: The season for additional hunt G–6 (Kern River Deer Herd Buck Hunt) shall open on the first Saturday in December and extend for 9 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better, per tag.

(D) Number of Tags: 50.

(4) G–7 (Beale Either–Sex Deer Hunt).

(A) Area: That portion of Yuba County lying within the exterior boundaries of Beale Air Force Base.

(B) Season: The season for additional hunt G–7 (Beale Either–Sex Deer Hunt) shall open on the third Saturday in August and extend for 79 consecutive days, except if rescheduled by the Commanding Officer with Department concurrence between the season opener and December 31.

(C) Bag and Possession Limit: One either–sex deer (see subsection 351(c)) per tag.

(D) Number of Tags: 20 (military only).

(E) Special Conditions:

1. Only shotguns with single slugs or muzzleloading rifles, crossbows, and archery equipment as specified in sections 353 and 354 may be used.

2. In the event the Commanding Officer cancels the hunt, G–7 tagholders will only have the option of exchanging the unused tag for any remaining deer tag or receiving a refund.

(5) G–8 (Fort Hunter Liggett Antlerless Deer Hunt).

(A) Area: That portion of Monterey County lying within the exterior boundaries of the Hunter Liggett Military Reservation, except as restricted by the Commanding Officer.

(B) Season: The season for additional hunt G–8 (Fort Hunter Liggett Antlerless Deer Hunt) shall open on October 4 and extend for 2 consecutive days and reopen on October 11 and extend for 3 consecutive days, except if rescheduled by the Commanding Officer with Department concurrence between the season opener and December 31.

(C) Bag and Possession Limit: One antlerless deer (see subsection 351(b)) per tag.

(D) Number of Tags: 20 (10 military and 10 general public).

(E) Special Conditions: In the event the Commanding Officer cancels the hunt, G–8 tagholders will only have the option of exchanging the unused tag for any remaining deer tag or receiving a refund.

(6) G–9 (Camp Roberts Antlerless Deer Hunt).

(A) Area: That portion of San Luis Obispo County lying within the exterior boundaries of Camp Roberts, except as restricted by the Commanding Officer.

(B) Season: The season for additional hunt G–9 (Camp Roberts Antlerless Deer Hunt) shall open the last Monday in August and extend for 8 consecutive days, except if rescheduled by the Commanding Officer with Department concurrence between the season opener and December 31.

(C) Bag and Possession Limit: One antlerless deer (see subsection 351(b)) per tag.

(D) Number of Tags: 30 (15 military and 15 general public).

(E) Special Conditions: In the event the Commanding Officer cancels the hunt, G–9 tagholders will only have the option of exchanging the unused tag for any remaining deer tag or receiving a refund.

(7) G–10 (Camp Pendleton Either–Sex Deer Hunt).

(A) Area: That portion of San Diego County lying within the exterior boundaries of the U.S. Marine Corps Base, Camp Joseph Pendleton.

(B) Season: The season for additional hunt G–10 (Camp Pendleton Either–Sex Deer Hunt) shall be open on Saturdays, Sundays, holidays and the day after Thanksgiving beginning the first Saturday in September and extend through the first Sunday in December. Season dates may be subject to further restriction, or additional hunt days scheduled with concurrence from the Department, between the season opener and December 31 by the Commanding Officer due to military operations.

(C) Bag and Possession Limit: One either–sex deer (see subsection 351(c)) per tag.

(D) Number of Tags: 400 (military only).

(E) Special Conditions:

1. Only archery equipment is permitted during the first six weeks of the season.

2. Hunting with firearms is permitted beginning on the seventh weekend through the end of season.

3. A permit fee and method of take registration with the Base may be required.

4. In the event the Commanding Officer cancels the hunt, G–10 tagholders will only have the option of exchanging the unused tag for any remaining deer tag or receiving a refund.

(8) G–11 (Vandenberg Either–Sex Deer Hunt).

(A) Area: That portion of Santa Barbara County lying within the exterior boundaries of Vandenberg Air Force Base.

(B) Season: The season for additional hunt G–11 (Vandenberg Either–Sex Deer Hunt) shall open on the last Monday in August and extend through December 31.

(C) Bag and Possession Limit: One either–sex deer (see subsection 351(c)) per tag.

(D) Number of Tags: 500 (military and Department of Defense employees only).

(E) Special Conditions: In the event the Commanding Officer cancels the hunt, G–11 tagholders will only have the option of exchanging the unused tag for any remaining deer tag or receiving a refund.

(9) G–12 (Gray Lodge Shotgun Either–Sex Deer Hunt).

(A) Area: Those portions of Butte and Sutter counties within the exterior boundaries of the Gray Lodge State Wildlife Area.

(B) Season: The season for additional hunt G–12 (Gray Lodge Shotgun Either–Sex Deer Hunt) shall open on the third Saturday in September and extend for nine consecutive days.

(C) Bag and Possession Limit: One either–sex deer (see subsection 351(c)) per tag.

(D) Number of Tags: 30.

(E) Special Conditions: Only shotguns and ammunition as specified in Section 353 may be used.

(10) G–13 (San Diego Antlerless Deer Hunt).

(A) Area: That portion of San Diego County within Zone D–16 (see subsection 360(a)(15)(A)).

(B) Season: The season for additional hunt G–13 (San Diego Antlerless Deer Hunt) shall open on the fourth Saturday in October and extend for 23 consecutive days.

(C) Bag and Possession Limit: One antlerless deer (see subsection 351(b)) per tag.

(D) Number of Tags: 300.

(11) G–19 (Sutter–Yuba Wildlife Areas Either–Sex Deer Hunt).

(A) Area: Those portions of Yuba and Sutter counties within the exterior boundaries of: (1) the Feather River Wildlife Area, and (2) the Sutter Bypass Wildlife Area (as defined in Section 550, Title 14, CCR).

(B) Season: The season for additional hunt G–19 (Sutter–Yuba Wildlife Areas Either–Sex Deer Hunt) shall open on the fourth Saturday in September and extend through December 31.

(C) Bag and Possession Limit: One either–sex deer (see subsection 351(c)) per tag.

(D) Number of Tags: 25.

(E) Special Conditions: Only archery equipment and crossbows (as specified in Section 354) and shotguns and ammunition (as specified in Section 353) may be used.

(12) G–21 (Ventana Wilderness Buck Hunt).

(A) Area: That portion of Monterey County and the Los Padres National Forest within the exterior boundaries of the Ventana Wilderness Area.

(B) Season: The season for additional hunt G–21 (Ventana Wilderness Buck Hunt) shall open on the second Saturday in November and extend for 23 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better, per tag.

(D) Number of Tags: 25.

(13) G–37 (Anderson Flat Buck Hunt).

(A) Area: In that portion of hunt Zone D–6 in Mariposa and Tuolumne counties lying within a line beginning at the intersection of Highway 140 and Bull Creek Road at Briceburg; north on Bull Creek Road (U.S. Forest Service Road 2S05) to Greeley Hill Road; west on Greeley Hill Road to Smith Station Road (County Route J20); north on Smith Station Road to Highway 120 (near Burch Meadow); east on Highway 120 to the Yosemite National Park Boundary (near Big Oak–Flat Ranger Station); southeast along the Yosemite National Park Boundary to Highway 140; west on Highway 140 to the Yosemite National Park Boundary; northwest along the Yosemite National Park Boundary to Highway 140 (at Redbud Campground); west on Highway 140 to the point of beginning.

(B) Season: The season for additional hunt G–37 (Anderson Flat Buck Hunt) shall open on the fourth Saturday in November and extend for nine consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better, per tag.

(D) Number of Tags: 25.

(14) G–38 (X–10 Late Season Buck Hunt).

(A) Area: In those portions of Kern, Tulare, and Inyo counties within a line beginning at the intersection of Highway 178 and the Doyle Ranch Road in the town of Onyx; north along the Doyle Ranch Road to the South Fork of the Kern River; north along the South Fork of the Kern River to the Chimney Meadow–Blackrock Station Road (Forest Road 21S03); northwest along the Chimney Meadow–Blackrock Station Road through Troy Meadows to the road's end at the Inyo and Sequoia National Forest boundary near Blackrock Mountain; northwest along the Inyo and Sequoia National Forest boundary to the main Kern River; northwest along the main Kern River to the Sequoia National Park boundary; northeast along the Sequoia National Park boundary to the Inyo–Tulare county line; southeast along the Inyo–Tulare county line to the Cottonwood Pass Trail at Cottonwood Pass; east along the Cottonwood Pass Trail through Horseshoe Meadow to the Horseshoe Meadow Road; north along the Horseshoe Meadow Road to Cottonwood Creek; southeast along Cottonwood Creek to Highway 395; south along Highway 395 to Highway 14; south along Highway 14 to Highway 178; north and west along Highway 178 to the point of beginning.

(B) Season: The season for additional hunt G–38 (X–10 Late Season Buck Hunt) shall open on the third Saturday in October and extend for 16 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better, per tag.

(D) Number of Tags: 300.

(15) G–39 (Round Valley Late Season Buck Hunt).

(A) Area: In that portion of Inyo and Mono counties within a line beginning at the intersection of U.S. Highway 395 and California Highway 168; west and south along Highway 168 to the North Lake Road turnoff; west along the North Lake Road and the Piute Pass Trail to the Inyo–Fresno county line; north along the Inyo–Fresno county line to the Mono–Fresno county line; north along the Mono–Fresno and Mono–Madera county lines to the junction of the Mono–Madera county line and California Highway 203 at Minaret Summit; southeast along Highway 203 to its

junction with Highway 395; south along Highway 395 to the point of beginning.

(B) Season: The season for additional hunt G–39 (Round Valley Late Season Buck Hunt) shall open on the fourth Saturday in October and extend for 16 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better, per tag.

(D) Number of Tags: 5.

(16) M–3 (Doyle Muzzleloading Rifle Buck Hunt).

(A) Area: That portion of Lassen County within the area described as X–6b (see subsection 360(b)(9)(A)).

(B) Season: The season for additional hunt M–3 (Doyle Muzzleloading Rifle Buck Hunt) shall open on the third Saturday in November and extend for nine consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better, per tag.

(D) Number of Tags: 20.

(E) Special Conditions: Only muzzleloading rifles as specified in Section 353 may be used.

(17) M–4 (Horse Lake Muzzleloading Rifle Buck Hunt).

(A) Area: That portion of Lassen County within the area described as X5a (see subsection 360(b)(6)(A)).

(B) Season: The season for additional hunt M–4 (Horse Lake Muzzleloading Rifle Buck Hunt) shall open on the fourth Saturday in October and extend for nine consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better, per tag.

(D) Number of Tags: 10.

(E) Special Conditions: Only muzzleloading rifles as specified in Section 353 may be used.

(18) M–5 (East Lassen Muzzleloading Rifle Buck Hunt).

(A) Area: That portion of Lassen County within the area described as X–5b (see subsection 360(b)(7)(A)).

(B) Season: The season for additional hunt M–5 (East Lassen Muzzleloading Rifle Buck Hunt) shall open on the fourth Saturday in October and extend for nine consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better, per tag.

(D) Number of Tags: 10.

(E) Special Conditions: Only muzzleloading rifles as specified in Section 353 may be used.

(19) M–6 (San Diego Muzzleloading Rifle Either–Sex Deer Hunt).

(A) Area: That portion of San Diego County within Zone D–16 (see subsection 360(a)(15)(A)).

(B) Season: The season for additional hunt M–6 (San Diego Muzzleloading Rifle Either–Sex Deer Hunt) shall open on the third Saturday in December and extend through December 31.

(C) Bag and Possession Limit: One either–sex deer (see subsection 351(c)) per tag.

(D) Number of Tags: 80.

(E) Special Conditions: Only muzzleloading rifles as specified in Section 353 may be used.

(20) M–7 (Ventura Muzzleloading Rifle Either–Sex Deer Hunt).

(A) Area: All of Ventura County.

(B) Season: The season for additional hunt M–7 (Ventura Muzzleloading Rifle Either–Sex Deer Hunt) shall open on the last Saturday in November and extend for 16 consecutive days.

(C) Bag and Possession Limit: One either–sex deer (see subsection 351(c)) per tag.

(D) Number of Tags: 150.

(E) Special Conditions: Only muzzleloading rifles as specified in Section 353 may be used.

(21) M–8 (Bass Hill Muzzleloading Rifle Buck Hunt).

(A) Area: That portion of Lassen County within the area described as Zone X–6a (see subsection 360(b)(8)(A)).

(B) Season: The season for additional hunt M–8 (Bass Hill Muzzleloading Rifle Buck) shall open on the fourth Saturday in October and extend for 9 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better, per tag.

(D) Number of Tags: 20.

(E) Special Conditions: Only muzzleloading rifles as specified in Section 353 may be used.

(22) M–9 (Devil's Garden Muzzleloading Rifle Buck Hunt).

(A) Area: That portion of Modoc County within a line beginning at the intersection of the Malin Road (Modoc County 114) and the California/Oregon state line; east along the state line to the Crowder Flat Road; south along the Crowder Flat Road to the Blue Mountain Road (Modoc County 136); west on the Blue Mountain Road to the Blue Mountain–Mowitz Butte–Ambrose Road; south on the Blue Mountain–Mowitz Butte–Ambrose Road to Highway 139; north on Highway 139 to the Malin Road; north on the Malin Road to the point of beginning.

(B) Season: The season for additional hunt M–9 (Devil's Garden Muzzleloading Rifle Buck Hunt) shall open on the fourth Saturday in October and extend for 16 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better, per tag.

(D) Number of Tags: 15.

(E) Special Conditions: Only muzzleloading rifles as specified in Section 353 may be used.

(23) M–11 (Northwestern California Muzzleloading Rifle Buck Hunt).

(A) Area: Those portions of Del Norte, Glenn, Humbolt, Lake, Mendocino, Siskiyou, and Trinity counties within the area described as Zone B–1 (see subsection 360(a)(2)(A)1.

(B) Season: The season for additional hunt M–11 (Northwestern California Muzzleloading Rifle Buck Hunt) shall open on the second Saturday in November and extend for 16 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better, per tag.

(D) Number of Tags: 20.

(E) Special Conditions: Only muzzleloading rifles as specified in Section 353 may be used.

(24) MA–1 (San Luis Obispo Muzzleloading Rifle/Archery Either–Sex Deer Hunt).

(A) Area: That portion of San Luis Obispo County lying within the Los Padres National Forest.

(B) Season: The season for additional hunt MA–1 (San Luis Obispo Muzzleloading Rifle/Archery Either–Sex Deer Hunt) shall open the last Saturday in November and extend for 16 consecutive days.

(C) Bag and Possession Limit: One either–sex deer (see subsection 351(c)) per tag.

(D) Number of Tags: 150.

(E) Special Conditions: Only archery equipment as specified in Section 354 or muzzleloading rifles as specified in Section 353 may be used.

(25) MA–3 (Santa Barbara Muzzleloading Rifle/Archery Buck Hunt).

(A) Area: All of Santa Barbara County.

(B) Season: The season for additional hunt MA–3 (Santa Barbara Muzzleloading Rifle/Archery Buck Hunt) shall open on the last Saturday in November and extend for 16 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better, per tag.

(D) Number of Tags: 150.

(E) Special Conditions: Only muzzleloading rifles as specified in Section 353 and archery equipment as specified in Section 354 may be used.

(26) J–1 (Lake Sonoma Apprentice Either–Sex Deer Hunt).

(A) Area: That portion of Sonoma County within the boundaries of the Lake Sonoma Area, U.S. Army Corps of Engineers (COE) property described as follows: Beginning at the intersection of Hot Springs Road and the COE boundary; east and south along the boundary line to the intersec-

tion with Brush Creek; west along the north bank of Brush Creek (shoreline) to the Dry Creek arm of Lake Sonoma; south along the shoreline of the Dry Creek arm to Smittle Creek; north along the COE property line to Dry Creek; east along the COE boundary across Cherry Creek, Skunk Creek, and Yorty Creek to the point of beginning.

(B) Season: The season for additional hunt J-1 (Lake Sonoma Apprentice Either-Sex Deer Hunt) shall open on the first Saturday in November and extend for two consecutive days.

(C) Bag and Possession Limit: One either-sex deer (see subsection 351(c)) per tag.

(D) Number of Tags: 25.

(E) Special Conditions:

1. Only junior license holders shall apply (see subsection 708(a)(2)).

2. Tagholders shall be accompanied by an adult chaperon 18 years of age or older while hunting.

4. The use of dogs is prohibited.

5. Boats are required for all areas west of Cherry Creek (2/3 of the hunt area). Only cartop boats are allowed to launch from the Yorty Creek access.

(27) J-3 (Tehama Wildlife Area Apprentice Buck Hunt).

(A) Area: That portion of Tehama County within the boundaries of the Tehama Wildlife Area.

(B) Season: The season for additional hunt J-3 (Tehama Wildlife Area Apprentice Buck Hunt) shall open on the last Saturday in November and extend for 2 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better, per tag.

(D) Number of Tags: 15.

(E) Special Conditions:

1. Only junior license holders shall apply (see subsection 708(a)(2)).

2. Tagholders shall be accompanied by an adult chaperon 18 years of age or older while hunting.

3. Tagholders shall attend an orientation meeting the day before the opening day of the season.

(28) J-4 (Shasta-Trinity Apprentice Buck Hunt).

(A) Area: In those portions of Shasta and Trinity counties beginning at the junction of Highway 3 and Highway 299 in Weaverville; north on Highway 3 to the East Side Road at the north end of Trinity Lake; east on the East Side Road to Dog Creek Road; east on Dog Creek Road to Interstate 5 at Vollmers; south on Interstate 5 to Shasta Lake; south along the west shore of Shasta Lake to Shasta Dam; south along Shasta Dam along the Sacramento River to Keswick Dam Road; west on Keswick Dam Road to Rock Creek Road; south on Rock Creek Road to Highway 299; west on Highway 299 to the point of beginning.

(B) Season: The season for additional hunt J-4 (Shasta-Trinity Apprentice Buck Hunt) shall open on the fourth Saturday in November and extend for nine consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better, per tag.

(D) Number of Tags: 15.

(E) Special Conditions:

1. Only junior license holders shall apply (see subsection 708(a)(2)).

2. Tagholders shall be accompanied by an adult chaperon 18 years of age or older while hunting.

(29) J-7 (Carson River Apprentice Either-Sex Deer Hunt).

(A) Area: That portion of Alpine County within the area described as Zone X-8 (see subsection 360(b)(12)(A)).

(B) Season: The season for additional hunt J-7 (Carson River Apprentice Either-Sex Deer Hunt) shall open on the first Saturday following the closure of the X-8 general season (see subsection 360(b)(12)(B)) and extend for 9 consecutive days.

(C) Bag and Possession limit: One either-sex deer (see subsection 351(c)) per tag.

(D) Number of Tags: 15.

(E) Special Conditions:

1. Only junior license holders shall apply (see subsection 708(a)(2)).

2. Tagholders shall be accompanied by an adult chaperon 18 years of age or older while hunting.

(30) J-8 (Daugherty Hill Wildlife Area Apprentice Either-Sex Deer Hunt).

(A) Area: That portion of Yuba County within the exterior boundaries of the Daugherty Hill Wildlife Area (as defined in Section 550, Title 14, CCR).

(B) Season: The season for additional hunt J-8 (Daugherty Hill Wildlife Area Apprentice Either-Sex Deer Hunt) shall open on the first Saturday in December and extend through December 31.

(C) Bag and Possession Limit: One either-sex deer (see subsection 351(c)) per tag.

(D) Number of Tags: 15.

(E) Special Conditions:

1. Only junior license holders shall apply (see subsection 708(a)(2)).

2. Tagholders shall be accompanied by an adult chaperon 18 years of age or older while hunting.

3. Tagholders shall attend an orientation meeting the day before the opening day of the season.

(31) J-9 (Little Dry Creek Apprentice Shotgun Either-Sex Deer Hunt).

(A) Area: That portion of Butte County within the exterior boundaries of the Little Dry Creek Unit Upper Butte Basin Wildlife Area (as defined in Section 550).

(B) Season: The season for additional hunt J-9 (Little Dry Creek Apprentice Shotgun Either-Sex Deer Hunt) shall open on the third Saturday in September and extend for 9 consecutive days.

(C) Bag and Possession Limit: One either-sex deer (see subsection 351(c)), per tag.

(D) Number of Tags: 5.

(E) Special Conditions:

1. Only junior license holders shall apply (see subsection 708(a)(2)).

2. Tagholders shall be accompanied by an adult chaperon 18 years of age or older while hunting.

3. Tagholders shall attend an orientation meeting the day before the opening day of the season.

4. Only shotguns and ammunition as specified in Section 353 may be used.

(32) J-10 (Fort Hunter Liggett Apprentice Either-Sex Deer Hunt).

(A) Area: That portion of Monterey County lying within the exterior boundaries of the Fort Hunter Liggett Military Reservation, except as restricted by the Commanding Officer.

(B) Season: The season for additional hunt J-10 (Fort Hunter Liggett Apprentice Either-Sex Deer Hunt) shall open on October 4 and extend for 2 consecutive days and reopen October 11 and extend for 3 consecutive days, except if rescheduled by the Commanding Officer with Department concurrence between the season opener and December 31.

(C) Bag and Possession Limit: One either-sex deer (see subsection 351(c)) per tag.

(D) Number of Tags: 85 (10 military and 75 general public).

(E) Special Conditions:

1. Only junior license holders shall apply (see subsection 708(a)(2)).

2. Tagholders shall be accompanied by an adult chaperon 18 years of age or older while hunting.

3. Tagholders shall attend an orientation meeting the day before the opening day of the season.

4. In the event the Commanding Officer cancels the hunt, J-10 tagholders will only have the option of exchanging the unused tag for any remaining deer tag or receiving a refund.

(33) J-11 (San Bernardino Apprentice Either-Sex Deer Hunt).

(A) Area: In those portions of Zone D–14 within San Bernardino County (see subsection 360(a)(13)(A).

(B) Season: The season for additional hunt J–11 (San Bernardino Apprentice Either–Sex Deer Hunt) shall open on the third Saturday in November and extend for 9 consecutive days.

(C) Bag and Possession Limit: One either–sex deer (see subsection 351(c)) per tag.

(D) Number of Tags: 40.

(E) Special Conditions:

1. Only junior license holders shall apply (see subsection 708(a)(2)).

2. Tagholders shall be accompanied by an adult chaperon 18 years of age or older while hunting.

(34) J–12 (Round Valley Apprentice Buck Hunt).

(A) Area: In that portion of Inyo and Mono counties within a line beginning at the intersection of U.S. Highway 395 and California Highway 168; west and south along Highway 168 to the North Lake Road turnoff; west along the North Lake Road and the Paiute Pass Trail to the Inyo–Fresno county line; north along the Inyo–Fresno county line to the Mono–Fresno county line; north along the Mono–Fresno and Mono–Madera county lines to the junction of the Mono–Madera county line and California Highway 203 at Minaret Summit; southeast along Highway 203 to its junction with Highway 395; south along Highway 395 to the point of beginning.

(B) Season: The season for additional hunt J–12 (Round Valley Apprentice Buck Hunt) shall open on the first Saturday in December and extend for 16 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better, per tag.

(D) Number of Tags: 10.

(E) Special Conditions:

1. Only junior license holders shall apply (see subsection 708(a)(2)).

2. Tagholders shall be accompanied by an adult chaperon 18 years of age or older while hunting.

(35) J–13 (Los Angeles Apprentice Either–Sex Deer Hunt).

(A) Area: In that portion of Los Angeles County within Zone D–11 (see subsection 360(a)(10)(A)).

(B) Season: The season for additional hunt J–13 (Los Angeles Apprentice Either–Sex Deer Hunt) shall open on the third Saturday in November and extend for 9 consecutive days.

(C) Bag and Possession Limit: One either–sex deer (see subsection 351(c)) per tag.

(D) Number of Tags: 40.

(E) Special Conditions:

1. Only junior license holders shall apply (see subsection 708(a)(2)).

2. Tagholders shall be accompanied by an adult chaperon 18 years of age or older while hunting.

(36) J–14 (Riverside Apprentice Either–Sex Deer Hunt).

(A) Area: In that portion of Riverside County within Zone D–19 (see subsection 360(a)(17)(A)).

(B) Season: The season for additional hunt J–14 (Riverside Apprentice Either–Sex Deer Hunt) shall open on the third Saturday in November and extend for 9 consecutive days.

(C) Bag and Possession Limit: One either–sex deer (see subsection 351(c)) per tag.

(D) Number of Tags: 30.

(E) Special Conditions:

1. Only junior license holders shall apply (see subsection 708(a)(2)).

2. Tagholders shall be accompanied by an adult chaperon 18 years of age or older while hunting.

(37) J–15 (Anderson Flat Apprentice Buck Hunt).

(A) Area: In that portion of Zone D–6 in Mariposa and Tuolumne counties lying within a line beginning at the intersection of Highway 140 and Bull Creek Road at Briceburg; north on Bull Creek Road (U.S. Forest Service Road 2S05) to Greeley Hill Road; west on Greeley Hill Road to Smith Station Road (County Route J20); north on Smith Station Road to Highway 120 (near Burch Meadow); east on Highway 120 to the Yosemite National Park Boundary (near Big Oak–Flat Ranger Station); southeast along the Yosemite National Park Boundary to Highway 140; west on Highway 140 to the Yosemite National Park Boundary; northwest along the Yosemite National Park Boundary to Highway 140 (at Redbud Campground); west on Highway 140 to the point of beginning.

(B) Season: The season for additional hunt J–15 (Anderson Flat Apprentice Buck Hunt) shall open on the fourth Saturday in November and extend for nine consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better, per tag.

(D) Number of Tags: 10.

(E) Special Conditions:

1. Only junior license holders shall apply (see subsection 708(a)(2)).

2. Tagholders shall be accompanied by an adult chaperon 18 years of age or older while hunting.

(38) J–16 (Bucks Mountain–Nevada City Apprentice Either–Sex Deer Hunt).

(A) Area: Excluding Butte, Colusa and Glenn Counties, in those portions of Nevada, Placer, Plumas, Sierra, Sutter and Yuba Counties within the area described as zone D–3 (see subsection 360(a)(4)(A)1).

(B) Season: The season for additional hunt J–16 (Bucks Mountain–Nevada City Apprentice Either–Sex Deer Hunt) shall be concurrent with the zone D–3 general season as defined in subsection 360(a)(4)(B).

(C) Bag and Possession Limit: One either–sex deer (see subsection 351(c)) per tag.

(D) Number of Tags: 75.

(E) Special Conditions:

1. Only junior license holders shall apply (see subsection 708(a)(2)).

2. Tagholders shall be accompanied by an adult chaperon 18 years of age or older while hunting.

(39) J–17 (Blue Canyon Apprentice Either–Sex Deer Hunt).

(A) Area: Excluding Colusa County, in those portions of Nevada, Placer, Sacramento, Sutter, Yolo and Yuba Counties within the area described as zone D–4 (see subsection 360(a)(4)(A)2).

(B) Season: The season for additional hunt J–17 (Blue Canyon Apprentice Either–Sex Deer Hunt) shall be concurrent with the zone D–4 general season as defined in subsection 360(a)(4)(B).

(C) Bag and Possession Limit: One either–sex deer (see subsection 351(c)) per tag.

(D) Number of Tags: 25.

(E) Special Conditions:

1. Only junior license holders shall apply (see subsection 708(a)(2)).

2. Tagholders shall be accompanied by an adult chaperon 18 years of age or older while hunting.

(40) J–18 (Pacific–Grizzly Flat Apprentice Either–Sex Deer Hunt).

(A) Area: Excluding Amador, Calaveras and Tuolumne Counties, in those portions of Alpine, El Dorado, Placer, Sacramento, San Joaquin, and Stanislaus counties within the area described as zone D–5 (see subsection 360(a)(4)(A)3).

(B) Season: The season for additional hunt J–18 (Pacific–Grizzly Flat Apprentice Either–Sex Deer Hunt) shall be concurrent with the zone D–5 general season as defined in subsection 360(a)(4)(B).

(C) Bag and Possession Limit: One either–sex deer (see subsection 351(c)) per tag.

(D) Number of Tags: 75.

(E) Special Conditions:

1. Only junior license holders shall apply (see subsection 708(a)(2)).

2. Tagholders shall be accompanied by an adult chaperon 18 years of age or older while hunting.

(41) J–19 (Zone X–7a Apprentice Either–Sex Deer Hunt).

(A) Area: In those portions of Lassen, Nevada, Plumas and Sierra Counties within the area described as zone X–7a (see subsection 360(b)(10)(A)).

(B) Season: The season for additional hunt J–19 (Zone X–7a Apprentice Either–Sex Deer Hunt) shall be concurrent with the zone X–7a general season as defined in subsection 360(b)(10)(B).

(C) Bag and Possession Limit: One either–sex deer (see subsection 351(c)) per tag.

(D) Number of Tags: 25.

(E) Special Conditions:

1. Only junior license holders shall apply (see subsection 708(a)(2)).

2. Tagholders shall be accompanied by an adult chaperon 18 years of age or older while hunting.

(42) J–20 (Zone X–7b Apprentice Either–Sex Deer Hunt).

(A) Area: In those portions of Nevada, Placer and Sierra Counties within the area described as zone X–7b (see subsection 360(b)(11)(A)).

(B) Season: The season for additional hunt J–20 (Zone X–7b Apprentice Either–Sex Deer Hunt) shall be concurrent with the zone X–7b general season as described in subsection 360(b)(11)(B).

(C) Bag and Possession Limit: One either–sex deer (see subsection 351(c)) per tag.

(D) Number of Tags: 20.

(E) Special Conditions:

1. Only junior license holders shall apply (see subsection 708(a)(2)).

2. Tagholders shall be accompanied by an adult chaperon 18 years of age or older while hunting.

(43) J–21 (East Tehama Apprentice Either–Sex Deer Hunt).

(A) Area: In that portion of Tehama County within the area described as zone C–4 (see subsection 360(a)(3)(A)4.).

(B) Season: The season for additional hunt J–21 (East Tehama Apprentice Either–Sex Deer Hunt) shall open on the third Saturday in September and extend for 44 consecutive days.

(C) Bag and Possession Limit: One either–sex deer (see subsection 351(c)) per tag.

(D) Number of Tags: 50.

(E) Special Conditions:

1. Only junior license holder shall apply (see subsection 708(a)(2)).

2. Tagholders shall be accompanied by an adult chaperon 18 years of age or older while hunting.

(44) Conditions for Special Hunts.

(A) When hunting on military reservations or private lands, hunters shall have in their possession a written permit signed by the landowner, which may specify where and when the permittee may hunt.

(B) When required, tagholders shall check in and check out of designated check stations.

(d) Fund–raising License Tags.

Fund–raising license tags (Golden Opportunity and Open Zone) for the taking of buck deer (as defined in subsection 351(a)) shall be offered for sale to raise funds for the management of deer through the Deer Herd Management Plan Implementation Program. Any resident or nonresident is eligible to purchase a fund–raising license tag. The sale price of a fund–raising license tag includes the fees for deer tag applications and for processing and issuing a hunting license. The purchaser shall be issued a hunting license and fund–raising license tag only after meeting the hunter education requirements for a hunting license.

(1) Golden Opportunity Tag.

(A) Area: Golden Opportunity tags shall be valid statewide.

(B) Season: Golden Opportunity tags shall be valid beginning on the second Saturday in July and extend through December 31.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better, per tag.

(D) Number of Tags: 5.

(E) Special Conditions:

1. The holder of a Golden Opportunity tag may take deer using methods authorized in sections 353 and 354.

2. Fund–raising license tagholders who receive a deer tag pursuant to Section 708(a)(2) shall be allowed to exchange that tag under the provisions of subsection 708(a)(2)(F). Tagholders shall not be entitled to obtain more than two (2) deer tags as described in subsection 708(a)(2).

3. Tagholders shall report to the Regional Patrol Chief at the appropriate Department of Fish and Game Regional Headquarters prior to hunting as to the time and area they intend to hunt.

(2) Open Zone Tag.

(A) Area: Open Zone tags shall be valid in the areas as described in sections 360 and 361.

(B) Season: Open Zone tags shall be valid during the authorized seasons described in sections 360 and 361.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better, per tag.

(D) Number of Tags: 5.

(E) Special Conditions:

1. The holder of an Open Zone tag shall meet any special conditions and take deer using the method of take described in sections 360 and 361.

2. Fund–raising license tagholders who receive a deer tag pursuant to Section 708(a)(2) shall be allowed to exchange that tag under the provisions of subsection 708(a)(2)(F). Tagholders shall not be entitled to obtain more than two (2) deer tags as described in subsection 708(a)(2).

3. Tagholders shall report to the Regional Patrol Chief at the appropriate Department of Fish and Game Regional Headquarters prior to hunting as to the time and area they intend to hunt.

NOTE: Authority: Sections 200, 202, 203, 220, 460, 3452, 3453 and 4334, Fish and Game Code. Reference: Sections 200, 202, 203, 203.1, 207, 458, 459, 460, 3452, 3453 and 4334, Fish and Game Code.

HISTORY

1. Amendment of subsections (a)(6) and (a)(12) filed 9–18–87 as an emergency; operative 9–18–87 (Register 87, No. 39). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 1–18–88. For prior history, see Register 87, No. 2.
2. Reinstatement of subsections (a)(6) and (a)(12) as they existed prior to emergency amendment filed 9–18–87 by operation of Government Code section 11346.1(f) (Register 88, No. 23).
3. Amendment of subsections (a)–(c) filed 5–31–88; operative 5–31–88 (Register 88, No. 23).
4. Amendment of subsections (a)–(c) filed 6–19–89; operative 6–19–89 (Register 89, No. 27).
5. Amendment filed 6–22–90; operative 6–22–90 pursuant to section 215, Fish and Game Code (Register 90, No. 34).
6. Amendment filed 6–28–91; operative 6–28–91 (Register 91, No. 42).
7. Amendment filed 7–8–92; operative 7–8–92 pursuant to Fish and Game Code section 215 (Register 92, No. 28).
8. Amendment of section and NOTE filed 6–23–93; operative 6–23–93 pursuant to Fish and Game Code sections 202 and 215 (Register 93, No. 26).
9. Amendment filed 7–13–94; operative 7–13–94 pursuant to sections 202 and 215, Fish and Game Code (Register 94, No. 28).
10. Amendment of section and NOTE filed 6–9–95; operative 6–9–95 pursuant to Government Code section 11343.4(d) (Register 95, No. 23).
11. Editorial correction of subsections (a)(2)(A)1., (a)(3)(D) and (b)(15)(A) (Register 96, No. 26).
12. Amendment of section and NOTE filed 6–26–96; operative 7–1–96 pursuant to section 11343.4(d) (Register 96, No. 26).
13. Amendment filed 6–26–97; operative 6–26–97 pursuant to Fish and Game Code sections 202 and 215 (Register 97, No. 26).
14. Amendment filed 7–1–98; operative 7–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 27).
15. Amendment filed 6–2–99; operative 6–2–99 pursuant to Fish and Game Code sections 202 and 215 (Register 99, No. 23).
16. Amendment of subsection (c)(29)(B) filed 10–14–99 as an emergency; operative 10–14–99 (Register 99, No. 42). A Certificate of Compliance must be transmitted to OAL by 2–11–99 or emergency language will be repealed by operation of law on the following day.
17. Editorial correction of HISTORY 16 (Register 2000, No. 23).
18. Reinstatement of subsection (c)(29)(B) as it existed prior to 10–14–99 emergency amendment by operation of Government Code section 11346.1(f) (Register 2000, No. 23).
19. Editorial correction of subsections (c)(6)(B) and (d)(2)(E)1. (Register 2000, No. 26).
20. Amendment filed 6–27–2000; operative 6–27–2000 pursuant to Fish and Game Code sections 202 and 205 (Register 2000, No. 26).

21. Editorial correction of subsection (a)(3)(B)1. (Register 2001, No. 21).

22. Amendment of subsections (a)(3)(D), (b)(1)(D), (b)(2)(D), (b)(3)(D), (b)(4)(D), (b)(5)(D), (b)(6)(D), (b)(7)(D), (b)(8)(D), (b)(9)(D), (b)(10)(D), (b)(11)(D), (b)(12)(D), (b)(17)(D), (c)(1)(D), (c)(15)(D), (c)(20)(D) and (c)(29)(D) filed 5-21-2001; operative 6-1-2001 pursuant to Fish and Game Code sections 202 and 215 (Register 2001, No. 21).

23. Amendment filed 6-28-2002; operative 6-28-2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 26).

24. Amendment filed 6-24-2003; operative 7-1-2003 pursuant to Government Code section 11343.4 (Register 2003, No. 26).

25. Amendment filed 7-7-2004; operative 7-7-2004 pursuant to Government Code section 11343.4 (Register 2004, No. 28).

26. Amendment of subsections (a)(3)(D), (b)(1)(D), (b)(3)(D), (b)(4)(D), (b)(5)(D), (b)(6)(D), (b)(7)(D), (b)(8)(D), (b)(9)(D), (b)(10)(D), (b)(11)(D), (b)(12)(D), (b)(13)(D), (c)(1)(D), (c)(11)(D), (c)(15)(D), (c)(16)(D), (c)(17)(D), (c)(21)(D) and (c)(22)(D) filed 7-19-2005; operative 7-19-2005 pursuant to Government Code section 11343.4 (Register 2005, No. 29).

27. Amendment of subsections (b)(1)(D), (b)(2)(D), (b)(4)(D), (b)(5)(D), (b)(6)(D), (b)(7)(D), (b)(8)(D), (b)(9)(D), (b)(10)(D), (b)(11)(D), (b)(12)(D), (b)(13)(D), (b)(17)(D), (c)(15)(D), (c)(16)(D), (c)(17)(D), (c)(18)(D) and (c)(21)(D) filed 6-30-2006; operative 6-30-2006 pursuant to Government Code section 11343.4 (Register 2006, No. 26).

28. Amendment of subsections (a)(3)(D), (b)(1)(D), (b)(3)(D), (b)(4)(D), (b)(5)(D), (b)(6)(D), (b)(7)(D), (b)(8)(D), (b)(9)(D), (b)(10)(D), (b)(11)(D), (b)(12)(D), (c)(2)(D), (c)(5)(B), (c)(7)(B), (c)(7)(D), (c)(7)(E)1.-3., (c)(17)(D), (c)(18)(D), (c)(21)(D), (c)(32)(B) and (c)(32)(D) filed 5-29-2007; operative 5-29-2007 pursuant to Government Code section 11343.4 (Register 2007, No. 22).

29. Amendment of subsections (a)(1)(A)1., (b)(1)(D), (b)(3)(D), (b)(4)(D), (b)(5)(D), (b)(6)(D), (b)(7)(D), (b)(8)(D), (b)(9)(D), (b)(10)(D), (b)(11)(D), (b)(12)(D), (b)(13)(D), (b)(17)(D), (c)(5)(B), (c)(17)(D), (c)(21)(D), (c)(26), (c)(26)(B), (c)(27), (c)(27)(B), (c)(28), (c)(28)(B), (c)(29), (c)(29)(B), (c)(30), (c)(30)(B), (c)(31), (c)(31)(B), (c)(32), (c)(32)(B), (c)(33), (c)(33)(B), (c)(34), (c)(34)(B), (c)(35), (c)(35)(B), (c)(36), (c)(36)(B), (c)(37), (c)(37)(B), (c)(38), (c)(38)(B), (c)(39), (c)(39)(B), (c)(40), (c)(40)(B), (c)(41), (c)(41)(B), (c)(42), (c)(42)(B), (c)(43) and (c)(43)(B) filed 6-20-2008; operative 6-20-2008 pursuant to Government Code section 11343.4 (Register 2008, No. 25).

§ 361. Archery Deer Hunting.

(a) Archery Hunting With General Deer Zone Tags. Deer may be taken during the archery season only with archery equipment specified in Section 354 as follows:

(1) Zone A.

(A) Area: As described in subsection 360(a)(1)(A)1. through 2.

(B) Season: The archery deer season in Zone A–South Unit 110 and Zone A–North Unit 160 shall open on the second Saturday in July and extend for 23 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better per tag.

(2) B Zones.

(A) Zones B–1 through B–3, B–5 and B–6.

1. Area: As described in subsection 360(a)(2)(A).

2. Season: The archery deer season in Zones B–1 through B–3, B–5 and B–6 shall open on the third Saturday in August and extend for 23 consecutive days.

3. Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better per tag.

(B) Zone B–4.

1. Area: As described in subsection 360(a)(2)(A)4.

2. Season: The archery deer season in Zone B–4 shall open on the fourth Saturday in July and extend for 23 consecutive days.

(3) C Zones (Note: see subsection 361(b) below for area-specific archery hunt A–1 (C Zones Archery Only Hunt)).

(4) D Zones.

(A) Zones D–3 through D–5.

1. Area: As described in subsection 360(a)(4)(A)1. through 3.

2. Season: The archery season in Zones D–3, D–4, and D–5 shall open on the third Saturday in August and extend for 23 days.

3. Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better per tag.

4. Special Conditions: Hunters that possess a Zone D–3–5 tag may hunt in zones D–3, D–4, and D–5.

(B) Zones D–6 through D–10.

1. Area: As described in subsection 360(a)(5)(A) through (9)(A).

2. Season: The archery season in zones D–6 through D–10 shall open on the third Saturday in August and extend for 23 days.

3. Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better per tag.

(C) Zones D–11, D–13 and D–15.

1. Area: As described in subsection 360(a)(10)(A), (12)(A) and (14)(A), respectively.

2. Season: The archery season in Zones D–11, D–13 and D–15 shall open on the first Saturday in September and extend for 23 days.

3. Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better per tag.

4. Special Conditions: Hunters that possess a D–11, D–13, or D–15 tag may hunt in any, or all three of those zones.

(D) Zone D–12.

1. Area: As described in subsection 360(a)(11)(A).

2. Season: The archery season in Zone D–12 shall open on the first Saturday in October and extend for 23 consecutive days.

3. Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better per tag.

(E) Zones D–14, D–16, D–17 and D–19.

1. Area: As described in subsection 360(a)(13)(A), (15)(A), (16)(A) and (17)(A), respectively.

2. Season: The archery season in zones D–14, D–16, D–17 and D–19 shall open on the first Saturday in September and extend for 23 consecutive days.

3. Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better per tag.

(b) Archery Hunting With Area-specific Archery Tags. Deer may be taken only with archery equipment specified in Section 354, only during the archery seasons as follows:

(1) A–1 (C Zones Archery Only Hunt).

(A) Area: Shall include all of Zones C–1, C–2, C–3, and C–4 as described in subsections 360(a)(3)(A)1 through 4.

(B) Season:

1. Zone C–1. The archery season for Zone C–1 shall open on the third Saturday in August and extend for 16 consecutive days.

2. Zone C–2. The archery season for Zone C–2 shall open on the third Saturday in August and extend for 23 consecutive days.

3. Zone C–3. The archery season for Zone C–3 shall open on the third Saturday in August and extend for 23 consecutive days.

4. Zone C–4. The archery season for Zone C–4 shall open on the third Saturday in August and extend for 16 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better per tag.

(D) Number of Tags: 2,045 A–1 (C Zones Archery Only Hunt) tags are valid in Zones C–1, C–2, C–3, and C–4 only during the archery season as specified above in subsections 361(b)(1)(B)1 through 4.

(2) A–3 (Zone X–1 Archery Hunt)

(A) Area: As described in subsection 360(b)(1)(A).

(B) Season: The archery season for hunt A–3 (Zone X–1 Archery Hunt) shall open on the third Saturday in August and extend for 23 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better per tag.

(D) Number of Tags: 255.

(3) A–4 (Zone X–2 Archery Hunt)

(A) Area: As described in subsection 360(b)(2)(A).

(B) Season: The archery season for hunt A–4 (Zone X–2 Archery Hunt) shall open on the third Saturday in August and extend for 23 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better per tag.

(D) Number of Tags: 15.

(4) A–5 (Zone X–3a Archery Hunt).

(A) Area: As described in subsection 360(b)(3)(A).

(B) Season: The archery season for hunt A–5 (Zone X–3a Archery Hunt) shall open on the third Saturday in August and extend for 23 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better per tag.

(D) Number of Tags: 35.

(5) A–6 (Zone X–3b Archery Hunt).

(A) Area: As described in subsection 360(b)(4)(A).

(B) Season: The archery season for hunt A–6 (Zone X–3b Archery Hunt) shall open on the third Saturday in August and extend for 23 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better per tag.

(D) Number of Tags: 95.

(6) A–7 (Zone X–4 Archery Hunt).

(A) Area: As described in subsection 360(b)(5)(A).

(B) Season: The archery season for hunt A–7 (Zone X–4 Archery Hunt) shall open on the third Saturday in August and extend for 23 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better per tag.

(D) Number of Tags: 135.

(7) A–8 (Zone X–5a Archery Hunt).

(A) Area: As described in subsection 360(b)(6)(A).

(B) Season: The archery season for hunt A–8 (Zone X–5a Archery Hunt) shall open on the third Saturday in August and extend for 23 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better per tag.

(D) Number of Tags: 25.

(8) A–9 (Zone X–5b Archery Hunt).

(A) Area: As described in subsection 360(b)(7)(A).

(B) Season: The archery season for hunt A–9 (Zone X–5b Archery Hunt) shall open on the third Saturday in August and extend for 23 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better per tag.

(D) Number of Tags: 10.

(9) A–11 (Zone X–6a Archery Hunt).

(A) Area: As described in subsection 360(b)(8)(A).

(B) Season: The archery season for hunt A–11 (Zone X–6a Archery Hunt) shall open on the third Saturday in August and extend for 23 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better per tag.

(D) Number of Tags: 55.

(10) A–12 (Zone X–6b Archery Hunt).

(A) Area: As described in subsection 360(b)(9)(A).

(B) Season: The archery season for hunt A–12 (Zone X–6b Archery Hunt) shall open on the third Saturday in August and extend for 23 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better per tag.

(D) Number of Tags: 140.

(11) A–13 (Zone X–7a Archery Hunt).

(A) Area: As described in subsection 360(b)(10)(A).

(B) Season: The archery season for hunt A–13 (Zone X–7a Archery Hunt) shall open on the third Saturday in August and extend for 23 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better per tag.

(D) Number of Tags: 60.

(12) A–14 (Zone X–7b Archery Hunt).

(A) Area: As described in subsection 360(b)(11)(A).

(B) Season: The archery season for hunt A–14 (Zone X–7b Archery Hunt) shall open on the third Saturday in August and extend for 23 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better per tag.

(D) Number of Tags: 20.

(13) A–15 (Zone X–8 Archery Hunt).

(A) Area: As described in subsection 360(b)(12)(A).

(B) Season: The archery season for hunt A–15 (Zone X–8 Archery Hunt) shall open on the third Saturday in August and extend for 23 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better per tag.

(D) Number of Tags: 55.

(14) A–16 (Zone X–9a Archery Hunt).

(A) Area: As described in subsection 360(b)(13)(A).

(B) Season: The archery season for hunt A–16 (Zone X–9a Archery Hunt) shall open on the third Saturday in August and extend for 23 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better per tag.

(D) Number of Tags: 150.

(15) A–17 (Zone X–9b Archery Hunt).

(A) Area: As described in subsection 360(b)(14)(A).

(B) Season: The archery season for hunt A–17 (Zone X–9b Archery Hunt) shall open on the third Saturday in August and extend for 23 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better per tag.

(D) Number of Tags: 300.

(16) A–18 (Zone X–9c Archery Hunt).

(A) Area: As described in subsection 360(b)(15)(A).

(B) Season: The archery season for hunt A–18 (Zone X–9c Archery Hunt) shall open on the third Saturday in August and extend for 23 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better per tag.

(D) Number of Tags: 350.

(17) A–19 (Zone X–10 Archery Hunt).

(A) Area: As described in subsection 360(b)(16)(A).

(B) Season: The archery season for hunt A–19 (Zone X–10 Archery Hunt) shall open on the third Saturday in August and extend for 16 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better per tag.

(D) Number of Tags: 120.

(18) A–20 (Zone X–12 Archery Hunt).

(A) Area: As described in subsection 360(b)(17)(A).

(B) Season: The archery season for hunt A–20 (Zone X–12 Archery Hunt) shall open on the third Saturday in August and extend for 23 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better per tag.

(D) Number of Tags: 200.

(19) A–21 (Anderson Flat Archery Buck Hunt).

(A) Area: In that portion of hunt Zone D–6 in Mariposa and Tuolumne counties lying within a line beginning at the intersection of Highway 140 and Bull Creek Road at Briceburg; north on Bull Creek Road (U.S. Forest Service Road 2S05) to Greeley Hill Road; west on Greeley Hill Road to Smith Station Road (County Route J20); north on Smith Station Road to Highway 120 (near Burch Meadow); east on Highway 120 to the Yosemite National Park Boundary (near Big Oak–Flat Ranger Station); southeast along the Yosemite National Park Boundary to Highway 140; west on Highway 140 to the Yosemite National Park Boundary; northwest

along the Yosemite National Park Boundary to Highway 140 (at Redbud Campground); west on Highway 140 to the point of beginning.

(B) Season: The season for hunt A–21 (Anderson Flat Archery Buck Hunt) shall open on the second Saturday in November and extend for 14 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better, per tag.

(D) Number of Tags: 25.

(20) A–22 (San Diego Archery Either–Sex Deer Hunt).

(A) Area: That portion of San Diego County within Zone D–16 (see subsection 360(a)(15)(A)).

(B) Season: The season for hunt A–22 (San Diego Archery Either–Sex Deer Hunt) shall open on the first Saturday in September and extend for 44 consecutive days, and reopen on the third Saturday in November and extend through December 31.

(C) Bag and Possession Limit: One either–sex deer (see subsection 351(c)) per tag.

(D) Number of Tags: 1,000.

(21) A–24 (Monterey Archery Either–Sex Deer Hunt).

(A) Area: All of Monterey County, except Fort Ord Military Reservation.

(B) Season: The season for hunt A–24 (Monterey Archery Either–Sex Deer Hunt) shall open on the second Saturday in October and extend for 30 consecutive days.

(C) Bag and Possession Limit: One either–sex deer (see subsection 351(c)) per tag.

(D) Number of Tags: 100.

(22) A–25 (Lake Sonoma Archery Either–Sex Deer Hunt).

(A) Area: That portion of Sonoma County within the boundaries of the Lake Sonoma Area, U.S. Army Corps of Engineers (COE) property described as follows: Beginning at the intersection of Hot Springs Road and the COE boundary; east and south along the boundary line to the intersection with Brush Creek; west along the north bank of Brush Creek (shoreline) to the Dry Creek arm of Lake Sonoma; south along the shoreline of the Dry Creek arm to Smittle Creek; north along the COE property line to Dry Creek; east along the COE boundary across Cherry Creek, Skunk Creek, and Yorty Creek to the point of beginning.

(B) Season: The season for hunt A–25 (Lake Sonoma Archery Either–Sex Deer Hunt) shall be open on Saturdays, Sundays and Mondays only, beginning on the first Saturday in October and extending for 24 consecutive days.

(C) Bag and Possession Limit: One either–sex deer (see subsection 351(c)) per tag.

(D) Number of Tags: 35.

(E) Special Conditions:

1. The use of dogs is prohibited.

2. Boats are required for all areas west of Cherry Creek (some 2/3 0f the hunt area). Only cartop boats are allowed to launch from the Yorty Creek access.

(23) A–26 (Bass Hill Archery Buck Hunt).

(A) Area: That portion of Lassen County within the area described as Zone X–6a (see subsection 360(b)(8)(A)).

(B) Season: The season for hunt A–26 (Bass Hill Archery Buck Hunt) shall open on the third Saturday in November and extend for 23 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better, per tag.

(D) Number of Tags: 30.

(24) A–27 (Devil's Garden Archery Buck Hunt).

(A) Area: That portion of Modoc County within a line beginning at the intersection of the Malin Road (Modoc County 114) and the California/Oregon state line; east along the state line to the Crowder Flat Road; south along the Crowder Flat Road to the Blue Mountain Road (Modoc County 136); west on the Blue Mountain Road to the Blue Mountain–Mowitz Butte–Ambrose Road; south on the Blue Mountain–Mowitz Butte–Ambrose Road to Highway 139; north on Highway 139 to the Malin Road; north on the Malin Road to the point of beginning.

(B) Season: The season for hunt A–27 (Devil's Garden Archery Buck Hunt) shall open on the fourth Saturday in October and extend for 16 consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better, per tag.

(D) Number of Tags: 10.

(25) A–30 (Covelo Archery Buck Hunt).

(A) Area: That portion of Mendocino County within a line beginning at the intersection of Highway 101 and the Humboldt–Mendocino county line; east along the Humboldt–Mendocino county line to the Trinity–Mendocino county line; east along Trinity–Mendocino county line to the Mendocino–Tehama county line; south on the Mendocino–Tehama county line to the Mendocino–Glenn county line; south on the Mendocino–Glenn county line to the Mendocino–Lake county line; west and south on the Mendocino–Lake county line to the Main Eel River; west and north on the Main Eel River to the Hearst–Willits Road; southwest on the Hearst–Willits Road to Commercial Avenue; west on Commercial Avenue to Highway 101; north on Highway 101 to the point of beginning.

(B) Season: The season for hunt A–30 (Covelo Archery Buck Hunt) shall open on the second Saturday in November and extend for sixteen consecutive days.

(C) Bag and Possession Limit: One buck, forked horn (see subsection 351(a)) or better, per tag.

(D) Number of Tags: 40.

(26) A–31 (Los Angeles Archery Either–Sex Deer Hunt).

(A) Area: That portion of Los Angeles County within Zone D–11 (see subsection 360(a)(10)(A)).

(B) Season: The season for hunt A–31 (Los Angeles Archery Either–Sex Deer Hunt) shall open on the fourth Saturday in September and extend through December 31.

(C) Bag and Possession Limit: One either–sex deer (see subsection 351(b)) per tag.

(D) Number of Tags: 1,000.

(27) A–32 (Ventura/Los Angeles Late Season Archery Either–Sex Deer Hunt).

(A) Area: In those portions of Los Angeles and Ventura counties within the area described as the A Zone (see subsection 360(a)(1)(A)).

(B) Season: The season for hunt A–32 (Ventura/Los Angeles Late Season Archery Either–Sex Deer Hunt) shall open on the second Saturday in November and extend for 23 consecutive days.

(C) Bag and Possession Limit: One either–sex deer (see subsection 351(c)) per tag.

(D) Number of Tags: 250.

(28) A–33 (Fort Hunter Liggett Late Season Archery Either–Sex Deer Hunt).

(A) Area: That portion of Monterey County lying within the exterior boundaries of the Hunter Liggett Military Reservation, except as restricted by the Commanding Officer.

(B) Season: The season for hunt A–33 (Fort Hunter Liggett Late Season Archery Either–Sex Deer Hunt) shall be open on Saturdays, Sundays and holidays only beginning the first Saturday in October and continuing through November 9, except if rescheduled by the Commanding Officer with Department concurrence between the season opener and December 31.

(C) Bag and Possession Limit: One either–sex deer (see subsection 351(c)) per tag.

(D) Number of Tags: 50 (25 military and 25 general public).

(E) Special Conditions: In the event the Commanding Officer cancels the hunt, A–33 tagholders will only have the option of exchanging the unused tag for any remaining deer tag or receiving a refund.

(c) Archery Hunting with Archery Only Tags. Deer may be taken only with archery equipment specified in Section 354, during the archery seasons and general seasons as follows:

(1) Number of Archery Only Tags Permitted. A person may obtain an archery only tag using a one–deer tag application and a second archery only tag using a second deer tag application.

(2) Zones in Which Archery Only Tags are Valid. An archery only tag is valid for hunt G–10, and during the archery season and general season in all zones except C–1 through C–4 and X–1 through X–12.

(3) Areas: As described in subsections 360(a) and (c).

(4) Seasons: The archery season and general seasons are provided in subsection 361(a) above and in subsections 360(a) and (c).

(5) Bag and Possession Limit: All bag and possession limits per zone are the same as those described in subsections 360(a) and (c).

(d) Hunting Area Limitations. Archers not in possession of an archery only tag may hunt only in the zone, zones, or areas for which they have a general tag or an area–specific archery tag. (Refer to subsection 361(c)(2) for zones in which archery only tags are valid).

(e) Crossbow Prohibition. Except as provided in subsection 354(j), crossbows may not be used during any archery season or during the general season when using an archery only tag.

NOTE: Authority cited: Sections 200, 202, 203, 220 and 4370, Fish and Game Code. Reference: Sections 200, 202, 203, 203.1, 207 and 4370, Fish and Game Code.

HISTORY

1. Amendment of subsections (a) and (b) filed 6–24–85 as an emergency; effective upon filing (Register 85, No. 27). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 10–22–85. For prior history, see Register 84, No. 48.
2. Notice of Erroneous Filing declaring 6–24–85 Certificate of Compliance null and void filed 7–2–85 by OAL (Register 85, No. 27).
3. Certificate of Compliance as to 6–24–85 order transmitted to OAL 9–30–85 and filed 11–1–85 (Register 85, No. 44).
4. Amendment filed 7–1–86; effective upon filing (Register 86, No. 27).
5. Amendment of subsection (a)(2) filed 6–22–87; operative 6–22–87 (Register 87, No. 27).
6. Amendment of subsections (a) and (b) filed 5–31–88; operative 5–31–88 (Register 88, No. 23).
7. Amendment of subsection (b) filed 6–22–90; operative 6–22–90 pursuant to section 215, Fish and Game Code (Register 90, No. 34).
8. Amendment of subsection (a) filed 6–28–91; operative 6–28–91 (Register 91, No. 42).
9. Amendment filed 7–8–92; operative 7–8–92 pursuant to Fish and Game Code section 215 (Register 92, No. 28).
10. Amendment of subsections (a)(2), (a)(2)(B), (b) and (c), repealer of subsections (a)(6)–(a)(6)(B) and subsection renumbering filed 6–23–93; operative 6–23–93 pursuant to Fish and Game Code sections 202 and 215 (Register 93, No. 26).
11. Amendment filed 7–13–94; operative 7–13–94 pursuant to sections 202 and 215, Fish and Game Code (Register 94, No. 28).
12. Amendment of section and NOTE filed 6–9–95; operative 6–9–95 pursuant to Government Code section 11343.4(d) (Register 95, No. 23).
13. Change without regulatory effect amending subsection (b)(15)(B) filed 7–6–95 pursuant to section 100, title 1, California Code of Regulations (Register 95, No. 27).
14. Amendment filed 6–26–96; operative 7–1–96 pursuant to section 11343.4(d) (Register 96, No. 26).
15. Amendment filed 6–26–97; operative 6–26–97 pursuant to Fish and Game Code sections 202 and 215 (Register 97, No. 26).
16. Amendment filed 7–1–98; operative 7–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 27).
17. Amendment filed 6–2–99; operative 6–2–99 pursuant to Fish and Game Code sections 202 and 215 (Register 99, No. 23).
18. Editorial correction of subsection (a)(4)(D)1.. (Register 2000, No. 26).
19. Amendment filed 6–27–2000; operative 6–27–2000 pursuant to Fish and Game Code sections 202 and 205 (Register 2000, No. 26).
20. Amendment of subsections (b)(1)(D), (b)(2)(D), (b)(3)(D), (b)(5)(D), (b)(7)(D), (b)(11)(D), (b)(12)(D) and (b)(26)(D) filed 5–21–2001; operative 6–1–2001 pursuant to Fish and Game Code sections 202 and 215 (Register 2001, No. 21).
21. Amendment filed 6–28–2002; operative 6–28–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 26).
22. Amendment filed 6–24–2003; operative 7–1–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 26).
23. Amendment filed 7–7–2004; operative 7–7–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 28).
24. Amendment of subsections (b)(1)(D), (b)(4)(D), (b)(5)(D), (b)(6)(D), (b)(8)(D), (b)(9)(D), (b)(10)(D), (b)(13)(D) and (c)(23)(D) filed 7–19–2005; operative 7–19–2005 pursuant to Government Code section 11343.4 (Register 2005, No. 29).
25. Amendment of subsections (b)(2)(D), (b)(4)(D), (b)(5)(D), (b)(6)(D), (b)(7)(D), (b)(8)(D), (b)(9)(D), (b)(10)(D), (b)(11)(D), (b)(13)(D), (b)(14)(D), (b)(18)(D) and (b)(23)(D) filed 6–30–2006; operative 6–30–2006 pursuant to Government Code section 11343.4 (Register 2006, No. 26).
26. Amendment of subsections (b)(3)(D), (b)(4)(D), (b)(5)(D), (b)(6)(D), (b)(7)(D), (b)(8)(D), (b)(9)(D), (b)(10)(D), (b)(11)(D), (b)(13)(D), (b)(23)(D), (b)(25)(A) and (b)(27)(C) and new subsections (b)(28)–(28)(E) filed 5–29–2007; operative 5–29–2007 pursuant to Government Code section 11343.4 (Register 2007, No. 22).
27. Amendment of subsections (b)(2)(D), (b)(3)(D), (b)(4)(D), (b)(5)(D), (b)(6)(D), (b)(7)(D), (b)(8)(D), (b)(9)(D), (b)(10)(D), (b)(11)(D), (b)(13)(D), (b)(14)(D), (b)(18)(D), (b)(23)(D) and (b)(28)(B) filed 6–20–2008; operative 6–20–2008 pursuant to Government Code section 11343.4 (Register 2008, No. 25).

§ 362. Nelson Bighorn Sheep.

(a) Areas:

(1) Zone 1—Marble/Clipper Mountains: That portion of San Bernardino County beginning at the intersection of Kelbaker Road and the National Trails Highway; north on Kelbaker Road to the junction with Interstate Highway 40; east on Interstate Highway 40 to the intersection with National Trails Highway; southwest on National Trails Highway to junction with Kelbaker Road.

(2) Zone 2—Kelso Peak and Old Dad Mountains: That portion of San Bernardino County beginning at the intersection of Kelbaker Road and the Union Pacific Railroad in Kelso; southwest along the Union Pacific Railroad to intersection with unnamed road at Crucero; north on unnamed road to the junction with Rasor Road; northwest on Rasor Road to the junction with Interstate Highway 15; northeast on Interstate Highway 15 to the intersection with Cima Road; south on Cima Road to the intersection with the Union Pacific Railroad in Cima; southwest on the Union Pacific Railroad to the intersection with Kelbaker Road in Kelso.

(3) Zone 3—Clark and Kingston Mountain Ranges: That portion of San Bernardino and Inyo counties beginning at the intersection of Interstate Highway 15 and California State Highway 127 in Baker; north on California State Highway 127 to the junction with Old Spanish Gentry Road on Tecopa; southeast on Old Spanish Gentry Road to the junction with Furnace Creek Road; southeast on Furnace Creek Road to the junction with Mesquite Valley Road; north on Mesquite Valley Road to Old Spanish Trail Highway; north and east on Old Spanish Trail Highway to California/Nevada state line; southeast on California/Nevada state line to the intersection with Interstate Highway 15; southwest on Interstate Highway 15 to the junction with California State Highway 127.

(4) Zone 4—Orocopia Mountains: That portion of Riverside County beginning at the intersection of Interstate Highway 10 and Cottonwood Springs Road; east on Interstate Highway 10 to the junction with Red Cloud Mine Road; south on Red Cloud Mine Road to the junction with the Eagle Mountain Mining Railroad; southwest on the Eagle Mountain Mining Railroad to the junction with the Bradshaw Trail; southwest on the Bradshaw Trail to the Intersection with the Coachella Canal; west along the Coachella Canal to the junction with Box Canyon Road; northeast on Box Canyon Road to the junction with Cottonwood Springs Road; north on Cottonwood Springs Road to the intersection with Interstate Highway 10.

(5) Zone 5—San Gorgonio Wilderness: That portion of Riverside and San Bernardino counties beginning at the intersection of Interstate Highway 10 and California State Highway 62, west on Interstate Highway 10 to the junction with California State Highway 30; north on California State Highway 30 to the junction with California State Highway 38; east and north on California State Highway 38 to the junction with Forest Service Route 1N01; east on Forest Service Route 1N01 to its joining with Pipes Road; east on Pipes Road to the junction with Pioneertown Road; southeast on Pioneertown Road to the junction with California State Highway 62; southwest on California State Highway 62 to the intersection with Interstate Highway 10.

(6) Zone 6—Sheep Hole Mountains: That portion of San Bernardino County beginning at the junction of California State Highway 62 and Ironage Road; northwest on Ironage Road to the intersection with Amboy Road; north on Amboy Road to the intersection with National Trails Highway; east on National Trails Highway to the junction with Saltus Road; southeast on Saltus Road to the junction with unnamed road in Saltus that runs through Cadiz Valley; southeast on unnamed road to the intersection with California State Highway 62; west on California State Highway 62 to the junction with Ironage Road.

(7) Zone 7—White Mountains: That portion of Mono County within a line beginning at U.S. Highway 6 and the Mono–Inyo county line; northward on Highway 6 to the California–Nevada State Line; southeasterly along the California–Nevada State Line to the Mono–Inyo County Line; westward along the Mono–Inyo County Line to the point of beginning.

(b) Seasons:

(1) Fund–raising Hunts: The holder of the fund–raising license tag issued pursuant to subsection 4902(d) of the Fish and Game Code may hunt:

(A) Zones 1 through 4, and 6: Beginning the first Saturday in November and extending through the first Sunday in February.

(B) Zone 5: Beginning the third Saturday in November and extending through the third Sunday in February.

(C) Zone 7: Beginning the first Saturday in August and extending through the last Sunday in September.

(2) Except as provided in subsection 362(b)(1), the Nelson bighorn sheep season in the areas described in subsection 362(a) shall be defined as follows:

(A) Zones 1 through 4, and 6: The first Saturday in December and extend through the first Sunday in February.

(B) Zone 5: The third Saturday in December and extend through the third Sunday in February.

(C) Zone 7: Beginning the third Saturday in August and extending through the last Sunday in September.

(3) Except as specifically provided in section 362, the take of bighorn sheep is prohibited.

(c) Bag and possession Limit: One mature ram defined as follows: a male Nelson bighorn sheep (*Ovis canadensis nelsoni*) having at least one horn, the tip of which extends beyond a point in a straight line beginning at the front (anterior) edge of the horn base, and extending downward through the rear (posterior) edge of the visible portion of the eye and continuing downward through the horn. All reference points are based on viewing the ram directly from a 90 degree angle from which the head is facing. A diagram showing the correct viewing procedure shall be distributed by the department to each successful applicant.

(d) Number of License Tags:

Nelson Bighorn Sheep Hunt Zones	*Tag Allocation for 2008*
Zone 1 – Marble/Clipper Mountains	5
Zone 2 – Kelso Peak/Old Dad Mountains	6
Zone 3 – Clark/Kingston Mountain Ranges	3
Zone 4 – Orocopia Mountains	1
Zone 5 – San Gorgonio Wilderness	1
Zone 6 – Sheep Hole Mountains	1
Zone 7 – White Mountains	4
Fund–Raising Tags	2
Total:	23

(e) Conditions:

(1) Nelson bighorn rams shall only be taken between one–half hour before sunrise and one–half hour after sunset.

(2) Only methods specified in sections 353 and 354, Title 14, CCR, for taking bighorn sheep may be used.

(3) Each tagholder shall possess a spotting telescope capable of magnification of 15 power (15X), which is not affixed to a rifle, while hunting.

(4) Successful general tagholders shall present the head and edible portion of the carcass of a bighorn ram to the department's checking station within 48 hours after killing the animal. All successful tagholders shall notify the department's Bishop office by telephone at (760) 872–1171 or (760) 240–1372 within 24 hours of killing the animal and arrange for the head and carcass to be examined.

(5) All successful bighorn sheep tagholders shall make the horns of each ram available to the department to be permanently marked in the manner prescribed by the department for identification purposes within 48 hours of killing the animal. The purpose of the permanent marking shall be to identify Nelson bighorn rams which were legally taken and which may be transported and possessed outside the areas described in subsection 362(a).

(6) The department reserves the right to take and use any part of the tagholder's bighorn ram, except the horns, for biological analysis as long as no more than one pound of edible meat is removed.

NOTE: Authority cited: Sections 200, 202, 203, 220, 1050 and 4902, Fish and Game Code. Reference: Sections 200, 202, 203, 203.1, 207, 1050, 3950 and 4902, Fish and Game Code.

HISTORY

1. New section filed 6–22–87; operative 6–22–87 (Register 87, No. 27). For history of former section 362, see Register 81, No. 20.
2. Amendment of subsections (d)–(f) filed 5–31–88; operative 5–31–88 (Register 88, No. 23).
3. Amendment of subsections (d) and (e) filed 6–22–90; operative 6–22–90 pursuant to section 215, Fish and Game Code (Register 90, No. 34).
4. Amendment filed 6–28–91; operative 6–28–91 (Register 91, No. 42).
5. Amendment of subsections (a)–(b), (d)–(e) filed 7–8–92; operative 7–8–92 pursuant to Fish and Game Code section 215 (Register 92, No. 28).
6. Amendment of subsections (b)(1), (d), (e)(1), (e)(2) and (f)(2) filed 6–23–93; operative 6–23–93 pursuant to Fish and Game Code sections 202 and 215 (Register 93, No. 26).
7. Amendment filed 7–13–94; operative 7–13–94 pursuant to sections 202 and 215, Fish and Game Code (Register 94, No. 28).
8. Amendment of subsections (d), (e)(1)(B), (e)(2) and NOTE filed 6–9–95; operative 6–9–95 pursuant to Government Code section 11343.4(d) (Register 95, No. 23).
9. Amendment filed 6–26–96; operative 7–1–96 pursuant to section 11343.4(d) (Register 96, No. 26).
10. Amendment of subsections (b)(1), (d) and (e)(1), repealer of subsection (e)(1)(B) and amendment of subsection (e)(2) filed 6–26–97; operative 6–26–97 pursuant to Fish and Game Code sections 202 and 215 (Register 97, No. 26).
11. Amendment filed 7–1–98; operative 7–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 27).
12. Amendmentof subsections (d), (e)(2) and (f)(8) filed 6–2–99; operative 6–2–99 pursuant to Fish and Game Code sections 202 and 215 (Register 99, No. 23).
13. Amendment filed 6–27–2000; operative 6–27–2000 pursuant to Fish and Game Code sections 202 and 205 (Register 2000, No. 26).
14. Editorial correction of subsection (e)(2) (Register 2001, No. 10).
15. Change without regulatory effect amending subsection (e)(2) filed 3–7–2001 pursuant to section 100, title 1, California Code of Regulations (Register 2001, No. 10).
16. Amendment of subsections (d)–(e)(1)(A) filed 5–21–2001; operative 6–1–2001 pursuant to Fish and Game Code sections 202 and 215 (Register 2001, No. 21).
17. Amendment filed 6–28–2002; operative 6–28–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 26).
18. Amendment of subsection (d) filed 6–24–2003; operative 7–1–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 26).
19. Amendment filed 7–7–2004; operative 7–7–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 28).
20. New subsections (a)(7) and (b)(1)(B), subsection relettering, new subsections (b)(1)(D) and (b)(2)(C) and amendment of subsection (d) filed 7–19–2005; operative 7–19–2005 pursuant to Government Code section 11343.4 (Register 2005, No. 29).
21. Amendment of subsections (b)(1)(A)–(B) and (d) filed 6–30–2006; operative 6–30–2006 pursuant to Government Code section 11343.4 (Register 2006, No. 26).
22. Amendment of subsection (d) filed 5–29–2007; operative 5–29–2007 pursuant to Government Code section 11343.4 (Register 2007, No. 22).
23. Amendment of subsection (b)(1)(A), repealer of subsection (b)(1)(B), subsection relettering and amendment of subsection (d) filed 6–20–2008; operative 6–20–2008 pursuant to Government Code section 11343.4 (Register 2008, No. 25).

§ 363. Pronghorn Antelope.

The Lava Beds National Monument and Federal and State Game Refuges lying within the hunt boundary are closed to pronghorn antelope hunting, except for the state's Hayden Hill (1S) and Blacks Mountain (1F) game refuges in Lassen County and the Clear Lake National Wildlife Refuge in Modoc County. Refer to subsection 363(b)(5) for special conditions for permission to enter and hunt pronghorn antelope in the Clear Lake National Wildlife Refuge.

(a) Zone 1—Mount Dome:

(1) Area: That portion of Siskiyou County within a line beginning at the junction of Interstate 5 and the California–Oregon state line; east along the California–Oregon state line to the Ainsworth Corners–Lava Beds National Monument Road; south along the Ainsworth Corners–Lava Beds National Monument Road to the Mammoth Crater–Medicine Lake Road; southwest along the Mammoth Crater–Medicine Lake Road to the Medicine Lake–Telephone Flat Road; east and south along the Medicine Lake–Telephone Flat Road to the Telephone Flat–Bartle Road; southwest along the Telephone Flat–Bartle Road to Highway 89; west along Highway 89 to Interstate 5; north along Interstate 5 to the California–Oregon state line to the point of beginning.

(2) Seasons:

(A) The general season shall open on the Saturday following the third Wednesday in August and continue for nine consecutive days.

(B) The archery only season shall open 14 days prior to the general season and continue for nine consecutive days.

(3) Bag and Possession Limit: One pronghorn antelope in a license year.

(4) Number of License Tags:

(A) General Season: 8 buck tags and 0 doe tags.

(B) Archery Only Season: 1 buck tags and 0 doe tags.

(b) Zone 2—Clear Lake:

(1) Area: Those portions of Modoc and Siskiyou counties within a line beginning at the junction of the Lava Beds National Monument Road and the California–Oregon state line at Ainsworth Corners; east along the California–Oregon state line to the Crowder Flat Road; south along the Crowder Flat Road to Modoc County Road 73; south along Modoc County Road 73 to Modoc County Road 136; west along Modoc County Road 136 to the Blue Mountain–Mowitz Road; west and south along the Blue Mountain–Mowitz Road to the Deadhorse Flat–Badger Well Road; southwest along the Deadhorse Flat–Badger Well Road to the Badger Well–Browns Well Road; south along the Badger Well–Browns Well Road to the Sorholus Tank–Hackamore Road; southwest along the Sorholus Tank–Hackamore Road to Highway 139; southeast along Highway 139 to Modoc County Road 91; south along Modoc County Road 91 to the Mud Lake–Mud Springs Road; west along the Mud Lake–Mud Springs Road to the North Main Road; southwest along the North Main Road to the Long Bell–Iodine Prairie Road at Long Bell Forest Service Station; northwest along the Long Bell–Iodine Prairie Road to the Bartle–Telephone Flat Road; north along the Bartle–Telephone Flat Road to the Telephone Flat–Medicine Lake Road; north and west along the Telephone Flat–Medicine Lake Road to the Medicine Lake–Mammoth Crater Road; northeast along the Medicine Lake–Mammoth Crater Road to the Lava Beds National Monument–Ainsworth Corners Road; north along the Lava Beds National Monument–Ainsworth Corners Road to the California–Oregon state line to the point of beginning.

(2) Seasons:

(A) The general season shall open on the Saturday following the third Wednesday in August and continue for nine consecutive days.

(B) The archery only season shall open 14 days prior to the general season and continue for nine consecutive days.

(3) Bag and Possession Limit: One pronghorn antelope in a license year.

(4) Number of License Tags:

(A) General Season: 15 buck tags and 0 doe tags.

(B) Archery Only Season: 1 buck tags and 0 doe tags.

(5) Special Conditions: The special regulations regarding the Peninsula "U" portion of the Clear Lake National Wildlife Refuge are summarized as follows:

(A) The area will be open on weekends and holidays only during the general season.

(B) Permission to enter this area must be obtained at the gate entrance located on the Clear Lake Road. Hunters for this area will be selected by public drawing. Persons selected for pronghorn antelope tags for Zone 2 (Clear Lake) may apply for this drawing by submitting an application upon receipt of their license tag to the Department of Fish and Game, 601 Locust Street, Redding, CA 96001. Applicants may apply as a party of two. Applications shall consist of the following: a standard U.S. Postal Service postcard with the applicant's tag number, name, address, city, zip code, area code, telephone number, and the notation "Application for Pronghorn Antelope Hunt Access Permit, Clear Lake Peninsula." Applications must reach the Redding office before the close of the business day on the first Friday in August. Successful applicants will be notified. A two–party application will not be split. The specific number of hunters will be determined each year by the Department. No more than five hunters will be allowed on the area at any one time unless a party of two is drawn for the fifth place. If the fifth place is the first member of a party, then no more than six hunters will be allowed on the area at any time.

(C) The gate entrance will be open from 6:00 a.m. to one hour after sunset.

(D) The fence near the gate entrance constitutes the south boundary of the area.

(E) The specific number of pronghorn antelope to be taken from this area is determined by the number of pronghorn antelope present. This area will be closed once this number is reached.

(c) Zone 3—Likely Tables:

(1) Area: Those portions of Modoc and Lassen counties within a line beginning at the junction of the Crowder Flat Road and the California–Oregon state line; east along the California–Oregon state line to the crest of the Warner Mountains; south along the crest of the Warner Mountains to the Summit Trail at Pepperdine Camp; south along the Summit Trail to the South Warner Road near Patterson Forest Service Station; west along the South Warner Road to the Long Valley–Clarks Valley Road; south along the Long Valley–Clarks Valley Road to the Clarks Valley–Madeline Road; west along the Clarks Valley–Madeline Road to Highway 395 at the town of Madeline; north along Highway 395 to the Madeline–Adin Road; northwest along the Madeline–Adin Road to the Hunsinger Draw–Sweagert Flat Road; east and north along the Hunsinger Draw–Sweagert Flat Road to the Sweagert Flat–Hunters Ridge Road; north and west along the Sweagert Flat–Hunters Ridge Road to Highway 299 near Lower Rush Creek Recreation Site; north along Highway 299 to the Canby Bridge–Cottonwood Flat Road; northwest along the Canby Bridge–Cottonwood Flat Road to the Cottonwood Flat–Happy Camp Road; northwest along the Cottonwood Flat–Happy Camp Road to Modoc County Road 91; north along Modoc County Road 91 to Highway 139; north along Highway 139 to the Hackamore–Sorholus Tank Road; northeast along the Hackamore–Sorholus Tank Road to the Browns Well–Badger Well Road; north along the Browns Well–Badger Well Road to the Badger Well–Deadhorse Flat Road; northeast and east along the Badger Well–Deadhorse Flat Road to the Mowitz–Blue Mountain Road; north and east along the Mowitz–Blue Mountain Road to Modoc County Road 136; east along Modoc County Road 136 to Modoc County Road 73; north along Modoc County Road 73 to the Crowder Flat Road; north along the Crowder Flat Road to the California–Oregon state line, to the point of beginning.

(2) Seasons:

(A) Period One of the general season shall open on the Saturday following the third Wednesday in August and continue for nine consecutive days. Period Two of the general season shall open on the first Saturday in September and continue for nine consecutive days.

(B) The archery only season shall open 14 days prior to the earliest general season and continue for nine consecutive days.

(3) Bag and Possession Limit: One pronghorn antelope in a license year.

(4) Number of License Tags:

(A) General Season: Period One: 40 buck tags and 0 doe tags. Period Two: 40 buck tags and 0 doe tags.

(B) Archery Only Season: 9 buck tags and 0 doe tags.

(d) Zone 4—Lassen:

(1) Area: Those portions of Lassen, Plumas and Shasta counties within a line beginning at the junction of Highway 36 and the Juniper Lake Road in the town of Chester; north along the Juniper Lake Road to the Lassen National Park boundary; north and west along the Lassen National Park boundary to Highway 89; north along Highway 89 to U.S. Forest Service Road 22 near the Hat Creek Ranger Station; east along U.S. Forest Service Road 22 to U.S. Forest Service Road 35N06; east and north along U.S. Forest Service Road 35N06 to the State Game Refuge 1S boundary; northwest along the State Game Refuge 1S boundary to the Coyote Canyon–Dixie Valley Road; northwest along the Coyote Canyon–Dixie Valley Road to the Dixie Valley–Boyd Hill Road; northwest along the Dixie Valley–Boyd Hill Road to the Snag Hill–Hayden Hill Road; northeast and north along the Snag Hill–Hayden Hill Road to Highway 139; southeast on Highway 139 to the Willow Creek–Hunsinger Flat Road; northeast and northwest along the Willow Creek–Hunsinger Flat Road to the Adin–Madeline Road; southeast along the Adin–Madeline Road to Highway 395 at the town of Madeline; south along Highway 395 to the Madeline–Clarks Valley Road; east along the Madeline–Clarks Valley Road to the Clarks Valley–Tuledad Road; east and southeast along the Clarks Valley–Tuledad Road to the California–Nevada state line; south along the California–Nevada state line to the Lassen–Sierra county line; west along the Lassen–Sierra county line to the Lassen–Plumas county line; north and west along the Lassen–Plumas county line to Highway 36; west along Highway 36 to the Juniper Lake Road, to the point of beginning.

(2) Seasons:

(A) Period One of the general season shall open on the Saturday following the third Wednesday in August and continue for nine consecutive days. Period Two of the general season shall open on the first Saturday in September and continue for nine consecutive days.

(B) The archery only season shall open 14 days prior to the earliest general season and continue for nine consecutive days.

(3) Bag and Possession Limit: One pronghorn antelope in a license year.

(4) Number of License Tags:

(A) General Season: Period One: 40 buck tags and 0 doe tags. Period Two: 40 buck tags and 0 doe tags.

(B) Archery Only Season: 7 buck tags and 0 doe tags.

(e) Zone 5—Big Valley:

(1) Area: Those portions of Modoc, Lassen, Shasta and Siskiyou counties within a line beginning at the intersection of Highways 299 and 89; north and northwest along Highway 89 to the Bartle–Telephone Flat Road; northeast along the Bartle–Telephone Flat Road to the Iodine Prairie–Long Bell Road; southeast along the Iodine Prairie–Long Bell Road to the North Main Road at Long Bell Forest Service Station; northeast along the North Main Road and the Mud Springs–Mud Lake Road to Modoc County Road 91; south along Modoc County Road 91 to the Happy Camp–Cottonwood Flat Road; southeast along the Happy Camp–Cottonwood Flat Road to the Cottonwood Flat–Canby Bridge Road; southeast along the Cottonwood Flat–Canby Bridge Road to Highway 299; south along Highway 299 to the Hunters Ridge–Sweagert Flat Road near Lower Rush Creek Recreation Site; east and south along the Hunters Ridge–Sweagert Flat Road to the Sweagert Flat–Hunsinger Draw Road; south and west along the Sweagert Flat–Hunsinger Draw Road to the Adin–Madeline Road; southeast along the Adin–Madeline Road to the Hunsinger Flat–Willow Creek Road; southeast and southwest along the Hunsinger Flat–Willow Creek Road to Highway 139; northwest along Highway 139 to the Hayden Hill–Snag Hill Road; south and southwest along the Hayden Hill–Snag Hill Road to the Boyd Hill–Dixie Valley Road; southeast along the Boyd Hill–Dixie Valley Road to the Dixie Valley–Coyote Canyon Road; southeast along the Dixie Valley–Coyote Canyon Road to the State Game Refuge 1S boundary; southeast along the State Game Refuge 1S boundary to U.S. Forest Service Road 35N06; south and west along U.S. Forest Service Road 35N06 to U.S. Forest Service Road 22; west along U.S. Forest Service Road 22 to Highway 89 near the Hat Creek Ranger Station; north along Highway 89 to Highway 299, to the point of beginning.

(2) Seasons:

(A) The general season shall open on the Saturday following the third Wednesday in August and continue for nine consecutive days.

(B) The archery only season shall open 14 days prior to the earliest general season and continue for nine consecutive days.

(3) Bag and Possession Limit: One pronghorn antelope in a license year.

(4) Number of License Tags:

(A) General Season: 3 buck tags and 0 doe tags.

(B) Archery Only Season: 1 buck tags and 0 doe tags.

(f) Zone 6—Surprise Valley:

(1) Area: Those portions of Modoc and Lassen counties within a line beginning at the intersection of the crest of the Warner Mountains and the California–Oregon state line; east along the California–Oregon state line to the California–Nevada state line; south along the California–Nevada state line to the Tuledad–Clarks Valley Road; west and northwest along the Tuledad–Clarks Valley Road to the Clarks Valley–Long Valley Road; north on the Clarks Valley–Long Valley Road to the South Warner Road; east along the South Warner Road to the Summit Trail near Patterson Guard Station; north along the Summit Trail to the crest of the Warner Mountains at Pepperdine Camp; north along the crest of the Warner Mountains to the California–Oregon state line to the point of beginning.

(2) Seasons:

(A) The general season shall open on the Saturday following the third Wednesday in August and continue for nine consecutive days.

(B) The archery only season shall open 14 days prior to the general season and continue for nine consecutive days.

(3) Bag and Possession Limit: One pronghorn antelope in a license year.

(4) Number of License Tags:

(A) General Season: 10 buck tags and 0 doe tags.

(B) Archery Only Season: 1 buck tags.

(g) Big Valley Pronghorn Antelope Apprentice Hunt:

(1) Area: Those portions of Modoc, Lassen, Shasta and Siskiyou counties within a line beginning at the intersection of Highway 299 and 89; north and northwest along Highway 89 to the Bartle–Telephone Flat Road; northeast along the Bartle–Telephone Flat Road to the Iodine Prairie–Long Bell Road; southeast along the Iodine Prairie–Long Bell Road to the North Main Road at Long Bell Forest Service Station; northeast along the North Main Road and the Mud Springs–Mud Lake Road to Modoc County Road 91; south along Modoc County Road 91 to the Happy Camp–Cottonwood Flat Road; southeast along the Happy Camp–Cottonwood Flat Road to the Cottonwood Flat–Canby Bridge Road; southeast along the Cottonwood Flat–Canby Bridge Road to Highway 299; south along Highway 299 to the Hunters Ridge–Sweagert Flat Road near Lower Rush Creek Recreation Site; east and south along the Hunters Ridge–Sweagert Flat Road to the Sweagert Flat–Hunsinger Draw Road; south and west along the Sweagert Flat–Hunsinger Draw Road to the Adin–Madeline Road; southeast along the Adin–Madeline Road to the Hunsinger Flat–Willow Creek Road; southeast and southwest along the Hunsinger Flat–Willow Creek Road to Highway 139; northwest along Highway 139 to the Hayden Hill–Snag Hill Road; south and southwest along the Hayden Hill–Snag Hill Road to the Boyd Hill–Dixie Valley Road; southeast along the Boyd Hill–Dixie Valley Road to the Dixie Valley–Coyote Canyon Road; southeast along the Dixie Valley–Coyote Canyon Road to the State Game Refuge 1S boundary; southeast along the State Game Refuge 1S boundary to U.S. Forest Service Road 35N06; south and west along U.S. Forest Service Road 35N06 to U.S. Forest Service Road 22; west along U.S. Forest Service Road 22 to Highway 89 near the Hat Creek Ranger Station; north along Highway 89 to Highway 299, to the point of beginning.

(2) Season: The season shall open on the Saturday following the third Wednesday in August and continue for nine consecutive days.

(3) Bag and Possession Limit: One pronghorn antelope in a license year.

(4) Number of License Tags: 1 either–sex tags.

(5) Special Conditions: Tagholders wishing to hunt the Ash Creek Wildlife Area may contact Ash Creek Wildlife Area by telephone at (530) 294–5824, and shall attend an orientation meeting before hunting. Only persons possessing valid junior hunting licenses and apprentice hunt license tags may hunt during the pronghorn antelope apprentice hunt season in the Ash Creek Wildlife Area. Tagholders shall be accompanied by a nonhunting, licensed adult chaperon 18 years of age or older while hunting.

(h) Lassen Pronghorn Antelope Apprentice Hunt:

(1) Area: Those portions of Lassen, Plumas and Shasta counties within a line beginning at the junction of Highway 36 and the Juniper Lake Road in the town of Chester; north along the Juniper Lake Road to the Lassen National Park boundary; north and west along the Lassen National Park boundary to Highway 89; north along Highway 89 to U.S. Forest Service Road 22 near the Hat Creek Ranger Station; east along U.S. Forest Service Road 22 to U.S. Forest Service Road 35N06; east and north along U.S. Forest Service Road 35N06 to the State Game Refuge 1S boundary; northwest along the State Game Refuge 1S boundary to the Coyote Canyon–Dixie Valley Road; northwest along the Coyote Canyon–Dixie Valley Road to the Dixie Valley–Boyd Hill Road; northwest along the Dixie Valley–Boyd Hill Road to the Snag Hill–Hayden Hill Road; northeast and north along the Snag Hill–Hayden Hill Road to Highway 139; southeast on Highway 139 to the Willow Creek–Hunsinger Flat Road; northeast and northwest along the Willow Creek–Hunsinger Flat Road to the Adin–Madeline Road; southeast along the Adin–Madeline Road to Highway 395 at the town of Madeline; south along Highway 395 to the Madeline–Clarks Valley Road; east along the Madeline–Clarks Valley Road to the Clarks Valley–Tuledad Road; east and southeast along the Clarks Valley–Tuledad Road to the California–Nevada state line; south along the California–Nevada state line to the Lassen–Sierra county line; west along the Lassen–Sierra county line to the Lassen–Plumas county line; north and west along the Lassen–Plumas county line to Highway 36, west along Highway 36 to the Juniper Lake Road, to the point of beginning. The Honey Lake Wildlife Area shall not be open to antelope apprentice hunt tag holders.

(2) Season: The season shall open on the Saturday following the third Wednesday in August and continue for nine consecutive days.

(3) Bag and Possession Limit: One pronghorn antelope in a license year.

(4) Number of License Tags: 5 either–sex tags.

(i) Surprise Valley Pronghorn Antelope Apprentice Hunt:

(1) Area: Those portions of Modoc and Lassen counties within a line beginning at the intersection of the crest of the Warner Mountains and the California–Oregon state line; east along the California–Oregon state line to the California–Nevada state line; south along the California–Nevada state line to the Tuledad–Clarks Valley Road; west and northwest along the Tuledad–Clarks Valley Road to the Clarks Valley–Long Valley Road; north on the Clarks Valley–Long Valley Road to the South Warner Road; east along the South Warner Road to the Summit Trail near Patterson Guard Station; north along the Summit Trail to the crest of the Warner Mountains at Pepperdine Camp; north along the crest of the Warner Mountains to the California–Oregon state line to the point of beginning.

(2) Season: The season shall open on the Saturday following the third Wednesday in August and continue for nine consecutive days.

(3) Bag and Possession Limit: One pronghorn antelope in a license year.

(4) Number of License Tags: 4 either–sex tags.

(5) Special Conditions: Tagholders must possess valid junior hunting licenses and apprentice hunt license tags. Tagholders shall be accompanied by a nonhunting, licensed adult chaperon 18 years of age or older while hunting.

(j) Fund–raising Hunt:

(1) Area: Those portions of Lassen, Modoc, Plumas, Shasta, and Siskiyou counties described as zones 1 through 6 in subsections 363(a) through (f).

(2) Season: The season for the Fund–Raising Hunt shall open on the Saturday before the first Wednesday in August and continue for 51 consecutive days.

(3) Bag and Possession Limit: One pronghorn antelope in a license year.

(4) Number of License Tags: 2 buck tags.

(k) Conditions:

(1) Pronghorn antelope license tags do not give the tagholders the right of entry onto privately–owned lands.

(2) Buck pronghorn antelope are defined as pronghorn antelope with horns longer than the ears. Doe pronghorn antelope are defined as pronghorn antelope with horns shorter than the ears. Either–sex pronghorn antelope are defined as buck or doe pronghorn antelope.

(3) Shooting time shall be from one–half hour before sunrise to one–half hour after sunset.

(4) Method of take:

(A) The holder of any archery–only pronghorn antelope license tag may only take pronghorn antelope using archery equipment, as defined in Section 354 of these regulations.

(B) The holder of a general season, fund–raising hunt season, or junior hunt season license tag may take pronghorn antelope using legal firearms and archery equipment as described in sections 353 and 354 of these regulations.

(5) Any person taking any pronghorn antelope shall retain that portion of the head, which bears the horns during the open season and for 15 days thereafter, and shall produce it upon the demand of any officer authorized to enforce the provisions of these regulations.

(6) No person shall at any time capture or destroy any pronghorn antelope and detach or remove from the carcass only the head, hide or horns; nor shall any person at any time leave through carelessness or neglect any pronghorn antelope which is in his possession or any portion of the flesh thereof usually eaten by humans, to go needlessly to waste.

(7) Prior to the acceptance or issuance of a pronghorn antelope license tag, all tagholders shall consent in writing to the terms and conditions set forth on the license tag.

22. Amendment of subsections (b)(5)(B), (c)(4)(A)–(B), (d)(4)(A)–(B), (f)(4)(A) and (h)(1), repealer of subsection (h)(5) and amendment of subsection (*l*) filed 5–29–2007; operative 5–29–2007 pursuant to Government Code section 11343.4 (Register 2007, No. 22).
23. Amendment of subsections (c)(4)(B), (f)(4)(A), (g), (g)(5), (h), (h)(1), (i), (i)(5) and (*l*) filed 6–20–2008; operative 6–20–2008 pursuant to Government Code section 11343.4 (Register 2008, No. 25).

§ 364. Elk.

(a) Siskiyou Roosevelt Elk Hunt:

(1) Area: In that portion of Siskiyou County beginning at the junction of Interstate Highway 5 with the California–Oregon state line; east along the state line to Hill Road at Ainsworth Corner; south along Hill Road to Lava Beds National Monument Road; south along Lava Beds National Monument Road to USDA Forest Service Road 49; south along USDA Forest Service Road 49 to USDA Forest Service Road 77; west along USDA Forest Service Road 77 to USDA Forest Service Road 15 (Harris Spring Road); south along USDA Forest Service Road 15 to USDA Forest Service Road 13 (Pilgrim Creek Road); southwest along USDA Forest Service Road 13 to Highway 89; northwest along Highway 89 to Interstate Highway 5; north along Interstate Highway 5 to the point of beginning.

(2) Season: The season shall open on Wednesday preceding the second Saturday in September and continue for 12 consecutive days.

(3) Bag and Possession Limit: 1 elk per season.

(4) Number of License Tags: 15 either–sex tags and 15 antlerless tags.

(b) Northeastern California Rocky Mountain Elk Hunt:

(1) Area: Those portions of Siskiyou, Modoc, Lassen, and Shasta counties within a line beginning in Siskiyou County at the junction of the California–Oregon state line and Hill Road at Ainsworth Corner; east along the California–Oregon state line to the California–Nevada state line; south along the California–Nevada state line to the Tuledad–Red Rock–Clarks Valley Road (Lassen County Roads 506, 512 and 510); west along the Tuledad–Red Rock–Clarks Valley Road to Highway 395 at Madeline; west on USDA Forest Service Road 39N08 to Adin; west on Highway 299 to Interstate 5; north on Interstate 5 to Highway 89; southeast along Highway 89 to USDA Forest Service Road 13 (Pilgrim Creek Road); northeast along USDA Forest Service Road 13 to USDA Forest Service Road 15 (Harris Spring Road); north along USDA Forest Service Road to USDA Forest Service Road 77; east along USDA Forest Service Road 77 to USDA Forest Service Road 49; north along USDA Forest Service Road 49 to Lava Beds National Monument Road; north along Lava Beds National Monument Road to Hill Road; north along Hill Road to the point of beginning.

(2) Season:

(A) The General and Apprentice Hunt season shall open on the Wednesday preceding the third Saturday in September and continue for 12 consecutive days.

(B) The Archery Only Season shall open on the Wednesday preceding the first Saturday in September and continue for 12 consecutive days.

(3) Bag and Possession Limit: 1 elk per season.

(4) Number of License Tags:

(A) General Season: 10 either–sex tags.

(B) Archery Only Season: 9 either–sex tags.

(C) Apprentice Hunt: 2 either–sex tags.

(5) Special Conditions: Elk may be taken during the Northeastern California Rocky Mountain Elk Hunt, Archery Only Season, with Archery Equipment only as specified in Section 354. Only persons possessing valid junior hunting licenses may apply for Apprentice Hunt License tags. Apprentice Hunt tagholders shall be accompanied by a nonhunting, licensed adult chaperon 18 years of age or older while hunting.

(c) Del Norte Roosevelt Elk Hunt:

(1) Area: Those portions of Del Norte County owned or leased by the Green Diamond Resource Company within a line beginning at the intersection of Highway 101 and the California–Oregon state line; south along Highway 101 to North Bank Road; southeast along North Bank Road to High Divide Road; northeast along High Divide Road to North Fork Smith River/Wimer Road; north along North Fork Smith River/ Wimer Road to the California Oregon state line; west along the California–Oregon state line to the point of beginning.

(2) Season: The season shall open on the last Wednesday in August and continue for 10 consecutive days.

(3) Bag and Possession Limit: 1 elk per season.

(4) Number of License Tags: 5 bull tags and 10 antlerless tags.

(5) Special Conditions: All tagholders will be required to attend a mandatory orientation. Tagholders will be notified of the time and location of the orientation meeting upon receipt of their elk license tags.

(d) Marble Mountains Roosevelt Elk Hunt

(1) Area: In those portions of Humboldt, Trinity, Shasta and Siskiyou counties beginning at the intersection of Interstate Highway 5 and the California–Oregon state line; west along the state line to the Del Norte County line; south along the Del Norte County line to the intersection of the Siskiyou–Humboldt county lines; east along the Siskiyou–Humboldt county lines to Highway 96; south along Highway 96 to Highway 299; east along Highway 299 to Interstate Highway 5; north on Interstate Highway 5 to the point of beginning.

(2) Season: The General and Apprentice Hunt season shall open on the Wednesday preceding the second Saturday in September and continue for 12 consecutive days.

(3) Bag and Possession Limit: 1 elk per season.

(4) Number of License Tags:

(A) General Hunt: 40 either–sex tags.

(B) Apprentice Hunt: 2 either–sex tags.

(C) Special Conditions: Only persons possessing valid junior hunting licenses may apply for Apprentice Hunt license tags. Apprentice Hunt tagholders shall be accompanied by a nonhunting, licensed adult chaperon 18 years of age or older while hunting.

(e) Klamath Roosevelt Elk Hunt:

(1) Area: Those portions of Humboldt and Del Norte counties owned or leased by the Green Diamond Resource Company within a line beginning at the intersection of Highway 101 and the Klamath River; south on Highway 101 to South Klamath Beach Road; west on South Klamath Beach Road to the Redwood National Park boundary; southwest and south along the Redwood National Park boundary to Highway 101; south on Highway 101 to the Redwood National Park boundary; southeast along the Redwood National Park boundary to the Bald Hills Road; southeast along the Bald Hills Road to the Klamath River; northwest along the Klamath River to the point of beginning.

(2) Season: The season shall open on the first Wednesday in September and continue for 10 consecutive days.

(3) Bag and Possession Limit: 1 elk per season.

(4) Number of License Tags: 10 bull tags and 10 antlerless tags.

(5) Special Conditions: All tagholders will be required to attend a mandatory orientation. Tagholders will be notified of the time and location of the orientation meeting upon receipt of their elk license tags.

(f) Big Lagoon Roosevelt Elk Hunt:

(1) Area: In that portion of Humboldt County owned or leased by the California Redwood Company and the Green Diamond Resource Company within a line beginning at the intersection of Highway 101 and Hiltons Road; south on Hiltons Road to the western boundary of Redwood National Park; south and east along the western to its southern tip; north and east along the eastern boundary of Redwood National Park to Redwood Creek; south along Redwood Creek to Highway 299; east along Highway 299 to Forest Service Road 1; south along Forest Service Road 1 to Roddiscraft Road; west along Roddiscraft Road to the intersection of Snow Camp Road and the Humboldt–Trinity 115 Line and Trinity–Maple Creek 60 Line power line right–of–way; west along the Humboldt–Trinity 115 Line and Trinity–Maple Creek 60 Line power line right–of–way to Maple Creek Road; south along Maple Creek Road to Butler Valley Road; west along Butler Valley Road to Fickle Hill Road; north along Fickle Hill Road to Bayside Road; west along Bayside Road and 7th Street to Highway 101; north along Highway 101 to point of beginning.

(2) Season: The season shall open the last Wednesday in August and continue for 10 consecutive days.

(3) Bag and Possession Limit: 1 elk per season.

(4) Number of License Tags: 10 either–sex tags.

18. Amendment filed 6–24–2003; operative 7–1–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 26).
19. Amendment filed 7–7–2004; operative 7–7–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 28).
20. Amendment of subsections (b)(2)(A), (d)(2), (f)(4), (g)(4)(A), (g)(4)(D), (i)(4)(A), (j)(4)(A), (k)(4)(A) and (k)(4)(C) and new subsections (b)(4)(C), (d)(4)(A)–(B), (i)(4)(A)1., (i)(4)(B)1., (j)(4)(A)1., (k)(4)(A)1. and (k)(4)(C)1. filed 6–30–2006; operative 6–30–2006 pursuant to Government Code section 11343.4 (Register 2006, No. 26).
21. Amendment filed 5–29–2007; operative 5–29–2007 pursuant to Government Code section 11343.4 (Register 2007, No. 22).
22. Amendment of subsections (b)(2)(A), (b)(4)(C), (b)(5), (c)(4), (d)(2) and (d)(4)(B), new subsection (d)(4)(C), amendment of subsections (f)(1), (f)(4), (g)(1)(J) and (g)(3)(B)–(E), new subsection (g)(5)(D), amendment of subsections (h)(2)(A), (h)(4)A., (h)(5), (i)(4)(A)–(B), repealer of subsection (i)(4)(C), subsection relettering, amendment of subsections (i)(5), (j)(1), (j)(4)(A)1., (j)(5), (k)(2)(A)–(E), (k)(4)(A)1., (k)(4)(C)1., new subsection (k)(5)(E), repealer of subsection (*l*)(2)(B), subsection relettering, amendment of subsection (*l*)(4)(A), repealer of subsection (*l*)(4)(B), subsection relettering and amendment of subsections (m)(1), (m)(4), (n)(4), (o)(1) and (o)(3) filed 6–20–2008; operative 6–20–2008 pursuant to Government Code section 11343.4 (Register 2008, No. 25).

§ 364.5. Tule Elk.

NOTE: Authority cited: Sections 219, 220 and 332, Fish and Game Code. Reference: Sections 332, 713 and 3951, Fish and Game Code.

HISTORY

1. New section filed 5–31–88; operative 5–31–88 (Register 88, No. 23).
2. Repealer filed 6–19–89; operative 6–19–89 (Register 89, No. 27). The adoption of existing section 364.5 of Title 14 of the California Code of Regulations by the Fish and Game Commission was voided and set aside by a Peremptory Writ of Mandate issued by the Sacramento County Superior Court on 9–30–88 (Civil Action No. 358996).
3. New section filed 6–19–89; operative 6–19–89 (Register 89, No. 27).
4. Amendment filed 6–22–90; operative 6–22–90 pursuant to section 215, Fish and Game Code (Register 90, No. 34).
5. Amendment filed 6–28–91; operative 6–28–91 (Register 91, No. 42).
6. Amendment filed 7–8–92; operative 7–8–92 pursuant to Fish and Game Code section 215 (Register 92, No. 28).
7. Amendment of subsections (a)(1)(B), (a)(1)(C), (a)(2)(C), (a)(4)(A)–(a)(4)(C), (b)(4), (c), (c)(2)(B), (c)(4)(A)–(c)(4)(D), new subsections (d)–(d)(4) and (i) and subsection relettering, and amendment of newly designated subsections (e)(1), (e)(2), (h), (k) and (q) filed 6–23–93; operative 6–23–93 pursuant to Fish and Game Code sections 202 and 215 (Register 93, No. 26).

8. Amendment filed 7–13–94; operative 7–13–94 pursuant to sections 202 and 215, Fish and Game Code (Register 94, No. 28).
9. Amendment of subsections (c)(4)(A)–(C), (e)(2), (k) and NOTE filed 6–9–95; operative 6–9–95 pursuant to Government Code section 11343.4(d) (Register 95, No. 23).
10. Repealer filed 6–26–96; operative 7–1–96 pursuant to section 11343.4(d) (Register 96, No. 26).

§ 365. Bear.

Except as provided in Section 366, bear may be taken only as follows: (Note: See subsection 265(c)(1) for restrictions on the use of dogs.)

(a) Areas:

(1) Northern California: In the counties of Del Norte, Humboldt, Plumas, Shasta, Siskiyou, Tehama and Trinity; and those portions of Lassen and Modoc counties west of the following line: Beginning at Highway 395 and the Sierra–Lassen county line; north on Highway 395 to the junction of Highway 36; west on Highway 36 to the junction of Highway 139; north on Highway 139 to Highway 299; north on Highway 299 to County Road 87; west on County Road 87 to Lookout–Hackamore Road; north on Lookout–Hackamore Road to Highway 139; north on Highway 139 to the Modoc–Siskiyou county line; north on the Modoc–Siskiyou county line to the Oregon border.

(2) Central California: In the counties of Alpine, Amador, Butte, Calaveras, Colusa, El Dorado, Glenn, Lake, Mendocino, Nevada, Placer, Sacramento, Sierra, Sutter, Yolo and Yuba and those portions of Napa and Sonoma counties northeast of Highway 128.

(3) Southern Sierra: That portion of Kern County west of Highway 14 and east of the following line: Beginning at the intersection of Highway 99 and the Kern–Tulare county line; south on Highway 99 to Highway 166; west and south on Highway 166 to the Kern–Santa Barbara county line; and those portions of Fresno, Madera, Mariposa, Merced, Stanislaus, Tulare and Tuolumne counties east of Highway 99.

(4) Southern California: In the counties of Los Angeles, Santa Barbara and Ventura; that portion of Riverside County north of Interstate 10 and west of Highway 62; and that portion of San Bernardino County south and west of the following line: Beginning at the intersection of Highway 18 and the Los Angeles–San Bernardino county line; east along Highway 18 to Highway 247; southeast on Highway 247 to Highway 62; southwest along Highway 62 to the Riverside–San Bernardino county line.

(5) Southeastern Sierra: Those portions of Inyo and Mono counties west of Highway 395; and that portion of Madera County within the following line: Beginning at the junction of the Fresno–Madera–Mono county lines; north and west along the Madera–Mono county line to the boundary of the Inyo–Sierra National Forest; south along the Inyo–Sierra National Forest boundary to the Fresno–Madera county line; north and east on the Fresno–Madera county line to the point of beginning. Also, that portion of Inyo county west of Highway 395; and that portion of Mono county beginning at the intersection of Highway 6 and the Mono county line; north along Highway 6 to the Nevada state line; north along the Nevada state line to the Alpine county line; south along the Mono–Alpine county line to the Mono–Tuolumne county line and the Inyo National Forest Boundary; south along the Inyo National Forest Boundary to the Inyo–Sierra Forest boundary; south along the Inyo–Sierra Forest boundary to the Fresno–Madera county line; north and east along the Fresno–Madera county line to the junction of the Fresno–Madera–Mono county line; south along the Mono–Fresno county line to the Mono–Inyo County line; east along the Mono–Inyo county line to the point of beginning.

(b) Seasons: Except in the deer hunt areas designated as zones X–1 through X–7b in subsection 360(b), the bear season shall open on the opening day of the general deer season as described in subsections 360(a) and (b) and extend until the last Sunday in December in the areas described in subsections 365(a)(1), (2), (3) (4) and (5) above. In those areas designated as deer hunting zones X–1 through X–7b, the bear season shall open on the second Saturday in October and extend for 79 consecutive days. The bear season shall be closed when the department determines that 1,700 bears have been taken pursuant to the reporting requirement in section 708(e). The department shall notify the commission, the public via the news media and bear tag holders via the U.S. mail and the news media when implementing this closure.

(c) Bag and Possession Limit: One adult bear per season. Cubs and females accompanied by cubs may not be taken. (Cubs are defined as bears less than one year of age or bears weighing less than 50 pounds.)

(d) No open season for bear in the balance of the state not included in subsection (a) above.

(e) Bait: No feed, bait or other materials capable of attracting a bear shall be placed or used for the purpose of taking or pursuing a bear. No bear shall be taken over such bait. No person may take a bear within a 400–yard radius of a garbage dump or bait.

NOTE: Authority cited: Sections 200, 202, and 203, Fish and Game Code. Reference: Sections 200, 202, 203, 203.1, and 207, Fish and Game Code.

HISTORY

1. Repealer of section 365 and renumbering and amendment of section 351 to section 365 filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20). For history of former section 365, see Registers 79, No. 19; and 78, No. 24.
2. Repealer and new section filed 6–7–82; designated effective tenth day thereafter (Register 82, No. 24).
3. Amendment of subsections (a)(1), (b), (e) and repealer of subsection (a)(5) filed 6–22–84 as an emergency; designated effective 7–1–84 (Register 84, No. 31). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 10–29–84.
4. Certificate of Compliance including amendment of NOTE transmitted to OAL 10–22–84 and filed 11–26–84 (Register 84, No. 48).
5. Amendment of subsections (a) and (b) filed 7–15–85; designated effective tenth day thereafter (Register 85, No. 31).
6. Amendment of subsection (a)(5) filed 7–1–86; effective upon filing (Register 86, No. 27).
7. Amendment filed 5–31–88; operative 5–31–88 (Register 88, No. 23).
8. Amendment to first line and subsection (b) and new subsection (f) filed 9–6–90; operative 9–6–90 (Register 90, No. 43).
9. Amendment of subsections (b) and (f) filed 7–13–94; operative 7–13–94 pursuant to sections 202 and 215, Fish and Game Code (Register 94, No. 28).
10. Editorial correction of first paragraph and subsection (a)(3) (Register 96, No. 26).
11. Amendment of first paragraph and subsection (b) filed 6–26–96; operative 7–1–96 pursuant to section 11343.4(d) (Register 96, No. 26).
12. Amendment of subsection (f) filed 7–1–98; operative 7–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 27).
13. Repealer of subsection (f) filed 6–27–2000; operative 6–27–2000 pursuant to Fish and Game Code sections 202 and 205 (Register 2000, No. 26).
14. Amendment filed 6–28–2002; operative 6–28–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 26).
15. Amendment of subsection (a)(5) filed 7–7–2004; operative 7–7–2004 pursuant to Government Code section 11343.4 (Register 2004, No. 28).

§ 365.5. Special Bear Hunt.

NOTE: Authority cited: Sections 200, 202, 203 and 4751, Fish and Game Code. Reference: Sections 200, 202, 203, 203.1, 207, 713, 4751 and 4756, Fish and Game Code.

HISTORY

1. New section filed 5–31–88; operative 5–31–88 (Register 88, No. 23).
2. Amendment of subsection (f) filed 6–19–89; operative 6–19–89 (Register 89, No. 27).
3. Repealer filed 6–26–96; operative 7–1–96 pursuant to section 11343.4(d) (Register 96, No. 26).

§ 366. Archery Bear Hunting.

Bear may be taken with bow and arrow during the bear season as specified in section 365 and as follows:

(a) Areas: Those portions of the state as described in subsection (a) of section 365.

(b) Season: The archery bear season shall open on the third Saturday in August and extend for 23 consecutive days. There is no open season for taking bear with bow and arrow in the balance of the state.

(c) Bag and Possession Limit: One adult bear per season. Cubs and female accompanied by cubs may not be taken. (Cubs are defined as bears less than one year of age or bears weighing less than 50 pounds.)

(d) The use of dogs is prohibited during the archery season for bear.

(e) Bait. No feed, bait or other materials capable of attracting a bear to a feeding area shall be placed or used for the purpose of taking or pursu-

ing a bear. No bear shall be taken over such bait. No person may take a bear within a 400 yard radius of a garbage dump or bait.

(f) No more than 15,000 bear tags shall be issued pursuant to section 367 (see subsection 365(b)).

NOTE: Authority cited: Sections 200, 202 and 203, Fish and Game Code. Reference: Sections 200, 202, 203, 203.1 and 207, Fish and Game Code.

HISTORY

1. New section filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).
2. Repealer and new section filed 6–7–82; designated effective tenth day thereafter (Register 82, No. 24).
3. Repealer filed 10–15–90 as an emergency; operative 10–15–90 (Register 90, No. 46). A Certificate of Compliance must be transmitted to OAL by 2–12–91 or emergency language will be repealed by operation of law on the following day.
4. Reinstatement of section as it existed prior to emergency repeal filed 10–15–90 by operation of Government Code section 11346.1(f) (Register 91, No. 42).
5. Editorial correction restoring omitted HISTORY 4. (Register 92, No. 6).
6. Editorial correction deleting former HISTORY NOTE 5 and renumbering remaining HISTORY NOTES (Register 95, No. 14).

§ 367. Bear License Tags.

NOTE: Authority cited: Sections 200, 202, 203, 219 and 1050, Fish and Game Code. Reference: Sections 200, 202, 203, 203.1, 207, 1050 and 4750–4756, Fish and Game Code.

HISTORY

1. New section filed 6–7–82; designated effective tenth day thereafter (Register 82, No. 24).
2. Relettering of former subsection (c) to (d) and new subsection (c) filed 7–15–85; designated effective tenth day thereafter (Register 85, No. 31).
3. Relettering and amendment of former subsections (c) and (d) to subsections (d) and (e) and new subsection (c) filed 7–1–86; effective upon filing (Register 86, No. 27).
4. Amendment of subsections (a) and (e) filed 5–31–88; operative 5–31–88 (Register 88, No. 23).
5. Amendment of subsections (a), (d) and (e) filed 6–22–90; operative 6–22–90 pursuant to section 215, Fish and Game Code (Register 90, No. 34).
6. New subsection (a)(3) and redesignating of following subsections, amendment of subsections (b) and (f)(1)–(2) filed 7–8–92; operative 7–8–92 pursuant to Fish and Game Code section 215 (Register 92, No. 28).
7. Amendment of subsection (c) filed 7–13–94; operative 7–13–94 pursuant to sections 202 and 215, Fish and Game Code (Register 94, No. 28).
8. Amendment of subsection (b) filed 6–26–97; operative 6–26–97 pursuant to Fish and Game Code sections 202 and 215 (Register 97, No. 26).
9. Amendment of subsection (b) filed 7–1–98; operative 7–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 27).
10. Amendment of subsection (b) filed 6–27–2000; operative 6–27–2000 pursuant to Fish and Game Code sections 202 and 205 (Register 2000, No. 26).
11. Change without regulatory effect amending subsections (a)(3) and (b) filed 3–7–2001 pursuant to section 100, title 1, California Code of Regulations (Register 2001, No. 10).
12. Repealer filed 6–28–2002; operative 6–28–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 26).

§ 367.5. Presentation of Bear Skull.

Any person who takes a bear shall present the skull (even if damaged) to a department office/officer within 10 days of taking the bear. The skull shall become property of the department. That portion of the skull not needed for scientific purposes shall be returned.

NOTE: Authority cited: Sections 200, 202, and 203, Fish and Game Code. Reference: Sections 200–203.1, 206, 207 and 211–222, Fish and Game Code.

HISTORY

1. New section filed 6–7–82; designated effective tenth day thereafter (Register 82, No. 24).
2. Repealer and new section filed 7–15–85; designated effective tenth day thereafter (Register 85, No. 31).

§ 368. Wild Pig.

Wild pigs may be taken only as follows:

(a) General Season: Open all year.

(b) Bag and Possession Limit: There is no daily bag or possession limit for wild pigs.

NOTE: Authority cited: Sections 200, 202, and 203, Fish and Game Code. Reference: Sections 200, 202, 203, 203.1, 207, 3950, 4652–4655 and 4657, Fish and Game Code.

HISTORY

1. New section filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).
2. Amendment of subsection (b) filed 6–17–83; designated effective tenth day thereafter (Register 83, No. 25).
3. Amendment filed 7–15–85; designated effective tenth day thereafter (Register 85, No. 31).
4. Amendment filed 6–19–89; operative 6–19–89 (Register 89, No. 27).
5. Amendment filed 6–28–91; operative 6–28–91 (Register 91, No. 42).
6. New subsections (c)–(c)(4) and amendment of NOTE filed 7–8–92; operative 7–8–92 pursuant to Fish and Game Code section 215 (Register 92, No. 28).
7. Amendment filed 7–13–94; operative 7–13–94 pursuant to sections 202 and 215, Fish and Game Code (Register 94, No. 28).
8. Amendment of subsection (a), repealer of subsections (a)(1)–(a)(2)(B), amendment of subsection (b) and repealer of subsections (b)(1)–(2) filed 6–26–96; operative 7–1–96 pursuant to section 11343.4(d) (Register 96, No. 26).
9. Repealer of subsections (c)–(c)(4) filed 6–28–2002; operative 6–28–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 26).

§ 369. Mountain Lion.

NOTE: Authority cited: Sections 200, 202, 203, 219 and 1050, Fish and Game Code. Reference: Sections 200, 202, 203, 203.1, 207, 219, 1050, 1801 and 4800–4805, Fish and Game Code.

HISTORY

1. New section filed 6–29–87; operative 6–29–87 (Register 87, No. 27).
2. Amendment of subsection (d) filed 8–5–87; operative 8–5–87 (Register 87, No. 33).
3. New subsection (j) filed 8–10–87; operative 8–10–87 (Register 87, No. 33).
4. Repealer and new section filed 5–31–88; operative 5–31–88 (Register 88, No. 23).
5. Repealer of section filed 6–28–91; operative 6–28–91 (Register 91, No. 42).

§ 370. Deer Tags.

NOTE: Authority cited: Sections 200, 202 and 203, Fish and Game Code. Reference: Sections 200, 202, 203, 203.1, 207 and 4336, Fish and Game Code.

HISTORY

1. New section filed 6–6–75; designated effective 7–1–75 (Register 75, No. 23).
2. Renumbering and amendment of Section 363 to Section 370 filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).
3. Amendment filed 5–31–88; operative 5–31–88 (Register 88, No. 23).
4. Editorial correction of Authority cite (Register 95, No. 32).
5. Amendment filed 6–26–96; operative 7–1–96 pursuant to section 11343.4(d) (Register 96, No. 26).
6. Amendment filed 7–1–98; operative 7–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 27).
7. Repealer filed 6–28–2002; operative 6–28–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 26).

§ 371. Deer Tag Application and Distribution Procedures.

NOTE: Authority cited: Sections 200, 202, 203, 220 and 1050, Fish and Game Code. Reference: Sections 200, 202, 203, 203.1, 207, 1050 and 4330–4333, Fish and Game Code.

HISTORY

1. Amendment of subsections (d) and (e) filed 5–31–88; operative 5–31–88 (Register 88, No. 23). For prior history, see Register 87, No. 27.
2. Amendment filed 6–19–89; operative 6–19–89 (Register 89, No. 27).
3. Amendment filed 6–22–90; operative 6–22–90 pursuant to section 215, Fish and Game Code (Register 90, No. 34).
4. Amendment filed 6–28–91; operative 6–28–91 (Register 91, No. 42).
5. Amendment of subsections (a)(1), (d)(1)(A), (d)(2)(A)–(B) and new subsection (e) filed 7–8–92; operative 7–8–92 pursuant to Fish and Game Code section 215 (Register 92, No. 28).
6. Amendment of subsections (a)(1), (d)(1)(A), (d)(1)(B), (d)(2)(A) and (d)(2)(B) filed 6–23–93; operative 6–23–93 pursuant to Fish and Game Code sections 202 and 215 (Register 93, No. 26).
7. Amendment filed 7–13–94; operative 7–13–94 pursuant to sections 202 and 215, Fish and Game Code (Register 94, No. 28).
8. Amendment of section heading and subsections (a)(1)–(2), (d)(1)(A)–(B), and (d)(2)(A), new subsection (d)(2)(B), subsection relettering, amendment of newly designated subsections (d)(2)(C)–(D) and amendment of NOTE filed 6–9–95; operative 6–9–95 pursuant to Government Code section 11343.4(d) (Register 95, No. 23).
9. Amendment of subsections (a)(1)–(3), (d)(1)(A)–(B), and (d)(2)(A)–(E) filed 6–26–96; operative 7–1–96 pursuant to section 11343.4(d) (Register 96, No. 26).
10. Amendment of subsections (a)(1) and (e) and amendment of NOTE filed 6–26–97; operative 6–26–97 pursuant to Fish and Game Code sections 202 and 215 (Register 97, No. 26).
11. Repealer and new section filed 7–1–98; operative 7–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 27).
12. Amendmentof subsection (a)(1) filed 6–2–99; operative 6–2–99 pursuant to Fish and Game Code sections 202 and 215 (Register 99, No. 23).
13. Amendment of subsection (b) filed 6–27–2000; operative 6–27–2000 pursuant to Fish and Game Code sections 202 and 205 (Register 2000, No. 26).
14. Change without regulatory effect amending subsection (b) filed 3–7–2001 pursuant to section 100, title 1, California Code of Regulations (Register 2001, No. 10).
15. Repealer filed 6–28–2002; operative 6–28–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 26).

§ 372. Deer and Elk Tags, Persons Authorized to Validate.

NOTE: Authority cited: Sections 200, 202, 203, 213 and 215, Fish and Game Code. Reference: Sections 200, 202, 203, 203.1, 206, 207, 211, 213 and 215, Fish and Game Code.

HISTORY

1. Amendment of section heading, first sentence and subsection (c) filed 6–24–85 as an emergency; effective upon filing (Register 85, No. 27). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 10–22–85. For prior history, see Register 81, No. 20.
2. Notice of Erroneous Filing declaring 6–24–85 Certificate of Compliance null and void filed 7–2–85 by OAL (Register 85, No. 27).
3. Certificate of Compliance as to 6–24–85 order transmitted to OAL 9–30–85 and filed 11–1–85 (Register 85, No. 44).
4. Amendment of subsections (b)(24) and (b)(26) filed 6–22–87; operative 6–22–87 (Register 87, No. 27).
5. Amendment of section heading, section and NOTE filed 7–1–98; operative 7–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 27).
6. Repealer filed 6–28–2002; operative 6–28–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 26).

§ 373. Return of Deer Tags.

NOTE: Authority cited: Sections 200, 202 and 203, Fish and Game Code. Reference: Sections 200–203.1, 206, 207, 211–222, 1050 and 4330–4331, Fish and Game Code.

HISTORY

1. New section filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).
2. Amendment filed 6–7–82; designated effective tenth day thereafter (Register 82, No. 24).
3. Amendment filed 6–22–84 as an emergency; designated effective 7–1–84 (Register 84, No. 29). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 10–29–84.
4. Certificate of Compliance transmitted to OAL 10–22–84 and filed 11–26–84 (Register 84, No. 48).
5. Repealer filed 6–28–2002; operative 6–28–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 26).

§ 374. Standard Procedures for Distribution of Permits for Deer Hunts with a Limited Number of Permits.

NOTE: Authority cited: Sections 200, 202 and 203, Fish and Game Code. Reference: Sections 200–203.1, 206, 207, 211–222, 1050 and 4330–4331, Fish and Game Code.

HISTORY

1. New section filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).
2. Repealer and new section filed 6–7–82; designated effective tenth day thereafter (Register 82, No. 24).
3. Repealer and new section filed 6–17–83; designated effective tenth day thereafter (Register 83, No. 25).
4. Repealer filed 6–22–84 as an emergency; designated effective 7–1–84 (Register 84, No. 29). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 10–29–84.
5. Certificate of Compliance transmitted to OAL 10–22–84 and filed 11–26–84 (Register 84, No. 48).

§ 375. Deer, Elk, Antelope and Bear Meat, Possession of After the Close of the Season.

NOTE: Authority cited: Sections 200, 202, 203, 3080, and 3081, Fish and Game Code. Reference: Sections 200–203.1, 206, 207, 211–222, 3080, and 3081, Fish and Game Code.

HISTORY

1. Renumbering and amendment of Section 360 to Section 375 filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20). For history for former Section 360, see Registers 71, No. 35; and 70, No. 23.

2. Repealer filed 6–27–2000; operative 6–27–2000 pursuant to Fish and Game Code sections 202 and 205 (Register 2000, No. 26).

Chapter 4. Depredation

§ 400. Deer Depredation Hunts.

(a) A deer depredation hunt shall not be allowed where the number of deer involved numbers less than 25.

(b) Before applying for a depredation hunt the landowner or tenant shall consult with representatives of the department to determine the existence or threat of depredation. All applications shall be in writing, filed with the commission on forms supplied by the department, and shall recite on their face that the applicant grants to the holders of hunting permits free and unrestricted access to, and the use of his lands for the purpose of said hunt.

(c) Two or more landowners, or tenants, whose lands adjoin one another may apply jointly for a deer depredation hunt.

(d) Before a deer depredation hunt is allowed, the landowner or tenant concerned shall sign a statement holding the Department of Fish and Game, their agents, officers, and employees, free and harmless from all claims that may arise from permitees shooting over said area, and from all claims on account of any act or omission on the part of said state, department, or their agents, officers or employees when engaged solely in the discharge of their official duties and functions.

(e) Deer depredation hunts shall be confined to the lands owned or controlled by the applicant.

(f) Hunting permits shall be issued on a first–come, first–served basis by employees of the department only, at a time and place to be designated in the order authorizing the hunt.

(g) Applicants for hunting permits shall be 16 years of age or over.

(h) Hunting permits shall be valid only for the area and the period of time designated on the permit.

(i) Shooting time shall be one hour before sunrise to one hour after sunset.

(j) Permits shall not be transferable.

(k) Permittees shall check in at a designated checking station each day before hunting and shall check out at such station each day after hunting is finished.

(*l*) Permit tag shall be attached to the antlers of antlered deer or to the ear of antlerless deer immediately after killing.

(m) The commission shall designate the methods that may be used for each hunt. In addition to regular methods of take, these may also include 12 gauge shotguns shooting buck shot of size No. 2 or larger, and bows and arrows.

(n) Deer meat held more than 15 days after close of the hunt shall be stamped in accordance with Section 3081 of the Fish and Game Code.

(o) Employees of the department shall not be eligible to purchase hunting permits.

(p) The department may refuse to issue a permit to anyone, may revoke any permit, and may eject the holder from the area for any reason when it appears that the safety or welfare of the area, or that of other permittees, is endangered. Decision of the authorized employee of the department in this respect shall be final.

(q) Prior to the acceptance or issuance of a hunting permit all permittees shall consent in writing to the terms and conditions of these rules and regulations.

NOTE: Authority cited: Sections 4181, 4181.5, and 4188, Fish and Game Code. Reference: Sections 4181, 4181.5, and 4188, Fish and Game Code.

HISTORY

1. Repealer of Chapter 4 (Sections 403–455, not consecutive) and new Chapter 4 (Sections 400–402) filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20). For prior history, see Registers 80, No. 21; 80, No. 20; and 78, No. 24.

2. Change without regulatory effect amending subsection (m) filed 3–28–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 13).

§ 400.5. Bass Hill Special Depredation Hunt.

NOTE: Authority cited: Sections 200, 203, 203.1 and 4188, Fish and Game Code. Reference: Sections 203, 203.1, 450–460, 1801, 4181.5 and 4188, Fish and Game Code.

HISTORY

1. New section filed 9–16–85 as an emergency; effective upon filing (Register 85, No. 38). A Certificate of Compliance must be transmitted to OAL within 120 days or emergency language will be repealed on 1–14–86.

2. Repealed by operation of Government Code Section 11346.1(g) (Register 87, No. 2).

§ 401. Issuance of Permit to Take Animals Causing Damage.

(a) Application. A person who is a property owner or tenant may apply to the department for a permit to take elk, bear, beaver, wild pigs, deer, wild turkeys, or gray squirrels that are damaging or destroying, or immediately threatening to damage or destroy, land or property.

(b) Permit Period. Permits issued pursuant to this section shall be valid for a period not to exceed one year, except that permits for elk, bear, wild turkey, or deer shall not be valid for more than 60 days. Permits may be renewed if damage or threatened damage to land or property continues to exist.

(c) Form and Conditions of Permit. Applications shall be made on form entitled "PERMIT TO KILL DEER, BEAR, ELK, WILD PIG, GRAY SQUIRREL, BEAVER, WILD TURKEY, OR MOUNTAIN LION CAUSING CROP OR PROPERTY DAMAGE" (FG WPB 543 (new 5/05)). The department may add terms and conditions to the permit necessary to protect wildlife and ensure public safety. To be valid, the permit shall contain a statement signed by the applicant that he/she has read, understands, and agrees to be bound by all the terms of the permit.

(d) Methods of Take.

(1) Animals taken pursuant to a permit may be taken in any legal manner except as herein provided and in accordance with the provisions of Section 465.5 of these regulations. Permits to take deer shall include conditions that comply with Fish and Game Code section 4181.5. No iron–jawed or any type of metal–jawed traps may be used to take squirrels or bears. No poison may be used. The department may specify the caliber and type of firearm and ammunition, archery equipment or crossbow to be used based upon safety considerations. The department may require that a permittee take animals alive by the use of live traps.

(2) The permittee and/or agent shall ensure that all animals are killed in a humane manner instantly and prevent any injured animal from escaping.

(e) Government Employees and Designated Agents.

(1) An employee of a federal, State, or local government agency or local district with responsibilities including but not limited to animal control, animal damage control, irrigation, flood, or natural resource reclamation, while acting in his/her official capacity may take depredating animals on the property designated in a permit issued pursuant to this section.

(2) The permittee may designate up to three other persons as his/her agents to take animals under the terms of the permit. A designated agent shall be any person who is acting under the direction and control of the permittee and who is 21 years of age or older. The designated agent(s) shall be named on the permit. The permittee may substitute designated agents with prior written approval of the department.

(f) Persons Prohibited from Taking Animals. No person may take animals pursuant to the permit if he/she has been convicted of a violation related to the take or possession of game or furbearing mammals in the past 12 months or if he/she is on probation and may not hunt or possess a firearm as part of the terms of probation. A landowner who is on probation and may not hunt or possess a firearm as part of the terms of probation must designate a qualified agent to take animals under a permit.

(g) Written Report Required for Wild Pigs. The permittee shall provide a report listing the date and sex of each wild pig taken. A report shall be submitted whether or not any animals were taken. The reporting period shall be by calendar month. The permittee or designated agent shall

complete and mail the report to the department on or before the 15th day of the following month. Reports shall be mailed to the address provided by the department.

(h) Tagging Animals. All animals taken pursuant to a permit, except wild pigs, shall be immediately tagged with tags provided by the department. Wild pigs shall be tagged prior to being transported from the property designated in the permit. Tags for animals except wild pigs shall be completed at the time the animal is taken. Tags for wild pigs shall be completed before the wild pigs are removed from the property. Tags shall clearly show the permittee's name, address, date and location the animal was taken and shall include the signature of the person taking the animal. The report portion of each tag shall be mailed to the department without delay. No tags are required for squirrels and beavers.

(i) Utilization of Carcass. Animals taken pursuant to this permit must be disposed of as required in the permit. No animals, except wild pigs, may be utilized by the permittee or designated agent. The permittee or designated agent may leave the carcass of any wild pig where it was taken for reasons of high air temperatures, disease, parasites, or conditions which preclude use of the carcass. A person who makes every reasonable attempt to utilize the carcass of any wild pig as required in this subsection shall be deemed to be in compliance with Section 4304 of the Fish and Game Code.

(j) Suspension and Revocation of Permits.

(1) Permits may be suspended temporarily by the director for a breach or violation of the permit by the holders thereof, their agents, servants, employees or any person acting under their direction and control. The commission shall be notified of any such suspension and subsequently may revoke or reinstate the permit, or fix the period of its suspension, after written notice to the permittee and the permittee has been afforded an opportunity to be heard.

(2) Any person who has had his/her permit revoked or suspended by the commission shall be required, upon application for a new or subsequent permit, to appear before the commission and demonstrate to its satisfaction that the use of such a permit will be consistent with depredation control, with these regulations, and with the laws under which they are promulgated.

(k) It is unlawful for a permittee or agent to violate any of the terms or conditions of a permit issued pursuant to this section.

(*l*) The permit does not invalidate any city, county, or state firearm regulation.

NOTE: Authority cited: Sections 202, 3003.1 and 4181, Fish and Game Code. Reference: Sections 3003.1 and 4181, Fish and Game Code.

HISTORY

1. New subsection (p) filed 6–17–83; designated effective tenth day thereafter (Register 83, No. 25).
2. Amendment of subsections (a) and (f) filed 8–17–87; operative 8–17–87 (Register 87, No. 34).
3. Change without regulatory effect amending subsection (a) filed 3–28–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 13).
4. Repealer of subsections (p)–(p)6. and new subsections (p)–(p)(5) and amendment of NOTE filed 5–1–97; operative 5–1–97 pursuant to Government Code section 11343.4(d) (Register 97, No. 18).
5. Amendment of subsections (a), (f), (*l*) and (p)(1) and amendment of NOTE filed 6–2–99; operative 6–2–99 pursuant to Fish and Game Code sections 202 and 215 (Register 99, No. 23).
6. Amendment of subsections (e)–(f) and (p)(1)(B)–(p)(4), new subsections (p)(5)–(6) and subsection renumbering filed 5–21–2001; operative 6–1–2001 pursuant to Fish and Game Code sections 202 and 215 (Register 2001, No. 21).
7. Repealer and new section filed 6–28–2002; operative 6–28–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 26).
8. Amendment of subsections (a)–(c) and (d)(1), repealer of subsection (d)(2), subsection renumbering and amendment of newly designated subsection (d)(2) and subsections (g) and (h) filed 5–23–2006; operative 5–23–2006 pursuant to Government Code section 11343.4 (Register 2006, No. 21).
9. Editorial correction of subsection (d)(2) (Register 2006, No. 28).

§ 402. Issuance of Permits to Kill Mountain Lion Causing Damage.

(a) Revocable permits may be issued by the department after receiving a report, from any owner or tenant or agent for them, of property being damaged or destroyed by mountain lion. The department shall conduct and complete an investigation within 48 hours of receiving such a report. Any mountain lion that is encountered in the act of inflicting injury to, molesting or killing livestock or domestic animals may be taken immediately if the taking is reported within 72 hours to the department and the carcass is made available to the department. Whenever immediate action will assist in the pursuit of the particular mountain lion believed to be responsible for damage to livestock or domestic animals, the department may orally authorize the pursuit and take of a mountain lion. The department shall investigate such incidents and, upon a finding that the requirements of this regulation have been met, issue a free permit for depredation purposes, and carcass tag to the person taking such mountain lion.

(b) Permittee may take mountain lion in the manner specified in the permit, except that no mountain lion shall be taken by means of poison, leg–hold or metal–jawed traps and snares.

(c) Both males and females may be taken during the period of the permit irrespective of hours or seasons.

(d) The privilege granted in the permit may not be transferred, and only entitles the permittee or the employee or agent of the permittee to take mountain lion. Such person must be 21 years of age or over and eligible to purchase a California hunting license.

(e) Any person issued a permit pursuant to this section shall report by telephone within 24 hours the capturing, injuring or killing of any mountain lion to an office of the department or, if telephoning is not practical, in writing within five days after capturing, injuring or killing of the mountain lion. Any mountain lion killed under the permit must be tagged with the special tag furnished with the permit; both tags must be completely filled out and the duplicate mailed to the Department of Fish and Game, Sacramento, within 5 days after taking any mountain lion.

(f) The entire carcass shall be transported within 5 days to a location agreed upon between the issuing officer and the permittee, but in no case will a permittee be required to deliver a carcass beyond the limits of his property unless he is willing to do so. The carcasses of mountain lions taken pursuant to this regulation shall become the property of the state.

(g) Animals shall be taken in a humane manner so as to prevent any undue suffering to the animals.

(h) The permittee shall take every reasonable precaution to prevent the carcass from spoiling until disposed of in the manner agreed upon under subsection (f) of these regulations.

(i) The permit does not invalidate any city, county, or state firearm regulation.

(j) Permits shall be issued for a period of 10 days. Permits may be renewed only after a finding by the department that further damage has occurred or will occur unless such permits are renewed. The permittee may not begin pursuit of a lion more than one mile nor continue pursuit beyond a 10–mile radius from the location of the reported damage.

HISTORY

1. Amendment filed 5–7–86; effective upon filing (Register 86, No. 19).
2. Amendment filed 7–1–86; effective upon filing (Register 86, No. 27).
3. Amendment of subsection (a) filed 4–18–91; operative 5–18–91 (Register 91, No. 21).
4. Amendment of subsections (a), (b), (d), (e), (f) and (j) filed 7–31–91; operative 8–30–91 (Register 91, No. 48).
5. Amendment of subsection (a) and NOTE filed 3–5–2001; operative 4–4–2001 (Register 2001, No. 10).

Chapter 5. Furbearing Mammals

§ 460. Fisher, Marten, River Otter, Desert Kit Fox and Red Fox.

Fisher, marten, river otter, desert kit fox and red fox may not be taken at any time.

NOTE: Authority cited: Sections 200, 202, 203, and 4009.5, Fish and Game Code. Reference: Sections 200–203.1, 206, 207, 211–222, 4000–4004, and 4009.5, Fish and Game Code.

HISTORY

1. New Chapter 5 (Sections 460 through 465) filed 6–9–59; designated effective 7–1–59 (Register 59, No. 9). (Ed. Note: Former Section 400 repealer filed

6–9–59, effective 7–1–59, related to subject matter of new Chapter 5. For history of former section, see Register 58, No. 15.)

2. Amendment filed 6–16–61; designated effective 7–1–61 (Register 61, No. 12).
3. Amendment filed 6–18–65; designated effective 7–1–65 (Register 65, No. 10).
4. Amendment filed 6–15–67; designated effective 7–1–67 (Register 67, No. 24).
5. Amendment filed 6–7–74; designated effective 7–1–74 (Register 74, No. 23).
6. Amendment filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).
7. Amendment filed 6–26–96; operative 7–1–96 pursuant to section 11343.4(d) (Register 96, No. 26).

§ 461. Badger and Gray Fox.

(a) Badger may be taken as follows:

(1) Season and Area: November 16 through the last day of February, statewide.

(2) Bag and Possession Limit: No limit.

(b) Gray fox may be taken as follows:

(1) Season and Area: November 24 through the last day of February, statewide.

(2) Bag and Possession Limit: No limit.

(3) Dogs may be permitted to pursue gray fox in the course of breaking, training, or practicing dogs in accordance with the provisions of Section 265 of these regulations.

NOTE: Authority cited: Sections 200–202, 203 and 4009.5, Fish and Game Code. Reference: Sections 200–203.1, 206, 207, 211–222, 4000–4004 and 4009.5, Fish and Game Code.

HISTORY

1. Amendment filed 6–7–74; designated effective 7–1–74 (Register 74, No. 23). For prior history, see Register 73, No. 22.
2. Amendment filed 6–6–75; designated effective 7–1–75 (Register 75, No. 23).
3. Amendment filed 6–4–76; designated effective 7–1–76 (Register 76, No. 23).
4. Repealer and new section filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).

§ 462. Muskrat and Mink.

Except as noted in Section 4180, Fish and Game Code, muskrat and mink may be taken only as follows:

Season and Area: November 16 through March 31, statewide. (This regulation supersedes Section 4001 of the Fish and Game Code.)

Bag and Possession Limit: No limit.

NOTE: Authority cited: Sections 200, 202, 203, and 4009.5, Fish and Game Code. Reference: Sections 200–203.1, 206, 207, 211–222, 4000–4004, 4009.5, and 4180, Fish and Game Code.

HISTORY

1. Amendment filed 6–7–74; designated effective 7–1–74 (Register 74, No. 23.) For prior history, see Register 73, No. 22.
2. Amendment filed 6–6–75; designated effective 7–1–75 (Register 75, No. 23).
3. Amendment filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).

§ 463. Beaver.

Beaver may be taken only as follows:

(a) Season and Area: November 1 through March 31 in the counties of Alameda, Alpine, Amador, Butte, Calaveras, Colusa, Contra Costa, Del Norte, El Dorado, Fresno, Glenn, Humboldt, Imperial, Inyo, Kern, Kings, Lake, Lassen, Madera, Mariposa, Merced, Modoc, Mono, Monterey, Nevada (except Sagehen Creek), Placer, Plumas, Sacramento, San Joaquin, San Luis Obispo, Shasta, Sierra, Siskiyou, Solano, Stanislaus, Sutter, Tehama, Trinity, Tulare, Tuolumne, Yolo and Yuba; and those portions of Riverside and San Bernardino counties within 10 miles of the Arizona–California border. (This regulation supersedes Section 4001 of the Fish and Game Code.)

Bag and Possession Limit: There is no bag or possession limit in these areas for the taking of beaver.

(b) Beaver or any part thereof may not be taken in the balance of the state including the counties of Los Angeles, Marin, Mendocino, Napa, Orange, San Benito, San Diego, San Francisco, San Mateo, Santa Barbara, Santa Clara, Santa Cruz, Sonoma, and Ventura; and those portions of Riverside and San Bernardino counties further than 10 miles from the California–Arizona border. (This regulation supersedes Section 4001 of the Fish and Game Code.)

NOTE: Authority cited: Sections 200, 202, 203 and 4009.5, Fish and Game Code. Reference: Sections 200–203.1, 206, 207, 211–222, 4000–4004, 4009.5 and 4180, Fish and Game Code.

HISTORY

1. Amendment filed 6–1–73; designated effective 7–3–73 (Register 73, No. 22). For prior history, see Register 72, No. 39.
2. Amendment filed 6–7–74; designated effective 7–1–74 (Register 74, No. 23).
3. Amendment of subsection (a) filed 6–6–75; designated effective 7–1–75 (Register 75, No. 23).
4. Amendment filed 5–19–80; designated effective 5–19–80 (Register 80, No. 21).
5. Amendment filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).

6. Editorial correction repealing subsection (c) filed 5–19–82 (Register 82, No. 21).

§ 463.5. Hides of Beaver.

NOTE: Authority cited: Section 4182, Fish and Game Code.

HISTORY

1. New section filed 6–9–59 as an emergency; designated effective 7–1–59 (Register 59, No. 9). Certificate of Compliance—Section 11422.1, Gov. Code filed 8–5–59.
2. Amendment filed 6–13–63; effective thirtieth day thereafter (Register 63, No. 10).
3. Repealer filed 6–4–70; designated effective 7–1–70 (Register 70, No. 23).

§ 464. Raccoon.

(a) Seasons and Areas:

(1) Raccoon may be taken from July 1 through March 31 in the following area: All of Imperial County and those portions of Riverside and San Bernardino counties lying south and east of the following line: Beginning at the intersection of Highway 86 with the north boundary of Imperial County; north along Highway 86 to the intersection with Interstate 10; east along Interstate 10 to its intersection with the Cottonwood Springs Road in Section 9, T6S, R11E, S.B.B.M.; north along the Cottonwood Springs Road and the Mecca Dale Road to Amboy; east along Highway 66 to the intersection with Highway 95; north along Highway 95 to the California–Nevada state line.

(2) November 16 through March 31 in the balance of the state.

(b) Bag and Possession Limit: No limit.

(c) Method of Take: When taking raccoon after dark, pistols and rifles not larger than .22 caliber rimfire and shotguns using shot no larger than No. BB are the only firearms which may be used during this night period. (This regulation supersedes Sections 4001 and 4002 of the Fish and Game Code.) (See Sections 264 and 264.5 for light regulations.)

(d) Dogs may be permitted to pursue raccoons in the course of breaking, training or practicing dogs in accordance with the provisions of Section 265 of these regulations.

NOTE: Authority cited: Sections 200, 202, 203 and 4009.5, Fish and Game Code. Reference: Sections 200–203.1, 206, 207, 211–222, 4000–4004 and 4009.5, Fish and Game Code.

HISTORY

1. Amendment of subsection (c) filed 1–18–78 as an emergency; effective upon filing. Certificate of Compliance included (Register 78, No. 3). For prior history, see Register 77, No. 25.
2. Amendment of subsection (d) filed 5–19–80; designated effective 5–19–80 (Register 80, No. 21).
3. Amendment filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).
4. Repealer and new section filed 6–7–82; designated effective tenth day thereafter (Register 82, No. 24).
5. Amendment of subsection (c) filed 6–28–91; operative 6–28–91 (Register 91, No. 42).

§ 465. Methods for Taking Furbearers.

Furbearing mammals may be taken only with a firearm, bow and arrow, or with the use of dogs, or traps in accordance with the provisions of Section 465.5 of these regulations and Section 3003.1 of the Fish and Game Code.

NOTE: Authority cited: Sections 200, 202, 203, 3003.1 and 4009.5, Fish and Game Code. Reference: Sections 200–203.1, 206, 207, 211–221, 3003.1, 4000–4004 and 4009.5, Fish and Game Code.

HISTORY

1. Amendment filed 5–29–69; designated effective 7–1–69 (Register 69, No. 22). For prior history, see Register 67, No. 24.
2. Amendment filed 6–5–72; effective thirtieth day thereafter (Register 72, No. 24).
3. Amendment filed 6–13–78; effective thirtieth day thereafter (Register 78, No. 24).
4. Amendment filed 5–11–79; designated effective 7–1–79 (Register 79, No. 19).
5. Amendment filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).
6. Amendment filed 6–7–82; designated effective tenth day thereafter (Register 82, No. 24).
7. Amendment filed 6–17–83; designated effective tenth day thereafter (Register 83, No. 25).
8. Amendment of undesignated first paragraph filed 4–18–91; operative 5–18–91 (Register 91, No. 21).
9. Amendment of first paragraph and NOTE filed 7–1–98; operative 7–1–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 27).
10. Amendment of section and NOTE filed 6–2–99; operative 6–2–99 pursuant to Fish and Game Code sections 202 and 215 (Register 99, No. 23).

§ 465.1. Use of Dogs in Taking Furbearers.

NOTE: Authority cited: Sections 200, 202, 203, 219, 3800, 4150 and 4853, Fish and Game Code. Reference: Sections 200–203.1, 206, 207, 211–222, 3800, 4150, 4756 and 4850–4854, Fish and Game Code.

HISTORY

1. New section filed 6–6–75; designated effective 7–1–75 (Register 75, No. 23).
2. Repealer filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).

§ 465.5. Use of Traps.

(a) Traps Defined. Traps are defined to include padded–jaw leg–hold, steel–jawed leg–hold, and conibear traps, snares, dead–falls, cage traps and other devices designed to confine, hold, grasp, grip, clamp or crush animals' bodies or body parts.

(b) Affected Mammals Defined. For purposes of this section, furbearing mammals, game mammals, nongame mammals, and protected mammals are those mammals so defined by statute on January 1, 1997, in sections 3950, 4000, 4150 and 4700 of the Fish and Game Code.

(c) Prohibition on Trapping for the Purposes of Recreation or Commerce in Fur. It is unlawful for any person to trap for the purposes of recreation or commerce in fur any furbearing mammal or nongame mammal with any body–gripping trap. A body–gripping trap is one that grips the mammal's body or body part, including, but not limited to, steel–jawed leg–hold traps, padded–jaw leg–hold traps, conibear traps, and snares. Cage and box traps, nets, suitcase–type live beaver traps, and common rat and mouse traps shall not be considered body–gripping traps and may be used to trap for the purposes of recreation or commerce in fur any furbearing or nongame mammal.

(d) Prohibition on Exchange of Raw Fur. It is unlawful for any person to buy, sell, barter, or otherwise exchange for profit, or to offer to buy, sell, barter, or otherwise exchange for profit, the raw fur, as defined by Section 4005 of the Fish and Game Code, of any furbearing mammal or nongame mammal that was trapped in this state, with a body–gripping trap as described in subsection (c) above.

(e) Prohibition on Use of Steel–jawed Leg–hold Traps by Individuals. It is unlawful for any person to use or authorize the use of any steel–jawed leg–hold trap, padded or otherwise, to capture any game mammal, furbearing mammal, nongame mammal, protected mammal, or any dog or cat.

(1) Exception for Extraordinary Case to Protect Human Health or Safety. The prohibition in subsection (e) does not apply to federal, state, county, or municipal government employees or their duly authorized agents in the extraordinary case where the otherwise prohibited padded–jaw leg–hold trap is the only method available to protect human health or safety.

(A) Leg–hold Trap Requirements. Leg–hold traps used to implement subsection (e)(1) must be padded, commercially manufactured, and equipped as provided in subsections (A)1. through (A)5. below.

1. Anchor Chains. Anchor chains must be attached to the center of the padded trap, rather than the side.

2. Chain Swivels. Anchor chains must have a double swivel mechanism attached as follows: One swivel is required where the chain attaches to the center of the trap. The second swivel may be located at any point along the chain, but it must be functional at all times.

3. Shock Absorbing Device. A shock absorbing device such as a spring must be in the anchor chain.

4. Tension Device. Padded leg–hold traps must be equipped with a commercially manufactured pan tension adjusting device.

5. Trap Pads. Trap pads must be replaced with new pads when worn and maintained in good condition.

(f) Use of Non–Body–Gripping Traps for Purposes of Recreation or Commerce in Fur. Any person who utilizes non–body–gripping traps for the take of furbearing mammals and nongame mammals for purposes of recreation or commerce in fur must comply with the provisions of subsections (g)(1) through (3) below.

(1) Trap Number Requirement. Any person who traps furbearing mammals or nongame mammals shall obtain a trap number issued by and registered with the department. All traps, before being put into use, shall bear only the current registered trap number or numbers of the person using, or in possession of those traps. This number shall be stamped clearly on the trap or on a metal tag attached to the chain of the trap or to any part of the trap.

(g) Use of Conibear Traps, Snares, Cage and Box Traps, Nets, Suitcase–type Live Beaver Traps and Common Rat and Mouse Traps for Purposes Unrelated to Recreation or Commerce in Fur. Conibear traps, snares, cage and box traps, nets, suitcase–type live beaver traps and common rat and mouse traps may be used by individuals to take authorized mammals for purposes unrelated to recreation or commerce in fur, including, but not limited to, the protection of property, in accordance with subsections (1) through (5) below. Except for common rat and mouse traps, all traps used pursuant to this subsection must be numbered as required by subsection (f)(1) above. The prohibitions of subsections (c) and (d) above shall apply to any furbearing or nongame mammal taken by a conibear trap or snare pursuant to this subsection (g).

(1) Immediate Dispatch or Release. All furbearing and nongame mammals that are legal to trap must be immediately killed or released. Unless released, trapped animals shall be killed by shooting where local ordinances, landowners, and safety permit. This regulation does not prohibit employees of federal, state, or local government from using chemical euthanasia to dispatch trapped animals.

(2) Trap Visitation Requirement. All traps shall be visited at least once daily by the owner of the traps or his/her designee. Such designee shall carry on his/her person written authorization, as owner's representative, to check traps. In the event that an unforeseen medical emergency prevents the owner of the traps from visiting traps another person may, with written authorization from the owner, check traps as required. The designee and the person who issues the authorization to check traps shall comply with all provisions of Section 465.5. Each time traps are checked all trapped animals shall be removed.

(3) Trap Placement Requirement. Traps may not be set within 150 yards of any structure used as a permanent or temporary residence, unless such traps are set by a person controlling such property or by a person who has and is carrying with him written consent of the landowner to so place the trap or traps.

(4) Placement of Conibear Traps. Traps of the conibear–type with a jaw opening larger than 8″ x 8″ may be used only in sets where the trap is wholly or partially submerged in water or is:

(A) Within 100 feet of permanent water.

(B) Within 100 feet of seasonally flooded marshes, pastures, agricultural lands or floodways when standing or running water is present.

(C) Within the riparian vegetation zone, characterized by, but not limited to, willow, cottonwood, sycamore, salt cedar, cattail, bulrush and rushes, when found within the area defined in section 463(a) where the take of beaver is permitted.

(5) Zones Prohibited to the Use of Conibear–type Traps and Snares. Conibear–type traps and snares, except those totally submerged, and deadfall traps are prohibited in the following zones.

(A) Zone 1: Beginning at Interstate 5 and Highway 89, east on Highway 89 to Harris Springs Road near Bartle, north on Harris Springs Road (primary U.S. Forest Service Road 15) to Powder Hill Road (primary U.S. Forest Service Road 49), northeast on Powder Hill Road to Road 42N56, east on Road 42N56 to the Siskiyou/Modoc county line, north on the Siskiyou/Modoc county line to the boundary of the Lava Beds National Monument, north along the eastern boundary of the Lava Beds National Monument, then west then south along the western boundary of the Lava Beds National Monument to Road 46N21, west along Road 46N21 over Gold Digger Pass to the western boundary of the Modoc National Forest, south along the western boundary of the Modoc National Forest to the boundary of the Shasta National Forest, west along the northern boundary of the Shasta National Forest to Highway 97, southwest on Highway 97 to Interstate 5, northwest on Interstate 5 to Old Highway 99, northwest on Old Highway 99 to Stewart Springs Road, southwest on Stewart Springs Road to the Yreka Ditch, west along the Yreka Ditch to the Gazelle/Callahan Road, southwest on the Gazelle/Callahan Road to Highway 3, south on Highway 3 to Ramshorn Road, northeast on Ramshorn Road to Castle Creek Road, east on Castle Creek Road to Interstate 5, north on Interstate 5 to the point of beginning.

(B) Zone 2: Beginning in Tehama County at the intersection of Highway 36 and the western boundary of the Lassen National Forest, south along the western boundary of the Lassen National Forest to the boundary of the Plumas National Forest, south along the western boundary of the Plumas National Forest to the boundary of the Tahoe National Forest, south along the western boundary of the Tahoe National Forest to the boundary of the El Dorado National Forest, south along the western boundary of the El Dorado National Forest to the boundary of the Stanislaus National Forest, south along the western boundary of the Stanislaus National Forest to the boundary of the Sierra National Forest, south along the western boundary of the Sierra National Forest to the boundary of the Sequoia National Forest, south along the western boundary of the Sequoia National Forest to Highway 245, southwest on Highway 245 to Road 168, southwest on Road 168 to County Road J40, west on County Road J40 to Henderson Road, northwest on Henderson Road to Lincoln Avenue, west on Lincoln Avenue to Highway 145, north on Highway 145 to Avenue 7, west on Avenue 7 to Road 21, north on Road 21 to Avenue 12, west on Avenue 12 to Road 16, north on Road 16 to Avenue 18 1/2, west on Avenue 18 1/2 to Road 9, north on Road 9 to Highway 152, west on Highway 152 to Highway 59, north on Highway 59 to Highway 99, northwest on Highway 99 to Highway 140, west on Highway 140 to Highway 33, north on Highway 33 to Interstate 5, north on Interstate 5 to County Road J4, west on County Road J4 to County Road J2, north on County Road J2 to Highway 4, west on Highway 4 to Lone Tree Way, west on Lone Tree Way to James Donlon Boulevard, west on James Donlon Boulevard to Somersville Road, south on Somersville Road to Nortonville Road, north on Nortonville Road to Kirker Pass Road, southwest on Kirker Pass Road to Clayton Road, southeast on Clayton Road to Mitchell Canyon Road, south on Mitchell Canyon Road to the boundary of Mount Diablo State Park, south along the western boundary of Mount Diablo State Park to Mt. Diablo Scenic Boulevard, south on Mt. Diablo Scenic Boulevard to Blackhawk Road, southeast on Blackhawk Road to Camino Tassajara, west on Camino Tassajara to Dougherty Road, south on Dougherty Road to Interstate 580, west on Interstate 580 to Interstate 680, south on Interstate 680 to Highway 84, northeast on Highway 84 to Holmes Street, south on Holmes Street to Wetmore Road, east on Wetmore Road to Arroyo Road, south on Arroyo Road to Del Valle Regional Park, southeast along the western boundary of Del Valle Regional Park to Arroyo Del Valle Creek, southeast on Arroyo Del Valle Creek to the Alameda/Santa Clara county line, east on the Alameda/Santa Clara county line to San Antonio Valley Road, south on San Antonio Valley Road to Del Puerto Canyon Road, east on Del Puerto Canyon Road to Santa Clara/Stanislaus county line, south along the Santa Clara/Stanislaus county line to the Santa Clara/Merced county line, south along the Santa Clara/Merced county line to the San Benito/Merced county line, south along the San Benito/Merced county line to Little Panoche Road, south on Little Panoche Road to Panoche Road, east on Panoche Road to New Idria Road, south along New Idria Road to Clear Creek Road, southwest on Clear Creek Road to Coalinga Road, southeast on Coalinga Road to Coalinga–Mineral Springs Road, south on Coalinga–Mineral Springs Road to Highway 198, east on Highway 198 to Parkfield Grade, south on Parkfield Grade to Vineyard Canyon Road, west on Vineyard Canyon Road to Highway 101, north on Highway 101 to Bradley Road, north on Bradley Road to Sargents Road, north on Sargents Road to Pancho Rico Road, west on Pancho Rico Road to Cattleman's Road, north on Cattleman's Road to Highway 198, west on Highway 198 to Highway 101,

north on Highway 101 to County Road G13, northeast on County Road G13 to Highway 25, north on Highway 25 to Browns Valley Road, north on Browns Valley Road to Santa Anita Road, northwest on Santa Anita Road to Santa Ana Valley Road, north on Santa Ana Valley Road to Fairview Road, north on Fairview Road to Highway 156, north on Highway 156 to Highway 152, southwest on Highway 152 to County Road G7, southwest on County Road G7 to Highway 25, west on Highway 25 to Highway 101, south on Highway 101 to the San Benito/Monterey county line, south on the San Benito/Monterey county line to Highway 146, west on Highway 146 to Highway 101, south on Highway 101 to Paraiso Springs Road, south on Paraiso Springs Road to County Road G17, south on County Road G17 to County Road 16, northeast on County Road 16 to Central Avenue, southeast on Central Avenue to Highway 101, south on Highway 101 to County Road G14, south on County Road G14 to Milpitas Road, west on Milpitas Road to the boundary of Fort Hunter Liggett, south along the western boundary of Fort Hunter Liggett to the Nacimiento River, southeast along the Nacimiento River to Nacimiento Reservoir, southeast along the western boundary of Nacimiento Reservoir to Chimney Rock Road, south on Chimney Rock Road to Klau Mine Road, south on Klau Mine Road to Adelaida Road, east on Adelaida Road to Vineyard Drive, southeast on Vineyard Drive to Highway 101, south on Highway 101 to Highway 41, east on Highway 41 to Highway 229, south on Highway 229 to Creston O'Donovan Road, southeast on Creston O'Donovan Road to Highway 58, east on Highway 58 to the boundary of the Los Padres National Forest, south and east along the eastern boundary of the Los Padres National Forest to Highway 33, south on Highway 33 to Quatal Canyon Road, east on Quatal Canyon Road to Cerro Noroeste Road, east on Cerro Noroeste Road to Cuddy Valley Road, east on Cuddy Valley Road to Interstate 5, north on Interstate 5 to Wheeler Ridge Road, east on Wheeler Ridge Road to Laval Road, east on Laval Road to Rancho Road, north on Rancho Road to Sycamore Road, east on Sycamore Road to Tejon Highway, north on Tejon Highway to Highway 223, northeast on Highway 223 to Highway 58, east on Highway 58 to Caliente Bodfish Road, north on Caliente Bodfish Road to Highway 155, northeast then west on Highway 155 to the eastern boundary of the Sequoia National Forest, north and east along the southern boundary of the Sequoia National Forest to the Dome Land Wilderness, north along the eastern boundary of the Dome Land Wilderness to the boundary of the Inyo National Forest, north along the eastern boundary of the Inyo National Forest west of Highway 395 to the intersection of Inyo National Forest and Highway 395 near Sherwin Summit in Mono County, north on Highway 395 to the California/Nevada state line, north on the California/Nevada state line to Highway 395 in Sierra County, north on Highway 395 to Long Valley Road, south on Long Valley Road to the boundary of the Toiyabe National Forest, west along the Toiyabe National Forest boundary to the Tahoe National Forest boundary, west then south then west then north along the Tahoe National Forest boundary to the Plumas National Forest boundary, north then east then north along the eastern boundary of the Plumas National Forest to the Lassen National Forest boundary, north along the eastern boundary of the Lassen National Forest to the northern boundary of the Lassen National Forest, west along the northern boundary of the Lassen National Forest to the western boundary of the Lassen National Forest, south along the western boundary of the Lassen National Forest to the point of beginning.

(h) Statutory Penalty for Violation of Provisions. Violation of Section 3003.1 or 3003.2 of the Fish and Game Code, or any rule or regulation, including this Section 465.5, adopted pursuant thereto, is punishable by a fine of not less than three hundred dollars ($300) or more than two thousand dollars ($2,000), or by imprisonment in the county jail for not more than one year, or by both that fine and imprisonment.

NOTE: Authority cited: Sections 200, 202, 203, 219, 240, 3003.1, 4005 and 4009.5, Fish and Game Code. Reference: Sections 200, 202, 203, 203.1, 207, 3003.1, 4004, 4005, 4009.5, 4152 and 4180, Fish and Game Code.

HISTORY

1. Amendment of subsections (d) and (e) filed 7–1–86; effective upon filing (Register 86, No. 27). For prior history, see Register 84, No. 48.
2. Amendment of subsection (c) filed 5–31–88; operative 5–31–88 (Register 88, No. 23).
3. New subsections (h) and (i) filed 11–29–90 as an emergency; operative 11–29–90 (Register 91, No. 6). A Certificate of Compliance must be transmitted to OAL by 3–29–91 or emergency language will be repealed by operation of law on the following day.
4. Certificate of Compliance as to 11–29–90 order transmitted to OAL 3–28–91 and filed 4–29–91 (Register 91, No. 25).
5. Amendment filed 10–31–91; operative 10–31–91 pursuant to Government Code section 11346.2(d) (Register 92, No. 7).
6. Amendment of subsections (a), (b), (b)(2), (f), (g), (j) and new subsection (b)(5) filed 9–4–92; operative 9–4–92 pursuant to Fish and Game sections 202 and 215 (Register 92, No. 36).
7. Amendment of section and NOTE filed 6–2–99; operative 6–2–99 pursuant to Fish and Game Code sections 202 and 215 (Register 99, No. 23).
8. Amendment of subsection (g)(1) filed 6–27–2000; operative 6–27–2000 pursuant to Fish and Game Code sections 202 and 205 (Register 2000, No. 26).

§ 466. Hours for Taking Furbearers.

Furbearers may be hunted at any hour of the day or night except that they may not be taken between one–half hour after sunset and one–half hour before sunrise in the area described in Section 474(a) of these regulations.

NOTE: Authority cited: Sections 200, 202, 203, 300, 4009.5, and 4150, Fish and Game Code. Reference: Sections 200–203.1, 206, 207, 211–222, 3000, 4000–4004, and 4005–4012, Fish and Game Code.

HISTORY

1. New section filed 6–5–72; effective thirtieth day thereafter (Register 72, No. 24).
2. New NOTE filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).
3. Amendment filed 6–7–82; designated effective tenth day thereafter (Register 82, No. 24).

§ 467. Trapping Reports.

All holders of trapping licenses must submit to the department a sworn statement or report by July 1 of his/her annual take of fur for the preceding trapping season. Statement or report shall show the number of each kind of furbearing mammals and nongame mammals taken, number sold, county in which furs were taken and the names and addresses of the persons to whom furs were shipped or sold. If the annual report is not received by July 1 following the most recent trapping year, or if it is not completely filled out, the trapper's license will be suspended. The commission shall be notified of any suspension and, subsequently, may revoke or reinstate applicant's license renewal application after written notice is given to the applicant and after he has been afforded an opportunity to be heard.

NOTE: Authority cited: Sections 200, 202, 203, 4009.5, and 4150, Fish and Game Code. Reference: Sections 200–203.1, 206, 207, 211–222, 4000–4004, and 4005–4012, Fish and Game Code.

HISTORY

1. New section filed 5–11–79; effective July 1, 1979 (Register 79, No. 19).
2. Amendment filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).
3. Amendment filed 6–26–97; operative 6–26–97 pursuant to Fish and Game Code sections 202 and 215 (Register 97, No. 26).

Chapter 6. Nongame Animals

§ 470. Nongame Animals Defined.

NOTE: Authority cited: Section 4150, Fish and Game Code. Reference: Section 4150, Fish and Game Code.

HISTORY

1. New section filed 6–5–72; effective thirtieth day thereafter (Register 72, No. 24).
2. Repealer filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).

§ 472. General Provisions.

Except as otherwise provided in Sections 478 and 485 and subsections (a) through (d) below, nongame birds and mammals may not be taken.

(a) The following nongame birds and mammals may be taken at any time of the year and in any number except as prohibited in Chapter 6: En-

glish sparrow, starling, coyote, weasels, skunks, opossum, moles and rodents (excluding tree and flying squirrels, and those listed as furbearers, endangered or threatened species).

(b) Fallow, sambar, sika, and axis deer may be taken only concurrently with the general deer season.

(c) Aoudad, mouflon, tahr, and feral goats may be taken all year.

(d) American crows (*Corvus brachyrhynchos*) may be taken only under the provisions of Section 485 and by landowners or tenants, or by persons authorized in writing by such landowners or tenants, when American crows are committing or about to commit depredations upon ornamental or shade trees, agricultural crops, livestock, or wildlife, or when concentrated in such numbers and manner as to constitute a health hazard or other nuisance. Persons authorized by landowners or tenants to take American crows shall keep such written authorization in their possession when taking, transporting or possessing American crows. American crows may be taken only on the lands where depredations are occurring or where they constitute a health hazard or nuisance. If required by Federal regulations, landowners or tenants shall obtain a Federal migratory bird depredation permit before taking any American crows or authorizing any other person to take them.

American crows may be taken under the provisions of this subsection only by firearm, bow and arrow, falconry or by toxicants by the Department of Food and Agriculture for the specific purpose of taking depredating crows. Toxicants can be used for taking crows only under the supervision of employees or officers of the Department of Food and Agriculture or federal or county pest control officers or employees acting in their official capacities and possessing a qualified applicator certificate issued pursuant to sections 14151–14155 of the Food and Agriculture Code. Such toxicants must be applied according to their label requirements developed pursuant to sections 6151–6301, Title 3, California Code of Regulations.

NOTE: Authority cited: Sections 200, 202, 203, 355 and 3800, Fish and Game Code. Reference: Sections 200, 202, 203, 355, 356, 3801 and 3801.5, Fish and Game Code.

HISTORY

1. Amendment of subsection (a) filed 6–7–74; designated effective 7–1–74 (Register 74, No. 23). For prior history, see Register 73, No. 50.
2. New subsection (f) filed 6–6–75; designated effective 7–1–75 (Register 75, No. 23).
3. Amendment filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).
4. Amendment of subsections (d) and (e) filed 9–27–85; effective tenth day thereafter (Register 85, No. 39).
5. Amendment of initial sentence, and subsections (a), (b), (d) and (e) filed 8–29–86; operative 8–29–86 (Register 86, No. 36).
6. Amendment of subsection (d) filed 2–10–88; operative 3–11–88 (Register 88, No. 8).
7. Amendment of NOTE filed 6–26–96; operative 7–1–96 pursuant to section 11343.4(d) (Register 96, No. 26).

§ 473. Possession of Nongame Animals.

Any nongame bird or mammal that has been legally taken pursuant to this chapter may be possessed.

NOTE: Authority cited: Section 4150, Fish and Game Code. Reference: Section 4150, Fish and Game Code.

HISTORY

1. New section filed 6–7–74; designated effective 7–1–74 (Register 74, No. 23).
2. Amendment filed 6–6–75; designated effective 7–1–75 (Register 75, No. 23).
3. Amendment filed 6–4–76; designated effective 7–1–76 (Register 76, No. 23).
4. Amendment filed 5–11–79; designated effective 7–1–79 (Register 79, No. 19).
5. Amendment filed 5–19–80; designated effective 5–19–80 (Register 80, No. 21).
6. Amendment of NOTE filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).

§ 474. Hours for Taking.

Nongame mammals may be taken at any time except as provided in this section.

(a) Area Closed to Night Hunting. Nongame mammals may be taken only between one–half hour before sunrise and one–half hour after sunset in the following described area: Beginning at a point where Little Panoche Road crosses Interstate 5 near Mendota; south on Interstate 5 to Highway 198; east on Highway 198 to Highway 99; south on Highway 99 to Interstate 5; south on Interstate 5 to the Los Padres National Forest boundary in Section 8, T 9 N, R 19 W, S.B.B.M near Fort Tejon Historical Monument; west along the National Forest boundary to Cerro Noroeste Road; northwest on Cerro Noroeste Road to Highway 33–166; north on Highway 33–166 to the Soda Lake Road; northwest on the Soda Lake Road and on the Simmler Soda Lake San Diego Creek Road to Highway 58 at Simmler; west on Highway 58 to the Cammotti Shandon Road; north on the Cammotti Shandon Road to the Shandon San Juan Road; north on the Shandon San Juan Road to Highway 41; northeast on Highway 41 to the Cholame Valley Road; northwest on Cholame Valley Road and Cholame Road to the Parkfield Coalinga Road in Parkfield; north on Parkfield Coalinga Road and Parkfield Grade to Highway 198; northwest on Highway 198 to the Fresno–Monterey county line; north along the Fresno–Monterey county and Fresno–San Benito county lines to the Little Panoche Road; north and east on the Little Panoche Road to the point of beginning at Interstate 5.

This section does not pertain to the legal take of nongame mammals with traps as provided for by Sections 461–480 of these regulations, and by Sections 4000–4012, 4152 and 4180 of the Fish and Game Code. (This regulation supersedes Section 3000 of the Fish and Game Code.)

(b) On privately–owned property, not included in (a) above, nongame mammals may be taken from one–half hour after sunset to one–half hour before sunrise only by the landowner or his agents, or by persons who have in their immediate possession written permission issued by the landowner or tenant that states the permittee can trespass from one–half hour after sunset to one–half hour before sunrise on property under the ownership or control of such landowners or tenants.

(c) Fallow deer, axis deer, sambar deer, sika deer, aoudad, mouflon, tahr and feral goats may be taken only from one–half hour before sunrise to one–half hour after sunset.

NOTE: Authority cited: Sections 3000 and 4150, Fish and Game Code. Reference: Sections 3000 and 4150, Fish and Game Code.

HISTORY

1. New Chapter 6 (Section 474) filed 3–17–72; effective thirtieth day thereafter (Register 72, No. 12).
2. New subsection (c) filed 6–5–72; effective thirtieth day thereafter (Register 72, No. 24).
3. Amendment of subsection (a) filed 6–6–75; designated effective 7–1–75 (Register 75, No. 23).
4. Amendment of subsection (a) filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).
5. Amendment of subsection (a) filed 6–7–82; designated effective tenth day thereafter (Register 82, No. 24).

§ 475. Methods of Take for Nongame Birds and Nongame Mammals.

Nongame birds and nongame mammals may be taken in any manner except as follows:

(a) Poison may not be used.

(b) Recorded or electrically amplified bird or mammal calls or sounds or recorded or electrically amplified imitations of bird or mammal calls or sounds may not be used to take any nongame bird or nongame mammal except coyotes, bobcats, American crows and starlings.

(c) Fallow deer, sambar deer, axis deer, sika deer, aoudad, mouflon, tahr and feral goats may be taken only with the equipment and ammunition specified in Section 353 of these regulations.

(d) Traps may be used to take nongame birds and nongame mammal only in accordance with the provisions of Section 465.5 of these regulations and sections 3003.1 and 4004 of the Fish and Game Code.

(e) No feed, bait or other material capable of attracting a nongame mammal may be placed or used in conjunction with dogs for the purpose of taking any nongame mammals. Nothing in this section shall prohibit an individual operating in accordance with the provisions of Section 465.5 from using a dog to follow a trap drag and taking the nongame mammal caught in that trap.

(f) Methods of take within the California condor range. Except as otherwise provided, it is unlawful to use or possess projectiles containing

more than one percent lead by weight while taking or attempting to take any nongame birds or nongame mammals in those areas described in Section 3004.5, Fish and Game Code.

(1) For purposes of Section 475, a "projectile" is defined as any bullet, ball, sabot, slug, buckshot, shot, pellet or other device which is expelled from a firearm through a barrel by force.

(2) Except as otherwise provided, it is unlawful to possess any projectile containing lead in excess of the amount permitted in subsection 475(f) and a firearm capable of firing the projectile while taking or attempting to take any nongame bird or nongame mammal within the area described in subsection 475(f). The possession of a projectile containing lead in excess of the amount allowed in subsection 475(f) without possessing a firearm capable of firing the projectile is not a violation of this section.

NOTE: Authority cited: Sections 200, 202, 203, 355, 3003.1, 3800 and 4150, Fish and Game Code. Reference: Sections 200, 202, 203, 203.1, 207, 355, 356, 2055, 3003.1, 3004.5, 3800 and 4150, Fish and Game Code.

HISTORY

1. New section filed 6–5–72; effective thirtieth day thereafter (Register 72, No. 24).
2. New subsection (c) filed 7–6–72 as an emergency; effective upon filing (Register 72, No. 28).
3. Certificate of Compliance filed 8–23–72 (Register 72, No. 35).
4. Amendment filed 6–4–76; designated effective 7–1–76 (Register 76, No. 23).
5. Amendment of subsections (c) and (d) and new subsection (e) filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).
6. Amendment of subsection (b) filed 7–1–86; effective upon filing (Register 86, No. 27).
7. Change without regulatory effect amending subsection (c) filed 3–28–96 pursuant to section 100, title 1, California Code of Regulations (Register 96, No. 13).
8. Amendment of section heading, section and NOTE filed 6–2–99; operative 6–2–99 pursuant to Fish and Game Code sections 202 and 215 (Register 99, No. 23).
9. New subsections (f)–(f)(2) and amendment of NOTE filed 5–15–2008; operative 7–1–2008 (Register 2008, No. 20).

§ 478. Bobcat.

Except as provided in subsections (c) and (d) below no person shall pursue, take or possess any bobcat without first procuring a trapping license or a hunting license and bobcat hunting tags. The pursuit, take and/or possession of a bobcat under the authority of a hunting license and a bobcat hunting tag shall be in accordance with the provisions of this section and Sections 265 and 472–479 of these regulations.

Bobcats taken under the authority of a trapping license shall be taken with traps or other means in accordance with this section and Sections 265, 465, 465.5 and 475. Bobcats taken under a trapping license must be tagged in accordance with the provisions of Section 479.

(a) Trapping Season and Area: Bobcat may only be taken under the authority of a trapping license as follows:

(1) Area: Statewide.

(2) Season: November 24 through January 31.

(b) Hunting Season and Area: Bobcats may only be taken under the authority of a hunting license and bobcat hunting tags as follows:

(1) Area: Statewide.

(2) Season: October 15 through February 28.

(c) Bag and Possession Limit:

(1) Bobcats taken under a hunting license and bobcat hunting tags: Five bobcats per season.

(2) Bobcats taken under a trapping license: No limit.

(d) Dogs may be permitted to pursue bobcats in the course of breaking, training or practicing dogs in accordance with the provisions of Section 265 of these regulations.

(e) This section shall not apply to bobcats trapped under the provisions of Sections 4152 and 4180 of the Fish and Game Code (also see Section 480 of these regulations).

NOTE: Authority cited: Section 4150, Fish and Game Code. Reference: Section 4150, Fish and Game Code.

HISTORY

1. Amendment filed 7–15–85; designated effective tenth day thereafter (Register 85, No. 29). For prior history, see Registers 84, No. 47; 82, No. 24; 81, No. 20; 80, No. 21; and 72, No. 24.
2. Amendment filed 7–13–94; operative 7–13–94 pursuant to sections 202 and 215, Fish and Game Code (Register 94, No. 28).

§ 478.1. Bobcat Hunting Tags.

(a) Any person who possesses a valid hunting license may, upon payment of the fee specified in Section 702, procure only five revocable, nontransferable bobcat hunting tags. Such tags shall be acquired at designated department offices. These tags do not act as shipping tags as required in Section 479 for pelts taken under a trapping license.

(b) Bobcat hunting tags are valid only during that portion of the current hunting license year in which bobcats may be legally harvested as provided in Section 478.

(c) The holder of a bobcat hunting tag shall fill in his/her name, address, and hunting license number prior to hunting, and carry the tag while hunting bobcats. Upon the harvesting of any bobcat, the hunter shall immediately fill out both parts of the tag and cut out and completely remove appropriate notches that clearly indicate the date of harvest. One part of the tag shall be immediately attached to the pelt and kept attached until it is tanned, dried or mounted. The other part of the tag shall be sent immediately to the department.

(d) Possession of any untagged bobcat taken under the authority of the hunting license shall be a violation of this section except that the provisions of this section shall not apply to the owner or tenant of land devoted to the agricultural industry nor to authorized county, state or federal predatory animal control agents operating under a written trapping agreement with the appropriate landowner while on such land and in connection with such agricultural industry. It is unlawful for any person to sell, offer for sale, barter, trade, purchase, transport from this state, or offer for out–of–state shipment by any common carrier any bobcat pelts, or parts thereof taken pursuant to this provision.

(e) Any person who is convicted of violating any provision of this chapter shall forfeit his bobcat hunting tags, and shall not apply for additional tags during the then current hunting license year.

NOTE: Authority cited: Sections 713 and 4150, Fish and Game Code. Reference: Sections 713 and 4150, Fish and Game Code.

HISTORY

1. Amendment of subsection (b) filed 7–15–85; designated effective tenth day thereafter (Register 85, No. 29). For prior history, see Registers 84, No. 47; 84, No. 29; 82, No. 24; 81, No. 20 and 80, No. 21.
2. Amendment of subsection (c) filed 7–1–86; effective upon filing (Register 86, No. 27).
3. Amendment of subsections (b) and (c) filed 7–13–94; operative 7–13–94 pursuant to sections 202 and 215, Fish and Game Code (Register 94, No. 28).
4. Amendment of subsection (a) filed 6–26–97; operative 6–26–97 pursuant to Fish and Game Code sections 202 and 215 (Register 97, No. 26).
5. Amendment of subsection (a) and amendment of NOTE filed 7–19–2005; operative 7–19–2005 pursuant to Government Code section 11343.4 (Register 2005, No. 29).
6. Amendment of subsection (a) filed 8–4–2006; operative 8–4–2006 pursuant to Government Code section 11343.4 (Register 2006, No. 31).

§ 479. Bobcat Pelts.

Bobcat pelts may be taken only pursuant to the provisions of sections 465.5 and 478 of these regulations.

(a) Any person who takes a bobcat shall, at any time during the trapping season or within 14 days after the end of the bobcat season, have the following appropriate department mark or tag affixed to the pelt.

(1) Pelts from bobcats taken under a hunting license shall be tagged as provided in Section 478.1. Pelts taken by a licensed trapper for only his personal use shall, at no cost, be marked by the department. Such pelts shall not be sold.

(2) Pelts from bobcats taken for commercial purposes under a trapping license shall be tagged with a department shipping tag.

(b) It is unlawful for any person to sell, offer for sale, barter, trade, purchase, transport from this state, or offer for out–of–state shipment by any common carrier any bobcat pelts, or parts thereof unless the department has affixed a shipping tag to the pelt or parts thereof.

(c) Shipping tags and marking are available from the department. All persons taking bobcat pelts under provisions established by the commission must personally present the pelt to a representative of the department for placement of the nontransferable tag or mark and shall furnish the following:

(1) Date of take;

(2) County of take and nearest major geographical landmark;

(3) Sex; and

(4) Method of take (trap, call or hounds).

The department shall mark bobcat pelts and issue bobcat shipping tags for export of pelts at designated department offices during the trapping season and for a 14–day period immediately following the trapping season.

An administrative fee of $3.00 shall be charged for the issuance of each shipping tag. There is no fee for marking bobcat pelts not for sale.

(d) It is unlawful for any person to import, receive from out–of–state, or receive for sale, any bobcat pelt, or parts thereof that is not:

(1) Marked with the current export or shipping tag from the state of origin.

(2) Accompanied by an import declaration in accordance with Section 2353 of the Fish and Game Code, and specifying the number and kind of raw pelts in the shipment, the state in which the bobcats were taken, the license number under which they were taken and attesting that they were legally taken. Demonstration of the declaration of entry, pelt ownership and proof of legal take and marking is required of anyone receiving bobcat pelts from out–of–state upon the request of the department. The provisions of subsections (a), (b) and (c) shall not apply to raw bobcat pelts, or parts thereof, which were not taken in California.

HISTORY

1. New section filed 11–9–77 as an emergency; effective upon filing (Register 77, No. 46).
2. Amendment filed 12–15–77 as an emergency; effective upon filing (Register 77, No. 51).
3. Certificate of Compliance filed 1–20–78 (Register 78, No. 3).
4. Amendment filed 5–11–79; designated effective 7–1–79 (Register 79, No. 19).
5. Amendment filed 5–19–80; designated effective 5–19–80 (Register 80, No. 21).
6. Amendment filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).
7. Amendment of subsection (c) and new subsection (d) filed 6–7–82; designated effective tenth day thereafter (Register 82, No. 24).
8. Amendment of subsections (a)(1) and (c) filed 7–1–86; effective upon filing (Register 86, No. 27).
9. New first paragraph and amendment of NOTE filed 6–2–99; operative 6–2–99 pursuant to Fish and Game Code sections 202 and 215 (Register 99, No. 23).

§ 479.1. Bobcat Pelts.

NOTE: Authority cited: Section 4150, Fish and Game Code. Reference: Section 4150, Fish and Game Code.

HISTORY

1. New section filed 4–5–79 as an emergency; effective upon filing (Register 79, No. 14).
2. Expired by own terms 8–3–79 (Register 79, No. 31).

§ 480. Bobcat Depredation.

Any person taking a depredating bobcat pursuant to the provisions of Fish and Game Code Section 3003.1 and Section 465.5 of these regulations, shall notify the department within thirty days from the date any bobcat is taken.

NOTE: Authority cited: Sections 3003.1 and 4150, Fish and Game Code. Reference: Sections 3003.1 and 4150, Fish and Game Code.

HISTORY

1. New section filed 11–9–77 as an emergency; effective upon filing (Register 77, No. 46).
2. Certificate of Compliance filed 1–20–78 (Register 78, No. 3).
3. Amendment of NOTE filed 5–13–81; designated effective tenth day thereafter (Register 81, No. 20).
4. Amendment of section heading filed 6–22–84 as an emergency; designated effective 7–1–84 (Register 84, No. 29).
5. Order of Repeal of 6–22–84 emergency order filed 7–2–84 by OAL pursuant to Government Code Section 11349.6(b) (Register 84, No. 29).
6. Amendment of section heading filed 11–21–84; effective upon filing pursuant to Government Code Section 11346.2(d) (Register 84, No. 47).
7. Amendment of section and NOTE filed 6–2–99; operative 6–2–99 pursuant to Fish and Game Code sections 202 and 215 (Register 99, No. 23).

§ 485. American Crow.

(a) Shotgun, Falconry, and Archery Seasons, and Bag and Possession Limits.

	(1) Seasons	*(2) Daily Bag and Possession Limits*
Season:	The first Saturday in December and extending for 124 consecutive days	Bag Limit: 24 crows per day Possession Limit: double the daily bag limit
(3) Area:	Statewide: see closure area (d) below	

(b) Crows may only be taken by shotguns 10 gauge or smaller using shot shells only and incapable of holding more than three shells in the magazine and chamber combined, bow and arrow, and falconry. Crows may not be hunted from aircraft.

(c) No person shall kill or cripple a crow pursuant to this section without making a reasonable effort to retrieve the bird, and retain it in their actual custody at the place where taken or between that place and either: (1) their automobile or principal means of land transportation; or (2) their personal abode or temporary or transient place of lodging; or (3) a migratory bird preservation facility; or (4) a post office; or (5) a common carrier facility.

(d) Crows may not be taken in the following areas:

(1) Within the boundaries of the Trinity and Mendocino National Forests south of Highway 36.

(2) North and east of a line beginning at the mouth of the Eel River; south along the Eel River to the town of Alton; east on Highway 36 from the town of Alton to Highway 89 west of Chester; south and east on Highways 89 and 395 to Interstate 15 near Hesperia; south on Interstate 15 to Interstate 10; and east on Interstate 10 to the California–Arizona border.

(e) See Section 472(d) for the take of American crows causing depredation.

5. Amendment filed 8–9–79; designated effective 9–1–79 (Register 79, No. 32).
6. Amendment filed 8–13–80; designated effective 8–15–80 (Register 80, No. 33).
7. Amendment of subsections (a)(1), (a)(2)(A), and (b) filed 8–18–82; effective upon filing pursuant to Government Code Section 11346.2(d) (Register 82, No. 34).
8. Amendment of subsection (a) filed 8–29–83; effective upon filing (Register 83, No. 36).
9. Amendment of subsections (a)(1) and (b) filed 10–17–84; effective upon filing (Register 84, No. 42).
10. Amendment of subsection (b) filed 8–29–86, operative 8–29–86, deleting the words "to the bird prior to it being prepared for consumption" and adding the words "while being moved from the place where taken to a personal abode or commercial preservation facility" (Register 86, No. 36).
11. Amendment of subsections (a) and (b) filed 9–16–87; operative 9–16–87 pursuant to Fish and Game Code Section 202 (Register 87, No. 38).
12. Amendment of subsection (a) filed 9–8–88; operative 9–8–88 (Register 88, No. 38).
13. Repealer filed 10–2–98; operative 10–2–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 40).

§ 502. Waterfowl, Migratory; American Coot and Common Moorhen (Common Gallinule).

(a) Definitions.

(1) Dark geese. Dark geese include Canada geese, cackling geese, Aleutian geese and white–fronted geese ("specklebelly").

(2) Large Canada geese. Large Canada geese include western Canada geese ("honker") and lesser Canada geese ("lessers").

(3) Small Canada geese. Small (about the size of a mallard) Canada geese include cackling geese and Aleutian geese. Both are white–cheeked geese nearly identical in appearance to Large Canada geese. Aleutian geese have a thin white neck ring and Cackling geese have dark breasts. Both species have a high–pitched cackle as opposed to the deeper "honking".

(4) White geese. White geese include Ross' geese and snow geese.

(b) Waterfowl Hunting Zones.

(1) Northeastern California Zone: In that portion of California lying east and north of a line beginning at the intersection of Interstate 5 with the California–Oregon line; south along Interstate 5 to its junction with Walters Lane south of the town of Yreka; west along Walters Lane to its junction with Easy Street; south along Easy Street to the junction with Old Highway 99; south along Old Highway 99 to the point of intersection with Interstate 5 north of the town of Weed; south along Interstate 5 to its junction with Highway 89; east and south along Highway 89 to Main Street in Greenville; north and east to its junction with North Valley Road; south to its junction of Diamond Mountain Road; north and east to its junction with North Arm Road; south and west to the junction of North Valley Road; south to the junction with Arlington Road (A22); west to the junction of Highway 89; south and west to the junction of Highway 70; east on Highway 70 to Highway 395; south and east on Highway 395 to the point of intersection with the California–Nevada state line; north along the California–Nevada state line to the junction of the California–Nevada–Oregon state lines west along the California–Oregon line state to the point of origin.

(2) Southern San Joaquin Valley Zone: All of Kings and Tulare counties and that portion of Kern County north of the Southern California Zone.

(3) Southern California Zone: In that portion of southern California (but excluding the Colorado River zone) lying south and east of a line beginning at the mouth of the Santa Maria River at the Pacific Ocean; east along the Santa Maria River to where it crosses Highway 166 near the City of Santa Maria; east on Highway 166 to the junction with Highway 99; south on Highway 99 to the crest of the Tehachapi Mountains at Tejon Pass; east and north along the crest of the Tehachapi Mountains to where it intersects Highway 178 at Walker Pass; east on Highway 178 to the junction of Highway 395 at the town of Inyokern; south on Highway 395 to the junction of Highway 58; east on Highway 58 to the junction of Interstate 15; east on Interstate 15 to the junction with Highway 127; north on Highway 127 to the point of intersection with the California–Nevada state line.

(4) Colorado River Zone: In those portions of San Bernardino, Riverside, and Imperial counties lying east of the following lines: Beginning at the intersection of Highway 95 with the California–Nevada state line; south along Highway 95 to Vidal Junction; south through the town of Rice to the San Bernardino–Riverside county line on a road known as "Aqueduct Road" in San Bernardino County; south from the San Bernardino–Riverside county line on road known in Riverside County as the "Desert Center to Rice Road" to the town of Desert Center; east 31 miles on Interstate 10 to its intersection with the Wiley Well Road; south on this road to Wiley Well; southeast along the Army–Milpitas Road to the Blythe, Brawley, Davis Lake intersections; south on the Blythe–Brawley paved road to its intersection with the Ogilby and Tumco Mine Road; south on this road to Highway 80; east seven miles on Highway 80 to its intersection with the Andrade–Algodones Road; south on this paved road to the intersection of the Mexican boundary line at Algodones, Mexico.

(5) Balance of State Zone: That portion of the state not included in Northeastern California, Southern California, Colorado River or the Southern San Joaquin Valley zones.

(A) Special Management Areas

1. North Coast. All of Del Norte and Humboldt counties.

2. Humboldt Bay South Spit. Beginning at the intersection of the north boundary of Table Bluff County Park and the South Jetty Road; north along the South Jetty Road to the South Jetty; west along the South Jetty to the mean low water line of the Pacific Ocean; south along the mean low water line to its intersection with the north boundary of the Table Bluff County Park; east along the north boundary of the Table Bluff County Park to the point of origin.

3. Sacramento Valley (West). Beginning at the town of Willows; south on Interstate 5 to the junction with Hahn Road; east on Hahn Road and the Grimes–Arbuckle Road to the town of Grimes; north on Highway 45 to its junction with Highway 162; north on Highway 45–162 to the town of Glenn; west on Highway 162 to the point of beginning.

4. Morro Bay. Beginning at a point where the high tide line intersects the State Park boundary west of Cuesta by the Sea; northeasterly to a point 200 yards offshore of the high tide line at the end of Mitchell Drive in Baywood Park; northeasterly to a point 200 yards offshore of the high tide line west of the Morro Bay State Park Boundary, adjacent to Baywood Park; north to a point 300 yards south of the high tide line at the end of White Point; north along a line 400 yards offshore of the south boundary of the Morro Bay City limit to a point adjacent to Fairbanks Point; northwesterly to the high tide line on the sand spit; southerly along the high tide line of the sand spit to the south end of Morro Bay; easterly along the Park boundary at the high tide line to the beginning point.

5. Martis Creek Lake. The waters and shoreline of Martis Creek Lake, Placer and Nevada counties.

6. Northern Brant. Del Norte, Humboldt and Mendocino Counties.

7. Balance of State Brant. That portion of the state not included in the Northern Brant Special Management Area.

(c) Statewide Seasons and Bag and Possession Limits for American Coots, and Common Moorhens.

(1) Species	*(2) Season*	*(3) Daily Bag and Possession Limits*
American Coot and Common Moorhen	Concurrent with duck season(s)	25 per day, 25 in possession, either all of one species or a mixture of these species.

(d) Seasons and Bag and Possession Limits for Ducks and Geese by Zone.

(1) Northeastern California Zone (NOTE: SEE SUBSECTION (5)(D) BELOW FOR SPECIAL SEASONS AND CLOSURES.)

(A) Species	*(B) Season*	*(C) Daily Bag and Possession Limits*
Ducks (including Mergansers)	From the first Saturday in October extending for 105 days.	Daily bag limit: 7 Daily bag limit may include: • up to 7 mallards, but not more than 2 females. • 1 pintail (either sex). • 2 canvasback (either sex). • 2 redheads (either sex). • 3 scaup. Possession limit: double the daily bag limit.
Geese	From the first Saturday in October extending for 100 days.	Daily bag limit: 6 Daily bag limit may include: • 4 white geese. • 4 white-fronted geese • 2 Large Canada geese (see definitions: 502(a)). • 1 Small Canada goose (see definitions: 502(a)). Possession limit: double the daily bag limit.

(2) Southern San Joaquin Valley Zone (NOTE: SEE SUBSECTION (5)(D) BELOW FOR SPECIAL SEASONS AND CLOSURES.)

(A) Species	*(B) Season*	*(C) Daily Bag and Possession Limits*
Ducks (including Mergansers)	A split season from the first Saturday in October extending for a period of 23 days and from the second Saturday in November extending for a period of 79 days.	Daily bag limit: 7 Daily bag limit may include: • up to 7 mallards, but not more than 2 females. • 1 pintail (either sex). • 2 canvasback (either sex). • 2 redheads (either sex). • 3 scaup. Possession limit: double the daily bag limit.
Geese	From the third Saturday in October extending for 100 days.	Daily bag limit: 6 Daily bag limit may include: • 4 white geese. • 4 white-fronted geese. • 4 Large Canada geese (see definitions: 502(a)). • 6 Small Canada geese (see definitions: 502(a)). Possession limit: double the daily bag limit.

(3) Southern California Zone (NOTE: SEE SUBSECTION (5)(D) BELOW FOR SPECIAL SEASONS AND CLOSURES.)

(A) Species	*(B) Season*	*(C) Daily Bag and Possession Limits*
Ducks (including Mergansers)	From the third Saturday in October extending for 100 days.	Daily bag limit: 7 Daily bag limit may include: • up to 7 mallards, but not more than 2 females. • 1 pintail (either sex). • 2 canvasback (either sex). • 2 redheads (either sex). • 3 scaup. Possession limit: double the daily bag limit.

(A) Species	*(B) Season*	*(C) Daily Bag and Possession Limits*
Geese	From the third Saturday in October extending for 100 days.	Daily bag limit: 5 Daily bag limit may include: • 4 white geese. • 3 dark geese (see definitions: 502(a)). Possession limit: double the daily bag limit.

(4) Colorado River Zone (NOTE: SEE SUBSECTION (5)(D) BELOW FOR SPECIAL SEASONS AND CLOSURES.)

(A) Species	*(B) Season*	*(C) Daily Bag and Possession Limits*
Ducks (including Mergansers).	From the Friday after the second Sunday in October extending for 101 days.	Daily bag limit: 7 Daily bag limit may include: • up to 7 mallards, but not more than 2 females or Mexican-like ducks. • 1 pintail (either sex). • 2 canvasback (either sex). • 2 redheads (either sex). • 3 scaup Possession limit: double the daily bag limit.
Geese	From October 19 extending for 101 days.	Daily bag limit: 6 Daily bag limit may include: • 4 white geese. • 3 dark geese (see definitions: 502(a)). Possession limit: double the daily bag limit.

(5) Balance of State Zone (NOTE: SEE SUBSECTION (D) BELOW FOR SPECIAL SEASONS AND CLOSURES.)

(A) Species	*(B) Season*	*(C) Daily Bag and Possession Limits*
Ducks (including Mergansers).	From the third Saturday in October extending for 100 days.	Daily bag limit: 7 Daily bag limit may include: • up to 7 mallards, but not more than 2 females. • 1 pintail (either sex). • 2 canvasback (either sex). • 2 redheads (either sex). • 3 scaup. Possession limit: double the daily bag limit.

(A) Species	*(B) Season*	*(C) Daily Bag and Possession Limits*
Geese	From the third Saturday in October extending for 100 days EXCEPT in the Sacramento Valley (West) Special Management Area where the white-fronted goose season will be open from the last Saturday in October through December 14.	Daily bag limit: 6 Daily bag limit may include: • 4 white geese. • 4 white-fronted geese EXCEPT in the Sacramento Valley (West) Special Management Area where only 2 may be taken. • 4 Large Canada geese (see definitions: 502(a)). • 6 Small Canada geese (see definitions: 502(a)). Possession limit: double the daily bag limit.

[The next page is 145.]

(D) Special Management Areas

Area	*Species*	*Season*
1. North Coast	All Canada Geese	From the first Thursday in November extending for a period of 88 days (Regular Season) and from the fourth Saturday in February extending for 17 days (Late Season). During the Late Season, hunting is not permitted on public areas. Daily bag limit: 6 Canada Geese of which only 1 may be a Large Canada goose (see definitions: 502(a)), EXCEPT during the Late Season the bag limit on Large Canada geese is zero. Possession limit: double the daily bag limit.
2. Humboldt Bay South Spit	All species	Closed during brant season.
3. Sacramento Valley (West)	White-Fronted Geese	Open from the last Saturday in October through December 14, and during Youth Hunting Days. Daily bag limit: 2 white-fronted geese. Possession limit: double the daily bag limit.
4. Morro Bay	All species	Open in designated area only.
5. Martis Creek Lake	All species	Closed until November 16.
6. Northern Brant	Black Brant	From the first Saturday in November extending for 30 days. Daily bag limit: 2 Possession limit: double the daily bag limit.
7. Balance of State Brant	Black Brant	From the second Saturday in November extending for 30 days. Daily bag limit: 2 Possession limit: double the daily bag limit.

(e) Youth Hunting Days Regulations (NOTE: Youth hunters must be 15 years of age or younger and must be accompanied by a non-hunting adult 18 years of age or older.)

(1) Statewide Provisions.

(A) Species	*(B) Season*	*(C) Daily Bag Limit*
Ducks (including Mergansers), American Coot, Common Moorhen, Black Brant, Geese	1. Northeastern California Zone: The Saturday fourteen days before the opening of waterfowl season extending for 2 days. 2. Southern San Joaquin Valley Zone: The Saturday following the closing of waterfowl season extending for 2 days. 3. Southern California Zone: The Saturday following the closing of waterfowl season extending for 2 days. 4. Colorado River Zone: The Saturday following the closing of waterfowl season extending for 2 days. 5. Balance of State Zone: The Saturday following the closing of waterfowl season extending for 2 days.	Same as regular season.

(f) Falconry Take of Ducks (including Mergansers), Geese, American Coots, and Common Moorhens.

(1) Statewide Provisions

(A) Species	*(B) Season*	*(C) Daily Bag and Possession Limits*
Ducks (including Mergansers), Geese, American Coot and Common Moorhen	1. Northeastern California Zone. Open concurrently with duck season extending for 105 days.	Daily bag limit: 3 Daily bag limit makeup: • Either all of 1 species or a mixture of species allowed for take.
	2. Balance of State Zone. Open concurrently with duck season extending for 107 days, except in the North Coast Special Management Area where the falconry season for geese runs concurrently with the season for Small Canada geese (see 502(d)(5)(D)1.)	Possession limit: 6
	3. Southern San Joaquin Valley Zone. Open concurrently with duck season and January 28–30, 2008. Goose hunting in this zone by means of falconry is not permitted.	
	4. Southern California Zone. Open concurrently with duck season extending for 107 days.	
	5. Colorado River Zone. Concurrent with duck season and from January 28–31, 2008. Goose hunting in this zone by means of falconry is not permitted. Federal regulations require that California's hunting regulations conform to those of Arizona, where goose hunting by means of falconry is not permitted.

HISTORY

1. Amendment filed 10–5–88; operative 10–5–88 (Register 88, No. 41). For prior history, see Register 87, No. 41.
2. Amendment filed 10–13–89; operative 10–13–89 pursuant to Fish and Game Code section 355 (Register 89, No. 42).
3. Amendment of subsections (a), (b) and (c) filed 11–15–90; operative 11–15–90 pursuant to Fish and Game Code section 355 (Register 91, No. 3).
4. Amendment filed 10–10–91; operative 10–10–91 pursuant to Fish and Game code section 215 (Register 92, No. 13).
5. Amendment filed 11–5–92; operative 11–5–92 pursuant to Fish and Game Code section 202 and 215 (Register 92, No. 45).
6. Amendment of subsections (b)(1), (b)(2)(A)1 and 3, (b)(3)(A)1 and 2, (b)(4)(A)1, (b)(5) and (b)(5)(A)1 and 3, (c)(1)(C), (c)(2)(A), (c)(3) and NOTE filed 11–4–93; operative 11–4–93 pursuant to Fish and Game Code sections 202 and 215 (Register 93, No. 45).
7. Amendment filed 10–7–94; operative 10–7–94 pursuant to sections 202 and 215, Fish and Game Code (Register 94, No. 40).
8. Repealer and new section filed 10–12–95; operative 10–12–95 pursuant to Government Code section 11343.4(d) (Register 95, No. 41).

9. Amendment of subsections (c)–(e) filed 9–23–96; operative 9–23–96 pursuant to Fish and Game Code sections 202 and 215 (Register 96, No. 39).
10. Amendment of subsections (c)(2), (d)(1)(B)–(d)(2)(C), (d)(3)(B)–(C), (d)(4)(B)–(C), (d)(5)(A)–(C) and (e)(1)(B) filed 10–29–97; operative 10–29–97 pursuant to Fish and Game Code sections 202 and 215 (Register 97, No. 44).
11. Amendment of section heading and subsections (c)–(c)(1), (d)(3) and (e)(1), filed 10–2–98; operative 10–2–98 pursuant to Fish and Game Code section 202 and 215 (Register 98, No. 40).
12. Repealer and new subsection (b)(5)(A)5., amendment of subsections (c)(1), (d)(1), (d)(2), (d)(4), (d)(5) and (e) filed 10–2–98; operative 10–2–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 40).
13. Amendment filed 9–27–99; operative 9–27–99 pursuant to Fish and Game Code sections 202 and 205 (Register 99, No. 40).
14. Amendment filed 9–25–2000; operative 9–29–2000 pursuant to Fish and Game Code sections 202 and 215 (Register 2000, No. 39).
15. Amendment filed 10–3–2001; operative 10–6–2001 pursuant to Government Code section 11343.4 (Register 2001, No. 40).
16. Amendment filed 10–9–2002; operative 10–12–2002 pursuant to Fish and Game Code section 355 (Register 2002, No. 41).
17. Amendment filed 9–26–2003; operative 9–27–2003 pursuant to Government Code section 11343.4 (Register 2003, No. 39).
18. Amendment of subsections (d)(1)(B)–(C), (d)(2)(B)–(C), (d)(3)(B)–(C), (d)(4)(B), (d)(5)(B)–(D) and (f)(2)(B) filed 11–4–2004; operative 11–4–2004 pursuant to Fish and Game Code section 355 (Register 2004, No. 45).
19. Amendment filed 9–30–2005; operative 9–30–2005 pursuant to Fish and Game Code section 355 (Register 2005, No. 39).
20. Amendment filed 9–19–2006; operative 9–19–2006 pursuant to Government Code section 11343.4 (Register 2006, No. 38).
21. Amendment of subsections (b)(5)(A)2., (d)(1)(C), (d)(2)(C), (d)(4)(B)–(C), (d)(5)(C), (d)(5)(D)1.–2., (d)(5)(D)4., (d)(5)(D)7., (e)(1)(B) and (f)(1)(B) filed 9–19–2007; operative 9–19–2007 pursuant to Fish and Game Code section 355 (Register 2007, No. 38).
22. Amendment of subsections (d)(1)(C), (d)(2)(C), (d)(3)(C), (d)(4)(C) and (d)(5)(C) filed 10–25–2007; operative 10–25–2007 pursuant to Fish and Game Code section 355 (Register 2007, No. 43).

§ 502.1. North Coast Canada Goose Hunt.

NOTE: Authority cited: Sections 200, 202, 203 and 355, Fish and Game Code. Reference: Sections 200, 355 and 356, Fish and Game Code.

HISTORY

1. New section filed 9–12–97; operative 9–12–97 pursuant to Fish and Game Code sections 202 and 215 (Register 97, No. 37).
2. Amendment of subsection (d) filed 10–2–98; operative 10–2–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 40).
3. Amendment of subsection (d) and NOTE filed 9–1–2000; operative 9–1–2000 pursuant to Fish and Game Code section 215 (Register 2000, No. 35).
4. Repealer filed 9–18–2002; operative 9–18–2002 pursuant to Government Code section 11343.4 (Register 2002, No. 38).

§ 503. Crop Damage.

In accordance with the provisions of Section 355 of the Fish and Game Code and pursuant to the Migratory Bird Treaty Act, the Fish and Game Commission does hereby approve all orders and permits by the federal government authorizing the herding or take of migratory game birds to alleviate crop depredation.

NOTE: Authority and reference cited: Migratory Bird Treaty Act and Section 355, Fish and Game Code.

HISTORY

1. Renumbered from former Section 310 (Register 59, No. 9). For history of former section, see Register 57, No. 4.
2. Repealer and new section filed 10–5–81; effective thirtieth day thereafter (Register 81, No. 41).

§ 504. Possession, Transportation and Importation of Migratory Game Birds.

NOTE: Authority and reference cited: 16 U.S.C.A., Section 703 et seq. (Migratory Bird Treaty Act); and Section 355, Fish and Game Code.

HISTORY

1. Amendment of subsection (b) filed 8–24–71; designated effective upon filing (Register 71, No. 35). For prior history, see Register 68, No. 29.
2. Repealer and new section filed 10–5–81; effective thirtieth day thereafter (Register 81, No. 41).
3. Amendment of subsection (b) and Authority and Reference filed 8–29–86, operative 8–29–86, making the following changes:
   Subsection (b): deleting the words "doves and" adding the words "Doves must have a fully feathered wing attached";
   Authority and reference: adding the words "16 U.S.C.A., Section 703 et seq." (Register 86, No. 36).
4. Repealer filed 10–12–95; operative 10–12–95 pursuant to Government Code section 11343.4(d) (Register 95, No. 41).

§ 505. Decoys.

The use of live birds as decoys is prohibited.

NOTE: Authority and reference cited: Migratory Bird Treaty Act and Section 355, Fish and Game Code.

HISTORY

1. Renumbered from former Section 332 (Register 59, No. 9). For history of former section, see Register 17, No. 4.
2. Amendment filed 10–5–81; effective thirtieth day thereafter (Register 81, No. 41).

§ 506. Shooting Hours.

The shooting hours for migratory game birds, including mourning doves, white–winged doves, band–tailed pigeons, American coots, common moorhens, common snipe (jacksnipe), and waterfowl for all of California shall be from one–half hour before sunrise to sunset.

EXCEPTION: In areas open to hunting on, over or adjacent to the waters of Morro Bay, San Luis Obispo County, the shooting time shall be from 7:00 a.m. to sunset.

NOTE: Authority cited: Sections 202, 355 and 3000, Fish and Game Code. Reference: Sections 202, 355, 356 and 3000, Fish and Game Code.

HISTORY

1. Amendment filed 8–30–62 as an emergency; effective upon filing (Register 62, No. 18). For prior history, see Register 61, No. 18.
2. Certificate of Compliance—Section 11422.1, Government Code, filed 10–10–62 (Register 62, No. 21).
3. Amendment filed 8–29–63 as an emergency; effective upon filing (Register 63, No. 14).
4. Amendment filed 9–11–64; effective upon filing (Register 64, No. 19).
5. Amendment of NOTE filed 10–5–81; effective thirtieth day thereafter (Register 81, No. 41).
6. Amendment filed 10–7–83; effective upon filing (Register 83, No. 41).
7. Amendment filed 10–11–85; effective upon filing) Register 85, No. 44).
8. Amendment filed 10–5–88; operative 10–5–88 (Register 88, No. 41).
9. Amendment filed 10–13–89; operative 10–13–89 pursuant to Fish and Game Code Section 355 (Register 89, No. 42).
10. Amendment filed 9–27–99; operative 9–27–99 pursuant to Fish and Game Code sections 202 and 205 (Register 99, No. 40).
11. Amendment of last paragraph and NOTE filed 9–30–2005; operative 9–30–2005 pursuant to Fish and Game Code section 355 (Register 2005, No. 39).

§ 507. Provisions Related to the Taking of Migratory Game Birds.

(a) Authorized Methods. Only the following methods may be used to take migratory game birds:

(1) Falconry.

(2) Bow and Arrows or Crossbows. Only arrows or crossbows bolts with flu– flu fletching may be used except that conventionally fletched arrows may be used to take waterfowl sitting on the water from scullboats or similar watercraft. Archers hunting during any archery season may not possess a firearm while in the field engaged in archery hunting.

(3) Muzzle–loading Shotguns.

(4) Shotguns 10 Gauge or Smaller. Shotguns 10 gauge or smaller using shot shells only and incapable of holding more than three shells in the magazine and chamber combined may be used. except no shotgun larger than 12 gauge shall be used in areas open to hunting on, over or adjacent to the waters of Morro Bay, San Luis Obispo County. If a plug is used to reduce the capacity of a magazine to fulfill the requirements of this section, the plug must be of one piece construction incapable of removal without disassembling the gun. Shotgun shells may not be used or possessed that contain shot size larger than No. BB in lead or T shot in steel or other nontoxic shot approved by the U.S. Fish and Wildlife Service. All shot shall be loose in the shell.

(b) Use of Dogs. Dogs may be used to take and retrieve migratory game birds.

(c) Prohibition on Electronic or Mechanically–operated Devices. Electronic or mechanically–operated calling or sound–reproducing devices are prohibited when attempting to take migratory game birds. It is unlawful to use electronic or mechanically–operated spinning blade devices or spinning wing decoys when attempting to take waterfowl between the start of waterfowl season and November 30. For the purposes of this regulation, wind–powered spinning blade devices and kites are not prohibited.

(d) Live Decoy Prohibition. The use of live decoys is prohibited when attempting to take migratory game birds.

NOTE: Authority cited: Section 355, Fish and Game Code. Reference: Sections 355, 356 and 3005, Fish and Game Code.

HISTORY

1. Renumbered from former Section 334 (Register 59, No. 9).
2. Amendment filed 9–11–64; effective upon filing (Register 64, No. 19).
3. Amendment filed 10–11–78 as an emergency; effective upon filing (Register 78, No. 41).
4. Certificate of Compliance filed 12–22–78 (Register 79, No. 1).
5. Amendment filed 9–26–79; effective upon filing (Register 79, No. 39).
6. Amendment filed 9–23–80; designated effective 10–1–80 (Register 80, No. 39).
7. Repealer and new section filed 10–5–81; effective thirtieth day thereafter (Register 81, No. 41).
8. Amendment filed 10–7–83; effective upon filing (Register 83, No. 41).
9. Amendment filed 10–11–85; effective upon filing (Register 85, No. 44).
10. New subsection (h) filed 10–2–87; operative 10–2–87 (Register 87, No. 41).
11. Amendment of subsection (e) filed 12–23–94; operative 1–23–95 (Register 94, No. 51).
12. Repealer and new section filed 9–23–96; operative 9–23–96 pursuant to Fish and Game Code sections 202 and 215 (Register 96, No. 39).
13. Amendment of subsection (c) filed 10–3–2001; operative 10–6–2001 pursuant to Government Code section 11343.4 (Register 2001, No. 40).
14. Amendment of subsection (c) filed 10–9–2002; operative 10–12–2002 pursuant to Fish and Game Code section 355 (Register 2002, No. 41).

§ 507.1. Nontoxic Shot Requirement for Waterfowl, American Coot and Common Moorhen Hunting.

Only bismuth–tin, steel, copper–plated steel, nickel–plated steel, tin–plated steel, zinc–plated steel, zinc chloride–plated steel, zinc chromate–plated steel, iron–tungsten, iron–tungsten–nickel, tungsten–bronze, tungsten–iron–copper–nickel, tungsten–matrix, tungsten–polymer, tungsten–tin–iron, tungsten–tin–bismuth, and tungsten–tin–iron–nickel or other nontoxic shot approved by the U.S. Fish and Wildlife Service may be used or possessed for waterfowl, American coot and common moorhen hunting statewide.

HISTORY

1. New section filed 10–10–86; effective upon filing (Register 86, No. 41). For history of former section, see Register 85, No. 40.
2. Amendment filed 10–9–87; operative 10–9–87 (Register 87, No. 42).
3. Amendment of subsections (a) and (b) filed 10–5–88; operative 10–5–88 (Register 88, No. 41).
4. Amendment of subsections (a) and (b) filed 10–13–89; operative 10–13–89 pursuant to Fish and Game Code Section 355 (Register 89, No. 42).
5. Amendment of subsections (a) and (b) filed 11–15–90; operative 11–15–90 pursuant to Fish and Game Code section 355 (Register 91, No. 3).
6. Amendment of section heading, and repealer and new text filed 11–4–93; operative 11–4–93 pursuant to Fish and Game Code sections 202 and 215 (Register 93, No. 45).
7. Amendment of section heading and section filed 12–23–94; operative 1–23–95 (Register 94, No. 51).
8. Amendment filed 10–3–2001; operative 10–6–2001 pursuant to Government Code section 11343.4 (Register 2001, No. 40).
9. Change without regulatory effect amending section filed 9–21–2004 pursuant to section 100, title 1, California Code of Regulations (Register 2004, No. 39).
10. Change without regulatory effect amending section and NOTE filed 7–12–2006 pursuant to section 100, title 1, California Code of Regulations (Register 2006, No. 28).

§ 507.5. Scull Boats.

Migratory game birds may not be taken by a scull boat or similar watercraft while under motorized power. The motor shall be removed from its mountings before any take or approach is attempted.

This section shall not prohibit shooting migratory game birds from scull boats or similar watercraft with motor attached if beached or anchored; nor shall it prohibit the use of a motor for the sole purpose of picking up dead or injured birds.

NOTE: Authority and reference cited: Migratory Bird Treaty Act and Section 355, Fish and Game Code.

HISTORY

1. New section filed 8–24–71, designated effective upon filing (Register 71, No. 35).

§ 508. Feeding of Migratory Waterfowl.

NOTE: Authority cited: Sections 240, 355 and 3806, Fish and Game Code. Reference: Sections 240, 355 and 3806, Fish and Game Code.

HISTORY

1. Amendment of subsections (b) and (c) filed 7–28–77; effective thirtieth day thereafter (Register 77, No. 31).
2. Amendment of NOTE filed 10–5–81; effective thirtieth day thereafter (Register 81, No. 41).
3. Amendment filed 7–28–88; operative 7–28–88 (Register 88, No. 33).
4. Amendment of subsection (b)(3) filed 7–11–89; operative 7–11–89 (Register 89, No. 28).
5. Repealer filed 9–23–96; operative 9–23–96 pursuant to Fish and Game Code sections 202 and 215 (Register 96, No. 39).

§ 509. Concurrence with Federal Regulations.

(a) The regulations adopted by the United States through its Secretary of Interior under the Migratory Bird Treaty Act, as amended annually in Part 10, subparts A and B, and Part 20, Title 50, Code of Federal Regulations, are hereby adopted and made a part of this Title 14 except where said federal regulations are less restrictive than the provisions of Chapter 7 of this Title 14 (sections 500–509), the provisions of Chapter 7 prevail.

(b) Any violations of the regulations adopted pursuant to subsection (a) are violations of this section.

(c) It shall be unlawful for any person aged sixteen years or older to take any migratory waterfowl unless at the time of such taking the person carries in his or her immediate possession an unexpired Federal migratory–bird hunting and conservation stamp validated by his or her signature written by him or herself in ink across the face of the stamp prior to any taking of such birds.

HISTORY

1. New section filed 8–24–71; designated effective upon filing (Register 71, No. 35).
2. Repealer and new section filed 10–5–81; effective thirtieth day thereafter (Register 81, No. 41).

Chapter 8. Wildlife and Public Shooting Areas

§ 550. Regulations for General Public Use Activities on All State Wildlife Areas Listed Below.

(a) State Wildlife Areas:

(1) Antelope Valley Wildlife Area (Sierra County) (Type C);

(2) Ash Creek Wildlife Area (Lassen and Modoc counties) (Type B);

(3) Bass Hill Wildlife Area (Lassen County), including the Egan Management Unit (Type C);

(4) Battle Creek Wildlife Area (Shasta and Tehama counties);

(5) Big Lagoon Wildlife Area (Humboldt County) (Type C);

(6) Big Sandy Wildlife Area (Monterey and San Luis Obispo counties) (Type C);

(7) Biscar Wildlife Area (Lassen County) (Type C);

(8) Buttermilk Country Wildlife Area (Inyo County) (Type C);

(9) Butte Valley Wildlife Area (Siskiyou County) (Type B);

(10) Cache Creek Wildlife Area (Lake County), including the North Fork Cache Creek and Harley Gulch management units (Type C);

(11) Camp Cady Wildlife Area (San Bernardino County) (Type C);

(12) Cantara/Ney Springs Wildlife Area (Siskiyou County) (Type C);

(13) Cartago Wildlife Area, Inyo County (Type C);

(14) Cedar Roughs Wildlife Area (Napa County) (Type C);

(15) Cinder Flats Wildlife Area (Shasta County) (Type C);

(16) Clear Lake Wildlife Area (Lake County), including the Rodman Slough Unit (Type C);

(17) Collins Eddy Wildlife Area (Sutter and Yolo counties) (Type C);

(18) Colusa Bypass Wildlife Area (Colusa County) (Type C);

(19) Coon Hollow Wildlife Area (Butte County) (Type C);

(20) Cottonwood Creek Wildlife Area (Merced County), including the Upper Cottonwood and Lower Cottonwood management units (Type C);

(21) Crescent City Marsh Wildlife Area (Del Norte County);

(22) Crocker Meadow Wildlife Area (Plumas County) (Type C);

(23) Daugherty Hill Wildlife Area (Yuba County) (Type C);

(24) Decker Island Wildlife Area (Solano County) (Type C);

(25) Doyle Wildlife Area (Lassen County) (Type C);

(26) Dutch Flat Wildlife Area (Modoc County) (Type C);

(27) East Walker River Wildlife Area (Mono County) (Type C);

(28) Eel River Wildlife Area (Humboldt County) (Type C);

(29) Elk Creek Wetlands Wildlife Area (Del Norte County);

(30) Elk River Wildlife Area (Humboldt County) (Type C);

(31) Fay Canyon Wildlife Area (Alpine County) (Type C);

(32) Fay Slough Wildlife Area (Humboldt County) (Type C);

(33) Feather River Wildlife Area (Sutter and Yuba counties), including the Abbott Lake, Lake of the Woods, Marysville, Morse Road, Nelson Slough, O'Connor Lakes, Shanghai Bend, and Star Bend management units (Type C);

(34) Fitzhugh Creek Wildlife Area (Modoc County) (Type C);

(35) Fremont Weir Wildlife Area (Yolo County) (Type C);

(36) French Valley Wildlife Area (Riverside County) (Type C);

(37) Grass Lake Wildlife Area (Siskiyou County) (Type C);

(38) Gray Lodge Wildlife Area (Butte and Sutter counties) (Type A);

(39) Green Creek Wildlife Area (Mono County) (Type C);

(40) Grizzly Island Wildlife Area (Solano County), including the Garibaldi Crescent (Type A), Gold Hills (Type B), Goodyear Slough (Type B), Grey Goose (Type C), Grizzly Island (Type A), Island Slough (Type B), Joice Island (Type A), West Family (Type B) and Montezuma Slough management units;

(41) Hallelujah Junction Wildlife Area (Lassen and Sierra counties) (Type C);

(42) Heenan Lake Wildlife Area (Alpine County) (Type C);

(43) Hill Slough Wildlife Area (Solano County);

(44) Hollenbeck Canyon Wildlife Area (San Diego County) (Type C);

(45) Honey Lake Wildlife Area (Lassen County) (Type B);

(46) Hope Valley Wildlife Area (Alpine County) (Type C);

(47) Horseshoe Ranch Wildlife Area (Siskiyou County) (Type C);

(48) Imperial Wildlife Area (Imperial County), including the Wister Management Unit (Type A) and Finney Ramer Management Units (Type C);

(49) Indian Valley Wildlife Area (Lake County) (Type C);

(50) Kelso Peak and Old Dad Mountains Wildlife Area (San Bernardino County) (Type C);

(51) Kinsman Flat Wildlife Area (Madera County) (Type C);

(52) Knoxville Wildlife Area (Napa and Yolo counties) (Type C);

(53) Laguna Wildlife Area (Sonoma County) (Type C);

(54) Lake Berryessa Wildlife Area (Napa County) (Type C);

(55) Lake Earl Wildlife Area (Del Norte County) (Type C);

(56) Lake Sonoma Wildlife Area (Sonoma County) (Type C);

(57) Little Panoche Reservoir Wildlife Area (Fresno County) (Type C);

(58) Los Banos Wildlife Area (Merced County) (Type A);

(59) Lower Sherman Island Wildlife Area (Sacramento County) (Type C);

(60) Mad River Slough Wildlife Area (Humboldt County) (Type C);

(61) Marble Mountains Wildlife Area (San Bernardino County) (Type C);

(62) Mendota Wildlife Area (Fresno County) (Type A);

(63) Merrill's Landing Wildlife Area (Tehama County) (Type C);

(64) Miner Slough Wildlife Area (Solano County) (Type C);

(65) Monache Meadows Wildlife Area (Tulare County) (Type C);

(66) Morro Bay Wildlife Area (San Luis Obispo County) (Type C);

(67) Moss Landing Wildlife Area (Monterey County) (Type C);

(68) Mouth of Cottonwood Creek Wildlife Area (Shasta and Tehama counties) (Type C);

(69) Mud Lake Wildlife Area (Siskiyou County) (Type C);

(70) Napa–Sonoma Marshes Wildlife Area (Solano, Napa, and Sonoma counties), including the American Canyon, Coon Island, Dutchman Slough, Huichica Creek, Napa River, Ringstrom Bay, Sonoma Creek, Tolay Creek, and Wingo management units (Type C); and Green Island, Southern Crossing, and White Slough management units;

(71) North Grasslands Wildlife Area (Merced and Stanislaus counties), including the China Island, Gadwall, and Salt Slough management units (Type A);

(72) O'Neill Forebay Wildlife Area (Merced County) (Type C);

(73) Oroville Wildlife Area (Butte County), including the Thermalito Afterbay Management Unit (Type C);

(74) Petaluma Marsh Wildlife Area (Marin and Sonoma counties), including the Black John Slough, Burdell, and Petaluma River management units (Type C); and Bahia, Day Island, Green Point, Novato Creek, Point Sonoma, and Rush Creek management units;

(75) Pickel Meadow Wildlife Area (Mono County (Type C));

(76) Pine Creek Wildlife Area (Modoc County) (Type C);

(77) Point Edith Wildlife Area (Contra Costa County) (Type C);

(78) Putah Creek Wildlife Area (Solano County) (Type C);

(79) Rector Reservoir Wildlife Area (Napa County) (Type C);

(80) Red Lake Wildlife Area (Alpine County) (Type C);

(81) Rhode Island Wildlife Area Contra Costa County (Type C);

(82) Sacramento Bypass Wildlife Area (Yolo County) (Type C);

(83) Sacramento River Wildlife Area (Butte, Colusa, and Glenn counties) (Type C);

(84) San Felipe Valley Wildlife Area (San Diego County) (Type C);

(85) San Jacinto Wildlife Area (Riverside County) including the Davis Road Unit, and the Potrero Unit (Type A);

(86) San Luis Obispo Wildlife Area (San Luis Obispo County);

(87) San Luis Reservoir Wildlife Area (Merced County) (Type C);

(88) San Pablo Bay Wildlife Area (Marin and Sonoma counties) (Type C);

(89) Santa Rosa Wildlife Area (Riverside County) (Type C);

(90) Shasta Valley Wildlife Area (Siskiyou County) (Type B);

(91) Sheepy Ridge Wildlife Area (Siskiyou County) (Type C);

(92) Silver Creek Wildlife Area (Lassen County) (Type C);

(93) Slinkard–Little Antelope Wildlife Area (Mono County) (Type C);

(94) Smithneck Creek Wildlife Area (Sierra County) (Type C);

(95) South Fork Wildlife Area (Kern County) (Type C);

(96) South Spit Wildlife Area (Humboldt County) (Type C);

(97) Spenceville Wildlife Area (Yuba and Nevada counties) (Type C);

(98) Surprise Valley Wildlife Area (Modoc County) (Type C);

(99) Sutter Bypass Wildlife Area (Sutter County) (Type C);

(100) Tehama Wildlife Area (Tehama County) (Type C);

(101) Truckee River Wildlife Area (Placer and Nevada counties), including the Boca, Polaris, Union Ice, and West River management units (Type C);

(102) Upper Butte Basin Wildlife Area (Butte and Glenn counties), including the Howard Slough, Little Dry Creek, and Llano Seco management units (Type A);

(103) Volta Wildlife Area (Merced County) (Type A);

(104) Waukell Creek Wildlife Area (Del Norte County) (Type C);

(105) Warner Valley Wildlife Area (Plumas County) (Type C);

(106) West Hilmar Wildlife Area (Merced and Stanislaus counties) (Type C);

(107) West Walker River Wildlife Area (Mono County) (Type C);

(108) White Slough Wildlife Area (San Joaquin County) (Type C);

(109) Willow Creek Wildlife Area (Lassen County) (Type B);

(110) Yolo Bypass Wildlife Area (Yolo County).

(b) Area Regulations:

(1) Regional Manager's Authority: The regional manager shall have the authority to regulate public use of State wildlife areas where such use is not provided for in these regulations or in sections 551 and 552 of this title.

(2) Entry Restrictions. The department may limit the number of persons entering any area listed in section 550 or 551 of this title during any period for safety reasons, to reduce crowding, to provide for the limited take of a species, or may close portions of areas or close areas entirely to public entry or to specific activities. No person shall enter an area that has been closed to the public, except by written permission of the regional manager. On wildlife areas where entry and exit sites are designated by the department, no person shall enter or leave except at designated sites.

(3) Procedures for Issuing Entry Permits. In the event that the department elects to limit the number of hunters, trappers, or other users, entry permits will be issued on a first–come, first–served basis, or by a drawing to be held at a designated department office. The department shall inform the commission in writing and the public via the news media of any implementation of the provisions of this subsection, when limits imposed under this subsection differ substantially for a specific area from the prior year. Such notification shall include: the State wildlife area affected, the time period, the reason for the limitation or closure, the number of entry permits to be issued, and the method of issuance.

(4) Permit Requirements. No person shall enter any State wildlife area or portion thereof where the department has limited public entry without a valid entry permit in their immediate possession. [See subsections 551(f), (g), and (h) for regulations regarding general requirements and costs for individual entry permits. See subsection 551(q) for entry permit requirements for specific areas.] Upon leaving the State wildlife area, the permit must be completed and returned to the checking station, or drop box.

(5) Use Permits for Organized Events. Any person organizing an event or gathering to be conducted on a State wildlife area shall obtain a use permit from the appropriate regional manager. Such events or gatherings shall be compatible with wildlife area objectives.

(6) Motor Driven Vehicles.

(A) No person shall drive, operate, leave, place, or stop any motor driven vehicle or trailer on any State wildlife area except on public or established roads or on designated jeep trails and such other areas as designated by the department. No person shall park or leave any motor driven vehicle or trailer in any area where signs prohibiting parking are posted. Unless noted in subsections 551(q) or 552(a) the use of off highway vehicles (OHV's) and all terrain vehicles (ATV's) is prohibited on areas owned and/or managed by the department. The department may designate the parking lot where a person must park a vehicle while on the wildlife area.

(B) No person shall drive a vehicle carelessly in willful disregard of the rights or safety of others, or without due caution or at a speed or in a manner likely to endanger any person, property, or wildlife.

(7) Signs, Traffic and Road Closures.

(A) Drivers of motor driven vehicles operated within the wildlife areas shall comply with the directions of traffic signs posted in the area by the department.

(B) No person shall damage, remove, or destroy any barrier, sign, signpost, or signboard on any wildlife area.

(8) Boats.

(A) The department may restrict the use and operation of boats on State wildlife areas, department administered national wildlife refuges, and State recreation areas to protect natural resources or provide for the orderly operation of hunting and fishing programs on these areas. Boating restrictions may include, but not be limited to, limiting boat speeds, limiting motor size and type, or prohibiting the use of motors. During the times waterfowl are present, the provisions of Section 251 of this Title will also apply.

(B) Except as prohibited in subsection 551(q), boats may be used under the following regulations on State wildlife areas, department administered national wildlife refuges, and State recreation areas.

1. When launch sites are designated by the department, all boats must be launched and removed from those sites.

2. All persons shall remove their boats from the waters or beach when instructed to do so by an employee of the department. Any peace officer may remove the boat of any person who has been instructed to remove their boat from the waters or beach, and fails to comply with the instruction of the employee of the department.

3. The use of boats may be restricted to certain zones designated by the department.

4. Boat speed shall not exceed five miles per hour unless otherwise noted in subsection 551(q).

5. Any peace officer may remove any boat that is left unattended in the waters or on the beach in excess of 72 hours.

(9) Vandalism and Litter.

(A) No person shall tamper with, damage, or remove any property not his own when such property is located within a State wildlife area.

(B) No person shall leave, deposit, drop, bury, or scatter bottles, broken glass, feathers, hides, wastepaper, cans, sewage, or other rubbish in any State wildlife area except in a receptacle or area designated for that purpose, and no person shall import and deposit any rubbish or toxic substance into State wildlife areas from other places. Where no designated receptacles are provided, any refuse resulting from a person's use of the area must be removed from the area by such person.

(10) Trees and Minerals.

(A) No person shall dig up, cut, damage, or remove from a wildlife area any trees, shrubs, vines, plants or wood, except that vegetation may be cut and used for the purpose of building blinds, unless otherwise directed by the area manager.

(B) No person shall dig up or remove any humus, soil, sand, gravel, or rock.

(11) Bottles and Artifact Collecting. No person shall collect or remove bottles or artifacts, or dig or otherwise disturb the soil to locate or remove bottles or artifacts, from any Wildlife Area.

(12) Camping and Unattended Personal Property. No person shall camp, including on a boat, in any part of a State wildlife area except in areas designated by the department. (See subsection 551(q) for additional camping restrictions on specific areas). Camping on wildlife areas shall be limited to not more than seven consecutive days, and not more than 14 days total in any calendar year, except by written permission of the Regional Manager. Personal property may not be left on State wildlife areas for camping or other purposes, except at authorized locations. Decoys may not be left in the field overnight, except as provided in sub-

section 551(q). Any hunting blinds on wildlife areas shall be available on a first–come, first–served basis.

(13) Fires. From April 30 through October 30 on Type C areas, and during the entire year on Type A and B areas, no person shall build or maintain fires except in portable gas stoves, in charcoal briquette barbeques, or in fireplaces at sites developed by the department. No fire shall be left unattended and all fires shall be extinguished with water before leaving. (See subsection 551(q) for additional fire restrictions.)

(14) Use of Dogs and Field Trials. The department may prohibit or restrict the use of dogs on any State wildlife area (see subsection 551(q)). Except as further prohibited in subsection 551(q), dogs are allowed only for hunting or when under immediate control. Dogs must be leashed at designated campsites and checking station areas. Special permits are required for field trials. Dog training is allowed only in areas designated by the department.

(15) Pesticides Use. No person, other than authorized federal, state, or local employees conducting a pest control program approved by the department, shall apply any pesticide in any State wildlife area.

(16) Livestock. No person shall permit livestock, including but not limited to cattle, horses, sheep, goats, and hogs, to browse, graze, bed, cross, or otherwise trespass on any State wildlife area except under an authorized grazing permit issued by the department. The recreational use of horses is allowed, except as designated in subsection 551(q). Persons who fail to remove their livestock from any State wildlife area within 48 hours after receiving official notice of trespass by the regional manager through certified mail, shall be in violation of this section.

(17) Fish and Frogs. Fish and frogs may not be taken for commercial purposes (see subsection 551(q) for specific area regulations).

(18) Hunting and Trapping. Hunting and trapping shall be allowed on State wildlife areas during the regular open seasons subject to subsection 550(b)(19), 551(b), and 551(q), and such other area use regulations as specified by the regional manager.

(19) Areas where hunting and possession of firearms and archery equipment are prohibited. No person, except authorized personnel, shall possess or discharge a firearm, bow and arrow, air or gas gun, spear gun, or other propulsive device of any kind in the following areas: Battle Creek, Crescent City Marsh, Elk Creek Wetlands, Eureka Slough, and Hill Slough wildlife areas; Cordelia Slough and Montezuma Slough management units of Grizzly Island Wildlife Area; White Slough Unit of Napa–Sonoma Marshes Wildlife Area; and Bahia, Day Island, Green Point, Novato Creek, Point Sonoma, and Rush Creek units of the Petaluma Marsh Wildlife Area.

(20) Fireworks / Explosives — No person shall possess or light fireworks or other explosive or incendiary devices on any state owned or managed wildlife area, except by written permission of the area manager or as provided for in Sections 551(b) or 551(q).

(21) Possession and use of Alcohol or other Controlled Substances. No person shall possess or use alcohol or other controlled substances while in the field hunting or engaged in other authorized recreational activities on any State wildlife area or Federal wildlife refuge. For the purpose of this section, "in the field" is defined as all areas except checking stations and designated parking areas. The possession and/or use of controlled substances pursuant to 11550 of the Health and Safety Code are prohibited on all areas managed and/or controlled by the department.

(22) Ejection. The department may eject any person from a State wildlife area for violation of any of these rules or regulations or for disorderly conduct, intoxication, or when a department employee determines that the general safety or welfare of the area or persons thereon is endangered. The decision, in such respect, of any department employee assigned management or enforcement responsibilities for the area shall be final.

(23) User Responsibility for Knowing Regulations. All wildlife area users shall be responsible for area–specific regulations listed under subsection 551(q). Failure to comply with any of the area–specific regulations shall be a violation of this subsection.

NOTE: Authority cited: Sections 200, 202, 203, 355, 713, 1050, 1526, 1528, 1530, 1570–1572, 1765 and 10504, Fish and Game Code. Reference: Sections 355, 711, 713, 1050, 1055.3, 1526, 1528, 1530, 1570–1572, 1585, 1764, 1765, and 10504, Fish and Game Code.

HISTORY

1. Repealer and new section filed 10–8–93; operative 10–8–93 pursuant to section 202 and 215, Fish and Game Code (Register 93, No. 41). For prior history, see Register 93, No. 28.
2. New subsections (a)(8), (24), (60), (70), (83), (94) and (98) and subsection renumbering filed 9–20–94; operative 10–24–94 (Register 94, No. 38).
3. Editorial correction of subsections (b)(10), (13), (14) and (16) (Register 94, No. 38).
4. Amendment filed 10–5–94; operative 11–4–94 (Register 94, No. 40).
5. New subsection (a)(99), amendment of subsections (b)(8)–(10) and (b)(15), new subsection (b)(18), and amendment of NOTE filed 9–12–95; operative 9–12–95 pursuant to Government Code section 11343.4(d) (Register 95, No. 37).
6. Amendment of section and NOTE filed 10–1–96; operative 10–1–96 pursuant to Government Code section 11343.4(d) (Register 96, No. 40).
7. New subsections (a)(63) and (a)(73), subsection renumbering and amendment of subsection (b)(12) filed 10–3–97; operative 10–3–97 pursuant to Fish and Game Code sections 202 and 215 (Register 97, No. 40).
8. New subsections (a)(52) and (a)(77), subsection renumbering and amendment of subsection (b)(2) filed 10–16–98; operative 10–16–98 pursuant to Fish and Game Code sections 202 and 215 (Register 98, No. 42).
9. New subsection (a)(81), subsection renumbering, repealer of former subsection (a)(106) and amendment of subsections (b)(2), (b)(6)(A), (b)(7), (b)(7)(B) and (b)(19) filed 10–6–99; operative 10–6–99 pursuant to Fish and Game Code sections 202 and 215 (Register 99, No. 41).
10. Repealer of subsection (a)(9), subsection renumbering and amendment of newly designated subsection (a)(96) and subsection (b)(13) filed 9–28–2000; operative 9–28–2000 pursuant to Fish and Game Code section 215 (Register 2000, No. 39).
11. Amendment of subsections (a)(29), (a)(32), (a)(49), (a)(67), (a)(103), (b)(17) and (b)(19) filed 10–23–2001; operative 10–23–2001 pursuant to Fish and Game Code sections 202 and 215 (Register 2001, No. 43).
12. Amendment of subsection (a)(37), new subsections (a)(41), (a)(79) and (b)(20) and subsection renumbering filed 9–9–2002; operative 9–9–2002 pursuant to Fish and Game Code sections 202 and 215 (Register 2002, No. 37).
13. Amendment of subsections (a)(10)–(11), new subsections (a)(15) and (a)(35), subsection renumbering, amendment of newly designated subsection (a)(85) and subsections (b)(4) and (b)(14) and amendment of NOTE filed 11–4–2004; operative 11–4–2004 pursuant to Fish and Game Code section 215 (Register 2004, No. 45).
14. New subsections (a)(13), (a)(34), (a)(36), (a)(96) and (a)(107), repealer of subsections (a)(30), (a)(35), (a)(48) and (a)(96), subsection renumbering, amendment of subsections (a)(70), (a)(74), (b)(6)(A), (b)(8)(B)2., new subsection (b)(2)(8)(B)5., amendment of subsection (b)(12), (b)(14) and (b)(19), new subsection (b)(20), subsection renumbering and amendment of newly designated subsection (b)(21) filed 11–7–2007; operative 12–7–2007 (Register 2007, No. 45).

§ 551. Hunting, Firearms, and Archery Equipment Use and Permit Requirements on State and Federal Areas.

(a) The following regulations apply to areas listed below:

(1) State wildlife areas listed in Section 550. (See subsection 550(b)(19) for areas where possession and use of firearms and archery equipment are completely prohibited.)

(2) Areas operated in cooperation with the U.S. Fish and Wildlife Service (for additional regulations for Federal areas, see Section 552):

(A) Colusa National Wildlife Refuge, Type A (Colusa County);

(B) Delevan National Wildlife Refuge, Type A (Colusa County);

(C) Kern National Wildlife Refuge, Type A (Kern County);

(D) Merced National Wildlife Refuge, Type A (Merced County);

(E) Sacramento National Wildlife Refuge, Type A (Glenn and Colusa counties);

(F) Sacramento River National Wildlife Refuge, including the La Barranca Unit, Blackberry Island Unit, Mooney Unit, Ohm Unit, Flynn Unit, Heron Island Unit, and Rio Vista Unit (Tehama Co.); Pine Creek Unit, Dead Man's Reach Unit, North Llano Seco Island 1 & 2 Units, and Llano Seco Riparian Sanctuary Unit (Butte Co.); and McIntosh Landing North and South Units, Capay Unit, Phelan Island Unit, Jacinto Unit, Ord Unit, Ord Bend Unit, South Ord Unit, Hartley Island Unit, Sul Norte Unit, Co-

dora Unit, Packer Unit, Head Lama Unit, North Drumheller Slough Unit, and Drumheller Slough Unit (Glenn Co.); Type C;

(G) San Luis National Wildlife Refuge, Type A (Merced County), including the San Luis, Kesterson, West Bear Creek, Freitas, and Blue Goose Units;

(H) Sonny Bono Salton Sea National Wildlife Refuge, Type A (Imperial County) (operated with the Imperial Wildlife Area);

(I) Stone Lakes National Wildlife Refuge, Type A (Sacramento County);

(J) Sutter National Wildlife Refuge, Type A (Sutter County).

(3) Areas operated in cooperation with other Federal agencies:

(A) Baldwin Lake, Type C (San Bernardino County);

(B) Volta Wildlife Area, Type A (Merced County);

(C) Lake Sonoma Wildlife Area, Type C (Sonoma County).

(4) Areas operated in cooperation with other State agencies:

(A) Lake Earl Project Area, Type C (Del Norte County) (Unclassified land administered by the Department of Parks and Recreation);

(B) O'Neill Forebay Wildlife Area, Type C (Merced County);

(C) San Luis Reservoir Wildlife Area, Type C (Merced and Santa Clara counties);

(D) Little Panoche Reservoir Wildlife Area, Type C (Fresno County);

(E) Perris Reservoir State Recreation Area, area day use fee (Riverside County).

(F) Clifton Court Forebay, Type C (Contra Costa County).

(b) Method of Take.

(1) Firearms and Archery Equipment, General: Except as otherwise provided, no person shall possess in the field or discharge a firearm, bow and arrow, air or gas gun, or other propulsive device of any kind on any wildlife area (see section 551(b)(9)).

(2) Except as otherwise provided, no shotguns larger than twelve gauge and no rifles, pellet guns, combination rifle–shotguns, pistols, archery equipment, or revolvers shall be possessed in the field or discharged on any Type A or Type B areas. All legal firearms and archery equipment may be used on Type C areas unless prohibited (see subsection 551(q)).

(3) Shotgun shells shall not contain shot size larger than size BB in lead and size T in steel. The use or possession of shot size larger than BB in non–toxic shot other than steel is prohibited on State and Federal Wildlife areas. On those areas where big game species may be hunted, shotguns with slugs may be used.

(4) Except as otherwise provided, on areas with ammunition restrictions, only those persons possessing a valid hunting permit for that day may possess ammunition in the field. (See subsection 551(q), 552(a)).

(5) At Grizzly Island Wildlife Area and on all national wildlife refuges listed in Section 552, only steel or other nontoxic shot approved by the U.S. Fish and Wildlife Service may be used or possessed in the field.

(6) Archery equipment shall not be used during the waterfowl and pheasant seasons on Type A and B areas, unless provided for in subsection 551(q).

(7) Loaded firearms, as defined in Section 2006 of the Fish and Game Code, are prohibited in the parking lots on all wildlife areas and on national wildlife refuges listed in Section 552.

(8) On Type C areas, raptors may be used to take legal game in accordance with general hunting regulations.

(9) On Type A and B state wildlife areas, raptors may be used to take legal game only from the first Saturday following the end of the general waterfowl season through the end of the falconry pheasant season. Raptors may be used only on Saturdays, Sundays, and Wednesdays.

(10) Except as otherwise provided, an adult–supervised youth may possess and discharge a BB gun on any wildlife area. A BB gun is not an authorized method of take and may not be used to take wildlife on any wildlife area. A BB gun is defined as an air and/or spring–actuated rifle similar to Daisy BB gun models 95 (Timberwolf), 105 (Buck), or 1938 (Red Ryder), firing a spherical BB no longer than 0.177 inches in diameter (4.5mm) at a muzzle velocity no greater than 350 feet per second. For the purpose of this section a youth is defined as a person under the age of 16.

(c) Nonhunting Uses of Firearms and Archery Equipment:

(1) Except at designated shooting sites or with a special permit, possession in the field and use of firearms and archery equipment is permitted only for the purpose of hunting on all wildlife areas and on national wildlife refuges listed in Section 552.

(2) No glass or porcelain targets shall be used on any wildlife area. Clay targets shall be used only at designated sites where their use is permitted.

(d) Hunting Days:

(1) Except as provided for in subsection 551(q), waterfowl may be taken on Type A and Type B areas only on Saturdays, Sundays, and Wednesdays.

(2) All Type A and Type B areas shall be closed to hunting on Christmas Day, except for the following Type B areas: Island Slough and Gold Hills units of Grizzly Island Wildlife Area. These areas will be open to hunting on Christmas Day when Christmas occurs on a Wednesday, Saturday, or Sunday.

(3) On Type C areas, shooting days shall be daily except as noted in subsections 551(b) and 551(q).

(e) Shooting Hours: Waterfowl: Except as provided for in subsection 551(q), shooting hours on all Type A and Type B areas shall be the legal waterfowl shooting hours as designated by the U.S. Fish and Wildlife Service. Other Species: Except as noted in subsection 551(q), other species may be taken only during the hours designated for the taking of each species under the regulatory powers of the commission or U.S. Fish and Wildlife Service.

(f) Requirements for Entry Permits and Trespass: No person shall enter upon any area listed in sections 550 or 551 of this Title where the department requires a valid daily entry permit without the required entry permit in their immediate possession, or unless otherwise authorized by the department. Entry or exit must be made at locations designated by the department. Daily entry permits are required to hunt during the waterfowl and pheasant seasons on Type A and B areas. During this period daily entry permits must be returned to the checking stations where issued within one and one half hours after sunset unless otherwise designated in 551(g). Daily entry permits also may be required at other times on Type A and B areas or on Type C areas (see subsection 551(q)).

(g) Season Pass, Two–day Pass, and Entry Permits:

(1) To obtain a daily entry permit to hunt during the waterfowl and pheasant seasons on Type A areas, possession of a Type A season pass, a Type A two–day pass, or a one–day entry permit is required, except as provided in subsection 551(q). Season passes and two–day passes may be issued by department offices and license agents. The department may issue season passes, two–day passes and one–day entry permits at Type A checking stations. Persons hunting under the authority of a junior hunting license are exempt from these permit and pass requirements and shall be issued a no–fee entry permit.

(2) A Type A season pass shall be issued upon payment of the fee specified in Section 702. A Type B season pass shall be issued upon payment of the fee specified in Section 702.

(3) On Type B areas during the waterfowl and pheasant seasons, a Type B season pass or a Type A season pass is required to obtain a daily entry permit for all hunting, unless otherwise provided in subsections 551(q).

(4) A one–day entry permit shall be issued upon payment of the fee specified in Section 702. A two–day pass shall be issued upon payment of the fee specified in Section 702.

(5) At State recreation areas included in subsection 551(a)(4), the entry permit fee for hunting shall be the recreation area day–use fee.

(6) On Type C areas (all wildlife areas not listed as Type A, Type B, or State recreation areas in Section 551), no fees for hunting are required.

(7) On some areas (see subsection 551(q)), day use passes are required for all public access. Fees may be charged (see Fish and Game Code Section 1765).

(h) Issuance of One–day Entry Permits:

(1) Hunters with season passes shall not receive priority in the issuance of daily entry permits over hunters who do not have season passes.

(2) Holders of junior hunting licenses will be issued entry permits only when accompanied by an adult. An adult is defined as a person at least 18 years old. An adult may be accompanied by up to two junior hunters. On Type A and B areas, adults must accompany junior hunters in the field. On Type A and B areas when a non–shooter accompanies a junior hunter, the non–shooter will be considered a hunter possessing valid resident or nonresident hunting license in establishing his or her place in line. Persons 16 or 17 years of age in possession of a valid resident or nonresident hunting license will be issued entry permits and may hunt by themselves, but may not be accompanied by junior hunters.

(3) Entry permits must be returned, as required by the department, when departing the area. Hunters are required to report the number and species of all game taken, as required by the department, before departing the area. All game taken on a State or Federal wildlife area shall be shown to any department employee upon request before leaving the area.

(4) No person shall apply for, obtain, use, or have in his or her possession while hunting, any one–day entry permit which has not been issued to that person by the department or which is a duplicate, forgery, or alteration of an official department form; or which has been obtained by use of a non–validated or fraudulent application or advance reservation form. Any person who violates this section shall be barred from all State–operated areas for one calendar year following the date of discovery of the violation by the department.

(5) Any person who violates regulations governing drawing procedures for hunting opportunities on State–operated areas, other than reservation drawings described in subsection 551(j), shall not be issued a permit for that day, or shall be ejected for that day if a permit has been issued, and shall be denied entry for the remainder of the season.

(i) Daily Entry Permit Revocations, Refusals, and Ejections: On Type A and Type B areas the department is authorized to refuse to issue a one–day entry permit to anyone and to revoke this permit and eject the holder forthwith from the area for disorderly conduct, intoxication, or for any other reason when it appears that the general safety or welfare of the area, or persons thereon, is endangered. Decision of the department employee assigned management or enforcement responsibilities for the area in such respect shall be final. Any person whose entry permit has been revoked shall not be entitled to hunt or access any State operated hunt area or on any wildlife area for one calendar year from the date of discovery. Persons affected by this section may appeal such actions to the commission.

(j) Reservations:

(1) Advance reservations for waterfowl and pheasant hunting will be available for certain areas as specified under subsections 551(q) and 552(a).

(2) Reservations shall be issued by random drawing. The department shall make applications available to the public through license agents and department offices. Applicants must possess an annual or lifetime hunting license valid for the waterfowl hunting season for which they are applying. Two–day nonresident hunting licenses shall not be used to apply for reservation drawings. To be included in a reservation drawing, applications must be received by the department at the address specified on the application at least 17 days prior to the hunt date. Late, incomplete, or incorrect applications will not be included in the drawing. The fee to apply for a reservation is specified in Section 702. Hunters may apply for reservations using one or more of the following applications:

(A) One–Choice Reservation Application

(B) Five–Choice Reservation Application

(C) Season–Long Reservation Application — hunters may apply for every available hunt date for one or more areas by completing a season–long reservation application form and returning it with the appropriate payment to the department at the address specified on the application.

(D) Reservation application fees are not refundable.

(3) Multiple Applications:

(A) The applicant is limited to one application for each area for each authorized shoot date as specified under subsections 551(q) and 552(a), unless otherwise specified in subsection 551(q).

(B) The department may eliminate from any drawing all applications not in compliance with these regulations. Persons who submit more than one application for the same shoot date for the same area may be barred from hunting on State–operated areas for a period of one year following the date of discovery of the violation by the department. Any reservation issued to any person as a result of such improper submission, or to any person already barred from the State–operated areas, shall be void and of no force and effect.

(4) Priorities: Unless otherwise stated on the reservation or on information mailed with the reservation, upon paying the appropriate fee for a one–day entry permit or presenting a two–day pass or season pass, successful applicants shall be granted a one–day entry permit during the waterfowl or pheasant season, a one–day permit shall be granted, however, only if the applicant's reservation was issued by the department in the applicant's name and is for the area requested. Applicants must enter, at the appropriate checking station on the assigned or stated hunt date. Unless otherwise provided for, the reservation will expire one and one–half hours before waterfowl shoot time. For some areas, reservations will be numbered by the department in the order in which they are drawn. These reservations will be accepted at checking stations in that order, only if the reservation holder is present at the time the number is called.

(5) Except as provided for in subsections 551(j)(6) or 551(q), or Section 552, a reservation shall assure entry for up to six persons. No more than two may be adult (see subsection 551(h)(2)) hunters who have valid resident or nonresident licenses and no more than two may be persons 16 or 17 years of age in possession of a valid resident or nonresident hunting license (see subsection 551(h)(2)). Each adult may be accompanied by up to two hunters holding junior licenses or two non–shooters irrespective of age, or one of each. Non–shooters are defined as persons who wish to accompany a permittee in the field or remain at a designated parking space. Non–shooters shall not discharge or possess ammunition or a firearm on the area.

(6) If hunting a special blind area, a reservation will assure entry of no more persons (adult hunters, junior hunters, and/or nonshooters) than will fill the blind.

(7) Unless otherwise provided for in this section, the advance reservation system only serves to assure entry onto the area and does not necessarily constitute a method for prioritization over other users.

(k) Deferred Openings: When the department considers such deferment desirable to protect agricultural crops from waterfowl, it is hereby authorized and directed to defer opening to public access any area until in the opinion of the department the danger of crop damage in the immediate region is abated.

(*l*) Species Allowed:

(1) On Type A and Type B areas, only ducks, geese, coots, moorhens, and snipe which are then in season may be legally taken by permittees on designated shooting days during the open waterfowl hunting season; unless otherwise provided under this section or Section 552 of these regulations.

(2) Pheasant Hunting: Pheasant hunting shall be permitted as provided for in subsection 551(q) and Section 552. The regional manager may authorize junior pheasant hunts during or outside the general pheasant season.

(3) Hunting on Type C areas General: Except as provided for in subsection 551(q), hunting is permitted for each authorized species allowed to be hunted on each area, during the open season of that species.

(4) Turkey Hunting: Turkey hunting shall be permitted as provided for in subsection 551(q) and Section 552. The regional manager may authorize junior turkey hunts on state wildlife areas during the regular season.

(m) Assigned Hunting Zones: In order to assure proper hunter dispersal and to promote safety, the department may subdivide the open hunting

portion of any Type A or Type B area into zones and assign hunters to these zones or designate where hunters shall park.

(n) Posting Closed Areas: Any portion of any State wildlife area and any adjoining lands under control of the department, may be closed to hunting or public access by the department by posting such lands with signs at least five (5) to the mile.

(o) Penalties: Failure to comply with regulations contained in sections 550, 551, or 552 may result in any or all of the following:

(1) denial of permission to enter a State–operated area; and/or

(2) revocation of any permit already issued; and/or

(3) ejection from the area for one calendar year from the date of discovery; and/or

(4) citation under the provisions of the Fish and Game Code or Title 14 of the California Code of Regulations. A proceeding under (1), (2), (3) or (4) will not preclude the invocation of any other remedy.

(p) Enforcement of Regulations: These regulations shall be incorporated by reference into and become a part of all permits.

(q) ADDITIONAL REGULATIONS FOR SPECIFIC AREAS

In addition to the regulations in Section 550 and subsections 551(a) through 551(p), the following areas have special regulations which are listed below (see Section 552 for additional regulations on national wildlife refuges on which the department manages hunting programs):

Antelope Valley Wildlife Area, Type C (Sierra County);

Ash Creek Wildlife Area, Type B (Modoc and Lassen counties);

Baldwin Lake, Type C (San Bernardino County);

Bass Hill Wildlife Area, Type C (Lassen County);

Battle Creek Wildlife Area, (Shasta and Tehama counties);

Big Lagoon Wildlife Area, Type C (Humbolt County);

Big Sandy Wildlife Area, Type C (Monterey and San Luis Obispo counties);

Butte Valley Wildlife Area, Type B (Siskiyou County);

Cache Creek Wildlife Area, including the North Fork Cache Creek and Harley Gulch Management Units, Type C (Lake County);

Clifton Court Forebay, Type C (Contra Costa County);

Collins Eddy Wildlife Area, Type C (Sutter and Yolo counties);

Colusa Bypass Wildlife Area., Type C (Colusa County);

Cottonwood Creek Wildlife Area, Type C (Merced and Santa Clara counties);

Daugherty Hill Wildlife Area, Type C (Yuba County);

Decker Island Wildlife Area, Type C (Solano County);

Eel River Wildlife Area, Type C (Humboldt County);

Elk River Wildlife Area, Type C (Humboldt County);

Fay Slough Wildlife Area, Type C (Humboldt County);

Feather River Wildlife Area, including the Abbot Lake, Lake of the Woods, Marysville, Morse Road, Nelson Slough, O'Connor Lakes, Shanghai Bend, and Star Bend management units. Type C (Yuba and Sutter counties);

Fremont Weir Wildlife Area, Type C (Sutter and Yolo counties);

Gray Lodge Wildlife Area, including the west side and east side units, Type A (Butte County);

Grizzly Island Wildlife Area, including the Type A Crescent, Joice Island, and Grizzly Island management units, the Type B Gold Hills, Goodyear Slough, West Family, and Island Slough management units, the Type C Grey Goose Management Unit, and the Garibaldi, and Montezuma Slough management units (Solano County);

Hallelujah Junction Wildlife Area, Type C (Lassen and Sierra counties);

Heenan Lake Wildlife Area, Type C (Alpine County);

Hollenbeck Canyon Wildlife Area, Type C (San Diego County);

Honey Lake Wildlife Area, including the Dakin and Fleming units, Type B (Lassen County);

Hope Valley Wildlife Area, Type C (Alpine County);

Horseshoe Ranch Wildlife Area, Type C (Siskiyou County);

Imperial Wildlife Area, including the Type A Wister Unit and the Type C Finney Ramer Unit (Imperial County);

Indian Valley Wildlife Area, Type C (Lake County);

Kinsman Flat Wildlife Area, Type C (Madera County);

Knoxville Wildlife Area, Type C (Napa and Yolo counties)

Laguna Wildlife Area, Type C (Sonoma County);

Lake Berryessa Wildlife Area, Type C (Napa County);

Lake Earl Wildlife Area, Type C (Del Norte County);

Lake Earl Project Area, Type C (Del Norte County);

Lake Sonoma Wildlife Area, Type C (Sonoma County);

Little Panoche Reservoir Wildlife Area, Type C (Fresno County);

Los Banos Wildlife Area, Type A (Merced County);

Lower Sherman Island Wildlife Area, Type C (Sacramento County);

Mad River Slough Wildlife Area, Type C (Humboldt County);

Mendota Wildlife Area, Type A (Fresno County);

Miner Slough Wildlife Area, Type C (Solano County);

Morro Bay Wildlife Area, Type C (San Luis Obispo County);

Moss Landing Wildlife Area, Type C (Monterey County);

Mouth of Cottonwood Creek Wildlife Area, Type C (Shasta County);

Napa–Sonoma Marshes Wildlife Area, including the American Canyon, Coon Island, Dutchman Slough, Huichica Creek, Napa River, Ringstrom Bay, Sonoma Creek, Tolay Creek, and Wingo management units, Type C, and Green Island, Southern Crossing, and White Slough Management Units (Napa, Solano, and Sonoma counties);

North Grasslands Wildlife Area, including China Island, Gadwall, and Salt Slough units, Type A (Merced and Stanislaus counties);

O'Neill Forebay Wildlife Area, Type C (Merced County);

Oroville Wildlife Area, Type C (Butte County);

Petaluma Marshes Wildlife Area, including the Black John Slough, Burdell, and Petaluma River management units, Type C, and Bahia, Day Island, Green Point, Novato Creek, Point Sonoma, and Rush Creek management units (Marin and Sonoma counties);

Point Edith Wildlife Area, Type C (Contra Costa County);

Putah Creek Wildlife Area, Type C (Solano County);

Rector Reservoir Wildlife Area, Type C (Napa County);

Red Lake Wildlife Area (Alpine County) (Type C);

Rhode Island Wildlife Area, Type C (Contra Costa County);

Sacramento Bypass Wildlife Area, Type C (Yolo County);

Sacramento River National Wildlife Refuge, Type C (Tehama, Butte, and Glenn Counties);

Sacramento River Wildlife Area, Type C (Glenn, Butte, and Colusa counties);

San Felipe Valley Wildlife Area, Type C (San Diego County);

San Jacinto Wildlife Area, including the Davis Road Unit, and the Potrero Unit, Type A (Riverside County);

San Luis Obispo Wildlife Area, daily range fees are required (San Luis Obispo County);

San Luis Reservoir Wildlife Area, Type C (Merced and Santa Clara counties);

San Pablo Bay Wildlife Area, Type C (Marin and Sonoma counties);

Santa Rosa Wildlife Area, Type C (Riverside County);

Shasta Valley Wildlife Area, Type B (Siskiyou County);

South Spit Wildlife Area, Type C, Humboldt County;

Spenceville Wildlife Area, Type C (Nevada and Yuba counties);

Surprise Valley Wildlife Area, Type C (Modoc County);

Sutter Bypass Wildlife Area, Type C (Colusa and Sutter counties);

Tehama Wildlife Area, Type C (Tehama County);

Truckee River Wildlife Area, including the Boca, Polaris, Union Ice, and West River management units, Type C (Placer and Nevada counties);

Upper Butte Basin Wildlife Area, including the Howard Slough, Little Dry Creek, and Llano Seco units, Type A (Butte and Glenn counties);

Volta Wildlife Area, Type A (Merced County);

West Hilmar Wildlife Area, Type C (Merced County);

White Slough Wildlife Area, Type C (San Joaquin County);

Willow Creek Wildlife Area, Type B (Lassen County);

Yolo Bypass Wildlife Area, Type A (Yolo County).

REGION 1

(1) Ash Creek Wildlife Area

(A) Hunt Days: Waterfowl, coots, moorhens, pheasants, and snipe: Saturdays, Sundays, and Wednesdays during open seasons. Doves: Daily during the September dove season and on waterfowl hunt days during the late dove season.

(B) Authorized Species: Waterfowl, coots, moorhens, doves, pheasants, and snipe. Pronghorn antelope may be taken during apprentice hunts only.

(C) Camping and Trailers: Allowed.

(D) Special Restrictions: Designated portions may be closed to public entry from March 1 through August 15. No person shall enter or leave the wildlife area except at designated entry points. All dogs must be on a leash from March 1 to August 15.

(2) Bass Hill Wildlife Area

(A) Hunt Days: Daily during seasons for authorized species, except for Special Restrictions listed below.

(B) Authorized Species: All legal species.

(C) Camping and Trailers: Not allowed.

(D) Special Restrictions: The Egan Management Unit of Bass Hill Wildlife Area shall be open to the use of shotguns, archery equipment, or muzzle-loading weapons, only, for all hunting seasons.

(3) Battle Creek Wildlife Area

(A) Special Restrictions: Public entry is allowed from 6:00 a.m. to 10:00 p.m. Dog field trials, dog training, horseback riding and bicycles are prohibited. Dogs must be on leash and under direct owner control.

(B) Hunting and possession of firearms and archery equipment is prohibited.

(4) Big Lagoon Wildlife Area

(A) Special Restrictions: Motorized boats are restricted to 5 mph or less.

(5) Butte Valley Wildlife Area

(A) Hunt Days: Waterfowl, coots, moorhens, and snipe: Saturdays, Sundays, and Wednesdays during the waterfowl season. Pheasants: Sundays only during the pheasant season. Doves: Daily during the September dove season and on waterfowl hunt days during the late dove season.

(B) Authorized Species: Waterfowl, coots, moorhens, snipe, pheasants, and doves. Pronghorn antelope may be taken during apprentice hunts only.

(C) Camping and Trailers: Allowed.

(D) Special Restrictions: Boats with motors are prohibited. Boating and other water-related sports are prohibited from March 1 to September 1. No person shall enter or leave the area except at designated entry points. The area is open to public use only from two hours before sunrise to one hour after sunset. Dogs must be on a leash from March 1 to August 15.

(6) Eel River Wildlife Area

(A) Method of Take Restrictions: No rifles or pistols may be used or possessed.

(B) Hunt Days: Daily, during open seasons for authorized species.

(C) Authorized Species: Waterfowl, coot, snipe, and pheasant.

(D) Camping and Trailers: Not allowed.

(E) Special Restrictions: Dogs must be on a leash from March 1 through August 15. Designated portions of the Eel River Wildlife Area may be closed to vehicle entry from March 1 through September 15. Use of all terrain vehicles is prohibited all year with the exception of commercial anglers who may utilize the wave-slope for fishing access. Cannibal Island Unit of Eel River Wildlife Area closed to all public use from the Monday following youth hunting days (Subsection 502(e)(1)(B)(5)) until April 1.

(7) Elk River Wildlife Area

(A) Method of Take Restrictions: No rifles or pistols may be used or possessed.

(B) Hunt Days: Daily during open seasons for authorized species.

(C) Authorized Species: Waterfowl, coot, and snipe.

(D) Camping and Trailers: Not allowed.

(E) Special Restrictions: Dogs must be on a leash from March 1 through August 15. Closed to all public use from the Monday following youth hunting days (Subsection 502(e)(1)(B)(5)) until April 1.

(8) Fay Slough Wildlife Area

(A) Method of Take Restrictions: No rifles or pistols may be used or possessed.

(B) Hunt Days: Saturdays, Sundays, and Wednesdays during open seasons for authorized species.

(C) Authorized Species: Waterfowl, coot, and snipe.

(D) Camping and Trailers: Not allowed.

(E) Special Restrictions: Dogs must be on a leash from March 1 through August 15. Closed to all public use from the Monday following youth hunting days (Subsection 502(e)(1)(B)(5)) until April 1.

(9) Honey Lake Wildlife Area. (Fleming and Dakin Units)

(A) Hunt Days: Waterfowl, coots, moorhens, and snipe: Saturdays, Sundays, and Wednesdays during open seasons. Pheasants: Waterfowl hunt days during the pheasant season. Quail and rabbits: Waterfowl hunt days that occur during the pheasant season. Doves: Daily during the September dove season and on waterfowl hunt days during the late dove season.

(B) Authorized Species: Waterfowl, snipe, coots, moorhens, pheasants, quail, doves, and rabbits.

(C) Camping and Trailers: Allowed.

(D) Special Restrictions: Designated portions of the wildlife area may be closed to all public entry from March 1 through August 15. No person shall enter or leave the area except at designated entry points. Dogs must be on a leash from March 1 to August 15.

(10) Horseshoe Ranch Wildlife Area

(A) Method of Take Restrictions: All authorized methods of take except during the spring turkey season when only shotguns and archery equipment are permitted.

(B) Hunt Days: Daily during open seasons for authorized species.

(C) Authorized Species: All legal species.

(D) Camping: Camping allowed.

(11) Lake Earl Wildlife Area

(A) Method of Take Restrictions: No rifles or pistols may be used or possessed.

(B) Hunt Days: Daily during open seasons for authorized species.

(C) Authorized Species: Waterfowl, coots, snipe, and moorhens.

(D) Camping and Trailers: Not allowed.

(E) Special Restrictions: Possession and use of authorized firearms and archery equipment is permitted only within the first 100 feet of land along the shoreline and on the water surface of Lake Earl and Lake Talawa during the regular open waterfowl season. Boats are allowed, but motors are prohibited during the waterfowl season. Dogs are allowed only for hunting during open season for authorized species. Bush Creek public access is closed to all public use from the Monday following youth hunting days (Subsection 502(e)(1)(B)(5)) until April 1.

(12) Lake Earl Project Area (Lands administered by the Department of Parks and Recreation)

(A) Method of Take Restrictions: No rifles or pistols may be used or possessed.

(B) Hunt Days: Saturdays, Sundays, and Wednesdays during open seasons for authorized species.

(C) Authorized Species: Waterfowl, coots, and moorhens.

(D) Camping and Trailers: Not allowed.

(E) Special Restrictions: Entry for hunting purposes is allowed only from the public access sites on Kellogg Road and Pala Road.

(13) Mad River Slough Wildlife Area

(A) Method of Take Restrictions: No rifles or pistols may be used or possessed.

(B) Hunt Days: Daily during open seasons for authorized species.

(C) Authorized Species: Waterfowl, coot, and snipe.

(D) Camping and Trailers: Not allowed.

(E) Special Restrictions: Dogs are allowed only for hunting during open season for authorized species. Closed to all public use from the Monday following youth hunting days (Subsection 502(e)(1)(B)(5)) until April 1.

(14) Mouth of Cottonwood Creek Wildlife Area

(A) Method of Take Restrictions: No rifles or pistols may be used or possessed.

(B) Hunt Days: Daily during open seasons for authorized species.

(C) Authorized Species: All legal species.

(D) Camping and Trailers: Not allowed.

(E) Special Restrictions: Public entry is allowed from one hour before sunrise to one hour after sunset. Dog field trials, dog training, horseback riding, and bicycles are prohibited. Dogs must be on a leash from March 1 through August 15.

(15) Shasta Valley Wildlife Area

(A) Hunt Days: Waterfowl, snipe, coots, and moorhens: Saturdays, Sundays, and Wednesdays during open seasons. Pheasants: Sundays only during the pheasant season. Quail: Waterfowl hunt days only during waterfowl season. Doves: Daily during the September dove season and on waterfowl hunt days during the late dove season. Snipe: waterfowl hunt days only during waterfowl season.

(B) Authorized Species: Waterfowl, snipe, coots, moorhens, pheasants, quail, and doves.

(C) Camping and Trailers: Allowed.

(D) Special Restrictions: Only individuals possessing a "Type A" or Type "B" season pass and their guests (nonhunting guests and junior hunters) may enter Shasta Valley Wildlife Area on Wednesday, Saturdays, and Sundays during the waterfowl season. No person shall enter or leave the wildlife area except at designated entry points. Only electric boat motors are allowed. Dogs must be on a leash from February 1 to August 15. Pheasant hunters must have special permits obtained at the checking station.

(16) South Spit Wildlife Area

(A) Method of Take Restrictions: No rifles, pistols, or archery equipment may be used or possessed.

(B) Hunt Days: Daily, during open seasons for authorized species.

(C) Authorized species: Waterfowl, coot, and snipe.

(D) Camping: Not allowed.

(E) Day Use Only. Public entry from one hour before sunrise until one hour after sunset. Open hours will be extended during the waterfowl hunting season for black brant only.

(F) Special Restrictions: Dogs must be on a leash from March 1 to September 15 on the west side of South Jetty Road. Vehicle use on designated access roads, corridors, and waveslope only. Use of all- terrain vehicles is permitted on west side of South Jetty Road on designated access corridors and waveslope only. Firewood cutting is allowed by permit from September 16 to February 28. Equestrian use is permitted on the west side of South Jetty Road.

(17) Surprise Valley Wildlife Area

(A) Hunt Days: Daily during open seasons for authorized species.

(B) Authorized Species: All legal species.

(C) Camping and Trailers: Allowed in south parking area, except during the period April 1 to August 15.

(18) Tehama Wildlife Area

(A) Hunt Days: Daily during open seasons for authorized species, except for Special Restrictions listed below.

(B) Authorized Species: All legal species.

(C) Camping and Trailers: Allowed.

(D) Special Restrictions:

1. No person shall enter that portion of Tehama Wildlife Area lying south of Antelope Creek during the period beginning on the first Monday in December through the last Friday in March except with the prior written permission of the regional manager.

2. During the Zone G-1 deer season only persons with department issued entry permits may enter the Tehama Wildlife Area.

3. Pig hunting is restricted to persons who have been issued a Tehama Wildlife Area Pig Hunt Permit.

4. Dogs may not be used to hunt wild pigs.

(19) Willow Creek Wildlife Area

(A) Hunt Days: Saturdays, Sundays, and Wednesdays during open seasons for authorized species.

(B) Authorized Species: Waterfowl, snipe, coots, and moorhens.

(C) Camping and Trailers: Not allowed.

REGION 2

(20) Antelope Valley Wildlife Area

(A) Hunt Days: Daily from July 1 through January 31 during open seasons for authorized species.

(B) Authorized Species: All legal species.

(C) Camping and Trailers: Trailers are not allowed. Camping is allowed only from May 1 through October 31.

(D) Special Restrictions: Hunting is allowed only from July 1 through January 31.

(21) Cache Creek Wildlife Area

(A) Hunt Days: Daily during open seasons for authorized species.

(B) Authorized Species: All legal species.

(C) Camping and Trailers: Trailers are not allowed. Primitive camping is allowed on all units of the Cache Creek Wildlife Area, except that no camping is allowed within one-quarter mile of designated parking areas.

(D) Special Restrictions: Use of dogs is restricted (see Section 265, Title 14, CCR). Dogs are not allowed for pig hunting at any time of year. Horses and bicycles are allowed within the Harley Gulch Unit of the wildlife area only from the third Saturday in April through the third Saturday in November.

(22) Clifton Court Forebay

(A) Method of Take Restrictions: No rifles or pistols may be used or possessed.

(B) Hunt Days: Saturdays, Sundays, and Wednesdays during open seasons for authorized species.

(C) Entry Permit: Self-registration is required.

(D) Authorized Species: Waterfowl, coots, and moorhens.

(E) Camping and Trailers: Not allowed.

(23) Collins Eddy Wildlife Area

(A) Method of Take Restrictions: No rifles, pistols, or archery equipment may be used or possessed.

(B) Hunt Days: Daily during open seasons for authorized species.

(C) Authorized Species: Waterfowl, coots , moorhens, and all upland game.

(D) Camping and Trailers: Not allowed.

(24) Colusa Bypass Wildlife Area

(A) Method of Take Restrictions: No rifles or pistols may be used or possessed.

(B) Hunt Days: Daily during open seasons for authorized species.

(C) Authorized Species: All legal species.

(D) Camping and Trailers: Not allowed.

(25) Daugherty Hill Wildlife Area

(A) Method of Take Restrictions: During the spring turkey season, only shotguns and archery equipment, and air rifles firing pellets and powered by compressed air or gas (0.20 caliber minimum for taking wild turkey), may be used in designated areas.

(B) Hunt Days: Daily from July 1 through January 31 during open seasons for authorized species and during the spring turkey season.

(C) Authorized Species: All legal species.

(D) Camping and Trailers: Camping not allowed. Overnight parking with trailers allowed in designated parking lots.

(E) Special Restrictions: Entry permit, issued by special drawing, is required for the first nine days of the spring turkey season. Hunting is allowed only from July 1 through January 31 and during the spring turkey season, when only turkeys may be hunted. Dogs are allowed with a licensed hunter only while hunting. Horses and bicycles are allowed only

from May 10 to September 15 on the Daugherty Hill Unit of the Daugherty Hill wildlife area only.

(26) Feather River Wildlife Area

(A) Method of Take Restrictions: No rifles or pistols may be used or possessed.

(B) Hunt Days: Daily from July 1 though January 31 during open seasons for authorized species and during the spring turkey season.

(C) Authorized Species: All legal species.

(D) Camping and Trailers: Not allowed.

(E) Special Restrictions: No person shall enter that portion of the O'Connor Lakes Management Unit marked as closed to entry from March 1 through June 30 without special authorization of the department. Hunting is allowed only from July 1 to January 31 and during the spring turkey season, when only turkeys may be hunted. The Shanghai Bend Unit is closed to hunting.

(27) Fremont Weir Wildlife Area

(A) Method of Take Restrictions: No rifles or pistols may be used or possessed.

(B) Hunt Days: Hunting is allowed daily from July 1 through January 31 for authorized species, and during the spring turkey season, when only turkeys may be taken.

(C) Authorized Species: All legal species.

(D) Camping and Trailers: Not allowed.

(28) Gray Lodge Wildlife Area

(A) Ammunition Restrictions: A hunter shall not possess more than 25 shotgun shells while in the field during the waterfowl season.

(B) Hunt Days: Waterfowl, coots, moorhens, and snipe: Saturdays, Sundays, and Wednesdays during open seasons. Pheasant: Every day during the first nine days of the pheasant season. Thereafter, during the regular pheasant season, pheasant hunting will be allowed only on Saturdays, Sundays, and Wednesdays. Doves: Daily during the September dove season and only on waterfowl or pheasant hunt days during the late dove season. Quail and rabbits: Only on pheasant hunt days. Deer: Only during the Gray Lodge Deer Hunt under special permit issued by drawing.

(C) Day Use Pass Requirement for Public Access: In addition to a daily entry permit required for hunting during the waterfowl and pheasant seasons, a day use pass or valid annual pass is required of all users except for users that possess a valid California sport fishing license, hunting license, or trapping license, or users that are under 16 years of age, or users that are part of an organized youth or school group, having free permits issued by the appropriate regional office.

(D) Authorized Species: Waterfowl, snipe, coots, moorhens, pheasants, doves, quail, rabbits, and deer (special hunt only).

(E) Camping and Trailers: Allowed only during the waterfowl season. Trailers may be placed no sooner than one week before the beginning of waterfowl season on the area and must be removed no later than one week after the close of waterfowl season on the area. All campers, defined as shell or shelter made to be mounted on a pickup truck, must remain attached to a registered vehicle when on the area. All trailers must be registered at the checking station within one week of placement.

(F) Special Restrictions: Closed to all non–hunting uses from two weeks before waterfowl season on the area to one week after waterfowl season on the area, except for the designated wildlife viewing area(s) which is (are) open on most days during the entire year. Dove hunting is allowed only in designated portions of the wildlife area. Public entry is allowed only from sunrise to sunset, except by written permission. Horses are restricted to roads only on the east side of the area and are allowed only during July and August. Hunting with falcons is restricted to the east side of this area.

(29) Hallelujah Junction Wildlife Area

(A) Hunt Days: Daily from July 1 through January 31 during open seasons for authorized species.

(B) Authorized Species: All legal species.

(C) Camping and Trailers: Not allowed.

(D) Special Restrictions: Hunting is allowed only from July 1 through January 31 during open seasons for authorized species. Horses and bicycles are prohibited. Dogs are allowed for hunting only. The area is closed to public entry from February 1 through June 30. No person shall enter or leave the wildlife area between May 1 and January 31 except at the designated entry point adjacent to Highway 395.

(30) Heenan Lake Wildlife Area

(A) Hunt Days: Daily during open seasons for authorized species.

(B) Authorized Species: All legal species.

(C) Camping and Trailers: Not allowed.

(D) Special Restrictions: Boats are not allowed unless participating in the controlled entry fishing opportunity.

(31) Hope Valley Wildlife Area

(A) Hunt Days: Daily from the opening of archery deer season through January 31 during open seasons for authorized species.

(B) Authorized Species: All legal species.

(C) Camping and Trailers: Backpack camping east of Highway 89 only. No open fires allowed.

(D) Special Restrictions: Hunting is allowed only from the opening of archery deer season through January 31.

(32) Indian Valley Wildlife Area

(A) Hunt Days: Daily during open seasons for authorized species.

(B) Authorized Species: All legal species.

(C) Camping and Trailers: Camping allowed, but trailers are prohibited.

(D) Special Restrictions: Use of dogs restricted (see Section 265).

(33) Oroville Wildlife Area

(A) Method of Take Restrictions: No rifles or pistols may be used or possessed, except at the designated target practice area.

(B) Hunt Days: Daily from September 1 through January 31 during open seasons for authorized species and during the spring turkey season.

(C) Authorized Species: All legal species.

(D) Camping and Trailers: Allowed in designated campsites. Erecting a shelter or parking a vehicle equipped with sleeping accommodations in a designated campsite is considered camping and shall be subject to camping restrictions provided in Subsection 550(b)(12).

(E) Special Restrictions: All legal firearms and archery equipment may be possessed and discharged at the target practice area, which is open all year. Only paper and clay targets may be used and must be removed by the user when leaving the area. Use of the target practice area is permitted only from sunrise to sunset. Entry permits issued by special drawing are required for turkey hunting, which is allowed only during the spring turkey season. Hunting is allowed only from September 1 through January 31 and during the spring turkey season, when only turkeys may be hunted. Fires are allowed only in portable gas stoves at sites designated for camping by the department. Dog training is allowed only in designated areas and only from July 1 through March 15. Horses are restricted to roads open to vehicles and within 25 feet of exterior boundary fences. Bicycles and horse drawn carriages are restricted to roads open to vehicles. No off–highway vehicles are allowed at any time. On the south portion of the Thermalito Afterbay Unit (those portions of the Afterbay water surface south of Highway 162), motorized boat speeds may exceed 5mph; all other portions of the wildlife area are subject to the 5mph speed limit for motorized boats. Public entry is allowed only from one hour before sunrise to one hour after sunset, except during the waterfowl season when entry is allowed from one and one half hours before sunrise to one hour after sunset. The area is closed to all public uses from one hour after sunset until the legal entry time the following morning, except for the designated camping area(s), which are open 24 hours.

(34) Putah Creek Wildlife Area

(A) Hunt Days: Daily from the opening of deer season through January 31 during open seasons for authorized species.

(B) Authorized Species: All legal species.

(C) Camping and Trailers: Not allowed.

(D) Special Restrictions: Hunting is allowed only from the opening of the deer season through January 31.

(35) Red Lake Wildlife Area

(A) Hunt Days: During open seasons for authorized species from September 1 through January 31 and during archery deer season.

(B) Authorized Species: All legal species.

(C) Camping and Trailers: Not allowed.

(36) Sacramento Bypass Wildlife Area

(A) Method of Take Restrictions: No rifles, pistols, or archery equipment may be used or possessed. Shot shells only. No buckshot or slugs.

(B) Hunt Days: Daily from September 1 through January 31 during open seasons for authorized species.

(C) Authorized Species: All legal species, except big game species.

(D) Camping and Trailers: Not allowed.

(E) Special Restrictions: Hunting is allowed only from September 1 through January 31.

(37) Sacramento River National Wildlife Refuge, including the La Barranca Unit, Blackberry Island Unit, Mooney Unit, Ohm Unit, Flynn Unit, Heron Island Unit, and Rio Vista Unit (Tehama Co.); Pine Creek Unit, Dead Man's Reach Unit, North Llano Seco Island 1 & 2 Units, and Llano Seco Riparian Sanctuary Unit (Butte Co.); and McIntosh Landing North and South Units, Capay Unit, Phelan Island Unit, Jacinto Unit, Ord Unit, Ord Bend Unit, South Ord Unit, Hartley Island Unit, Sul Norte Unit, Codora Unit, Packer Unit, Head Lama Unit, North Drumheller Slough Unit, and Drumheller Slough Unit (Glenn Co.).

(A) Method of Take Restrictions: Shotgun and archery only. Ammunition is restricted to only Federally approved nontoxic shot while in the field (see § 32.2(k) of the CFR) except for shotgun slugs when hunting deer. No rifles, crossbows, air guns, or pistols may be used or possessed (see species specific restrictions below). Falconry is prohibited. Target shooting is prohibited.

(B) Hunt Days: Daily during open seasons for authorized species (see authorized species below).

(C) Units open to hunting of authorized species include: La Barranca, Mooney (no waterfowl hunting), Heron Island, Rio Vista, Pine Creek, Capay, Phelan Island, Jacinto, South Ord, Llano Seco Islands 1 & 2, and Sul Norte. Refer to Refuge maps and signs for areas open to hunting. All other areas and species are closed to hunting. Commercial guiding is prohibited.

(D) Migratory Game Bird Hunting. Hunting is allowed for goose, duck, coot, moorhen, dove, and snipe on designated areas of the refuge in accordance with State regulations subject to the following conditions:

1. Shotgun hunting only.

2. On Sul Norte Unit, firearms must be unloaded (see § 27.42(b) of the CFR) before transporting them between parking areas and hunting areas. "Unloaded" means that no ammunition is in the chamber or magazine of the firearm.

3. Waterfowl hunting is not allowed on the Mooney Unit.

4. Ammunition is restricted to only Federally approved nontoxic shot while in the field (see § 32.2(k) of the CFR).

5. Hunting is prohibited within 50 feet (15 m) of any landward boundary adjacent to private property.

6. Hunting is prohibited within 150 yards (135 m) of any occupied dwelling, house, residence, or other building or any barn or other outbuilding used in connection therewith.

7. All units open to public hunting are boat accessible only, except on the Sul Norte Unit, access to the hunt area is by foot traffic or boat only. Bicycles or other conveyances are prohibited. Mobility impaired hunters should consult with the refuge manager for allowed conveyances.

8. Fires on the refuge are prohibited, except for portable gas stoves on gravel bars (see § 27.95(a) of the CFR).

9. Camping is allowed on gravel bars up to 7 days during any 30–day period. Camping on all other refuge lands is prohibited.

10. The refuge is open for day–use access from 1 1/2 hour before legal shoot time until 1 1/2 hour after legal sunset. Access during other hours is allowed on gravel bars only (see condition A8).

11. Dogs must be kept on a leash, except for hunting dogs engaged in authorized hunting activities, and under the immediate control of a licensed hunter or dog handler (see § 26.21(b) of the CFR).

12. Permanent blinds are prohibited. All personal property, including decoys and boats must be removed by 1 1/2 hour after legal sunset (see §§ 27.93 and 27.94 of the CFR).

13. Cutting or removal of vegetation for blind construction or for making trails is prohibited (see § 27.51 of the CFR).

(E) Upland Game Hunting. Hunting is allowed for pheasant, turkey, and quail on designated areas of the refuge in accordance with State regulations subject to the following conditions:

1. Shotgun and archery hunting only.

2. Conditions D2 through D12 apply.

(F) Big Game Hunting. Hunting is allowed for black–tailed/mule deer on designated areas of the refuge in accordance with State regulations subject to the following conditions:

1. Conditions D2, D4 through D12, and E1 apply.

2. Construction or use of permanent blinds, platforms, ladders or screw–in foot pegs is prohibited.

3. All personal property, including stands, must be removed from the refuge by 1 1/2 hour after legal sunset (see §§ 27.93 and 27.94 of the CFR).

4. Shotgun, firing single shotgun slugs, and archery hunting only. No rifles, air guns, or pistols may be used or possessed on the Refuge.

(G) Sport Fishing. Sport fishing is allowed on designated areas of the refuge in accordance with State regulations subject to the following conditions:

1. Conditions D7, D8, D9, and D12 apply.

2. On Packer Lake, due to primitive access, only boats up to 14 feet (4.2 m) and canoes are allowed. Electric motors only.

(38) Sacramento River Wildlife Area

(A) Method of Take Restrictions: No rifles or pistols may be used or possessed.

(B) Hunt Days: Daily from July 1 through January 31, and during the spring turkey season.

(C) Authorized Species: All legal species.

(D) Camping and Trailers: Not allowed.

(E) Vehicles are prohibited.

(F) Horses and horseback riding are prohibited.

(G) Special Access Restrictions: Boat–in Only Access Units: Colusa South, Colusa North, Moulton South, Moulton North, Stegeman, Princeton South, Beehive Bend, Oxbow, Jacinto, Ord Bend, Shannon Slough, Pine Creek North, Wilson Landing, Dicus Slough, Merrills Landing. Walk–In or Boat–In Access Units: Princeton Southeast, Princeton East, Princeton North, Site 21, Pine Creek West, Pine Creek East.

(39) Spenceville Wildlife Area

(A) Hunt Days: Daily from September 1 through January 31 during open seasons for authorized species and during the spring turkey season.

(B) Authorized Species: All legal species.

(C) Camping and Trailers: Allowed in designated campsites during the period September 1 through the end of the spring turkey season.

(D) Special Restrictions: Pursuant to the provisions of subsection 550(b), an entry permit, issued by special drawing, is required for the first nine days of the spring turkey season. During the first nine days of the spring turkey season, the wildlife area is closed to all public entry, except those individuals possessing a special permit issued by the department. Hunting is allowed only from September 1 through January 31, and during the spring turkey season, when only turkeys may be hunted. Horseback riding and bicycle riding shall be restricted to designated trails and roads, and dog training shall be restricted to designated areas. During the period from March 16 through June 30, dog training shall be prohibited. Fires are allowed only in portable gas stoves at sites designated for camping by the department. All legal firearms and archery equipment may be possessed and discharged at the designated target practice area, which is open all year. Only paper and clay targets will be allowed at the designated target practice area and must be removed prior to leaving the desig-

nated area. Use of the target practice area is permitted only from sunrise to sunset. The posted area surrounding the Spenceville Mine will be closed to public entry all year. For additional information about the closure, call (916) 358–2900.

(40) Sutter Bypass Wildlife Area

(A) Method of Take Restrictions: No rifles or pistols may be used or possessed.

(B) Hunt Days: Daily during open seasons for authorized species.

(C) Authorized Species: All legal species.

(D) Camping and Trailers: Not allowed.

(E) Special Restrictions: Those portions of the east and west levees of the Sutter Bypass Wildlife Area, adjacent to the Sutter National Wildlife Refuge (SNWR), shall be closed to the pursuit and take of waterfowl (ducks, geese, coots, moorhens). The west levee of the Sutter Bypass Wildlife Area shall be closed from the northern boundary of the Sutter National Wildlife Refuge (SNWR) south to Oswald/Hughes road; the east levee shall be closed from the northern boundary of the SNWR south to the SNWR checking station parking lot. An additional closure to all hunting applies to the east levee from the SNWR parking lot south to the southern boundary of the SNWR, pursuant to Section 625, Title 14, CCR. All other portions of the Sutter Bypass Wildlife Area will continue to remain open for hunting, fishing and other recreation as outlined in Section 550, 551 and 625, Title 14, CCR.

(41) Truckee River Wildlife Area

(A) Method of Take Restrictions: No rifles or pistols may be used or possessed.

(B) Hunt Days: Daily during open seasons for authorized species.

(C) Authorized Species: All legal species.

(D) Camping and Trailers: Not allowed.

(42) Upper Butte Basin Wildlife Area

(A) Ammunition Restrictions: A hunter shall not possess more than 25 shotgun shells while in the field during the waterfowl season.

(B) Hunt Days: Waterfowl, coots, moorhens, and snipe: Saturdays, Sundays, and Wednesdays during open season during waterfowl season. Pheasant: Every day during the first five days of the season, and on waterfowl hunt days during the remainder of the pheasant season. Doves and rabbits: Daily during the September dove season, and on waterfowl or pheasant hunt days during the late dove season. Deer: Only during the Little Dry Creek Apprentice Deer Hunt under special permit issued by drawing.

(C) Authorized Species: Waterfowl, coots, moorhens, snipe, dove, pheasants, and rabbits.

(D) Camping: Overnight Camping, including trailers and motor homes, shall be permitted only in checking station parking lots.

(E) Special Restrictions: Closed to all non–hunting uses from two weeks before waterfowl season to one week after waterfowl season. Public entry is allowed only from sunrise to sunset, except by written permission. Horses are prohibited. Dogs are allowed for hunting only. Within the assigned blind areas at the Upper Butte Basin Wildlife Area units, hunters must hunt from assigned blinds, except to retrieve downed birds.

(F) Special Junior Waterfowl Hunts in Zone 7 of the Howard Slough Unit: Special junior waterfowl hunts will be conducted on Wednesdays and Saturdays of the waterfowl season in Zone 7 of the Howard Slough Unit commencing on the first Saturday after December 15. These hunts will commence at legal shooting time and close at 12:00 noon. A junior hunter must be accompanied by one adult hunter. Not more than one adult hunter and two junior hunters may occupy each blind. Hunters must remain in their blinds except to retrieve downed birds. All hunters must return to the Zone 7 parking lot by 1:00 p.m. Hunters will be selected from the Howard Slough reservation line. Hunters may be selected from the first–come first–served line after the Howard Slough reservation line is depleted.

(G) Bicycles: Not allowed during waterfowl season.

(H) Hunters may enter or exit only at designated locations. Stopping vehicles between designated parking areas to drop off passengers or hunting equipment is prohibited.

REGION 3

(43) Decker Island Wildlife Area

(A) Method of Take Restrictions: No rifles or pistols may be used or possessed.

(B) Hunt Days: Daily during open seasons for authorized species.

(C) Authorized Species: All legal species.

(D) Camping and Trailers: Not allowed.

(44) Grizzly Island Wildlife Area

(A) Ammunition Restrictions: Shotguns may only be used with steel or other nontoxic shot approved by the U.S. Fish and Wildlife Service, and not more than 25 shot shells may be possessed while in the field during the waterfowl season.

(B) Hunt Days: Crescent and Grizzly Island Units: Waterfowl, coots, and moorhens: Saturdays, Sundays, and Wednesdays during open seasons. Snipe: Snipe may be taken on waterfowl and pheasant hunt days. Pheasants: Each day during the first 12 days of the general pheasant season, and only on Saturdays, Sundays, and Wednesdays during the remainder of the pheasant season. Rabbits and doves: Rabbit hunting is allowed daily in July and on pheasant hunt days. Dove hunting is allowed daily during the season in September after the close of the Grizzly Island tule elk hunt and on pheasant hunt days during the late dove season. Joice Island Unit: Waterfowl, coots, moorhens, and snipe: Sundays only when the department determines that the fall flight forecast and/or waterfowl numbers in the Suisun Marsh warrant its opening. Goodyear Slough, Gold Hills, and West Family units: Waterfowl, coots, moorhens, and snipe: Saturdays, Sundays, and Wednesdays during open seasons. Island Slough and Grey Goose Units: Waterfowl, coots, moorhens, snipe, and pheasants: Saturdays, Sundays, and Wednesdays during open seasons. Garibaldi and Montezuma Slough units: No hunting allowed.

(C) Day Use Pass Requirement for Public Access: For the Grizzly Island Unit, in addition to a daily entry permit required for hunting during the waterfowl and pheasant seasons, a day use pass or annual pass is required of all users except for users that possess a valid California sport fishing license, hunting license, or trapping license, or users that are under 16 years of age, or users that are part of an organized youth or school group, having free permits issued by the appropriate regional office.

(D) Authorized Species: Grizzly Island Unit: Waterfowl, snipe, coots, moorhens, elk, rabbits, doves, and pheasants. Crescent, Grey Goose, and Island Slough units: Waterfowl, snipe, coots, moorhens, rabbits, and pheasants. Gold Hills, Goodyear Slough, Joice Island, and West Family units: Waterfowl, snipe, coots, and moorhens.

(E) Camping and Trailers: Not allowed except with prior written permission of the area manager during the tule elk hunting season.

(F) Special Restrictions: On all units of Grizzly Island Wildlife Area public entry is only allowed from sunrise to sunset except by written permission. Garibaldi Unit: Closed to public use except with prior written permission from the area manager. Grizzly Island Unit: Closed to uses other than hunting from the last Monday in July through the end of the Grizzly Island tule elk hunting season and from October 1 through the end of the waterfowl season. No dogs allowed from March 1 to June 30. Dogs allowed during July. No dogs allowed in August and during the tule elk hunt season in September. Dogs allowed in September after the tule elk hunting season to September 30. No dogs during October through the close of waterfowl season except as follows: hunters with daily permits issued at the hunter checking station may only use dogs during the waterfowl and pheasant hunting season; no sight–hounds or coursing dogs allowed. Dogs allowed in February after the close of waterfowl season. Gold Hills, Goodyear Slough, Gray Goose, Island Slough, Crescent and West Family units: Closed from October 1 through the end of the general waterfowl season to uses other than hunting. Gold Hills, Goodyear Slough, Grey Goose, Island Slough, and West Family Units: Closed to all public use except with prior written permission from the area manager from the end of the waterfowl season to September 30. Island Slough and Montezuma Slough Units: Fishing access along Montezuma Slough is open all year, no hour restrictions. Joice Island Unit: Closed to public use except when permits are issued for waterfowl hunting, or with prior writ-

ten permission of the area manager and during the special season open to fishing from mid–May to mid–August (contact area Headquarters for details). On all units, horses are allowed only under permit and only during organized dog field trials. On all units, fires are restricted to portable gas stoves throughout the year and are to be used only in parking areas and designated sites. The use of boats for access on all management units of the Grizzly Island Wildlife Area, except the Grey Goose Unit and Goodyear Slough Unit to the south of Lake Herman Road and east of the eastern most railroad tracks, is prohibited. Access to these two areas is by boat only. No foot access. This shall not prohibit launching of boats at the Montezuma Slough unit for access to Montezuma Slough. Boats less than eight feet in length may be used to transport decoys and/or blind materials. Use of all terrain vehicles (ATV's) is prohibited on all units of the Grizzly Island Wildlife Area.

(45) Knoxville Wildlife Area

(A) Special Restrictions: Camping allowed in designated areas. Primitive camping is allowed beyond one–quarter mile of designated parking areas.

(46) Laguna Wildlife Area

(A) Method of Take Restrictions: No rifles or pistols may be used or possessed.

(B) Camping and Trailers: Not allowed.

(C) Special Restrictions: Waterfowl hunting only. Horseback riding is not allowed. Dogs are not allowed from March 2 through June 30. Campfires are prohibited. Permanent blinds are prohibited.

(D) Areas Open to Hunting: Wetlands within the Laguna de Santa Rosa, lying between Guerneville Road on the north and Occidental Road on the south.

(47) Lake Berryessa Wildlife Area.

(A) Method of Take Restrictions: As authorized during special hunts.

(B) Hunt Days: As authorized for special hunts.

(C) Camping and Trailers: Not allowed.

(D) Special Restrictions: Campfires are prohibited. Dogs are not allowed between February 15 and July 15.

(48) Lake Sonoma Wildlife Area

(A) Method of Take Restrictions: As authorized during special hunts.

(B) Hunt Days: As authorized for special hunts.

(C) Entry Permit: Entry permit, issued by special drawing, is required. (See subsection 360(c) for deer hunt information.)

(D) Daily Hunter Capacity: As authorized for special hunts.

(E) Authorized Species: Deer, wild pigs, and turkeys.

(F) Camping and Trailers: Allowed in Army Corps of Engineers designated campgrounds only.

(G) Special Restrictions: No person, except by special authorization of the department, shall enter that portion of the Lake Sonoma Wildlife Area marked by signs as "Critical Habitat" during the period of February 1 through August 1. Dogs are not allowed.

(49) Lower Sherman Island Wildlife Area

(A) Method of Take Restrictions: No rifles or pistols may be used or possessed.

(B) Hunt Days: Daily during open seasons for authorized species.

(C) Authorized Species: Waterfowl, coots, moorhens, pheasants, doves, and rabbits.

(D) Camping: Not allowed.

(E) Special Restrictions: The Regional Manager may determine whether decoys may be left in the field.

(50) Miner Slough Wildlife Area

(A) Method of Take Restrictions: No rifles or pistols may be used or possessed.

(B) Hunt Days: Daily during open seasons for authorized species.

(C) Authorized Species: Waterfowl.

(D) Camping and Trailers: Not allowed.

(51) Napa–Sonoma Marshes Wildlife Area

(A) *Method of Take Restrictions: No rifles or pistols* may be used or possessed.

(B) Hunt Days: Saturdays, Sundays, and Wednesdays during open seasons for authorized species, except that doves and rabbits may be hunted daily during the September dove season.

(C) Authorized Species: Waterfowl, coots, moorhens, snipe, rabbits, quail, pheasants, and doves.

(D) Camping and Trailers: Not allowed.

(E) Special Restrictions: White Slough Unit: Closed to all hunting and firearms and archery equipment use. American Canyon Unit: Closed to all hunting and firearms and archery equipment use south of the PG&E power lines. Green Island Unit and Southern Crossing Unit: Closed to the public until restoration activities are near completion. Tolay Creek Unit: Only steel or other nontoxic shot approved by the U.S. Fish and Wildlife Service may be used or possessed south of Highway 37. All units: Dogs are not allowed from March 2 through June 30 and must be on a leash at all other times except as follows: holders of a valid hunting license may use dogs during hunting seasons. Campfires are prohibited. Permanent blinds are prohibited.

(52) Petaluma Marsh Wildlife Area

(A) Method of Take Restrictions: No rifles or pistols may be used or possessed.

(B) Hunt Days: Daily during open seasons for authorized species.

(C) Authorized Species: Waterfowl, coots, moorhens, and rabbits.

(D) Camping and Trailers: Not allowed.

(E) Special Restrictions: Bahia, Day Island, Green Point, Novato Creek, Point Sonoma, and Rush Creek Units: Closed to hunting and firearms and archery equipment use. Dogs must be on a leash at all times. All units: Dogs are not allowed from March 2 through June 30.

(53) Point Edith Wildlife Area

(A) Method of Take Restrictions: No rifles or pistols may be used or possessed.

(B) Hunt Days: Daily during open seasons for authorized species.

(C) Authorized Species: Waterfowl, coots, and moorhens.

(D) Camping and Trailers: Not allowed.

(54) Rector Reservoir Wildlife Area

(A) Authorized Species: All legal species.

(B) Hunt Days: Daily during open seasons for authorized species from the opening of archery deer season through the last day of spring turkey season.

(C) Camping and Trailers: Not allowed.

(D) Special Restrictions: Campfires are prohibited.

(55) Rhode Island Wildlife Area

(A) Method of Take Restrictions: No rifles or pistols may be used or possessed.

(B) Hunt Days: Daily during open season for authorized species.

(C) Authorized Species: Waterfowl, coots, and moorhens.

(D) Camping: Not allowed.

(56) San Pablo Bay Wildlife Area

(A) Method of Take Restrictions: No rifles or pistols may be used or possessed.

(B) Hunt Days: Daily during open seasons for authorized species.

(C) Authorized Species: Waterfowl, coots, and moorhens.

(D) Blinds: Shall be available on first–come, first–served basis.

(57) White Slough Wildlife Area

(A) Method of Take Restrictions: No rifles or pistols may be used or possessed.

(B) Hunt Days: Daily during open seasons for authorized species.

(C) Authorized Species: Waterfowl, pheasants, quail, and doves.

(D) Camping and Trailers: Not allowed.

(E) Special Restrictions: Possession and use of firearms or other propulsive device is prohibited in that portion of White Slough Wildlife Area designated as Pond 9. Horses are not allowed on the wildlife area. Hunting is allowed only from September 1 through January 31.

(58) Yolo Bypass Wildlife Area

(A) Ammunition Restrictions: A hunter shall not possess more than 25 shotgun shells while in the field during the waterfowl season.

(B) Hunt Days: Waterfowl, coots, moorhens and snipe: Saturdays, Sundays and Wednesday during waterfowl seasons. Pheasants: Each day during the first nine days of the general pheasant season, and only Saturdays, Sundays, and Wednesdays, during the remainder of the pheasant season. Doves: Daily during the September dove season and on waterfowl hunt days during the late dove season.

(C) Authorized Species: Waterfowl, coots, moorhens, snipe, mourning dove, and pheasant.

(D) Camping and Trailers: Overnight parking of trailers and motor homes is not allowed.

(E) Special Restrictions: Closed to all non–hunting uses from two weeks before waterfowl season to one week after waterfowl season, except areas designated for wildlife viewing purposes which are open on most days during the entire year. Public entry is allowed only from sunrise to sunset, except by written permission. Horses are not allowed. Bicycles are restricted to designated areas only. No boats or flotation devices allowed. The Yolo Bypass Wildlife Area is subject to immediate closure due to flooding in the Yolo Bypass. Within the assigned blind area, hunters must hunt from their assigned blinds, except to retrieve downed birds. Pheasant hunting is not permitted in the assigned blind areas. Hunters may not access the free–roam area north of the northeast unit from parking lot H. Hunters may enter or exit the area only at designated locations. Stopping vehicles between designated parking areas to drop off passengers or equipment is prohibited. Falconry hunting is allowed in designated areas.

REGION 4

(59) Big Sandy Wildlife Area

(A) Method of Take Restrictions: No rifles or pistols may be used or possessed.

(B) Hunt Days: Daily during open seasons for authorized species.

(C) Authorized Species: All legal species.

(D) Camping and Trailers: Not allowed.

(60) Cottonwood Creek Wildlife Area

(A) Lower Cottonwood Creek Unit.

1. Method of Take Restrictions: Limited to shotguns and archery equipment. No rifles or pistols may be used or possessed. Archery equipment only may be used from the start of the Zone A archery deer season until the start of Zone A general deer season.

2. Hunt Days: Daily from opening of Zone A archery deer season through the last Sunday in January during open seasons for authorized species.

3. Authorized Species: All legal species.

4. Camping and Trailers: Not allowed.

5. Special Restrictions: Dogs are not allowed for hunting wild pigs. Motor vehicles are not allowed beyond designated parking area. Horseback riding is not allowed. Hunting is permitted during daylight hours only. Special permit, obtained by special drawing, is required for all entry during the opening weekend of the Zone A general deer season.

(B) Upper Cottonwood Creek Unit.

1. Method of Take Restrictions: All legal firearms and archery equipment. Firearms may be used or possessed only from the opening of the general Zone A deer season through the last Sunday in January. Archery equipment only may be used from the start of the Zone A archery deer season until the start of the Zone A general deer season.

2. Hunt Days: Daily from opening of Zone A archery deer season through the last Sunday in January during open seasons for authorized species.

3. Entry Permit: Self registration required. Special permit, obtained by special drawing, is required for all entry during the opening weekend of Zone A general deer season.

4. Authorized Species: All legal species.

5. Camping and Trailers: Allowed in parking lot only.

6. Special Restrictions: Dogs are not allowed for hunting wild pigs. Motor vehicles are not allowed. Horseback riding is not allowed. Hunting is permitted during daylight hours only.

(61) Kinsman Flat Wildlife Area

(A) Method of Take Restrictions: Only shotguns and archery equipment are permitted during the spring turkey season.

(B) Hunt Days: Daily during open seasons for authorized species.

(C) Authorized Species: All legal species.

(D) Camping and Trailers: Not allowed.

(62) Little Panoche Reservoir Wildlife Area

(A) Method of Take Restrictions: Limited to shotguns and archery equipment. No rifles or pistols may be used or possessed.

(B) Hunt Days: Daily during open seasons for authorized species.

(C) Authorized Species: All legal species.

(D) Camping and Trailers: Allowed in parking lot only, except during authorized dog trials when participants may park trailers at designated locations inside the area.

(E) Boats: Boats permitted but only electric trolling motors allowed.

(F) Entry Permits: Self–registration is required at the parking area.

(G) Special Restrictions: Dogs are not allowed for hunting wild pigs. Dogs must be leashed from April 1 through June 30. Horseback riding is allowed during authorized dog trials only. Motor vehicles are allowed only in designated areas and only during authorized dog trials. Hunting is permitted during daylight hours only.

(63) Los Banos Wildlife Area

(A) Method of Take Restrictions: Limited to shotguns and archery equipment. A hunter shall not possess more than 25 shot shells while in the field during the waterfowl season, except on days when only upland game may be taken, and on special "youth only" waterfowl hunt days when there shall be no restrictions on the number of shot shells taken into the field.
